An Animal Story For Little Pickle

The Striped Leopard

What do you suppose our wild neighbors think of us, who are so tame and gentle and pink, who do not even know how to die? Well, I'll tell you. The wild animals have been watching and waiting. They have been wondering when the little pink babies would be born and whether or not they would come out alive. They have been waiting and watching and waiting. And now they have waited a long time. They have waited until the little pink babies are ready to be born. And now they are born. And now they are alive. And now they are safe. And now they are happy. And now they are free. And now they are wild.

It Costs Nothing

To sell for 300 dollars a security of the United States with the right of a 5% interest? It's a fact. The United States which has never failed to pay a debt of any kind is offering bonds providing for a return of the principal at the end of 20 years with an annual interest of 5%. The bonds are payable in 19 years and 11 months, and the interest is payable semi-annually. These bonds are guaranteed by the United States and are not subject to taxation. The return is secure and the principal is protected. The bonds can be purchased at the office of the U.S. Treasury in Washington, D.C. The cost is only 300 dollars. For information, call the office at 123-4567.
