## DRANK CARBOLIC ACID.

**Miss Bessie Jackson Ends Life With Deadly Poison Last Thursday.**

Last Thursday morning at about 8:30 o'clock, Miss Bessie Jackson, of the New Bethel vicinity, Caldwell county, committed suicide by drinking carbolic acid. None of the family were at home except her little sister, aged about ten years.

She had been in bad health for some time and her little sister noticed that she was acting strangely, and called some neighbors by telephone and also notified Dr. Todd, of Fredonia. Miss Jackson told the negro cook that she was feeling strangely and believed she was going crazy, and picked up a bottle of carbolic acid and went up stairs to her room. The negro attempted to take the bottle away from her, but was sent back to the kitchen. She went to her room, drank the poison and laid down on her bed. She expired in about thirty minutes after taking the dose.

She was the daughter of Mr. W. Jackson, one of the most prominent farmers in that section, and was 28 years old, an estimable young lady and a favorite with all who knew her. The cause assigned to her rash act only that her mind was temporarily unbalanced.

The funeral services were conducted at New Bethel Friday by Rev. M. E. Miller, in the presence of a large assembly.

The bereaved family has the deepest sympathy of the community in their sad affliction.

## To Taxpayers of Crittenden County.

The Auditor of State has certified to me the taxes due for the year 1907 and directs me to collect and pay over as speedily as possible, and on the assessed valuation of property amounting to the sum of \$3,077,315, divided as follows, to wit:

For State tax, this sum, at	
50c per \$100	\$15,386.58
County tax this sum at	
40c per \$100	12,309.26
On 2,936 polls at \$1.50	4,404.00
On 1,600 dogs at \$1	1,600.00
R. R. tax for precincts	
Nos. 1 and 2	2,661.83

Total for collection 36,361.67

Under the late revenue law I am compelled to collect and make settlements promptly each month, and must complete the entire collection by November 1st, of this year, and you well know that after the first day of November the penalty will be added. Now in order to help meet my obligations, and at the same time save money for yourselves, please make arrangements to meet me and pay your taxes promptly. Thanking you kindly for the way in which you treated me last year in the payment of your taxes and hoping and believing that I will meet with a more prompt and ready response this year than last, I am very respectfully yours,

J. F. FLANARY, S. C. C.

## Band Concerts.

There has been a stand erected in Southeast corner of the court house yard, this is decorated with bunting and flags and lighted with electricity and from this the Marion Silver Cornet Band dispenses the sweetest music.

The concerts are given every Saturday evening at eight o'clock and are very delightful. There has been a large and enthusiastic crowd of listeners at each performance.

Let everybody from far and near come to town and enjoy this rare musical treat, and encourage the band boys.

Do not forget the time and place.

## STRONG PROTEST

**To Be Made Against Judge Gordon's Resigning Judgeship.**

Smithland, Ky., June 10, 1907. At a meeting in Smithland, held on the 8th day in June the following call formulated and issued by undersigned citizens of Smithland and Livingston county, viz:—

"Whereas we have been reliably informed that Judge J. F. Gordon is contemplating resigning as Circuit Judge of this, the 4th Judicial District of Kentucky.

And Whereas, we the undersigned citizens of Livingston County believe that such action by him would be an irreparable injury to the people of this Judicial district—to citizens as well as to all litigants and all law abiding people.

Therefore we most respectfully invite and earnestly request that you meet your friends and neighbors in convention next Saturday June 15th, 1907, at 2 o'clock p. m. at one of the following place which ever is the most convenient to you to attend, and select some good citizen as Chairman to preside over the meeting and take such steps as to you and your friends and neighbors may deem proper in selecting some suitable persons, as many as can and will do, to represent your precinct at a district convention to be held in Princeton on Monday the 17th, day of June 1907 to enter a protest against any such contemplated action by Judge Gordon, and to insist upon his serving the people who elected him for the full six years as their Circuit Judge, at the following places, viz:

Carrsville, Joy, Hampton, Salem, Lola, Birdsview, Tiline, Grand Rivers, Iuka, Ledbetter, Berry Ferry and Smithland at all of said places at two o'clock p. m.

Feeling that our duty as good citizens demand that we take this action, we earnestly hope that you will enter heartily into this movement to prevent such a misfortune falling upon us as the contemplated action of Judge Gordon would inflict.

—Livingston Banner.

## Kentucky Editors Meet.

Many Kentucky editors were in Louisville last night on their way to the annual meeting of the Kentucky Press Association, which will be held this week at Estill Springs. An attractive programme has been prepared for the event, and the editors and their guests are anticipating a lively and enjoyable time.

The following were registered at the Old Inn: J. R. Catlett, of Princeton; John S. Lawrence, of Cadiz; Judge E. Barry, of Benton, and John L. Smith, of Kuttawa. S. M. Jenkins and wife, of Marion, were at the Louisville, E. A. Jonas, of Henderson, is at the Seelbach.

Mr. Catlett said last night that steps will probably be taken at the Estill Springs meeting to organize a Newspaper Publishers' League in the First congressional district. There are thirty-five papers in the district, and the publishers have expressed a willingness and desire for the organization.

Judge Barry, it is believed, will win the prize for the person who has traveled the longest distance to attend the meeting. He comes from Marshall county, in the extreme Western portion of the State.

## Fine Stock For Sale.

Am now booking orders for choice Shropshire buck lambs. These lambs are highly bred and are of the low-down, broad-back, heavy-boned blocky fellows. Thoroughbred short-horn male calf of high breeding. Poland China male pigs of great merit. Your personal inspection desired.

J. R. SUMMERS,  
Salem, Ky.

## RESOLUTIONS

**Passed by the Citizens Commendatory of Judge Gordon.**

A large crowd of citizens of this county met in convention Saturday and passed resolutions, highly commendatory of Judge J. F. Gordon, as Circuit Judge of this district, and by a unanimous vote requested him not to resign, as it has been rumored he intended.

Judge Gordon is very popular in this county, and it is earnestly hoped that he will remain as our Circuit Judge.

A large delegation was selected to go to Princeton Monday to present to Judge Gordon these resolutions.

The delegates are the following gentlemen: Senator P. S. Maxwell, Judges J. W. Blue and J. G. Rochester, T. H. Cochran, Jesse Olive, C. S. Nunn, A. Dean, P. C. Stevens, R. E. Flannery, T. W. Champion, W. H. Clark, C. J. Pierce, O. M. James and S. M. Jenkins.

## Judge Gordon Won't Resign.

Judge J. F. Gordon, of the fourth circuit court district, is not going to resign his place, as has been expected and announced as a strong probability. Judge Gordon settled this Monday at Princeton, when he stated he would serve out his term for which the people of his district elected him. He will therefore not come to Paducah to reside and take the presidency of a new trust company about organized, and of which it is said he was to be president.—Paducah News-Democrat.

## OFFICE IS WRECKED

**Editor Claims That Work Was Done By Agent of Coal Company.**

Sturgis, Ky., June 17.—While N. E. Calmes, editor of the Sturgis News-Democrat, was attending a Republican convention at Morganfield yesterday W. A. Chandler, electrician for the West Kentucky Coal Company, with a force of men, entered the News-Democrat office under the pretext of fixing some wires and tore out all the machinery lately put in by the company, including motor, pulleys, shafting, etc.

Mr. Calmes knew nothing of the dastardly work until he returned from Morganfield. From what can be learned Bucher, the general superintendent of the mines, authorized this act because Mr. Calmes had joined the commercial club here on Thursday night, which club was reported to Bucher as having been organized for the purpose of settling the strike, which report was unfounded, as some of the strongest non-union men in the town were its promoters.

Another reason attributed is that Mr. Calmes was a strong A. E. Wilson man and a supporter of J. D. Harris for chairman against Jack Young, who was the choice of the West Kentucky Coal Company. The people of Sturgis are indignant at the unlawful actions of Bucher in almost demolishing the News-Democrat office without warning and for such reasons. The damage to the plant is such that it will be impossible to issue a paper next week.

## CONVENTION.

**Republicans Met Here Saturday and Selected Delegates.**

The Crittenden county Republicans met in convention today and appointed the following delegates to the Republican State Convention:

W. J. Deboe, W. B. Yandell, Carl Henderson, R. L. Moore, A. C. Moore, C. E. Weldon, J. F. Flannery, Jno. A. Moore, Sherman Clark, A. J. Pickens, R. F. Haynes, W. A. Blackburn, Marion Thurman, Jas. L. Travis, W. H. Copher, J. Watts Lamb, Ed Asbridge.

The delegates were instructed for Hon. W. H. Holt for Governor.

## Lest We Forget.

The Cemetery Committee is still soliciting sales of the lots for the next ten days, and hopes to be able to make the sale of the twenty necessary to purchase the Cemetery. Fourteen have been sold.

The collections are coming in rather slowly from the home people. Do not wait for some one to call on you for this \$3.00. All the Committee have business that keeps them busy most of the time, and it will be a matter of accommodation to them if you will call and pay them. We have had responses from North Carolina, Florida, Louisiana, Texas and nearer home, but those near us seem to be forgetting this matter.

Go out to the Cemetery and see what is being done, and then note what is yet to be done, in order to have the whole place look as it should, then you surely will be willing to contribute your part to this work. If we get everything in good shape this year, we hope that we shall be able to keep it next year at a less cost per lot. But, unless all help we can not promise this.

We still keep the names of those who have paid, before you. Surely you will not neglect the place where sleep your dead. See to it that your name is in this list next week.

H V Stone, W C Carnahan, Mrs. Carlross, Lee Vick, R I Nunn, R F Dorr, A H McNeely, H A Dr. J H Clark, G M Crider, Tom Hearin, J P Pierce, Mrs. Jas. Baker, A J Bennett, W G Condit, E T Franks, Mrs. J O Brown, J E Dean, R F Haynes, C C Taylor, Gus Taylor, A Dewey, T A Harpending, W R Cruce, Jno A Clark, R H Kemp, C E Weldon, Mrs. L A Weldon, W B Yandell, O H Paris, T H Cochran, Nelle Walker, Mrs. Fannie Walker, S K Breeding, Mrs. Electra Frisbee, Rev. J W Bigham, J N Boston, Jno L Wolfe, Miss Mattie Henry, Geo Boston. Mesdames W B Yandell, J H Butler, Bennett Walker, Cora Crider, W A Blackburn, T J Yandell, Sue Glenn, J F Dodge, Tom McConnell, J O Dixon, Grant Hughes, A J Duval, Ben Rankin, Levi Cook, T C Carter.

Be sure to call on Mrs. Crider or Miss Nelle Walker in the next week and pay your part.

At the meeting of the cemetery committee Monday night enough lots had been sold to raise the required amount of three hundred dollars, to pay Mr. Kevil. This amount has been placed in the bank to his credit. There is a number of desirable lots unsold. There is several lot owners that have not paid their fee for having the cemetery cleaned off, you should go out and look at the lots that have been attended to and then you will realize how much this needed.

## Eighty-five Volumes Books for Sale.

Sixty volumes of Nations of the World, original cost \$38.00. Also collection of orations, twenty-five volumes, cost \$18.00, for sale at a bargain. MRS. MARY DRURY.

## TIPPED HER TOE

**Child Falls On Floor and Sustains Fatal Injuries.**

Catherine, the three-year-old daughter of Mr. Walter Henderson, who resides several miles north of Sinking Fork, was the victim of an accident Thursday afternoon that caused her death in two hours. The child, while walking across the floor tipped her toe and fell, sustaining internal injuries. The remains were brought here yesterday afternoon and interred in Riverside cemetery.—Hopkinsville Kentuckian.

## Lee Cruce Defeated.

In the recent Democratic primary election held in Oklahoma last week to nominate a candidate for Governor, Hon. Lee Cruce, a native of Crittenden county, was defeated by a majority of about 2600, Hon. C. N. Haskell, of Muskogee, being the nominee.

It is reported that a fraud has been perpetrated by Mr. Cruce's opponents and that he will contest the election.

## Base Ball.

There will be a match game of base ball to-day (Thursday) at the Base Ball Park in the Weldon Blackburn addition, between Marion boys and the Princeton ball team. This will be one of the most interesting games of ball that will take place in Marion this season. Come out and see a good game and encourage the home boys. General admission will be 15 cents; ladies and children 10 cents. All lovers of base ball should see this game.

## Darwin-Potter.

Mr. W. A. Darwin, of Bonhan, Tex., and Miss Cora Potter, of this city, were united in marriage at the home of the bride's sister, Mrs. James Arfack, Tuesday evening, June 11, at eight o'clock.

These young people met for the first time Christmas, before this they had been unknown correspondents, but he made a visit to Kentucky Christmas and met the young lady who soon became his bride.

The groom is a young business man of Texas and was liked well by all who met him during his stay in our city.

The bride is the third daughter of Mr. and Mrs. W. E. Potter and is a young lady of excellent character and Mr. Darwin is to be congratulated for having won her for his wife.

The happy couple left Thursday on the noon train for Texas. The RECORD-PRESS joins their many friends in wishing them much happiness.

## Recently Organized

The people of Marion have recently organized a first baseball team, this team will be called The Marion Steam Laundry Baseball Team. Mr. Albert M. Shelby owner and proprietor of the Marion Steam Laundry has contributed to this team their suits. Mr. W. H. Clark is manager of this team and he expects to make a grand success throughout the season. They haven't any ground yet but Mr. Clark is trying to get the Junior baseball park on the Weldon & Blackburn addition in West Marion. Good order will be maintained during all games played by this team. Every body come out and cheer up the boys.

Cured of Bright's Disease.  
Geo. A. Sherman, Lisbon Red Mills, Lawrence Co., N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure. Sold by J. H. Orme.

Little Tot of Somewhere.  
Dear little eyes, so heavy.  
Dear little arms that twine.  
Dear little lips that poutingly come  
And tenderly cling to mine:  
Dear little feet so weary.  
That patter about all day—  
Dear little head on this rugged breast  
When the twilight's falling gray.  
Dear little tot, so noisy,  
With a world of trouble and care,  
Come, and we'll rock to the far-off land  
Where dreams will be ever fair.  
Dear little tot of Somewhere,  
With heart that is purest gold,  
Come, for my arms are empty—  
Come—for the world is old.

A Real Wonderland.  
South Dakota, with its rich silver mines, bonanza farms, wide ranges and strange natural formations, is a veritable wonderland. At Mound City, in the home of Mrs. E. D. Clapp, a wonderful case of healing has lately occurred. Her son seemed near death with lung and throat trouble. "Exhausting coughing spells occurred every five minutes," writes Mrs. Clapp, "when I began giving Dr. King's New Discovery, the great medicine, that saved his life and completely cured him. "Guaranteed for coughs and colds, throat and lung troubles, by J. H. Orme, druggist. 50c and \$1.00 Trial bottle free.

### Champion Kills Man And Woman.

Paducah, Ky., June 13.—Will Champion, a prominent tie contractor, shot and killed his brother-in-law and Tracey's lover, Grace Brown, at a camp in Lyon county. A double barreled shot gun was used. Tracey was cutting ties for Champion and had left his family and was living with the Browning woman. He was ordered by Champion to get out of the camp. Tracey became angered and fired two shots from a revolver at Champion, who fired from a shot gun and Tracey fell dead. The woman grabbed the revolver and raised it to shoot when Champion discharged the other barrel of the shot gun. She dropped dead. On reaching Eddyville, Champion gave himself up and is being guarded. It is believed Champion will be acquitted.

Mary had a little lamb, its fleece was white as snow; it strayed away one day, where lambs should never go. And Mary sat her quickly down and tears streamed from her eyes, she never found the lamb because she did not advertise. And Mary had a brother John who kept a village store; he sat him down and smoked a pipe, and watched the open door. And as the people passed along and did not stop to buy, John still sat and smoked his pipe and blinked his sleepy eyes. And so the sheriff closed him out, but still he lingered near, and Mary came to drop with him a sympathetic tear. How is it, sister, can you tell, why other merchants here, sell their goods so readily and thrive from year to year. Remembering her own bad luck the little maid replies: "These other fellows get there, John, because they advertise."

### Stimulation Without Irritation.

In case of stomach and liver trouble the proper treatment is to stimulate these organs without irritating them. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or gripe and is mild and pleasant to take. Sold by J. H. Orme.

### Mining Notes.

Bell's old coal mines on the edge of Union in Crittenden county, is to be opened up shortly by Fred Barnaby. No. 9 vein is worked in the slope here, and about fifty union men will be employed.  
The Crittenden Coal and Coke Company situated between DeKoven and Caseyville, known 'as the old Davis mines, is in full blast and is running steady. Union men are employed here. Manage Coffe, who is in charge, is a splendid business man and popular with everybody.  
A gentleman from Sturgis stated Tuesday to one of our correspondents, that West Kentucky \$100,000 coal shaft which burned down two months ago, and which is probably still burning on the inside of the mines, has been abandoned and one hundred men were temporarily thrown out of employment, but are being shipped to Wheatcroft. A new shaft will, in all probability, be built on the Barber place or Holt place, about one mile from Sturgis.—Uniontown Telegram.

Letter from Thos. Carrion.  
Charleston, Mo., June 3, 1907.  
Mr. Editor:—Will you kindly allow me space for the following letter, which I trust may be helpful to some reader of these columns:  
There are many separations in this world. Young men and women are separated from the parental training by going to college, or by engaging in business, or by marriage. Friends separate, families, wars separate nations, death separates loved ones. These separations are painful,

but the saddest of all is the soul's alienation from God. God is omnipresent, He is near, He is as close to us as the air we breathe, could you ascend to the heavens, or make your bed in the depth of the earth, you could not hide from the presence of God—iniquity will place at the antipodes from God.  
Some men have the idea that God cannot enter the secret chambers of their minds. God observes either sin or holiness in the inward parts. The man who harbors impure thoughts of lust, enmity and malice, is as his thoughts, mean and separated from God by the iniquities of the heart. The heart is deceitful, above all things if it is full of pride and revenge, evil passions and desires, then it must be far from God. God is a being of infinite purity and holiness and no one can be in harmony with him without purity of heart.  
A man may be a good man, may be a good husband, a loving father, and yet far from God. People may live under the same roof, occupying the same room and yet in thoughts, actions and taste be far from each other. And so men may live in the presence of God, under the shadow of the church, in the light of Christianity and in their hearts be far from God. Such a condition is to be greatly deplored, it means death to the spiritual soul, it means no restraint from sin, it means banishment from heaven, it means a missing of eternal glory.  
Thos. Carlton.

A Happy Mother

will see that her baby is properly cared for—to do this a good purgative is necessary. Many babies suffer from worms and their mothers don't know it—if your baby is feverish and does not sleep at nights, it is troubled with worms. White's Cream Vermifuge will clean out these worms in a mild pleasant way. Once tried always used. Give it a trial. Price 25c. Sold by J. H. Orme.

If the appetite is poor there is undoubtedly some cause for it, and if it is not known a reliable physician should be consulted and his instructions carried out.

#### Pre-Natal Child Culture.

It is of vital importance that every prospective mother should realize her wonderful power to mould the plastic brain and sensitive soul of the unborn babe. Since it is formed and developed by and through the action of her vital, mental and spiritual forces, therefore the exercise of any faculty of her mind or soul stimulates and develops in proportionate degree the corresponding faculty in the incipient child. Every absorbing thought and earnest desire she entertains is telegraphed to the forming brain cells of her little one, leaving there its impress of good or ill—"a chisel that cuts to mar or beautify the statue of a soul." If she habitually indulges in anger, hatred, worry, or undesirable thoughts and feelings of any kind, these mental states will almost certainly be transmitted to her child as stubborn characteristics, requiring years of careful training to overcome. "Hundreds of mothers have assured me," says Prof. Newton N. Riddell, "that they could trace their existing states during gestation in the life and disposition of their children." There are numberless instances on record of physical, mental and moral deformity, as well as of beauty, genius and virtue, directly traceable to the influence of maternal impressions in the child's

pre-natal life. James Russell Lowell affirms that more can be accomplished for the child in the pre-natal period than by all the education of after years.

All that is best and purest in the expectant mother should awaken to meet the needs of her child. She should cultivate a cheerful, happy disposition, cherish only beautiful thoughts and aspirations, and pray earnestly every hour that her little one may be lovely, pure and good. She thus fully opens her soul to the influence of the Divine Spirit, and the power of the Highest will overshadow her and fashion a beautiful soul—perhaps a great spiritual genius—that will ever prove a joy to its parents and a blessing to mankind.—Chicago Record-Herald.

#### Bad Crop Prospects in the United States.

Chicago, June 15.—The continued cold, unseasonable weather in the United States is unquestionably doing enormous injury to the growing crops. For the cotton planters, wheat raisers, corn growers, and farming interests generally, the year 1907 is likely to be one of the worst, if not the worst, crop year within their recollection.

In the South the weather was too dry at planting time, and then too cold and now too wet for proper cultivation.

The worst conditions are apparent in Texas, Arkansas, Louisiana, Mississippi, Alabama and Tennessee, where the crop is reported from two to six weeks later than last year. In these states the ground is now foul and waterlogged. The plant presents a grassy appearance and is overrun with weeds and grass.

In Texas and Louisiana millions of boll weevils are in sight, but it is too early for much damage from this insect as yet. In Mississippi cut worms and other cool weather insects have been killing the delicate young plants.

In Georgia and the Carolinas reports are unfavorable, but not nearly so much so as in the states further West. The crop appears to be about two weeks late and the average conditions are about 15 per cent. below last year.

The weather in the Southwest appears to have been colder in May and early June than in March.

Some crop experts of the Southwest estimate that this year's crop will not be more than from 50 to 60 per cent. of last year.

The serious shortage in the cotton crop which is now threatened would mean an enormous financial loss to the United States except for the fortunate fact that the Southern states enjoy a monopoly in cotton raising. There are very few sections of the world outside of our Southern states which produces enough cotton to cut any figure at all in the world's available supplies. The consumption of cotton throughout the world has a tendency to increase and is only limited by the actual amount that can be raised in our Southern states. The cotton planter in this respect is in a much more commanding position than is the wheat raiser who has to compete with farmers in Russia, India and the Argentine, which ordinarily grow enormous crops of wheat and are handled by much cheaper labor than can be obtained in the United States.

It is to be reasonably expected that the price of cotton will show advances which will perhaps more than compensate the planters for the big shortage. At present the world's total visible supply of cotton amounts to about 4,500,000 bales, as compared with 3,971,000 bales a year ago this time. It may, therefore, be some months before the price can show sufficient advance to properly reflect the big probable shortage in this year's crop. It will probably pay spinners to lay in large stocks of cotton while it can still be bought at reasonably cheap prices. Later on, when the world's visible supply is found to be very insufficiently replenished by the new crop, consumers may be required to pay prices which may seem extraordinarily high in comparison with previous years. The southern planter, on the other hand, no doubt will show wisdom in holding his present stocks of cotton. The South at present is in an extremely prosperous condition owing to fairly good crops and reasonably high prices for years back, so that if net financial returns from this year's crop prove unsatisfactory yet the South ought to be able to stand such loss without any serious impairment of its prosperity.—Journal of Finance.

#### ITS HEART IS IN ITS THROAT.

A Steer Which is a Veritable Freak of Nature.

A steer with its heart in its throat is the property of the Western Veterinary college, No. 1121 Holmes street. It is just an ordinary roan steer, four years old. It came from Oklahoma. It differs from other steers only in the location of its heart.

Every beat of the heart, the distinct movement of both auricles, the gushing of blood into arteries, may be easily felt. In fact, you may see the movement of expansion and contraction when several feet away. The only protection to the heart is the skin of the animal's neck.

"It's just a freak of nature," said Dr. Carl Parker. "The steer is in good health and the rather unusual location of its blood pump in no way affects it. A smart blow would kill the steer, but we are careful in handling it. We keep it merely because it is a freak of nature."—Kansas City Star.

ice alone. I always accompanied my mother, but on this particular Sunday she was slightly indisposed, and there by forced to remain at home.

"I was occupying a seat very near the pulpit, and the theme of the divine was 'Am I My Brother's Keeper?' After preaching about 15 minutes he reached the climax of his remarks with the words of his subject, and his gaze seemed to rest directly on me. I commenced to fidget a little, but he didn't turn his eyes from mine for a second and after a short pause he burst forth again: 'Am I my brother's keeper?'

"I could stand it no longer, and answered in a meek voice: 'No, sir.'"

#### HEARD MANY MILES AWAY.

Sound of Submarine Bell Carried for Long Distance.

The fact that the sea is a marvelous conductor of sound, as all swimmers know, has now been turned to valuable account by an ingenious device known as the submarine bell. The bell is dropped deep into the sea from a lightship, and rung at intervals by a cable attachment, as shown in our picture. In order to hear the sound other vessels are fitted with a submarine telephone, the receiver of

which is, of course, on deck, the transmitter being fixed in the hold of the ship below the water line. In this way the deep notes of the bell may be heard many miles away. Our smaller illustration shows the telephone transmitter.

#### Tigers Reared by Dogs.

An interesting experiment by which two tigers are being reared by dogs is at present the subject of general attention at Blackpool, England. A few days ago three tigers were born at the Tower Menagerie.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative and my Book on either dyspepsia. The Heart or the Kidneys Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for samples and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by Haynes & Taylor.

The War Department has just concluded the test of a military balloon in Washington, one of ten that is already in the hands of the army. This one is entirely of American manufacture and is by 2,000 cubic feet the biggest that has ever been tried in this country. The balloon was inflated with illuminating gas and a start was made from Washington this week. The day was favorable and in a little over four hours a flight was made from this city to Harrisburg, Pa. It was not a record breaking performance, but was traveling about as fast as a railroad train. The travellers were J. G. McLoey, a civilian and an amateur aeronaut, Capt. De Forrest Chandler of the Army Signal Corps, and Leo Stevens of New York, the maker of the balloon. The most interesting thing about the trip was that it proved that this country could produce as good, if not better balloons than have been imported from France. Several more are to be bought. The government has appropriated for a regular balloon station and training school at Omaha, but it will not be completed for almost a year.

## Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the Local.

Dr. Shoop's Restorative, the Constitutional. The former—Dr. Shoop's Night Cure—uses topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerves, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, moves nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—also general tonic to the system. For positive local help, use as well

### NEW RAILROAD

Col. I. H. Wheatcroft is surveying Line  
From Henderson to Hopkinsville.

Col. Irving H. Wheatcroft started the latter part of last week to make the long talked of survey of the new railroad from Henderson south towards Hopkinsville. We understand the road will probably run near Cairo, Tunnell Hill and Poole, running up the valley of Deer Creek, a little East of Dixon and in a general Southly direction towards Hopkinsville.

It is not yet known whether the line will cross the L. & N. railroad at Manitou or Nebo, or whether it will cross the I. C. railroad main line at Dawson, Crabtree, or Carbondale, but it is the object of the survey to find a route on which a trunk line road can be built on a very low grade, and on a curvature of not exceeding four degrees.

We are assured that if such a line can be secured that Col. Wheatcroft will make the citizens of Henderson and along the line a proposition for the construction of the road, and it is entirely dependent upon what encouragement is given the enterprise whether or not the line will be constructed.

## Situations Guaranteed.

We do not guarantee situations to prospective students in order to get their patronage. Schools of merit do not resort to such dishonest practices.  
"Place schools" guarantee situations in order to secure students, because they have no other inducements to offer.  
Our work is so thorough that a guarantee is superfluous. Business men are so eager to get competent help here that a large per cent. of our students take positions before they graduate.  
See us before making arrangements for your business and shorthand education at some inferior, fake school. We will take pleasure in telling you all about the loopholes in the "position guarantee" of dishonest schools. Catalogue free.

### Her Mission.

Oh, Cupid went out in the mart to shop—  
It seemed that the rascal would never stop.  
He bargained for all of the maids in town.  
Excepting just one—and her name was Brown.

Her name it was Brown and she kept a cat  
And lived by herself in a gloomy flat.  
She wore all her curls in a corkscrew style  
And never—no, never—was known to smile.

Her face was as sharp as a hatchet's blade—  
Said Cupid: "I guess I won't need this maid!"  
He left her alone with her camphor gum  
And took all the rest. Then he traf-ficked, some!

He opened a store and the trade was fast  
Until every lad in the place was lased!  
There wasn't a man in the whole blamed town  
To wed with the maiden whose name was Brown!

Said she: "This is fine, I will live, indeed,  
And give to the mothers advice they need.  
There's got to be one single girl, I know,  
To bring up the children as they should go!"

### Silhouettes.

There is nothing so lonely as a rich man alone in a castle.

Some men's idea of a good story is one that is told in whispers.

A wise fish will not do business on a butcher's scale.

A man is to be pitied who marries a woman that talks in his sleep, too.

A rich uncle is a mighty good thing to have in holy memory.

Nothing worries a man like forgetting something his wife told him she knew he would forget.

If men spent as much time in church as they do in saloons, the millennium would have a run for its money.

What some people need more than luck, is grit.

When a married man loses \$5 he always suspects his wife first.

A man whose gambling propensities never carry him beyond a mind bet in a game of solitaire, is safe from the clutches of the demon Chance.

Two things that never should get old—puppies and asparagus.

Many a good trade has been learned in the penitentiary.

"It is simply impossible," says an exchange, "for one man to love two women at the same time." Why should a man try?

There would be less matrimonial trouble in this world if the women would spend more money for groceries and less for dry-goods.

Is it because salvation is offered free that so many people seem to be afraid to take it?

Modesty seldom gets a raise in wages.

The best temperance lecture to a child is a father who practices temperance.

When a man admits he doesn't understand a woman, there is still hope for him.

Some men just seem to live on because they haven't enough where-with-all to pay the undertaker.

It has been discovered that big-hearted millionaires do not carry their hearts in their pockets.

### Fate.

I've noticed oft a freak of Fate—  
For instance, take a pretty maid;  
Then add a dozen more quite plain—  
The one you want to you can't kiss!

It's just the same in other things—  
The house you love is not for sale,  
The horse you want is someone's pet.  
The business you could buy will fail!

The place you want has just been filled.  
The auto that you liked is sold.  
The train you took has changed its time.  
The butter on your toast is cold!

Ah! Things look better; there's that girl—  
The one I've shadowed all the spring.  
I need that queen and I'll just try—  
Great Scott! She's wearing an engagement ring!

### Revenge.

"If I had an enemy mean enough," remarked Uncle By, casually, "and the devil had granted me one wish of revenge, I know what it would be."

"What's that?" asked the listener.  
"I'd wish that he had to wear a dentist's rubber dam all the rest of his life!"

### Winter.

Here is a schoolboy's composition:  
"Winter is the coldest season of the year, because it comes mostly in the winter. In some countries winter comes in the summer, then it isn't so worse. I wish winter came in summer here, then we could go skating barefooted and make snowballs without getting our fingers froze. When it snows in summer they call it rain."

### Why?

Why shouldn't Miss Nanny know how to bake and to fry and to brew?  
Her mother knew how, I am told—  
And she was a fine woman, too!

'T is said she was neat as Miss Nan,  
Was bawdy of her home and her town;  
She knew how to dance and to play  
As well as to bake and to brown.

I'm sure she was sweet, and a queen—  
Her picture suggests she was fair;  
Her cheeks were as pink as the rose  
And wavy and soft was her hair.

Miss Nanny is beautiful, too—  
But truth cuts me deep as a knife—  
She couldn't bake bread or fry steak  
To save her delectable life!

A face and to the lover she weds  
She brings a form—Ah, divine!—  
BUT—When Bridget goes off in a puff,  
Well—low in the deuce will they dine?

Byron Williams

### NUGGETS OF SOUND SENSE.

Beware of the Entering Wedge of Socialism—Public Ownership.

In recording the defeat of a municipal waterworks scheme in Raleigh, N. C., after an educational campaign of several months' duration, the Evening Times of that city gives an analysis of municipal ownership which is well worth the careful study of all who have at heart the welfare of their cities. Omitting references to local conditions, the editorial reads as follows:

"Municipal ownership is contrary to the fundamental doctrines of the Democratic party, which opposes centralized parental government and cries out for the freedom of individuals. The function of the government is to govern, regulate and execute the laws made by the people and not to engage in trading and trafficking for speculative gain. The miserable failure which the state, backed by all its power and public treasury, made in the trading business while it owned and operated plank roads, canals and railroads is a blatant warning against municipal ownership.

"Municipal ownership is the first step in socialism, which strangles individual enterprise, deters the investment of capital in our city and retards industrial progress. When once started there is no limit to its scope until there becomes a large increase in municipal debt and taxes and an impairment of municipal credit. When a city engages in municipal ownership it runs the risk of constant suits for damages, while the state and county are deprived of taxes upon that much property.

"While many towns owning waterworks publish rates which appear to be cheap, they are in many instances deceptive for the reasons that, in addition to the rates, taxes are levied upon the people to pay interest on bonds, which when added to the rates make the consumer pay more than the rates charged by private plants. Many of these municipal plants if examined by experts according to the business rules of examining the affairs of private corporations would be proved to be running at a loss instead of a profit, as claimed.

"Under municipal ownership the chance of the laboring man for employment depends not upon his merits, but upon his political influence and pull, and if he is not able to use public water he still has to pay taxes for the benefit of the rich man who does."

"There is no more reason for municipal ownership of water than there is for butcher shops, bakeries, clothing stores, drug stores, livery stables, etc., and under the system of municipal government in this country it is a fertile source of graft, political corruption and bossism, a catchy slogan for a political campaign, a slick article with which to deceive the people and on which to ride into office and a machine to perpetuate the control of the boss. It has been aptly called 'that vivid saffron gold brick' under whose glittering tinsel lurks a delusion and a snare.

"Municipal ownership is dead! Long live good common business sense!"

It is a curious fact that the board of aldermen which voted unanimously to renew the water franchise was elected on a municipal ownership ticket. Facts beat fancies if they have a fair chance.

Pernicious Partisan Activity.

Nothing is more certain than that public ownership multiplies the possibilities of pernicious partisan activity. Employees of the postoffice department defeated Representative Lord of California because of some stand he took in congress relative to their desires. This is an indication of what might be expected under public ownership, both in city and nation.

Strong men at the head of municipal employees in street cars, parks, paving, waterworks and lighting service could swing any election they might desire to control. Officials would be paralyzed as to their duties to the public through the necessity of placating or humoring these immense bodies of municipal employees. Then we should have the leaders of the aggregation making bargains with heavy interests for the delivery of votes to desired candidates or measures. Self interest, more or less corrupt, would supersede the disinterested patriotic motives and differences of opinion on which men now divide in local and general elections.—Terre Haute Star.

Duluth, Minn.

At a recent meeting of the city council a resolution was passed authorizing the water board to make a contract with the Great Northern Power company to furnish electricity for operating the pumping station. Under the proposed contract the maximum price for pumping 1,000,000 gallons is \$6.50. Last year it cost the city \$8.90 per 1,000,000 gallons, without counting the cost of depreciation in the plant.—Electrical World.

A Ray of Light From England.

Municipal indebtedness resulting from taking over public service utilities has become so burdensome in England that it is seriously suggested to avoid payment of interest by redeeming the bonds with noninterest bearing municipal notes. While this plan has not yet been approved by English financiers and statesmen, it may afford a ray of hope to some of our cities that are staggering under similar burdens.

Down in Dixie.

The project to establish a municipal electric light plant was defeated by the board of aldermen of Lynchburg, Va., on the recommendation of a special committee appointed to investigate the matter.

In Natchez, Miss., the citizens voted down a similar proposition.

## Head Ache Sometimes?

If so, it will interest you to know that it can be stopped with Dr. Miles' Anti-Pain Pills; and without any bad after-effects, and this without danger of forming a drug habit or having your stomach disarranged. They positively contain no opium, morphine, cocaine, chloral, ether or chloroform in any form. Dr. Miles' Anti-Pain Pills relieve pain, and leave only a sense of relief. The reason for this is explained by the fact that headache comes from tired, irritable, turbulent, over-taxed brain nerves. Anti-Pain Pills soothe and strengthen these nerves, thus removing the cause. They are harmless when taken as directed.

"We use Dr. Miles' Anti-Pain Pills for the cure of headache, and we think that there is nothing that will equal them. They will cure the severest spell of nervous or sick headache in a very few minutes. I am of a nervous temperament, and occasionally have spells when my nerves seem to be completely exhausted, and I tremble so I can scarcely contain myself. At these times I always take the Anti-Pain Pills, and they quiet me right away. It is remarkable what a soothing effect they have upon the nerves."

MRS. F. E. KARR, Detroit, Mich.

## To Develop Power-From the Ocean.

Is a cherished dream of scientists to come true after long years? A German electrician claims to have invented a machine which utilizes the power of the ocean waves so that dynamos on shore can be made to develop electricity enough to light streets and buildings.

If this be true, he has solved the problem of future fuel supply, for no longer would coal be required for cooking, heating or power when electricity could be had so cheaply, all the power light and heat the world required would be at as long as man. The economical saving of such an invention would be beyond comprehension and could hardly be spoken in figure. Foodstuffs clothing, transportation and a thousand luxuries and conveniences would be greatly reduced in price. Electric lights would displace all other luminants. Electric power would move the trans-continental trains and all vehicles, besides turning the wheels of labor. The cooking and eating of the home would be done by electricity.

A few years ago this discovery, if it be a discovery, would not have meant so much to the world as it does to-day, because the inventive geniuses of the General Electric Co. had not then solved the problem of long distant power transmission. After this concern introduced the first oil-cooled, high-power transformers long distant transmission of high voltage was made possible, and to-day current generated on the sea coasts. Such transformers are used in carrying the power from the Kern river project to Los Angeles, a distance of a 112 miles; from Niagara Falls to Syracuse, and in a dozen places in this country, Canada and Mexico.

### Badly Mixed Up.

Abraham Brown, of Winterton, N. Y., had a very remarkable experience; he says: Doctors got badly mixed up over me; one said heart disease; two called it kidney trouble; the fourth, blood poison, and the fifth, stomach and liver trouble; but none of them helped me; so my wife advised trying Electric Bitters, which are restoring me to perfect health. One bottle did me more good than all the five doctors prescribed. Guaranteed to cure blood poison, weakness and all stomach, liver and kidney complaints, by J. H. Orme, druggist, 50c.

## PLANT THAT COUGHS

Takes This Way to Free its Pores From Choking Sand.

"I heard a cough and looked behind me nervously," said a huntsman "for I was stalking gazelles in that lion-colored waste, Sahara desert, and having got so far south I expected at any moment to become a pin-cushion for the poison darts of the dread Touaregs."

"But there was no one there. The flat desert quivered in the sunshine, and here and there a dusty plant stood wearily. But though I commanded the landscape for a radius of 50 miles, not a living creature was in sight."

"Another cough. I swung around quickly. The same plant yellow with dust, drooped in the dry heat. That was all."

"Hack! Hack!"

"On my left this time. I swung around again. A like plant met my eye. The thing was growing rather ghastly."

"As I regarded this last plant a cough came from it. Believe me, the plant coughed. It shook all over, and then, tightening up as a man does when he is about to sneeze, it gave a violent cough, and a little cloud of dust arose."

"I found out afterward that the plant was the coughing bean, which is common in many tropical countries. In the long dry heats this weird growth's pores become choked with dust, and it would die of suffocation were it not that a powerful gas accumulates inside of it, which, when it gains sufficient pressure, explodes with a sound precisely like the human cough."

"The explosion shakes the plant pores free of their dust and the coughing bean is in good health again."—New Orleans Times-Democrat.

### Will Cure Consumption.

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of any one using Foley's Honey and Tar and not being satisfied. Sold by J. H. Orme.

### In Memoriam.

In memory of Mrs. Mary E. Oneal, wife of J. F. Oneal, who departed this life June 2nd, 1907. She was born October 11th 1840 and was married to J. F. Oneal, August 31, 1867.

She was a devoted christain lady and was loved by all who knew her. She leaves a husband and two daughters, Mrs. W. M. Towery and Mrs. G. H. Ford.

She became a member of the United Baptist church in the year 1859 and lived a christian life from that time until her death.

We loved her, yes we loved her but angels love her more, and they have sweetly called her to yonder shining shore, the golden gates were opened.

### Sure Cure For Malaria.

Try Yucatan Chill Tonic, superior to all, acceptable to the most delicate person. One bottle will work wonders. Guaranteed under the Pure Food and Drugs Act. Price 50c. Sold by all druggists.

### Imperial Must Pay for Tobacco.

Princeton, Ky., June 13.—By a decision rendered by the Circuit court today, the Imperial Tobacco Company, and not John Orr, was the owner of the tobacco burned in the warehouse fire here December 1, 1906. The Imperial company purchased the tobacco from Orr November 15, but claimed that the delivery of the tobacco was not made on account of a question arising as to the ownership of the tobacco. The court holds that the Imperial Company and not Orr was the owner of the tobacco and that bill of sale given by him was good and sufficient.

A prompt, pleasant, good remedy for coughs and colds is Kennedy's Laxative Cough Syrup. It contains no opiates and does not constipate. Children like it. Sold by J. H. Orme.

### Some Suggestions.

A baby should be kept very quiet immediately after nursing.

White oak bark tea makes a good wash to correct offensive perspiration.

Dress the hair in a becoming fashion, regardless of what is the latest style in coiffures.

Raw egg applied to a cut will tend to heal the wound quickly, as well as allay the pain.

A good corn remedy consists of equal parts of sweet oil and iodine shaken together. Apply at nights until relieved.

Gouty persons should avoid eating sweet food, but the practice of eating a dozen walnuts a day is recommended by physicians.

Nose bleeding has been alleviated by holding the hands over the head and putting ice to the nose and back of the head.

Buttermilk is claimed by some physicians to be a cure for various ills, such as constipation, liver and kidney troubles, and indigestion.

A child's bed should be placed out of a direct draught and where the morning sun will not shine into its eyes and awaken it before the proper time.

## CARING FOR THE OLD.

The Humane Way Vienna Treats Its Aged Poor People.

In most towns there is a tendency in this our day to deal more generously with destitute children than with destitute men and women. In Berlin and New York, for instance, both money and thought are lavished on the young whom the community supports, while, as for the aged, what is given them is given only of necessity. In Vienna it is otherwise. There the arrangements for the relief of the old people are better—both more carefully considered and more liberal—than those for the relief of children, a fact that says more perhaps for the hearts than for the heads of the authorities.

If a man or a woman above sixty is without money wherewith to provide for himself or the strength to earn the money, he applies to the guardian of his ward for help. Then, if he has a home to live in and some one to take care of him or is able to take care of himself, he is granted out relief, a money allowance if he can be trusted to spend it wisely; otherwise relief in kind. Supposing, however, he is homeless, feeble and "alone standing," he is sent to a versorgungshaus, or old age home, if there is a vacant place there, and, if not, to a small poorhouse until there is.

Versorgungshausen are the distinctive feature of the Austrian poor relief system so far as the aged are concerned. Already in the days of Joseph II. Vienna had two, if not more, of these homes, and at the present time it has six. One of them is reserved exclusively for citizens; another, that at Mauerbach, is reserved for persons who, owing to their perverted notions as to what is seemly, cannot be accorded the full liberty the old people in the other homes enjoy. In all the six together there is space for more than 6,000 inmates. As the versorgungshausen are looked upon by classes and masses alike as the homes of the aged poor, the place where they have a right to be, no disgrace is attached to going there. It would no more occur to an Austrian ex-worker to be ashamed of living in a versorgungshaus than it would to an English veteran to be ashamed of being at the Chelsea hospital. There is not a touch among the inmates of that pariah feeling which is so painfully evident among the inmates of our workhouses. On the contrary, they all seem to be extremely glad to be where they are, and to be rather proud than otherwise of being there. And as it is with them, so it is with their relatives. There is no inclination on their part to look askance on these old people or to shun them. On Sundays and holidays, indeed, the homes are thronged with visitors come to have a chat with old friends and relatives and tell them the family news. They bring them little presents more often than not—caps with bright ribbons for the old women, neckties, perhaps, for the old men—for great importance is attached to personal appearance in the homes, and, although the inmates are provided with good clothes and are given a voice in deciding their color and form, they are not provided with finery.—Edith Sellers in Contemporary Review.

### Worse Than Murder.

An old negro preacher of southern Georgia had been given a fine fat possum by some of his admirers and was keeping it in a barrel, feeding it heavily, to still further increase its weight. He had decided to have it killed the next day, when, to his rage, it was stolen in the night.

Shortly afterward a revival meeting was being held, and among those who went up to the mourners' bench was a certain very black Jim, and his grief seemed inconsolable.

"Dat's all right, mah brudder?" the old man shouted. "Don't matter whut yo' done, de good Lawd gwine fergib yo'!"

"But Ah's been powerful mean," Jim declared, weeping.

"Is yo' stole chickens?" the old man demanded.

"Oh, wuss en dat?"

"Good Lawd, he'p dis po' nigger!" the old preacher entreated. "Is yo' used a razor?"

"Wuss dan dat?"

"Is yo'—yo' ain't done killed no-body?"

"Wuss dan dat?"

"Den hyah's whar we tangle!" the old man shouted, throwing aside his coat. "De good Lawd kin fergib yo' ef he wants ter, but Ah's gwine skin yo' alive. Yo's de vermint dat stole mah possum!"

### Carrying Out Instructions.

There was a young man whose social education had been somewhat neglected, and it chanced that he received an invitation to a church wedding. The morning of the ceremony found him quite excited, and he started for the church some time before, as he would have said, "the show was billed to come off." Under his arm he carried a small bundle, and before he had proceeded far he met a friend.

"Hello," said the friend, "and where are you going all dressed up at this time in the morning?"

"Wedding," answered the young man briefly and proudly.

"Indeed! Going to do some errands on the way?"

"Certainly not."

"But you're not going to a wedding with a bundle under your arm?"

"Of course I am. That's my present."

"Present! But you don't take your present with you, man. You send it beforehand."

"That's all you know about it. I've got a card right here in my pocket, and the card says, 'Present at the church.'"

Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves". Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free book now Dr. Shoop's Restorative.
