CRITTENDEN COUNTY INSTITUTE

Went Into Organization on Monday
—Hon. Marion F. Pogue Pres.,
C. W. Richards, Inst.

The Crittenden County Institute went into regular Session Monday morning in the chapel of the Graded School building, presided over by Hon. Marion F. Pogue, of Francis, with Prof. C. W. Richards of Princeton, as Instructor. J. B. McNeely was elected Vice Pres., Miss Bertha Moore, of Repton, Secy and Miss Allie Wilborn, Assistant Secy.

About seventy teachers answered to their names at the first roll-call and all, from the start to the present time, taking a deep interest in the work before them.

In his opening address Superintendent E. J. Travis, after a hearty welcome to all and many complimentary things about the bright future before the schools of Old Crittenden, urged every teacher to their duty. His talk was full of loyalty to the great cause of education and very much appreciated by all.

Prof. C. W. Richards, the able and popular instructor, has been highly complimented for his splendid lecture on "The Scope and Meaning of Education." He is a fluent, easy speaker, holding his hearers close to his subject and consequently in full possession of his thought. His way of handling a body of teachers proves the good judgment in his having been selected as instructor.

The subject of mathematics was ably discussed by T. F. Newcom, M. F. Pogue and Miss Margaret Moore. Miss Moore said that "every basis should be placed on accuracy, speed and neatness, but never acquire skill at the expense of neatness."

Reading was next discussed by Miss Ethel Hard who said that "its greatest value was its instrumental value, next in order its practical and cultural value."

Prof. Richards said "know what you teach and why you are teaching it."

Miss Bertha Moore, popular secretary, gave an interesting example on "how to manage the first day at school."

Prof. A. A. Fritts told them "what to do with pupils high in some studies and low in others, that until we have our school graded we may expect such conditions to confront."

Prof. Rascoe and Prof. Ward discussed the educational value of history in the primary and grammar school courses.

In answer to Instructor Richards' question, "Why do we teach History in our Schools?" Prof. Snyder said: "To push the mind of the child out into that which is unknown to it. For its literary value and for the emulation of the characters who have made History."

Miss Lula Wheeler said it was a great character study.

The "Educational value and ends to be sought in teaching Geography" was next discussed by Miss Hellen Finley.

Miss Maude Gill made a splendid talk on "when to introduce advanced geography and how much physical geography to teach." After a discussion by teachers the Institute adjourned

to meet Tuesday morning.

TUESDAY MORNING

The Roll-call Tuesday was answered as follows:

Misses Dollie Crowder, Minnie Crowder, Belva Childress, Jennie Clement, Minnie Corley, Homer Davidson, Hollis Franklin, J. E. Franks, Mary Finley, Carrie Gill, Maude Gill, Francis Gray, Lizzie Glenn, Ruby Hughes, Roy Hughes, Ethel Hard, Iva Hicklin, Mamie Hensy, Grace Hill, Clara Hurley, Myrtle King, Tress Koon, Duron Koon, Bertie Kirk, L. C. Moore, J. B. McNeely, Otho Montgomery, Lewis Mathews, Gilbert McDowell, Roy Mathews, Harvey Minner, Margaret Moon, Clara Nunn, T. F. Newcom, E. E. Phillips, J. L. F. Paris, Eliza Patmore, Lillian Postleweight, Maude Richards, Stella Redd, J. W. Rascoe, Marion Richards, Edna Roberts, Prof. J. Y. Snyder, Fred Stone, J. P. Samuels, C. E. Thomas, C. G. Thompson, Corda Smart, Mary Lou Wilborn, Allie Wilborn, Pearl Waddell, Lula Wheeler, P. M. Ward, Lena Woods, Mable Wilson, W. O. Wicker, Herbert Ordway, E. D. Reynolds, Edith Dean, Hon. M. F. Pogue, Florence Harris, Ewell Hardin, J. R. Travis, F. L. Wilson, Annie Householder, Charlie Quinn, Homer Johnson, James Bryant, Ada Bryant, Edith Bryant, Mary Towery, Anna Ramage, J. C. Hardin, A. A. Fritts, Mary Acridge, Myrtle Todd C. Tyner.

At 8:30 o'clock the Institute was called to order by President M. F. Pogue and after a song by the whole Institute and a touching invocation of God's blessing by J. B. Adams, the order of the program was proceeded with. Superintendent Travis, on account of the tardiness of many of the teachers was stimulated to give out a very timely admonition for punctuality—that they looked to the children for it, and that they should not be guilty of what they punished their pupils for.

All in all the Institute is an intelligent one and not overlooked is the remarkable beauty of many lady teachers and handsome young men, of courses the older teachers of both sexes are all handsome. Their long life in the training of the child faithful in the discharge of every duty, has obliterated the crow feet so effectively that we can see nothing but faces reflecting a life spent in the discharge of duty.

Prof. A. A. Fritts gave an outline for the fifth and sixth year work. The subject of reading was then discussed by Misses Annie Householder and Iva Hicklin. Miss Dolly Crowder read an especially fine paper on The Fifth Reader Kind of Literature.

Prof. Jas. U. Snyder made a very valuable talk on How to Teach a Masterpiece.

Messrs E. E. Phillips, J. P. Samuels, Lillert Mc Connell and Ewell Hardin explained school administration to the institute.

After recess Prof. Snyder talked on How Primary and Advanced History differ.

The Use of periods and Dates were discussed by H. E. Minner after which Miss Carrie Gill made a very interesting talk on The Correlations in History.

Geography was the next topic and was very ably discussed by Misses Mabel Wilson and Lula Wheeler.

After an interesting discussion on mathematics. The institute took up the study of Language and Composition. Minnie Crow-

FARMERS UNION HAVE MEETING

Saturday Aug. 13th to Organize
A Produce Stock Co., and to
Incorporate Same.

The members of the F. E. & C. U. of A. met at 10 a. m. in the court house at Marion, Ky., Saturday, Aug. 13th and organized a stock company to handle the produce of the farmers.

A committee was appointed to draw up articles of incorporation and select a business manager.

In the afternoon of the same day the poolers of tobacco met and elected a committee to handle the 1910 crop of tobacco. The outlook for the organization grows brighter all the time, said President Rascoe and in a short time will prove of more real worth to the county than ever they dreamed.

HARKINS-CAMERON

At Tonic, Ill., Friday afternoon, Aug. 12th at the home of the bride, Mr. and Mrs. W. M. Harkins, Mr. Tom Cameron and Miss Marie Harkins were united in holy wedlock.

The bride is a beautiful and popular young lady of Tonic and of a splendid family, while the groom is "Our Tom" born and reared in Marion and of one of the best and most highly respected families of Crittenden county.

But a few days previous to the wedding, a linen shower was given the bride at which she was made the recipient of many costly presents. There were 100 guests at the wedding representing more than that number of useful presents, many of them costly ones.

The newly married couple have gone to house life at Als worth, Ill., where the happy groom has a position as telegraph operator for the I. C. rail road.

May a long, prosperous and happy life attend them.

der read an interesting paper on the subject, after which Misses Davis, Gray and Wheeler made valuable talks.

Physiology was next taken up and discussed by Lonnie Moore. Mr. C. E. Thomas conducted a class in physiology, using the institute as a class to illustrate method of teaching physiology.

Prof. J. U. Snyder our newly elected School Superintendent is in attendance at the Institute and has already made so many friends that we feel deeply grateful for the good choice of our worthy School Board.

The absence of Prof. Hawes from the Institute is regretted by his great number of friends here.

One of the leading features of the evening program for Tuesday was the splendid talk by Miss Dolly Crowder on the Analysis of the Fifth Reader and Kinds of Literature. It was so good that we mean to publish it next week.

Prof. Ward is on hand and ready at all times to fire when called on.

Prof. Rascoe in his usual affable way is ready at every call to give his idea about things and the Prof. is generally right. He is a friend to the old Record-Press and he could not be that without being right.

ANGEL OF MERCY IS AT LAST CALLED TO HER REWARD, AGED 90.

Known all Over the World For Deeds of Kindness and acts of Charity.
She was Truly an Angel of Mercy in the Crimean war
Most Highly Honored of Englands Subjects,

FLORENCE NIGHTINGALE

The Angel of the Crimea

In her home in the West End of London, passing the days of the late Autumn of her life in an invalid chair, lives a white-haired, sweet-faced, kindly-voiced noble woman, whom the world knows as Florence Nightingale. Born in 1820 in Florence, Italy, the daughter of a wealthy Englishman, under his loving tutelage she mastered the classics and literature, became a good musician and learned several languages.

She had a genius for helpfulness, a consecration to humanity that found expression in sweet ministrations of love and care of the sick and suffering. In nursing she saw a noble career for women and in 1849 went to a Protestant school for nurses, on the Rhine. On her return to England she assumed management of a sanitarium for invalid governesses. In 1854 England was roused to a white heat of indignation by the revelations of the horrors of the hospital service of the Crimea. Government incompetency, imbecile red tape, rascally dishonesty and criminal neglect in treating the sick and wounded soldiers made mere war itself a paradise of mercy by contrast. Dante's Inferno seemed a mild bit of imagination in the face of the real horrors at Scutari, with four miles of beds huddled in one three-story house.

Florence Nightingale volunteered to lead a band of women to transform the hospitals in the name of humanity, and in November, 1854, with thirty-eight nurses she reached Scutari. Her magic touch brought order out of chaos; the sunshine, sweetness and soothing peace of woman's work filled the rooms; the ghastly mortality was reduced to a minimum; soldiers wounded and dying kissed the shadow of the angel of the Crimea as it fell across their counterpanes or reverently touched the hem of her garment as she passed near them. Often for twenty hours at a stretch she stood giving her orders—the noble leader of her little army of peace; and her kindness, wisdom, sweetness, energy, influence and inspiration seemed inexhaustible.

For two years she kept up the fight and with health impaired returned to England, shunning all publicity. The 250,000 testimonial tendered her by the people, she refused, but finally accepted to found a training school for nurses. By penny subscriptions the soldiers secured enough to erect a statue to her memory, but this, too, she rejected. For nearly fifty years she has been an invalid, and yet this "Grand Old Woman of England," at the age of eighty-seven is still serene, sweet, helpful and contented, with a name that will be hallowed as long as the British army and the British nation shall endure.

LONDON, Aug 15—Florence Nightingale, the famous nurse of the Crimean war and the only woman who ever received the order of merit, died yesterday afternoon at her London home.

Although she had been an invalid for a long time, rarely leaving her room, where she passed the time in a half-recumbent position and was under the constant care of a physician, her death was somewhat unexpected. A week ago she was quite sick, but improved and on Friday was cheerful. During that night alarming symptoms developed and she gradually sank until 2 o'clock Saturday afternoon when an attack of heart failure brought the end.

The funeral will be as quiet as possible, in accordance with her wishes. On May 12 last, she celebrated her ninetieth birthday and was the recipient of a congratulatory message from King George.

Florence Nightingale was the first woman to follow a modern army into battle as a nurse, and in the Crimean war gained the title of "Angel of the Crimea."

At the close of the war she was enabled by a testimonial fund amounting \$250,000 to found an institution for the training of nurses, the Nightingale home at St. Thomas hospital. In 1908 she received the freedom of the city of London. King Edward bestowed upon her the order of merit, the most exclusive distinction in the gift of the British sovereign.

EARLY TRAINING FOR WORK

Miss Florence Nightingale was born in Florence, Italy, May 12, 1820. She was the daughter of William Shore Nightingale of Emberly Park, Hampshire, and Leigh Hurst in the county of Derbyshire, England.

She was highly educated and accomplished. Early in life she showed an intense interest to alleviate the suffering of the army, which in 1844 caused her to give attention to the conditions of hospitals.

She visited civil and military hospitals all over Europe; studied with the Sisters of Charity in Paris the system of nursing and managing hospitals, and in 1851 went into training in the hospital institution of Protestant Deaconesses at Kaiserwerth on the Rhine river, Germany.

On her return to England she put into working order the Sanitarium of Governesses in connection with the London institution.

MARION SHUTS OUT STURGIS

A Beautiful "Game" At Maxwell
Park on Last "Saturday" Gus
Talbott Did Fine Work

Marion defeated Sturgis again at Maxwell Park Saturday afternoon by a score of 5 to 0. The game was a good one considering the fact that both teams were crippled. Carroll, Marion heavy hitting second baseman was out of the game on account of sickness and Rochester was changed to second and Nunn took Rochester's place at short. Both Shrock, Sturgis catcher and Shell, their regular shortstop, were out of the game. The game for the first five innings looked like it was going to be very interesting but after that the visitors seemed to go to pieces and in the sixth inning Marion made three runs, their first score having been made in the first when Guess singled. Rochester and Franks sacrificed him to third and Brahic hit down the left field foul line and Guess scored. Until the ninth inning Sturgis had had only three men on first base and none on second. Talbott who pitched for Marion struck out 12 men and only allowed 2 hits. Price for Sturgis held the locals to 5 hits.

Batteries—Price and Smith, Talbott and Brahic.

Two Base Hits—Lamb and Brahic.

Sacrifice Hits—Rochester and Franks.

Stolen Base—Grady and Franks Double Plays—Munn to Rochester to Cannan.

Bases on Balls—Off Talbott 1, off Price 1.

Time of Game—1 hour and 30 minutes.

Umpire—Lamb.

OWENSBORO vs MARION.

Owensboro met our boys at Maxwell Park in their first game yesterday afternoon, resulting in an easy victory for our home boys by a score of 12 to 2. In other words our boys run off with them. The intention was to have given the game by innings but it was played too slow and we were compelled to go to press with but the above mention. The game for today is to be the Hot one.

OUR OWN LOVED W. B. YATES

Is in Midst of a Great Meeting in Blackwell, Oklahoma. A Choir with 100 Voices.

The first meeting of the Oklahoma State Holiness camp on Thursday evening was a decided success. A large crowd gathered and were led in a rousing song service by Bro. Yates. A large chorus choir sat on the platform and the singing was glorious. Mr. Yates has a fine voice and pleased everybody by his singing. Rev. E. A. Ferguson, who was with us last year, preached the sermon. It was a fine address, scriptural and pointed. The text was from Matthew, the 6th chapter and the 24th verse. He said in part:

"This text is equivalent to saying one cannot go to heaven and hell at the same time. As it is impossible to walk east and west at the same time, so it is impossible for one to travel in different directions in the spiritual realm. It is a philosophical and a scientific fact and an eternal verity; it simply cannot be done. Hence, every individual in this world is facing hell and traveling away from heaven; or, on the other hand, they are facing heaven and are traveling away from hell. Man is a free moral agent not a machine. If a man wants to go to hell he can go in spite of all the preachers, churches, bibles, warnings and admonitions of loved ones; in spite of all that God has done or can do, he can wade through the blood of Jesus and go to the judgement with blood on his feet rather than his heart, if he wants to. Then, on the other hand, he can go to heaven in spite of all the sin in the country, in spite of wicked men he can read the bible, shout and cry and have family prayers, and go on to heaven rejoicing. It is a free country. Heaven is a prepared place for a prepared people. One crowd is going to heaven on purpose, paying the price in cold blood because they want to; on the other hand the other crowd is going to hell on purpose, paying the price in cold blood because they want to. You cannot go both ways. The philosophy of this truth is seen all through the bible listen: Do you men gather grapes from thorns? Yes, just as consistently as one can go to heaven and hell at the same time. 'Do men gather figs from thistles?' Yes, with the same propriety one can be God's man and the devil's man at the same moment. Does a spring send forth bitter water and sweet water at the same time? Yes, with the same sense one can be a saint and sinner at the same moment. The question of the moment is, which way are you traveling? If toward hell, you are walking in the grossest darkness you have ever been in."

This is a great opportunity for the people of Blackwell. This doubtless will be the last session here of the Oklahoma State Holiness Association camp meeting. Other cities closer to the center of the State are asking for the meeting. The secretary has received two letters from commercial clubs. We believe the people of this town ought to avail themselves of this great meeting. The association has proved itself in this city. It is not composed of fanatics nor fools, but the best people of all the churches have associated themselves for carrying salvation to the people of showing that while we can be associated together in the Lord's work in the Spirit of the Master. This is a state wide organization, incorporated under the laws of the greatest means

of spreading the Gospel in the state. It has brought together in this city, three men of national reputation as evangelists. Mrs. Smith will have charge of children's meetings at 2 p. m. She is a specialist in that work and you should send your children to these meetings. A daily program will appear in this paper. —Blackwell Oklahoma Daily News.

Free Child's Remedy

What mother is not looking for something that will help her children in the little ills of life, something for the stomach trouble and the bowel trouble? Long ago she probably has become convinced that a child cannot readily swallow a pill or a tablet, and that to "break them in half and crush them" is an annoyance; that usually they work too drastically, and are nauseating and too powerful for the little one's stomach. Any mother who will take the trouble of sending her name and address can obtain a free sample bottle of a remedy that thousands of other mothers are using and now paying for. This remedy is Dr. Caldwell's Syrup Pepsin, and the offer of a free trial bottle is open to any mother who has not yet used it. Having used it and convinced yourself that it is what you want, you can obtain it in the future of your druggist at fifty cents and one dollar a bottle, just as so many others are doing. The free sample being simply to convince you of its merits. It is the best way to begin on it. Mrs. L. Davis of 187 W. Harrison street, Chicago, and Mrs. Mary Belford, 1710 Coke street, Louisville, Ky., both started with a free sample and now they write that they have never been without a bottle in the house since. It is undoubtedly a great family remedy. It is adapted to all ages, being mild and pleasant to take and yet thoroughly effective. It is especially the ideal remedy for children and women, old folks, who need something pure, mild and natural. It has the advantage of being a thorough laxative and yet contains tonic properties. Use it for the most stubborn constipation, indigestion, liver trouble, sick headache, sour stomach and such complaints with a guarantee that it will cure. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. I solve your case in a better and he will reply to you in detail. For the free sample simply send your name and address on a postal card, or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 500 Caldwell building, Monticello, Ill.

HOW TO CURD DCDMB, PIMPLES, AND DANDRUFF

We desire to say that when we took the agency for Zemo, we were convinced that it was a valuable remedy for eczema, pimples, and dandruff. Yet we must frankly admit that eczema has far exceeded our expectations as a treatment for skin diseases. We are pleased to state that we shall continue the agency as Zemo has given splendid results wherever recommended. Our customers like Zemo too, because it is a clean vegetable liquid for external use.

Zemo effects its cures by drawing to the surface of the skin and destroying the germ life that causes the disease, leaving the skin clear and healthy. I do not soil the clothing or linen and can be used freely on infants.

With every purchase, we give a booklet on skin diseases explaining in simple words how any person can be cured at home of any form of skin or scalp disease by this clean, scientific remedy. Haynes & Taylor Druggists.

ECZEMA--A GERM DISEASE CAN NOW BE CURED

The Medical profession is all agreed that ECZEMA is a germ disease, but the thing that has baffled them is to find some remedy that will get to the germs and destroy them.

Zemo's clean, external treatment has solved this difficulty by crawling the germs to the surface of the skin and destroying the germ life that causes the diseases. The whole method of treatment and cure by Zemo is explained in an interesting book on the subject issued by the makers of ZEMO. It tells how to cure yourself at home of Eczema, Blackheads, Pimples, Dandruff, and all diseases of the skin and scalp. Call at Haynes & Taylor's Drug Store for Booklet and learn more about this clean, simple remedy that is now recognized the standard treatment for all diseases of the skin and scalp.

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Graniteville, Vt. — "I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter." — MRS. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

MR. WM. ELLIOTT INTERVIEWED

His View Of The Situation In Crittenden and His Shot At The Record-Press.

Manager Elliot was in Crittenden county Tuesday.

"As to the pooling there," I said "is everything going all right?"

"No," he answered, "those farmers are to slow." "However," he continued, "they, as you know, recently elected a new county board and Judge Aaron Towery was made chairman ably seconded by the other members of the new board, are very confident now that 75 to 85 per cent. of the current year's crops will be pooled to the stemming Association and to the Farmers Union."

"Regretfully I say it," he continued "that the two Associations should operate in Crittenden county. And yet the farmers of Crittenden county will consult their best interests by pooling rather than by dumping. And of one thing I feel assured, after consultation with good members down there the Stemming Association will control the bulk of the crops in that county, since it seems that to the present time only about 300,000 pounds has been pooled with the Farmers Union. And bear this in mind, the closest sort of co-operation must be brought about between all tobacco associations in this end of the State, so that harmonious action may be taken in fixing the price of 1910 crop."

"Why didn't Rankin come back?" I asked. "He was a first-class man and most efficient committeeman."

"Yes," he answered, "Mr. Rankin was that all that—and so is Judge Towery, don't you think so?"

"Oh, yes, Judge Towery was the first committeeman from Crittenden and served the Association most faithfully. I wish Crittenden had sent both Rankin and Towery back."

"O, go off; it would never do for the smallest county in the district to have 2 committeemen. You may trust Judge Towery to get all that is going to Crittenden."

"O, cert! but I shall miss old Rankin."

"By the way," said Mr. Eli-

ot, "did you know the Crittenden Board had instructed Judge Towery to vote for you and Thompson and myself for reelection?"

"I heard as much, but have never been furnished with the official proceedings of that meeting."

"Well you know now we three were endorsed by the Crittenden County Board, and I for one am deeply grateful for that expression of confidence and the more so since I have been the target of slanderous tongues in other sections of the district."

"You should reflect," I replied, "it is the men who do things who are criticised. And men who do big things inevitably commit errors. It seems to me your slanderers would feel somewhat discouraged, seeing, as they must, that you, in a greater degree than ever, possess the unshaken confidence of a vast majority of the members of the Association."

"Yes, that is the sustaining consolation."

In conclusion Mr. Elliot said, "I am the more impressed day by day with the power of the press. If it were not for the publicity bureau of this Association; if it were not for the sincere and intelligent support accorded this Association by the newspapers published in the several counties, the Association would perish. Look," said he, "at the three counties that are furnished with the best newspaper service, the counties of Henderson, Union, and Webster. These counties get Henderson as well as the local papers. In consequence these three counties pool up nearly solid. While in Hopkins and Crittenden, where the newspapers support, in point of reiteration, to say the least, is not so effective, the pooling drags. Such is the power of the press. And, speaking of Hopkins and Crittenden—a great work has been done in Hopkins by Committeeman F. F. Brown, and the promise is that the newly elected chairman, Mr. W. H. Parker, will vigorously continue to push the pooling during the next few weeks and make a good report here the first Saturday in September. As will also Judge Towery, of Crittenden. If the farmers of this district who have not pooled were fully informed they would pool this year if never again. The destruction in this district by repeated floods has been very great. Conservative men place it at from 30 to 40 per cent. and the destruction in the counties on the other side of Green river has been yet greater. The crop will there fore be a short one. If only all the farmers were in the Association a remunerative in this district, could be had for the 1910 crop."

Thus Mr. Elliot.
FRANKLIN WOLFF, OF CRITTENDEN COUNTY.

Mr. Elliot was telling me of a gentleman in Crittenden county whose acquaintance I should like to make.

"Franklin Wolf," Mr. Elliot said, "is a farmer of high standing in Crittenden county. He is a specialist in tobacco growing. Mr. Head, who bought the Association tobacco there, says Mr. Wolff delivered him an extra fine crop of tobacco—all cul-

ed and handled to a queen's or, better it were to say, "king's" taste. And I am told he delivers that sort of crop every year. But what is far more to Mr. Wolff's credit is disinterested, unselfish zeal for the cause of farmers' co-operation. He does for the Association persistent and effective work year after year, for which he has never received and never expects to receive one cent in payment. Were all tobacco growers like that they would rule the world."

I should like to make the acquaintance of Mr. Wolff, of Crittenden county.

Since Wendling has been caught why is it that his captors want to close his mouth to the world and why try to elude his lawyers by leaving the train at Olney, Ill., and go through to Evansville in an auto? Why refuse newspaper men a chance to see him? And a great many other why's. Is it because they know the real perpetrator of the fearful crime has been in Louisville all the time and for fear of their incapacity or unwillingness to try to bring to justice, on account of the sensation it would create, the real culprit, they want to saddle the crime on a man because he has given them good cause to do so in order that their incompetency as murder hunters might be covered up? Surely they know that the masses of the people of Kentucky believe the extent of Wendling's guilt reaches on further than his knowledge of who did it. For of a certainty he had no cause for committing the deed. No one ever attributed criminal assault as a motive. There are thousands of people who can read between the lines and tell why the mouth of Wendling is being muzzled. There are some things he might tell that would prove the correctness of our theory all the way through. We were in St. Louis police headquarters when Carney arrived with Wendling and witnessed the scrap over chief Young of St. Louis giving newspaper men permission to see him. In this as we see, there could have been no possible harm. We want to see the murderer of little Almer Kerner brought to justice and if Wendling is the man his life should pay the forfeit. But we believe when the case is thoroughly gone into that the crime will be saddled on the real instigator of the crime and that another beside Wendling will die for the crime.

On our trip to St. Lou's last week we went over the E. & T. H. from Evansville to Vincennes passing through fifty miles of as fine corn belt as we ever saw. In fact the corn fields were the largest, richest and most flattering for a big yield we ever saw in the richest bottoms of Union or Crittenden. Our good friend Walter Mc Connell was with us to witness the sights along the route through this rich level country where farm after farm you could see from 25 to 75

acres of cantaloupes. At Vincennes we separated, Mc Connell going further into Indiana while I took the first vestibuled train over the Baltimore and Ohio for St. Louis in quest of some money we were about to lose. This train made but four stops in the 150 miles making the distance in a little more than three hours. We passed through the heart of the great oil fields of Illinois where the derricks are thick as far as the eye could see on either side of the track and for miles and miles the large tanks simply covered the earth. The wheat crops looked poor for so rich a wheat country, and strange to us the crop was all stacked, not exceeding twenty straw piles in evidence the entire way. A very strange sight was the vast number of fine orchards, that were as barren as the fig tree that was used by the blessed Saviour. Out of the thousand and thousand of acres of fruit trees we saw on the round trip not a vestige of fruit of any kind. On our return trip we were routed over the L. & N. to Evansville over which route we failed to see as rich country in any product, corn being exceedingly poor, not one good field did we see over this route. Strange to us on this last route, was several large fields of sunflowers, but as we had no one to tell us what they were raising the product for we paid little attention to it. In all the rich corn belt from Henderson through Indiana and Illinois on our trip going, it was very weedy. But on our arrival home in time to get the old Record-Press to the people we said, God bless old Kentucky and especially Crittenden county. It is the best country to day for a diversity of crops in the world and where her people, though perhaps not rolling in wealth are good livers, cheerful givers and among the favored of God.

Five white prisoners carved their way through the Henderson jail August 15 and made good their escape. They were: Wood McMahon, Jessie Simpson, Homer Sweeney all for highway robbery, Ben Bush for attempting to wreck train and Steve Wilson for murder.

Mr. A. H. Cardin of Salem, was in Marion Monday.

BELGIAN WORLD'S FAIR IN ASHES

While 100,000 People Are On Grounds Inflammable Buildings Catch loss \$100,000,000

Brussels, Aug. 14.—The white city of the world's fair as the Belgians have called their 1910 exposition, is tonight a mass of flames and smouldering ruins.

A spark falling into inflammable material in the telegraph building, burst up in flames which, driven by a high wind, swept rapidly in all directions. Soon the Belgian, English and French sections were destroyed.

The firemen and detachments of soldiers called quickly to the scene found themselves baffled by the veritable gale, which carried the burning embers to all parts of the grounds.

To the left of the main building arose the picturesque roofs and spires of "Bruxelles Kermes," a Belgian Coney Island, with water chutes, toboggans, slides, etc. This place was alive with Sunday crowds and before they could be got out with any semblance of order, the Kermes was afire. The crowds became panic-stricken and men, women and children fought madly to escape. The exits became choked with the struggling masses and men used their fists to clear the pathway. Many were trampled under foot and badly injured.

100,000 Persons on Ground

An engine corps from Antwerp attempted to dynamite the bridge of the French section, in the hope of checking the fire, but the flames leaped across and engulfed the Italian, Russian, Austrian, Japanese, Chinese and Norwegian buildings. Forty houses on the Avenue Solbosch, adjoining the exposition were destroyed.

At the time of the outbreak not less than 100,000 persons were circulating in the ground and the Kermes. Troops were ordered out and came at double-quick time to aid the police in clearing the great grounds. This was accomplished in fair order, except within the limits of the Kermes, where the vast crowds became entangled in an almost inextricable mass. Soon the enormous facade

tumbled in ruins. Considering the rapidity of the conflagration the small loss of life is marvelous. So far as is known, up to a late hour tonight, only two are dead. The injured, as officially announced, number thirty, but probably many hundred received minor hurts.

Animals Left To Fate

As the flames reached the menagerie, it was decided to shoot the beasts, but the heat drove back the soldiers and the animals were left to their fate. The multitude of people were driven back to a safe distance and watched the thrilling spectacle of the destruction of the white city. Tongues of fire mounted high into the heavens and flaming embers were carried off by the wind and fell upon the residences beyond setting them on fire.

The fire was finally got under control, but the Belgian and English sections are in ruins, while all the other sections, including the American, were partly destroyed.

Bands of thieves engaged in pillage and a soldier was stabbed while attempting to arrest men whom he found rifling a jewelry exhibit.

The aggregate loss is estimated at \$100,000,000.

Belgium's white city stood near the end of the Avenue Louise, the fashionable park drive, which on the west side of Brussels leads out to the beautiful Bois de la Cambre. The national building, that of the Belgium section, rose majestically on a slight elevation facing the main entrance. To the left of the main building was the Kermes. A magnificent quadrilateral of gardens was surrounded by the concession of Germany, England, France, Holland, Italy and Russia.

FAMOUS PEOPLE

BY FANNIE M. LOTHROP

MARGARET ANGLIN

America's Brilliant Young Actress.

Miss Margaret Anglin, the popular young Canadian actress, has manifested her individuality on many occasions—and in her portrayal of Camille in Dumas' play she defied the conventions by creating the rôle on new lines, making the heroine a sweet, simple, sincere ingénue, uncontaminated by the atmosphere in which she lived. The actress made a strong defence for her conception of the character and gave chapter and verse from the writer of the play to prove her contention.

Miss Anglin was born in Ottawa in 1876, and here first asserted her individuality by choosing as the scene of her debut on earth the hallowed precincts of the House of Parliament, her father at that time being Speaker of the House of Commons. Her early education was at Loretto Abbey, Toronto, and the Convent of the Sacred Heart at Montreal. At the age of seventeen she determined to go on the stage, and went to New York to study at the Empire School of Dramatic Acting, and began to show her ability by her clever character work in two matinées given by the students.

In 1894 she made her professional debut at the Academy of Music in New York in Bronson Howard's successful play "Shenandoah." A season of barnstorming and the cares, trials and troubles incident to one-night stands proved of value in giving her a deeper insight into certain phases of life, in increasing her repertoire, and in preparing her for her later successes.

In 1896-7 Miss Anglin, as the leading lady of James O'Neill's company, made a tour of the United States and Canada and did splendid work as Ophelia in "Hamlet," Virginia in "Virginia," Julie de Montmar in "Richelle" and Mercedes in "Monte Cristo." The ease and simplicity of her acting and her versatility were again shown in her clever portrayal of Meg in "Lord Chumley," and she rendered even more absolute and secure her place in the hearts of Canadians during her tour through the provinces.

Her brilliant acting in "Mrs. Dane's Defence" and her later work in Mr. Mansfield's company revealed the mellowing and refining of her powers and the broadening of her genius. Through all great acting runs the golden thread of personality, and the natural refinement, culture, sweetness and strength of character of the woman merely finds new expression in the work of the actress. In addition to her dramatic talent of a high order, Miss Anglin is a brilliant musician, speaks French fluently in her calm, clear, charmingly modulated voice, and is a writer of ease and grace.

- 1 A School for those who desire to teach or to enter college.
- 2 Courses leading to the County and the State Examination.
- 3 Classes in the Higher Branches will be organized when the number desiring to take is sufficient to justify a class, and the need demands it.
- 4 A strict but easy running discipline.
- 5 Under the present management this Institution has prepared a sufficient number of young people for teaching in the public schools and for entering college to instruct nearly or quite all the children in a whole congressional district at one time.
- 6 Excellent opportunities for young people to do light housekeeping and attend the Academy and thereby reduce the cost of attending school to the lowest possible figures.
- 7 In many respects the Institution is far superior to any college for young people in general. Investigate before deciding to attend elsewhere.
- 8 School opens on Monday, Sept. 5, 1910, and continues nine months—until the first teachers examination.

A FATHER'S SORROW

Mr. M. H. Crippen of Los Angeles, Cal., father of Dr. Crippen, who is being taken back to England to stand trial for the murder of his wife thus pours out the anguish of his soul: "I have not the money to go to Hawley, but if I had I would gladly go and be of whatever consolation I might be to him. I have not received a word from him and do not expect to. It is hard to have to be alone and suffer, but I don't think it will last long. I am not long for this world. I feel as if I would like to go away alone and die. I did my best to educate Hawley, and his son. I did the best I could and now in my old age I am alone and overwhelmed by this disgrace."

The words of the stricken old man recall the pathetic lament of David over Absalom. Sad that the son did not think of his poor old father when he was yielding to the temptations that resulted in this international crime! But the publicity given to Dr. Crippen's flight will serve as a useful purpose. It will teach anew, first, that the wages of sin is death. Second, that there is little hope of escape from the lashes of conscience. Third, that one does not live unto himself alone.

If the child would only think of the parent and the parent's indissoluble connection with all that effects the child's career there would be less sorrow in the old home. And there is a lesson for the parent, too. It is not sufficient to "educate" the children—moral development must go hand in hand with mental growth. The child must learn that there is more in life than money and physical enjoyment—there is duty. No person is safe until he understands that he was created for a purpose, that he must learn and pursue that purpose, conscious at all times of his responsibility to God for every thought and word and act. If Dr. Crippen's father did not sufficiently emphasize the moral element in his son's development his grief will be the more bitter now; if the fault is entirely with the son the fact that he rejected his father's advice will make his present punishment more acute.

REAPING THE WHIRLWIND

One would suppose from the manner in which the liquor organs gloat over the action of the Nebraska democratic state convention that the brewers had won a great victory, but did they? They kept the last legislature from submitting that initiative and referendum and planned to prevent it in the next, but with all three parties in favor of this reform the brewers are helpless and hopeless. They have robbed the democratic party of the credit it would have derived from securing this great and needed reform, but cannot control enough senators to over-ride the platforms of all

the parties. Are they happy? The friends of the initiative and referendum are rejoicing at the early, easy and complete victory which they have won.

And what about county option? If the brewers had permitted the submission of the referendum at the last session or at a special session county option could not have been submitted under it before 1912; but now it seems likely that it will come by statute this winter. Won't it tackle the brewers to get county option two years sooner than it could have come under the initiative and referendum, and then get the initiative and referendum besides?

But that is the natural result of their impudent and insolent entry into politics. They will possibly learn after awhile that the more active the liquor interests are in politics the more they will disgust the public and the more vigorous will be the protest from the voters. If they insist upon sowing the wind they must expect to reap the whirlwind. If they could by any possibility defeat county option they will simply hasten state prohibition—not because a majority as the people desire it, but because the people will not submit to the domination of the liquor interest.

SUDDEN DEATH OF A SWEET CHILD

In Far-Away Portland, Oregon and
The six days Sad Trip Home.

With Her Remains

Little Lemah C. daughter of Mr. and Mrs. Jno. L. Nunn died at their home in Portland, Oregon August 5th, aged four years, six months and 21 days having been born Jan. 15, 1906. She died of what the physician said was acute indigestion, having been sick but a few hours.

The remains were brought here for burial, leaving Portland, Monday Aug. 8th arriving here Saturday at 11 o'clock Aug. 13. The remains were conveyed to the home of Mr. and Mrs. W. O. Tucker where the funeral was preached at 5 o'clock by Rev. J. B. Adams, the interment taking place immediately afterwards at New Marion cemetery.

Little Lemah was a wonderful sweet child and the idol of her parents. Little the parents, happy in their love for their only child, thought when they left last fall for the far West that their home coming would prove so sad.

The great number of beautiful and costly floral gifts showed in what high esteem little Lemah and the family were held by the people of Marion.

Watch for our next weeks special sale advertisement.

THE RECORD-PRESS PRIZE CONTEST

Next Count Will be Made As Previously Advertised Saturday
August 27.

On account of being crowded for space we have been leaving out the contest vote as it would prove of little interest until next count Aug. 27th. But as many would like to compare that they may get some idea of the big count Saturday week when another Ten Dollars in Gold will be given, we republish it.

Now it is with you to say who will win the next Ten Dollars. The contest is on in earnest and we are going to do everything we promised.

Every body seems interested in their candidate and in many instances more than the candidate. For instance we received a money order the other day for six dollars for the vote to go to a young lady who has never shown any interest. Now this girl could easily get out and win the Ten Dollars in Gold or the second prize of ten thousand votes.

Remember on Saturday week the first prize for the lady making the greatest gain since last count will be Ten Dollars in Gold and the second prize will be a coupon for 10,000 votes.

Now as the Record-Press is given up to be a good paper, let every candidate get to work and see that no house is left that the faithful old paper does not visit for the next year.

Never have we seen such interest in a contest and for the short time it has run, never has there been so large vote cast.

The piano will arrive today Yandell-Gugenheim, Co., \$15 Ladies cloak, Mrs. Love \$15 Ladies Hat, W. O. Tucker Furniture Co., \$15 Dresser, J. L. Stewart, \$15 in Photographs, Morris & Travis, \$10 set of Rogers 1847, Silver knives and forks.

Haynes & Taylor do not give any present, but give a coupon of 25 votes for every one dollar spent with them.

Remember the ballot box is in the Marion Bank where you can deposit your votes if you do not want to send them to us.

For every club of five dollars we issue five thousand votes. Do not forget this.

		JAS. ALEX. HILL, Pres.
She professed faith in Christ when quiet young at Old Pleasant Hill church in Crittenden county Ky.		Ohio River Baptist Association
She first joined the Cumberland Presbyterian church. Her husband being a member of the Methodist church she joined the with him. She was truly religious, a saint after the old type. Sister Minner was of a quiet retired nature; and yet when under the blessings of the gospel of Christ she would shout praises of God. She was a good worker in the church especially in revival meetings. 6 or 7 years before her death She fell and was so disabled she never walked afterwards. she was also paralyzed and could talk but little. But amid it all, she was resigned. All was done that loving hands could do, but in vain. She was a kind neighbor, always ready to assist any one needing help. A devoted wife and a good mother. She served her generation well and leaves as a heritage to her children and many friends a beautiful Christian character and has her reward with the faithful in heaven. An Expert's Opinion of Skin Diseases.

A prominent, national expert on skin diseases whose name you are familiar with says that in all his scientific experience he has never found so hard a disease to conquer as Eczema. Yet he does not hesitate to recommend ZEMO as a most successful remedy for the treatment of Eczema, itching skin diseases, dandruff, pimples, blackheads and all other diseases of the skin and scalp. He says that not only do its curative qualities make it popular but also the fact that it is a clean, liquid remedy for external use. A great improvement over the old style greasy salves and lotions which are not only unpleasant to use but do not destroy the germ line that causes the disease. ZEMO draws the germs to the surface and destroys them, leaving the skin clear and healthy. Can be used freely on infants. Haynes & Taylor will gladly supply those who call with a free sample bottle of ZEMO and a booklet which explains in simple language all about skin diseases and how to cure yourself at home with ZEMO.

Farmers should eat more oatmeal.

Although the farmer of today is able to buy almost anything he wants to wear or to eat he isn't paying enough attention to food values when it comes to his own table.

If he has been watching the extensive researches and experiments on the question of the best human food for muscle and brain he will heed the advice from all sides to "eat more Quaker Oats."

Quaker Oats is mentioned because it is recognized in this country and Europe as the best of all oatmeals. Feeding farm hands on Quaker Oats means getting more work out of them than if you feed them on anything else.

For hot climates it is packed in hermetically sealed tins; regular size package 10c.

DO YOU WANT GOOD FLOUR

To the farmers of Caldwell and adjoining counties:

The Fredonia Mill has been shut down for sometime for repair but expect to start not later than Aug. 4 and will keep on hands at all times a full line of flour and meal. We are going to give the farmers for their wheat a pure straight grade flour. By this we don't mean a straight grade with 60 to 90 per cent. patent drawn out as some mills do but a pure straight flour with no patent taken out. Give us a trial and be convinced.

KENTUCKIANS NOW IN SWITZERLAND

Rev. T. M. Hurst And Party Are Having a Snowballing Time While we are Melting

Ten days ago I wrote you and since then we have been on the jump but to-night we are resting at Montreaux, Switzerland near the old prison of Chilon, after visiting the castle made famous by Lord Byron in his poem, The Prisoners of Chilon. Read this poem again and think of us standing by the stone pillar to which he Bonivard was chained. After doing Naples Rome, Pisa, Genoa and Milan. We stopped two days at Baweno, a quiet Italian village on Lake Maggiore where we had a delightful rest with steam boat rides that were enchanting. Yesterday morning we went by train to Domo d' Ossola where we changed and went to Isells and there we had a carriage waiting that took us on the 50 mile drive through the Simplon Pass, passing among "a thousand and one" interesting things the Eichora Glacier. A month ago we had gone through the Bavarian Highland in Automobiles and later we had coached through the Dolmoites and still later had made the wonderful Amalfi Drive and in each instance every one said, "the most sublime scenery I ever saw," but last night, after the Simplon Pass Drive we agreed that nothing can excel it for grandeur of scenery and sublimity of suggestion. If you would feel its inspiration you must make the drive. My description would be mockery. Last night we slept in Brique, a village at the Swiss and of the Simplon tunnel, and from there came on to Montreaux and a visit to Lake Gumwa Tomorrow we go by train to Zweisimmen and thence by the Overland Mountain Railway to Interlaken where we stop for two days including Sunday and then to Luzern in time to witness the celebration of the anniversary of the Swiss Republic. Something after the order of a full grown American "Fourth of July", but these folks act as if the day meant something to them while the American after he gets away from boyhood rarely seems to care any more for 4th of July than he does for the anniversary of the birth or death of Sitting Bull or captain Jack of Modoc fame. We Americans have the greatest county in the world but our patriotism does not glow on our national holidays with the warmth shown in the celebration by the Swiss people. Five years ago I saw my first patriotic demonstration in Switzerland and it left its impression. I wish I had time to speculate and philosophise on phases and conditions of life in different sections of Europe but really I cannot undertake such a thing. In these strenuous days I can hardly find time to write a happy go-lucky scrawl without even stopping to correct it. Yesterday in the Alps our party members were snow balling and all around us on the mountains today (July 28) we see snow deep enough to hide an elephant though down in the valley the wether is pleasant. But I simply write you that you may know where we are and must stop.

T. M. HURST.

DOES YOUR BACK ACHE?

If it does you should know that back-ache is generally caused by weak kidneys. A medicine called "Kidnets" has all its ingredients printed on the label so that everyone may know just what is in it. It is the great kidney and bladder medicine. It stops frequent urination. Druggists and dealers sell it for 50c.

FREEDOM ITEMS

We are needing rain in this community.

School is progressing nicely with Miss Maud Gill as teacher.

Several from here attended Campeeting at Piney Sunday.

Mrs. Allie Hughes and Mrs. Joseph Slaton was the guest of Mrs. Albert Mc Enen Sunday.

Miss Mertie Conger was the guest of Miss Nelly Butler Sunday night.

The big foot washing and all day services will be held here 3rd Sunday Aug., 21. Everybody invited to come and bring well filled basket.

Miss Kittie McEwen and little brother, Master Lenard visited their sister, near Glendale one day last week.

Mr. and Mrs. Vernon Hodge were visiting at R. W. Mc Enen Sunday.

Ellis Fritts never forgets to call at Andy Fords every Sunday.

Bill Gregory and Roy Fritts have returned from Rosiclare, Ill., to make Kentucky their future home.

Mrs. R. W. Mc Enen and daughter, Miss Kittie were in town Saturday shopping.

We have Sunday School over here in the good old-fashioned way. Come out, you are always welcome.

FORAGED PEOPLE

Old Folks Should be Careful in Their Selection of Regulative Medicine.

We have a safe, dependable and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitutions who suffer from constipation or other bowel disorders. LEE CRUCE NOMINATED FOR GOVERNOR

By More Than Thirty Thousand Majority By The Democrats Of State of Oklahoma.

That Lee Cruce, a former Crittenden county boy has been nominated by the Democrats of State of Oklahoma for Governor by an overwhelming majority comes to us as a proof that old Crittenden has turned out more men in high recognition by the nation than any of our sister counties or perhaps than any county in the State.

Lee cruce is a descendant of one of the best families of the county and that he has been so highly honored by the Democrats of the state in which not many years ago he cast his lot, is a fact every citizen of every party or fuction in the county is proud. The overwhelming majority given him, since the state is Democratic is a guarantee of his election and the honor it reflects upon the state and the grand old county of his birth is sfficient for all those who were his friends from his boyhood. We admire him for his manly principle, and convinced of the fact that he will make a Governor of the whole people bow our acknowledgement for the good judgement of the great party of Oklahoma for having made him their Standard bearer.

The Best Hour of Life

is when you do some great deed or discover some wonderful fact. This hour came to J. B. Pitt, of Rocky Mt., N. C. when he was suffering intensely, as he says, "from the worst cold I ever had, I then proved to my great satisfaction, what a wonderful Cold and Cough cure Dr. King's New Discovery is. For, after taking one bottle, I was entirely cured. You can't say anything too good of a medicine like that." Its the surest and best remedy for diseased lungs, Hemorrhages, LaGrippe, Asthma, Hay Fever Throat or Lung Trouble. 50c. \$1.00. Trial bottle free. Guaranteed by J. H. Orme Haynes & Taylor.

W. A. Rice of Pleasant Hill country brought a fine specimen of early rose potatoe to this office Friday, weighing 5 pounds and this potato was but one of several other large ones in the hill.

Marion was well represented at the Uniontown fair last week.

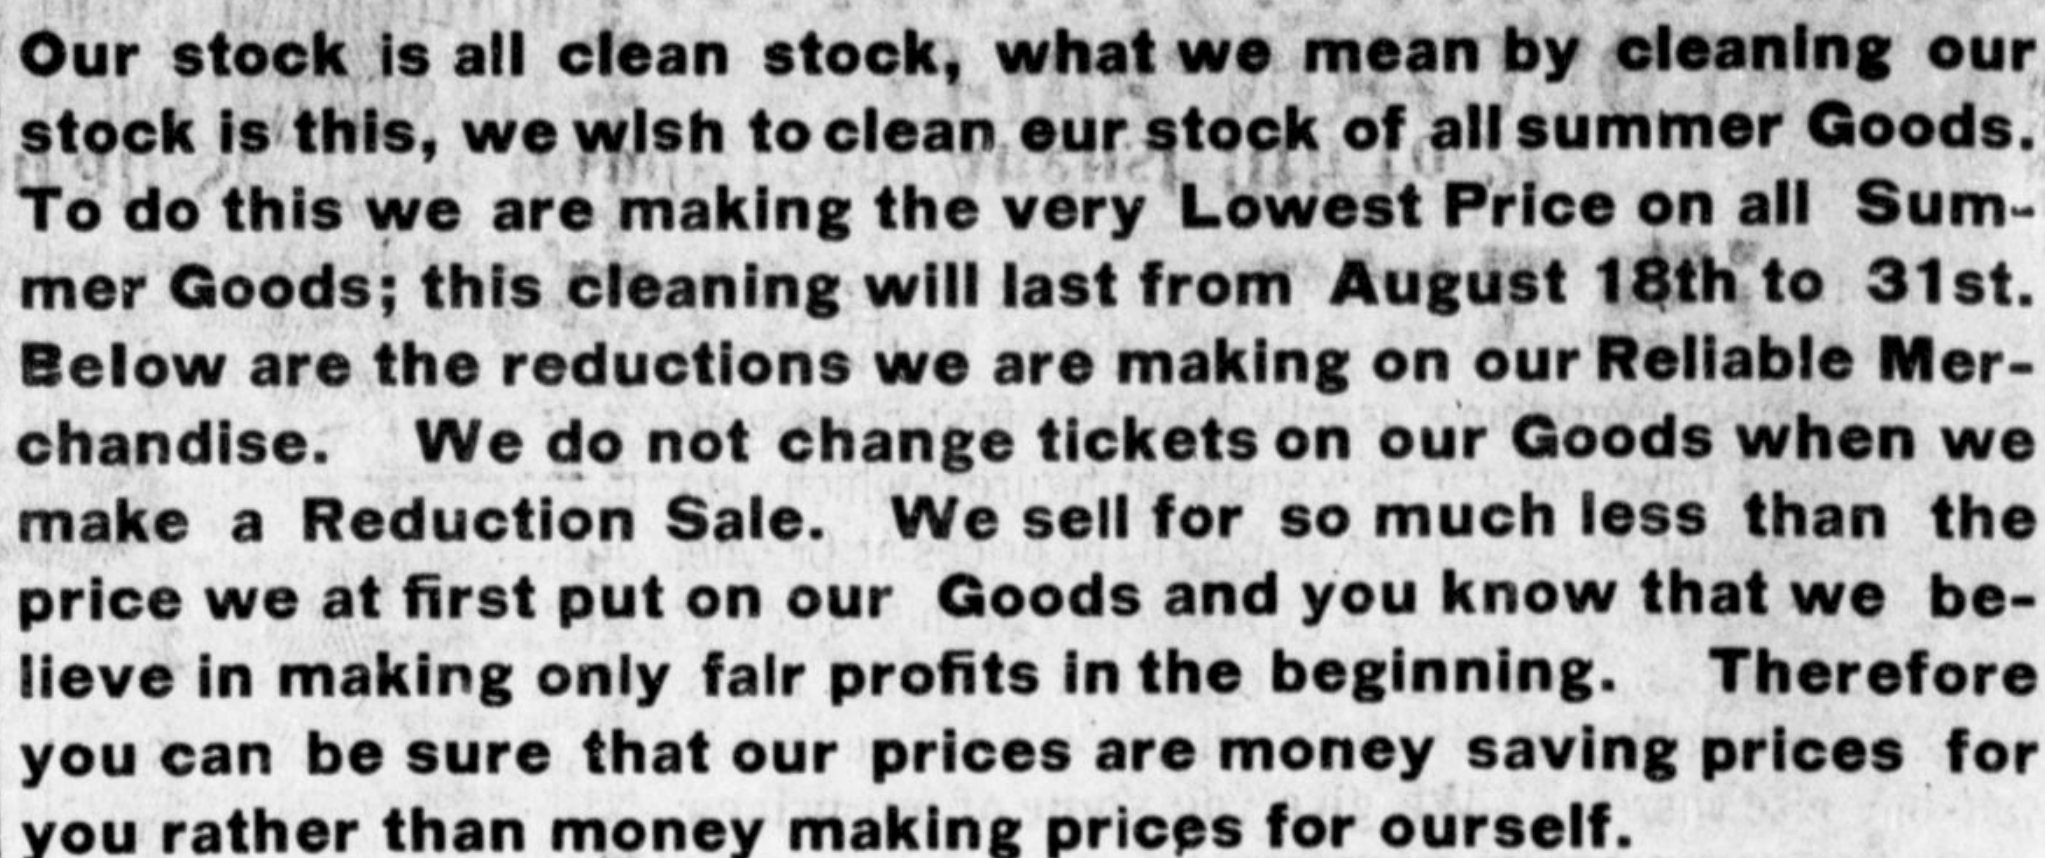

Mr. and Mrs. J. W. Woody of Ruston, La., are the guest of Mrs. L. W. Woody of near Repton. They will not return to their Southern home until September Mr. Woody gives glowing accounts of the progress of the beautiful Southland where he selected a life partner from the fairest of the beautiful women of Louisiana. What better can a mother ask than that her boy select a wife that she can be proud to have the world honor.

Bob Young, G. P. Robertson, Truman Drury and Berry Benson of Morganfield attended the great stock sale at the Dixon farm Thursday.

L. I Daughtery, a prominent farmer of Fords Ferry, was in Marion Friday enroute home from the Union County Fair.

Ten years was the term of apprenticeship thus served in preparation for the great work of her life.

In the spring of 1854 England declared war with Russia and an army of 25,000 men were transported to that country. The battle of Alma was fought Sept. 20, and the sick and wounded from the battle were sent down to the hospitals which were prepared for them on the banks of the Bosphorus. These hospitals were soon crowded with sick and wounded and the unhealthful conditions became apparent in a rate of mortality to which the casualties of the fiercest battle were as nothing.

In this crisis Miss Nightingale offered to go out and organize a nursing department at Scutari. Lord Herbert, who was head of the British war office, gladly accepted this generous offer and with in one week Miss Nightingale had started with her nurses.

She arrived at Constantinople the eve of the battle of Inkermann, the beginning of the terrible winter campaign, in time to receive the wounded from the second battle into the wards already filled with 2,300 patients. Her devotion to the sufferers can never be forgotten. She stood for twenty hours at a time in order to see them provided with accommodation and all the requisites for their comfort.
