NUMBER 39

Inthe House of Representatives on Monday, February 15, On the Bill in Relation to the Salary of the Secretary of State

AND UPHOLDING THE CONSTITUTION OF THE U. S.

Upon Reading One Will Readily See That The First a mighty mountain that can not be removed. When the farmers, who lab-District Is Represented by One Who Can Cope With the Best of Them In Congress.

CHAMPION FOR THE PEOPLES RIGHTS AND AGAINST LEGISLATION FOR SPECIAL CITIZENS.

HON. O. M. JAMES

Mr. OLLIE M. JAMES said.

MR. SPEAKER: I am opposed to the passage of this bill, because it is not only violative of the letter and the spirit of the Constitution, which we have taken an oath that we will uphold and support, but it is special legislation of the most pronounced character. When the Constitution was formed by the fathers, they exhibited exceeding great wisdom in providing a constitutional bar against a Senator or Member of the house House voting to create an office or to increase the pay of an office and then become a beneficiary of his own act. In other words, it is made impossible by this constitutional inhibition for a member of Congress to vote the money of the people out of the Treasury indirectly into his own pocket, and therefore they were made ineligible to either hold office created during the term for which they were elected or to enjoy the increased salary of such office during the time for which they were chosen. The constitutional provision is

No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased, during such time; and no person holding office under the United States shall be a Member of either House during his continuance in office.

This is the exact language of our organic law. It did not provide that if he voted for such an increase he should be ineligible, because the framers of that great instrument foresaw that it would be possible for a a Member to exert his great tefluence to create the office or to raise the salary of the office, and he had procured enough votes to pass it, to refrain from voting for t, indeed, to vote against it, in order to relieve himself of the fiercest criticism and yet become the beneficiary of his indirect act. So the Corstitution provided that if an office shall have been created or the emoluments thereof increased while he was a Member, irrespective of how he voted, or whether he voted at all, he should be ineligible to hold it. Now, this bill, Mr. Speaker, stripped of a't its subterfuge, unmasked

of all deception, is a bill for the relief of Senator P. C. KNOX. It is to make him eligible, as the advocates of the bill contend, to'hold the office of Secretary of State, which office all gentlemen upon the floor'admit heis now ineligible to hold, because he was a Member of the Senate when the salary was increased. In other words, gentlemen are undertaking by this character of sleight of hand, of hoeus-poeus, of "now you see it and now you don't," to remove by an act of Congress a constitutional obstacle. I maintain the position that the Constitution can n t be amended by an act of Congress, that it can not be evaded by an act of Congress.

This bill, having for its purpose to make him eligible by reducing the salaary to \$8,000 while it leaves all the other members of the Cabinet drawing \$12,000 per year, fixes the highest position in the Cabinet, that of Secretary of State, the first position in the Cabinet, at \$8,000. This is so manifest upon its face that we all appreciate the frankness of the chief advocates of the bill when they boldly declare that it has not but one purpose, an that is not to reduce the salary, but to put MR. KNOX in the Cab inet. This is further shown by the fact that the hill is brought in under a parliamentary status where an amendment is out of order-that is, an amendment to reduce the salaries of all Cabinet officers to a like level of \$8,000 -- but it leaves all these salaries at the amount to which they were increased and for which Senator Knox voted, and merely for the purpose of trying to remove a constitutional obstacle this bill is presented.

The Constitution of our country speaks the same language to all men alike, the great and the small, the rich and the poor. It should fall, like the sunshine, upon all alike When labor comes, with its sooty hands begging legislation in its interest, the Constitution is held up to them as or from early morn till the shades of night, call for relief, that the burden they bear may be made lighter, the Constitution is held up to them as a law of the Medes and the Persians that can not be changed except by the voice of the people. Let this Congress not establish a rule that the Constitution is easily evaded by some and wholly immovable by others.

Let these great men, who are famed as constitutional lawyers, no seek to create distrust of this great instrument by legislation so question. able. Mr. Speaker, Mr. Taft has been elected President of the United States. I resisted to the uttermost his phoice by the people, yet I would not throw one obstacle in the way of his selection of any man as a member of his official family. Indeed, this is my country as well as his, and I hope the Government may be administered in justice and prosperity. Of course I regret that these eniment lawyers ... Mr. Taft and Senator Knox ... had not thought of this constitutional objection when Mr. Taft announced the appointment of Senator KNOX as Secretary of State. Yet it would seem that this would have presented itself to such astute and profound gentlemen as they are, because Mr. Taft was a member of the Cabinet when the salary was raised and had been drawing the increase up to the time when he signed. Yet it escaped him and Senator knox alike. But it is too much now to come and ask Congress to be a part in an undertaking to set aside the Constitution to the interest of any man. Certainly in the long line of illustrious men who advocated the elect of Mr. Taft and who believed with him in the principles of the Republican party sufficient genius can be found to fill the place of Secretary of State a-ide from the choice he has

If Congress can by such manipulation as this tear lown the bul warks of the Constitution, then what is to be the final result? Offices can be created, innumerable salaries can be raised mountain high, Members of Congress can be appointed to them, and congressional legerdemain can relieve them temporarily from this constitutional objection. The Treasury looted; all this can be done when once you destroy the constitutional safe guards thrown around the people's Treasuary. I should gladly vote to reduce the salaries of Cabinet officers to \$8,000 if I had the opportunity, as I voted against their increase when it became a law; but, in my judge ment, if this precedent is to be established, then the unwisdom of it will be many times establ shed and regret for this action often expressed, and the Treasurer will suffer in consequence. It is better to stay upon the beaten path tee fathers trod, upon the broad highway of the Constitution. This, and this alone, is the way of safety, whether we are dealing with the humblest citizen or the greatest genius.

SUMMER NORMAL.

I have received a few inquiries as to whether I intended to conduct a Normal School after the close of the regular Spring Term of the Marion Graded School. In reply to these and to any others who may be interested, I would say that if as many as twelve teachers or prospective teachers will signify their intention to attend such a school, I will arrange to conduct a Normal beginning May 24 and continuing for a term of four or six weeks as may be desired.

Teachers, and those preparing to teach, -- if you would like to have a chance to review and qualify your selves to do bettor work in the schools of our county this fall, you can do so. Better times are in store for the teachers of Kentucky you wish to share in these better times, you must be better prepared to do the work of the teacher; for "better salaries" means nothing if it does not mean better preparation on the part of the teacher.

Last fall there were more schools in this county than there were licensed teacher. This is a lamentable and wholly unnecessary condition, for there are plenty of bright young men and young women in Crittenden county who could, with such training as may be obtained in a Summer Normal, pass the required examination and successfully conduct all our

I understand that there are enough free scholarships in the State Normal at Bowling Green to furnish every teacher in Crittenden county free tuition this summer. If for any reason you can not avail yourself of the opportunity to attend the State Normal, join with us in a good, lively County Normal. If the number wishing to enter be large enough to justify me, I will engage a competent assistant and we will have, with all due repect to former years, one of brated by the Marion Graded and the best Normals ever held here. High Schools at the auditorium on The expenses of the course shall be Monday evening, the contestants reasonable. If you are interested drop me a card at once stating kind lah Conyer, Fredda Pickens, Mary of work desired. JNO. P. KING,

Marion, Ky.

MRS. CRIDER DEAD.

Relict of Eminent Divine Goes to Her Reward.

Mrs. S. J. Crider, the mother of Postmaster George M. Crider, died at his residence where she had made

her home for the past year, Sunday morning February 21, 1909, at half past eight o'clock. Mrs. Crider had been a great safferer for most of her life. For over sixty years she has only at intervals seen a well day. Her husband was the eminent Rev. P. H. Crider, who died 25 years ago and who was well known and is affectionately remembered by many of our older citizens.

Mrs. Crider was before her marriage Miss Sarah Jane Shipton, she was born in Galena, Illinois, Nov. 10th, 1838 and spent many years of her life in that vicinity in Illionis, Wisconsin, Iowa and Michigan. She is survived by only her son G. M. Crider, her only other child Elvah, wife of T. H. Cochran, having preceded her to the grave one year ago, her death having occurred January 30, 1908.

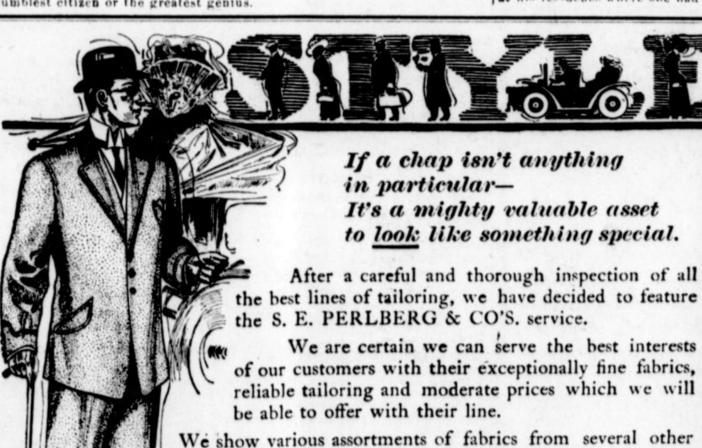

Mrs. Crider belonged to the Cumberland Presbyterian church and her funeral was preached there by the Rev. J. T. Barbee, at two o'clock Monday afternoon. The interment took place immediately afterwards in the New Cemetery. There were many and beautiful floral offerings, and the remarks of the officiating clergyman wero impressive and beautiful as he depicted the many noble christian traits of character which the deceased possessed.

The Cumberland Church on Salem Street, where the funeral was held was inadequate to hold the immense gathering which assembled there out of respect and to pay the last tribute of love to the memory of the invalid mother of one and mother-in-law of another of Marion's best citizens.

ORITORICAL CONTEST AT THE SCHOOL AUDITORIUM.

According to custom, the 177th

anniversary of the birth of the "Father of his country" was celewere :- Misses Marian Clement, Beu-Coffield, and Master Orlin Moore and as they cast lots for position or order of speaking it resulted in the order named. If ever there was a doubt as to the prosperity or enfhusiastic interest of the pupils and patrons in the Marion Graded and High School, that doubt must have been dispelled Monday night when before a crowded house, "packed almost to standing room only," the above five able and confident representatives of the school stepped on the stage. Even the most optimistic were compelled ;a admit that 'twas as good looking at. talented quintette as the school had ever presented to the public or called on judges to choose a victor from. The Judges were Profs. Smith, of Sturgis Girton, of Morganfield, and Richards of Princeton, and it must have been a knotty problem for them to decide as each of the fair speakers aistinguished herself to such an extent that 'twas almost a shutout for Master Orlin Moore, who, although he belongs to a family of orators and sustained the reputation of the familv must have realized he had a battle Royal on his bands to snatch the laurel from the brow of the best of the quartette which had preceeded him He and each of the contestants had man loyal friends and admirers in the audience. The Judges were out a long time and the audience was getting impatient when Prof. Suith announced Miss Mary Coffield as the winner of the medal Miss Coffield was the recipient of many beautiful flowers and congratulations. The others received flowers and congratulations too and they deserved both as each one of the contestants could be a winner in any e except ours where there are o many good ones.

HUBBARD GROCERY MARION,

AN IMPORTANT DECISION BY THE UNITED STATES COMMIS-AGRICULTURE ON BLEACHING FLOUR.

Dr. Wiley the United states Chemist, after having analyzed samples of bleached flour from all parts of the country, found by careful analysis that flour bleached by the Electrical process was an adulteration under the Pure Food Law, and Sec. Wilson, Com'r. of Agriculture has so ruled. All mills using the Electrical method of bleaching flour have been notified to discontinue the practice. That on and after June 2, 1909, a heavy penalty will be imposed on any one selling or offering for sale bleached flour.

Prof. Ladd, Com'r. of Agriculture of North Dakota in his investigation and analysis of bleached flour found traces of poison and in his experiments in feeding rabbits, bread made from flour heavily bleached, it killed them like strichnine.

Mills and Flour dealers who are stocked up heav ily on this bleached flour will endeavor to dump same on the market at any old price between now and June 2nd. Flour buyers should keep their eyes open and not get caught.

For the information of the public we will state that flour in its natural, and wholesome state has a creamy tint, while flour bleached by the Electrical process has a dead chalky appearance.

After officials of our government, having analyzed bleached flour, and for the protection of its citizens, decided it to be an adulteration and unsafe to be used, then why should anyone jeopordize his health by the use of same in order to save a few pennies?

For the information of their customers and to all whom it may concern, the Marion Milling Co., states that they have never had a bleacher in its mill Hence they positively guarantee their flour not bleached and to be as pure and wholesome as flour can be made and the quality as high as any in the country.

They also desire to thank all the people of our town and county for their loyal support and patronage they have given them in the past and it shall be their earnest endeaver by honest methods and fair dealing to continue to merit their patronage confidence and good will. Again thanking you.

We are Your Friends,

MARION MILLING COMPANY,

Soldiers Balks Death Plot.

It seemed to J. A. Stone, a civil war verteran, of Kemp, Texas., that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold" he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds." For severe Colds, Joy obstanant Coughs, Hemorrhages, Asthma, and to prevent Pneumonia it's unrivaled. 50c. and \$1,00. Trial bottle free. Guaranteed by Jas. H. Orme day. and Haynes & Taylor.

In a recent issue of the RECORD-Press, there appeared a very forceful and interesting article by T. W. Moore, in which he opposed all associations and unions among the laboring class of people, While we are obliged to admit that the letter was clear and vigorous, there are several points in it which many of us Aurther Williams and wife visited heartily disagree with He says that Mrs. Della Noell and Mrs. Mollie farmers ought to set a reasonable price on their products and wait until they obtain that price and not fit out of it. He seems to forget, however, that for many generations during the past the farmers have been trying the plan of individual selling without any co-operation and the results have been very unsatifactorily all along. The farmers must come together and organize and then Two of our promising young men, fix a price on their products which and the prices of many other farm Mrs. Wedie Slayton gave a candy products have been raised since the If Mr. Moore wants a more extended CORD-PRESS, or he can apply to will have a debate on the subject at any convenient time and place.

CHAPTER II.

In Which I Meet His Lordship. Chilean officers, largely naval, to judge from their rather resplendent uniforms, occupied this second table, and it was evident that they had been drinking to excess. It was their loud voices and boisterous laughter which first attracted my attention, and l soon caught sufficient of their incautious speech to discover they were bantering one among their number to carry into execution a tipsy boast he had just made over the wine. The special officer thus singled out as butt for the boisterous wit of his reckless companions was a naval lieutenant, a rather tall, cadaverous fellow, sallow faced, his short black hair standing erect and bristling, his mustaches his mouth. His cheeks were flushed his expense, and his lips uttered a part would only serve to hasten my burning Castilian curse, as he arose of his laughing tormentors.

"Sacro Cristo! you will see, camarcing himself for the effort. "Caramba! what sailor fears in presence of beauty?-puf! not I."

He turned short about, his sword | chair. chains rattling, and strode directly across toward the unconscious Briton, who stared up at him over his roast beef in petrified astonishment. Fumbling awkwardly at his belt, the intruding officer finally brought forth a card, and placed it ostentatiously upon the table, bowing low as he did so.

"I would myself to introduce to the senor," he announced with drunken gravity, and in amazingly broken English. "I Teniente Lootenant Sanchez. Chilean navy; one of the fir-rst family in this country. Maybe you know me. bettar-r acq'aintance make with the gr-reat Ingles, an' the ladies, the most rested gloatingly on the surprised face | to me-there are stairs at that corner of the girl, who had half turned, the better to observe him.

It was all so swiftly, so impudently done that the astounded Briton could only stare, his lean face reddening with annoyance. This hesitancy, as well as something in the constrained attitude of the younger woman, seemed to encourage Sanchez; his expression changed to a satisfied smile, while his lank figure bent in another ceremonious bow, this time directed

"Ah, I knew it vould so be," he said, insinuatingly. "It vas so I told it to my bravas camaradas. Si, si, it vas so ever-the uniform make us welcome vith the ladies. They lofe the brav': is it not so, senorita?"

By this time the outraged paterfamilias had stiffened into rock, his eyes cold and hard behind their glasses. In frigid contempt he deliberately turned his back upon the fellow, saying icily:

"You impertinent scoundrel! I am accustomed to selecting my own guests, and you are certainly not one of them."

The Chilean laughed, perhaps not wholly comprehending the words, and remained twisting his mustache between long white fingers. He was far too drunk for fear, besides being upheld by a military contempt for civil-

"Pah! 'tis a pig of a papa," he sputtered, half turning to witness the approval of his laughing companions behind. "But the smile of beauty still invites, and Juan Sanchez fears not before man or devil.

He strode around the table, his scabbard clanking on the stone floor, drew out the single vacant chair and planted himself in it, his back toward me, his impudent face leering across the white cloth toward the startled, indignant woman seated opposite. I watched her gray eyes widen from astonishment, only to darken with indignation. She pushed back her chair, half rose to her feet, and sank down again, her cheeks flushed, her bosom rising and falling tumultuously. Her evident contempt for the fellow would have utterly crushed any one less befuddled into embarrassed silence. But Sanchez I had assumed at the hotel. merely grinned, his hands still toying

with his mustaches. "Sangre de Cristo, was it not so, mees?" he questioned, insinuatingly, utterly ignoring the helpless man sputtering at the head of the table, who could only glare at him with open mouth. "The uniform of valor is the best introduction to the favor of the ladies. Si, you vera soon be pretty good amiga of me, the Lootenant Juan Sanchez. I show you the vera best society in Valparaiso, the opera, the grand ball, everything that pleases the senoritas in my country. I have the entree, an' it is easy. I take you to the dance on the warship-bueno! all

vera fine. Si, was it not so, mees?" The young girl, her fine eyes concomptuous and loathing, turned aside from the leering, drunken face confronting her. An instant only her glance rested on the sputtering old

man at the head of the table, then back to her persecutor.

"The dance on the warship, senorita," he insisted, "the gran' dance of my country; it will please you mucho. Dios! w'at care we for papa'

somewhat unsteadily to his feet, and to hold back. Half rising, and bendglared about into the expectant faces ing forward, I reached through the open window, twisted my fingers into the fellow's coat collar, and the next adas; you will see!" he declared, bra- instant he was lying flat upon his back on the balcony floor, nothing remaining to show his recent presence in the dining hall except an overturned

It was rather smartly, prettily done, the astounded lieutenant possessing neither wind nor opportunity for the slightest outcry, and once without, I promptly throttled him, meanwhile muttering a few important admonitions into his ear in well-selected

"Lie still there, you drunken idiot. Make another attempt to bite me, and I'll pound your head on these stones. Bah! save your threats, senor, and if you make the slightest uproar I'll hoist you over the railing yonder, and it's hey? I was with de Almirante Coch. 30 feet to the pavement below. Now rane, when the capitano call on you stand up! Do you see this, senor?" in the leetle ship. Now I would the and I pressed the cold muzzle of a revolver against his swarthy cheek. "Oh, you do! Well, you probably boot'ful ladies," and his sunken eyes know also how it works. Now listen

'Make the Slightest Uproar and I'll Hoist You Over the Railing."

yonder; you go down them quietly and disappear-disappear; do you understand that? If you dare return to that dining room to-night, or attempt again to address that young woman, I am going to kill you, senor."

My voice was cold and low, but it carried weight. Panting still from the flerce choking, his eyes hot with anger, his lips trembling, he endeavored

"Nombre de Dios!" he burst forth at last, his face full of murder, yet standing helpless before my gun-barrel. "I cut your heart out! You insult me, a Chilean sailor. I have revenge for my honor. You fight me for this, senor.

"Oh, certainly, anything to oblige," returned, indifferently. "Only you get out of here now, and sober up, Sanchez.'

"Caramba! you know my name, senor; but I know not yours."

I drew a card from my pocket across which had been written the cognomen

"You possess it now," I said somewhat tartly. "Besides, senor, that suppens to be my dinner coming youer, and I prefer eating it undisturbed. You either go down those stairs quietat cace, or I'll kick you down."

I was obliged to smile while watchng him back away. Beyond question he fellow was an arrant coward and bully, yet sufficiently angry and outraged to have fought gladly, if only o the head of the stairs, watching him losely while he descended, cursing fiercely to himself at every step until he finally vanished into the blackness below. The chances were strong that I should hear from him later, but in the meantime my interest veered to the excellent dinner being served. The lieutenant would have his turn, and, perchance, bring me swift release from all my troubles on the morrow. street searching for its dead master, also bought some hemp carpet. The The English party still remained at

their table, lingering over the dessert, but I noticed that conversation had lapsed, and precious little eating was being done. Evidently only the requirements of good form held them to their places, the elderly gentleman especially denoting his nervousness by continual side-glances about the long room. I overheard him mutter something indistinctly regarding having left his pistol upstairs, and it was plainly apparent he felt thoroughly ashamed of his late passiveness under insult. Madame was flushed and uneasy, angry still over the episode, and greatly inclined to sputter now that all real danger had passed; but the younger woman merely toyed with her spoon in silence, her eyes downcast, her cheeks devoid of their previous color. She made a fair picture, the brilliant light overhead flooding her | ter dark hair, and it was not in young human nature to refrain from gazing swept, almost beseechingly, about the at her through the invitingly open wingreat room. Apparently no one pres- dow. Finally they all pushed back ent had taken the slightest interest in their chairs to retire, and, as she the affair, with the exception of the glanced up while rising to her feet, small party of Chilean officers who our eyes met fairly, and a warm wave were laughing uproariously over their of color swept across the uplifted, senwine, and the girl's gray eyes, now sitive face. The next instant, yielding almost black from excitement, came apparently to some sudden impulse of gratitude, she stepped through the open window, and stood beside me

The Centenary of Chopin

ST 100 years ago, March |

Poland a child who was place in the world of music, Francois Frederick Chopin. Chopin was called by

Schumann the boldest and proudest poetic spirit of his times; and Grove says Schumann might with equal truth have named him a composer for the pianoforte pre-eminent beyond com-

A musician of exceptional training a planist of wonderful skill and power it is as composer for the piano he holds chief claim to attention. He was the first of all the composers to understand the limitations and possibilities of the plano, his compositions are all works for the plano or with the plano. Compared with other composers he did not leave behind a large quantity of work, but that left is of rare quality. The solo pieces include etudes, preludes, mazurkas, polonaises, ballades, scherzi, nocturnes, waltzes and other works. The compositions for piano with orchestra include two concertos: Don Giovanni Fantasia: Krakoviak, a rondo; E Flat Polonaise; and a Fantasia on Polish airs. He is author of three works for plane and 'cello, a piano trio and a rondo for two planos.

In his day he met with much appreciation, many honors; valued by his fellow artists, petted and feted by the world of fashion. He was an odd mixture, this Polish genius, his a most contradictory nature; on the one side truckling to the aristocracy, on the other never relinquishing his artistic ideals. And always a pathetic personality, in physique so frail, so appealing, of temperament so highly artistic the owner was ill-fitted for the tempest of living. He was of refined. high-bred appearance.

Chopin was born in the village of Zelazowa Wola, son of a teacher of French, his father French, his mother Polish. The boy seems to have received but a superficial general education, but in music was well taught, and early showed remarkable promise, made a public appearance at the tender age of eight years. He became a great favorite, was adored by the ladies, musicians spoke of him as a second Mozart. Before he was 11 he attempted composition, wrote a march dedicated to the Russian Grand Duke Constantine, a piece of music the duke had scored for a military band. At 12 he entered the Lyceum, and about this time began the study of harmony and counterpoint at the Warsaw conservatory; during the years of school work carried on his musical studies, on leaving the Lyceum adopted music as a profession. In 1830 he set forth as a traveling virtuoso, appeared in Breslau, Dresden, Prague, Vienna, Munich and Stuttgart, and on reaching Paris tarried there. It was just prior to his arrival in Paris the Russians had seized Warsaw, and French sympathy for downtrodden Poland may have added to the warmth of welcome held out to the young Polish musician. Artistic circles admitted him | ried upstairs to the concert room. He with acclaim, the doors of wealth and fashion opened wide for him. He was sought as a teacher, he found encouragement, sympathy, understanding, new incentive for writing. Presently he appeared less and less as public planist, devoting his time to of October 17, 1849. At the imprescomposition. Over in Germany Robert | sive funeral services held in honor of Schumann, always generous in appreciation, was the first to give to his was sung. A resting place for him was music full recognition, and in an article | chosen beside the graves of Cherubial oft-quoted wrote in regard to Chopin: "Hats off, geatlemen! a genius!"

Reference has been made to Cho-1, 1809, there was born in | pin's liking of the favor of the nobility, a weakness suggested in that so to hold a very important much of his work is dedicated to ous about his personal belongings, al-

> Friends to serve and obey appear not to have been wanting, and we of masculine brain, the man effeminate in his refinements, found each the their tastes, of widely differing mental Chopin's health was becoming more has been made mainly under Southand more frail, an affection of the ern skies and in a Southern environlungs making headway. Plans were ment. prepared for a sojourn on the island of Majorca in search of health, Mme. Sand to accompany the invalid, and monplace accompaniments of illness soon banished romance. Chopin became so miserably ill his landlord refused to have one so much an invalid in his house, and there were strenuous days for both ill and well.

On return to France Chopin and

Mme. Sand spent their summers at the latter's country place in Nohant, their winters in Paris. Devoted nursing was rewarded by partial return to health of the invalid, and Chopin in this period labored assiduously at composition, taught, and occasionally played. But at last nursing and companionship ceased, the union came to a disastrous end. In 1847, after a violent quarrel, the couple separated. In the history of her life and in a sketch of the days in Majorca, George Sand gives a very different picture of her companion than is presented in a work published the year of the separation. wherein Chopin is drawn as a flighty and exasperating invalid. He never recovered from the effects of the quarrel, the excitement and distress attending the rupture are thought to have hastened his death. Disappointment and poverty as well as ill-health marked his later days. In February, 1848, he played for the last time in Paris, then fleeing from the revolution went over to London. He was not at all strong, but persisted in trying to work, played when he had to be carengaged in a tour in Scotland, and made some visits there, but finally had to surrender to the fact that the end was not far off, that work and play must be laid aside. Shortly after return to Paris, he died, on the morning the great musician. Mozart's Requiem and Bellini.

KATHERINE POPE.

A BLACK MAN'S TRIBUTE TO SOUTHERN GENEROSITY.

Southarn White Aid to Negro Education.

By E. L. Blackshear, Principal Texas S. N. and I. College.)

(Read at the Fifth Annual Session of the National Association of Teachers in Colored Schools, Louisville, Ky., June 26, 1908.)

While no colored man possessing even a spark of intelligence or of appreciation can be unmindful or ungrateful for what Northern philanthropy and Christianity have done and are doing for negro education in the Southern States, still this should not cause us to be unmindful or unappreciative of the work the Southern States and municipalities are doing for our educational upbuilding. Moreover our undying gratitude for emancipation from slavery need not blind our eyes and minds to that practical, every-day, neighborly philanthropy of friendly whites among the former slave-owners and their descendents which has done so much to make freedom effective and to emancipate us from ignorance and poverty. This practical philanthropy takes the form of advice, encouragement and financial help in every undertaking made by the colored people for their own general improvement, such as buildings, churches, and acquiring land and erecting buildings for negro educational institutions. It takes the form in many cases of definite encouragefarm or town property and of long and indulgent conditions of payment. where these are needed. The facts authoritatively presented

by Mr. Andrew Carnegie in

dress before the Philosophical Institution of Edinburgh, 16th October, 1907, that negro illiteracy was reduced from 83.5 per cent in 1870 to 47.4 per cent in 1900-a gain of 43 per cent; that two religious denominations of colored people. Baptist and various branches of Methodists. owned 23,770 church buildings, valued, with the land on which they stand, at \$26,626,448, with a total membership of 2.678.977; that 1, 96,734 colored youths were in annual attendance on the public schools of the South; that in 1900 negroes as tenants or as land-owners cultivated 746,717 farms, comprising 38,233,933 acres, embracing 59,741 square miles or just the area of Engcountesses and baronesses, a couple of land and Wales, or double that of princesses in the list of titled person- Scotland and larger than the Kingages. much future suffering.

of the race question in Birmingham said: "The negroes in the Southern States were merely turned loose with nothing but the power to vote and hold office without qualifications. They were not offered homes anywhere except in the South, and they Principal Blackshear's Address on fell as a load on the Southern people. But the South assumed the burden and the assertion is here made." continues General Evans, "that no body of people in any age of the world has treated this negro race with real kindness except the people of the Southern States. All nations have enslaved them ,and not one has trained them into that physical intelligent, moral manhood which is the indisputable qualification of a valuable population. For example, consider the negroes in Africa under European rule. The Southern States have over six millions of this race to care for and the Southern people are qualified to execute the trust justly, benevolently, and for the general welfare."

This quotation indicates that there is a sentiment of kindliness in the South towards the negro, and a feeling of civic as well as religious rein American life and history.

It was to this sentiment that Secretary of War Mr. Taft referred when he said, on the occasion of his layng the corner stone of the Carnegie negro education in the South is clusively book training, there is best hope for the negro is the South- charity. In all the States of the girl will suffer for lack of this trainand is associated."

any form of social equality. enemies of civilization. With them we cleared the primeval forest, drained ancient swamps, bridged virgin streams and erected homes for the white man's family. Many a loyal and brave, though untutored black man, freely laid down his life, a sacrifice to the ferocity of the redskins, and an offering on the altar of the white man's civilization. Let us have no color line in our

sympathies, but rather let us culti-

rate the spirit of courteous and friendly good-will toward the white race, particularly in the South where absence of friendly feeling constant contact will only result in acceleraion of hostile feeling. When we consider the magnitude of the work the white South is doing toward the education of our race we shall find ust and substantial ground for the statement that we have friends among the Southern whites. Taking out of the seventeen Southern States (I include Oklahoma, Maryland, Delaware and West Virginia) the following seven states: Virginia, North Caroina, South Carolina, Georgia, Kenucky, Missouri, and Texas, we find their combined school population by heir latest official reports to be 1. 22,377, and the amount apportiond annually from state funds to the ommon or rural schools for colored hildren to be \$2,596,619.79. This atter sum does not include the amount spent in these seven states by the cities on their cofored schools themselves on buildings and repairs for the negro common or rural ways less than the total school population, and as the average actual attendance is still less, we may safely take 50 per cent of school population in the seven states selected as a basis for ascertaining a per capita. This would give an average total attendance in the seven states of 561.188 and an average per capita of \$4.627 In addition to the work of the ural schools which are state supported we must consider the work lone in the city schools and in state estitutions for secondary training.

In all the cities and large towns the South we find systems of graded schools for colored youth, paterned after the white schools and running the same length of time. In the absence of exact data, it is evident that there are thousands of colored boys and girls enjoying fair chool advantages. Most of these cities maintain excellent high schools, manned by accomplished teachers The colored high schools of Baltimore, Nashville, Chattanooga, Louisville, St. Louis Kansas City (Mo.) Little Rock, Houston, San Antonio, and Dallas, enjoy wide reputations No where has the Southern white man shown a fairer spirit than in his resolute determination to bear the white man's burden in educating the black man's child in the cities, notwithstanding the fact that the share of general taxation paid by negrees is a small proportion, espe-

ially in the cities. Still it must not be concluded that

Desperate Coughs

Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral.

We publish our formulas

adjustment of racial relations, nor of legislators who were bent on di- school work into every negro city are not wanted. What is needed is for both races not up to the mark. plats, and shade trees. the cultivation of a right public sen- But there is no disposition in the South who are willing both to help needed to accomplish this end. we live en masse and where in the favor the division of school tax on field of Southern labor." racial lines as being un-American on the one hand and because on the race, must and do live on farms and the states, greatly reduce the length training is rapidly becoming a recogof the colored school term. Indeed. nized mode of education in schools as applied to the cities such a plan for white youth, and it should find a would practically destroy the city permanent place in the colored

chools for colored youth. schools, the seventeen Southern operation of friendly whites. States maintain 21 state institutions priation for these 21 institutions of penditure of \$420,000. Taking 400 s the average enrollment of these schools, we have a total enrollment of 8,400 colored pupils in state secandary schools

There are no available data as to the high school enrollment of pegro pupils in most of the states. Texas reports 1,947 such pupils, Virg'nia large measure from the competition 910. We may take 400 as a safaverage for the seventeen Southern States. This gives us 6,500 high school pupils. Adding these to the 8.400 pupils in the state institutions we can safely conclude that 15,200 vegro youth are getting a degree of secondary instruction in public institutions in the South.

But we have said enough to indi-

ate that the Southern States are already doing a work of no mean proportions for the education of the colored youth. While the system is not ideal the foundation has been laid and it is largely these state-supported schools of the South that have reduced negro illiteracy from 83.5 per cent in 1870 to 47.4 per cent in 1900, s computed by Mr. Carnegle.

In order to increase the effectiveness of the public schools in the South for negroes and to secure to a fuller degree the sympathy and active co-operation of the Southern whites, I would urge the introduction of industrial training into every negro school. Some form of handicraft should be taken up the very first day the child enters school and continue every day to the last. The whole nation, North and South, East and West, is now awake to the value of this form of training. Its mental, moral, physical, and vocational values are now well understood by all. Industrial education, first conceived and put in motion by General Armstrong at Hampton, and notably transplanted and carried forward by been taken up by the whole nation. It is being introduced into the grammar and high schools for white

youth, both North and South, with wonderful rapidity. As it entails a greater initial cost and a greater current expense than the old exibrary at Fisk University: "The wholly a gift or a matter of state great danger that the colored boy and rn white man with whom he lives South the negroes are paying taxes; ing. TO MAKE PAPER

Report on Congressman Stanley's Bill'

A Washington special says: The agricultural appropriation bill being not accused of participating in the Stanley, of Kentucky, made an interesting talk in the House on the zation of the night riders .- Padusubject of manufacturing paper from cornstalks. Mr. Stanley has secured a favorable report on a bill appropriating \$30,000 to try the experi-ment in Western Kentucky. There munities over the measure, not to mention the consumers of paper, and, low the Farmers' Bank, Marion, Ky., from a national viewpoint, those who vastation of the forests, for the mak-

With the idea in view," said Mr Stanley, "of securing some substitute for wood as the basis of pulp. the Department of Agriculture has made the most of the modest appropriation available for that purpose: rice and wheat straw, the trunks of palm trees, cotton and cornstalks and Repairs for all makes of sewing have all been tried, with the result that the cornstalk furnishes the only hope of a satisfactory solution of this vexed problem. A ton of cornstalks will produce 300 pounds of fine fiber and 600 of pulp, from which a good quality of tissue paper, pasteboard or such utensils as tubs, pails and other things of like character can be

Will Make Fine Paper.

"The long fiber will according to the statements of Drs. Cobb and Galloway, make the finest quality of paper, and paper of every varietyprint paper, vellum, etc. It is confidently claimed by Mr. Sherwood, of Chicago, who has several valuable Candidates are plentiful around patents on this paper-making process, that the part of the stalk valuable as a stock is not lost and that practically all of it can be saved in Mrs. J. Stone was the guest of the form of an extract. A substance similar in all respects is now used

'Certain conditions, however, are necessary before this process of manufacturing paper from cornstalks can commercially profitable You must have an unlimited supply of cheap stalks. It is estimated that stalks purchased at \$5 or \$6 a ton can be manufactured at a profit. Miss Emma Terry's school closed Then you must have in addition facilities for cheap transportation, and last, but not least cheap fuel.

Ernesf Tackwell is talking of have purchased Heron Bros' store. is caustic soda; this, after being used We understand that G. V. Lau- chinery, and as the power necessary to its successful operation demands the consumption of great quantities of fuel.

Location of Plants.

"These paper plants will, then, have to be erected in a corn belt. near navigable rivers, railroad ceners and in the immediate vicinity of extensive coal fields. Miss Frances Hoover has returned toms of Kentucky are pre-eminently successful operation of this nascent industry. Here we have every facility, fertile valleys, which have without appreciable loss in producdred years, and corn growing on stalk tall and rank; excellent facilities for transportation by rail and vater, and the canalization of the Obio, which should never be lost ight of, still cheaper and better transportation. And underlying the whole area for a hundred and twenty miles, from Hancock to Union county, vein on vein of the finest steam coal in the country. With this idea in view. I have at last succeeded in securing a favorable from the agricultural committee appropriating \$30,000 for the erection

of a small plant in this region. If the experiment proves successful, and I have great faith in the confident and assuring statements of he experts in the department and out of it, this modest beginning will be the forerunner of a great indusry, fraught with the possibility of unitiplied benefits to the country. It will conserve as nothing else can the national forests; it will save the naional government the expenditure of millions for that purpose. It will heapen and improve the supply of print paper, an invaluable service to be press, and to the dissemination of useful information, for it will heapen books, and it will render which especially in the river bottoms as been literally thrown away,

At the conclusion of Mr. Staples speech, Representative Mann, who had made a point of order against or experiments with cornstalks and other materials in the manufacture f paper, withdrew his objection, system alone, backed up by the es 'his amount will at least give the abject a fair test.

Buys interest in Wholesale Grocery.

H. C. Moore and others have ought a controlling interest in the wholesale grocery of W. A. Chamabout March 15th. Mr. Moore will retain his connection with the Monarch Grain Co., but will be in charge the grocery. J. H. Morgan will main with the house. The business will be greatly enlarged and Mr. Moore, who is an experienced man in this business, will be general manager.-Hopkinsville Kentuckian.

Union of America and All Other Growers of Tobacco. We are confronted with a probm more serious than the many realize at this time. The unior came into existence in 1902 and now has 16 state organizations, and or ganizing work actively and aggressively pushed in 27 states of the Union and has a membership of two million eight hundred thousand members, and has set the price on cotton four times and won every time until the banks were closed on the farmers and laboring people in order to destroy farmers organiza-Even the cotton remained above 10 cents per lb., in the market of the country for several months. a thing unheard of during all the money panics of the past-in 1873 and again in 1893, when cotton sold for less than four cents per lb. each time, thus showing the power of the holding movement under the Farmers' Union warehouse system. As result of this wonderful movement, light hundred thousand dollars in gold was received by the cotton growers of the South as a balance of trade in favor of the United States above any period of time for 40 years. This opened the horse and mule market of the South, and Kentucky, Kansas, Missouri and Tenin Hawaii and in Cuba with the most stock to the cotton states at prices nessee furnished their portion of ranging from \$125 to \$225 each that formerly sold at from \$75 to \$120 each. In the meantime the American Society of Equity was playng an important part in Kentucky. Indiana, Illinois and the western states educating the people. Also the Tobacco Growers' association sprang cto existence a little later and did great work. But alas! It seems hat it sought the wrong leadership ver doctor, railroad agent, beef and

The most expensive ingredient in birth. The farmers should take a Forest Harris and James Wright The most expensive ingredient to the manufacture of paper from stalks lesson from this fatal fall of the meat trust oil trust and the steel rust, and more than 600 trusts have their organizations, and in secret or private conclave fix the nanagement of their business, which claim they have the right to do so | tig as the law allows them to do so. And if the farmers can not and will not see and act as the other fellow as done and is doing to protect imself, then every effort he may out forth to protect himself is a failre, and any effort to organize on part of the farmer for the proecting of his rights, his family and home, is a failure, so long as he tiows his enemies to come into his counsels, or to become a member of s organization or even hold open cetings whereas his enemies can ome into his business sessions. Therefore, I warn all members of the Farmers' union of Kentucky, and Hear the bells which sweetly ring; ill other states, to beware of your When you feel like singin', sing! temies and take none into your der except men who live upon the farm, and even be careful of some of them. This movement must coninue, though the absolute dissolution of the equity and the dark tosacco association is inevitable. he lesson they have taught will live fresh in the minds of every farmer of our great country for decades to come. Let the farmer unite as never

before, go behind closed doors and work out their own needs and apply their own remedies for the evils that by Haynes & Taylor flect their interests brought about or the organization of other classes You should get busy, and get busy now, to build your fortifications of it from circulation, thus leaving the be a low rate of interest and retired not drawing a single cent of interest, ed your money, on which you were worred bas fight and borrownot uodn umop padooms anou igain They Had Expected to Secure out of Mr. Armour and his cohorts. pur kont money being beyond your sarket that had no money to buy, som tobacco and your stock on a he paragraph appropriating \$20,000 Hes of peorol used ased ased pine our money alone to tarmers, you pauroj aanu pun sanng uno Jee defense which lie in the warehouse tablishing of your own banks to

BLACK MAN'S TRIBUTE TO SOUTHERN GENEROSITY.

Paducah, Ky., Feb. 15, 1909.

(Continued from Hage Seven)

on the farms already under cultivation, but there are also vast terriories of uncultivated lands, exceeding, perhaps, the cultivated territory, that invite his industry, and offer ample compensation for intelligent cultivation and for increase in the wealth and prosperity of the State. If the negro can be trained and edu-Educational and Co-operative cated to occupy this field intelligently and contentedly, thus demonstrating that his education has fitted him for making better crops and more money for himself and his landlord, and has developed in him the power and the ambition gradually to equire little houldings of his own and to help redeem from waste the great wealth of these thousands and hundreds of thousands of acres of untilled lands, he will win the confidence, respect, support and aid of Southern white men because he will deserve them and he will win a permanent place in Southern life because he will have made himself indispensable to it. Unless he does his, the time is not far distant when Southern farmers will be compelled to import foreign white laborers. when even this safest door will be

closed These quotations of representative Southern opinion indicate clearly that it is along agricultural lines that the white South is most willing to co-operate with the black man both educationally and economically. Eighty per cent of the colored race live in the country. The influence then of this Association should be greatly directed toward a co-operaion with the public school authorities to introduce agriculture, theoret icial and practical into every rural chool of the race, to inculcate a ove of nature and of plants, of farm nimals of the soil-a knowledge of the laws of the growth and improvement of plant and animal species-a love of and a desire for land and

Meanwhile let us labor for peace and good-will between the races, remembering the words of Holy Writ: A man that hath friends must show

timself friendly. There are difficulties and evils in the South. But so are there, of one ort or another, everywhere. Let us not be discouraged And sometimes when tempted to despondency let us which we adapt, as follows:

If you strike a thorn or rose, if it halls or if it snows,

When the fish ain't on your line; Bhit your hook and keep on tryin'.

Keep a goin

Then the weather kills your crop, Keep a goin'

When you stumble git right up, An' keep a goin Gettin' broke ain't any crime. Tell the world you're feelin' fine.

When it looks like all was up.

Drain the sweetness from the cup. An' keep a goin

But keep a goin'

Saved Them.

D. J. O Greesor, State Serv., of American Veterinary Medical Assocition Kokemo, Ind . says: "The herd of hogs on which the Bourbon Hog Cholera Remedy was used, was sold testerday. We give this remethere in secret, like all other classes dy the credit of saving them." Sold

TRAIN ROBBERS DISAPPOINTED.

\$200,000 in Gold Bullion.

Colorado Springs, Col . Feb 17. It was learned last night from reliable ratiroad sources that the train robber- who held up Denver & Rio Grand passenger No 4. near Military Junction, just outside of Denver, Saturday morning, expected to secure \$200,000 in gold bullion which was being shipped from San Francisco to the Denver mint

It was known that the bullion was shipped on the Colorado Midland railroad, and the fact that the Colorado Midland and Denver & Rio Grande use the same tracks from ing at 6 cents and 6% cents dropped Grand Junction to Colorado Springs, misled the robbers into the belief that the bullion would come into Denver over the Rio Grande track. suffering from severe rectal trouble gone to four cents and five cents per The bullion train, however, which pound, and yet the cohorts of the was accompanied by three extra remembered. The valedictory was "till wholly cured." They prevent when in fact the farmers' union is Fe tracks, which are used by the Colorado Midland between Colorado ion banks should and must be the Springs and Denver. .
