Good Politics and Common Sense

The decision in favor of the "repeal

police" is the result of public opinion and

common sense. The law is a dead thing

and its repeal is long overdue. There is

a better system of industrial relations

than before, in a number of cases.

The people of the United States

are not yet ready to adopt the proposed

repeal of the Tariff system. The

people of the United States are

not ready to adopt a free trade system

for the world at large. But as far as

the present question is concerned it is

on the way to the solution.
