WEEKLY TOBACCO TIDINGS

Eighty-five Per Cent in the Association. The Result is Known and the Suspense Over

The result is known, and the suspense is over. There is, of the 1910 tobacco crop in the five counties, of Henderson, Hopkins, Webster, Union and Crittenden, eighty-five per cent signed up to the Stemming District Association. This result was definitely ascertained by the District Board Tuesday night. All five members of the board came in Tuesday. Judge Aaron Towery, committee man from Crittenden, and W. H. Parker, committeeman from Hopkins, definitely reported results in their two counties, after which the tabulation was easy, since Secretary Thompson had at his pen's point so to put it, all the pooling figures for the counties of Henderson, Webster, and Union. With all the figures from all the counties before it on Tuesday night, the committee soon ascertained that while, measured up to the full eighty-five per cent, required, both Hopkins and Crittenden showed a deficit, nevertheless the excess of acreage pooled above 85 per cent, in the counties of Henderson, Union and Webster, more than supplied the required 85 per cent crop of the 1910 crop in the whole district.

And just here on behalf of the committeeman and members as well, from other counties, I wish to record a tribute to that gallant band of co-operative farmers in the counties of Hopkins and Crittenden, who against malign odds and adverse conditions, unknown in equal degree in the other three counties, persevered unremittingly to the limit of the time appointed, and finally compassed the pooling of a sufficiency of the 1910 crop to insure the life of the Association.

It requires, I think it will be admitted, more grit and fortitude to be a member of the Association in Crittenden and Hopkins counties than in the other counties of the district.

Moreover committeeman in Crittenden and Hopkins confronted with duties and responsibilities unknown to other committeemen, and to Judge Aaron Towery and W. H. Parker, committeemen respectively from Crittenden and Hopkins, is due the gratitude of all the co-operating farmers of the five counties.

How much tobacco is pooled? Twenty-four to thirty million of pounds.

That is a sufficiently definite answer for good members.

For the present that answer sufficeth for all.

A BEAUTIFUL WINDOW

Mr. J. F. Dodge is to be complimented for his wonderful taste in arranging the show window at Carnahan Bros. Besides being tastefully arranged with the many leading articles for sale it is trimmed to represent Autumn with full Autumn regalia. Mr. Dodge is receiving many compliments not only from Marion and Crittenden county people, but the traveling salesman as well.

A LETTER FROM

MR. D. C. ROBERTS

To the editor of the Record-Press, Dear Sir:-

It certainly was very nice of your musical editor (I believe he tries to sing at one of the Marion churches) to say such very nice things about the writer's connection with fluor-spar in the Kentucky district.

Naturally one feels grateful over such an eulogy even if he absolutely knows that the author is a 33rd degree member of the Ananias Club and is exercising his full rights under the Club's charter.

Marion must have changed very greatly during the past few weeks if one can base an opinion on the contents of a letter received the other day from a valued correspondent visiting in your more hospitable City. She writes:

"If this rain keeps on and it looks as though it would Marion will become a seaport."

Imagination fails one at the immensity of the thought "Marion a seaport," but why not? All it takes is plenty of salt water to give it tone.

Does any one of your readers know the name of the gentleman who cut down and hauled away a few black walnut trees that were growing on the reed land? If they will send this information to the Record-Press they will receive money enough to buy a box of cigars.

Speaking of the Reed land some enterprising prospector will find a great showing for zinc under capping of iron pyrites just back of one of the residences of John Reed's friends situated on the Princeton road.

Yours very truly,

D. C. ROBERTS.

NEWSPAPER AS A SALESMAN

The majority of retail store customers, before starting out on fall shopping for days study the newspaper advertising. This habit is a great time saver.

The shopper escapes fruitless visit to many stores, and needless bothering of clerks, by learning in advance where she is likely to find what she wants. She gives very little attention to inform her as their offerings.

Many women, too, having become personally acquainted with the store people, dislike to enter their places of business they feel fairly sure of buying. They avoid this embarrassment by learning in advance through the newspaper where they can probably supply their needs.

Thus it is that many sales are practically made before the buyer leaves her home. It has been proved over and over again that the trade will pass stores with a main street location that fail to advertise to hunt up poorly located shops on back streets that are well advertised. A merchant might as well close his shutters in business hours as fail to meet his competitors in the field where they are doing the heart of their business. The newspaper advertisement.

Buy a range with a reputation, and take advantage of our Free Offer during our Demonstration Week, Oct. 24 to 29. Come in and let us show you.

T. H. COCHRAN & Co.

Julius Fohs, first assistant State Geologist, located at Lexington was visiting his home and friends here several days last week.

RECORD-PRESS PIANO CONTEST

Closes Saturday October 29 at six O'clock P. M. Just Nine more Days to Work

The Record-Press Piano Contest will close next Saturday week at six o'clock p. m., after which the ballot box will be placed in the hands of the judges and the count made which will perhaps last but a couple of hours, as there is known to be but two active contestants for the grand prize, the others having all dropped back since the last count. Of course these other candidates will come in for the other five nice \$10.00 and \$15.00 prizes and it behoves them to get a move on themselves as they are all worth winning.

\$1.00 brings 500 votes
\$5.00 brings 5,000 votes
\$10.00 brings 15,000 votes
\$20.00 brings 40,000 votes
\$25.00 brings 60,000 votes

This means these votes will be allowed to any one turning in these amounts and be sent to as many yearly addresses as the number of dollars represent.

The time is short and a failure upon your part to work while there is time might lose your friend the piano or one of the other nice prizes.

Drop in our store during our Majestic Demonstration week, Oct. 24 to 29 and let us show you why the Great and Grand Majestic Range is the best on earth. A souvenir Set of Ware, worth \$8.00 given with every Majestic Range sold by T. H. Cochran & Co.

FOR AGED PEOPLE

Old Folks should be careful in Their Selection of Regulative Medicine

We have a safe, dependable and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitutions who suffer from constipation or other bowel disorders. We are so certain that it will relieve these complaints and give absolute satisfaction in every particular that we offer it with our personal guarantee that if it fails to substantiate our claims. This remedy is called Rexall Orderlies.

Rexall Orderlies have a soothing healing, strengthening, tonic and regulative action upon the bowels. They remove all irritation, dryness, soreness and weakness. They restore the bowels and associate organs to more vigorous and healthy activity. They are eaten like candy, may be taken at any time without any inconvenience, do not cause any griping, nausea, diarrhoea, excessive looseness, flatulence or other disagreeable effect. Price 25c, and 50c. Sold only at our store—The Rexall Store. Haynes & Taylor.

Come and see the great cooking wonder at our store all next week. You have a chance to get a Souvenir Set of Ware Free. See large advertisement in this paper. T. H. COCHRAN & Co.

Ladies Coats and Suits at attractive prices. Yandell-Gugenheim Co.

A WAY TO SAVE DOCTOR BILLS

Physicians Give Free Advice by Which Parents May Profit A Great Medicine

It was an association of gentlemen, professionally physicians and chemists, all of whom were born in the drug trade, so to speak, and who have been connected with it all their lives, who first gave to the world Castoria, which as every one knows is a pleasant and effective remedy for the ailments of infants and children. It has always been recognized as a meritorious preparation, and its reward has been the greatest popularity ever enjoyed by any remedy ever put upon the market; attained, not by flamboyant advertising or appeals to ignorance or vulgar prejudice, but by inherent merit. All physicians recommend it, and many very many, prescribe it.

Many parents call in the family physician. Many other parents take advantage of what the physician told them when he was first called in consultation. All good family physicians say: "Give the children Castoria." Healthy parents know this remedy of old, for they took it themselves as children. It was more than thirty years ago that Castoria made a place for itself in the household. It bore the signature of Charles H. Fletcher then, as it does to day. The signature is its guarantee, which is accepted in thousands of homes where there are children.

Much is printed nowadays about big families. Dr. William J. McCann, of Omaha, Neb., is the father of one of these much-read about families. Here is what he says:

"As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Charles H. Fletcher has received hundreds of letters from prominent physicians who have the same esteem for Castoria that Dr. McCann has. Not only do these physicians say they use Castoria in their own families, but they prescribe it for their patients. First of all it is a vegetable preparation which assimilates the food and regulates the stomach and bowels. After eating comes sleeping, and Castoria looks out for that too. It allays feverishness and prevents loss of sleep, and this absolutely without the use of opium, morphine or other baneful narcotic.

Medical Journals are reluctant to discuss proprietary medicines. Hall's Journal of Health however, says "Our duty is to expose danger and record the means for advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge Castoria is a remedy which produces composure and health by regulating the system, not by stupefying it, and our readers are entitled to the information."

It will more than pay you for the time to read our large advertisement in this paper T. H. Cochran & Co.

HOWDY AND GOOD-BYE

On Tuesday night of last week the Ladies Missionary Society of the Methodist church gave a reception at the church, for a twofold purpose: to bid and affectionate fare well to Bro. J. B. Adams for his faithful three years service as Pastor, and to welcome Rev. Mather as their new pastor.

The reception was well attended and expressed to the outgoing and incoming pastors, the appreciation in which, not only Methodist, but all Christian people of Marion, hold such well known and highly recognized Christian characters.

Among the many talks, that of Judge Allie Moore and Rev. M. E. Miller were the most touching. Bro. Miller and Bro. Adams worked hand in hand for a high standard of religion and they were as Johnathan and David. All denominations love Bro. Adams and while they are proud of the fact that he has been raised to the rank of Presiding Elder and too, in our own district, there were many eyes dimmed with tears at the thought that he was to leave us. But such is characteristic of the Methodist church and so with a hearty hand shake and a God bless you the large audience in which all churches of the town were represented, they said howdy and good bye to two of the most highly recognized and powerful ministers ever filling the Methodist pulpit here. The good Ladies of the Missionary Society deserve great credit for the success of this great and happy occasion.

Rev. Arthur Mather, preached his first sermon at the Methodist church Sunday and was greeted by the usual large crowd attending services at this church. At the night service after listening to the rendition of such splendid and soul inspiring music by the choir and orchestra, the latter consisting of piano, organ, flute, violin, clarinet and base horn, he could not refrain from a high compliment, just before announcing his text. He said such music was not enjoyed in the richest churches in Louisville or St. Louis where he had preached.

A SAD VISIT

While Mr. and Mrs. Geo. Enoch of Amorilla, Texas were here on a visit to Mrs. Enoch's parents Mr. and Mrs. Hill, their sweet little year old babe was stricken with pneumonia and on Friday night at eleven o'clock its little soul passed into Eternity. The funeral was conducted by Rev. A. J. Thomson of the Presbyterian church Sunday the interment taking place at Chapel Hill cemetery immediately after. Very sad it will prove to the parents to go back with out little Katherine, but such is God's will and all must bow to it.

TEACHERS ASSOCIATION PROGRAM

To be Held at Frances on Next Saturday, Oct. 22—An Interesting Time Expected

Devotional Exercises.
Address of Welcome—M. F. Pogue.

Response—T. F. Newcom.
Enrollment.

Plans for Betterment of the County—Lewis Mathews.

Discussion—Miss Maude Richards, Mary Finley.

Literature in the Grades Value to Teach, and How?—Miss Eliza Patmore, Lizzie Glenn.

The Value of Teaching Nature Study in the Country Schools—Marion Richards.

Teaching Children to Study—Lula B. Wheeler.

Discussion—J. R. Glass
The Materials I Use For Moral Lessons—J. C. Hardin.

Teaching Language In The First Three Grades—Mrs. Belva Childress.

Discussion—Miss Jennie Clement

NOON INTERMISSION

The Teacher From The Superintendent's Point of View.—E. Jeffrey Travis

How to Secure Better Attendance—John E. Franks, F. L. Wilson.

Practical Helps in Teaching History—Prof. Jas. U. Snyder.

Discussion—H. R. Matthews,
How I Know a Progressive Teacher—W. O. Wicker

Special Day Program—C. O. Tyner, T. F. Newcom,
School Furniture What we Need Most—M. F. Pogue.

Discussion—T. F. Newcom.
Shall we attend the First District Educational Association?—Chas. Quinn.

All teachers in the county are requested to be present. If you have no subject assigned you prepare on any you choose for general discussion.

M. F. POGUE, Pres.
LULA B. WHEELER, Sec.

SYNOD OF C. P. CHURCH

The Synod of the Cumberland Presbyterian church will meet in Marion on Tuesday, Oct. 25th.

Rev. J. L. Price the retiring Moderator will preach the opening sermon at seven thirty P. M.

That all delegates may be provided with homes, they are requested to notify me, that they may be provided for.

J. D. ASHER,
Chairman.

PECULIAR GORN

Uncle Jess Vaughn seems not to be satisfied with holding the record on cabbage, but now presents us with an ear of pop corn or rather a cluster of ears. There are five pretty well developed ears of corn on one shoot: that is they are practically all on ear.

NOTICE

To the tax payers of Crittenden County, who owe taxes for 1910. I need the money to meet my settlement with the State, and have to settle every thirty days. So please call and settle your taxes at once and save me time and trouble and you cost.

J. A. C. PICKENS, Sec.

The ladies Missionary society of the Cumberland Presbyterian church will observe W. B. M. day on next Sunday Oct. 22. Every body invited.

FRONTIER DAYS FETE WHERE ROOSEVELT WAS GUEST

PHOTOS BY COURTESY OF J. MILLER

COWGIRLS AT CHEYENNE

CONQUERING A BUCKING BRONCO

CHEYENNE, WYO.—The Frontier Days celebration, at which Colonel Roosevelt was the center of attraction continued for several days, and was the most elaborate and successful affair of the kind ever held here. Among the thousands of spectators were many tourists from distant parts of the country who were attracted by the fame of the celebration. Frontier days is a thoroughly American festival, the chief participants being cowboys and cowgirls, Indians and others representative of the pioneer life of the west. They all enter into the spirit of the occasion with the utmost enthusiasm, and the races, roping contests, riding of bucking broncos, war dances and other features are always exciting and full of interest. Among the Indians here were many well known chiefs, accompanied by their squaws and children.

Colonel Roosevelt's visit had been looked forward to with glee by those people of the frontier, for they consider him one of themselves, and many of them are personally acquainted with him, while all of them admire him.

fairly good in the Pyrenees-Orientales, mediocre in the Herault and the Gard, and insignificant in the Aude. The maritime climate of Bordeaux has not protected the district. Vine diseases have raged there, and only half an average vintage is expected."

BIG SOCKEYE SALMON PACK
Yield From Puget Sound and Fraser River Will Total Two Hundred Thousand Cases.

Seattle, Wash.—The sockeye salmon pack on Puget sound this year to date aggregate approximately 190,000 cases. Packers say the pack is practically complete, although they point out that when all the fish are in the season's count will likely touch 200,000 cases. This is the largest sockeye salmon pack on a "lean" year since 1902.

Reports received from Vancouver the other day were to the effect that the pack of sockeyes on the Fraser river has been practically the same as on Puget sound, and that packers there expect to have 200,000 cases of fish when everything is counted.

Packers say that the entire season's pack of sockeye salmon has already been sold, subject to approval of opening prices. The largest pack of sockeyes on a "lean" year since 1902, when 339,556 cases were packed on the sound, was in 1906, when the pack aggregated 182,241 cases.

SMALL GRAPE CROP IS FEAR

Wet Summer is Cause of Great Devastation in French Vineyards—Prices Raised.

Paris.—These are critical days for the French vintage. The wet summer has caused devastation in the vineyards amounting to a national disaster. In the Paris wineshops and in certain restaurants prices are being raised. All, however, is not yet lost, and a few days of bright weather would modify the situation favorably.

M. Georges Proust, a former president of the Paris wholesale wine merchants' syndicate, makes the following observations:

"Lamentable news comes from Burgundy. There will not be a barrel of wine in the Yonne; notably, there will be no such thing as 1910 Chablis. In Touraine the white vines alone will yield a small harvest."

"In the south the vintage will be

TRIES TO ADOPT BABY WHALE

Captain Imitates Mother by Attempting to Feed Floating Youngster Milk from Oil Can.

San Francisco.—A little baby whale, only sixteen feet long and of a pale pink complexion, was the cause of much solicitude and sorrow on the part of the captain of the pilot-boat Lady Mine.

At first Captain Pentland, on spying the queer object floating on the waters off Meigs wharf, thought it was a boat turned turtle. On nearing the object, however, he discovered it to be a forlorn orphan whale and his soft heart was moved to compassion. He resolved to mother it, but how? That was a new experience in his salty life, and he was stumped. Suddenly he bethought him of a quantity of milk in his messroom. The captain rushed below as one inspired. There was the milk, but where was the whale bottle? In vain he searched for an appropriate vessel. Then his eyes lit on an oil can.

This he seized, filled with milk and hurried aboard. He was doomed to grievous disappointment. The wail of the ocean had disappeared. The captain clapped loud and long, imitating the mother whale's endearing spout, which he had learned as a child on the great arctic circle, but all in vain.

The whallette had gone to the depths. With tears in his eyes, sobs in his throat and the milk in the can, Captain Pentland was obliged to pilot the Lady Mine on her way.

SAYS WE ARE TOO IMPATIENT

Archbishop of Canterbury Preaches on "Short Cut" Solutions of Every Day Problems.

London.—The archbishop of Canterbury, preaching in Lambeth church, said that though the world is better than it was, the present day faults were great. Impatience and hurry were what he thought we suffered from every day in every department of life. People were striving for what, in common talk, were called "short cuts" toward solutions they wanted to reach. Anxious problems were being faced in a spirit which was surely a new spirit and a dangerous one—a spirit of impatience.

It was wholesome, he declared, to be hotly intolerant of wrong, but intolerance or impatience of wrong would not usually solve great perplexities. By itself patience had the foremost place in any sustained effort to mend these things. Today's temptation was speed rather than thoroughness.

His Peculiar Predicament

By STACY E. BAKER

Copyright, 1910, by Associated Literary Press

"Lukes-a-a-ale!" shouted the conductor.

The fussy, little old gentleman with the numerous packages, and the tall, broadshouldered youth occupying the seat in front of him, hastily seized their belongings and bolted for the door. Lukesdale is a small stop.

Hardly were the two safe on the rough boards bounding the station before the older man's parcels began to slip and slide in an awkward way, and, but for the hasty assistance of the other, the majority of them would have fallen.

"Thank you," wheezed the suburbanite. "You are a stranger here about, are you not?"

"This is my first trip to Lukesdale," smiled the young man. He reached for his card case, then realizing that it would be a physical impossibility for the old gentleman to accept it and retain possession of his purchases, he said:

"My name is Hampton. I have an aunt living here whom I shall visit. Can you direct me to the residence of Miss Cornelia Wade?"

The other eyed his companion curiously. A half smile flashed on his lips.

"I go right by the house," he answered. "My name is Warren. Pleased to make your acquaintance, Hampton. I hope we shall know each other better before you leave town."

It was now about nine o'clock in the evening and beginning to get dark. Hampton was thankful for the company of the other, and having nothing but his own light suit case to carry, attempted to relieve his guide of some of his load.

To this the old man strenuously objected. "I'm used to it," he protested. "Do this stunt almost every night."

Thereafter he was strangely reticent, breaking out into an occasional chuckle, but essaying few words.

"A Most Eccentric Old Chap," Thought the Youth.

"A most eccentric old chap," thought the youth, but after one or two attempts to start a conversation he humored the old man's mood.

The streets of Lukesdale were a credit to the town, and this helped a great deal, because the lights were conspicuously inadequate. The little burg seemed to have been laid out all on one street.

At last the two drew near a large domicile, aristocratic in appearance, and towering majestically above its neighbors.

"Your destination," said Warren, pointing.

It was now dark. The windows of the house were ablaze.

Up the broad path leading to the spacious veranda the two strode. A burst of girlish laughter came suddenly out to them, and Warren again chuckled.

"I had understood that my aunt lives alone," remarked Hampton, uneasily.

"Then she must have company," suggested the old gentleman dryly. "That certainly isn't her voice."

A mind picture of his glum relative, sharp featured, suspicious eyed, flashed for an instant before the mind's eye of Hampton. Warren was right. Miss Wade must be entertaining.

Warren surprised the youth by stepping up to the door, and in a perfectly at home manner, flinging it wide open.

"Enter," he wheezed, dramatically, and as Hampton, dazzled by the light, obeyed the voice of the old gentleman followed him across the threshold. "This is Mr. Hampton of New York, come to visit his aunt, Miss Cornelia Wade."

The door slammed shut, and the sound of hasty feet descending the steps on the other side caused Hampton to turn in surprise. He was alone. His guide had gone.

The blindness now partially left the youth. He turned to confront two young girls, evidently sisters, and a smiling elderly woman.

"Uncle Oscar is so eccentric," said one of the girls, advancing toward Hampton, and relieving him of his suit case. His eyes caught the ruddy gleam of her hair, the cloud-blue of

her eyes. A spot of red dotted, for a passing second, the white of her cheeks.

"I am Virginia," said the girl simply. "Let me introduce my mother and my sister, Louise."

The two women came forward. Louise was a young maid in looks and actions the double of the fair Virginia. She had the same graceful carriage; the same rich voice.

"Oscar is a tease," contributed the matron. "One—especially a stranger—never knows how to take him." Her laughing eyes peered out at Hampton and a roguish twinkle told of a kindred love for humor.

"But," ventured Hampton, ill at ease, "I am sure there has been a mistake. I—"

"Oh, we all understand," laughed Virginia. "We all know Uncle Oscar."

"But—"

"Positively no explanations. They are not needed."

"I only wish you understood," half whispered Hampton, gazing wistfully at the girl. She had made a great impression on the youth from the city. With a social footing in New York second to none, and an income that had allowed him to travel extensively, he had imagined that the gentler sex had palled upon him. Hence this early-spring fitting to Lukesdale. He was cloyed with society—and women.

This girl was a revelation. Confident of poise, cool, wholly at ease, under what must be to her, to say the least, singular circumstances, she was, withal, prettily natural and simple.

"Probably Mr. Hampton wishes to bathe his hands after his long ride on that hateful accommodation."

It was the elderly woman who spoke. "Show him to his room, Virginia. He can join us at his convenience."

With a resigned sigh, Hampton followed the maid. Some one had been expected by these good people. In a short time the proper guest would arrive, and then—well, Hampton, impostor, would be kicked out. This would end his acquaintance with this rare maid.

Timidly, Hampton again entered the parlor.

A wheezy voice greeted him. "How d'ye do, Hampton? Feeling refreshed?"

The young New Yorker glared at the returned joker. Uncle Oscar shifted about uneasily under the prolonged and eloquent stare.

"Um-m-m," ventured Uncle Oscar. "I guess I'll have to speak with Hampton alone for a moment."

Unceremoniously he dragged the youth into the library.

"It's all right," he interrupted, rising a pudgy hand to the young man's wrathful vociferations. "It's all right, Hampton. Don't get excited. I met your aunt on my trip to the city—personally acquainted with her, you know. She was called away suddenly to the bedside of a sick friend, and she asked me to find you and bring you here to my sister's home, where she had made arrangements for you to stay until her return. Satisfied?"

"Surely," beamed the youth. "More than satisfied. I like—"

"Yes, I see you do," said the old man. "Virginia likes you, too. See how she flushed when you came back—eh? Well, good luck to you, Hampton. As for me, I'm going home." The old man disappeared down the hall leading to the street door. Hampton hurried back to the parlor.

Illegible Signatures.

Occasionally you may receive a letter from the man whose signature at the bottom of the letter couldn't have been read by himself if someone else had put it over on him.

He dashes in at the upper left hand corner of the signature place as if he were a scroll designing artist, romps across it, comes back near the point of beginning, and with a swirl or two completes the second initial, after which he buzzsaws his name in full and more, winding up with a pen slash that would scar a man's face worse than five batpins 18 inches long.

And when you write to him he's sore and embarrassed if you haven't written his initials and name rightly in the address.

There are just two recourses that you may have in trying to decipher the name in full. His letterhead paper may contain his name if he's at all important in the organization—providing, of course, that you have enough hunch in the signature to trace it in print.

That other recourse as to the initial letters of Christian and surnames may be found in a possible stenographer's addendum, "BPG—K." This means that the stenographer "K" has taken the dictated letter from "BPG," who has written to you.

The man who told me I know nothing about religion, because I know nothing about Greek, knew nothing about me because he knew nothing about Dutch.

Usually a Low Character. "And what is the object of the boodle investigation?"

"We are trying to dig down to the man higher up."

FRONTIER DAYS FETE WHERE ROOSEVELT WAS GUEST

PHOTOS BY COURTESY OF J. MILLER

COWGIRLS AT CHEYENNE

CONQUERING A BUCKING BRONCHO

CHEYENNE, WYO.—The Frontier Days celebration, at which Colonel Roosevelt was the center of attraction continued for several days, and was the most elaborate and successful affair of the kind ever held here. Among the thousands of spectators were many tourists from distant parts of the country who were attracted by the fame of the celebration. Frontier days is a thoroughly American festival, the chief participants being cowboys and cowgirls, Indians and others representative of the pioneer life of the west. They all enter into the spirit of the occasion with the utmost enthusiasm, and the races, roping contests, riding of bucking bronchos, war dances and other features are always exciting and full of interest. Among the Indians here were many well known chiefs, accompanied by their squaws and children.

Colonel Roosevelt's visit had been looked forward to with glee by those people of the frontier, for they consider him one of themselves, and many of them are personally acquainted with him, while all of them admire him.

fairly good in the Pyrenees-Orientales, mediocre in the Herault and the Gard, and insignificant in the Aude. The maritime climate of Bordeaux has not protected the district. Vine diseases have raged there, and only half an average vintage is expected."

BIG SOCKEYE SALMON PACK

Yield From Puget Sound and Fraser River Will Total Two Hundred Thousand Cases.

Seattle, Wash.—The sockeye salmon pack on Puget sound this year to date aggregate approximately 190,000 cases. Packers say the pack is practically complete, although they point out that when all the fish are in the season's count will likely touch 200,000 cases. This is the largest sockeye salmon pack on a "lean" year since 1902.

Reports received from Vancouver the other day were to the effect that the pack of sockeyes on the Fraser river has been practically the same as on Puget sound, and that packers there expect to have 200,000 cases of fish when everything is counted.

Packers say that the entire season's pack of sockeye salmon has already been sold, subject to approval of opening prices. The largest pack of sockeyes on a "lean" year since 1902, when 339,556 cases were packed on the sound, was in 1906, when the pack aggregated 182,241 cases.

tury armor in the various museums. You will find it impossible."

Anxiety was expressed by exhibitors about the garment workers' strike. Pessimistic ones said that if the strike was not settled soon Mrs. Knickerbocker would have to look to Philadelphia, St. Louis and Chicago for her new fall suits.

"NO FRILLS"

Just Sensible Food Cured Him.

Sometimes a good, healthy commercial traveler suffers from poorly selected food and is lucky if he learns that Grape-Nuts food will put him right.

A Cincinnati traveler says: "About a year ago my stomach got in a bad way. I had a headache most of the time and suffered misery. For several months I ran down until I lost about 10 pounds in weight and finally had to give up a good position and go home. Any food that I might use seemed to nauseate me.

"My wife, hardly knowing what to do, one day brought home a package of Grape-Nuts food and coaxed me to try it. I told her it was no use but finally to humor her I tried a little, and they just struck my taste. It was the first food I had eaten in nearly a year that did not cause any suffering.

"Well, to make a long story short, I began to improve and stuck to Grape-Nuts. I went up from 135 pounds in December to 194 pounds the following October.

"My brain is clear, blood all right and appetite too much for any man's pocketbook. In fact, I am thoroughly made over, and owe it all to Grape-Nuts. I talk so much about what Grape-Nuts will do that some of the men on the road have nicknamed me 'Grape-Nuts,' but I stand today a healthy, rosy-cheeked man—a pretty good example of what the right kind of food will do.

"You can publish this if you want to. It is a true statement without any frills."

Read the little book, "The Road to Wellville," in pgs. "There's a Reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

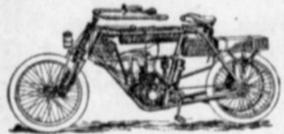

MOTORCYCLE IS HOME-MADE

Frame of Machine Shown in Illustration is Made From Gas Pipe and Pipe Fittings.

The frame of this motorcycle is double throughout and made from three-quarter and one inch gas pipe and pipe fittings. A piece of round iron was inserted in the pipes at each bend to make sure of a rigid frame. No threads were cut on the pipe and the tees used for the cross ties were reamed out, slipped over the pipes and fastened with a pin, writes J. O. Turner in Popular Mechanics.

The construction of the forks make them very strong and springs were attached as shown. The wheels and engine were taken from an old and

Home-Made Motorcycle.

very light runabout. The belt wheel attached to the rear wheel is made from band iron and attached with lugs to the rim. This belt wheel is peened with a hammer in the center to make the crown. A double two-inch flat leather belt is used to drive the machine. The rear wheel is fitted with a hatchet sprocket, so the engine may be started by peddling. The complete motorcycle weighs 310 pounds, has a 70-inch wheel base, 26-inch wheels and a four-horsepower engine.

CLEVER TRICK VERY AMUSING

Produces Great Deal of Merriment and Needs No Apparatus—Looks Like Jumping Jack.

This is a genuine bit of fun that demands no apparatus, and every one can do it. Place yourself by the side of a mirrored wardrobe, as in the illustration, in such a way that half your body is concealed, the other half projecting from the wardrobe. As for the person standing on the other side, at a certain distance it will appear to them that they behold you entirely, the illusion being caused by one-half being reflected, says Magical Experiments.

A Good Trick.

When you lift your leg, the appearance given by means of the mirror is that of a person who lifts both feet from the ground at once and holds them in the air—a rather startling apparition. You will look like a toy jumping jack which is operated by a string, and the more you move your leg and arm the funnier you will look.

IT IS YOU?

There is a child, a boy or girl—I'm sorry it is true—Who doesn't mind when spoken to: Is it you? It can't be you!

I know a child, a boy or girl—I'm loth to say I do—Who struck a little playmate child: I hope that wasn't you!

I know a child, a boy or girl—I hope that such are few—Who told a lie, yes, told a lie: It cannot be 'twas you!

There is a boy, I know a boy—I cannot love him through—Who robs the little bird's nest: That bad boy can't be you!

A girl there is, a girl I know, And I could love her, too; But that she is so proud and vain: That surely isn't you!

Squelching a Young Officer.

Some years ago Queen Maud of Norway was staying with the late Queen Victoria at Osborne, and went to a bazar at Shanklin, where she was assisting at one of the stalls. Presently a young military officer walked up to the stall and making some small purchase tried hard to get into conversation with her royal highness. His efforts failed, but he made one last effort: "I am sure I know you," he said, "do your people live about here?" "No, I am staying with my grandmother," was the princess' reply. "Oh, I daresay I know her, then," I know most of the people about here," said the officer, rather patronizingly. "What's her name, by the way, I will look her up?" "Queen Victoria," was the reply.

THE WATERMELON

We'll eat our watermelons (What is there on earth better?) In the shadow of the house During this hot weather.

Select a big dark green one, And cut it full lengthwise; Hear it pop, so red and ripe! Cut the slices full-length size!

See the black seeds shining, As in juicy red they're framed, If anything is better I have never heard it named.

BEAR THAT LIKES PUDDINGS

Young Canadian Black Cub in New York Zoological Gardens Becoming Very Haughty.

In the New York Zoological Gardens there is a young Canadian black bear that has become very haughty of late. Part of his biography has just been published. It appears that when the bear was a cub he was a farm pet, was as domesticated as a dog and wandered unthethered about the yard and all over the farm. The sort of life he led and some of the stunts he did are entertainingly written in "The Frolics of My Black Bear Cub," by Mrs. E. H. Baynes in the March St. Nicholas. The article is illustrated by photographs which show also a tame prairie wolf and a deer, playfellows and domesticated companions of the cub Jimmie. We quote one of the "frolics":

Jimmy's favorite chum and playfellow was Romulus, a young prairie wolf. The fact that they were such good friends was due largely to Jimmy's good nature, for certainly Romulus teased him in every possible way. Even in the matter of food, Jimmy was disposed to be generous, and he seldom resented the attempts of Romulus, or of Actaeon, the deer, to take from him his bread and apples. There was, however, one particular kind of food which he insisted on having his full share of, and that was plum pudding. He would eat it at any time of the day or night, whether he was hungry or not, and if there was any limit to the amount he would eat, no one ever discovered it. No matter how much was given to him he never seemed to consider the quantity sufficient to warrant his sharing it with his playfellows, and if either of these attempted to force him to divide with him the result was a fight. Not that Jimmy was really vicious, but he gave his companions to understand that on the subject of plum pudding his opinion was law. One day, after romping in the snow all the morning, Jimmy presented himself at the kitchen window, and several slices of bread were passed out to him. The cub took them in his mouth, let them fall to the ground and continued to peer into the room.

IRISH TONGUE CRUSHED OUT

Curious Story of How "Tally-Stick" Was Used Decades Ago to Kill Gaelic Language.

The curious story of how the "tally-stick" crushed out the remains of the ancient Irish language among Irish children some decades ago was told the other day by T. P. O'Connor, the Irish political leader.

"When the English were determined to make Ireland over into a sort of England," said Mr. O'Connor, "they used some most unusual means. Among these was the 'tally-stick.' This was a small stick of wood which each child was forced to wear on a cord about his neck. Every time his parents heard him say a word of Irish they were supposed to cut a notch in the stick, just as the American trappers of the old days are said to have notched the stocks of their guns every time they killed an Indian. Then when the child got to school the next day the master counted the notches. And for each notch the child was given one blow with a switch—one notch, one blow; two notches, two blows; six notches, six blows. Thus the Irish language was beaten out of the mouths of the Irish children.

"In school the little ones were taught to look on themselves not as Irish children, but as English. They were not taught any Irish history, and the fires of patriotism in them were damped in every way.

"But of late years there has come up a great national movement in Ireland which has restored the ancient Irish or Gaelic tongue, and has made the people proud of their ancient literature. It has reawakened the pride of the Irish nation. A university has just been founded in which the Irish language is now being taught by six or eight professors."

Look Out!

The habit of puckering up the lips is said to be fatal to the contour of a beautiful mouth, for the lips are so flexible that after awhile the puckering habit becomes second nature to them and they stay puckered.

WOMEN OF MIDDLE AGE

Need Lydia E. Pinkham's Vegetable Compound

Brookfield, Mo.—"Two years ago I was unable to do any kind of work and only weighed 118 pounds. My trouble dates back to the time that women may expect nature to bring on them the Change of Life. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it made me feel much better, and I have continued its use. I am very grateful to you for the good health I am now enjoying."—Mrs. SARAH LOUISONOX, 414 S. Livingston Street, Brookfield, Mo.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Globular Lightning.

Yesterday the inhabitants of Lewis-ham were provided with a specimen of that curious phenomenon known as "globular lightning." It is what is commonly called the "fire ball," and as it persists for several seconds it is obviously of a totally different character from any other form of lightning. It is much less brilliant than ordinary lightning, and its brightness appears to be that of iron at the "red hot" stage.

It is not, as some accounts might lead one to infer, a solid missile, but it is always spherical and appears to fall from a thunder cloud by its own gravity, sometimes rebounding after striking the ground.—London Globe.

HOW A DOCTOR CURED SCALP DISEASE

"When I was ten or twelve years old I had a scalp disease, something like scald head, though it wasn't that. I suffered for several months, and most of my hair came out. Finally they had a doctor to see me and he recommended the Cuticura Remedies. They cured me in a few weeks. I have used the Cuticura Remedies, also, for a breaking out on my hands and was benefited a great deal. I haven't had any more trouble with the scalp disease. Miss Jessie F. Buchanan, R. F. D. 3, Hamilton, Ga., Jan. 7, 1909."

Kept with Barnum's Circus. P. T. Barnum, the famous circus man, once wrote: "I have had the Cuticura Remedies among the contents of my medicine chest with my shows for the last three seasons, and can cheerfully certify that they were very effective in every case which called for their use."

When the Fish Exploded.

Somebody discovered that fish are fond of gasoline, and this led to the idea of soaking worms in gasoline in order to make them more alluring when used for bait.

Two of those gasoline-tempted fish exploded in the frying-pan, and broke the kitchen window, and blew the cook's face full of mashed potato, and hurled the teakettle into the flour barrel, and painted the kitchen ceiling with stewed tomatoes.

Call it a lying world and let it go at that.

Scandal.

Mrs. Simmonds glanced at the scare headline: "Bank Robbed! Police at Sea!" and laid down the sheet. "Naow, look at that, Es!" she ejaculated, repeating the headline aloud. "Here's a big city bank broke into by burglars, and 'th' city police force all off fishin' somewhere! What a scandal!"—Judge.

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM Take the Old Standard GUY'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malarial and the Iron builds up the system. Sold by all dealers for 25 cents. Price 50 cents.

The secrets the average woman can keep are those of her toilet.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. See a bottle.

The man whose bluff is not sometimes called never existed.

FISHING TIME IN THE PASIG

Swimming in Myriads Near Surface They Are Snared and Speared by Filipinos.

Friday morning Filipinos snaring eels and other fish in the Pasig near the old captain of the port building by the aid of fish snares caught the largest eel ever seen on the water front. It was fully ten feet in length.

Both banks of the Pasig and all the ships and lighters moored in the stream were thronged with hundreds of Filipinos with snares and spears trying to catch the fish that in myriads were swimming near the surface of the stream.

Natives when asked in regard to the phenomenon were almost unanimously in their statement to the effect that at this time of the year the bottom of the river gets hot and that the fish have to leave the depths of the stream and flash back and forth on or near the surface.

Another theory that seemed to have a great many adherents was to the effect that at this time every year there was a change in the character of the water, this change acting on the fish as a stimulant.

This theory was advanced by an old pilot who has witnessed the phenomenon for many years.—Manila Times.

WHERE HE SAVED MONEY.

"You say it costs less to run this automobile than that trotting horse you owned?"

"Yes; I used to bet on the trotting horse."

A Liking for "Hamlet."

"Do you like Hamlet?" asked the hostess of her unlettered, if gushing, guest.

"Indeed I do," was the reply. "I am excessively fond of it, but I always prefer a savory to a sweet one."

There was a momentary confusion, and then the hostess realized that the admiration of the guest was of a culinary, not literary, character.

"I gave her ham with an omelette for breakfast next morning," said the hostess, when telling the story.—Scraps.

Active Possession.

Guinevere, aged four, was going out to walk with a young lady, of whom she was very fond. As they opened the street door they were met by a swirling cloud of dust, blown up from the thoroughfare.

"Keep your lips tightly closed, Gwen, or you'll get your lungs full of microbes," warned the young lady.

Guinevere pondered a moment and then, looking up, demanded: "What are your crobes?"—National Monthly.

If You Are a Trifle Sensitive About the size of your shoes, many people wear smaller sizes by using Allen's Foot-Ease, the Antiseptic Powder to shake into the shoes. It cures Tired, Swollen, Aching Feet and gives rest and comfort. Just the thing for breaking in new shoes. Sold everywhere. See Sample sent FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

Even the Children.

Ex-Governor Pennypacker, condemning in his witty way the American divorce evil, told, at a Philadelphia luncheon, an appropriate story.

"Even our children," he said, "are becoming infected. A Kensington school teacher, examining a little girl in grammar, said:

"What is the future of 'I love'?"

"A divorce," the child answered promptly."

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it Bears the Signature of *Chas. H. Fletcher* In Use For Over 30 Years. The Kind You Have Always Bought.

Then It Happened.

"What made you think he would propose to me?"

"Why, when I refused him he said he didn't care what became of him; but perhaps he wasn't serious."—Houston Post.

Depend not on another, rather lean upon yourself; trust to thine own exertions, subjection to another's will gives pain.—Manu.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

The busy man wonders how the loafer manages to live.

A MARVELOUS RECOVERY.

How a Chronic Invalid Regained Perfect Health.

Mrs. Ray Trusner, 30 West Third St., New Albany, Ind., says: "Kidney disease had rendered me a chronic invalid. I lay in bed unable to move hand or foot. My right limb was swollen to twice normal size. I looked the picture of death and my case puzzled the doctors.

The kidney secretions were highly colored and scalded terribly. Marked improvement followed the use of Doan's Kidney Pills. In six weeks I was a well woman. My friends and relatives marvel at my recovery."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Talking to the Child.

"Mrs. X— talks to little Madge just as Mr. X— talks to their dog," said a little girl of a neighboring family. And it was indeed true. Mrs. X— is a very well-meaning woman and would be greatly surprised if she should hear the foregoing statement. She has simply unconsciously acquired a harsh tone of voice in dealing with her children. This is altogether unnecessary and is not, as many mothers seem to think, a mark of good discipline. The mother whose manner is quiet but firm is generally a much more successful disciplinarian than the harsh-voiced mother who issues her commands in a dictatorial manner. Kindness never spoils children. It is flabby indecision, sometimes mistaken for kindness, which spoils them.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.

Something Dreadful.

Wee Anita was listening to a story of the Johnstown flood. "What made it?" she asked. "Oh, the dam broke," replied grandma.

The next morning she ran into her brother's room and, climbing up on the bed, inquired anxiously: "Buvver, wasn't it just dreadful 'bout that swear breaking and killing all those people?"

Source of Revelation.

Twenty-seven new, crisp, \$1 bills, says Harper's Weekly, weigh as much as a \$20 gold piece. Wouldn't have thought it, and have no means of proving the assertion, but if so it is probably owing in some way to the recent activity of the inspectors of weights and measures.

Mere Men.

He—I dreamt last night that your mother was ill. She—Brute! I heard you laugh in your sleep.—Life.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cares the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this *new-er* remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

WINTERSMITH'S CHILL TONIC

Oldest and Best Tonic; for Malaria and Debility.

A splendid general tonic; 40 years' success. Contains no arsenic or other poisons. Unlike quinine, it leaves no bad effects. Take no substitute. FREE—book of puzzles sent to any address. ARTHUR PETER & CO., Gen'l Agents, LOUISVILLE, KY.

MOTORCYCLE IS HOME-MADE
Frame of Machine Shown in Illustration is Made From Gas Pipe and Pipe Fittings.

The frame of this motorcycle is double throughout and made from three-quarter and one inch gas pipe and pipe fittings. A piece of round iron was inserted in the pipes at each bend to make sure of a rigid frame. No threads were cut on the pipe and the tees used for the cross ties were reamed out, slipped over the pipes and fastened with a pin, writes J. O. Turner in Popular Mechanics.

The construction of the forks make them very strong and springs were attached as shown. The wheels and engine were taken from an old and

Home-Made Motorcycle.

very light runabout. The belt wheel attached to the rear wheel is made from band iron and attached with lugs to the rim. This belt wheel is opened with a hammer in the center to make the crown. A double-ty two-inch flat leather belt is used to drive the machine. The rear wheel is fitted with a hatched sprocket, so the engine may be started by peddling. The complete motorcycle weighs 310 pounds, has a 70-inch wheel base, 26-inch wheels and a four-horsepower engine.

CLEVER TRICK VERY AMUSING

Produces Great Deal of Merriment and Needs No Apparatus—Looks Like Jumping Jack.

This is a genuine bit of fun that demands no apparatus, and every one can do it. Place yourself by the side of a mirrored wardrobe, as in the illustration, in such a way that half your body is concealed, the other half projecting from the wardrobe. As for the person standing on the other side, at a certain distance it will appear to them that they behold you entirely, the illusion being caused by one-half being reflected, says Magical Experiments.

A Good Trick.

When you lift your leg, the appearance given by means of the mirror is that of a person who lifts both feet from the ground at once and holds them in the air—a rather startling apparition. You will look like a toy jumping jack which is operated by a string, and the more you move your leg and arm the funnier you will look.

IT IS YOU?

There is a child, a boy or girl—
I'm sorry it is true—
Who doesn't mind when spoken to;
Is it you? It can't be you!

I know a child, a boy or girl—
I'm loth to say I do—
Who struck a little playmate child;
I hope that wasn't you!

I know a child, a boy or girl—
I hope that such are few—
Who told a lie; yes, told a lie;
It cannot be 'twas you!

There is a boy, I know a boy—
I cannot love him through—
Who robs the little birdie's nest;
That bad boy can't be you!

A girl there is, a girl I know,
And I could love her, too;
But that she is so proud and vain;
That surely isn't you!

Squelching a 'Young Officer.

Some years ago Queen Maud of Norway was staying with the late Queen Victoria at Osborne, and went to a bazaar at Shanklin, where she was assisting at one of the stalls. Presently a young military officer walked up to the stall and making some small purchase tried hard to get into conversation with her royal highness. His efforts failed, but he made one last effort: "I am sure I know you," he said, "do you people live about here?" "No, I am staying with my grandmother," was the princess' reply. "Oh, I daresay I know her, then; I know most of the people about here," said the officer, rather patronizingly. "What's her name, by the way, I will look her up?" "Queen Victoria," was the reply.

THE WATERMELON

We'll eat our watermelons

BEAR THAT LIKES PUDDINGS

Young Canadian Black Cub in New York Zoological Gardens Becoming Very Haughty.

In the New York Zoological Gardens there is a young Canadian black bear that has become very haughty of late. Part of his biography has just been published. It appears that when the bear was a cub he was a farm pet, was as domesticated as a dog and wandered unattended about the yard and all over the farm. The sort of life he led and some of the stunts he did are entertainingly written in "The Frolics of My Black Bear Cub," by Mrs. E. H. Baynes in the March St. Nicholas. The article is illustrated by photographs which show also a tame prairie wolf and a deer, playfellows and domesticated companions of the cub Jimmie. We quote one of the "frolics":

Jimmy's favorite chum and playfellow was Romulus, a young prairie wolf. The fact that they were such good friends was due largely to Jimmy's good nature, for certainly Romulus teased him in every possible way. Even in the matter of food, Jimmy was disposed to be generous, and he seldom resented the attempts of Romulus, or of Actaeon, the deer, to take from him his bread and apples. There was, however, one particular kind of food which he insisted on having his full share of, and that was plum pudding. He would eat it at any time of the day or night, whether he was hungry or not, and if there was any limit to the amount he would eat, no one ever discovered it. No matter how much was given to him he never seemed to consider the quantity sufficient to warrant his sharing it with his playfellows, and if either of these attempted to force him to divide with him the result was a fight. Not that Jimmy was really vicious, but he gave his companions to understand that on the subject of plum pudding his opinion was law. One day, after romping in the snow all the morning, Jimmy presented himself at the kitchen window, and several slices of bread were passed out to him. The cub took them in his mouth, let them fall to the ground and continued to peer into the room.

IRISH TONGUE CRUSHED OUT

Curious Story of How "Tally-Stick" Was Used Decades Ago to Kill Gaelic Language.

The curious story of how the "tally-stick" crushed out the remains of the ancient Irish language among Irish children some decades ago was told the other day by T. P. O'Connor, the Irish political leader.

"When the English were determined to make all Ireland over into a sort of England," said Mr. O'Connor, "they used some most unusual means. Among these was the 'tally-stick.' This was a small stick of wood which each child was forced to wear on a cord about his neck. Every time his parents heard him say a word of Irish they were supposed to cut a notch in the stick, just as the American trappers of the old days are said to have notched the stocks of their guns every time they killed an Indian. Then when the child got to school the next day the master counted the notches. And for each notch the child was given one blow with a switch—one notch, one blow; two notches, two blows; six notches, six blows. Thus the Irish language was beaten out of the mouths of the Irish children.

"In school the little ones were taught to look on themselves not as Irish children, but as English. They were not taught any Irish history, and the fires of patriotism in them were damped in every way.

"But of late years there has come up a great national movement in Ireland which has restored the ancient Irish or Gaelic tongue, and has made the people proud of their ancient literature. It has reawakened the pride of the Irish nation. A university has just been founded in which the Irish language is now being taught by six or eight professors."

Look Out!

The habit of puckering up the lips is said to be fatal to the contour of a beautiful mouth, for the lips are so flexible that after awhile the puckering habit becomes second nature to them and they stay puckered.

WOMEN OF MIDDLE AGE

Need Lydia E. Pinkham's Vegetable Compound

Brookfield, Mo.—"Two years ago I was unable to do any kind of work and only weighed 118 pounds. My trouble dates back to the time that women may expect nature to bring on them the Change of Life. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it made me feel much better, and I have continued its use. I am very grateful to you for the good health I am now enjoying."—Mrs. SARAH LOUISIANA, 414 S. Livingston Street, Brookfield, Mo.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 80 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Globular Lightning.

Yesterday the inhabitants of Lewis-ham were provided with a specimen of that curious phenomenon known as "globular lightning." It is what is commonly called the "fire ball," and as it persists for several seconds it is obviously of a totally different character from any other form of lightning. It is much less brilliant than ordinary lightning, and its brightness appears to be that of iron at the "red hot" stage.

It is not, as some accounts might lead one to infer, a solid missile, but it is always spheroidal and appears to fall from a thunder cloud by its own gravity, sometimes rebounding after striking the ground.—London Globe.

HOW A DOCTOR CURED SCALP DISEASE

"When I was ten or twelve years old I had a scalp disease, something like scald head, though it wasn't that. I suffered for several months, and most of my hair came out. Finally they had a doctor to see me and he recommended the Cuticura Remedies. They cured me in a few weeks. I have used the Cuticura Remedies, also, for a breaking out on my hands and was benefited a great deal. I haven't had any more trouble with the scalp disease. Miss Jessie F. Buchanan, R. F. D. 3, Hamilton, Ga., Jan. 7, 1909."

Kept with Barnum's Circus. P. T. Barnum, the famous circus man, once wrote: "I have had the Cuticura Remedies among the contents of my medicine chest with me shows for the last three seasons, and can cheerfully certify that they were very effective in every case which called for their use."

When the Fish Exploded.

Somebody discovered that fish are fond of gasoline, and this led to the idea of soaking worms in gasoline in order to make them more alluring when used for bait.

Two of those gasoline-tempted fish exploded in the frying-pan, and broke the kitchen window, and blew the cook's face full of mashed potato, and buried the teakettle in the flour barrel, and painted the kitchen ceiling with stewed tomatoes.

Call it a lying world and let it go at that.

Scandal.

Mrs. Simmonds glanced at the scare headline: "Bank Robbed! Police at Sea!" and laid down the sheet.

"Naow, look at that, Ez!" she ejaculated, repeating the headline aloud. "Here's a big city bank broke into by burglars, and th' city police force all off fishin' somewhere! What a scandal!"—Judge.

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM
Take the Old Standard QUININE TABLETS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malarial and the Iron builds up the system. Sold by all dealers for 30 years. Price 50 cents.

The secrets the average woman can keep are those of her toilet.

Mrs. Winslow's Soothing Syrup. For children, soothes the gums, relieves inflammation, always cures wind colic. See a bottle.

It cures Tired, Swollen, Aching Feet and gives rest and comfort. Just the thing for breaking in new shoes. Sold everywhere, 50c sample sent FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

Even the Children.

Ex-Governor Pennypacker, condemning in his witty way the American divorce evil, told, at a Philadelphia luncheon, an appropriate story.

"Even our children," he said, "are becoming infected. A Kensington school teacher, examining a little girl in grammar, said:

"What is the future of 'I love'?"
"A divorce," the child answered promptly."

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the

Signature of *Dr. H. H. Mitchell*
In Use For Over 30 Years.
The Kind You Have Always Bought.

Then it Happened.
"What made you think he would propose to me?"

"Why, when I refused him he said he didn't care what became of him; but perhaps he wasn't serious."—Houston Post.

Depend not on another, rather lean upon yourself; trust to thine own exertions, subjection to another's will gives pain.—Manu.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

The busy man wonders how the loafer manages to live.

A MARVELOUS RECOVERY.

How a Chronic Invalid Regained Perfect Health.

Mrs. Ray Trusner, 30 West Third St., New Albany, Ind., says: "Kidney disease had rendered me a chronic invalid. I lay in bed unable to move hand or foot. My right limb was swollen to twice normal size. I looked the picture of death and my case puzzled the doctors. The kidney secretions were highly colored and scalded terribly. Marked improvement followed the use of Doan's Kidney Pills. In six weeks I was a well woman. My friends and relatives marvel at my recovery." Remember the name—Doan's.

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Talking to the Child.

"Mrs. X— talks to little Madge just as Mr. X— talks to their dog," said a little girl of a neighboring family. And it was indeed true. Mrs. X— is a very well-meaning woman and would be greatly surprised if she should hear the foregoing statement. She has simply unconsciously acquired a harsh tone of voice in dealing with her children. This is altogether unnecessary and is not, as many mothers seem to think, a mark of good discipline. The mother whose manner is quiet but firm is generally a much more successful disciplinarian than the harsh-voiced mother who issues her commands in a dictatorial manner. Kindness never spoils children. It is fussy indecision, sometimes mistaken for kindness, which spoils them.

There is more Catarrh in this section of the country than all other diseases put together, and until a few years ago was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Catarrh Pills for constipation.

Something Dreadful.

Wee Anita was listening to a story of the Johnstown flood.

"What made it?" she asked.

"Oh, the dam broke," replied grandma.

The next morning she ran into her brother's room and, climbing up on the bed, inquired anxiously: "Buvver, wasn't it just dreadful 'bout that swear breaking and killing all dose people?"

Source of Revelation.

Twenty-seven new, crisp, \$1 bills, says Harper's Weekly, weigh as much as a \$20 gold piece. Wouldn't have thought it, and have no means of proving the assertion, but if so it is probably owing in some way to the recent activity of the inspectors of weights and measures.

Mere Men.

He—I dreamt last night that your mother was ill.
She—Brute! I heard you laugh in your sleep.—Life.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.
It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

The Crittenden Record-Press

N. E. CALMES Editor and Publisher.

Entered as second-class matter February 9th
1877 at the postoffice at Marion, Kentucky, under
the Act of Congress of March 3, 1879.

One Dollar the Year in Advance.

Card From Hon. Jno. W. Blue

To the voters of Crittenden county:

I am a candidate for the office of county Judge, subject to your approval and I shall greatly appreciate your support if you deem me worthy. On account of the limited time before the election I will not have an opportunity of seeing you all and take this method of announcing my candidacy.

J. W. BLUE.

William Weir, merchant and postmaster at Salmon's was killed Monday morning by Joe McElwaive. They had been enemies for several months.

The world is looking on the Wellman flight across the Atlantic with a great deal of interest and none with greater than the United States. With the good start and the many wireless messages received from him after starting on his long trip in the air we have every reason to believe that his great venture will prove a success and that our great nation will be the first to receive the honors for crossing the ocean in an air ship.

The Harrison Bros. Minstrels under the management of Mr. J. M. Busby entertaining the people of Marion Monday night proved the most pleasing and interesting aggregation of col-

ored people it has been our pleasure to hear for many days. In the great number composing the troupe there was no word in all the songs dances and witticisms that smacked of the vulgar. Surely they were a worthy set of darkies and Mr. Busby may expect a crowded tent every time he comes to Marion with them. Of Mr. Busby we will say he is one of the cleverest and most courteous gentlemen we have ever met.

THE MINSTREL

There is nothing more entertaining and enjoyable than witnessing a colored minstrel with its comical end men, and their funny jokes, bones, tambos and a glittering array of costumes combined with good singing, dancing and lively catchy music. Such was the spectacle that greeted the large audience who came to witness the performance of the Harrison Bros., Minstrel Monday evening.

Their spacious and elegant waterproof tent was filled to capacity and the laughter and applause which started from the very commencement and continued to the end of the performance is the biggest and best recommendation that can possibly be accorded them.

Considerable space would be devoted in praiseworthy comment, but the old saying that a good article speaks for itself pertains to this minstrel company.

The only regret we have is that their stay here was for one night only, and we can truly say that a return engagement will be eagerly looked for.

TO HOBBLE THE HAIR

First, you throw away all the false puffs and rats that don't

grow on the premises. Then you part your own, natural indigenous locks, through the middle, and drape the tresses simply back from the face into a big mushy mass at the back of the head. You can add stove hair to taste in this mass. Then you "hobble" or bind the posterior protuberance round about with a coil of hair that may thriftily be a survival of your old last year's \$25. swirl braid. A ribbon is also used, instead of a braid, to encircle the hirsute heap at the back. This coiffure lends itself to the general symmetry of the hobbled outlines:

Washington's "Peacock Alley," a namesake of the more famous one in New York, that George Ade cynically dubs "Alimony Alley," is awakening to its winter splendor. The women strut impartially or hobble like Geisha girls according to the cut of their costumes, and the clotheless sit along the walls and rubber and listen to the music. —Courier Journal.

"Mary had a little skirt,
'Twas hobbled with a bow,
And everywhere that Mary went
She simply couldn't go."

And that's the Lord's truth!
We girls are all hobbledehoes
these autumn days.

The supercilious and punctilious and the ultamarines who have just blown in from Paris and other sartorial citadels, make a practice of turning up their noses and telling you that these "horrible," sacrilegious "hobble" "toddle" or "shackle" skirts that everybody loathes are already a dead issue. 'Taint so. You just set a spell amid the glittering vortex of "Peacock Alley" at the Waldorf, and you will observe that ninety-nine out of every half dozen of the gayly caparisoned women that "slide,

slide, keep on a-slideing, and glide, glide, keep on a-glideing," before your fascinated gaze, are barbarously ennobled—ankles "all bound round with a woolen string," as the old song goes, and things like that.

But much more absorbing than a survey of the procession of hobbly women at the Waldorf, is the trim young female in cap and apron, at the ladies wrap rack who hauls in the shekels for enveloping beauty in waiting furs and chiffons. The way attendant cavaliers go down into their evening jeans to reward the maid person for her pleasant services to the fair ones, makes newspaper emoluments look like thirty cents. I'd rather be born that thrifty little bourgeoisie tip-taker at the Waldorf than be the daughters of a hundred earls, maybe without the price of one single hobble skirt!

On Monday of last week came from Russellville, Ky., that the Louisville Annual Conference of the Methodist Episcopal Church, South had taken Dr. Mather from Hardinburg, and had assigned him to the pastorate of the church at Marion, county seat of Crittenden county.

In the going away of Dr. Mather, Hardinburg and Breckenridge county loses one who for the last two years has wielded a greater influence for good than perhaps any minister of the gospel who has ever resided in our midst, and we take this opportunity of publicly acknowledging the inestimable service rendered so unremittingly and unselfishly by Dr. Mather in every cause which had for its object the advancement of the interests of his fellowmen.

It seems but a few days since Dr. Mather came to reside in our midst, yet evidences abound

DR. W. H. CRAWFORD

DENTIST

SEVEN YEARS PRACTICE AT LEXINGTON

ALL WORK GUARANTEED SATISFACTORY
Phone 46—OFFICE MARION BANK BUILDING

on all hands of the touch of the master hand in helping forward the deepest interest of the community, and of the abiding influence which he has exerted upon the leading citizens of our county.

Coming as a sick man, with the intention of resting from the heavier duties of pastoral life to which he had been accustomed, it was not at first thought that Dr. Mather would reach out beyond the immediate duties of his own pastoral office; but scarcely had his household goods been unpacked, before he was found actively interested in everybody, and striving to lay foundations for usefulness every where the result being that today he leaves a gap behind him which none can fill.

When asked why he had turned down a call of this character, Dr. Mather replied "You know I have been brought up in Methodism, and while I deeply appreciate the confidence of other denominations, and labor constantly to cultivate the "entire coriale" with all the churches, yet I feel that my best work can be done in the ranks to which I am most accustomed."

So goes from our midst one whose welcome greeting will be missed, and may whose never-fading courtesy will be cherished as coming from the heart of a man whom God has touch-

ed, and one in whom the people could, and can always find a friend and a helper. May long life be his, and may his consecrated talents find fullest scope for their usefulness.

We sincerely congratulate the citizens of Marion and of Crittenden county on their good fortune, and trust that will give our dearly loved friend that welcome which he so richly deserves.—The Breckenridge News.

Any board of Trustees who bar the Bible from the public school should be turned down just as soon as possible.

If it were made as necessary for the child to be as conversant with the Bible as with other studies there would be fewer crimes and less use for court houses, Criminal Judges and juries.

It is a wonder that God does not curse a town that will bar the Bible from her public schools.

Congressman Ollie M. James who has been making a number of speeches in the hotly contested districts of the state arrived home Tuesday morning for a short visit.

H. Merriett of Gladstone, J. M. McConnell T. A. Travis and R. L. Wood of Shady Grove, T. H. Chandler, J. A. Stenbridge, W. J. Hodges and J. C. Brown, of Iron Hill were among the many good and prominent farmers attending the Farmers Union meeting in session here two days last week.

ESTRAYED—Dark red steer 2 years old, crop off right ear and brand of S on right jaw, from my farm near Rodney last spring. H. L. SULLIVAN.

HERE IS A REMEDY THAT WILL CURE ECZEMA

'We Prove It'

Why waste time and money experimenting with greasy salves and lotions, trying to drive the eczema germ from underneath the skin when the Haynes & Taylor the Drug Store guarantees ZEMO, a clean liquid preparation for external use to rid the skin of the germ life that causes the trouble? One application will relieve the itching and often times one bottle is sufficient to cure a minor case of eczema.

In over 2,000 towns and cities in America the leading druggist has the agency for ZEMO and he will tell you of the marvelous cures made by this clean simple treatment. ZEMO is recognized as the cleanest and most popular treatment for eczema, pimples, dandruff and all other forms of skin or scalp affections whether on infant or grown person. Will you try a bottle on our recommendation?

AFTER SHAVING

IT'S THE WORLD'S BEST

No one has ever made a salve, ointment or balm to compare with Bucklen's Arnica Salve. It's the one perfect healer of Cuts, Corns, Burns, Bruises, Sores, Scalds, Boils, Ulcers, Eczema, Salt Rheum. For Sore eyes, Cold Sores, Chapped Hands, or Sprains, it's supreme. Infallible for Piles. Only 25c. at Jas. H. Orme and Haynes & Taylor's Drug Store.

SCHOOL NEWS FROM BAKER

There will be a "spelling bee" at Baker school house Wednesday night.

Berna and May Newcom, who were ill last week, are able to be in school again.

The Division Tournament will be held at our school on Wednesday before Thanksgiving.

HONOR ROLL

Joseph Newcome, Lena Newcome, Myrtle Walker, Corbett Morgan, Reggie Philipps, Raymond Newcomb, Berna Newcom.

SOMETHING FOR HEADACHE

Nothing else, aside from money, is so universally sought for as a cure for headache. Headache powders are not safe and they give only temporary relief in any event. The chocolate-coated and capuled-shaped pills called Sherman's Headache Remedy and sold by druggists and dealers at 10c. and 25c. are recommended as the best headache cure.

Birthday Celebration

Last Friday Oct. 8th, Mrs. Mary Long passed the 85th mile stone, hale and hearty and in the full possession of all her faculties not withstanding her great age.

Mrs. Long is one of the best known and loved women who ever lived in Marion. She has spent much of her long life in Marion and is known to every man, woman and child in the confines of the city and is loved and respected by them all, many of whom have been the recipients of kindness from her. The great affection in which she is held was demonstrated by their treatment of her last Friday when at 10 o'clock much to her surprise they began to pile in with baskets and bundles of good things to eat, and loaded the table with all the delicacies of the season and from all climes. Fruits, salads, viands, barbecue and many other kind of meats, bread, cakes of many kinds, ice cream sherbert and many other dainties to numerous to mention. Beside the good things to eat to which all the family sat down to eat at noon and supper many useful presents were brought in way of provisions, clothing and money.

You Can't Fool The Housewife Who Has Once Used

ELK and CROWN FLOUR

She will insist on having these brands and no other. Why do some of the leading millers of Kentucky say that of all the different brands of flour, they come in competition with, "The best is made by the Marion Milling Co." This is easily explained. The quality of Crittenden county wheat cannot be excelled, an up-to-date mill, a miller who knows how and whose ambition is to make the highest quality flour on the market, easily places us in the front ranks of the leading mills in Kentucky.

When you order, (if it is quality you desire) ask for our products as every sack is guaranteed.

MARION MILLING COMPANY

Incorporated

Marion, Kentucky.

Crittenden County Farmers Union Produce Exchange

At Old Produce House

on North Main Street

Will buy everything in the way of Produce the farmer has to sell, paying the highest cash price for same that the market will allow. You get cash here instead of trade for your poultry, eggs, hides, tallow, butter, roots, herbs, peach seed and all else the farmer has to sell.

This Exchange is now open and ready to receive your stuff. Bring it alone.

C. R. NEWCOM,

Manager.

The Place For Flowers.

where your orders are helpful, appreciated and given prompt attention.

It is a Kentucky House, in a live Kentucky town and as a Kentuckian I earnestly solicit your patronage. All care to please you.

John E. Rakebrandt, Princeton, Ky.

Among those who made glad the good woman's heart were the following children.

Mrs. R. F. Dorr, Mrs. J. H. Davis, both of this city and Mrs. A. M. Wigginton of Fredonia each of who was accompanied by her husband. One other daughter Mrs. Foster of Livingston county was detained by rains and muddy roads and did not come. Among the grand children present were G. H. Foster of this city, and Chas. Wigginton, of Evansville and their families. All enjoyed the day and spent the full day until after supper left wishing mother and grand mother many returns of the happy day. Mrs. Long especially appreciated the thoughtfulness of descendants in remembering her so bountifully. Her grand daughter, Mrs. Bessie Foster of this city was the sweet spirit who planned the surprise, and by her energy and thoughtfulness did much to make the affair so delightfully successful. Mrs. Foster was assisted in spreading the feast by Misses Moore who reside in Mrs. Longs house with her.

Among the friends who called during the day were Mrs. Elizabeth Douglas a nonagenarian of this city and Kay Kavanaugh Kevil and wife of Goldfield, Nevada.

BOX SUPPER AT CRAYNE

One of the most enjoyed events in the history of the town of Crayne, was the box supper given there Friday night by their popular teacher, J. C. Hardin, and, besides being well attended was a success in every feature. Prof. Rascoe of

HODGE—MCENEN

Mr. Elbert Hodge and Miss Kittie McEnen drove to town on last Friday Oct. 7th and were married at the residence of Rev. Adams on Salem street. Rev. Adams officiated. They were accompanied by Mr. and Mrs. Vernon Hodge. The bride is the daughter of R. N. Mcenen and is a charming young lady, and the groom is the son of R. L. Hodge of near the Crittenden Springs.

May their lives be one of enjoyment.

K. Kevil and wife, who have been spending their vacation with Mr. and Mrs. J. B. Kevil of Marion, leave to day for their home in Goldfield, Nev., going by way of Memphis, Amarillo, Denver, Cheyenne and Ogden.

Mr. Kevil is a Civil and Hydraulic engineer in the West. He has been located in Goldfield and in Bisco, Cal., as Engineer in charge of party and as resident engineer on large construction work for hydro-dower company and is at present Assistant engineer for a railroad company in Goldfield.

FOR RENT

A cottage on main street, just North of Dupuy residence.

NELLE WALKER.

GROWING COUNTRIES.

The census department of Canada estimates the present population of the Dominion to be 7,350,000. The distribution by sections is: Maritime provinces, 1,037,112; Quebec, 2,088,461; Ontario, 2,619,025; Western provinces, 1,371,164; unorganized territories, 58,309. It is not surprising that Canada, with her many resources and her healthful climate and varied opportunities for industrial wealth-seekers, should grow all the time, says the Mexican Herald. A sturdy race which increases by the excess of births over deaths is continually being reinforced by immigration, and that of the best kind. The consuming power of the population of Canada is very large, and accounts for the heavy importations of foreign goods and the excellent support given to home industries. Argentina, with about a million less population than Canada, is rapidly increasing in wealth. It is interesting to see that the influx of immigrants into this country from Spain continues, just as it does in the case of Cuba and Argentina. The ancient Iberian motherland still breeds a sturdy race which send its sons to former colonies.

It used to be "King Cotton." Then corn came into active rivalry for supremacy. And now it looks as though rubber might be the great staple of commerce. There has been an enormous increase in the production of rubber and in importations into the United States. This is due to the rapidly augmenting demand, with rubber as an essential for automobile, bicycle and carriage tires and for other purposes. Word comes from Sumatra, which has been the source of supply for tobacco of a certain grade, that the planters are giving up the "weed" and are converting their estates into rubber farms. It is not believed, however, that tobacco growing in Connecticut, Kentucky and other American states will be supplanted by rubber production.

This is the day of the auto, the airship and the wireless telegraph. But some of the old-time slow coaches still come into play. A wealthy summer resident of Newport who went in his automobile to visit another gentleman found himself with his touring car stuck in soft sand from which it could not be moved unaided. An obliging farmer of the neighborhood hitched up his ox team and drew the machine out of the predicament into which the vehicle had plunged. Could irony further go? Still, the auto is a good and useful invention and has come to stay, although occasionally, in the case of a breakdown, it stays too long in one place.

A new compass which may supersede the compass now in general use is under test on the scout cruiser Birmingham. It is a combination of the conventional compass with the gyroscope, and is said to eliminate all varieties of deviation of the needle. It can also be placed in the interior of a ship, where it is safe from the missiles of an enemy. A compass of this kind would be extremely valuable in naval service, but it would be far more valuable to commerce, as the influences which affect the compass on modern steel ships are puzzling, and sufficient in some instances to cause wrecks through deviations from proper courses.

The census officials expect to add the names of 60 cities in the United States to the list of those having a population of 25,000 or over which was compiled in 1900. Perhaps there will be even more than 60. The invention of machinery for the farm is one of the factors that have contributed to the rise of the cities.

A New York girl who is helless to a fortune amounting to \$6,000,000 is compelled to work for the purpose of getting enough money to pay her board, because the lawyers are busy trying to divide the estate among themselves. The case affords a strong argument in favor of the "give while you live" theory.

Fair Parisiennes have adopted the hobble skirt style of bathing suit. It is absolutely impossible for them to swim when hobbled, but they probably don't mind that. If they wished to go into the water they would probably do so in their bathrooms.

Now that we get the true story of the life of the fly by the aid of the microscope we see that it merits nothing else so little as kind treatment.

Shirtwaists for men will not do. It has been decreed that men must wear coats. Old Grimes is dead, but his soul is marching on.

New York will make policemen out of farmer boys and Kansas is going to find it still harder to harvest its crops.

Models from Paris

THE gown at the left is of tulle, gathered at the top and bottom and finished with a deep, plain flounce of the cashmere, from which extends upward and onto the corsage a band of the same ornamented with fagoting. The corsage, which also forms sleeve caps, is of embroidered tulle with wide girde of liberty ribbon to match. The yoke is of tuck white tulle and lace bordered with a plaiting of the white tulle.

VARIETY IN VANITY BOXES

Some in Parasol Handles, Others in the Heads of Hat Pins, and All Are Pretty.

Ingenuity lavishes itself upon the vanity box which woman has come to regard a necessity. Every season sees it in new and more cleverly devised forms.

The newest development are the parasol top and the hatpin vanity box. At the top of the metal handle of the parasol a circular lid opens and discloses powder puff and box, and a mirror set into the cover.

The immense hatpins in vogue suggested the possibility of accommodating powder box and mirror. Many of the big ball heads or the highly arched disk heads carry these little toilet necessities.

Locket powder boxes come in all sizes from little ones an inch and a half long to those measuring three inches. They are worn like an ordinary locket on chain about the neck, or dangle from bracelets or from this year's fad—the ring chataleine.

The Rose Muff.

The well-dressed women of Paris and Vienna have come to the conclusion that it is no longer necessary to wear gloves in the summer months. They have discovered that gloves, whether kid, silk, suede, twill or Danish leather are not only uncomfortable in the hot season, but are prejudicial to health. So in June, July, August and September the hands must be left quite gloveless, not even mitts being fashionable.

The no gloves idea has been welcomed by votaries of tennis, golf, croquet and rowing. To cover the hands while at these sports has been a great mistake, they argue.

While gloves are discarded it is not intended that the hands of the woman in a ballroom or a theater shall be exposed. They are to be placed in a more agreeable prison in the form of a rose muff.

The rose muff is made of wire so fashioned that flowers, more particularly roses, can be inserted. It is almost as long and as broad as the ordinary winter muff. The roses placed in it remain fresh for six hours. The introduction of this portable rosary has been voted a success. Several were seen at fashionable race meetings at Auteuil and Longchamps and attracted admiration.

Naturally the rose muff is not altogether cheap, but it is pretty.

Dressy Toilette.

For dressy affairs there is a modish toffette of Alice blue chiffon cloth over silk, the former trimmed with a knee-deep band of black satin. The girde and sleeve bands are also of satin. Small covered buttons and simulated buttonholes of silk braid trim front of skirt on each side, and there is a design of braid and buttons outlining the square yoke of bodice. The yoke and neck are white tucked chiffon, as are the lower parts of the sleeves.

IN WHITE SPOTTED MUSLIN

Pretty Blouse That May Match the Skirt or Be Made Up in Any Colored Material.

Our model is in white spotted muslin to match the skirt, but other colored or white muslin might be made up in the same way. The deep round yoke is of piece lace, to which the muslin is set in three rows of gauging.

a wide box-plait trimmed with buttons being taken down center from yoke to waist. The sleeves are gauged in lower part to form puffs.

Fancy straw hat, trimmed with feathers. Material required: Two and one-half yards 30 inches wide, five-eighths yard lace 18 inches wide.

Round Frill at Neck.

The flat, round plaited frill has usurped the place of the round, flat lace collar. It is not becoming, as a rule, but that makes no difference to the votaries of fashion. This frill is made of very sheer material laid in flat plaits which spring out about an inch from the edge. This edge is nearly always finished with lace.

The collar is intended to be worn with a slightly low neck or white blouse in the same way that the Peter Pan and Dutch collars have been applied.

The small frill goes straight around the neckband and fastens with a large cabochon, from which hang uneven tabs of black velvet or satin ribbon.

Few girls can wear this even round line at the neck, for the human face requires a dip at the front of the neck no matter how it is obtained. Therefore if a girl wants to be fashionable and wear one of these frilled collars and look well in it she should dip it down to show her neck.

HOME FOR VETERANS

WHERE DISABLED AND AGED REGULAR SOLDIERS LIVE.

Washington Institution One of the Beautiful Spots in the Capital—Is Very Largely Provided by Soldiers Themselves.

One of the most beautiful spots in Washington is the soldiers' home, three miles north from the capitol, where ornate and sheerly white marble buildings nestle in a park that, lavishly dealt with by nature, has been turned into a beautiful garden by long years of toil and loving care.

Here it is that the disabled and aged soldiers of the regular army find a resting place and a home. There are thousands of them living in the dormitories and the marble halls, where every possible want they have is supplied; clothing, food, medicine, amuse-

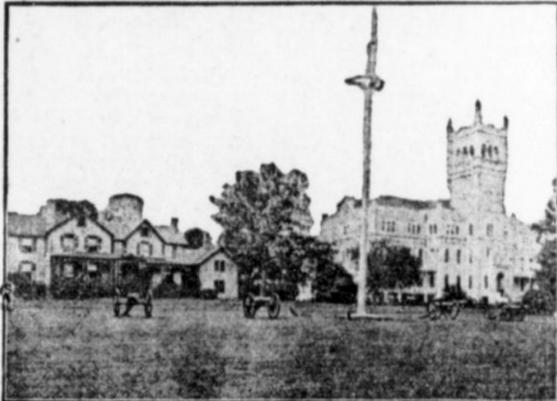

General Young.

ments, everything in the most lavish style—not a charity provided by the government, but a home provided very largely by the soldiers themselves, and self-supporting in every way.

The soldiers' home was established in its present location in 1851. The original purchase of land was 256 acres. To this was added in subsequent years up to 1869, about sixteen acres, and in 1874, the adjoining estate of "Harewood," containing 191 acres, was purchased from W. W. Corcoran of Washington. Small additional tracts have been purchased since, making a total today of 500 acres in the property.

And over the destinies of the soldiers' home rules General Young, himself a white-haired veteran of much service. He entered the regular army as a private in 1861 and in the same year won the captaincy of the Fourth

THE SOLDIERS' HOME AT WASHINGTON.

Pennsylvania cavalry, and as early as 1865 was made brevet brigadier general "for gallant and meritorious service in the campaign ending with the surrender of the insurgent army under Gen. Robert E. Lee." In 1866 he entered the army again as captain of cavalry, was mentioned twice in dispatches and won promotion for distinguished service at Sulphur Springs, Va. and afterward at Amelitt Springs, Va.

In Cuba during the Spanish war he commanded the Second army corps, and when that war was over he went to the Philippines as brigadier general, and was later made governor of northwestern Luzon. Returning to this country he was made commander of the department of California until he was detached to become president of the war college in Washington, which he held until he was made chief of the general staff, until the time came for his retirement by law.

The hero of many a battle and a man who has seen more hard service than most, he could not have found a more congenial task than the duty that is now his as governor of the soldiers' home. He has a beautiful home on the ground environed by beauty and filled with relics of his world wanderings. About him everywhere are reminders of the profession which has been his life work, and as it has been with him years so it is now; it is the bugler's reveille that awakes him in the morning, and at night where the birds and squirrels have disappeared and the dormitories where the veterans rest are silent, it is to the music of "Lights Out" that he falls asleep.

Lasts Too Long.

Economy is a habit that continues to grow on a man long after he has any use for it.

CANADA THE BEST IN TRADE

Exports to Dominion for the Fiscal Year, \$216,000,000; Mexico Next.

Export trade of the United States to South America, North America and Africa during the last fiscal year increased over the exports of the previous year, while exports to Europe and Asia declined according to statistics furnished by the department of commerce and labor. The increase in exports to North American countries over the preceding year was 24 1/2 per cent., the increase to South America 22 per cent. and to Africa 9 per cent., while to Europe the decline was about one per cent. and to Asia and Oceania a little more than one per cent.

Detailed figures show the value of 1910 exports to South America to be \$93,250,000, as compared with \$76,500,000 in 1909; to North America \$385,000,000 in 1910, as compared with \$309,500,000 in 1909; to Africa \$18,500,000, as compared with \$17,000,000 in 1909; to Europe \$1,136,000,000 against \$1,146,750,000 in 1909, and to Asia and Oceania \$111,750,000 in 1910, against \$113,000 in the preceding year.

The chief growth in the exports of the country, it is shown, has been with the near neighbors. To Canada, the value of exports in 1910 was \$216,000,000, as against \$163,000,000 in 1909; to Mexico \$58,000,000, as against \$49,750,000; to Cuba \$52,750,000, as compared with \$44,000,000; to Central America \$30,250,000, as against \$25,125,000; to Argentina \$42,750,000, as compared with \$33,750,000; to Brazil \$22,750,000, as against \$17,500,000.

"ZONE STATE" AIDS CHURCH

Regardless of Denomination the Panama Canal Government Fosters 37 Houses of Worship.

Church and state march hand in hand in the Panama canal zone. The church is fostered by the "state," and much of its expense is defrayed. The "state," as exemplified in the canal zone, profits for its part in the improved moral tone of the citizens.

The canal zone now boasts of 39 churches, according to the latest issue of the canal record. Of these 25 are owned by the canal commission.

Of the remaining 13, 11 are upon land that is owned by the United States. Of the two that are without connection with the "state" one is the Wesleyan church at Gatun, and the other is the Episcopal church at Bas Obispo.

A number of chaplains are in the employ of the commission. They are of various denominations, and their duties practically conform to those of pastors in the states. Some, however, have "calls" that are spared their brethren "back home," a notable instance being that of the commission chaplain of the Roman Catholic church

ENGLAND'S FAMOUS GENERAL,

"CHINESE GORDON," used to say that the stomach ruled the world. But the man or woman who has suffered from Liver Trouble has a different opinion; it's THE LIVER. And there's just one known remedy which in its very nature seems to control liver-action, and that is

SIMMON'S Liver Purifier

Its action is different. It never irritates the liver, but energizes it, cleanses the organ of all impurities and restores natural function. It makes your liver young again, without injury, harmlessly, but with all speed. Nothing like it. Cures Constipation absolutely, and never gripes.

RIDING INTO ATHENS

The Parthenon

Royal Palace and Constitution Square

WE WERE to arrive in the morning at Piraeus, the ancient harbor of Athens, and I was on deck early. Soon after the familiar outlines of the Parthenon appeared in the distance, a white structure sharply delineated against the dark background of the Pentelicon. Peculiar as is the charm of the Greek landscape, it dwindle into insignificance as against the deep interest awakened by the old myths and historical reminiscences connected with this sacred cradle of European civilization.

Approaching our harbor we left several islands behind, among them Aegina, where, seven centuries B. C., a great step in civilization, the coinage of the first silver currency, was accomplished. Close to the harbor lies Salamis. What memories the view of the narrow stretch of water between this island and the coast recalls! Here was fought one of the decisive naval battles of the world, and here—irony of the times—a few weeks ago took place an insignificant little revolt of part of the little fleets of modern Greece.

Trouble at Landing.

My contentions were disturbed by the rattle of anchor chains and a noisy crowd of hotel runners, guides and boatmen climbing at the same time over her sides. Being closely harassed, I made an end to the keen competition for possession of my baggage by turning it over to the agent of a hotel who had recognized me as a former guest. I got ashore in a large rowboat. The custom house formalities were soon finished, and I engaged a dilapidated-looking vehicle, the driver of which had proved himself to be the best tackle in the wrangle for my hand-bags. Although a short railroad connects Piraeus with Athens, it is by far preferable to use a carriage, especially in the winter season, when the landscape looks fresh and the road is not so dusty. The Jehus are satisfied with 3 to 4 drachmas, about half what they originally ask, and one is well repaid for the longer time occupied by having in view, along the whole road, alternately, the hill of the Acropolis, Mount Lycabettus, and other interesting points of the landscape. The carriage road is also more interesting because it is almost identical with the ancient walled road which the Athenians built, centuries before Christ, to protect their connection with the sea. Of those two ways, however, not a vestige remains today.

Behind Slow Horses.

From my present experience I would recommend, though, a careful examination of the horses of your conveyance, else it may happen that the entry into Athens be accomplished under difficulties, such as I suffered. We had hardly left Piraeus when I noticed that the distance between another carriage, which left at the same time, and my own vehicle began to increase considerably. At first I did not pay any attention to this until we reached the narrow bed of a small rivulet, the historical Kephissu, which crosses the road to Athens within a short distance from Piraeus. There I remarked that the first carriage had left us way behind and was just disappearing behind a clump of poplar trees.

I poked the driver in the ribs with

my umbrella and urged him to a faster pace. He shrugged his shoulders and cracked his whip, but the pace of his nags became steadily slower until we reached, at last, the small tavern on the right side of the road, halfway to Athens, which is so well known to most tourists who have visited Greece. The drivers always stop here, ostensibly to water the horses, but in reality to have their passengers pay them a glass of raki or masticha.

Here I noticed that one of the horses was lame and bled from an ugly wound in the knee. There being no other conveyance for me, I urged the driver, after treating him to a generous drink, to wash and tie up the sore, and after a rest of fifteen to twenty minutes we proceeded on our way. The leisurely trot, however, in which we started soon changed again to a slow walk until the lame horse fell and the carriage suddenly halted. The driver began to ply his whip energetically until I stopped him and alighted to help the nag out of harness. The second horse was too decrepit to pull us alone to the city.

I was on the horns of a dilemma when a mule cart passed and my driver began negotiations for the loan of the beast. An understanding was reached and the mule harnessed to our vehicle. Upon trying to proceed now it became evident, though, that the mule was not accustomed to pull in double harness, and it stubbornly refused to move. The energetic lashes of the driver were answered by just as energetic kicks, and at this point I would have started to walk the rest of the way had the road not been extremely muddy.

In Athens at Last.

I was cursing the ludicrous situation when a second cart drawn by a single horse overtook us. After a prolonged parley this steed was transferred to my carriage. The two animals pulled away, and I was congratulating myself on my chances of soon reaching Athens, when the new equine acquisition developed a tendency of throwing us into the ditch. No exertion of the driver, no pulling on the lines, was able to keep the team in the middle of the road, the Pelopidas, the Jehu, had to dismount and lead the animals by the bridle. In this way I rode into the city of Pericles, but on reaching the first houses of Hermes street, I, too, dismounted and walked to my hotel, reaching it some time before the carriage arrived.

SIGMUND KRAUSZ.

He Wood Be Dood.

Little Johnny wanted to go to church; his mother was afraid to take him lest he should make a noise; but his father said: "Johnny knows better than to make a noise in church, doesn't he?" "Yes, papa me will be dood." So they took him with them, and he kept very still till the last prayer, by which time he had grown so tired that he got up on the cushion of the seat, and stood with his back to the pulpit. When the lady in the seat behind him bowed her head for prayer, Johnny thought she was crying, so he leaned over and said to the lady in a tone which was meant for a whisper, but which was only too plautly heard: "Poor, dear lady! What ee matter? Do oo belly ache?"

Color Photography in Surgery.

Color photography is now applied to surgery. An autochrome plate is taken of the diseased condition before operation, so that the student may study the condition and have a better means of identifying a disease than the present black and white photograph affords.

CATCHING the OULACHAN

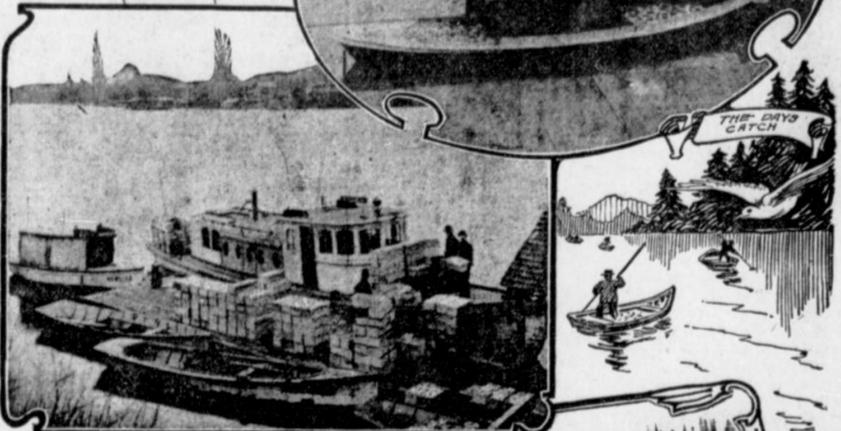

By JOHN BRAND

OULACHAN!
The old Indian turned his face from the camp fire and fixed his bead-black eyes on mine.
"Oulachan," I repeated. "Why do men call you Oulachan?"
He turned his wrinkled face to the fire again and we sat a while in silence.

Then, in the deep gutturals and short, broken words of his native tongue, he told me.

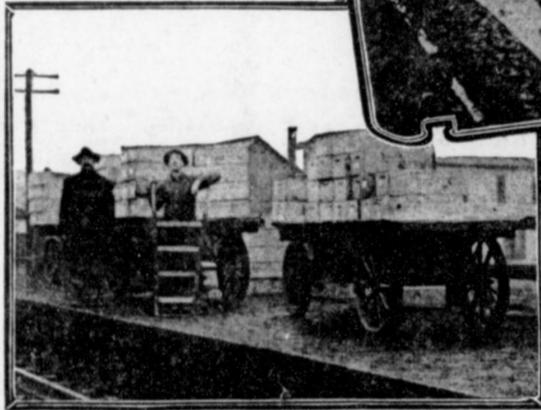

"Many summers ago," he said, "the teepees of my father's tribe where we sit tonight. The white man was not here then"—he pointed up the river toward Kelso—"the woods and the open were the Indian's. The Indian hunted and fished and was happy. But white men came up the big river in canoes and they brought with them the black death. Warriors, klootchmen, papposes, all alike sickened. Many died. When the rain and the winter came, no deer meat, no fish hung beside the teepees. For when the frost drove the black death away, the hunters were weak. They could not go to the woods for deer, and the salmon had passed on up the little river. The Indian was very hungry. The klootchmen and the papposes cried for food. And when the Indian was ready to fold his blanket around him and lie down to the long sleep, the Great Spirit saw and sent food. From the north it came, from under the frozen water. Swimming together. A long rope—big—many suns long. Many little fish swimming at the bottom of the big water—"the Pacific"—"along the bottom of the big river"—"the Columbia." "They came here to the mouth of the little river"—he pointed to the Cowlitz flowing past us in the darkness to the Columbia—"and here they came to the top of the water. My father saw

PACKING THE FISH

CATCHING THE OULACHAN

READY FOR SHIPMENT

them and shouted, 'Oulachan.' Hunters and klootchmen went into the water and caught the oulachan with their hands. 'Oulachan,' they shouted. They made potlach and were filled. In that hour was I born. My name is Oulachan."

The oulachan still runs in the Cowlitz and every year there is a feast, but it is a feast for white men; the Indian tribes have vanished from the river. During the early months of winter Portland and all the cities and towns within reach of the fishing grounds look forward to the feast. In the old days when Portland was the only market fishermen scrambled for the first of the run. A wild race of the deep-laden boats up the Columbia followed, and the first boatload to reach the market sold, smelt for silver, weight for weight. But since railroads and refrigerator cars have put smelt fishing on the basis of a practical industry, the first run of the oulachan does not bring more than 20 cents the pound in the northwestern retail markets, though the very first to arrive are eagerly sought at prices somewhat higher.

Known commercially as the Columbia river smelt, the king of pan fish has several names. Ichthyologists classify it as thleichthys pacificus, of the smelt family. The Indians of the Columbia river region knew it as oulachan and the pioneer fishermen called it the Eskimo candle fish. In shape it resembles the smelt of the eastern states and Europe, but its rich yet delicate and sweet flavor places it far above them in the estimation of the epicures. Indeed, enthusiasts insist that as a pan fish it is superior to trout of any kind.

For unnumbered years the oulachan has made the Cowlitz river its spawning ground and of course the Columbia river Indians were the first to use it for food. During the runs they caught the fish in vast quantities drying and smoking them, and dried, actually used them for light in their teepees. For so much is the oulachan in oil that, with a strip of bark run through it, the dried fish will burn with a clear flame from nose to tail.

In the early months of the northwestern winter the oulachan gather in uncountable millions at some unknown spot in Boring sea and begin their southward swim. Always close to the ocean bed, traveling in the form of a monster rope miles in length, they pass all the river and flood openings along the coast until the mouth of the Columbia is reached. Then, so closely hugging the river bottom that kill nets are all but useless, to reach them, they make for the Cowlitz. A few miles up from the mouth of that river they strike the shallower water, and come within easy reach of the waiting fishermen.

From Indian times until the great catch of last season the method of fishing has been the same. A boat or a canoe to fish from, and a dip net with a long handle for fishing tackle, are all

that is necessary. One does not even need the dip net to catch a "mess," for the river is literally alive with oulachan and children often ball them out of the water with tin cans, getting half fish and half water. Where the water is shallow enough they can even be caught with the bare hands, as their skin is not slimy when in the water.

The run is always heralded far down the Columbia by flocks of eagles, gulls and hawks, following in the wake of the living rope of fish and picking up the dead as they come to the surface. Then the fishermen gather by hundreds in their boats along the fishing grounds and feel along the bottom with the pole ends of their dip nets. When the pole strikes the small, wriggling bodies swimming along the river bottom in solid phalanx, it is simply dip and fill, empty the net into the boat, dip and fill again, until the boat can hold no more. There is not much sport about it. It is just about as exciting as clam digging and requires no more skill. Quantity caught, and quickness in dipping one's boat full to the gunwales of flapping little fish are the smelt fisherman's ideals of sport. And during the runs fishermen, fish eaters and even the eternally gobbling seagulls alike become sated. When the gulls are all at hungry the fishermen amuse themselves by tossing up smelt for the gulls to catch in the air. A seagull on the wing will grab a fish by the middle or tail, toss and reverse it in air, and gulp it down head first in the wink of an eye.

Most of the fishing is done at night. Daylight seems to scatter the fish, but even in daytime during the height of the season the fishermen keep at their work with good results. As a rule, there are two men to each boat and the craft are filled in an incredibly short time. One night last season two Kelso men filled a power launch to its capacity of 2,250 pounds in 45 minutes, or at the rate of 50 pounds a minute, and catches of 10,000 pounds in one day and night were frequent.

While the Cowlitz river is the only constant spawning ground, the oulachan has been known to run up the Lewis and the Sandy. At the time of the run up the Lewis, 14 years ago, there was only a small run of male fish in the Cowlitz, and the fishermen made their season's catch in the Lewis. About once in eight years there is a run up the Sandy, apparently independent of the Cowlitz run, as the number in that river is not lessened. At the time of the last run in the Sandy a party of Portland men went out with dip nets. One man lost his dip net but found an old, rusty, discarded bird cage. He tied it to the end of a pole and scored an equal catch with the others. During the same run farmers drove their wagons into the stream, dipped them full of fish and hauled load after load to their orchards to use as fertilizer. Pork sold in the Portland market some months later had a distinctly fishy flavor and revealed the fact that some of the thrifty agriculturists had fed smelt to their hogs.

Last season the Cowlitz river was the spawning ground of the greatest run of smelt ever known by fishermen who have been in the business over twenty years. At the season's close the river had yielded over 10,000,000 pounds, or

5,000 tons of oulachan, and as the fish average about eight to the pound \$0,000,000 of them went the way of the market and the frying pan.

The fishing grounds of the Cowlitz are practically the only ones where the oulachan can be caught in paying quantities. On the Columbia some few are caught by gill netters. But the river is deep and for the most part the fish swim beyond the reach of the widest net. Even when caught they have to be picked one by one out of the meshes, so putting the gill netter out of competition with the Cowlitz man and his greedy, long-handled dipper. The grounds extend but eight or ten miles in the Cowlitz. Before Kelso was on the map the best location is said to have been directly opposite where the Northern Pacific depot now stands, but the growth of the town has driven the fish farther up and the best catches are now made two miles above this point. Between the small floating docks of the town and the fishing grounds fish play day and night during the runs, going upstream empty and returning laden with fish. Over 500 boats are employed in the industry, about 75 of them power boats.

It seems strange that the oulachan, so far superior to the eastern smelt, has never reached the eastern markets. The fish are packed in 50-pound boxes for shipment and the earlier catches sell in the wholesale market at from \$2.50 to \$5.00 the box; but in the height of the season the ordinary fisherman gets only about \$50 for 200 boxes—10,000 pounds. On the river are several men who buy at these prices from other fishermen, maintain boats of their own and ship direct to retail markets. Portland has wholesale buyers on the ground, and probably the greater part of the retail trade is supplied through them. At Kelso smelt have been shipped as far east as Wisconsin. The fishermen say that with cold storage facilities the output could be greatly increased. Canning in the form of sardines has never been tried, though in the opinion of experts the fish so treated would discount the imported sardine. The market is usually demoralized early in the five months' season by schoolboys, who go out, load up a few boats with fish and become an easy mark for buyers. Often, too, Greeks and Italians come up the river in boats, stay a day or two and sell their fish for whatever they can get, and the men regularly engaged in the trade want to make it a licensed one, on this account.

The growing output of the oulachan would seem, on the face of it, to demand a Gifford Pinchot on the fish commission. But the supply increases year after year with the demand and apparently knows no limit. Last year's run broke all records and the Cowlitz smelt fisher is looking forward in happy confidence to the coming winter, when the deeps and shallows of the streams will again be filled with oulachan.

Sad Blow.

THE RANGE WITH A REPUTATION MADE IN ALL SIZES AND STYLES.

MAJESTIC NEVER-BURN COOKER, STEAMER, CULLENDER AND DRAINER—The Perforated Cooker, shown in center, has small feet which admit water at the bottom. Nothing can burn. Food can be lifted out of main vessel (shown on left), at the same time draining off all the water. The Steamer or Cullender shown on right can be used as an ordinary Cullender. It also fits on top of main vessel, and is used as a steamer.	THE MAJESTIC EXTRA Heavy Stamped Iron Marbleized Kettle, complete with cover and handle that holds on cover.	THE MAJESTIC PATENT Never-Burn Wired Dripping Pan.—Size of pan 14 1/2 in. x 20 in. Made specially for the Majestic Set.
THE MAJESTIC 18-oz. All Copper Nickel-plated Tea Kettle, handsomely nickel-plated on outside, tinned on inside.	THE MAJESTIC 11-oz. All Copper Nickel-plated Coffee Pot, handsomely nickel-plated on outside and tinned on inside.	TWO MAJESTIC PATENT Never-Burn Wired Dripping Pans. Size of pan 9 in. x 12 in. Made specially for the Majestic Set.

REASONS WHY THE GREAT MAJESTIC YOU SHOULD BUY

- 1st. It has the reputation of being the best range money can buy.
- 2nd. It not only has the reputation but IS the best range made, and we will prove this to you if you will let us.
- 3rd. It is constructed of malleable iron, material you can't beat, and of Charcoal iron, material that resists rust 300 per cent greater than steel, is riveted together air tight. No heat escapes or cold air enters the range, thus uses very little fuel to do perfect work.
- 4th. The reservoir alone is worth the price of range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left hand lining, and is movable and sets on a frame, hence cannot wear out. When water gets too hot it can be moved away from fire.

Majestic ranges use less fuel; heat more water—and heat it hotter; costs practically nothing for repairs; lasts three times as long; bakes better; easier to keep clean and gives better satisfaction than any other range on the market. If you know positively that the above statements are true, wouldn't you buy a Majestic at once?

<h3>SOUVENIR FREE</h3> <p>To any person (not children) who will allow the Majestic Man to show them the merit of THE GREAT MAJESTIC RANGE during demonstration, will get a useful and beautiful souvenir</p>  	<h3>SET OF WARE FREE</h3> <p>If you call at our store during our Majestic Demonstration Week and allow us to show you the many advantages and superior qualities of the Great and Majestic Range, and will purchase one at the regular price we will give you Free the beautiful and useful Souvenir Set of Ware illustrated in this advertisement.
