Monsieur Bourgeois on a short errand: "Hope things are better now."

Mr. Jones: Yes, thank you. It was quite unexpected. I've been busy with some paperwork.

Monsieur Bourgeois: Ah, I see. Well, I must be on my way. Take care, Monsieur!"

---

Monday Morning

The sun was shining on the busy streets of the city. Monsieur Bourgeois walked briskly down the street, his steps echoing in the morning sun. He had just arrived at his office and was prepared for a day of work. As he entered his office, he greeted his colleagues with a warm smile. They all returned his greeting and got down to work.

TELEPHONE 125
FRIDAY, OCT. 26, 1894

We notice in an exchange that there has been a change in the ownership of the Standard Motor Works. The firm has been sold to Mr. John W. H. and his associates.

We were not aware of the fact, but it seems that the Standard Motor Works has been sold to Mr. John W. H. and associates.

The firm has been active in the manufacture of motors and other machinery for many years, and we understand that it is now in the hands of the new owners.

The new owners have already made a number of improvements, and we believe that the Standard Motor Works will continue to operate under their management.

The change in ownership is expected to result in a considerable increase in production, and we are confident that the new managers will be able to keep up with the demand for their products.

The Standard Motor Works has long been known for its high quality and reliable performance, and we expect that the new owners will continue to maintain this reputation.

We are pleased to learn of the change in ownership, and we wish the Standard Motor Works every success in its new venture.

We can now recommend the Standard Motor Works as the best source of supply for all types of machinery and equipment.

Please call and see the new owners, and let them know that we have recommended them to our customers.

We are sure that they will not disappoint us, and we look forward to working with them in the future.

Thank you for your attention to this matter.

Yours truly,

The Texas Fast Mail

During the last twenty-five years, and the early part of last spring, the construction of the railroad has made great progress in the eastern division of the state, and the extension of the line from Texas and Louisiana, west to the Rocky Mountains, has been completed.

The mail is in sight of the old county line and is now ready for use. The trains leave from the station in J. B. Harter, and are run to the city of Denver, where they connect with the line from there to the Rocky Mountains.

For the carrying of the mail alone, the railroad has been a great success. The number of mail carriages has increased from hundreds to thousands of dollars, and in consequence, the cost of running the line has been reduced to a minimum. The mail is now handled by the Missouri Pacific Railway, which is the line that carries the mail west to the Rocky Mountains.

The mail is in sight of the old county line and is now ready for use. The trains leave from the station in J. B. Harter, and are run to the city of Denver, where they connect with the line from there to the Rocky Mountains.
