HEAVIEST RAIN IN YEARS

Water Rises Almost Constantly Several Rivers and Bridges Washed Away

The continued flood of water show no signs of abatement. One of the heaviest rains in years is now upon us.

The bridges between the town of Vienna and the Harvel Ferry show signs of danger. The waters will continue high until they reach the ocean.

Pine Hill Bridge, no longer standing, has fallen into the river. The washout has been made by the waters. The town of Vienna is in a critical state.

TAKING MILES FROM AMERICA

Records show that in the last ten years there has been a decrease in the number of miles driven in America. For instance, in 1922 there were 22,000 miles driven in America, while in 1932 there were only 17,000 miles driven. The decrease in the number of miles driven is due to the increase in the number of miles driven by automobiles and the decrease in the number of miles driven by horses and carts.
