LIVINGSTON COUNTY FARMERS INSTITUTE

Met at Salem Wednesday and Thursday of Last Week

A GOOD AND INTERESTING MEETING

Senator Crenshaw Lectured on How to Improve Lands in Livingston County

The Livingston County Farmers Institute met at Salem, Ky., Oct. 10, 11, 1906. The exercises began with music and prayer.

Mr. M. F. Robinson was present and introduced Mr. H. Rappolee, who delivered the welcome address. Senator Crenshaw responded. Mr. Robinson made a short talk explaining why the programs were late getting here. Senator Crenshaw lectured on how to improve the lands of Livingston county. Messrs. Farris, W. E. Chipps and McGrew discussed how to care for and dispose of the growing corn crop. W. H. Sherffus delivered a lecture on "The Advantages of Good Seed" and how to secure them. Prof. E. S. Good began the first day's work with a talk on the benefits of an Agricultural Education.

Oct. 11.—The exercises were opened with music and prayer. Senator Crenshaw followed with a lecture on sheep raising. Mr. Robert Mooreland made a few remarks on the needs of an experiment station in Western Kentucky. W. H. Sherffus and G. N. McGrew followed with a further discussion of the subject. Mrs. Lee Threlkeld followed with a very interesting paper on "Beautifying the Home Grounds." Mr. McGrew and Prof. E. S. Good followed with further discussion on the subject.

Senator Crenshaw next lectured on "Alfalfa." At noon the premiums on cooking jellies, cakes, etc., were awarded.

Mr. G. N. McGrew opened the afternoon meeting with a discussion of "How to make baby beef." Mr. W. E. Chipps and Prof. Good followed with a further discussion of the same subject.

W. H. Sherffus closed the program with a lecture on seed corn selection.

Near the Glendale mines spar and lead are being found in great quantities at the depth of five feet. This vein is being opened by contract work with the finest showing at a shallow depth in the district. Arrangements are being made for wagons to deliver the product to the railroad. This property is being opened up under the directions of J. M. Persons.

0 0 0

The Ohio Mining Company under the management of Supt. Davidson are sinking their shaft on the Lynn property as fast as money and men can do it. The outlook is fine for striking a good vein of mineral.

0 0 0

The Leander Mining Company, which is composed of Marion capitalists, have commenced active operations on the Leander White property and intend sinking a new shaft. This mine will be a shipper in the near future.

The Nancy Hanks are doubling their grinding capacity by adding a large tube mill grinder. This mine is among the dividend payers of the Salem district.

0 0 0

In the Frances district, the Taber & Aldridge are raising the usual daily output and both mines are looking alright. These two mines are the old "stand bys" of the district.

0 0 0

The Edwards Mining Company are hard at work sinking a new shaft and washing spar. This company has as fine mineral property as there is in the district.

0 0 0

Dr. Carlstedt representing an Evansville Co., is now at Lola looking over their property with a view of commencing work.

RESIDENCE OF GILL THOMASON BURNS

Wife and Two Children Barely Escape Being Consumed By The Angry Flames

Saturday morning, Oct., 13th, about 1:00 o'clock the good citizens of Marion were awakened from their sleep by the screams of a lady in distress. They at once came to her rescue and found it to be Mrs. Thomason who had barely escaped from the flames of their burning house on East Belleville street with her little boy, seven or eight years old, and little baby.

Mrs. Thomason was alone. Mr. Thomason having left the day before. She did not discover that the house was on fire until the flames broke through the wall into her bed room, she at once left the house not having time to secure any clothing for either herself or the children, and before help could arrive the building was falling in and only a few things were saved.

The origin of the fire is unknown, but it is thought that probably there was fire left in the kitchen where Mrs. Thomason had been ironing the evening before.

There was \$500 insurance on the house, but nothing on the contents. The loss we are unable to estimate but was considerably more than the insurance.

TEACHERS INSTITUTE IS IN SESSION

There are About Seventy-Five Teachers Present

MANY YOUNG TEACHERS ENROLLED

The Institute is Being Conducted By Rev. James F. Price—An Interesting Session

INSTITUTE NOTES

Our learned instructor is not only proficient in the sciences, arts and other subjects but is an adept in the science of courtship. He defined courtship as a skirmish before the regular battle begins.

0 0 0

One young lady said, "I am from the country and they don't teach neatness in the country schools." She is only one pebble on the beach.

0 0 0

Miss Carrie Oliver's speech before the institute was good in more ways than one. It was listened to with close attention.

0 0 0

Rev. J. F. Price makes a good instructor. His work is practical and on a level with the teachers.

0 0 0

Prof. Kee is present and is key to the situation and very much interested in the Marion Graded School.

0 0 0

There are a great many young teachers enrolled and but a few old guards present, but the few that are here are full of interest and enthusiasm for education.

0 0 0

About one-half of the teachers are ladies and this makes a better appearance.

0 0 0

Ex-Superintendent of Schools of Livingston county, Zed A. Bennett, has been with us a day or two and made a very interesting talk.

0 0 0

Dr. T. A. Frezer made us a good talk Wednesday evening on the importance of sanitary teaching.

If you have not got the "Price" you cannot attend the institute.

New Produce Firm

Mr. J. B. Grissom, who has been with the C. F. Jean Produce Co., for some time, has severed his connection with that firm and formed a partnership with G. L. Dial, the new groceryman, on the corner of Main and Salem streets. They will buy all kinds of produce, such as chickens, eggs, fowls, hides, tallow, etc., and invite all the farmers to call and see them.

Composition on a Cow

Mr. Editor:—News is scarce and this is the week of the Institute. I will give you a little girl's composition on the cow.

"A cow is an animal with four legs on the under side, one on each corner. The tail is longer than the legs, but it's not used to stand on. The cow kills flies with her tail. A cow has big ears that wiggle on hinges, so does the tail. A cow is bigger than a calf, but not as big as an elephant. She is made small so she can go in the barn door when nobody is lookin'. Some cows are black and some hook. A dog was hooked once. She tossed the dog that worried the cat that killed the rat. Black cows give white milk, so do other cows. Milkmen sell milk to buy their little girls dresses, which they put water in and chalk. Beef is cow, but not before it is killed. That is a joke. Cows chew cuds, and each cow finds its own chew. Then they swallow their chew and chase another chew to chew. That sounds funny. I guess it's a joke too. That is all there is about cows."

NAAMAN.

AN ORNAMENT TO ANY TOWN

The New Baptist Church Soon to Be Built—Contract Given to Local Builder

The new Baptist church for Marion has assumed during the last few days a more definite shape and the RECORD is pleased to state to its readers that nearly all the plans have been completed and some of the contracts have been awarded.

This church will stand on a plot of ground immediately in front of the old Doctor Crawford residence. This will place the church well up town and close to the business section. We presume the members desired to locate the new church at a point as near the center as possible.

The new church building is to be of brick trimmed with dressed stone, and the roof is to be covered with slate. The basement will be brick. All the windows will be ornamented glass of the opalescent variety. This glass permits all the light to enter but keeps out the sunlight. There will be three large arch windows of four sash to each window.

The building will be 50x68 feet and the main auditorium will be 45x45. The heat will be hot air, and it will be lighted by electricity. It will contain a pastor's study with grate, three Sunday school rooms, one baptistry and two robing rooms. The large Sunday school room will connect with the main auditorium by a sliding curtain. When necessary this curtain can be raised and the auditorium will be increased by the size of the Sunday school room. Then the seating capacity will be from 500 to 600.

It will be seated with pews of approved and late pattern, and these seats will be installed after the raised section plan.

All inside work is to be hardwood. The ceiling is the dome effect and will be bordered by an electric light circle. There will be two entrances. The main entrance from the front corner will be large and have double doors. The side entrance will be for the Sunday school room.

There will be a concrete walk in front and also concrete steps. This church will contain four memorial windows:

One furnished by the Ladies Aid Society of the Baptist church.

One by the Sunday school.

One by Mr. Zed Bennett as a memorial of Mrs. Melville Bennett and one by the family of Judge J. P. Pierce as a memorial of Mrs. Emeline Pierce.

The church committee having the building of this church in charge have awarded the contract to Mr. J. S. Braswell, of this city, for \$6250. This is exclusive of windows, heating plant and seats.

The contract for the windows has also been awarded to a St. Louis firm and the total for memorial windows and all is \$650. The heating plant will cost about \$300 and the seats about \$500. The lot cost \$1200. This will make the total value of the property about \$9000.

Deed Recorded

A. L. Baker to Annie E. Baker half interest in 144 acres, \$250.
J. T. Birchfield and wife to James Vaughn, 40 acres on Piney creek, \$500.
H. A. Haynes and others to Ollie B. Drury, lot in Marion, \$150.
W. I. McConnell and wife to H. L. McConnell, 144 acres, \$1,000.
T. L. Taylor and wife to R. M. Peek, 20 acres, \$250.

ONE OF SALEM'S OLDEST CITIZENS

Passes Away at His Home in Salem Monday Evening

HAD BEEN A MASON FOR MANY YEARS

Funeral Services Conducted Tuesday at the Christian Church By Eld. Rowe, of Marion

Mr. William A. Hayden, one of the oldest and most highly respected citizens of Salem, Ky., died Monday afternoon, October 15, 1906.

He was born in Trigg county, Ky., October 19, 1826, and moved to Salem several years ago, where he had since resided.

Mr. Hayden had been a member of the Christian church for over thirty years, and at the time of his death was an Elder in that church. Prior to this he belonged to the Cumberland Presbyterian church.

He was twice married. His second wife, who survives him, was Miss Sarah L. Threlkeld. Two sons also survive him, Dr. John Hayden and Mr. Octavius Hayden.

Mr. Hayden had been a sufferer several months, from a complication of diseases incident to his advanced age.

He was a noble, christian man, loved and respected by all who knew him.

The funeral services were held at the Christian church Tuesday afternoon, and were conducted by Rev. J. S. Rowe, the pastor.

His remains were laid to rest in the Salem cemetery by the Masons. A very large concourse of friends and relatives attended the burial, and the floral offerings were many and beautiful.

A THRESHING OUTFIT

For a Song—And Mr. Hughes Sang It Himself

Mr. J. J. Hughes, of the top of the hill immediately South of town, is a good financier and knows a thing or two.

Many years ago W. Bennet Crider and Harve Porter bought a threshing separator, but for some reason or other it was never used. It was stored in Bennet Crider's barn until discovered by Mr. J. J. Hughes. By good management he bought this separator for \$8.00. It sounds so unreasonable we repeat the amount \$8.00.

Mr. Hughes then sent \$73 to Minneapolis for a gasoline engine of three horse power and when it arrived he paid \$12 freight. Total expenditures \$93. Now here was an outfit for threshing wheat costing \$93 and which later proved capable of threshing 90 bushels per hour, or 1½ bushels per minute.

Compare the initial cost \$93 with the cost of some of the steam threshing outfits. There are some an this county that cost \$2500. Compare the interest, tax and depreciation per cent and county and state taxes on an outfit for \$2500 and one for \$93. Compare the ease of moving the small cheap outfit with the difficulty of moving the \$2500 outfit.

Mr. Hughes rolled his little bantam down about Crittenden Springs. He was out seven days. Expenses \$10. Profit more than enough to pay for the whole outfit lock, stock and barrel. The separator is a dandy. It saves all the wheat. Some of the other threshing outfit owners contemptuously called it the little chicken feeder. If got there just the same.

As we first said, Mr. Hughes is a good financier and knows a thing or two. He uses the gasoline engine between wheat crops to run a wood saw.

The Stenbridge Tribe Gathered In

The Stenbridge generation all met last Sunday at the home of Sampson in East Marion and swapped news, mostly of the Stenbridge clan. There are about fifty of this family scattered around consisting of four generations. They are all good citizens and good people. Crittenden county would be better off if it had more Stenbridges. May they continue to increase.

Crittenden Pumpkins Takes the Prize

Judge J. P. Pierce has just returned from Princeton, Caldwell county and reports that in a pumpkin contest just pulled off there the largest pumpkins weighed 54 and 50 and 47 pounds. The pumpkins in the RECORD window weighs 95 pounds. Caldwell county had better come again.

Married in Missouri

Morley, Mo., Oct. 7.—Mr. Luther Scott and Miss Mevia Wilkinson were united in marriage at the bride's sisters home on this Sunday afternoon at 4 o'clock. After the ceremony they were invited to a heavy laden table.

They left for a trip on Saturday and will return to Morley, Mo. Mr. Scott was formerly of Crittenden county Ky.

An Infant Dies

An infant child of Mr. and Mrs. Walk Fritts, of the Crookek Creek neighborhood, died Tuesday evening and was buried at Crooked Creek church Wednesday evening.

J. MACK WALKER

Greets Ye Scribe and Tells Him all About It

J. Mack Walker, of Iron Hill, filtered into Marion one day this week, and in answer to a question from the RECORD rounder said,

"Young man I don't care if I do. I very rarely drink anything except about this time of day. Sugar? No sugar, I take mine straight. Young man, as I was saying, I remember very distinctly the last licking your pa gave me. It was with Buck's dictionary. Don't you suppose that old dictionary could be found somewhere? I would absolutely give one of my thirteen horses for that dictionary and young man, I have none but good horses. The way I have good horses is to feed them. Do you know a man can make money mighty fast to work a horse all day and then not feed him. But then the next day he cannot keep the racket up. It will have to stop.

"As I was saying before, my meadow paid me as well, if not better, than anything else. Some people said, 'why don't you plow this up and plant it in corn?' I put it in meadow and it paid me nearly \$20 per acre and paid all the expenses of harvesting to boot. Young man, it is all in knowing how. And speaking of corn, why that corn you have hanging in your window, we don't pretend to pull that kind of off the stalks. We only shuck the good ears and leave such as you have hanging in your front window for the crows to find, if they can find it. I have some corn that actually—. I have one field that pays me as well as anything I have and you will turn your nose up when I tell you what it is. I planted it in plums and persimmons. Now that sounds, don't it? Well young man, the plums come in regular order from right early on down to damask plums and then comes in the persimmons. Our hogs squeal all day to get at those plums and persimmons. If we didn't go out and turn them in we could not hear ourselves talk. I mean I could not hear my folks talk. You know hogs make an unearthly noise when they get real anxious to get to anything to eat and we have to turn them in in self defense, I mean we turn them in through the fence. Where do you suppose I can find Doctor Frazer? I cannot find him anywhere. What time is it? Here you have been talking to me an hour and I should be getting ready to go on back home—Come and see me some time—We are all well, you all well?"

CHARLES MINNER

Well Known Citizen of the Hurricane Vicinity Was Accidentally Killed Last Friday.

While hauling a load of corn Thursday Chas. Minner, received serious injuries from which he died Friday morning.

He was driving down a hill, when the wagon became uncoupled and threw him to the ground, a part of the wagon ran over him and mangled his body.

He was forty-five years old, and leaves a wife and four children.

The burial took place at the Hurricane cemetery.

CATARRH SEASON.

Disease Most Prevalent in the Fall Months. Simple Way to Cure.

At the first warning of catarrh, one should begin using Hyomei. There is no stomach dosing with this treatment: The medication of its healing oils and balsams is taken in with the air you breathe so that it reaches the most remote cells of the nose, throat and lungs, killing the catarrh germs wherever present, and soothing all irritations in the mucous membrane.

You run no risk in paying Haynes & Taylor \$1 for a Hyomei outfit, as they give personal guarantee that if the remedy does not afford relief, your money will be refunded at once. Extra bottles of Hyomei, if needed, cost but 50 cents, making it the most economical treatment for catarrh as well as the only one that is sold on guarantee.

MILTON BABB

The Only Man Who Ever Assessed Crittenden County Single Handed

We noticed on our streets Monday a man whom every one in this county knows. It was Mr. Milton Babb, of Tradewater.

Mr. Babb is an ex-assessor of Crittenden and enjoys the distinction of being the only man who ever assessed the county single handed and all alone.

Of course that was a good many years ago and we very much doubt whether or not he could perform the feat now.

However from the look of his eye, from the grip of his hand and the vigor with which he walks one would judge that he could do the work if it could be done at all.

Since Milt Babb was assessor the population of the county and the assessable valuation of the property has increased to quite an extent.

The story goes that Mr. Babb rode night and day during his memorable assessing feat. When he rode one horse down he mounted another and pushed on.

He would plan his work away ahead and send word to different neighbors and have great crowds of property owners gathered in for a certain night and true to his word of promise he would meet the appointment.

While some would scrape the lather from his steed he would be taking the lists of others. Milt Babb is a wonderful man. He is the embodiment of energy. There is not a lazy bone in his body. Action is his motto. Forward is inscribed on his banner and a log cabin marks time while he exercises his political prerogative.

The RECORD pigeon-wings its right foot crossing the left in making a bow to Mr. Babb.

Don't Borrow Trouble

It is a bad habit to borrow anything but the worst thing you can possibly borrow, is trouble. When sick, sore, heavy, weary and worn-out by pains and poisons of dyspepsia, biliousness, Bright's disease, and similar internal disorders, don't sit down and brood over your symptoms, but fly for relief to Electric Bitters. Here you will find sure and permanent forgetfulness of all your troubles, and your body will not be burdened by a load of debt disease. At Haynes & Taylor drug store. Price 50c. Guaranteed.

Republican Campaign Text-Book

A departure has been made in the Republican Campaign Text-Book just issued, in that its contents are wholly devoted to live issues, and these are treated in the briefest possible way, yet comprehensively enough to include all necessary facts and figures.

First, there is a general statement of the issues of 1906, followed by a brief review of Republican legislation in general and the work of the Fifty-ninth Congress in particular. The Railroad Rate Law, Pure Food Law, Free Alcohol Law, Employers' Liability Law and the Meat Inspection portion of the Agricultural Appropriation Law are given in full, as is Chairman Tawney's clear explanation of the appropriations.

The Labor question is next fully presented, followed by Representative Watson's exposition of Anti-Trust proceedings. About one hundred pages are given to the Tariff, Agriculture and Manufactures, and the tables showing the various phases of industrial activity. Among other subjects treated under the tariff are:

Protection and Free Trade, Customs Revenue, Foreign Commerce, Home Market and Internal Trade, Wages and Prices, Export Discounts, Reciprocity, Free Hides, Revision, etc., etc.

Some half hundred tables give official and authoritative figures down to the latest possible date. The work of the president and administration is then briefly presented, the condition and status of the Philippines, the Panama Canal, the Navy, Postal Service, Irrigation, etc., etc.

The President's letter to Representative Watson concludes the work, which has a copious index of over a dozen pages.

Scattered throughout the book are quotations from President Roosevelt and other Republican leaders. Among these is the extract from Senator Hanna's speech where he used the "stand pat" expression, it being the only instance in the Text-Book where the words "stand pat" are used. A page is given to Mr. Bryan and his views, with the comments of the New York World. A so-called "Prosperity Postscript" is added, giving treasury conditions, trade reports, etc., down to August 1.

For the first time in a political campaign, the Text-Book will have a general circulation, as together with other literature, it will be sent on receipt of one dollar by John C. Eversman, Assistant Treasurer, 1123 Broadway, New York.

What the Fight Is

We clip the following from the May-
field Monitor, a Democratic paper pub-
lished at Mayfield, Kentucky:

"The present campaign is not merely
a fight between the 'ins' and 'outs' as
the machine organs would have the
people believe.

It is a fight of the people to dislodge
the Frankfort machine, a well organ-
ized lot of politicians, banded together
for the purpose of controlling all the
offices of the State and filling their cap-
acious pockets from the State treas-
ury.

And it is a fight that is of much
greater import to the people than they
can at present realize because machine
politics in Kentucky, as applied to the
State, is comparatively a recent thing,
and it is hard for the people to under-
stand its many evils and the great dan-
ger attending its perpetuation.

Machinism represents all that is bad
in politics. It is practical politics gone
to seed. The greatest graft to the
smallest number is the motto of the
machine politician. Statesmanship and
patriotism are completely eliminated
from his creed. The people are all
'dumb-driven cattle' to him, possess-
ing neither private nor political rights
which he is bound to respect, and be-
yond the means they afford for graft-
ing his greed for graft and lust for
power excite no interest in his uncon-
scionable soul.

The Frankfort machine is modern in
every respect. The most up-to-date ap-
pliances for extracting money from the
people's pockets and fooling them
into the belief that they are being rob-
bed for their own good are employed.
Scientific experts, who know all the
ins and outs of machine politics, are in
charge, and nothing that will bring
shekels into the hands of the machine
or increase its power for perpetuation
is being neglected.

This is the machine which Beckham,
Hager, & Co. built, and for which they
are asking a new lease of life. It has
already cost the state untold thousands
in extravagance and misfeasance, and
what it has cost is a mere bagatelle to
what it will cost if continued in power.

This is a machine which the people
are fighting and which they would
sweep from the face of the earth if
they could realize half of its rottenness.

This is the machine which Messrs.
Beckham and Hager are expecting to
put them in power and give one six
and the other four years more at the
public crib.

This is a machine which started out
to build a new State capitol for eight
hundred thousand dollars and asked
the Legislature for two million before
the foundation was completed.

This is the machine that paid \$60,000
for a \$10,000 lot for a capitol site.

This is the machine that paid \$40,000
for capitol plans when they were offer-
ed plans by a reputable architect for
\$16,000, and this same architect offered
to give a bond to build the capitol for
\$825,000.

This is the machine that paid \$24,000
for printing, when under their contract
it should have cost \$4,000; and at another
time they give away \$12,000 or
\$13,000 in the same manner.

This is the machine that paid \$124,000
for extra attorneys' fees to their pets
in four years.

This is the machine that lowered the
rate of taxation 2 1/2 cents on the hun-
dred and raised the value of property
35 per cent., making the tax much
higher than before.

This is the machine that has taxed
everything in sight and levied back

taxes that it might have money to meet
its wasteful and extravagant practices.

This is the machine that put the
charitable institutions in the hand of
Percy Haley, a Frankfort politician
who learned statesmanship in his fathers
saloon.

This is the machine under whose
management brutalities have been
practiced at the Lexington asylum that
have resulted in the death of one pa-
tient and perhaps more.

This is the machine that comes up
and whitewashes all such deviltry, for
fear it might hurt the administration
and get some of its pets in prison.

This is the machine that makes poor
women attendants in the asylums pay
part of their \$25 a month salary to
Gov. Beckham's campaign expenses.

This is the machine that makes all
the attendants, clerks and guards at
the charitable and penal institutions
contribute to the campaign expenses
of the machine candidates, or lose
their jobs.

This is the machine that uses clerks
in the Auditors office and all other
State officers to send out campaign
literature for Messrs. Beckham and
Hager while they are being paid for
services by the State.

This is the machine that created new
offices and increased the salaries of
old ones to the extent of \$50,000 per
year.

This is the machine that killed Sen-
ate Bill No. 25, which was intended
to pay parties who were summoned
for jury service and not used for the
loss of time, because it would have
about \$10,000 a year in the people's
pockets and thus deprive the machine
of the use of this amount.

This is the machine that levied a tax
of \$1 on a poor man's dog that
they might have more of the people's
money to handle.

This is the machine that created the
Board of Control that is now paying
extravagant prices for supplies for the
charitable institutions, thus enriching
their friends at the expense of the
State.

This is the machine that created the
office of Fire Commissioner for Mott
Ayers at a salary of \$3,500 per year,
and the office of Assistant Fire Com-
missioner to provide a soft place for Beck-
ham Triplett, the Governor's nephew,
at about \$2,000 per year; and the said
Mott Ayers has moved his office from
Frankfort to Louisville, where he is
conducting Mr. Hager's campaign
while being paid by the State to do
nothing.

This is the machine that doubled the
number of guards at the prisons
while the increase in prisoners was not
over ten per cent.

This is the machine that provided fat
offices for all the members of the legis-
lature who voted for their measures
of graft and plunder.

This is the machine which gave the
Senator from Graves county a soft job
as Manager of the Confederate Soldiers'
Home at Pewee Valley, at a salary of
\$1,800 per year and living expenses for
himself and family, because he betray-
ed his constituents and voted for the
candidate for U. S. Senator against
Joe Blackburn.

This is the machine that pays the
editor of the Lyon County Herald \$75
per month to sit in an office at Eddy-
ville prison and edit two papers defend-
ing Messrs. Beckham and Hager in
their extravagances and mismanage-
ment of State affairs.

This is the machine that buys up
papers that fought them in the cam-
paign three years ago, and makes them
present the sorry spectacle of having

sold their birthright of honor and man-
hood for a mess of pottage.

This is the machine which Messrs.
Beckham and Hager and Percy Haley
and Mott Ayers and all the various-sized
satellites are asking the people to
endorse.

And this is the machine which the
people intend to snow under 'deep and
strong' at the primary next month."

A Live Wire

Every nerve is a live wire
connecting some part of the
body with the brain. They are
so numerous that if you pen-
etrate the skin with the point of
a needle you will touch a nerve
and receive a shock—pain it is
called. Aches and pains come
from a pressure, strain or in-
jury to a nerve; the more prom-
inent the nerve the greater the
pain. When the pain comes
from a large nerve it is called

Neuralgia

whether it be the facial nerves,
or the heart, stomach, sciatic
or other prominent nerve
branch. To stop pain, then,
you must relieve the strain or
pressure upon the nerves.
Dr. Miles' Anti-Pain Pills do
this.

"I suffered intense pain, caused by
neuralgia. I doctored and used vari-
ous medicines without getting relief
until I began taking Dr. Miles'
Anti-Pain Pills. They did me more
good than all the medicines I ever
used. They never fail to cure my
headaches, and their use never leaves
any bad after-effects."

OUR MISTAKE

In last week's issue of the RECORD under the heading Beckham did not explain, we said the tax rate was 50 cents under the Bradley administration and 2½ cents was added to pay a debt contracted by the Democratic administration prior to the Bradley administration, but we find from re-examination of the acts that the tax rate under the Bradley administration for correct expenses was only 42½ cents and ten cents raise on that to pay a Democratic debt and the tax rate under the revenue law passed by the Republican administration was to drop back in three years to 47½ cents and remain at 47½ cents, it was believed by the Republican administration that 42½ cents was sufficient to raise enough revenue to pay current expenses and create a fund to build a new capital, as a matter of fact the Republican administration only received the revenue from the 47½ cents rate, it paid the running expenses of the Republican administration and a surplus was saved which was turned over to the Beckham administration when he was inducted into office.

The Crittenden Press has no doubt broken its heavy lithographing machinery once more and probably this accounts for the absence of the "but-terfly paper." We are sorry. Why did you not call on us? You said you would. Our lithographing plant is in full bloom. We always try to assist brothers in distress. We know how hard it is to keep lithographing presses and lithographing stones in tune. No doubt the frustration caused by this breakage in machinery occasioned the double cross eye which explains the Mt. Carmel head on Princeton Presby-tery article and vice versa.

How times do change! Thirty years ago if a young man had been seen in company with a young lady with a cigar in his mouth blowing the "sweet smel-ling" fumes in her face he would have been ostracized from the refined society of the whole community—would have been regarded as no better, nor more refined than a brute. It is not that way now.

PAUL M. MOORE

Of The Earlington Bee Will be Nom-inee For Congress

Paul M. Moore, of the Earlington Bee will be the nominee for congress on the Republican ticket.

In the same issue of his paper we notice a very hot story about "Furgurson's Paradox." Below we give the tale as dishd out by the Bee.

Now whether or not a nomination for congress puts an editor into a hot air condition we do not pretend to say—Here follows the tale and you may judge.

"A mechanical problem that has defied machinists and scientists for more than two centuries was solved last week by an Earlington mechanic. A working model was exhibited in this office for several days.

More than two centuries ago an English mechanic named Furgurson constructed a mechanical puzzle consisting of three cog wheels geared directly together by means of closely fitting cogs and which gave the incredible result that the first and second wheels would rotate in opposite directions whilst the third stood still although directly geared with the second wheel. It seems that Furgurson left no working model of what is known the world over as "Furgurson's Paradox" and from then until the present time his strange device baffled more mechanical ability than any other problem ever sought except perpetual motion and so far this has successfully defied every effort. This mysterious combination was, however, solved last week by an Earlington mechanic.

W. A. Toombs of the St. Bernard mechanical force, announced one day last week that he had solved the problem at which machinists had balked for more than two centuries and a day or two later he placed on exhibition in this office a working model of "Furgurson's Paradox" which has been exhibited to a large number of our citizens. He will withdraw his discovery from exhibition as all his time is otherwise employed and will only say in discription that the "Paradox" consists of three metal cog wheels geared directly together, that two wheels will turn whilst the third stands perfectly still and that it works equally well from right to left or vice versa. It has excited the wonder and admiration of all who have beheld it and is undoubtedly the strangest mechanical combination ever produced in this or any other age."

There comes to the RECORD table bulletin number 285 of the United States Geological Survey report and it is marked "Contributions to Economic Geology." One of these contributions is entitled "Clays of Western Kentucky and Tennessee," and is written by Mr. A. F. Crider. It consists of ten or twelve pages and together with a map is a very valuable record.

BITS OF BYPLAY.

Mr. Harry Haynes has one son for whose future he is somewhat anxious. During the summer he sent young Wilbur to the garden for radishes and he brought back beets. When he returned Mr. Haynes calmly raised his eyes and said, "My son would you know beans if the bag was open?" All of which goes to show that young Wilbur's attention may be so taken with other things that he is not up on garden sasses or it may be he likes beets better than radishes.

Mr. J. B. Gill is down on Roosevelt's new penny netic spelling. "Why don't you know," he explained, "Roosevelt will make a million dollars out of this new spelling. The book trust will get to issue new school books and they will gladly give Roosevelt \$1,000,000.

It is not given to all mankind to be philosophical. However there are a fortunate few who are blessed with a turn of mind that meets with no obstacle and that solves all riddles easily and with dispatch and to such comes the difficulties of life only to be smashed instantly. The Hon. Bob Donaldson, high chief of the stable of W. D. Wallingford, is possessed of a philosophical mind. There comes no difficulty however strenuous that he does not surmount with ease. Several years ago Bob drove a spanking team out of Wallingford's stable and rounded in front of the Marion Hotel. The team and trappings glistened in the sun and the buggy was the cynosure of all eyes. Mr. Harry Allis came forth and soon the pair and outfit were bowling over the fine roads towards Weston. They staid on the road three days and made quite a number of towns. At Kelsey Mr. Allis dismissed the driver and team and as usual inquired how much Bob was going to charge per day. With a philosophical twist of the mind Bob replied, "Dudley said to charge you \$2.50 per day, but if you kicked to only charge \$2 per day."

"Well," said Harry as solemn as a judge, "I kick."

The bright young man at table of peptinoidal tendencies brazenly gave out this at meal time. Why is a sheet of paper like a lazy dog? All gave it up. Here is his solution—A sheet of paper is an ink lined plane. An inclined plane is a slope up. A slow pup is a lazy dog. At this the bottle of pepper sauce fell over.

There is considerably more in this world that is uncertain and indefinite than otherwise. We believe it has been said that there was nothing sure but death and taxes. As an illustration of indefiniteness we note a local squib in a paper published in Sturgis. Mr. Mosgrove is the editor. The post office site had been changed and the local notice read something like this, "The postoffice has been moved from where it was to where it is at."

Dr. T. H. Cossitt, the dentist, made an awful mistake not very long ago. The good doctor kept noticing in the mirror that his mustache and whiskers were getting very gray. Looking into his wives face he noticed quite a youthful look and the contrast was too great so the doctor procured some sort of hair dye and made the application to mustache and whiskers. After it was all properly done he looked into the mirror again and there saw to his perfect amazement that his beard and mustache were red. Of course he had to go to the barber shop and that accounts for the doctor's clean shave.

Jim Parris, the uncertain shoemaker, cobbler, saddler, harness maker, shoe soler, rubber healer, has gone to the far West. Just at the time when he got to making buckle and tongue meet he pulls up and pulls out.

There is no telling what a shoemaker will do. They are as uncertain as a printer. Jim left on the train waving goodbye to old landmarks.

He carried a bushel of potatoes on his shoulder for ballast. We trust he will find shoes to work on in Texas. He will be pretty sure to find room to plant his potatoes.

Bill Fowler, the president of the Farmers Bank, says he might (a cent on the night) be persuaded to pay \$200 for a good mare, but that it would be very late in the day with the sun dropping down behind the eastern hills when he would give \$200 for a work mule.

We have a little correction of last weeks notice of W. J. Woodall. Mr. Woodall began business with a barrel of coal oil, a keg of soda and a box of axle grease. He began business in 1892 in a granary which was 10x14.

AMONG OUR CHURCHES

There was preaching at the Baptist church last Sunday morning and evening by the pastor, morning subject "the trinity of Christ" or "His three-fold Relation to the great plan of Salvation." At night he spoke on "What to seek and how to seek it." Text Matt. 6:33. Audience good and singing excellent.

Services again next Sunday, the public cordially invited.

Rev. Virgil Elgin filled the Methodist pulpit last Sunday and preached to a large and appreciative audience.

Subject:—"Building Christian Character". Text, Jude, 20-21.

The metaphue of the text is taken from architecture.

In building three things, at least, are necessary, 1st Foundation; 2nd erection of the superstructure; 3rd completion. So in Christian Character:—1st. The foundation, characterized in the text, "on the most holy faith," true faith in Christ seems an experience for a foundation for the religious life. As

the foundation must be substantial in order to support the building, so must the foundation for the religious life be genuine or not spurious. 2nd.—After the foundation, the architect begins gradually to erect the superstructure. Brick upon brick or piece of timber to piece of timber, gradually the building is erected. So of Christian character it is not built in one day, but in a life. First baby to change, then begin a gradual growth to man. The means of growth and development of character, particularly mentioned is prayer. Prayer has been divided as to its benefits into two kinds, subjective benefits and objective benefits. It has also been divided into four classes, ejaculating, private, family and public prayer. But our prayer must be in the "Holy Ghost" not in our means of strength. "The spirit helpeth our infirmities, etc." "Keep yourselves in the love of God" Christians are not exhorted to get in the love of God, but "keep in the love" Gods love abounds, and to get in it and keep in it is the duty of man.

2nd.—When the building is erected, then the finishing, and the superstructure is complete. The completion of character is "looking for the mercy of our Lord Jesus Christ eternal life." After all we have done and may do, salvation is by grace. Grace not only "continued the plan to save rebellious men" but "grace has brought us safe, thus far and grace will lead us home." Says the apostle, "by the grace of God I am what I am."

REV. SAM P. JONES

The Noted Evangelist of the South
Expires Suddenly on Train
in Arkansas.

Rev. Sam P. Jones, the evangelist, died on a Rock Island train Oct. 15, 1906, near Perry, Ark.

Mr. Jones had been conducting a revival at Oklahoma City, Okl., and was on his way home to Cartersville, Ga. His wife and two daughters were with him.

Mr. Jones was born Oct. 16, 1847. He was on his way home to celebrate his birthday and attend a family reunion. Mr. Jones lectured in the opera house in Marion several years ago and will be remembered by many. Here follows a few of his characteristic sayings:

I tell you what tickles me; to see an old sinner come in and pull out an old lame, dwarf member of the church, and lay him down, and measure by him. "Look here, boys; I am as long and broad and good as this member of the church!" I would die, if I was a decent man, to lay myself down by the side of such a man. Why don't you go and pick out one of these grand old Christians? You would look like a rat-terrier lying by the side of an elephant. You quit measuring by these dwarfs.

"Some people are good because of the police force."

You don't believe what you don't see. Did you ever see your backbone? Some people believe they have a backbone, when it is nothing but a cotton string run up their backs.

"Certain folks raise \$50,000 horses and 50-cent children."

BAKERS DOZEN OF MINISTERS

One Reason Marion Is a Good Place To Live

Not many towns of the size of Marion can boast of as good moral tone as can Marion. We have over 2,000 people and to hold that number in line we have a bakers dozen ministers of the gospel.

The Baptist lead the van with six preachers.

Rev. E. B. Blackburn,
" J. H. Butler,
" T. C. Carter,
" J. S. Henry,
" T. A. Conway,
" U. G. Hughes,
" John Brown.

Next comes the Presbyterian.

Rev. J. F. Price,
" Ben Andres,
" W. T. Oakley,
The Methodists have two,
Rev. Virgil E'rin,
" R. C. Love.

The Christian church has one.

Rev. J. S. Rowe.

This makes the bakers dozen, 13.

If you live in the county look over this list of men and if you think you can find the right church and right preacher, move to Marion and be one of us.

Mrs. Henry Slightly Improved

Mrs. James Henry has been in St. Mary's Hospital at Evansville, and has withstood a severe surgical operation.

The operation was thought to be very successful and Mr. Henry was permitted to come home.

Tuesday she was not so well and Jas. Henry and Rev. J. S. Henry were summoned to her bedside, and we regret to report that her condition is very grave and her many friends are very anxious as to the probable outcome.

LATER—As we go to press news has been received that she is some better, and they have strong hopes of her recovery.

R. S. PARIS ANNOUNCES.

TO THE DEMOCRATS OF CRITTENDEN AND LIVINGSTON COUNTIES:

After the solicitations of many friends of both counties and after a careful deliberation of the question, I have decided to offer myself as a candidate for Representative in the next General Assembly of Kentucky.

I place my claim before you as a Democrat and subject to your will at the November primary. If nominated and if elected I shall strive to represent the whole people and wear the collar of no man or faction, but offer a faithful and impartial discharge of the duties incumbent on me. If you decide otherwise the successful candidate shall have my heartiest support. Very Respectfully,

R. S. PARIS, Loia, Ky.

Dr. R. L. Moore has just returned from Evansville, Ind., where he went to consult Dr. Knapp concerning his eyes. He was very much pleased to find out that all he needed was a change of glasses which was done and Dr. Moore came home. Mrs. Onie Moore and little daughter, Roberta, accompanied him.

PRINCETON PRESBYTERY

Of Cumberland Presbyterian Church,
U. S. A., Met at Princeton
October 9, 1906.

Princeton Presbytery of the Presby-
terian Church U. S. A., met in Prince-
ton, Ky., Tuesday, Oct. 9th, 1906, at
7:30 p. m.

The opening Sermon was preached by
the retiring Moderator, Rev. R. H.
Anthony from John 8:31, 32. His theme
was, "How the truth makes us free." He
clearly showed that narrowness and
sectarianism was inconsistent with
the eternal truth of God. Five
congregations and two ministers were
transferred from the Louisville Presby-
tery of the Presbyterian Church, U. S. A.,
to Princeton Presbytery. Rev. E.
H. Bull, of Hopkinsville, preached an
able sermon Wednesday, 11 a. m., on
the theme "Evangelism." He said this
was the keynote of the Presbyterian
Church, U. S. A., and showed the
wonderful work done in that direction
and the thousands brought to Christ
through their means of Evangelism. He
pressed the importance of every
church member being a soul-winner.

Wednesday afternoon was devoted to
live topics pertaining to church work
and embraced such topics as the "Pres-
byterian Brotherhood," men's organiza-
tions, and etc. Judge J. I. Landis, of
Hopkinsville, made fine speech on this
line. Good speeches were also made
by Dr. R. L. Moore, Marion, Ky. and
Jas. West, Hopkinsville, Ky. Rev. A.
J. Thompson, of Kuttawa, preached an
excellent sermon on Missions, on Wed-
nesday night. It was soul stirring be-
cause of its facts and full of the Holy
Ghost. He clearly showed that the
mission of the church was to go out
and save the world.

The work of the Presbytery was ex-
cellent. The report of the committees
were encouraging. The Presbytery
was thoroughly organized in all depart-
ments for the purpose of saving souls
and building up the church in all its en-
terprises.

Fourteen congregations were repre-
sented and seven ordained ministers
were present. A sweet spirit pervaded
all the transactions of Presbytery and
every one present seemed to enjoy
its sessions. Presbytery will hold its
next meeting in Madisonville. It closed
with a very sweet impressive sacra-
mental service.

When the tip of a dog's nose is cold
and moist, that dog is not sick. A fev-
erish dry nose means sickness with a
dog. And so with the human lips. Dry
cracked and colorless lips mean fever-
ishness, and are as well ill appearing.
To have beautiful, pink, velvet-like lips
apply at bedtime a coating of Dr.

and heal any skin ailment. Get a free

Use Dr. Shoop's Restorative to Cure
the Cause, If You Suffer From
These Symptoms.

Here are the symptoms of Kidney complaints:
Urine laden with sediment, brick dust in urine,
highly colored urine, greasy froth or blood
in it, stinging mucus in urine, unusual de-
sire to urinate, pain in passing water, pain in
the back and over the kidneys, hot, dry and
itching skin, hair dry and brittle, pain
ful joints, legs feel heavy, sleeplessness,
dullness, loss of weight, chilly sensa-
tions, loss of memory, dry, general debil-
ity, irregular heart, disorders of
digestion, constipation, trouble with
bearing, waxy scales, skin, fever,
shifting from one foot to the other in
standing, worse than
none Most effect from
remedies called
are practically
action on the bowels.
They excite the kid-
ney, they cause over-
strain. These dur-
etic remedies are them-
selves the frequent
cause of serious kidney disease. Don't try to
doctor the kidneys themselves, for you will only
harm them. Their only strength is nerve
power. Dr. Shoop's Restorative (Tablets or
Liquid) vitalizes the nerves that operate the
Kidneys. Sold and recommended by

Thos. Gallaher Says Tobacco Supply is Short in Great Britain and Prices Will Remain Up.

The Owensboro Messenger of Owensboro, Ky., in a recent issue publishes an interview with Mr. Thomas Gallaher the prominent Tobacco manufacturer of Belfast, Ireland, who is now in this county looking after his various interests here. According to a statement made by Mr. Gallaher there will be a large demand and good prices for the product during the next three years before the market in Great Britain is again stocked. He gave it as his opinion that the supply of tobacco is decidedly short in Great Britain and that the demand would probably exceed the supply for several years to come.

Although about seventy years of age Mr. Gallaher is said to be unusually active. He will spend several weeks visiting his several plants, and when in Owensboro he pronounced his factory there to be one of the best equipped in the country and contemplates making no immediate alterations.

BLOW OUT THE DUST

Here is a thing which all Cigar smokers might overlook with profit to themselves. Before lighting a Cigar bite off the end and, placing the part to be lighted between your lips, blow through it. In this way you get rid of a fine dust that accumulates in a cigar when it is dry, which is apt to inflame your vocal chords and injure your voice. It is a valuable hint to vocalists, and there are quite a number of professional opera singers who never light a cigar until they have blown out the dust. To the failure to do this may be attributed in great part the throat diseases with which steady smokers are afflicted.

Preventions, as the name implies, prevent all Colds and Grippe when "taken at the sneeze stage." Preventives are toothsome candy tablets. Preventives dissipate all colds quickly, and taken early, when you first feel that a cold is coming, they check and prevent them. Preventives are thoroughly safe for children, and as effectual for adults. Sold and recommended in 5 cent and 25c boxes by Haynes & Taylor.

No Cut In Insurance Fees

The following is a report of the Committee on Life Insurance Examinations was unanimously adopted by the Kentucky State Medical Association on October 11, 1906, at Owensboro, Ky., and the Secretary was instructed to send a copy to every doctor and newspaper in Kentucky:

Your committee on Insurance has carefully considered the subject of medical examinations and the reduction of fees, proposed by certain of the old time companies, and submits as its report the following preamble and resolutions:

WHEREAS, The recent official investigations of the three great life insurance companies of New York clearly developed that the medical departments were among the few which were not honeycombed with mismanagement or corrupt; and,

WHEREAS, The legislation resulting from the investigation intended to cure evils existing elsewhere was at once seized upon as justification for a long premeditated, concerted and systematic plan for debauching these departments by lowering the standards and compensation for medical examiners, employing and importing into every section recent graduates and men who have failed in practice, as well as representatives from the lowest grades in profession, thus destroying what has always been recognized as a fundamental safeguard in sound life insurance; and

WHEREAS, While nothing could justify such a short-sighted course the official reports of the income and expenses of the insurance business in this state and the country at large, last year, and during all of its history, and the facts in regard to the recent legislation in New York make ridiculous the plea that the action was necessary in the interest of economy or was caused by such legislation. Now, therefore, be it

RESOLVED, by the Kentucky State Medical Association, in annual convention assembled, That this organized and concerted attempt to lower the standard and compensation of medical examiners all over this country is not only most unjust and degrading to our profession, but is so unsound as a business proposition that it cannot but ultimately prove most expensive and dangerous to all policyholders in these companies, made up of our patrons and ourselves;

RESOLVED, That a large experience having demonstrated that the thorough and painstaking examination of every applicant for insurance cannot be made for less than five (\$5.00) dollars, we recommend that this amount be fixed as the minimum fee, and shall be morally binding on all members in this state on and after January 1, 1907.

RESOLVED, That in view of the vast interests involved we urge the profession in every county in this state to meet at the earliest practicable day and arrange for organized resistance to this organized and inexcusable oppression. We advise that this be done outside of the society, and that, so far as possible, it include every reputable physician in the county, whether a member of the society or not. We advise that the agreement be not made a test of membership, our reliance being upon the justice of our cause, a spirit of mutual helpfulness and co-operation, and our evident duty to protect the best interests of policyholders;

RESOLVED, That we pledge our cordial support to those companies which have so managed their affairs that they have never been tainted with charges of corruption, and consequently have not found it necessary to degrade their medical subordinates, or otherwise destroy the protection to policy holders, and our Secretary is hereby instructed to publish a list of such companies in each issue of the Journal, upon condition that they are approved by our active and fearless state commissioner of insurance;

RESOLVED, That we also pledge our support to the Inter-National Policy Holders' Association, which is supporting the United Committees' Ticket the middle one on the official ballot, in every effort it may make for the protection of the interests of policyholders; that our secretary is hereby instructed to furnish each county society in Kentucky with an ample supply of ballots to the tickets supported by this Association for trustees of each of such companies, and that we appeal to the profession in each county and state in the United States to co-operate with us in this movement.
