# A CALL MEETING

#### The Citizens of Marion are Requested to Meet at the Court House

To the Citizens of Marion, Ky.

Meet me Friday night, Nov. 9, in the court house-all business men property owners and good citizens of Marion.

Marion has missed a good thing.

Come and let us reorganize our late Commercial Club. Everyone who has the good of Marion at heart is urged to come. The fire annihilated the old club. It probably would have gone down on account of many mistakes if there had been no fire. Let us profit by those mistakes, I repeat Marion, has missed a good thing. The offer came by and through the efforts of the old club. Do you want anything for Marion? Do you want more people? Do you want your property increased in value? Would you turn your hand over to get a good manufacturing enterprise for Marion and thereby, help everybody in Marion and Crittenden county? If you would, come and let

us reason together. Marion has missed a good thing. Suppose we don't missed the next.

Yours truly. T. H. COCHRAN, President

## A CALL MEETING

#### The Citizens of Marion are Requested to Meet at the Court House

To the Citizens of Marion, Ky.

Meet me Friday night, Nov. 9, in the court house-all business men property owners and good citizens of Marion.

Marion has missed a good thing.

Come and let us reorganize our late Commercial Club. Everyone who has the good of Marion at heart is urged to come. The fire annihilated the old club. It probably would have gone down on account of many mistakes if there had been no fire. Let us profit by those mistakes. I repeat Marion, has missed a good thing. The offer came by and through the efforts of the old club. Do you want anything for Marion? Do you want more people? Do you want your property increased in value? Would you turn your hand over to get a good manufacturing enterprise for Marion and thereby help everybody in Marion and Crittenden county? If you would, come and let

us reason together. Marion has missed a good thing. Suppose we don't missed the next. Yours truly.

An Old Insurance Man Strikes Easy

There used to be in old Webste county a poor insurance man by the name of T. K. Wilson. If we mistake not Mr. Wilson lived at Sebree, Ky., and wiped up dust and mud from Websters roads for several years. He wrote fire insurance and looked after the interests of the Continental Insurance Company in their farm department and with all made a living. His business increased not to his liking. It increased to such an extent that he finally had a good opportunity to dispose of his agency which he did to advantage. In the final wind up and clean up Mr. Wilson flanked very nearly \$ .000.00 and in March 1905 (about a year and a half ago) he dusted the dirt from his shoes and started for Tampa, Florida. Mr. Wilson stayed there about a week and saw that for him there was nothing doing.

He then went to St. Petersburg. Florida. At that time the place had 3,000 people. Mr. Wilson looked about. There was only one bank there and it was called the First Nationl. He thereupon organized The National Bank with \$25,000 capital, selling each big man or merchant \$1,000 of the stock. He kept \$5,000 stock. That bank now has on deposit \$210,000.00.

Rev. J. F. Price preached last Sunday morning at the C. P. church on the subject of Missions. He showed from subject of Missions. He showed from the Bible that salvation was intended for the whole world and that the great commission bade us go to all. He showed why the world is not savedits natural sinfulness, the church's inthought. His eyes finally rested on a difference and varlessness. He then showed the wonderful opportunity ed by the sounds had come to the court the church has at the present time. The theme for the evening service was eyes on Bob steadily and prepared him-self for an oratorical outburst of great showed the various stages of love, and

THURSDAY MORNING

(Continued from last week) After the usual devotional exercises which were conducted this morning by Rev. Andres, and after the roll cal Prof. V. G. Kee made a motion to set aside forty minutes of the institutes time to be used by Prof. C. C. Cherry, of the State Normal School in an ad dress to the teachers.

Prof. Cherry after thanking the institute for the courtesy just shown made an eloquent and very interesting talk on the need of better teachers and schools in Kentucky. He pointed out that in asmuch as at present the teachers of Crittenden represented about 5,000 school children, the training of those teacher was a very important factor in what Crittenden county and Kentucky would be forty years from now. He gave statements of facts proving that Kentucky stands thirty-seventh in the number of her educated population, saying that the changing of this condition depended on the teacher. He voiced the sentiment of the teachers present when he said that the state maid her teachers generously and that - nuthing more should be expected from her. He plead for a local tax which would make it possible for a good teacher to receive just conpensation.

After his address, Rev. Price made a few comments on the statements just made, saying that it was good for our teachers to be with and feel the spirit of a man who had accomplished so

During the short recess the mornings regular work was resumed.

Miss Mattie Perry talked of "Geography", giving some interesting ideas with teaching of the subject. Some of tier plans are, imaginary trips, pictures of places and people, and the use obicets. She said that geography, correctly taught tended more to broaden the mind of the child than any study.

Both the Superintedent and Instructor made a talk commenting on the -morning's work,

A motion was made and seconded that Prof. Cherry be invited to speak -before the institute again during the afternoon and that the citizens of the town be invited to come and hear him. Motion carried, and institute adjourned until regular time for meeting in the evening.

#### THURSDAY AFTERNOON

After the usual exercises Miss Mary Towery commenced the evening's work with a talk on making things practical beginning with the things we see about us. Mr. W. O. Wicker spoke of the importance of commercial geography. His main object in teaching, was, he said, to see what we get from and return to each country with whom we trade. The methods of geographical study and the, value of map drawing was discussed by Mr. W. J. McChesney. The economics of geographical study was discussed from every standpoint by tion is an essential for health. Burl Woodson.

The subject of geography was then taken up and discussed by the body as for that time was finished, a motion the County Superintendent with the

a whole. Prof. Cherry then accepted the invitation of the Institute to speak before the body on the subject of "The Public Schools and how we can make it better. He proved in many ways that it pays a community to build good school houses and employ good teachers and pay them well. He proved, also, that the productive value of any people depends entirely upon their education. No nation be said has or can make itself poor by spending money for educating its people. He said that the patrons of our schools would never take an interest in our schools until they did something of material value for them. He made a plea for teachers who were interested in and loved their work, and who intended to devote their lives to it as a profession.

After Prof. Cherry's address, a short but pointed talk on higher salary for wachers was given by Rev. Price.

Recess. The topic of school government was taken up and discussed by Mr. P. M. Ward. He pointedly showed that the disciplinaries is needed in every school room, and that on the childs discipline depended his future character, to a great extent.

School punishment was defined as an infliction of pain on the body or mind by the teacher as a correction of a fault of the pupils by Mr. E. J. Travis. He regards all cruel punishment as a relic of savagery. Never use, said he ridiculer nor sarcasm as a punishment but always try to fit the punishment to the child and its deed.

Adjournment until Friday morning at nine o'clock.

#### FRIDAY MORNING

After a song by institute the devotional exercises were conducted by Rev. Elgin. Roll called by secretary.

Kev. Price opened the morning work with a short talk on the "Sensibilities" He described the physical sensibilities as including sensations, appetites and instincts and the physical emotions, affections and desires. The speaker

told of the value of kindergarten and showed that some training of emotions or the instinct of power must be made. He said that the fairy tales were now only realized emotions and the toys of a nation are prophecy of that nations

Broadening of the mind, strengthening of the intellect and will power, and a love for home and country Mr. A. A. Fritts believes to be the chief ends to be attained in the study of history. History, he said, takes us from what we are to what we can be or may be. Rev. Price pointed out that inasmuch as history is a life study a common school teacher can hardly do more than lay the foundation for the study and instill the child with a love for it.

Miss Gill urged the cultivation of the imagination, saying that without it no teacher could do very much in any study. Miss Todd confimed Miss Gill's

Rev. Price asked, "What features would you bring out in primary history?" The institute seemed to think Rev. # Heart Weakness

The action of the heart depends upon the heart nerves and muscles. When from any cause they become weak or exhausted, and fail to furnish sufficient power, the heart flutters, palpitates, skips beats; and in its effort to keep up its work, causes pain and distress, such as smothering spells, short breath, fainting, pain around heart, arm and shoulders. The circulation is impeded, and the entire system suffers from lack of nourish-

Dr. Miles' Heart Cure makes a heart strong and vigorous by strengthening these nerves and

"I had palpitation and pain around my heart, and the doctors said it was incurable. I don't believe it now, for after taking six bottles of Dr. Miles' Heart Cure, three bottles of the Nervine and three boxes of the Nerve and Liver IMIs I am entirely cured, and feel better than I have for five years, and it is all due to these remedies. I want you to know that your medicines cured me. It relieved me from the first dose, and I kept right on till the pain in my chest was gone, and I kept on feeling better even after I quit taking it." as mercury will surely destroy the sense of smell and completely derange the burn and by toning and strengthening whole system when entering it through the mucous surfaces. Such articles should never be used only on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufacted by F. DR.CALDWELL'S SYRUPPEPSIN J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system, In buying Hall's Catarrh Cure be sure and get the genuine, It is taken internally and made in Toledo, Ohio, by F. **HOSPITAL PHYSICIANS SAID:** "IT WOULD DELIGHT US TO FIND SOMETHING TO CURE THIS DEAR OLD SUFFERER.

MR. E. W. HOSE, St. Louis, Mo. DEAR SIR: The charty patient in whom I am so much interested was seventy-five years old at the time that she began the use of "Zemo, and her weight was 130 lbs. Her health has been poor for some time past, suffering mainly from spinal trouble, according to the diagnosis of the doctors in attendance. She has been a hard worker all her life, having made the living for her family keeping boarders. Somewhat over a year ago ecsema began to trouble her. It gradually grew worse and worse until her entire body was affected, the legs being a mass of sores constantly separating. The itching and burning sensation was so dreadful at times that it was impossible for her to sleep day or night. The doctors omething to cure the dear old sufferer." 'Zemo' was first used on the pper part of the body and soon relieved the patient of the terrible disreas caused by the itching and burning. The doctors had been dressing the legs every day, but as soon as they saw the wonderful change in the skin where "Zemo" had been used, they gave consent to havelt used on smooth as the face. It was probably about a month before much relief was experienced in this part of the body, then skin scaled off, itching, burning and aching gradually ceased. It seems now as if a testimonial might be given, but the patient thinks that she had better use "Zemo" a few weeks longer before saying that she is cured. However, she is derful remedy and thinks that it has a great future before it
