And Stop When Time Is Out System Adopted,

The Publisher of the Record-Press has Decided to Adopt the Cash-in-Advance and Stop-When-Time-is-Out-Policy on all Subscriptions for the Following Reasons.

FIRST-The post-office regulations require us to stop the paper when the subscriber becomes nine months in arrears. We find that this requires constant watchfulness and when these subscriptions are stopped, the amounts due us are practically lost to us because we can not see the people personally and collect, and they do not find it convenient to call or remit, and in a short while the thing is forgotten.

SECOND-Because perhaps one half our subscribers tell us to stop when the time is out and the other half tell us to keep on sending the paper. It is impossible for our clerk to remember who wants it stopped and who wants it sent on, and confusion and in many cases mistakes and ill feeling occur.

THIRD-Because everything we buy we have to pay cash for

and our employes have to have their money every Saturday night. The cost of newspaper production is heavily increasing and it takes cash to keep things going.

FOURTH-Because we have now on our books exceeding \$4,000 due us on subscriptions, nearly every cent of which is good but is so scattered over the country that it is impossible for us to collect it when we need it most. We send out names occasionally and many respond promptly, while the majority do not, because they do not find it convenient just at the time and the matter is deferred. Finally the amount runs up to \$3, \$4, \$5, \$6 or \$7-and then in many cases the subscriber can't pay and we have finally to stop the paper and loose this amount, when to have paid \$1 at the beginning of each year would have been easy and satisfactorily to both sides.

We give this notice in ample time for all subscribers to adjust their accounts. We want every subscriber to remain with us and beheve it will be far more satisfactory to all concerned. Time was when the circulation of the RECORD-PRESS was small, and we knew personally almost every subscriber.

Now we furnish a paper much larger and better for the same price. It costs us nearly three times as much to furnish the gresent paper as it did a few years back. We cannot afford to carry on our book \$4,000 in past due subrcription accounts and we believe every reasonable man will agree with us.

On January 30th. 1909, the New System Will be Put Into Effect. On that Date All Past Due Subscriptions Will be Stopped and thereafter all Subscriptions will be Stopped Promptly at Expiration.

This is fair to everybody and is made necessary by reason of the postal regulations and sound business policy, as well as justice to all Our Subscribers

These Regie people aforetime and up to, say, 1893, supplied in the main their requirements in the Clarksville district. In the last four years, however, the Regies have through Mr. John H. Hodge, bought annually in the counties composing the Stemming District several millions of pounds of our stemming type of tobacco: which purchases prior to this last sale were all made from growers other than Association members. In other words, the sale of five million pounds to the Regies last week was the first sale ever made by this Association to the Regie people. I feel quite sanguine that for the future the Regies will prove good customers of the Stemming Association; which prediction I the more confidently write down since I am cognizant of the fact the Regies have for several years past bought annually of the Dark Protective Association millions of pounds of tobacco. It is with much pleasure that we are able to announce the Baldwin Geographical Contest in which we shall give away absolutely free a \$350:00 Howard piano and a \$100:00 Hamilton Organ: This ofter is made through our advertIsement department and is for the purpose of more thoroughly advertising our new store and its location. We also desire to indelibly impress the great importance of the award of the Grand Prize to our product at the Louisiana Purchase Exposition, being the only American piano so honored. This award in conjunction with the Grand Prize at Paris, 1900 (an award never before conferred upon an American piano) and the decoration of the Cross of the Legion of Monor, are the highest honors ever bestowed in the American Plano industry, and are official evidence by international juries, composed of the foremost musicians and mechanics in the world, of the superiority of the product of the Baldwin Company. There is no charge made or ony kind of obligations made or obligations of any kind incurred in entering this contest.

Find the correct answers to the questions mentioned in the list in the right hand Column. The envelopes containing the questions and answers will be opened as received and graded by the judges; all but the highest awards will be made as soon as possible afterwards; the highest awards only being reserved until the close of the contest. To the owner of the list containing the greatest number of correct answers we shall present absolutely free of charge a beautiful \$350.00 Howard Piano, rightfully named "The Worldwide Favorite." To the second highest contestant we shall present one of the latest style Hamilton Organs, manufactured by the Baldwin Company and recognized as the best of instruments among this kind.

To each contestant whose answers receive a marking of 50 per cent, or more, we shall present a purchase coupon equal in amount to the marking on the answers, which may be applied to the purchase of any new Baldwin, Hamilton, Howard, Valley Gem or Monarch Pianos, or Baldwin Player-Piano, Ellington player-piano, Howard player-piano, or Baldwin piano-player at our selling prices. Should there be more than one correct answer to all the questions, or should two or more tie in number of questions answered correctly, awards will then be made upon penmanship and general neatness of tleing contestants papers. Papers written on typewriters will not be counted If you are fortunate in getting one of these purchase coupons, and

already have a plano, the check may be disposed of, providing such transfer is properly indorsed by Morgan, Oats & Company and recorded in their office.

DIRECTIONS FOR CONTESTANTS.

Write your answers on the lines after the question, fill in the blank as requested, and send or bring to Morgan, Oats & Company, 118 N. Main Street, Madsionville, Ky. The use of his latter blank is for the purpose of enabling us to know just how many homes in your vicinity are without instruments.

There are no limits or restrictions as to the number of contestants in a family, but only one prize will be given in a family. None of the employes of Morgan, Oats & Company or any other piano concern nor their families are eligible in this contest.

Every piano is marked in plain figures at our regular selling prices, and not on-ly will the coupon be accepted with a cash payment at so much cash on a piano or pianoplayer, but the balance of the purchase price can be arranged on easy terms, if desired.

We give written guarantees with each piane and the purchase price includes a handsome stool and scarf and delivery to the purchaser without expense.

No coupen is good on the purchase of an organ.

The Judges it this Contest are as Follows

Prof. R. B. Rubins, superintendent of City Schools; Hon. D. W. Gatlin, circuit court clerk Hopkins, and Hon. H. F. S. Bailey, county attorney Hopkins county.

This contest closes Monday, February, 1st, at 12 o'clock midnight, all answers must be in before that time to participate in the contest. Send or mail to Morgan Oats & Company, 118 North Main Street, Madisonville Kentucky.

As Dr. Frost has put it, "Some such training as was given by master and your mind that at the bottom of all mistress in the old days must be supplied now through the industrially trained teacher in the public schools."

It will involve a large outlay to acquire such an institution, for industrial education requires tools and materials which are more costly than spelling books. The trustees of Berea have set aside \$200,000 of the fixed properties of the institution and appropriated the income therefrom for the benefit of the colored people. To replace the funds thus and to supplement those funds so die the eggs or the milk. as to provide a really adequate school the so-called "adjustment fund" of \$400,000 is being raised. Mr. Carnegie and other philanthropists of national feeling have subscribed about \$344,000 of the sum. There is a condition that the last \$50,000 must be raised in Ken-

tucky, and this is the task that now lies before Kentuckians. The remaining sum required seems a small enough contribution from the State directly to be benefited from the institution. The colored people of Kentucky are doing their part, they having already subscribed \$7,000. But the negro race is not one of wealth. Its people are dependent upon the friendly efforts and generosity of the whites for their advancement and the means for it. Since the salvation of the negro race in America must come through the agency of industrial education, whereby its people may be enabled to become producers of wealth and not dependents, that industrial education cannot be made too easy of acquirement. Dictations of humanity and enlightened citizenship would actuate the white population to offer the negroes every possible opportunity to better themselves. Considerations of self-interest, if the other failed, would point out that the way to shift the burden of carrying the negro race from white shoulders to colored lies in simply educating the colored men to become producers.

In an address before the Nationa Association of Teachers in Colored Schools, Prof. E. I., Blacksheer principal of a Texas industrial school for negroes, alluded to the hote people. Said he:
"While no colored man possession

even a spark of intelligence or appreciation can be unminded ungrateful for what Northern abit thropy and Christianity have 4 and are doing for porre the Southern States, still the at not cause us to be unminded appreciative of the mont at a " doing for our educational ing. to emancipate us from ignorance and poverty. This practical philan-thropy takes the form of advice, encouragement and financial belp in every undertaking made by the colored people for their own general improvement, such as building churches and acquiring land and erecting buildings for negro educa tional institutions. It takes the form ment to thrifty negroes to acquire farm or town property and of long and indulgent conditions of payment,

where these are needed." No more practical way of aiding the race could be evolved in Ken-tucky than that of making possible the industrial college proposed by day at a Chicago hotel. It will be sent by express to Hamilton, Ont.

Vice-Consul L. H. Munier of Geneva sends a clipping from a Swiss newspaper from which it is noted that more modern methods of grape culture are being adopted in Switzerland. The old vineyards have been attacked by phylloxera, in fighting which the government has already spent \$482,500. Now it is decided to replace the old vines with the more robust American vines. To aid the planters in the substitution the government has voted an annual appropriation of \$96,500, to extend over a period of 60 years.-Horticul-

THOUGHTS ON BUSINESS

WALDO PONDRAY WARREN

WHO IS REALLY THE BOSS?

DEFINITE understanding as to who is in authority is an important thing for any business. Few things cause more trouble and confusion than leaving men in doubt as to whose orders take first rank. Not to know this fundamental point is to have a feeling of uncertainty, insecurity, and suspended conclusions-a feeling which affects tendencies, attitudes, and the character of the work in hand.

Two men were associated in the management of a manufacturing enterprise, each having charge of a part of it, and both having occasion to come in touch with the other part. Neither one had been given full authority, neither recognized the other as his superior, and harmony did not reign between them. Employes found themselves governed by conflicting instructions, much to the disadvantage and disorganization of the whole enterprise. The trouble did not abate until the owners intervened and established a definite understanding as to the extent of each man's authority.

There is usually one principal reason why such conditions are allowed to exist in the first place. It is the unwillingness to face the problem for fear of an unpleasantness. But this is seen to be a very poor reason when it is considered that the same problem in aggravated form will almost certainly have to be faced later-after much harm has been done, and perhaps an irreparable breach has been made.

DEATH STRUGGLE WITH A MANIAC

WOMAN HAS DESPERATE FIGHT WITH MADMAN IN A HOS-PITAL AMBULANCE.

Dr. Mary Crawford Has Narrow Escape from Untimely End at Hands of a Lunatic-Timely Aid Given by Policemen.

New York.-Dr. Mary Crawford, the WINE ambulance surgeon of the Williams burg bospital, for the second time within three weeks had a desperate struggle with a madman she was taking to the institution. The maniac tried to choke her, and probably would have succeeded had not Policeman Selvey and Hugh Gromley, the driver of the ambulance, assisted Dr. Crawford. Her coat was torn and her face seratched, but she took the patient to the hospital.

Shortly after 1 p. m. Brooklyn police beadquarters summened Dr. Crawford and her ambulance to the drug store at Bedford avenue and North Eighth street. There Dr. Crawford found two policemen and three other men holding Michael Ford, a mechanie, 30 years old .- Ford had been seen to throw himself before a crosstown ear, which was stopped before the wheels could run over him. Several men tried to learn from Pora where he fived. Ford attacked them savagely and threw himself in front of another Car. He was again saved by the

prompt stopping of the car. Policeman Selvey setzed Ford, who knocked him down. Selvey again tackled the madman, who in a fierce struggle tore Selvey's rubber coat and uniform. The maniac attacked men, women and children and caused wild excitement. Selvey was no match for the man, and when another policeman and three citizens went to his aid they had all they could do to get the mad man down

There is a divinity of human-My, and Jesus is the divinest because he is the greatest human that bas yet appeared. A greater may appear; in-deed, the theory of evolution which rules this school demands that there shall always be something better abead.

Trend of This Cult.

The trend of this cult of culture is toward crass infidelity and aggressive unbelief. A young man in a New York town, after two years in a college where there is a learned professor who has written theological books, informed his mother that he no longer believed in her Bible or her Christ. Though he went with her to church and sat with her in the family pew. he refused to bow his head in prayer and took no part in the worship. He informed her that three-fourths of the students in the college had been turned from faith to infidelity by the teaching of the learned professor. whose personality was so winsome that they could hardly refuse to believe all that he said. Modern Pagans.

The relation between the ancient Greek philosophers and modern evolutionists can be seen at a glance. The "nebular hypothesis" of La Place and Kant is a child of the fire theory of Heraclitus. The "unknowable" Herbert Spencer is akin to the "infinity" of Anaximander, and the pristine mud of the Greek is as scientific as the primordial cell of the Engfishman. And it is a fact which almost startles us that some of these modern evolutionists are as pagan in their religion or lack of religion as their ancient predecessors. Herbert Spencer lived and died a brainy, thoughtful, cultured pagan, who acknowledged no God as worthy of worship or service. Some devout Christian men, seeing that the trend of the times was toward the acceptance of the pagan theory of evolution, felt that something must be done to save men of learning to Christianity, and they determined, if possible, to find a place in the Bible for Darwinian evolution, with the understanding, of course, that God is the Evolver and that evolution is only have to an alarming extent succeeded in doing for Christian thought what Constantine did for the Christian church when he united it with the gist. pagan state. The spirit which fosters and propagates this fallen Christianity has spread more or less from our colleges and universities to the pulpits and news of our churches, and hinders, if it does not paralyze, the evangelism which had its birth at Pentecost.
