NUMBER 46

PRINCETON PRESBYTERY OF CUMBERLAND CHURCH.

Princeton Presbytery of the Cumberland Presbyterian church, met at Blackford, April 6th, 1909, at 7:30 p. m. The retiring Moderator, having joined another Presbytery, was not present. According to a previously arranged program, the Rev. J. L. Price, of Providence, preached the opening sermon from second Timothy 3:16, "All Scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness." The sermon was very clear and convincing.

The Stated Clerk then called the Presbytery to order, and the Rev. A. C. Biddle, of Modisville, offered the constituting prayer.

The Rev. J. B. Lowery was chosen Moderator by acclamation. Ten ordained ministers were present at roll call, and twenty-seven congregations were represented, 2519 members reported.

The Rev. Milton L. Clements, of New Lebanon Presbytery, Synod, of Missouri, presented a letter and was received into the Presbytery. Brother Clements will have charge of the Hopkinsville church.

On Wednesday, Brother Clements preached the Sacramental sermon, and Brother W. T. Oakley administered the sacrament. The service was very solemn and impressive. At the close of this service the people met in the altar and took each other by the hand, and the Lord certainly poured out his spirit upon his people.

Elder R. L. Baskett, of Nashville, Tenn., Secretary of the Board of Publication, was with us, and added much to the interest of the Presbytery.

On Wednesday afternoon, Rev. J. L. Price, by request, delivered his lecture "The Outlook of the Cumberland Presbyterian Church." All Cumberland Presbyterians should have heard the lecture. It was splendid, and all present were delighted.

On Wednesday evening, just preceding the Elders' and Deacons' Meeting, a very impressive Memorial Service was held in memory of our deceased brother, Rev. R. A. Moore. The service was conducted by Rev. W. T. Oakley. At the close of this service, a collection was taken for Brother Moore's family, amounting to \$45.65. On Tuesday, at 11 o'clock, the beautiful little church in which Presbytery met, was dedicated. Rev. A. C. Biddle preached the sermon from Genesis 28:22.

The congregation was in debt some on the house, and \$290.00 in cash and subscriptions were quickly raised. Rev. J. T. Barbee then dedicated the house. At 7 o'clock Thursday evening, Brother Barbee preached on baptism. All pronounced it a fine sermon, and well pleased.

In our announcement in the Banner, we said we expected the best Presbytery we had ever had, and every one seemed to think our expectations have been realized. The good people of Blackford opened their doors and hearts to us and treated us so kindly that we will want to go back.

H. N. LAMB, Stated Clerk.

House Burned Near Fords Ferry.

A most disastrous fire occurred at the residence of T. N. Wofford Monday night, April 5th, in which his house and nearly all of his household goods were burned to the ground. The fire started from some unknown cause not long after midnight. When the fire was discovered by the inmates at two o'clock, it was too late to recover the house from the flames. Only a few articles were saved before the fire gained a complete hold all over the house, which was reduced to smouldering embers half an hour after the flames were discovered. The loss incurred by the fire was estimated at \$1200.00. There was no insurance on the house. Immediately after the fire a number of Mr. Wofford's friends got up some subscriptions for the benefit of the distress family. Mr. Wofford and family are now living in another house on their farm not far from the place where their formerly stood.

The Great Van Amburg and Howe's Great London Shows United.

No tented amusement enterprise on earth has met with such continuous praise and applause as has Howe's Great London Shows. An ovation greets this clean and beautiful organization at every point in its annual tour.

From the genesis of the show until its present colossal perfection there has not been a solitary season in which it has not led its fellows in the multiplicity and general excellence of its attractions and now it towers above and dwarfs all other tented exhibitions in comparative insignificance, and this season it presents such an opulence of sterling and meritorious attractions as to entitle it to be designated as a vast Amusement Golconda whose wondrous wealth of entertainment is unlimited and immeasurable.

Howe's Great London Shows are prolific in leading and sensational features, and fully equipped with the finest stable of horses and the most skillful and finished bareback riders, gymnasts and acrobats in the profession. The show has a large, well-ordered and well-selected menagerie, containing living, vigorous specimen of all that is strange, rare and curious within the range of natural history, and this Royal Roman Hippodrome is a realistic reproduction of that of the days of the Imperial Caesar.

It may be said, however, that to these always prominent and desirable attractions have been added for the current season, many features so stupendous in magnitude, so overpowering in unprecedented grandeur and impressiveness, and so enormous in the expense necessary to this production, that the features mentioned, grand and wonderful as they are, can at best play but a secondary part.

Don't forget the date, Thursday April 22.

The Reason They Moved.

Last Sunday, while explaining the Sunday-school lesson which pertained to the bartering of the Jews in the Temple, the superintendent asked the children, "Why did the Lord send them out of the Temple?" As no one answered he wished to make it clearer, and put the question in this way: "Why would a man make people move out of his house?"

From the infant class little Willie piped up, "Because they couldn't pay the rent."—The Delineator for May.

A NEW FIND---OF GREAT IMPORTANCE TO THIS DISTRICT.

Western Section of Kentucky and Eastern Illinois One of the Richest Fluor Spar Producing Areas in the World---Considerable Money Has Been Made on Fluor Spar.

It is a well known fact that the western section of Kentucky and eastern Illinois is one of the richest fluor-spar producing areas in the world, and considerable money has here been made in working the pure spar vein, but inasmuch as most of these spar veins also contain zinc and lead, which up to the present time, has not been amenable to separation; there is a fortune in an economic method which will produce the pure spar from this class of material.

Although considerable work has been done towards cleaning up fluorspar from zinc, lead, sulphur, etc., through various methods, such as oil flotation, water concentration, and air separation, nothing definite has been accomplished, and the problem is therefore, as far as these methods are concerned, still unsolved.

Some few years ago it was supposed that oil flotation would affectually solve the problem. Clean lead was separated, but the main problem, that of eliminating zinc from the spar, is still unsolved, on account of the slight difference in gravity between the zinc and the spar, which is a delicate operation, and one almost impossible to accomplish, and makes it financially impossible. At about this time it was suggested that the problem might possibly be solved through chemical means, and therefore certain ore reduction schemes were proposed. The most feasible and best adaptable method to accomplish the desired end, was found to be the application of hydrochloric acid in the presence of an oxidizing agent. By this means the zinc, lead, etc., are converted into chlorides, and as such can then be readily removed by washing and dissolving out with water, leaving the spar in its natural ground condition, ready to be disposed of as ground spar of A number 1 quality, and also producing zinc and lead chlorides.

The process as carried out in practice is as follows:

The fluorspar which should be free from calc spar, (viz: carbonate of lime) but may contain variable percentages of zinc and lead sulphides, is crushed and ground to about forty mesh. This crushed material is then treated in a suitable furnace and at a proper temperature, said temperature not to exceed 750 deg. Cent. to the action of gaseous hydrochloric acid, in the presence of an oxidizing agent. This oxidizing agent may be oxygen from the air, the decomposition products resulting through the addition of nitric acid or nitrates to the charge, or chlorine gas, which the inventor prefers. The chlorine gas which is used in this operation is produced primarily through the electrolysis of a salt or brine solution. This operation produces caustic soda and chlorine gas. The caustic soda selling at a price of 24 cents per pound. (60%) will cover the major cost of the production of the necessary chlorine gas.

Now in treating the impure spar with hydrochloric acid and the above produced chlorine gas as previously described, the impurities such as lead, zinc and sulphur, are eliminated. Supposing we have a spar containing 5 per cent of lead 10 per cent zinc, then we should have per ton 100 pounds of lead, 200 pounds of zinc, a few pounds of sulphur, which is eliminated, and the rest (if the ore be pure) approximately 1650 pounds of spar. At the present market price, say 4 cents for lead, 4 cents for zinc, we would have 100 pounds of lead, value \$4.00, 200 pounds

zinc value \$8.00, 1650 pounds of pure spar at a low estimate of ten dollars per ton, value \$8.00, giving a total of \$20.00 per ton on ores, that are at the present time worthless. The zinc and lead chlorides which are produced above are amenable to electrolysis the same as salt. This operation producing an exceedingly pure lead and zinc, and at the same regenerating the chlorine gas, for use in the further treatment of raw ore, making a continuous cyclic process.

I have produced large quantities of metal by similar means in Europe and conceived the idea of the treatment of fluorspar and rebellious zinc and lead ores, preferring, however, the method of treatment should be kept a secret process, but found it difficult to do so and raise sufficient capital to establish a plant. Mr. P. H. Jordan, of Cleveland, O., who represents me, advised me some years ago to procure patents on my process for ore treatment, which advice I took, and applied for a basic patent in 1905, which was granted in 1907. This patent has been followed up by other patents for the treatment of rebellious zinc, lead and silver ores. There are large quantities of ore existing which are not amenable to present smelting operations, and from which large profits could be derived. Therefore it is my desire to bring these ores into such a condition that they will become a marketable commodity, whereas they are now lying dormant and are worthless.

WM. KOEHLER,

Electro Chemical Engineer.

She Almost Remembered.

Little Josephine, aged four, was intently studying the pictures in a book and seemed very much interested in a picture of Charles Dickens.

Taking the book to her mother she inquired who it was.

"That is Dickens, dear," said her mother.

The picture was wonderfully fascinating to the little girl and when her big sister came from college in the evening she ran and got the book, turned to the picture and said:

"Sister, see! This is a picture of Mr. Darn."

Her sister replied, "No, dear, that is Mr. Dickens."

"Well," said Josephine, "I knew it was some kind of a swear-word."—The Delineator for May.

RESOLUTIONS OF RESPECT.

Mrs. Annie Hillyard passed away from this life February 28, 1909. She had been in poor health for several years, bearing her suffering with remarkable christian grace and patience.

Funeral services were conducted at the Shady Grove cemetery March 2, by Bro. Jack Davis, after which she was tenderly laid to rest in hope of the resurrection.

The deceased was a wife of Bro. Pink Hillyard. She professed faith in Christ last October and united with the Clear Spring Baptist church. She lived and manifested a beautiful christian spirit along life's rugged way till the Master came and called for her. She was about thirty-six

years of age and leaves a husband three children, a mother and several brothers and sisters to mourn her loss.

Whereas it has pleased Almighty God to call her from our midst, be it

Resolved, That we extend to her husband and family our heart-felt sympathy in this hour of bereavement.

Resolved, That we commend them to the care of Him who said, "I will not leave you comfortless."

Resolved, That the cause of Christ has lost a staunch supporter, and one who contended earnestly for the faith once delivered to the saints.

Resolved, That our prayers be offered that God may raise up others to take her place.

"Why do we mourn departing friends Or shake at death's alarms?

'Tis but the voice that Jesus sends, To call them to his arms.

"Are we not tending upward, too, As fast as time can move?

Nor should we wish the hours more slow

To keep us from our love.

"Why should we tremble to convey Their bodies to the tomb?

There once the flesh of Jesus lay, And left a long perfume.

"The graves of all his saints he blest And soft'nd every bed:

Where should the dying members rest,

But with their dying Head?

"Thence he arose, ascending high, And show'd our feet the way;

Up to the Lord our flesh shall fly, At the great rising day.

"Then let the last loud trumpet sound,

And bid our kindred rise; Awake, ye nations under ground, Ye saints, ascend the skies!"

Resolved, That a copy of these resolutions be sent to the Record-Press, Enterprise and Western Recorder.

Mrs. B. C. Birchfield, }
Mrs. W. L. Boyd, } Com.
Miss Bessie Fox, }

KEEP THE RATS OUT

Editor Record-Press:—To keep the rats out of your corn crib: In the fall when you go to gather your corn, sprinkle your crib floor with sulphur, a pound or so to the crib. Do the same with your hay lofts. Rats can't stand it.

H. R. Stenbridge.

PRINCETON PRESBYTERY U. S. A. MEETS AT STURGIS.

The Princeton Presbytery of the Presbyterian church United States of America closed its session Thursday evening, with a popular meeting addressed by Dr. Kunts, of Mayfield, on the topic, "The Relation of the Church to the Working Man."

The meeting was an unusually interesting and successful one.

Wednesday Presbyterial communion was observed. A large audience was present. There was a splendid musical program. The sermon was preached by Dr. Bull, of Hopkinsville.

It seemed that almost the entire audience participated in the sacramental service.

The different reports showed the work of the churches in the bounds of the Presbytery to be in good condition.

A deep, devotional spirit pervaded all the session. The writer, in all his experience in Presbyterial meetings, has never attended a more interesting and helpful meeting, or one in which there was more of the spirit of love toward other churches, or more optimism in regard to the work of our own churches.

The good people of Sturgis let themselves out to entertain Presbytery and make it pleasant for the delegates.

The Presbytery adjourned to meet in Mayfield in the fall.

Another way of Looking at It.

Little Johnnie, not yet three years old, is very fond of his grandfather. One day, while following him, he said: "Gran'pa, you's got a hole in your pants." Grandpa said: "Where, John? I can't see it." John replied, "Look at it wit' your finger, gran'pa."—The Delineator for May.

BILLY JOEL ANSWERS.

Editor of The Press:—I see a question asked in your paper last week: "Who was it that fell backward to the ground when Judas betrayed Christ with a kiss?"

We will let Jesus say: "The chief priests, captains of the temple and the editors, which were come to him, be ye come out as against a thief, with swords and staves? When I was daily with you in the temple ye stretched forth no hands against me. But this is your hour and the power of darkness."

My! my! Members of the church, the Sanhedrin. Luke 22:52, 53.

**FIGHTING TU-
BERCULOSIS.**

Modern Woodmen Society Will Conduct Free Sanatorium For Its Members.

**A BUSINESS AS WELL AS
A FRATERNAL PROPOSITION.**

At the last meeting of the Executive Council of the Modern Woodmen Society, held at the headquarters of the Society in Rock Island, Ill., it was decided to conduct that Society's sanatorium, located at Colorado Springs, Colo., for the treatment of members afflicted with tuberculosis free of all charge to members.

The Modern Woodmen Society several months since, acquired 1,380 acres of land within seven miles of Colorado Springs, and has established thereon an up-to-date sanatorium, the tent colony plan being employed. The first colony was opened for the reception of patients on January 1st, 1909. It is equipped to care for sixty patients, to which number admissions will be limited for the present.

The tents are octagonal structures, with single roofs, canvas sides, hard wood floors on solid cement foundations, heated by a central plant, equipped with all modern conveniences, such as telephones, etc., and each tent will accommodate one patient. An administration building for physicians, nurses, dining hall, baths of all kinds, etc., stand in the center of the colony.

Dr. J. E. White, formerly of the Nordrach ranch sanatorium, the medical director in charge, states that only those consumptive members who are curable, or whose lives may be prolonged for a considerable length of time, will be admitted as patients. The wisdom of this rule is apparent. Rigid medical examination as a condition precedent to admission will be insisted upon in every case, and special blank forms have been prepared for this purpose.

A movement is already under way to equip the second colony plant of sixty tents. Each tent or tent house, completely equipped, represents an expense of \$250, and a number of local camps, or lodges, of the Society have decided to donate tents. As there are over 13,000 local Camps of Modern Woodmen, and over 1,000,000 members, it is anticipated that several colonies will soon be equipped in this way.

The members and local Camps of the Society have voluntarily contributed to the Sanatorium fund over \$75,000, and at the last national convention a permanent tax of ten cents per member per year was voted to the support of this work.

The last official Wooden reports show that during the years 1881-1907, inclusive, 14.5 per cent of the total mortality or 5,156 deaths, were charged to tuberculosis, and that 13.9 per cent of the total insurance losses in those years, or \$9,065,000, resulted from this cause. As the mortality experience of the Woodmen Society has been unusually favorable, being but 70 per cent of the expected at all ages under the National Fraternal congress table, a death rate of but 6.29 per 1,000—or but 4.98 per 1,000 if the experience of the first five membership years be included—the heavier insurance losses inflicted upon other societies experiencing a higher mortality may be conservatively approximated.

If the Woodmen Society, with its exceptionally favorable mortality, finds it to be "GOOD BUSINESS" to fight consumption in this way, why should not other fraternal societies, life insurance companies, labor organizations, the national and international church bodies, etc., find it profitable, from the viewpoint of business or benevolence, or both, to take such action?

Each life saved to the Woodmen Society, by means of this sanatorium, will, it is stated, represent a saving of \$1,700—the average amount of the Woodmen policies in force at an expense for treatment of approximately one-twentieth of that sum. In the broader, each life saved means the preservation to the family of its head and bread-winner, and to the state of a useful, self-sustaining citizen.

**TEMPTEST SAT-
URDAY ON OHIO**

Started as a Breeze at Smithland and Grew Rapidly For a While--Blew Over After

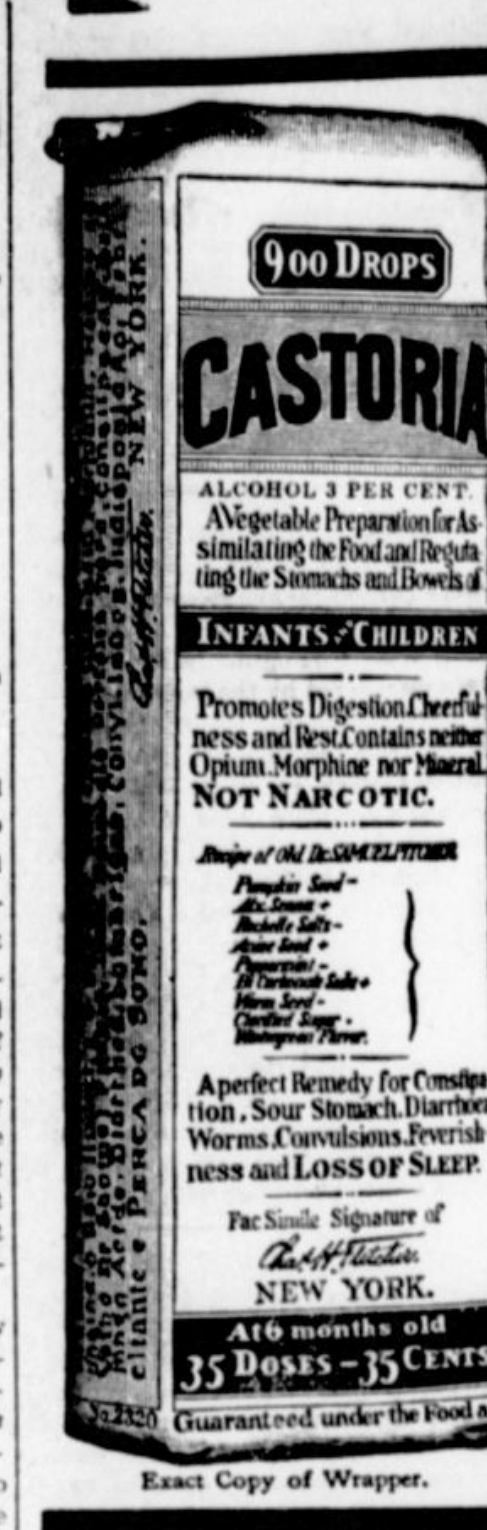

**A TIME HARMLESS--
UNUSUAL ESCAPE.**

A startling report was circulated over Paducah Saturday afternoon to the effect that a shooting affray had occurred on a steamboat at Smithland earlier in the day and that Sheriff Bishop and Deputy Champion, of Livingston county, had been shot by some of the officers of the boat. A part of the story was that one of the Livingston county officials had been killed and that the other was seriously hurt and that perhaps some of the men on the boat had also been shot. The story most happily proved a glaring exaggeration of the facts.

It seems that recently Capt. Harry Davis, the owner of the steamer Liberty, which had previously been running in the trade between this port and Elizabethtown, Ill., made an excursion trip from Elizabethtown to this port. It also appears from the charges made that there was whiskey sold on the boat at the time of the excursion. This charge it is said, was filed by a resident of Smithland with the county attorney and a warrant was issued for the arrest of Captain Davis. Yesterday the captain decided to go to Elizabethtown to bring down another excursion today and on the way up the river, pulled into Smithland to distribute some bills announcing the excursion. While there Sheriff Bishop and Deputy Champion went to the boat and under the warrant arrested Mr. Davis and took him, as is said, up into the city to either make a \$200 bond or pay the fixed fine of \$50. While up in the city, according to the story, Captain Davis consulted a lawyer and dined with Deputy Champion and after dinner, on advice of his attorney, decided he would give bond and fight the case, his trial being set for Monday. To make bond Davis asked, he intimating that he would put up the cash. To accommodate him Sheriff Bishop and Deputy Champion went to the boat with him, but, as the report goes, had no sooner reached the boat than she began to pull out from the shore and in spite of the protest of the officers, who threatened the law, etc., the Liberty moved out into the stream. The report says that thereupon Sheriff Bishop drew his weapon and after handcuffing Captain Davis made efforts to stop the boat or have it stopped. He is said to have sent Deputy Champion to the pilot house to stop the boat and have her returned to the shore and that, being resisted, he struck pilot and forcibly took the wheel. It is also said Sheriff Bishop entered the engineer's room and ordered him to stop the machinery, but he refused and that also fired a pistol, but whether at the sheriff or not is unknown. This, it is said, was the only shot fired. It is also said that Deputy Champion attempted to turn the boat to the shore and in doing so broke the tiller rope or it was cut by some one, as the boat was soon at the mercy of the wheels alone, but these the engineer controlled and steered the boat on to this vicinity and to the Illinois shore opposite here, where a landing was effected.

On reaching a landing Captain Davis, it is known, sent a note to this place asking that the United States marshal be sent over to the boat, explaining why, adding that he would surrender to him and bring his boat to this port. This note was sent over by Charles Elmore, the harmonicon player so widely known, he being on board en route to Elizabethtown at the time of the Smithland incident.

Soon after Charles Ferguson, county school superintendent of Livingston county, and a young man named E. B. Lynn, who had followed the Liberty down the river in a skiff, hoping to lend some assistance to the kidnapped officers, as they said, came over from the boat also, saying that though they had attempted to land along side and go aboard that they were warned away by the crew. He also brought over a message from Sheriff Bishop, with whom he talked, asking that the sheriff send over to the boat a force of men, he placing the number at 25, to help him control boat or the men thereon. Ferguson delivered his message by phone from the wharf-

CAS.

In Use For Over Thirty Years
CASTORIA

boat and said afterwards that he was referred to the United States marshal, the boat having tied up to the Illinois shore they being out of local or state jurisdiction. He was also told to appeal to Brookport for help and this he afterwards did.

The request of Captain Davis for the United States Marshal brought the information that he was out of the city and also the statement from Commissioner Gardner that the officers had best leave the boat and resort to other means to bring Capt. Davis to the law as a fugitive from justice. This advice seems to have been heeded for later Sheriff Bishop and Deputy Champion left the boat and came to Paducah. Soon thereafter it is also said a posse from Brookport came to the boat, on the conditions were invited on board request received, but after hearing and later the Liberty pulled out from the bank and went to Brookport with the people from that place and tied up there.

Captain Davis said last night that he would wait there for any process of law and also said that he had nothing to do with the boat pulling out from Smithland and that if he could have had his way and kept on, the troubles which came up between the officers and his crew that he would have returned there at the outset. He protested his innocence of the charge against him. Davis formerly lived in St. Louis, but lately has lived in Cairo. He has a good reputation among the river people.

Messrs. Bishop and Champion were here last night. They will return home today. They were firm in their determination to arrest Davis but were at disadvantage after the boat got out into the river. Sheriff Bishop said last night that he stood his ground as best he could, but that the crew of the boat was armed and

he feared that he might be shot. He says that he will react to other means of the law to secure the captain for trial if he can reach him.

It was understood last evening that there was much excitement in Smithland over the turn of the arrest and the probable outcome, but this excitement was allayed after Messrs. Bishop and Champion came ashore here and had phoned home of their whereabouts and safety.

Paducah, Ky., April 8.—All the members of the crew of the steamer Liberty, on which Sheriff Bishop and Deputy Bnn Champion, of Smithland, Ky., were kidnaped last Saturday, have been arrested and some are in jail at Metropolis, Ill., twelve miles below here, while Capt. Harry S. Davis add Engineer Saddy Emeal are in jail at Smithland.

The latter two were arrested at Metropolis and came to Paducah, thinking they would be allowed to give bail here but it was learned after arriving that the bail would have to be made at Smithland. Handcuffed to each other they were taken through the streets here under protest and to Smithland by boat. The remainder of the crew at Metropolis refuses to return without requisition. They are charged with conspiracy to liberate a prisoner. Requisition papers have been applied for.

It is understood that several more warrants have been sworn out at Smithland against the prisoners, but the nature of the charges has not been learned here. Lee Huff, the mate, who was arrested and gave bond here, was arrested here again on another warrant He gave bond.

The Marine Engineers' Association, of this city, it is reported, will get out warrants against the Kentucky officers for interfering with the officers of the boat while it was in stream.

Friday Eve Apr. 16

At 7:30 P. M., Robert Johnson, State President of the "Farmers Educational and Co-Operative Union" will address the citizens of Marion and Vicinity, submitting a proposition of Vital Interest, not only to the Farmers of Crittenden county, but Especially to the business interests of Marion. All farmers and business men of Marion are earnestly invited to attend. After the Speaking it is expected to Organize a Local. All wishing to join will please be in attendance.
Speaking at the Court House.

FIGHTING TU- BERCULOSIS.

Modern Woodmen Society
Will Conduct Free Sanatorium For Its Members.

A BUSINESS AS WELL AS A FRATERNAL PROPOSITION.

At the last meeting of the Executive Council of the Modern Woodmen Society, held at the headquarters of the Society in Rock Island, Ill., it was decided to conduct that Society's sanatorium, located at Colorado Springs, Colo., for the treatment of members afflicted with tuberculosis free of all charge to members.

The Modern Woodmen Society several months since, acquired 1,380 acres of land within seven miles of Colorado Springs, and has established thereon an up-to-date sanatorium, the tent colony plan being employed. The first colony was opened for the reception of patients on January 1st, 1909. It is equipped to care for sixty patients, to which number admissions will be limited for the present.

The tents are octagonal structures, with single roofs, canvas sides, hard wood floors on solid cement foundations, heated by a central plant, equipped with all modern conveniences, such as telephones, etc., and each tent will accommodate one patient. An administration building for physicians, nurses, dining hall, baths of all kinds, etc., stand in the center of the colony.

Dr. J. E. White, formerly of the Nordrach ranch sanatorium, the medical director in charge, states that only those consumptive members who are curable, or whose lives may be prolonged for a considerable length of time, will be admitted as patients. The wisdom of this rule is apparent. Rigid medical examination as a condition precedent to admission will be insisted upon in every case, and special blank forms have been prepared for this purpose.

A movement is already under way to equip the second colony plant of sixty tents. Each tent or tent house, completely equipped, represents an expense of \$250, and a number of local camps, or lodges, of the Society have decided to donate tents. As there are over 13,000 local Camps of Modern Woodmen, and over 1,000,000 members, it is anticipated that several colonies will soon be equipped in this way.

The members and local Camps of the Society have voluntarily contributed to the Sanatorium fund over \$70,000, and at the last national convention a permanent tax of ten cents per member per year was voted to the support of this work.

The last official Wooden reports show that during the years 1881-1907, inclusive, 14.5 per cent of the total mortality or 5,156 deaths, were charged to tuberculosis, and that 13.9 per cent of the total insurance losses in those years, or \$9,065,000, resulted from this cause. As the mortality experience of the Woodmen Society has been unusually favorable, being but 70 per cent of the expected at all ages under the National Fraternal congress table, a death rate of but 6.29 per 1,000—or but 4.98 per 1,000 if the experience of the first five membership years be included—the heavier insurance losses inflicted upon other societies experiencing a higher mortality may be conservatively approximated.

If the Woodmen Society, with its exceptionally favorable mortality, finds it to be "GOOD BUSINESS" to fight consumption in this way, why should not other fraternal societies, life insurance companies, labor organizations, the national and international church bodies, etc., find it profitable, from the viewpoint of business or benevolence, or both, to take such action?

Each life saved to the Woodmen Society, by means of this sanatorium, will, it is stated, represent a saving of \$1,700—the average amount of the Woodmen policies in force at an expense for treatment of approximately one-twentieth of that sum. In the broader, each life saved means the preservation to the family of its head and bread-winner, and to the state of a useful, self-sustaining citizen.

TEMPTTEST SAT- URDAY ON OHIO

Started as a Breeze at Smithland and Grew Rapidly
For a While---Blew
Over After

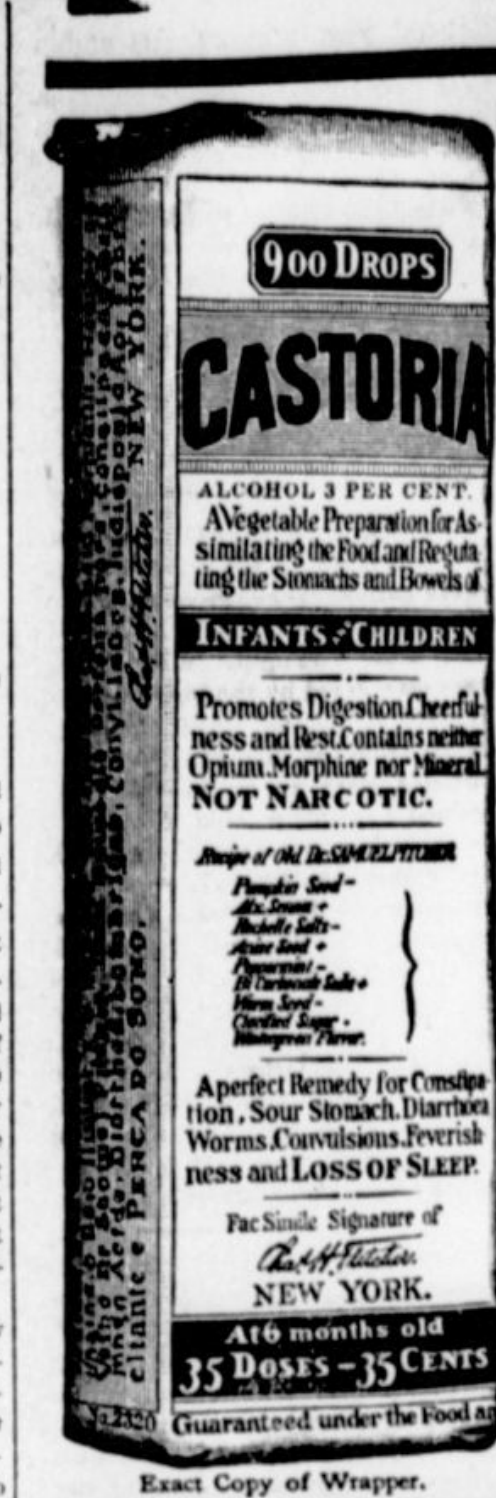

A TIME HARMLESS-- UNUSUAL ESCAPE.

A startling report was circulated over Paducah Saturday afternoon to the effect that a shooting affray had occurred on a steamboat at Smithland earlier in the day and that Sheriff Bishop and Deputy Champion, of Livingston county, had been shot by some of the officers of the boat. A part of the story was that one of the Livingston county officials had been killed and that the other was seriously hurt and that perhaps some of the men on the boat had also been shot. The story most happily proved a glaring exaggeration of the facts.

It seems that recently Capt. Harry Davis, the owner of the steamer Liberty, which had previously been running in the trade between this port and Elizabethtown, Ill., made an excursion trip from Elizabethtown to this port. It also appears from the charges made that there was whiskey sold on the boat at the time of the excursion. This charge it is said, was filed by a resident of Smithland with the county attorney and a warrant was issued for the arrest of Captain Davis. Yesterday the captain decided to go to Elizabethtown to bring down another excursion today and on the way up the river, pulled into Smithland to distribute some bills announcing the excursion. While there Sheriff Bishop and Deputy Champion went to the boat and under the warrant arrested Mr. Davis and took him, as is said, up into the city to either make a \$200 bond or pay the fixed fine of \$50. While up in the city, according to the story, Captain Davis consulted a lawyer and dined with Deputy Champion and after dinner, on advice of his attorney, decided he would give bond and fight the case, his trial being set for Monday. To make bond Davis asked, he intimating that he would put up the cash. To accommodate him Sheriff Bishop and Deputy Champion went to the boat with him, but, as the report goes, had no sooner reached the boat than she began to pull out from the shore and in spite of the protest of the officers, who threatened the law, etc., the Liberty moved out into the stream. The report says that thereupon Sheriff Bishop drew his weapon and after handcuffing Captain Davis made efforts to stop the boat or have it stopped. He is said to have sent Deputy Champion to the pilot house to stop the boat and have her returned to the shore and that, being resisted, he struck pilot and forcibly took the wheel. It is also said Sheriff Bishop entered the engineer's room and ordered him to stop the machinery, but he refused and that also fired a pistol, but whether at the sheriff or not is unknown. This, it is said, was the only shot fired. It is also said that Deputy Champion attempted to turn the boat to the shore and in doing so broke the tiller rope or it was cut by some one, as the boat was soon at the mercy of the wheels alone, but these the engineer controlled and steered the boat on to this vicinity and to the Illinois shore opposite here, where a landing was effected.

On reaching a landing Captain Davis, it is known, sent a note to this place asking that the United States marshal be sent over to the boat, explaining why, adding that he would surrender to him and bring his boat to this port. This note was sent over by Charles Elmore, the harmonicon player so widely known, he being on board en route to Elizabethtown at the time of the Smithland incident.

Soon after Charles Ferguson, county school superintendent of Livingston county, and a young man named E. B. Lynn, who had followed the Liberty down the river in a skiff, hoping to lend some assistance to the kidnapped officers, as they said, came over from the boat also, saying that though they had attempted to land along side and go aboard that they were warned away by the crew. He also brought over a message from Sheriff Bishop, with whom he talked, asking that the sheriff send over to the boat a force of men, he placing the number at 25, to help him control boat or the men thereon. Ferguson delivered his message by phone from the wharf-

boat and said afterwards that he was referred to the United States marshal, the boat having tied up to the Illinois shore they being out of local or state jurisdiction. He was also told to appeal to Brookport for help and this he afterwards did.

The request of Captain Davis for the United States Marshal brought the information that he was out of the city and also the statement from Commissioner Gardner that the officers had best leave the boat and resort to other means to bring Capt. Davis to the law as a fugitive from justice. This advice seems to have been heeded for later Sheriff Bishop and Deputy Champion left the boat and came to Paducah. Soon thereafter it is also said a posse from Brookport came to the boat, on the conditions were invited on board request received, but after hearing and later the Liberty pulled out from the bank and went to Brookport with the people from that place and tied up there.

Captain Davis said last night that he would wait there for any process of law and also said that he had nothing to do with the boat pulling out from Smithland and that if he could have had his way and kept on, the troubles which came up between the officers and his crew that he would have returned there at the outset. He protested his innocence of the charge against him. Davis formerly lived in St. Louis, but lately has lived in Cairo. He has a good reputation among the river people.

Messrs. Bishop and Champion were here last night. They will return home today. They were firm in their determination to arrest Davis, but were at disadvantage after the boat got out into the river. Sheriff Bishop said last night that he stood his ground as best he could, but that the crew of the boat was armed and

he feared that he might be shot. He says that he will resort to other means of the law to secure the captain for trial if he can reach him.

It was understood last evening that there was much excitement in Smithland over the turn of the arrest and the probable outcome, but this excitement was allayed after Messrs. Bishop and Champion came ashore here and had phoned home of their whereabouts and safety.

—Paducah News-Democrat.

Paducah, Ky., April 8.—All the members of the crew of the steamer Liberty, on which Sheriff Bishop and Deputy Ben Champion, of Smithland, Ky., were kidnapped last Saturday, have been arrested and some are in jail at Metropolis, Ill., twelve miles below here, while Capt. Harry S. Davis and Engineer Saddy E-mail are in jail at Smithland.

The latter two were arrested at Metropolis and came to Paducah, thinking they would be allowed to give bail here but it was learned after arriving that the bail would have to be made at Smithland. Handcuffed to each other they were taken through the streets here under protest and to Smithland by boat. The remainder of the crew at Metropolis refuses to return without requisition. They are charged with conspiracy to liberate a prisoner. Requisition papers have been applied for.

It is understood that several more warrants have been sworn out at Smithland against the prisoners, but the nature of the charges has not been learned here. Lee Huff, the mate, who was arrested and gave bond here, was arrested here again on another warrant. He gave bond.

The Marine Engineers' Association, of this city, it is reported, will get out warrants against the Kentucky officers for interfering with the officers of the boat while it was in stream.

Friday Eve Apr. 16

At 7:30 P. M., Robert Johnson, State President of the "Farmers Educational and Co-Operative Union" will address the citizens of Marion and Vicinity, submitting a proposition of Vital Interest, not only to the Farmers of Crittenden county, but Especially to the business interests of Marion. All farmers and business men of Marion are earnestly invited to attend. After the Speaking it is expected to Organize a Local. All wishing to join will please be in attendance.

Speaking at the Court House.

Results on Pooling Wool.

(By P. J. STEVENS, Cylon, Wis.)

The March 1st issue of the Equity Farmer Journal contained an editorial on the results of pooling wool in Wisconsin that was all right. Two years ago I was on a committee on pooling of wool in St. Croix county. Our local buyers would only offer us 19 and 20 cents. We refused to sell. We told them we could not and would not raise wool for any such price any more. They ridiculed our ideas that we could get more. We went ahead and pooled five car loads. We were not worried over the outcome. They saw that we were not without our telling it. It worried them not a little. Then a buyer came along and gave us 26 cents. One cent for expenses and five cents added to the price of the growers. No farmer was at any more trouble in delivery or packing or time consumed than he would have been to if he had sold it himself, and in a majority of cases not even half so much. There was less fuss and feathers about it than any wool marketing we had ever done before. And raked in five cents a pound for our good sense. And the men who engineered the deal received their expenses. Not as much as they ought to have had, but they were satisfied. They got their expenses, but nothing for their time. But we did not mind that in our desire to make the pool a success. After we got running right the one cent margin will meet the expense demand.

It seems to me that such evidences as these ought to set every farmer in the entire United States thinking more about the marketing end of his business. We now have a Wool Department in which we are pooling Equity wool this year, and there is no doubt about our making it a success for all we desire. I am the Secretary Treasurer, and am giving my entire time to the work now. I hope the time will come when we can have the entire country under one selling agency. Then we can do exactly as we please, and please God we may be inspired to do only that which is right and just between man and man.—Equity Farmer Journal.

Free from Alcohol

Since May, 1908, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alterative. If he has a better medicine, take his. Get the best always. This is our advice.

Ayer's

A sluggish liver means a coated tongue, a bad breath, and constipated bowels. The question is, "What is the best thing to do under such circumstances?" Ask your doctor if this is not a good answer: "Take laxative doses of Ayer's Pills."

A Business Proposition.

"Johnnie, I will give you half a crown if you can get me a lock of your sister's hair."

"Give half a sov. an' I'll git de whole bunch. I know where she hangs it at nights."—Sketchy Bits.

Mild Laxative for Baby Free

The child of today is the parent of the future, and whether it grows up healthy and strong, or puny and weak, depends upon the intelligence of its parents, for most children are born into the world healthy, but thousands become future weaklings between birth and the age of ten, when the parents are still in greatest control.

The prime cause of trouble is in the stomach. A baby that is digesting its food seldom cries and always looks cheerful; the little child whose stomach is good romps and plays and never whines; the growing child learns well at school and is eager for fun if his head is clear and his stomach light, and that means if it has no constipation.

The best and safest way to cure any irregularity of the stomach and bowels in children is by the use of Dr. Caldwell's Syrup Pepsin. This is a liquid laxative wonderful in its effect as Mrs. John W. Dunham, Apple Creek, O., Mrs. H. L. Culam, Fairville, Ind., and numerous others can testify who give it to their children with extraordinary results.

A bottle only costs 50 cents or \$1 according to the size you want, and even one 50-cent bottle will do a wonderful amount of good in a family. It can be given to any member of the family in constipation, sour stomach, indigestion, torpid liver, dyspepsia, heartburn, sick headache and similar digestive troubles. It never gripes or strangles like pills, tablets, salts and powders, which should not be given to children, women or old folks.

If you have a child or other member of the family who needs, but has never used this grand laxative tonic, send your name and address to the doctor and a free trial bottle will be sent to your home. In this way you can find out what it will do without personal expense.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 500 Caldwell Bldg., Monticello, Ill.

FOR SALE BY ALL DRUGGISTS.

National Wool Growers' Convention.

We have received word from Kentucky that they have elected their delegates to a Wool Growers' Convention for the purpose of organizing a Wool Growers' Department to the American Society of Equity as soon as the other States interested can elect their delegates and an agreed date is set. Take this matter up, Mr. Wool Grower, and get ready for the convention.

In this connection we wish to state that a letter from F. P. Cheever, of Barron, Wis., president of the Wisconsin Wool Growers' organization, states that they already have over 500,000 pounds of wool pooled this year and the pooling is going rapidly forward. More about this in the next issue.—Equity Farmer Journal.

First Dose Cures.

Hughes Bros., Muir, Ky., says: "Our hogs were sick with cholera and we lost six head the day we began using Bourbon Hog Cholera Remedy. This remedy immediately checked the disease and we did not have another hog to die after giving them the first dose." For sale at Haynes & Taylor's drug store.

Why Chickens Don't Talk.

The following conversation was overheard between two boys, aged seven and nine:

"Joe, why can't chickens talk?"

"Aw, they don't have to; when they want anything they just pull their wish-bones and they gets their wish."—The Delineator for May.

River Cutting away The Bank.

Hickman, Ky., April 15.—The Mississippi river banks have again begun caving at Birds Point, Mo., and thirty-five more feet of the bank have gone into the river. The rapid erosion is threatening the depot, and steps have been taken to move it within a few days. A new landing stage will also have to be excavated. The river is now from six to eight feet below the top of the bank and the undercurrent is eating into the sand strata under the surface. All of the business section of the town has been rolled back once or twice, and it seems as if the town is doomed.

No Danger From Jimmie's Knife.

On Jimmie's birthday his mother gave him a knife. A little friend told him that he ought to give his mother a penny so that it would not cut their friendship, whereupon Jimmie replied, "It won't cut anything else, so I guess it won't cut our friendship."—The Delineator for May.

Killed by Electric Bath.

Indianapolis, April 15.—Conrad Sperka, a young electrician, died suddenly last night in an electric bath of his own devising. He had arranged that the water in his bathtub could be charged with electricity. Last night he was found unconscious in the tub and soon died.

The Coroner investigated today. It seems that Sperka turned into bath a heavier current than he was accustomed to and the shock killed him. He came from Germany three months ago and was employed by Fairbanks, Morse & Company.

Wanted—A Thin Man.

Chicago, Ill., April 15.—A thin man who will not take up too much space, is wanted by the government to assist the operation of refrigerating machinery in a special railway car, for the pre-cooling of fruits. An examination to secure such an appointee will be held May 15th. The applicant must be a mechanical assistant, with knowledge of refrigerating machinery. The salary of this post is from \$900 to \$1,200 a year.

New Wireless Electric Lamp.

Phillip Young, a young inventor of this city, Tuesday gave a successful demonstration of a wireless electric lamp. He exhibited the lamp in a store before a hundred persons, who are convinced of its utility. Young refused to make known the secret of the lamp. The light comes from an incandescent globe placed on a small cylinder filled with a compound in the form of a powder. A small battery also is charged with this powder. Young said that one battery would keep the lamp burning continuously for six months. He asserted that the cost of this lamp was trifling, but gave no definite estimates. —Grand Rapids Dispatch to the New York Press.

STOMACH DISTRESS

And All Misery From Indigestion Vanishes Five Minutes Later.

Every family here ought to keep some Diapiesin in the house, as any one of you may have an attack of Indigestion or Stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a sour stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Ask your pharmacist for a 50-cent case of Pape's Diapiesin and take one triangle after supper tonight. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for all stomach misery, because it will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all your stomach misery is at your Pharmacist, waiting for you.

These large 50-cent cases contain more than sufficient to cure a case of Dyspepsia or Indigestion. 34-38-42-46.

Electrocuted at Telephone.

Chicago, Ill., April 15.—While attempting to end some trouble with a telephone, John Shedd was electrocuted in his residence, at Elgin, last evening.

Shortly after dinner the telephone began ringing wildly. Mr. Shedd went repeatedly to the 'phone but could hear nothing but a buzzing noise. Unable to communicate with central, he secured a pair of shears to cut the wire.

"Are you sure that will stop it, John?" Asked Mrs. Shedd.

"It certainly—" replied Mr. Shedd, as he put the shears to the wire, only to fall back dead without a cry. Investigation by the telephone company revealed that the wire had become crossed with a large electric feed wire from a trolley road and the full current was carried into the house.

Women

Women who suffer from female ailments, frequently neglect their trouble, till a general break-down follows. Don't wait till your case is as bad as that—take Cardui medicine, for all women.

Take CARDUI

Mrs. Rena Hare, of Pierce, Pa., tried Cardui and afterward wrote: "I was a sufferer from all sorts of female trouble, had pain in my side, drawing pains in my legs, could not sleep, had shortness of breath. I suffered for years, until my husband insisted on my trying Cardui. The first bottle gave me relief and now I am almost well. Try Cardui. It will help you."

Some Advertising Rates.

The raise in advertising rates by the Curtis publications sets a new mark for magazine advertising prices. The new rate is as follows:

"Ladies Home Journal, \$7 per line \$2,000 per inside page; inside cover pages, \$5,000 and \$7,000 for the back cover. Saturday Evening Post, \$5 per line, \$3,000 per inside page; inside cover, \$3,000 and back covers, \$3,600."

Work for All.

A minister in Bates county, Mo., was horrified one Sunday recently to see a boy in the rear of the church pelting the hearers in the amen corner with paper wads. As the good man looked at him the boy cried out: "You tend 'em preaching, mister; I'll keep 'em awake!"

The Apprenticeship System

By JOHN S. HODGSON,
Civil Engineer.

The relative value of the old handcraft offering motion as foremen stands in strong relief to the number of highly trained out every year by American institutes.

As regards the latter feature, steady addition to the ranks of graduates in applied science evidences a satisfaction in the necessity of comprehensive specialization—to use an apparent contradiction in terms. On the other hand,

the growing disinclination to serve a long term of apprenticeship, with the naturally resulting disposition to abandon a trade imperfectly acquired by other methods, suggests a disappointing survival of "the vulgar conceit," deprecated by President Eliot of Harvard in his inaugural address nearly 40 years ago, "that a Yankee can turn his hand to anything."

It would be idle, however, to regard this as the sole or even as the principal factor in the decay of a system under which vast armies of skilled and "craftproud" workmen were formerly recruited.

It will tend to assist in the search for remedial measures if it be remembered that the same breakdown of the apprentice system, though in a minor degree, is to be recorded of European countries. In Great Britain, excellent results have been achieved in the past from systematic study in night schools. Much of their success has been due to the hand-in-hand character of evening study and daily work—the latter bringing home to the average mind the advantages, if not the absolute necessity, of what is furnished by the former.

In conclusion, it may be doubted whether the full benefit derivable from improved methods of industrial training, however admirable in themselves, can be secured through their exclusive application to the class now filling the ranks of manual labor. A reversion to the old belief in "the dignity of labor," taking practical form in diverting to the lathe or the bench a share of the present rush to the roll-top desk, is a condition well worthy of united effort in a country showing many signs of drifting away from the lofty ideals of its founders.

John S. Hodgson

Woman Can Not Reason

By DR. EDGAR HOFFMAN,
German Scientist.

Woman can only reason up to a certain point, after which she "sees blind," or, in other words, loses sight of the question at issue.

If the perfect mind were appraised at, say 100 points, and the average mind at 50, it would be found that the ratio of practical-mindedness in these two figures would be respectively 90 and 45. With a woman sentimentality would take the place of practical-mindedness in similar ratios, the result being that, to an ordinary political or sociological or economic problem, a woman with a perfect feminine mind could bring to bear only ten per cent. of common sense, and an average woman five per cent.—which looks bad for the long-suffering suffragettes. When women show more than usually acuminous intellect they are really not applying either knowledge or experience, but are simply making haphazard shots by the machinery of intuition. And when a woman shows an enduring and consistent intellectuality it may be asserted positively that she is asexual, or without the ordinary attributes of love that characterize ordinarily constituted women.

Results on Pooling Wool.

(By P. J. STEVENS, Cylon, Wis.)

The March 1st issue of the Equity Farmer Journal contained an editorial in the results of pooling wool in Wisconsin that was all right. Two years ago I was on a committee on pooling of wool in St. Croix county. Our local buyers would only offer us 19 and 20 cents. We refuse to sell. We told them we could not and would not raise wool for any such price any more. They ridiculed our ideas that we could get more. We went ahead and pooled five car loads. We were not worried over the outcome. They saw that we were not without our telling it. It worried them not a little. Then a buyer came along and gave us 26 cents. One cent for expenses and five cents added to the price of the growers. No farmer was at any more trouble in delivery or packing or time consumed than he would have been to if he had sold it himself, and in a majority of cases not even half so much. There was less fuss and feathers about it than any wool marketing we had ever done before. And raked in five cents a pound for our good sense. And the men who engineered the deal received their expenses. Not as much as they ought to have had, but they were satisfied. They got their expenses, but nothing for their time. But we did not mind that in our desire to make the pool a success. After we got running right the one cent margin will meet the expense demand.

It seems to me that such evidences as these ought to set every farmer in the entire United States thinking more about the marketing end of his business. We now have a Wool Department in which we are pooling Equity wool this year, and there is no doubt about our making it a success for all we desire. I am the Secretary Treasurer, and am giving my entire time to the work now. I hope the time will come when we can have the entire country under one selling agency. Then we can do exactly as we please, and please God we may be inspired to do only that which is right and just between man and man.—Equity Farm Journal.

Free from Alcohol

Since May, 1906, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alterative. If he has a better medicine, take his. Get the best always. This is our advice.

We publish our formulae. We banish alcohol from our medicine. We urge you to consult your doctor.

A sluggish liver means a coated tongue, a bad breath, and constipated bowels. The question is, "What is the best thing to do under such circumstances?" Ask your doctor if this is not a good answer: "Take laxative doses of Ayer's Pills."

A Business Proposition.

"Johnnie, I will give you half a crown if you can get me a lock of your sister's hair."

"Give half a sov. an' I'll git de whole bunch. I know where she hangs it at nights."—Sketchy Bits.

Mild Laxative for Baby Free

The child of today is the parent of the future, and whether it grows up healthy and strong, or puny and weak, depends upon the intelligence of its parents, for most children are born into the world healthy, but thousands become future weaklings between birth and the age of ten, when the parents are still in greatest control.

The prime cause of trouble is in the stomach. A baby that is digesting its food seldom cries and always looks contented; the little child whose stomach is good romps and plays and never whines; the growing child learns well at school and is eager for fun if its head is clear and its stomach light, and that means if it has no constipation.

The best and safest way to cure any irregularity of the stomach and bowels in children is by the use of Dr. Caldwell's Syrup Pepsin. This is a liquid laxative wonderful in its effect as Mrs. John W. Dunham, Apple Creek, O., Mrs. H. L. Cullum, Plainville, Ind., and numerous others can testify who give it to their children with extraordinary results.

A bottle only costs 50 cents or \$1 according to the size you want, and even one 50-cent bottle will do a wonderful amount of good in a family. It can be given to any member of the family in constipation, sour stomach, indigestion, torpid liver, dyspepsia, heartburn, headache and similar digestive troubles. It never gripes or strangles like pills, tablets, salts and powders, which should not be given to children, women or old folks.

If you have a child or other member of the family who needs it, but has never used this grand laxative tonic, send your name and address to the doctor and a free trial bottle will be sent to your home. In this way you can find out what it will do without personal expense.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 560 Caldwell Bldg., Monticello, Ill.

FOR SALE BY ALL DRUGGISTS.

National Wool Growers' Convention.

We have received word from Kentucky that they have elected their delegates to a Wool Growers' Convention for the purpose of organizing a Wool Growers' Department to the American Society of Equity as soon as the other States interested can elect their delegates and an agreed date is set. Take this matter up, Mr. Wool Grower, and get ready for the convention.

In this connection we wish to state that a letter from F. P. Cheever, of Barron, Wis., president of the Wisconsin Wool Growers' organization, states that they already have over 500,000 pounds of wool pooled this year and the pooling is going rapidly forward. More about this in the next issue.—Equity Farm Journal.

First Dose Cures.

Hughes Bros., Muir, Ky., says: "Our hogs were sick with cholera and we lost six head the day we began using Bourbon Hog Cholera Remedy. This remedy immediately checked the disease and we did not have another hog to die after giving them the first dose." For sale at Haynes & Taylor's drug store.

Why Chickens Don't Talk.

The following conversation was overheard between two boys, aged seven and nine:

"Joe, why can't chickens talk?"

"Aw, they don't have to; when they wants anything they just pull their wish-bones and they gets their wish."—The Delineator for May.

River Cutting away The Bank.

Hickman, Ky., April 15.—The Mississippi river banks have again begun caving at Birds Point, Mo., and thirty-five more feet of the bank have gone into the river. The rapid erosion is threatening the depot, and steps have been taken to move it within a few days. A new landing stage will also have to be excavated. The river is now from six to eight feet below the top of the bank and the undercurrent is eating into the sand strata under the surface. All of the business section of the town has been rolled back once or twice, and it seems as if the town is doomed.

No Danger From Jimmie's Knife.

On Jimmie's birthday his mother gave him a knife. A little friend told him that he ought to give his mother a penny so that it would not cut their friendship, whereupon Jimmie replied, "It won't cut anything else, so I guess it won't cut our friendship."—The Delineator for May.

Killed by Electric Bath.

Indianapolis, April 15.—Conrad Sperka, a young electrician, died suddenly last night in an electric bath of his own devising. He had arranged that the water in his bathtub could be charged with electricity. Last night he was found unconscious in the tub and soon died.

The coroner investigated today. It seems that Sperka turned into bath a heavier current than he was accustomed to and the shock killed him. He came from Germany three months ago and was employed by Fairbanks, Morse & Company.

Wanted—A Thin Man.

Chicago, Ill., April 15.—A thin man who will not take up too much space, is wanted by the government to assist the operation of refrigerating machinery in a special railway car, for the pre-cooling of fruits. An examination to secure such an appointee will be held May 15th. The applicant must be a mechanical assistant, with knowledge of refrigerating machinery. The salary of this post is from \$900 to \$1,200 a year.

This vacancy now exists in the Bureau of Plant Industry, Department of Agriculture. The appointee must be of slender build to enable him to get into several corners of the car where the space is limited. The car will travel to all parts of the country.

New Wireless Electric Lamp.

Philip Young, a young inventor of this city, Tuesday gave a successful demonstration of a wireless electric lamp. He exhibited the lamp in a store before a hundred persons, who are convinced of its utility. Young refused to make known the secret of the lamp. The light comes from an incandescent globe placed on a small cylinder filled with a compound in the form of a powder. A small battery also is charged with this powder. Young said that one battery would keep the lamp burning continuously for six months. He asserted that the cost of this lamp was trifling, but gave no definite estimates.

—Grand Rapids Dispatch to the New York Press.

STOMACH DISTRESS

And All Misery From Indigestion Vanishes Five Minutes Later.

Every family here ought to keep some Diapiesin in the house, as any one of you may have an attack of Indigestion or Stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a sour stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Ask your pharmacist for a 50-cent case of Pape's Diapiesin and take one triangle after supper tonight. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for all stomach misery, because it will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all your stomach misery is at your Pharmacist, waiting for you.

These large 50-cent cases contain more than sufficient to cure a case of Dyspepsia or Indigestion. 34-38-42-46.

Electrocuted at Telephone.

Chicago, Ill., April 15.—While attempting to end some trouble with a telephone, John Shedd was electrocuted in his residence, at Elgin, last evening.

Shortly after dinner the telephone began ringing wildly. Mr. Shedd went repeatedly to the 'phone but could hear nothing but a buzzing noise. Unable to communicate with central, he secured a pair of shears to cut the wire.

"Are you sure that will stop it, John?" Asked Mrs. Shedd.

"It certainly—" replied Mr. Shedd, as he put the shears to the wire, only to fall back dead without a cry. Investigation by the telephone company revealed that the wire had become crossed with a large electric feed wire from a trolley road and the full current was carried into the house.

Women

Women who suffer from female ailments, frequently neglect their trouble, till a general break-down follows. Don't wait till your case is as bad as that—take Cardui in time. It is a safe, reliable medicine for all women.

Take CARDUI

Mrs. Rena More, of Pierce, Fla., tried Cardui and afterward wrote: "I was a sufferer from all sorts of female trouble, had pain in my side, drawing pains in my legs, could not sleep, had shortness of breath. I suffered for years, until my husband insisted on my trying Cardui. The first bottle gave me relief and now I am almost well. Try Cardui. It will help you."

Some Advertising Rates.

The raise in advertising rates by the Curtis publications sets a new mark for magazine advertising prices. The new rate is as follows:

"Ladies Home Journal, \$7 per line \$2,000 per inside page; inside cover pages, \$5,000 and \$7,000 for the back cover. Saturday Evening Post, \$5 per line. \$3,000 per inside page; inside cover, \$3,000 and back covers, \$3,500."

Work for All.

A minister in Bates county, Mo., was horrified one Sunday recently to see a boy in the rear of the church pelting the hearers in the amen corner with paper wads. As the good man looked at him the boy cried out: "You tend to your preaching, mister; I'll keep 'em awake!"

Answers all calls Day or Night, has a full outfit of instruments.
MARION, - - KENTUCKY.

The Apprentice System

By JOHN S. HODGSON,
Civil Engineer.

The relative paucity of skilled artisans, adopting as their life's vocation a particular handicraft offering possibilities of promotion as foremen or superintendents, stands in strong relief against the large number of highly trained youths turned out every year by American technical institutes.

As regards the latter feature, the steady addition to the ranks of graduates in applied science evidences a satisfactory recognition of the necessity of comprehensive specialization—to use an apparent contradiction in terms. On the other hand,

the growing disinclination to serve a long term of apprenticeship, with the naturally resulting disposition to abandon a trade imperfectly acquired by other methods, suggests a disappointing survival of "the vulgar conceit," deprecated by President Eliot of Harvard in his inaugural address nearly 40 years ago, "that a Yankee can turn his hand to anything."

It would be idle, however, to regard this as the sole or even as the principal factor in the decay of a system under which vast armies of skilled and "craftproud" workmen were formerly recruited.

It will tend to assist in the search for remedial measures if it be remembered that the same breakdown of the apprentice system, though in a minor degree, is to be recorded of European countries. In Great Britain, excellent results have been achieved in the past from systematic study in night schools. Much of their success has been due to the hand-in-hand character of evening study and daily work—the latter bringing home to the average mind the advantages, if not the absolute necessity, of what is furnished by the former.

In conclusion, it may be doubted whether the full benefit derivable from improved methods of industrial training, however admirable in themselves, can be secured through their exclusive application to the class now filling the ranks of manual labor. A reversion to the old belief in "the dignity of labor," taking practical form in diverting to the lathe or the bench a share of the present rush to the roll-top desk, is a condition well worthy of united effort in a country showing many signs of drifting away from the lofty ideals of its founders.

John S. Hodgson

Woman Can Not Reason

By DR. EDGAR HOFFMAN,
German Scientist.

Woman can only reason up to a certain point, after which she "sees blind," or, in other words, loses sight of the question at issue.

If the perfect mind were appraised at, say 100 points, and the average mind at 50, it would be found that the ratio of practical-mindedness in these two figures would be respectively 90 and 45. With a woman sentimentality would take the place of practical-mindedness in similar ratios, the result being that, to an ordinary political or sociological or economic problem, a woman with a perfect feminine mind could bring to bear only ten per cent. of common sense, and an average woman five per cent.—which looks bad for the long-suffering suffragettes. When women show more than usually acuminous intellect they are really not applying either knowledge or experience, but are simply making haphazard shots by the machinery of intuition. And when a woman shows an enduring and consistent intellectuality it may be asserted positively that she is asexual, or without the ordinary attributes of love that characterize ordinarily constituted women.

Overindulgence

Some day you may eat too much. Some night (if you're a man) you may drink more than is good for you. For all excesses in eating and drinking

Nature's Remedy

is best because it acts on the liver, moves the bowels and gets rid of whatever may be overloading your stomach. For any sickness of the sort—constipation or stomach and liver troubles take an NR tablet-to-night and you'll feel better in the morning. 52

Money a Fleeting Joy.

Ellnor was very anxious to bring home an Angora cat from Maine last summer. Her mother objected, thinking that the care of a cat from Maine to Connecticut was entirely too arduous a task, so he tried to "buy off" Ellnor. "If you say no more about the cat," she said, "I will give you a dollar to spend in Boston." Ellnor looked quite thoughtful for a moment, then said: "But, mother, how much longer a cat would last than a dollar."—The Delineator for May.

Thompson is kept pretty busy as he supplies the pulpit at five churches as follows Kuttawa, first and fifth Sunday mornings and evenings; Crayne, second Sunday morning and Saturday evening before; Frances second Sunday night; Chapel Hill, third Sunday morning and afternoon; Marion, fourth Sunday morning and evening.

HANDS WANTED:—To do general work at saw mill. Apply to J. F. Miller, Repton, Ky. 464t p.

Gets Into Quicksand.

Ira C. Hughes, who lives a few miles northeast of town, met with a painful accident Monday while crossing the creek at the Harrison trestle with a wagon and team he got into quicksand. The horses in plunging in their efforts to extricate themselves from the mire, threw Mr. Hughes from the wagon, the vehicle passing over his body, breaking two or three ribs and otherwise bruising him up. He succeeded in getting out and driving home, but was in a painful, though not serious condition.

CLEAN UP ORDINANCE.

City Marshal A. S. Cadnan calls attention of the public to following ordinance and says no excuse will be accepted.

Sec. 47. It is a public nuisance to cause or suffer the carcass of any animal, or any offal, filth or noisome substance to accumulate, be deposited, collect or remain in any place in said city to the prejudice of others. To throw or deposit any offal, filth, manure, ashes, paper, bottles or broken glass, or the carcass of any animal on any street, alley or public ground, and suffer the same to remain thereon. Whoever, within said city, causes, maintains, continues or allows such nuisance, shall, for the first offence, be fined from \$2.50 to \$20.00 and each day said nuisance is continued shall constitute a new offence.

Card of Thanks.

I wish to express my sincere thanks to the neighbors and friends for their kindness shown me during the sickness of my wife. R. N. MINNER.

Mrs. R. M. Franks Dead.

Mrs. R. M. Franks died at her home on the Piney road Saturday, April 10th, 1909, of a paralysis, with which she was stricken ten days ago. Mrs. Franks had long been an invalid and never rallied from the paralytic stroke. She is survived by her husband and two children, Gladys thirteen and Brownie eleven years of age. She was a daughter of the late Lacy Love, of Livingston county, and a sister of Mrs. Lake Murphy and Mrs. E. T. Franklin, of this county and Mrs. R. S. Threlkeld, of Livingston, and of Messrs. Chales and James Love both of Missouri. The interment took place at Hurricane, Rev. J. B. Adams, of Marion, officiating Monday morning.

NIGHTS OF UNREST.

No Sleep, No Rest, No Peace for the Sufferer from Kidney Troubles. No peace for the kidney sufferer—Pain and distress from morn to night.

Get up with a lame back. Twinges of backache bother you all day. Dull aching breaks your rest at night. Urinary disorders add to your misery. Get at the cause—cure the kidneys. Doan's Kidney Pills will work the cure.

They're for the kidneys only—Have made great cures in Marion, W. I. Tabor, Marion, Ky., says: "I suffered for ten years from kidney trouble. There were severe pains in the small of my back. I was unable to sleep well and arose in the morning feeling very lame and sore. I was always tired, languid and nervous, headaches were frequent and I often suffered from dizzy spells. My eyesight was affected and there was often a blurring before my eyes. My kidneys were also disordered, the secretions passing too frequently and when allowed to stand, denoting a heavy sediment. It was finally my good fortune to hear of Doan's Kidney Pills and I procured a box at Haynes & Taylor's drug store. I used them according to directions and in three weeks felt great relief. Thus encouraged, I continued taking the remedy and the contents of one box made a complete cure. I recommend Doan's Kidney Pills to anyone suffering from kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

DUAL NATURE OF DIAMOND ROBBER

FRANK SHERCLIFFE REVELS IN CRIME BUT LOVES WIFE AND HIS TWO CHILDREN.

MAKES REMARKABLE ESCAPE

Captured While Seeking Healthier Climate for Family, He Leaps, Handcuffed, Through Window of Speeding Train.

Des Moines, Ia.—That Frank Shercliffe, the notorious diamond robber, who has just escaped from the Colorado authorities and whose daring career has eclipsed even that of Tracy, the outlaw, has a strangely dual nature is evidenced by letters which he sent to his wife in Des Moines only a few days before he made his sensational escape.

Detectives all over the country call Shercliffe the most desperate criminal they ever knew. A slender little white faced woman in Des Moines calls him the best husband a woman ever had.

Shercliffe made one of the most sensational escapes ever recorded in criminal history. While being taken to the state penitentiary at Canon City a few days ago to serve a 20-year sentence for the murder of a Colorado saloonkeeper 15 years ago Shercliffe eluded the two deputies who had him in charge by leaping through a car window while the train was going 40 miles an hour and made his escape in the darkness.

When his wife heard the news she cried for joy. Shercliffe was married to Mae Bergstrom, a Des Moines girl, four years ago. She is a pretty girl and a talented musician. During his married life here Shercliffe had evidently reformed and lived a sober, industrious life. It was when he left the state to seek a better climate for his wife's health that his old enemies nabbed him and railroaded him to Colorado to answer to a murder charge.

That Shercliffe's thoughts were with his wife and two little children, even while the shadow of the big penitentiary loomed near him, is evidenced by letters scrawled in lead pencil on pris-

He Leaped Through the Car Window.

on paper and written only a few days before he made his sensational escape. Sherman Morris, alias Frank Shercliffe, has had one of the most remarkable criminal careers of any man living. Alone and single-handed he held up a New York diamond merchant on a train near Missouri Valley, robbed him of \$16,000 worth of diamonds, pulled the bell cord, and when the train slowed up leaped off into the darkness. He was not captured until months afterward, when a force of Pinkerton detectives were put on his trail.

When he confessed the crime he implicated a notorious politician and gambling king. The latter was tried, and Shercliffe told a startling story, in which it was shown that he was back of a big diamond robbery and that Shercliffe had been his tool. Shercliffe claimed that after robbing the train he had received none of the booty. The politician was not convicted, however, and from that time on he and Shercliffe have been sworn enemies.

The diamond robbery was only one of the events in Shercliffe's sensational career. Single handed he held up some of the biggest gambling houses in Colorado. On one occasion Shercliffe donned the rig of a cowboy, held up a gambling palace, escaped with a rich haul, donned the attire of a society swell and 15 minutes later was out mingling with the crowd to help hunt the desperado.

After the trial, however, Shercliffe promised Gov. Cummins to reform and that executive denied requisition papers. In Iowa Shercliffe was safe. A few months ago he ventured out to Michigan to find a suitable place to move his family, the doctor having ordered change of climate for his wife. It was then that he was seized on a charge of an old murder and railroaded to Colorado.

Concrete Buildings for Explosives. Following a practical demonstration of its value in that field, the government will use concrete buildings in which to store explosives in the canal zone.

PALM SUNDAY.

The Roman Catholic church in all the world Sunday, April 4th, commemorated the triumphal entry of Christ into Jerusalem, when multitudes of people spread their garments and palm branches in the way, shouting, "Hosanna to the Son of David; Blessed is he that cometh in the name of the Lord; Hosanna in the highest."

"Palm" Sunday is the name given to the last Sunday in Lent after the custom of blessing branches of palm trees or other trees in those countries where palms cannot be secured. Palms were used in this important entry because they were then regarded as an emblem of victory. The date of the first observance of Palm Sunday by the church is uncertain, but it is believed to have started with the Greek church during the fourth century.

An old custom of procedure in the Roman church, now only existing in some parts of Spain and South America, was to have a priest impersonate Christ and ride on an ass at the head of a procession of priests.

The Roman church of today has its priests present palm branches to each member of the congregation which they are supposed to reverently preserve. The palms which are left over from the service are burnt and the ashes kept until the following Ash Wednesday on which day they are used to mark "the sign of the cross on the faithful."

The custom of blessing and preserving palms was discontinued in the Church of England together with the other ceremonies of the Roman church at the time of the Reformation during the reign of Edward VI. Under the U. S. flag 22,000,000 Catholics, about one-fourth of the entire population, observed Palm Sunday and celebrated Easter Sunday on April 11th.—Ex.

Words To Freeze The Soul.

"Your son has consumption? His case is hopeless." These appalling words were spoken to Geo. E. Blevens, a leading merchant of Springfield, N. C. by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Blevens, "he was as well as ever. I would not take all the money in the world for what it did for my boy." Infallible for Coughs and Colds, its safest, surest cure of desperate Lung diseases on earth. 50c. and \$1.00. Guarantee satisfaction. Trial bottle free. Haynes & Taylor, and J. H. Orme, druggists.

HENS LAY HAM AND EGGS FOR JOHN.

Quakers Not Supposed to Lie, But—Well, Just Read This.

Philadelphia, April 15.—A special from Norwalk, Conn., to the Record says: Officer John H. Smith, of the local police force, has a brood of hens which, from a persistent diet of ham clippings and pork rinds, lay eggs that, when cooked, cannot be told from a full-fledged breakfast of ham and eggs. The yolks are hard and ham-like in appearance, while the whites of the eggs retain their old appearance and taste. At present the eggs are a trifle too salt, but a slight application of sugar in their diet, Smith, who is a poultry fancier of long experience, is bringing his unique production up to a state of rare perfection.

Baked or fried, the eggs make an ideal breakfast. Eaten raw, they are said to be delicious. Smith also has started another brood on a diet of cheese with a view to producing eggs that will pass for Welsh rarebits.

Louisville is going to have

an exposition, April 12 to 24, please tell the people that for the Southern Electrical and Industrial Exposition, Louisville, Ky., the I. C. Rail Road will sell tickets on April 12, 15, 17, 19, 22 and 24th Only. Limit for return April 26, rate, \$6.20 for the round trip.

Yours Respectfully,

W. L. VENNER Agt.

TOWN IN SALT AND SEED.

Several Plant Beds Destroyed in Trigg County Lately.

Several plant beds in Trigg county have been destroyed during the past week. Two beds, one belonging to T. N. Wadlington and the other to C. R. Wadlington, near Caledonia, were sown in salt. Both beds were on T. N. Wadlington's farm close together. C. R. Wadlington is one of the best association men in the county, pledging his tobacco last fall for three more years. His father, while a former association man, sold his tobacco in Hopkinsville some time ago. Monday night of this week every bed of Elmo Jones' farm near Glenwood and one bed belonging to Buster Patterson, a negro living on the Binns farm, and who lived with Mr. Jones last year, were sown in grass seed.

The people of this county are opposed to a renewal of the troubles that have prevailed more or less over this part of the state during the past year or more, and it is hoped that no further depredations will occur.—Cadiz (Ky.) Record, 9.

Swept Over Niagara.

This terrible calamity often happens because a careless boatman ignores the river's warning—growing ripples and faster current—Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need at-

tention if you would escape maladies—Dropsey, Diabetes or Bright's disease. Take Electric Bitters at once and see Backache fly and your best feeling return. "After long suffering from weak kidneys and lame back, one \$1.00 bottle wholly cured me," writes J. R. Blankenship, of Balk, Tenn. Only 50c at Haynes & Taylor's and J. H. Orme's drug stores.

ON THE DAYS AT HOME.

Here are some good recipes for such a function:

Bread and Butter Wafers—Use fine grained white bread at least a day old. Shave off the crust, butter the loaf surface, then cut with a knife of almost razor sharpness, making the bread so thin that it curls. Pile these curls on the bread plate and cover until needed, to keep them moist.

CURED BRONCHITIS.

Mrs. Hopkins Says Her Life Was Saved—Choked and Gaspied for Breath.

"Some five years ago I was taken with a bad attack of bronchitis. I was affected with a bronchial cough and cold, the cough was generally much more apparent at night, and I would wake up choking and gasping for breath, and there seemed to be a terrible stoppage in my throat and tubes. My throat was tender and irritable, and had an aching sensation, which was especially bad at times. I doctored and used several remedies, but received no permanent relief until I used Hyomel. This remedy is certainly infallible, and it saved my life, and I accord it the credit which it deserves. There is nothing too strong for me to say regarding Hyomel."—Mrs. Ada Hopkins, 8 Cutter Ave., Coldwater, Mich., August 22, 1908.

Haynes & Taylor sell Hyomel (pronounced High-o-me) and they guarantee it to cure bronchitis, catarrh, asthma, croup, hay fever, coughs and colds, or money back.

The price for a complete outfit is only \$1.00, which includes a bottle of Hyomel and a neat hard rubber Inhaler.

Italian Sandwiches—Cut bread, butter very thin, but not thin enough to curl, and put slices together with a mixture made by chopping very fine a pound each of cold boiled ham and the white meat of chicken, then rubbing to a cream with the yolks of two hard-boiled eggs, one sweet pepper scalded then chopped after removing the seeds and stem, a teaspoonful of cream, and celery salt to taste. Trim off crust, then cut in oblongs, small squares or triangles.

Children Who are Sickly

Mothers who value their own comfort and the welfare of their children, should never be without a box of Mother Gray's Sweet Powder for Children for use throughout the season. They break up Colds, Cure Feverishness, Constipation, Teething Disorders, Headache and Stomach troubles. THESE POWDERS NEVER FAIL. Sold by all Drug Stores. Do not accept any substitutes. A trial package will be sent FREE to any mother who will address Allen S. Olmsted, Le Roy New York—Mar. 22, Apr. 15, May 6-27, June 17

Walnut Drops—Mix half a pound of chopped English walnut meats with an equal quantity of granulated sugar, half a cupful of sifted flour and half a teaspoonful of baking powder, stirring in last of all two well-beaten eggs. The batter should be soft enough to drop from a spoon, and if it is too stiff thin it with a little milk. Drop in teaspoonfuls on buttered paper and bake in a quick oven.

Sponge Drops—These are delicious with chocolate and are made by beating to a froth the whites and yolks (separately) of four eggs. Mix with the yolks three teaspoonfuls of powdered sugar and an equal quantity of flour, then add the whites and a wine-glass of lukewarm water, beating well. Flavor with half a teaspoonful of lemon extract, drop on buttered paper, and sift powdered sugar over the top. Bake until of a light brown, then put together two and two with a tiny spreading of strawberry or raspberry jam.

Use small cups for the chocolate and make it rich, using half a pint of milk to an ounce of grated unsweetened chocolate, which rub to a paste with a few drops of warm water. Put in an enamel saucepan, heat the milk to the boiling point, and pour over the chocolate. Sweeten to the taste with powdered sugar, then boil for four minutes, with constant stirring. Take from the fire, and flavor with vanilla extract, using half a teaspoonful to every pint of milk. Top with whipped cream just before passing the cup to a guest. Some people like a shake of powdered cinnamon on the cream.—Lillian Dynevor Rice in The Circle Magazine for April.

A Premium.

Some of our subscribers have not paid us arrears. Some have not paid renewals. In order to induce them to pay before they get busy with their crops We will give, to the first 50 who pays us subscriptions in APRIL, free one year "The Farmer's Helper Magazine," published at Greenville, Ind.

THE CRITTENDEN RECORD PRESS.

This is the most dangerous time of the year to catch cold, and it is the hardest time to cure it. If you should take a cold, a few doses of Kennedy's Laxative Cough Syrup will act very promptly. Its laxative principle cures the cold by driving it from the system by a gentle but natural action of the bowels. Children especially like Kennedy's Laxative Cough Syrup as it tastes so good, nearly like maple sugar. It sold by all Dealers. 40 3m

For Croup Tonsilitis and Asthma

A quick and powerful remedy is needed to break up an attack of croup. Sloan's Liniment has cured many cases of croup. It acts instantly—when applied both inside and outside of the throat it breaks up the phlegm, reduces the inflammation, and relieves the difficulty of breathing.

Sloan's Liniment

gives quick relief in all cases of asthma, bronchitis, sore throat, tonsilitis, and pains in the chest. Price, 25c., 50c., and \$1.00.

Dr. Earl S. Sloan, Boston, Mass.

Kodol

For Dyspepsia and Indigestion

If you Suffer from Indigestion, Dyspepsia, Gas on the Stomach, Belching, Sour Stomach, Heart-burn, etc., a little Kodol will Relieve you almost Instantly

Kodol supplies the same digestive juices that are found in a healthy stomach. Being a liquid, it starts digestion at once.

Kodol not only digests your food, but helps you enjoy every mouthful you eat.

You need a sufficient amount of good, wholesome food to maintain strength and health.

But, this food must be digested thoroughly, otherwise the pains of indigestion and dyspepsia are the result.

When your stomach cannot do its work properly, take something to help your stomach. Kodol is the only thing that will give the stomach complete rest.

Why? Because Kodol does the same work as a strong stomach, and does it in a natural way.

So, don't neglect your stomach. Don't become a chronic dyspeptic. Keep your stomach healthy and strong by taking a little Kodol. You don't have to take Kodol all the time. You only take it when you need it.

Kodol is perfectly harmless.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 32 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

DYNAMITERS WRECK LOUISIANA DAM

Destruction Result of Feud Between Rice Growers and Grazers

Lake Charles, La., April 15.—News of the dynamiting and complete destruction of the Mermentau dam at Grand Cheniere, about 40 miles south of here, several nights ago, has been brought to Lake Charles by those on a returning mail boat.

The dam was built at a cost of nearly \$100,000 by the rice growers of Southwest Louisiana. This is the third time that a dam there has been dynamited.

For many years a bitter controversy has gone on between the rice growers through whose efforts the dam was built, and cattle raisers of

Cameron parish, in which it was located. The former claimed that it was essential to keep salt water from the gulf out of the Mermentau river and its tributaries, while the latter declared that much of their stock was drowned by the overflow thus caused.

The situation was brought to the attention of the war department last fall, but after an exhaustive hearing on the subject the department decided to take no action either for the dam's removal or maintenance.

The best known pills and the best pills made are De Witt's Little Early Risers. They are small, easy to take, gentle and certain, are sold by all Druggists. 40 3m

ITCH! ITCH! ITCH! SCRATCH! SCRATCH! SCRATCH! ECZEMA IS MADDENING

and the more you scratch the more you itch. Your skin is on fire—your lips and mouth are dry with the agony of it—your whole body is worn out with the constant suffering—STOP SCRATCHING!—you can't put out the fire with your finger nails.

Littell's Liquid Sulphur Stops Itching Instantly

And because of its wonderful penetrating and germicidal qualities comes in direct contact with and kills the germ that causes the disease. A positive cure for any skin disease on earth—Eczema, Psoriasis, Herpes, Tetters, Shingles, Acne, Ringworm, Barber's Itch, Itch, Poison Oak, Ivy Poison, Hives, Pimples, Boils and Carbuncles, Sunburn, Prickly Heat, Bites and Stings of Insects, Cuts, Burns and Scalds, Erysipelas, all diseases of the skin or scalp whether caused by heredity, contagion, weather, accident, chafing or impure blood.

Ben Drennan and wife and Miss Alpha Kemp were at church here Sunday evening.

The Baptist Sunday school every Sunday evening at 3 o'clock. At the Methodist church in the morning at 9:30 o'clock.

MAKE IT YOURSELF.

Says many persons Here Can Be Made Happy Again By Using It.

There is so much Rheumatism here in our neighborhood now that the following advice will be highly appreciated by those who suffer:

Get from any good pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces of Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the Kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only Rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while. Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them. No. 5.

CEDAR SPRINGS.

The farmers busy preparing for their crops.

Jack Bake, and family, of Marion, were the guests of George Baker Sunday.

Clara Crider spent last week at Marion with her grandfather, Tom Cistard.

Charlie Newbell and wife went to Hildale Sunday.

Several people of this place went to Copper Springs Sunday.

HURRICANE.

Farmers are busy plowing.

J. Stone has some corn planted.

Eugene Clark has purchased a fine Jennett for a saddler.

J. O. Dixon was down on his farm this week.

Mrs. Tom Lear, of Tolu, is visiting her daughter, Mrs. Jose Hammond.

J. Stone has resigned as a member of the campmeeting committee.

Lonnie McGrew is visiting his parents in Hampton.

Mrs. Mantz has a nice line of hats this spring.

James Kirk and his sons will cultivate a farm near Shawneetown.

Mrs. R. M. Franks was buried at Hurricane Monday.

Bevel Bozell and family were guests at Joe Moon's Sunday.

Third quarterly meeting will be held at Hurricane fourth Saturday and Sunday. Basket dinner Saturday. Every body come.

Mrs. E. B. Stone and granddaughter were in Marion shopping Monday.

APPLEGATE.

S. A. Nunn is on the sick list.

Mrs. Adaline Crider's fine cow passed into the great beyond one day last week.

William Bird, formerly of Blackford, has moved to Charlie Berry's place near here.

Cleveland Crider went to Marion Saturday, returning Sunday.

Clyde and Annie Dillard and Richie Thurman visited relatives in Weston Sunday.

While rolling logs last Wednesday Will Crider got one of his hands caught between the logs and severely injured.

James West, Will Crider, Tom McKinley and Albert Clark attended the county union at Crayne Saturday.

Claude Woodson, who is attending school at Dixon, was at home with his parents Saturday.

Alvin Mayes and wife were guests of J. F. Vick and family, of Clay one day last week.

What has become of our R. F. D. proposition? It seems that it has gone dead again. We say push the thing along. There is nothing we need so much in this neighborhood, unless it is a rural telephone.

Now a word in regard to the tobacco situation. Some say they are going to pool in the Farmers' Union, others say they are going to pool in the Stemming Association, and still others say they won't pool anywhere. It is not for us to say where you pool your tobacco, but we advise every one to pool somewhere for, if we don't, it will not be long until we will be back in the same old rut, and instead of getting from \$10 down to \$3, we will be getting \$3, \$2 and a cuss-in', and will have to give them the trash to get them to take it.

WANTED—Mourning birds. A friend in Washington state wants mourning birds. If any of our readers have any to sell let us know. The Record Press.

ROYAL BAKING POWDER

The most highly refined and healthful of baking powders. Its constant use in almost every American household, its sales all over the world, attest its wonderful popularity and usefulness.
