Winchester, Ky., Aug. 11 .- The Burley Tobacco Society will hold an important meeting here this afternoon. The principal subjects for discussion will be that pertaining to placing the crop of 1907 on the market. It is being rapidly packed and will soon be ready for market. It is estimated the crop will amount of 75,000 hogheads, and is of a much higher grade than that of the previ ous year. Some members wish to put a much higher price, claiming ef any plan to do anything embarrass that the law of supply and demand

justifies so doing. On the other hand, it is asserted that the Burley Tobacco Society was not organized to take advantage of a situation to expect higher prices but merely to secure for the grower a fair This condition naturally diminishes be graded along the lines of the previous year, but of being better qual-

> Another thing to be considered at this meeting is whether or not those who have raised a crop in 1908 over the protests of the society shall be allowed to pool their crop or not.

It is said that many of the growers desire to enter the pool. It is also probable that some steps will be taken relative to the future course of the society. The fall of the year is nearly at hand when farmers make contracts for the following year, and it is desireable to know what to do. Other questions relative to the financing of the crop will also be discussed.

## A Mild Laxative For Baby's Bowels

Doctor Points Out Dangers of Pills and Cathartics

"Salts, purgatives, and violent cathartics are dangerous when given babies, children or delicate women," says a well known doctor. "Neither should they be given medicines containing narcotics for stomach or bowel troubles."

It would be well for mothers to heed

this warning and keep on hand a bottle of Dr. Caldwell's Syrup Pepsin for baby and herself and for any member of the family that has need of a laxative or a stomach remedy. It is safe and pleasant chronic constipation and dyspepsia of to take and has cured old people many years' standing, and yet is harmless for a baby as many a happy mother can testify. It brings natural daily move ments, sweetens the stemach, alds digestion and stimulates the torpid liver to proper action. The children like it. Lafe Weathers, the popular hotel man in In-dianapolis, says: "The children like it, we all use it and would not be without it in the house." Mrs. Mattle Crouch, Tiptonville, Tenn., cured her 5 months old baby of indigestion with it. Mrs. Almon Willis, Jamaica, Vt., says it saved her baby's life, Mrs. A. B. Cunningham, without it. It cured her little son of Mrs. Flora Hebrew, Bow Creek, Kan.

CONTROL OF CONVENTION.

Watchfulness Needed to Prevent Duplication of Underhand Work of Four Years Ago - Nebraska and Taft Platforms Compared.

[From the Commoner.] Just after the election of 1904 a man who was prominent among the DIANA advocates of Mr. Parker's nomination at St. Louis remarked that a great many people who were advocating Mr. Parker's nomination showed very little interest in the campaign after the "I have found Bucklen's Arnica nomination. These men are speaking in whispers; they are working underground. If the Democratic voter wants to understand the real purpose of the trust papers, let him compare the culosies of Judge Parker which appeared before the convention with the denunciations of him that folleadership turned against him as soon and the legislature? It is manifested just before the the public has in many cases become convention because it would cost less the vehicle for the spread of mising to defeat the Democratic party in the formation and for veiled attacks upon convention than to defeat it at the polls, and the defeat of the Democratic party is the only thing which it desires.

Who is Copying? The Washington Post may not re

gard it as a serious mistake, but in a recent editorial it says that the Nebraska platform repeats many of the paragraphs of the Taft platform adopted at Columbus -- not word for word, of course, but meaning for mean-It quotes the Republican platform as it is a question if it does not combined favoring "protection of illegal trusts, monopolists and all evil doers, both in the public service and in the commer, arbitrarily exclude papers from the the public service and in the commerment of all wholesome measures. The bill should be so amended as which have made safer the guarantee of life, liberty and property." The Nebraska platform is quoted by the Post as follows: "We favor the vigorow enforcement of the criminal law against trusts and trust magnates, and demand the enactment of such addito make it impossible for a private monopoly to exist in the United States." This, the Post alleges, "Is tweedledee and tweedledum drawn to a fine point,"

In the first place, the language quoted from the Democratic platform of March 5 was copied verbatim from the Nebraska Democratic platform of last September, so that if anybody "copied," the Taft managers have copted the Democratic platform.

Will the Post make the correction and admit that the Nebraska Demo- bondsmen to make good the de crats were in the field first, or will it allow the mistake to stand?

But, as a matter of fact, the two paragraphs are not at all alike. The Republican platform asks for the prosecution of illegal trusts and monopolies. It does not sek for the enforcement of the "oriminal law against trusts and magnates," neither does the Republican platform demand "the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to plank, quoted by the Post, of additionform demands additional legislation It not only demands additional legisla-Nunn & Tucker tion, but it specifies certain legisla-"Among the additional remedies we epecify three: First, a law preventing the duplication of directors among competing corporations; second, a liabridging the right of each state to ball time.

The Commoner is mailing a copy of the Nebraska platform to the editor of the Post, and asks the Post to compare it with the Ohio platform. It will be seen at a gamee that while the Democratic phatrym is clear, emphatic and specific on each point, the Republican platform is general, ambiguous and evasive. ## THOUGHTS ON BUSINESS

### CONTINUOUS GROWTH NECESSARY

RE you growing as fast as your business is growing? That is a question every man might well ask himself. A Unless there is a continual growth in the individual there is a widening of the distance between him and the higher positions to which he aspires. The requirements of nearly all high positions are increasing. It takes a bigger man to be foreman to-day than it did a few years ago.

These are days of remarkable growth in almost every line of business. It is not uncommon to hear of concerns that have "doubled last year's business"-and that in the face of the fact that "last year doubled the year before." An increase of 20 to 50 per cent a year is by no means uncommon. Statistics for the last few years show a steady and substantial increase in almost every line of business.

Are you growing as fast as your business is growing? This question comes home with especial significance to men who have executive work of any kind. The foreman who handled ten men two years ago, and twenty men last year, is this year perhaps required to handle forty men. He must be able to do it if he is to keep up with his position. The business demands the forty men-if he can't handle them another must. The call everywhere is for men who can keep up with the rapid pace of present day business activity.

Here is an interesting revelation of the child mind.

The first thing that strikes one is the overwhelming patriotic trend of the children. Another thing is the entire absence of the commercial spirit. There is no millionaire or captain of industry on the list.

It may be stated that those childen who voted for their fathers and mothers voted their real sentiments. The other votes are the reflection of adult opinion.

"My father."

Blessings on the head of the children who cast that ballot! The normal child is the one who thinks its father the greatest and best man. If the child thinks otherwise there is something the matter with it or with the father. he father has every advantage in that from the first the child looks to to him. He only needs to be a firm but gracious sovereign to be always the king. There are those of us who have gray threads in our hair who yet believe that "father" is the grandest and noblest man we have ever known

"My mother." ---Those votes came naturally. They roiced a real conviction. On second thought every child would have written "mother" on his ticket. You will sometimes find a person who does not love his father. Rare are those, children or adult, who do not revere the mother. Lord Byrons are scarce. Mother is a queen who rules by divine right. Her scepter is compelling love. At the mention of her sacred name the bolts to every beart are unbarred. her name devils are cast out. She lur
