PORTER J. WHITE'S DESCRIPTION OF HELL.

A whirring and rumbling of hideous noises; the flashing of lightning and the strong, roaring peals of thunder; the sight of some poor unfortunate struggling against the demons of hell incarnate; behold the demon-like forms that beech forth the curses of damnation. Mephisto,—"Hy good Doctor, look, see; all this you shall feel, and more; you shall know what it is to mock the pure and innocent; to give thy soul into my keeping. I, Satan, whom all the universe fear and tremble. O! for the soul of one wise man to show on judgment day--though I gather fools and my work is never done." With this, night grows darker; the torn rages; the demons gather in midnight revelry and curse the immaculate angel--the Virgin Mary; and is his bidding from the throne of torment. Then here comes a hull, and all roars forth in a wreathing mass of fire with enchanting hideousness, and the curtain falls to hide from few the remorse of the last souls.

The above fully explains one of the many scenes in Porter J. White's famous "Faust," to be seen here next Tuesday March 15th, at Majestic Theatre.

NATION--EASLEY.

Mr. Hayes Easley and Miss Billan Nation were married in the parlor of the New Marion hotel at 8 o'clock Wednesday evening, by Rev. J. S. Henry. The bride and groom are both prominent young people of Ford's Ferry. They have the very best wishes of the Record-Press for a long, prosperous and happy life.

Call and see our line of Texas and Blue Grass saddles. The best line in this end of the state. T. H. Cochran & Co.

VINSON--HODGE.

On Wednesday Feb. 23, at the home of Rev. E. R. Blackburn Mr. Asel Hodge and Miss Mary Edna Vinson were united in marriage by Rev. Blackburn, who is the grandfather of the Bride, in the presence of a few relatives and friends.

The bride is the accomplished daughter of B. M. Vinson of Caldwell county, and has been

engaged in teaching in the public schools for several years.

The groom is a prosperous young farmer of the Emmaus neighborhood and is the son of Turner Hodge of that vicinity. They will reside on his farm near View.

May their lives together be long, prosperous and full of happiness.

Attention Company "K"

An inspection of the Company will be held on Thursday evening, March 17, at seven o'clock. Every member of the Company will be required to report at the Armory not later than noon of the 17th. It is my information that the State will allow one days pay for all present at the inspection; to obtain this, members must report by noon of the day fixed. No excuse for absence will be accepted unless presented before the inspection.

All members who have not had the physical examination will report at once to Dr. Travis for same. An impression seems to have been made that this may extend the time of enlistment of those who take it, but this is wrong. The examination will have no effect on the time your enlistment expires but is simply

a requirement of the U. S. Government so that the state troops can share in the allowed for support of the National Guard. Those who do not take the examination cannot receive pay for any services.

A number of good enlistments would be welcome to the Company. Any one desiring to enlist will present themselves to Dr. for examination, who will notify the undersigned.

If it were not for the educated and refined class of people, such plays as "Faust" would go begging. Is that, then, not proof enough that there is really true merit in the Grand old piece? Don't fail to see it next Tuesday March 15, at Majestic Theatre.

Don't fail to hear the celebrated church choir in the Great Cathedral scene with Porter J. White's "Faust" at the Majestic Theatre next Tuesday March 15.

Mr. and Mrs. S. N. Walker of the county, were in town shopping yesterday.

Faust contains a large measure of moral philosophy, both in the actual words of the players in the grand ensemble of its weird lights and shadows, its comedies and tragedies. Sam Jones aptly characterized it when he said it was "better than a sermon." Will appear at Majestic Theatre next Tuesday March 15.

THE QUALITY HARDWARE OF THE "PENNYRILE"

THE WITH CURVE FENCE A

Do you know what that means? The "Tension Curve" is a necessity to a good fence, giving it elasticity and every contraction due to cold or expansion due to heat or sudden and severe pressure is promptly taken care of, the fence remaining in normal position at all under all circumstances.

The American Fence is the most popular fence on the market, and its many advantages over inferior wire fences makes it the cheapest. It is hog and pig tight, horse and mule high and possesses bull strength.

Any good improvement adds to the value of the farm, and nothing more than the American Fence adds to the beauty thereof. Good fences and lots of them go a long way toward solving the question of bigger profits, and in buying fences it pays to get the BEST.

We handle every grade of this fence and you will always find the prices right.

PRICE SELLS OUR HARNES.

We have the fullest line of harness in Western Kentucky. Every article in this line is the best money can buy, is made from the best grades of leather, and our prices please the most economical.

Our bridles are made of heavy leather, are durable and easily adjusted. We have a number of assortments in both curb and limber bits and of any desired weight.

We have a full line of wool and hair padded horse collars made from heavy oak tanned leather which are sure to please you.

CLEAN SEED AT SHORT PRICES.

Seed sowing time is here and you will want good pure seed for sowing, and we call your attention to the fact that we have every seed adapted to this climate.

We have blue grass seed, orchard grass, red top, clover [alfalfa-alsike], and oats.

The farmer must depend upon quality when it comes to buying seed. Nothing but the best is any good for his use for a poor grade is worthless, besides he loses his time, labor and price paid therefor. We have the best.

A BUGGY BUILT FOR EASE.

For ease, comfort, durability and economy, The Geo. Delker Buggy is unexcelled.

The gnest of all springs are used in the manufacture of this carriage; the steel plates are carefully graded, swaged and drawn out to French points, giving it the full amount of elasticity and making it a most comfortable carriage.

The foundation of a good buggy is the wheels. The makers of the Geo. Delker Buggy are very careful in the selection of the very best of tough young hickory for spokes and felloes. Hubs are of rock elm as hard as marble, being put together by Hydrostatic pressure, making the strongest wheel possible.

Every portion of this vehicle is securely braced, re-enforced and strengthened making it the only buggy to withstand the hardships of a rough country.

No other vehicle of equal quality can be found on the market at equal price. A "Genuine Delker" is the best investment. We have fifty styles and prices are low enough to be in the reach of all.

YOUR SATISFACTION IS OUR SUCCESS

GOOD GUNS WITH PRICES SHOT.

We are headquarters for sporting goods, the leading brands of guns are in our case and our prices are right to please. Inspect our line before buying elsewhere, and you'll be convinced.

FOR WOMEN.

Everything that will satisfy their desire from the tiniest button hole shears to the celebrated Majestic Range. Enamel ware, silver ware; carving sets and everything that makes cooking easy.

HEAVY HARDWARE

Roofing, lime and cement, which we always have on hand in great quantities.

Our V. crimp and galvanized roofing will not rust, and any one that can drive a nail can cover the most costly mansion. It makes a good cheap roof, is quite substantial and will last for years. We have also the Rub-er-oid and Congo in the composition roofing. Have just received a car load of lime and cement. Our prices are right.

SIGNS OF EXCELLENCE ARE WRITTEN ON OUR WAGONS.

The wagons we sell have a world wide reputation. 'Tis said: "The sun never sets on the Studebaker." While they cost a few dollars more than the ordinary wagon, everybody knows they are far better for they are the wagons that last. They are the wagons with a reputation which they have won upon their true merits.

The Studebaker wagon is made by men who know what a good wagon is, and the point they have reached along this line is near perfection.

It is impossible for us to give the many good qualities of the Studebaker, but ask you to make full investigation of the merits of this wagon before buying.

We also have the agency for the celebrated Milburn wagon, and have a number on hand.

SADDLES.

Let us saddle your horse with one of our high grade saddles and you'll soon know the real pleasure of horse-back riding. We have an unequalled variety to select from any of which would add to the looks of your horse.

Our "Texas" saddle is a well built saddle and is quite popular with all stock men. It has heavy steel fork tree, simply unbreakable, fits the horse's back and your pocket book.

OILS, PAINTS AND VARNISHES.

We have paints and varnishes of any color, and spring is the best time to use it.

Acme Quality paint cannot be surpassed; floors, furniture and hardwood use Acme Quality Varnish.

FOR MINERS

We have a full outfit of miner's supplies. Lamps, candles, blasting powder, dynamite, fuse, caps, picks, shovels, spades and sledges. Every article is purely high class and will more than please you.

TOOL AND QUALITY---KEEN KUTTER.

We have a full line of Keen Kutter tools, every one of which is fully guaranteed. We handle every tool in the cuttler line from a pen knife to a 12 inch broad ax.

We have tools that work, tools that are reliable—tools that are ready when you are—tools that will do good work on hard material, each the best of its kind and bears the trade mark which fully guarantees it.

We have Keen Kutter lawn mowers, drawing knives, hatchets, chisels, shears, pocket knives, etc., and if you'll buy one you'll be glad you bought it every time you see it; for our motto is:—The recollection of quality remains long after the price is forgotten.

VULCAN PLOWS PLEASE

To the farmer that likes a good plow we call your attention to the many advantages of the Vulcan. They are well constructed of best material; nicely finished, modeled to run steady and do first class work with least possible draft. The mold board is strengthened reducing mold breakage to the minimum, and is so turned that it sheds the dirt perfectly. The point is of charcoal iron, with patented extension, long snout chill, wide edge chill and face chill. It is the strongest, best wearing, most economical point made. Do not forget the corrugated point! Stays sharp longer, wears better, plows hard ground easier, and cost no more than a plain point.

Made in sizes from 7 in. to 14 in. inclusive.

MAN'S REALIZATION

Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health. The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross. Womanly health when lost or impaired may generally be regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indelicate questionings and offensively repugnant examinations.

Sick women are invited to consult Dr. Pierce by letter free. All correspondence held as sacredly confidential. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce's GREAT FAMILY DOCTOR BOOK, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1909 pages, answers in plain English hosts of delicate questions which every woman, single or married, ought to know about. Sent free, in plain wrapper to any address on receipt of 21 one-cent stamps to cover mailing only, or in cloth binding for 31 stamps.

Radical Railroad Regulation

AND ITS EFFECT ON BUSINESS.

With enormous crops commanding the highest prices ever known; with every kind of business on a safe and sensible basis; with merchandise stocks of all kinds almost at a minimum; with everybody desirous of making good all the necessary improvements which the past two years' depression would not permit of, and to fill up stocks, which have been almost depleted, with plenty of money and credit to do all these things, there is a hesitation by the greater part of the business community, for the reason that something has appeared calling a halt in the progress which had so fairly started in the latter half of 1909. The one great and most apparent element which has caused this hesitation, is that that the railroad corporations of this country have stopped the purchase of anything beyond their immediate necessities, so much so that betterments which had been projected, (which are not only betterments, but in a great many cases are almost, or soon will be necessities) amounting to over one thousand millions of dollars, have been held up. It is customary for railroads to prepare their budgets of expenditures January 1st. If these budgets had been prepared on the lines of necessities the outlook for general business, particularly among manufacturers, would be exceptionally good for 1910. These budgets have not been presented, and are not within call, or even within the sight of those who would gladly welcome them, and it is doubtful when we will be able to make any reasonable forecast in the manufacturing and commercial world. It is unquestionably true that the railroads would

gladly enter into a year of liberal expenditure, but as matters stand now, it is quite possible that they will be compelled to drop back into the condition they were in the latter part of 1907 and during the year 1908, that is, purchase nothing except that which is absolutely essential, and the reasons are exactly the same as those that existed in the early part of 1907, that is "Radical Railroad Regulation."

Our legislators seem to be unmindful of the causes of the depression of 1907 and 1908, and give every indication of re-entering the field with even more laws to interfere with and discourage the investment of money in railroad enterprises, whether it be for increases or improvements in existing lines, and absolutely calling a halt on new projected railroad enterprises. And the railroads have not reached the position that they now occupy through any concerted plan; they all realize and appreciate the necessity of renewing their tracks and equipment that the recent depression would not permit of. This in the face of a very general actual or threatened demand for large increases in the wages of their employees, and knowing that the only way they can grant these advances will be by a corresponding advance in their revenue, and the only way in which they could increase this revenue would be by raising their rates, and certainly the outlook for this is far from promising. They have no certainty as to the character of legislation to come; they are in positive fear of Congress, and warranted in that fear by special bills already introduced, which is a

sufficient cause for them to hesitate. They are not certain that the people generally would favor any increase in rates, and they are equally uncertain as to whether the public would not side with labor in its increased demands upon the railroads. They feel as all owners of property naturally would feel, that the earning capacity of their property is now absolutely dependent upon the manner in which they shall be governed. They do not know what that government is going to be; they are almost positive that there will be no legislation which will cause an increased desire on the part of investors to put their money into railroad properties. They have been given to understand that probably their borrowing capacity is to be limited within narrow lines by the Government, so that even if they were willing to make these expenditures, it would be difficult for them to obtain the necessary financing.

In fact, looking at it from any point, the owners of railroad property have nothing to see that would encourage them in spending any money until they have a more definite idea as to what extent they are going to be controlled and directed by the National Government, and under such circumstances, all of the vast industrial enterprises that are depending upon the railroads, will find that at the time that their present orders upon which they are working, issued some six months ago when it was not dreamed of that the present adverse conditions could possibly arise, will have been completed, that we will again be in practically the same position that we were in during the early part of 1908. Therefore, it is of the greatest importance that some decided action be taken by the Government at as early a date as possible, as there will be no improvement until this uncertainty has been overcome, and in my judgment unless Congress restrains its interference with the earning capacities of the railroads, there will be a permanent set-back in the general business of the country, that it may take years to overcome.

Some Congressmen think that the railroad interests are the real force that is behind the rapidly growing unrest of the business men regarding legislation. This is absurd; we need no spur to wake us up to our unfortunate situation, which is by no means confined to railroad supply institutions.

I do not think there will be any change in these affairs until the business man, the manufacturer, and their employees realize that they have got to make a fight for their interests.

The producers of wool, cotton, tobacco, sugar, and many other special articles in this country, have so interested themselves in their business that they have forced the General Government to put a special protective tax on the things they produce, which we and our employees, who do not produce them, have to pay for, and to many of which we do not object.

On the same principal, and for the same reasons, when business men become as active in looking after their interests, and with the same rights, we can induce the General Government to give us equal protection by allowing the railroad companies, who are the producers of our revenue, to make sufficient profit to enable them to buy a full plenty of the goods they need which we manufacture. This will involve no special tax, will mean better railroad service, and more business for everyone particularly the working man; and when it is considered that in reality 90 per cent of all the money received by the railroad and ourselves goes directly to the working people, we should have the solid endorsement and individual support of every working man in

COUNTRY. CAUSE

The trouble with the whole situation is that many of the men who make the laws are not familiar with the true inwardness of the relations and dependence which the manufacturing and business interests have upon the general situation, nor do they realize that in administering their so-called discipline to the railroad companies, that we are to a great extent the ultimate consumers of that discipline.

REMEDY

Tell your National and State representatives that a halt must be called on all "Radical Railroad Regulation," and hand this letter to some one else and ask him to do the same to-day.

Come in while you are in town Monday and see us. We want to meet you even though you are paid up.

The next two issues of the Record will be 12 pages with the Easter addition on the 24th.

Read the nice ads in this issue and come to our merchants for good bargains.

On account of being crowded for space this week, the serial story was omitted, but it will appear again next week.

We are giving our readers ten pages this week and even then we were compelled to leave out much of our news as well as ads. Next two weeks each issue will be 12 pages.

We have many interesting letters that came in a little late this week that will appear next week. And let us thank all those who are signing their names. This is for us, as we never print the name or permit anyone to know who you are without asking you.

Some one said to us last week that we had too many ads in our paper and that if we did not stop it, he would stop taking it. Now friends this is not fair. If it were not for the ads what would we do for a living. We give you 8 pages all printed at home, when other papers all over the State

give you 8 pages, with 4 of them printed in Memphis or Cincinnati. And then too, if we do have a number of ads, they are for your benefit at last and you should read them with as much interest as those who read Sears & Roebuck or Montgomery Ward and be proud you have a paper that can command ads sufficient to discard the ready print sheet. Don't get mad at us because of this but come in and tell us you are our friend and will stand by us and with Gods help we will stand by you until the last ditch is crossed. Now Monday is going to be a big day here, as well as Monday week, so come in with your renewals and new subscriptions and we will show our appreciation by putting the money in new material that the old Record-Press may be better and better every week.

Morris & Yates have sold their large grocery stock to Pierce and Asher. The deal was finally closed Tuesday, the new firm taking charge at once. Our former Sheriff Mr. J. G. Asher will be the head inside man and with the large trade already built up by the former popular firm, the future for the new company looks bright. The new firm expect to make the business one of the largest in any county town in the State, keeping a clean merchantable stock selling at price that will bring the trade to Marion from a distance. While we welcome the new company, we are loth to give up the old one. They were good men who by fair dealing are able to pass to their successors an enviable business.

A. G. Baird of the county, was in town yesterday and bought a fine lot of harness and saddle of Dave Moore.

M. B. Moore of Tolu, gave this office a pleasant call yesterday.

Crittenden Chapter, No. 70 R. A. M.

Marion, Ky.—It is a sad task and with sorrowing hearts that we as a Committee from Our Chapter pen these words of love and esteem which all of our members held for our Companion who was taken from our midst to his unending reward by our Heavenly Father on Thursday, February 24, 1910.

We are at a loss to find words or phrases which can adequately express to the family of our Companion the deep and sincere sympathy which we feel for them in their sad hour. But we can only refer them for comfort where we must all look, to that One who said: "Let not your hearts be troubled; I go to prepare a place for you, that where I am there you may be also."

Companion Robert L. Flanary, his geniality, loving and gentle ways, who always had a kind word for everyone, endeared himself to all who knew him, and we shall ever miss his presence among us.

Companion Flanary was exalted in Crittenden Chapter, No. 70 and passed the Circle of Perfection in Wingate Council, No. 35 and was a true and faithful member.

We hereby express our deep sorrow in the loss we have sustained and commend his life to those who knew him as worthy of imitation.

We extend to the bereaved family our tenderest sympathy and bow our heads in sorrow for the loss of this one whom we had learned to love so well.

Resolved: That a copy of these resolutions be spread upon the records of our Chapter and a copy be presented to the wife of our Companion.

There is no fading past for such a man; God blessed and self-respecting, all his gifts

He treasured and fulfilled the noble plan.

That far above the earth the soul uplifts.

His voice still return in pleasant cheer.

Though no sound-waves will break the silence deep.

His grand example lingers; bright and clear.

To cheer the spirit, though the eyes may weep.

GOOD WORK

RIGHT PRICE

Having had years of experience at painting, varnishing, repairing doors, locks, etc., respectfully solicit the patronage of the people of Marion and vicinity, having this kind of work to let.

I am willing to put my work against that of the best following this trade, and good work at the right price should bring satisfaction.

I will appreciate any jobs in the above line thrown my way, and guarantee to do first class work at a reasonable price.

A. H. FRITTS

If you need a saddle, don't fail to see us. We can save you money. We are showing the best saddles in the State.

The Boston Lumber yards are putting on a beautiful plate glass front for Carnahan Bros. on the corner of Main and Salem streets.

We have the "biggest" and best line of riding saddles ever shown in Marion. Call and see them, it costs you nothing to look.

T. H. Cochran & Co.

See the magnificent and bewildering scenery in Porter J. White's big production of Faust at Majestic Theatre next Tuesday March 15.

Mr. and E. Pilaut of near Fredonia, was in Marion yesterday and while here paid us a pleasant visit. He is a staunch member of the Farmers Union and a clever gentleman. Such men make good organization members.

FAUST IS WELL PLAYED.

Faust, the story old, of man's temptation and his fall, was presented at the Grand last night by Porter J. White's Metropolitan company. The acting was excellent. The mechanism and the electrical effects were superior to those of any production of Faust ever seen here. It is certainly a good company, aided by very effective settings and mechanisms. —Journal (Kansas City.) Faust will be seen here at Majestic Theatre next Tuesday, March 15.

J. H. ANDERSON & CO.,

HOPKINSVILLE,

KENTUCKY.

FROM MISSOURI.

15 D. Kentucky.

Again the outer door of our Tabernacle has been alarmed, and the Grand Master of our Universe has seen fit, in His infinite wisdom to call to the Lodge on high our beloved Brother, Robert L. Flanary, who departed this life at 10:20 a. m., February 24, 1910.

Brother Flanary was called from labor to refreshments in the prime of his life. He was of a bright and genial disposition, and ever had a pleasant and cordial greeting and warm hand clasp for his brethren. He took an active interest in everything pertaining to his Lodge, and held many positions of trust and importance; and, at the time of his death, held the highest office within the gift of his brethren, as he was elected Master of his Lodge, December 27, 1909.

THEREFORE, Be it Resolved: That, in the death of Brother Flanary his Lodge has lost a true and faithful member, a wise counsellor, and an efficient officer; his church, a worthy member and officer; and his county a trusted and honored official; his wife and child, kind and loving husband and father.

Resolved: That we extend to the widow and daughter, his aged mother and brothers and sister our heartfelt sympathy; with the assurance that we mourn with them in their loss.

Resolved: That a copy of these resolutions be spread on our Record Books, and a copy sent to the family of our deceased brother.

Resolved: That the brethren wear the usual badge of mourning for thirty days, and that his station in the East be draped in mourning for the remainder of year.

Among the dead our brother sleeps—
His life was rounded true and well;
And love, in bitter sorrow, weeps
Above the dark and silent cell.

No pain, no anxious sleepless fears
Invade his house; no mortal woes
His narrow resting place comes near,
To trouble his serene repose.

As Hiram slept—the widow's son—
So does our brother take his rest.
Life's battles fought, life duties done,
His faults forgot, his worths confessed.

So, let him sleep that dreamless sleep,
Our sorrows clustering round his head
Be comforted ye loved who weep,
He lives with God; he is not dead.

Dexter, Mo., Feb. 27, 1910.

Mr. N. E. Calmes:—

I have been thinking for a long time I would write to the Record Press and let you and my old time friends know what we are doing in Stoddard, Missouri.

This has been the most severe winter since I have been in Missouri. During the recent snap, it was from 12 to 18 below zero, made us wish we were farther south.

We raise corn, wheat, cotton, and hay as our principal crops in the hills, in the hills tobacco is raised to some extent which they bring to our towns and sell out in small quantities to our tobacco users and most all native Missourians use it, both women and men. These swamps are being drained at last, they cut ditches about thirty feet wide with dredge boats. These boats are sights for anyone who never saw one. The monstrous ropes of wire and ponderous machinery are worth seeing, this boat and also a boarding houseboat for the crew stay in the ditch. Where a smaller ditch is required it is dug with a four foot plow drawn with an engine at some distance ahead, the plow is fastened to a large wire rope.

Land sells from \$55 to \$75 per acre and some few men own it all. Many own hundreds of acres and have one man to run it all, hiring hands paying them monthly wages and any man wanting a small farm can hardly find one to rent a decent house. Men are swarming in from Illinois and Indiana buying when they can, if they do not find any land for sale offer higher rent than custom requires and stay till they find a place for sale. Rent now is one third of the wheat or corn or the fourth dollar of the cotton, in some places many rent from \$3.50 to \$4.50 per acre, but not many rent that way now. Timber is being cut out as fast as they can get it. Dexter has a hub and spoke factory, an ax handle factory an ash factory which cuts handles for spades, shovels, hoes and other such thing. Every town of any size has several factories and saw mills are scattered through the country.

Our fires are almost all wood, a few houses have chimneys most of them have flues, while a great man have only a hole in the roof for the stove pipe to go through. We use stoves, some few in the country are beginning to burn coal in them, a great many in town do where they have wood to buy. I have been in Missouri almost thirteen years but old Kentucky will always seem like home to me where I was raised. I am now taking the Record-Press but no one ever writes any items from near my old home so unless some one dies or marries I do not see any names I know.

Some one write news from Seminary, Mt. Zion, Mattoon, any of the places named, as they

did when I lived there. I would enjoy it now. Success to the Record-Press.

Mrs. Mary Wamble.

REST MADE EASY

There Will Be Less Sleeplessness When Marion People Learn This.

Can't rest at night with a bad back, A lame, a weak or an aching one. Doan's Kidney Pills are for bad backs.

They cure every form of kidney ills. From common backache to diabetes. They are endorsed by Marion people. W. I. Tubor, Marion, Ky., says: "I suffered for ten years from kidney trouble. There were severe pains in the small of my back, I was unable to sleep well and arose in the morning, feeling lame and sore. I was always tired, languid and nervous, headaches were common and I also suffer from dizzy spells. My kidneys were disordered and the secretions from these organs passed too frequently. It was finally my good fortune to hear of Doan's Kidney Pills and I procured a box at Haynes & Taylor's Drug Store. I used them and in three weeks was greatly relieved. Thus encouraged, I continued taking this remedy and the contents of one box effected a complete cure. I recommend Doan's Kidney Pills to anyone suffering from kidney complaint."

Will write you a few lines

about Texas and a few things I

have seen since my last letter. I

have been in Brown, Coleman,

McCulloch and Hamilton counties

Coleman and McCulloch counties

are my western boundaries, there

are only 3 counties between Mc-

I drove to Mason in Mason coun-

ty last week, it was here that

General Robert E. Lee resigned

from Uncle Sam to cast his lot

with the C. S. A. I saw the

exact place Lee quit Uncle Sam,

to say the least Lee was a great

General, but like Geo. Washing-

ton when old Virginia, lined up

with the lost cause Lee would

not fight his native State. Vir-

ginia is justly proud of Washing-

ton and Lee.

The first capitol of Texas was

established at Columbia in 1836

by order of President Burnett,

the first President of the Lone

itors including the ministers

from Great Britain and France

visited him.

The first capitol was at Colum-

bia, the second capitol at Husten

and was moved to Austin Jan. 14,

1839. To-day Texas has the

largest capitol of any state, only

a little smaller than Uncle Sam's

capitol at Washington. Texas

gave three million acres of land

for her capitol, it is built of

Texas red granite and worth

15 million dollars. Today I saw

a man that will soon be 117 years

old, he is able to go about, hears

and sees without glasses. He

was born in East Tennessee in

1793, came west and fought

Indians with Jackson, Houston

and Crockett.

Was at Almo next day after

Crockett and Bowie had been

killed and his comrade put the

Mexicans to flight and caused

Santa Anna to loose his wooden

leg.

Thus we see gaint oaks from

little acorns grow and the acorn

may be tossed at will by a baby

but if planted in good soil and

climate to suit, will defy the

mighty storms to uproot it.

So it was with Texas at the

beginning there were about 30,-

000 inhabitants, 20,000 of that

Indians and Mexicans. Today

there are about 5 million white

people of type that loves God

and independence, Texas the land

of the free and the home of the

brave, and to think the old man

I talked to today has seen all

these changes with Texas. Mr.

Editor, It is with profound sor-

row that I learned today of the

death of our friend Mr. R. L.

Flanary, his last words to me

was to call on his brother in

Texas if I had the opportunity

and I had the pleasure of seeing

his brother and I was surprised

to hear the sad news.

Yours truly,

D. W. Stone.

Plans for the big Automobile

Show which will be held in Louis-

ville at the Armory, March 17th,

18th and 19th, have developed so

far that it is assured this will be

the greatest exhibition of motor

cars and appurtenances ever

held South of the Ohio river or

West of Chicago.

Reports from the Exhibit Com-

mittee state that every inch of

space on the ground floor of the

great Armory has been taken by

automobile dealers, and over one

hundred of the latest models in

motor-propelled wagons, includ-

ing both passenger and commer-

cial vehicles will be displayed in

the most attractive style. In

the spacious balcony will be ar-

ranged rows of exhibits of

sundries, accessories for automo-

biles, motor cycles, tires, etc.

One of the most interesting

features of the Show will be the

celebrated aeroplane, the identi-

cal one with which Curtiss has

made his several record-breaking

flight in different parts of the

country. This great air craft

will be suspended from the roof

and will hang in the middle of

the Armory, and an expert

aviator of note will be present to

lecture on its operation and

mechanical features.

An elaborate decorative

scheme has been devised, which

include not only special electric

lighting features and elaborate

use of flags and bunting, but

thousands of growing plants and

flowers as well. A band of

thirty pieces has been contracted

with to furnish music both after-

noon and evening sessions, so

that those who admire artistic

decorations and good music will

be entertained as well as those

who are seeking automobile

knowledge.

The Show will open on the

three days at from one in the

afternoon to ten-thirty at night,

and as it is by far the most pre-

tentions exhibit of this kind ever

attempted in this section it bids
