NUMBER 46

DRAGGING A ROAD ACROSS IOWA TWELVE COUNTIES HITCH DRAGS TO HORSES, AUTOMOBILES AND WAGONS TO SMOOTH THE HIGH-WAY FROM THE MISSISSIPPI TO THE MISSOURI, A DISTANCE OF THREE HUNDRED AND EIGHTY MILES.

Again has the "Iowa Idea" come to the front and center, this time in the matter of good roads. If the building of a road across the state from Council Bluffs, on the east bank of the Missouri River, to Davenport, on the west bank of the Mississippi, three hundred and eighty miles away, in less than five months; if perfecting similar dragged roads from Des Moines to Burlington, and thence to Okoboji, four hundred miles distance; if another river-to-river road from Clinton to Council Bluffs, four hundred miles away, not to mention the fact that Dubuque and Sioux City are discussing the advisability of being joined by a dragged road—these things indicate a solution of the good roads problem, Iowa has solved it.

It is due primarily to the desire of J. W. Eichinger, news editor of the Des Moines Capital, to perform a newspaper feat. By the success of his undertaking Eichinger has stamped himself as a genius, and when other states

grasp the simplicity, soundness, low cost of maintenance of his idea, they will rise up in thankfulness and call him blessed. The dauntless energy of Eichinger galvanized human sloths into activity and made working on a public highway with a split-log drag the popular form of amusement.

The result of all this? The most successful road-making plant ever built by man, with the brilliant Eichinger pressing the button, to the intense amazement of his employer, Lafe Young, even though his long political career has taught him never to be surprised.

Any man who can transform an Iowa mud road to a nearly perfect highway, three hundred and eighty miles long, at an estimated cost of building and maintenance for the first year of three dollars a mile, has grasped a new idea in the matter of road building. That the road from Council Bluffs to Davenport is a success and is commanding the attention of the

entire country and Canada, is shown not only by its splendid condition, but by the enormous mail which pours in upon the Secretary of the River-to-River Dragged Road, which is Mr. Eichinger's official designation—without pay, by the way.

At first Eichinger tried the correspondence method of attempting to interest persons along the proposed route of the River-to-River Dragged Road. The frost that nipped this crop of letters would have discouraged most men, but not this slender, stoop-shouldered, fair-haired chap, who is a human dynamo, when it comes to radiating energy. Still some of the seed fell upon fertile soil, and Eichinger cultivated it.

He made the township his road-working unit.

The famous River-to-River Dragged Road runs through twelve counties—Pottawattamie on the west, then in order through Cass, Audubon, Guthrie, Dallas, Polk, Jasper, Poweshiek, Iowa, Johnson and Muscatine to Scott,

on the east. The principal towns through which it passes are Council Bluffs, Neola, Avoca, Atlantic, Exira, Guthrie Center, Redfield, Adel, Des Moines, Colfax, Newton, Grinnell, Brooklyn, Victor, Marengo, Iowa City, West Liberty, Moscow and Davenport. Some forty smaller places are also touched. The country is the richest in the state. The road passes through a territory decidedly hilly in the west, but of surpassing beauty. One sees the signs of prosperity, peace and happiness on every side. If this road has done nothing else, it has demonstrated to the farmer and his family that their life is the ideal existence and made them contented with it. This model highway has made the trip to town and market a joy instead of the horror of other days. The average length of the haul for the husbandman from his barn to market is now but eight miles, and it does not require a day to make the round trip.

Addams! Addams! So Say We All, Gentleman!

Is there a Democrat but believes that if Senator McCreary gets the gubernatorial nomination, the chances of his party's success will be in doubt? Is it not the part of wisdom, therefore, for him to turn to some one who can bring the people to victory? William Addams, of Harrison county, is such a candidate. Place your banner in his hands and he will give you the hope and enthusiasm that must land us all winners. A few weeks since we were left floundering, feeling that there were none to make an active fight to oppose Senator McCreary for the nomination, but since the manly stand and clean-cut statements of Mr. Addams, our doubts are at last thrown aside and hope has taken the place of our doubts in our party success.

There be times when our darkest periods are just before the dawn, and Democracy in Kentucky appears to have passed through them. From now on every one should feel, with such a man as Addams to lead, that success must surely come.

Mr. Addams has a number of relatives and friends in "Old Shelby," and, though this county is in Mr. McCreary's district yet it can be turned to the Harrison county man who can land the party triumphant in November.

Let us stop our party bickerings. Addams is a man we can unite upon, and let us all, therefore, get together and be for Addams.

Let the party slogan be, "Party success," and Mr. Addams will be selected. He is the man of the hour, the man you want, the man you need, the man you must have.

Addams! Addams! So say we all! Addams!

Notice To Road Overseers.

A short time ago I called attention of the road overseers to the necessity of putting their roads in good condition early in the spring, so they would be well packed down by next winter. I am glad to hear that a great many of the more progressive overseers have been working their roads and are putting them in condition, but some have, so far, failed to work their roads. There is considerable complaint about some roads that have not yet been worked, and I want to warn the overseers that they must proceed to put their roads in good condition. If this is not done, I shall issue warrants for the delinquent overseers upon complaint.

I do not wish to fine any one if it can be avoided, but we must have better roads. A word to the wise should be sufficient.
J. W. BLAKE, County Judge.

Marion's New Distinction.

Our little city awoke Wednesday morning to learn that a new and a very distinguished one had been added to her many laurels. We have grown accustomed to having a U. S. Senator, a Congressman and many lesser lights among our citizenship but every one must now feel a keen appreciation of the fact that we possess a lady doctor of laws. Miss Ruby James daughter of Mr. and Mrs. L. H. James, and sister of U. S. Senator to be, O. M. James, was examined before Judge J. T. Hanberry at Eddyville, and passed a most creditable examination and was awarded licence to practice law. Judge Hanberry was assisted by Senator N. W. Utley, E. H. James and L. H. James. Miss James has achieved this success by her own efforts and a studious application of native ability and that she will win fame we confidently predict. Remember you must now write it, Miss Ruby James, L. L. D.

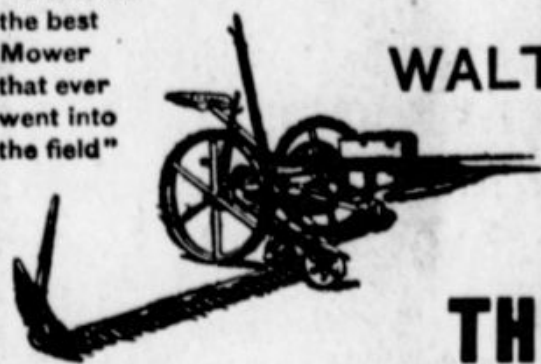

Now is the time get rid of your rheumatism. You will find Chamberlain's Liniment wonderfully effective. One application will convince you of its merits. Try it. For sale by all dealers.

ESKEW BROS., Machinists, REPRESENT INDUSTRIAL PROGRESS.

Are You Advancing?

PROGRESS means to make improvement—to advance. For a farmer it means the use of any machine that will increase crops with the least work. When you progress you are striving for easier methods of doing things, better ways of living, and the attainment of all improvements which will help you to live comfortably so that you can enjoy your work, and at the same time relish the free, fresh air and sunshine. Are you doing it? Do you progress?

"A little bit
the best
Mower
that ever
went into
the field"

THE NEW WALTER A. WOOD MOWER THE ADMIRAL

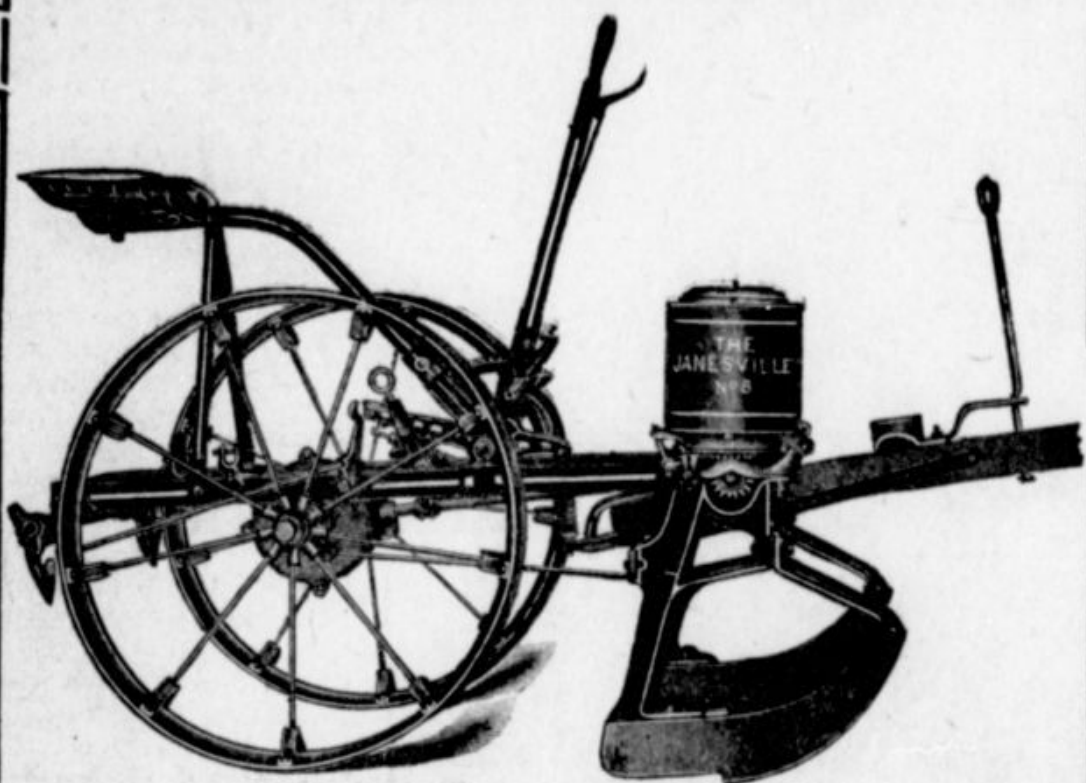

The Admiral is the latest Walter A. Wood Mower. In it is concentrated their fifty-seven year experience. It possesses all the peculiar features of construction that have made Walter A. Wood Mowers world-famous. Its new features make it even more valuable to the farmer. The following statement of a prominent Illinois dealer indicates the popularity of the Admiral and suggests the wisdom of investigation.

"The Admiral is just a little bit the best Mower that ever went into the field. Farmers come in every day telling what a wonderful machine it is. We would not buy anything else."

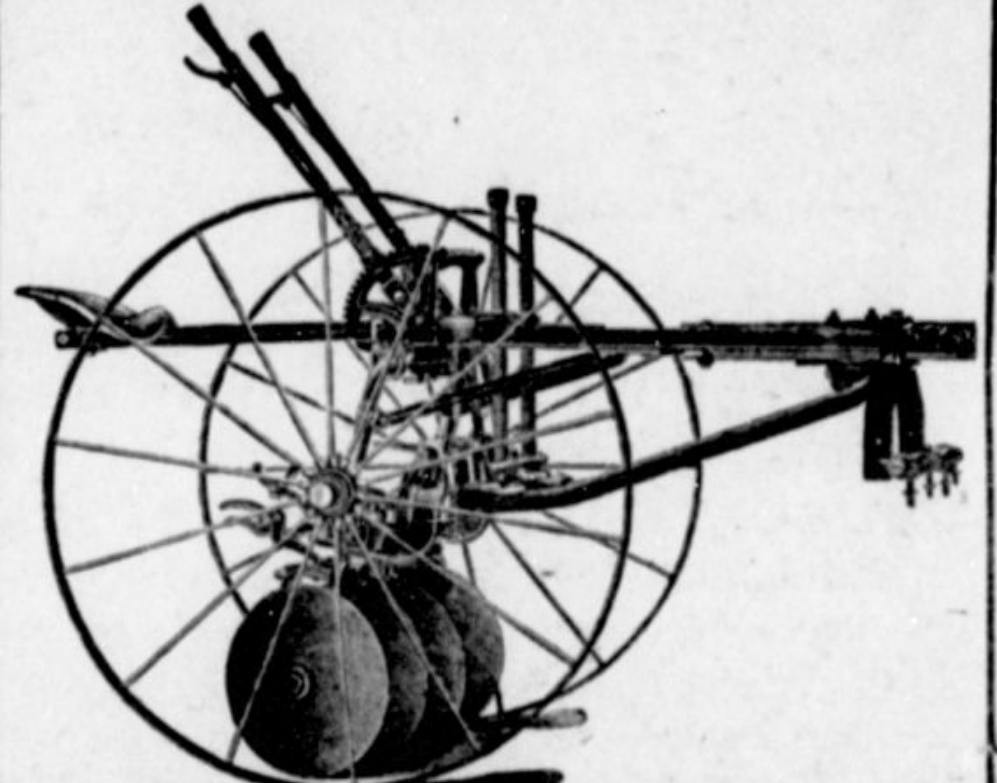

We want to show this up-to-date Mower to every farmer in this locality. No one who wants to keep posted on the newest in farm machinery will neglect to investigate the Admiral. It will surprise and delight you.

Do You Believe In Progress?

MEN who progress are men who use McCormick or Walter A. Wood's up-to-date binders, hay-rakes, mowers hay-tedders, reapers, harrows, cultivators, planters and etc. Are you up to date? Are you using modern farm machines? Look at your equipment. Are't some of your machines pretty well worn? Shouldn't you replace them? There is no line of farm machines superior to our line. These machines are used in every civilized country in the world.

McCormick and Walter A. Wood machines are recommended by men who use them, they could have no better recommendation than this. It is to your interest to use this line as they are best and give the least trouble in repairs, as we carry a full line at our shop. Get our prices and see our machines before you buy. We take pleasure in showing them.

Announces For Governor.

In the following unique card, Hon. Max Hanberry, a prominent member of the Cadiz bar, formally announces his candidacy for Governor of Kentucky:

Having stood for many years for "equal rights to all and exclusive privileges to none," (not even barring the women), and all these years having advocated five cardinal principles, and these being so well known to most of the people if not all, and owing to the great, terrific and irresistible pressure brought to bear on me, and owing to the further fact that even Gus Willson has once been elected Governor, though knowing as I do that it will be a great sacrifice personally and financially to accept this responsible position; yet, owing to this great pressure, I have decided to accept it. In fact, I see no possible way to avoid it; and now, in order that none may misunderstand my position, I will one more time make myself clear.

First—I am unalterably in favor of giving every "yellow dog" Democrat a lucrative office—one which will be remunerative enough to keep him from want, exertion, and worry.

Second—I am in favor of giving every white Republican (especially those who voted for Gus Willson and still remain loyal to their party) a pension, same to be ample to keep the wolf from the door without effort or care on his part.

Third—I am in favor of giving every negro voter a watermelon patch, a mule and a fish pond, with imported labor to handle his mule and cultivate the melons, free of care or cost to him.

Fourth—I am in favor of and will give every married woman a 40-horse-power automobile of their own selection, and two hats each every year as large as any turban wheel now in use for the operation of any grist mill in the State of not more than 600 barrels capacity, together with a half ton of chewing gum for each one annually, and will grant each one the exclusive privilege of saying anything she may see fit to say about her neighbor, no odds how slanderous, without fear or hindrance, either of law or equity. Of course, it goes without saying that every girl and single woman in all of the Commonwealth is to have a wicket pheasant and a spotted pony without cost or care.

So with some degree of impatience, not on my own account, however, but on account of the "dear people," I await my inaugural.

MAX HANBERRY.

CHICAGO JEWELRY STORE ROBBED.

In Broad Day Light—\$25,000 Haul

Chicago, May 10.—Four armed robbers held up the jewelry store of Edward Alberti, on Milwaukee avenue, in the Northwest Side business section, forced Alberti and his clerks into a back room and robbed the store of diamonds and watches valued at \$25,000. The men remained in the store for a quarter of an hour, then entered a big automobile and away just as a patrol wagon full of policemen, summoned by a passerby, drove up to the store. Visitors, including customers, and Norman Strass, who entered the store while the robbers were at work, were ordered into the back room at the point of a pistol, robbed and tied up with Alberti and the clerks. Strass' sample case added \$12,000 to the loot. In all, nine persons were tied in the room when the police arrived.

STEAMSHIP GOES DOWN AT SEA

ALL PASSENGERS AND
MAILS SAVED.

Distress signals flashed through fog. Tokio, May 9.—The Pacific Mail steamship, Asia, from Hong Kong for San Francisco, has sunk off Finger Rock, South China. The passengers are reported rescued and the mails saved.

The Asia sailed from Hong Kong Friday and was due in San Francisco May 19. She operated regularly between those ports and was commanded by H. Gaukroyer. The vessel was built in 1883 and registered a little less than 5,000 tons gross.

Finger Rock is a remarkable projection from the Heau Chu islet, the southern of Tachau group of islands, which lie about 200 miles south of Shanghai.

The ship was on her way to Shanghai, which was her regular port of call.

The Asia struck Sunday morning while feeling her way cautiously through a thick fog, in the direction of Shanghai. Her wireless signals of distress were picked up by the steamer America of the Toyo Kisen Company, which was enroute from Shanghai for Hong Kong. The latter vessel immediately replied:

"We are coming to your assistance." No further message was received by the American, which pushed hard in the direction of the Asia.

The America arrived off Finger Rock at 3 o'clock yesterday

afternoon, but owing to the fog, which continued heavy, was unable to discover the whereabouts of the distressed steamer.

The America laid to until the weather cleared, when she found that the Chinese vessel Shang-Sin of the Taku Steamship Co., had gone to the aid of the Asia and rescued her passengers.

The latest report received by the agent of the Pacific Mail steamship line at Yokohama says that the Asia was sunk, but that it is believed the passengers with the mails were all saved.

New York, April 25.—Survivors of the wrecked steamship Asia report at Shanghai they were attacked by pirates. The captain stood by his ship and fired 500 rounds.

ONE WEAK SPOT

Most Marion People Have A Weak Part And Too Often It's The Back.

Everyone has a weak spot. Too often it's a bad back. Twinges follow every sudden twist. Dull aching keeps up, day and night. Tells you the kidneys need help—For backache is really kidney-ache. A kidney cure is what you need. Doan's Kidney Pills help sick kidneys.

Are for backache and urinary ills. Marion people recommend the remedy.

A. H. Fritts, Deopot St., Marion Ky., says: "I know Doan's Kidney Pills to be an effective and reliable kidney remedy. For some time I had lameness in my back and pains caught me when I arose from a stooped position. The kidney secretions were also irregular in passage and I felt miserable in every way. Doan's Kidney Pills, procured at Haynes & Taylor's drug store, were prompt in relieving me of all those annoyances. I have no hesitation in giving this remedy my highest endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other. M4-11

Do Ghosts Haunt Swamps?

No, Never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only 50 cents at Haynes & Taylor's and Jas. H. Orme's drug store, Marion, Ky.

THE FIGHT.

"There are many girls, Joe--there's Miss Imogene Moss--A good enough girl, in her way," said the boss, "She's in fact an expert, much more so than Green, When it comes to the work on a writing machine.

"And yet, after all, there's a difference, Joe--For altho' you are young, yet all this you may know--She might run a machine without friction or strife, And yet make a man an indifferent wife.

"And Joseph," still went on the Bald Headed Man, "A man may work on, do the best that he can, And yet, what's the good, if he marries a wife, And is hamper'd and hemm'd in and heapeck'd for life?

"What a hopeless, unhappy, unfortunate fate! What a dark and deplorable, glimmerless state! And yet, such would be your condition, I ween, With that green, giggling, gum-chewing gump Imo--!"

That smooth going sentence was never complete! Like a huge jumping jack, Joe Turk bounce'd to his feet! Enraged and indignant, he now made across To where stood like a Spynx, the big bald-headed boss.

"You bound!" began Turk, "You contemptible cur! To so speak' without cause, disrespectful of her--That dear, noble girl, the bright-eyed Imogene, Whom I took from your death breeding writing machine!"

Just how it was done no one ever could tell, For, tho' over so soon, 'twas done none the less well, (Bim!) (Biff!) (Ker-whack!) Through the window--Joe's plan--As if kicked by a mule, crashed the Bald-Headed Man!

UNION GROVE

(Delayed from last week.)

Rained our Sunday School out last Sunday April 30, but it will convene again next Sunday evening at 3:30 o'clock sharp.

Mr. and Mrs. D. B. Wigginton have just returned home from a visit to their daughter, Mrs. Andrews, near Piney Fork.

Mack Hillyard says he don't see how he is to get those water-melons out of Walter Wigginton's garden--that poultry fence is in the way.

Richard Thompson planted corn Friday and a good lot of it was up Sunday morning. Who can beat it?

Tobacco plants are nearly ripe so you had better get busy.

Grass is growing fast and those jersey heifers are giving large quantities of good rich milk and you would like to cut that nice yellow butter.

D. B. Wigginton sold a fine jersey cow to Mr. Street for \$50.00 and has three more left, but two of them are \$75.00 a piece and don't care to sell at that price.

Ollie James is in the field and is painting Paynter up alright. We won't forget you Ollie.

Salem, Ky., April 8, 1911.--The Democratic Executive Committee for the Seventh Legislative District of Kentucky, composed of the counties of Crittenden and Livingston, this day, in accordance with a call made by the Chairman of the said Seventh Legislative District of Kentucky, assembled in this city in executive session, being desirous of holding a Primary Election under the provisions made and provided in such cases, to nominate a candidate for the office of Representative in the Seventh Legislative District of Kentucky, do now call and direct and hereby give public notice that a Democratic Primary for the purpose of nominating a candidate for Representative for the Seventh Legislative District of Kentucky, will be held in said counties of Crittenden and Livingston, and the polls for this purpose will be opened in the various voting precincts of said Counties of Crittenden and Livingston at the usual voting places therein, Saturday, July 1st, 1911, between the hours of 6 o'clock a. m., and 4 o'clock p. m., as required by law.

All known democrats and all other persons who desire to affiliate with the democratic party at the coming November election, and who will abide by decision of said Primary, and all young men who are not of age now but will be of age and legal voters at the November election 1911 and who desire to affiliate with the democratic party, are eligible voters to participate in said Primary election.

It is desired by said Democratic Executive Committee for said Legislative District, that all expenses of holding said Primary election shall be borne and paid by the candidates for said office, being voted for, which will be the sum of \$150.00 which sum shall be borne equally by each candidate, if there is more than one candidate for said office; and which sum shall be paid to the Committee in cash, by being placed in the hands of R. B. Clement, Chairman of said Committee, on or before the 10th day of June, 1911. Any person desiring to submit his name as a candidate for the office, to be voted for in the Primary hereby called, for the democratic nomination, shall not, later than 15 days next preceding the holding of said Primary, viz 14th day of June, 1911, apprise the Executive Committee of said District of the fact that he is a candidate by notifying R. B. Clement, Chairman of said Committee, at Marion, Crittenden county Kentucky, that he is a candidate for Representative of the Seventh Legislative District of Kentucky; and, upon his compliance with the conditions prescribed by this Committee governing candidates, and paying the required entrance fee as prescribed herein, shall have his name printed upon the ballots as a candidate for the office of Representative.

In the event of there being only one candidate for Representative for this District, complying with the requirements of this call, then and in that event said primary will be called off, and the Democratic Committee for the Seventh Legislative District of Kentucky, will meet at Salem, Ky., on the 7th day of June, 1911, at 11 o'clock, a. m., and will proceed to take the necessary steps to declare said candidate the nominee of the Democratic party for Representative.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. NARROW ESCAPE

L. E. Gilbert Gets Caught In Flood
Near Dixon, Saturday

Just after the big rain, Satur-
day, Dr. L. E. Gilbert, of Van-
dersburg, in trying to go from
Dixon to G. W. Grant's, near
here, came very near getting
drowned near the railroad cross-
ing, near the home of Mrs. Sal-
lie Mooney. At the point allud-
ed to the public road crosses a
branch, which following one of
the biggest rains this country
has ever had, had been transposed
into a mighty river. The Dr.
undertook to cross the stream
but soon found it was "uncross-
able," and that his horse was
swimming, his buggy clear of
the earth, and that he must seek
escape. He lunged into the water
and managed to reach land
with no further injury than a
good fright and a thorough wet-
ting. The horse and buggy came
out alright, also, and with the
exception of the loss of a few
little articles which were in the
buggy, there was no damage.

Hardin County Farmer

Unclears Old Relics.

Elizabethtown, Ky., May 10.--
Hugh Yates, a farmer of near
Vine Grove, this county, discov-
ered an ash pit at the foot of a
Bluff ninety feet high on his farm
which he believes was built by
the Indians or mound builders.
It is 20 feet wide, five feet long
and nine feet deep.

Mr. Yates excavated a space

ten feet square and eight feet
deep and discovered deer horns,
peculiar shells, arrow heads and
pieces of pottery made of clay
and fine flint and some composed
of clay and mussel shells. He
also found bones carved in many
shapes, three human skeletons
and many fragments of skeletons.
In his researches he unearthed a
large ring made of black stone.
Only about one-fifth of the ash
pit has been removed and what
the other four-fifths will reveal
is anxiously awaited.

TOBACCO TIDINGS.

BY R. F. WHEELER.

SOME REASONS WHY

Farmers Should Pool Their Tobac-
co With The Stemming Dis-
trict Tobacco Association.

Because it was organized at a
time farmers were selling their
tobacco at prices too low for the
tenants to live by raising it, and
the land owners could not afford
to have it raised on his land nor
could the map, who worked his
own land get pay for his work.
Because these conditions were
soon changed by farmers pooling
their tobacco with the Stemming
Association, to prices that were
profitable, and as there was no
other association or union until
after the advance had come--let
us give the credit the Stemming
District for the advance.

Because the Association is well
known to the tobacco markets of
the world, and has a reputation
for fair dealing with them.

Because it operates in a terri-
tory that raises a type of tobac-
co that is famous at home and
across the waters; one that is
now in demand, and will always
be.

Because it has good financial
backing, and is in a position to
set a price and hold out for it.

Because it has for its general
manager, a tobacco man, who
has had some thirty-five years
experience, handling and selling
tobacco, who is posted on tobac-
co markets and everything else
that effects the prices of tobacco.

Because it has sold the farm-
ers' tobacco for more money
than any other association ever
has for the same kind of tobacco;
saying a great deal, but, if any
other association has sold its
pool for 8 cents per pound or

graded any farmer's tobacco at
10 cents per pound, I mean for
stemming tobacco, I want its
name.

Because it has always dealt
fairly with its members, and the
people to whom it sold their tobac-
co, and has the confidence of
all business enterprises and they
are as a rule, friendly to it as
well as the press and profession-
al men.

Because it has accomplished
all its work by methods that are
honorable and lawful; no barns
burned; plant beds scraped; or
unbelievers thrashed by it.

Because there is not a more
up-to-date business concern in
the State. The officers can ac-
count for every penny paid into
it, or out by it, and are willing
at all times to "show up" to its
members.

Because it has in the past few
years wrenched from the greedy
buyers thousands of dollars and
placed them in the pockets of
the tobacco grower, who was
the rightful owner of them.
These thousands have found
their way from the farmer into
every avenue of business, every
man, woman and child in the
five counties have been benefited
by it.

Because if this Association
lives, it must have the patron-
age of the tobacco grower. All
the schemes that could be de-
vised, and all the falsehoods that
could be thought of, are at work
to ruin the organization, and
here are the reasons:--jealousy
on the part of some; ignorance
on the part of others; and greed on
the part of the remainder.

Will the tobacco growers al-
low these three factors to rule
or will they be their own mas-
ters and be ruled by their better
judgement and rally to the sup-
port of the Association that
brought tobacco up and the only
one that can hold it up. Con-
sider your own welfare, and
pool your 1911 crop with the
Stemming District Tobacco As-
sociation.--T. M. Dean.

Above we publish an excellent
article from Mr. Dean giving
several reasons why the farmers
of this county should pool their
tobacco with the Stemming Dis-
trict Tobacco Association. We
would like to add the following:

1. This Association is com-
posed of farmers.
2. They are not only farmers,
but they are tobacco
growers.
3. They are not only tobacco

growers but all grow the
same type of tobacco.

4. More than three fourths
of the farmers of the district
pool their tobacco with this As-
sociation and the remainder sell
independent, or pool in some
other organization.

The object of the Association
is to get all of the tobacco known
as the stemming or English type,
in one organization, and have
only one seller to meet, on equal
terms, the one buyer, of our
tobacco. As stated above we
have more than three fourths of
this tobacco in the Association
so that the remaining tobacco
that is sold independent, or pool-
ed in some other organization,
is sold in competition to Associa-
tion tobacco, and has a tendency
to depreciate the price. In other
words if you pool with the
Association you help to raise the
price. If you sell independent,
or pool in some other organiza-
tion you help to lower it by caus-
ing competition in the sale of
your product, to the advantage
of the buyer.

ROAD AND SCHOOL

LEGISLATION IN PROSPECT

Frances, Ky., May 9.--Dear
Editor: I am almost daily in re-
ceipt of inquiries regarding the
outlook for School and Road leg-
islation at the next meeting of
the General Assembly, and I
take this method of giving my
views as to the likelihood of re-
lief along these lines.

First as to school reforms: That
depends largely upon whom the
people place at the head of the
schools of the state, in the office
of superintendent of Public In-
struction, at the coming Novem-
ber election. His suggestions
are taken by the average legis-
lator to be a panacea for educa-
tional ills, and often, too often,
they scurry back and forth at
his nod and beck only too glad to
carry out his behests. If you e-
lect an educational crank to that
important office, you may expect
conditions to remain topsy turvy;
on the other hand if you elect a
man from the people who is con-
siderate, practical and most es-
pecially not a fad hunter, but can
see that only educational progress
can be made by recognizing the
rural schools as the only true
foundation upon which a perman-
ent educational edifice may be
erected. And the unstinted sup-
port of the common schools prop-

erly equipped and manned by a
competent teacher is the first
step in the onward march to pop-
ular education.

These lines are written in the
interest of no particular candi-
date, and it remains to be seen
whom the two great political
parties will offer to the voters
for their support. Will he be an
educator of recognised ability,
selected for his fitness for the
place, or will he be some two by
four who gets on the slate, in
the division of the offices which
the politicians often make.

Also the Senate of Kentucky
must undergo a change before
the common schools may expect
much recognition, and happily
one half of it will be replaced
this fall, and we sincerely trust
that voters make no mistake.

The old Senate could not or
would not change a line in the
Sullivan law, nor would they
accept any measure coming from
the people through the House of
Representatives for the relief
of the common schools. A House
bill meeting the demands of the
people, and giving every child in
the state an equal chance for an
education was passed and sent
over to the Senate where it was
promptly pigeonholed, and the
man who was running the busi-
ness over there, refused to call it
up for consideration even when
more than two thirds of the Sen-
ators signed a written request
for its passage.

The big chiefs of the Senate
were too busy defeating the Co.
Unit bill to give five minutes
time for the passage of a law so
vital to the interests of the
seven thousand school children of
the state.

Now about Good Roads: We
will have some thing to say next
week:--M. F. Pogue.

Hobble Skirts Good- For Climbing Ladders.

Buffalo, N. Y., May 9.—The spectacle of a woman descending a ladder from an upper story of a big department store provided entertainment for a crowd of several hundred people here last night.

Late in the evening Patrolman Pike saw the woman at the upper window of the store. She was crying hysterically and trying to attract the attention of persons on the street.

A long ladder was secured near by. The officer started to go up, but the woman waved him back.

"I'll come down alone," she said, and she did, the crowd cheering as she gingerly picked her way down the fifty-five-foot ladder. She proved to be an employe who had been working late and had been inadvertently locked in by the watchman.

"The hobble skirt is vindicated," remarked the policeman. "It's a great thing for a woman on a ladder."

CHINA GETS \$5,000,000 LOAN FROM JAPAN

Money for Railway Board Deficit. Tokio, Japan, May 5.—Subscriptions to the \$5,000,000 loan which Japan has made to the Chinese Government through the Yokohama Specie bank, aggregate \$8,450,000. Foreigners will be allotted more than \$2,500,000.

The loan was quietly negotiated and came as a surprise to the representatives of foreign financial interests, since it was announced there had been an outcry from the provincial Chinamen, who are very jealous of the Japanese and who are easily inflamed by those having political purposes to serve. However it is not thought that this opposition will be serious and the conclusion of the loan at a time financial negotiations between China and other countries are pending is the cause of much satisfaction here.

The loan will be used to meet a deficit of the railway board and China gives in security 5 percent railway bonds.

J. B. M. Goes to Caldwell Springs.

Mr. Editor:—On Thursday evening April 28th, in company with a sixteen-year-old kid a clean shaved face, long limbs, which seemed to be very much in his way; gray eyes, with a far-away look; and a decided mouth that he used quite frequent. He was our hackman and he appeared to see every thing except the side tracks and mud holes but by the way he did very well, and in about one hour from the time we left our "shack" we pulled up at Crayne. This is one of the business points on the I. C. railroad, consisting of two or three stores, blacksmith shop, tobacco factory, depot, livery stable, doctor's office, school and church buildings. Here we replenished our wardrobe and moved on, passing farms and residences making a drive of about four miles, this boy said "whoa" at the residence of Ed Myers, near Mexico. Here we spent a pleasant night. Rain detains us until about 10 o'clock Friday morning. The sun having shone out we bid these kind friends adieu. We started on our way again and in about forty minutes we reached Frances. This is a small inland town at the cross roads. We noticed a school house, an elegant and substantial church building, a shop, a large business house, Masonic hall and a number of residences. We passed some two or three mining plants on either side of the road. About 11 o'clock we reached the end of our journey, Caldwell Springs church. The brethren were holding a prayer service.

At 12 o'clock the good people spread a bountiful dinner in the grove and all partook of it with thanks.

At 4 o'clock the meeting adjourned until 9 Saturday morning. While attending the services we made our stopping place with Bro. Charley Ralston and family and we enjoyed our stay in their pleasant home—thanks.

Quite a crowd gathered at the church Saturday, and had a fine service and plenty of dinner on the ground for everybody. A very interesting service was in progress until about 3 o'clock, p. m., when black clouds began to gather from the west when all of a sudden, as if by magic, a streak of lightning flashed through that immense church building accompanied by a keen clap of thunder. The people began to move to and fro, almost breathless, waiting to hear the results. The lightning had struck a tree near the church killing a mule and shocked others. This closed the service. Sunday morning it was raining—nothing doing, and we retraced our steps homeward.

LEVIAS.

(Delayed from last week.)

Low lands greatly overflowed Sunday.

Infant child of Al Kirk was buried at Union Wednesday.

Carter McDowell and family visited near Walnut Grove first of last week.

Mrs. Lizzie Carter has a bad of erysipelas.

Mrs. Carrie LaRue was the guest of her sister, Mrs. Davenport, of Salem, a few days last week. Duke Davenport was quite sick.

Twin girls arrived at Lawson Franklin's recently. They are getting along nicely.

R. A. LaRue attended the Ministers and Members meeting at Caldwell Springs last week.

The Sabbath School visitor, Stone, reported our's among the best in the county. We are proud of this distinction and want to see it even better than now.

MONEY BACK

Haynes & Taylor Guarante: Parlistan Sage to Banish Dandruff

And also to stop that bald spot from growing larger; to stop itching scalp and falling hair, or money back. Parlistan Sage will drive every particle of dandruff from your scalp, because it penetrates into the scalp and kills the dandruff germs which are the cause of all hair diseases.

It is a most beneficial hair dressing and hair beautifier, not sticky or greasy, and is used by women of refinement the country over. Large bottle 50 cents.

"Parlistan Sage is the best hair tonic and hair grower I ever used. It is a grand dandruff cure and scalp cleaner, and also cures itching scalp."—Mrs. Lottie Davis, R. F. D. No. 7, Flint, Mich., June 20th, 1910. M11-25

CALDWELL SPRINGS.

(Delayed from last week.)

Owing to the inclement weather, but few delegates answered to the roll-call at the Ministers and Members meeting here Friday, but there was a good crowd present Saturday and everybody seemed to have plenty to eat and a good time. The heavy rain broke up the meeting rather abruptly on Sunday.

J. P. Pierce, of Marion, was with us Saturday.

J. B. McNeeley came across the county and answered to roll-call Friday.

Mr. Shadowen had a good mule killed by lightning at the church Saturday afternoon and another one knocked down and considerably injured.

Rev. John Board, of Flat Rock section, was the guest of Tom Stone and family Sunday.

Jim Brown came very near getting his mules drowned Saturday night on the Crittenden side of the Butler bridge.

Mrs. Riley, of Kuttawa, is spending a few weeks with her son, Dan N. Riley, though she has seen the frosts of eighty winters, she is still blessed with a good memory and activity of limb.

Wanted—100,000 boys to take the place 100,000 drunkards who die annually. My reader, have you a boy to spare?

If we remember correctly, when W. A. Blackburn made his second race for the Judgeship, of this county, he made the statement that Crittenden county was out of debt and had \$1200 in the Treasur. Now, we see from the report of the County Clerk, that the county is behind about \$230.00. The tax payers would like to know where that \$1430.00 has been spent. We believe every dollar has been judiciously used by our efficient officers, but where?

Pine Tar and Honey

Have been used for generations in treating coughs. Dr. Bell's Pine-Tar Honey contains both combined with other valuable ingredients. Look for the bell on the bottle. Be sure you get Dr. Bell's.

Saved Child From Death.

"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." For coughs, colds, hoarseness, lagrippe, asthma, croup and sore lungs, its the most infallible remedy that's made. Price 50 cents and \$1.00. Trial bottle free. Guaranteed by Haynes & Taylor and Jas. H. Orme, Marion, Ky.

Dragged Roads continued from first page.

Once Eichinger hit upon the township unit, he promptly proceeded to interest the influential men of the county in the project—farmers, bankers, automobilists, country editors, clergymen, merchants, school-teachers, and scholars, all were pressed into service. Governor Carroll appointed commissioners for each county, every one of whom received a commission bearing the great seal of the state, with a lot of ribbon, and was altogether an imposing document. And these men served without pay. Upon a diplomatic hint the townships of a county through which the road passed were formed into an organization like a company of infantry, with the "Special River-to-River Dragged Road Commissioner" as captain. He had his squads strung out along the road, and upon the word from Secretary Eichinger started them to work dragging the highway. The haughty owner of an automobile, perforce, hitched a drag behind his car and got to work. It did not take long to establish the fact that a motor-car could drag after a rain from eight to ten miles of the highway in an hour, thus leaving the road in excellent condition.

When the feminine portion of the community discovered that the dragged road meant more frequent trips to town, more visitors, and lots of touring cars whizzing by, they spurred the male laggards. Road-dragging parties became the vogue from the Missouri to the Mississippi. The old-time buggy ride, formerly a Sunday luxury, became an every-day occurrence. The farmer and his family started to talk motor-cars—and before they realized it they bought one. More than eight thousand cars have been sold in the state this spring. Up to date seventeen thousand automobiles have been licensed by the state. A slight change in the body enables the farmer to take advantage of the prices. His acquaintance with farming machinery makes the care and running of a motor-car mere child's play to him.

THE CRY OF THE DREAMER.

I am tired of planning and toiling
In the crowded hives of men;
Heart weary of building and spoiling
And spoiling and building again.
And I long for the dear old river,
Where I dreamed my youth away;
For a dreamer lives forever,
And a toiler dies in a day.

I am sick of the showy seeming
Of the life that is half a lie;
Of the faces lined with scheming,
In the throng that hurries by.
From the sleepless thought's endeavor
I would go where the children play,
For a dreamer lives forever,
And a toiler dies in a day.

I can feel no pride, but pity,
For the burden the rich endure;
There is nothing sweet in the city
But the patient lives of the poor.
Oh, the little hands too skillful,
And the child-mind choked with weeds!
The daughter's heart grown willful,
And the father's heart that bleeds!

New Bridge Succumbs

To High Water

Paducah, Ky., May 10.—McCracken county's new bridge is succumbing to the high water, and is now in such a condition that it can not be used. County Judge A. W. Barkley stated that immediate steps would be taken to have it repaired.

The bridge was built several months ago at a cost of \$17,000, the material being re-enforced concrete and steel. No maintenance bond was required and the damage will fall upon the county. Forty feet of the south end approach have given away and more damage seems inevitable. The bridge spans Clark's River.

"I Am Glad"

writes Mrs. Ethel Newlin, of Liberty Center, Ind., "that I began to take Cardui, for it has cured me, and I will never forget it. I cannot praise Cardui too highly for what it did for me. Before I began to take it, I was very bad color, suffered great pain and weighed only 105 pounds. Now I have a good color, do not suffer and weigh 125 lbs."

Letter From Kansas.

Atwood, Kan., May 29, 1911.

Mr. S. M. Jenkins,
Marion, Ky.

Dear Mr. Jenkins:—I have sent you a money order for another year's renewal of the Record-Press, so keep it coming. It is quite a pleasure to us to get the grand and glorious Press every week, and then we hear all the news from old Kentucky. The Kentuckians out here, are all doing quite well and are well

pleased.

It has been dry and warm here all winter, and spring crops look well, but the winter wheat does not look so well but may come out yet and make a good crop. We are having May showers now. This is a healthy country, it is high and dry, and the people seem to prosper here and quite a number of my farmer friends own automobiles. I have not invested in an auto yet but some time I think I will for this prairie country is fine for autos. Our roads are 40 to 60 feet wide and there is ample room for autos and teams to pass.

Well I will close by saying I wish you well, happy and prosperous. Hoping you may visit me some sweet day in north-west Kansas. I would be glad to meet you again.

Yours Respectfully,

J. B. Morse.

Throws Hymn Books At Sleeper In Church

Kentuckian—Provides Amusement For Congregation.

Los Angeles, May 10.—A Kentucky college president, who is conducting a series of revival meetings here, has adopted a novel and partly successful method of keeping the "pillars and sleepers" of the church awake during his sermons.

Dr. R. H. Crossfield, president of Transylvania University, was greatly annoyed during the sermon last night at the First Christian church by two of the brethren who had fallen into a state of coma, superinduced by unusual exertions during the day. After calling attention to the fact that he was listened to most attentively by others of the congregation, the doctor observed that one of transgressors, evidently a light sleeper, was aroused. The other, however, sitting on the next to the front pew, was not faced by such a soft rebuke, but began to apply the pressure until deep breathing increased into a sonorous snore, the intake being followed by rasping expirations.

The Kentuckian could stand it no longer. Keeping right on with the sermon he began to use force, and shied a Bighorn hymn book at the unconscious sleeper. one book followed another until audience was in a perfect titter. But the overborne man simply opened his eyes for a moment and, shifting his position from full face to profile, slept right on until the benediction without apparent interruption.

Dr. Bell's Pine-Tar-Honey For Coughs and Colds.

Continued from page 6.

It was discouraging work for Eichinger at the start. About the first ray of encouragement he received was a letter from Mr. J. V. Foster, a banker at Guthrie Center, who wrote: "Half an hour ago I received your letter in regard to a river-to-river dragged road. It's a practical project. Guthrie Center wants to be on that road. I have called a mass-meeting of the citizens at the City Hall this evening to discuss it."

But let Eichinger tell his story. He says:

"Guthrie Center held its mass-meeting. Foster was named head of a committee to select a route through the county. Men were chosen to take up the project with the road officers in each township in the county to be crossed by the road. They were to visit the farmers along the road and to report to the committee the condition of the highway."

"In the first mail next day there came a map of Guthrie County, a heavy black band indicated the route selected. A page of writing told of the condition of the road and what was proposed to make it right. The day following its receipt this map, four columns wide and as deep together with the story of the selection of the road, appeared on the front page of the Des Moines Capital. Copies of this issue of the paper were sent to every name secured in the twelve counties through which the road was to pass, to every commercial club, automobile association, every county and township officer, whose name had been secured from the county clerks."

"Then things began to hum. Personal appeals went out to the liveliest men in each county. 'Call your automobilists, commercial clubs, business men, supervisors, and township officers together. Pick a route, and send a map of it to the Capital,' was the request."

UPSET STOMACH

MI-O-na Stomach Tablets Drive Away Stomach Distress In Five Minutes.

Belching of gas; heaviness sour taste in mouth, dizziness, biliousness and nausea occurs simply because the stomach is not properly digesting the food. MI-O-na stomach tablets give instant relief to upset stomachs, but they do more; they put strength into the stomach and build it up so that it can easily digest a hearty meal.

Sick headache, nervousness, sleeplessness and bad dreams are all caused by fermentation of food.

Stop the fermentation; renovate the stomach and make it clean and sweet and half the ills of the human family would promptly disappear.

If you have stomach trouble of any kind don't overlook the fact that MI-O-na is a doctor's prescription, and that it's as good a prescription as any doctor will write for years to come.

Haynes & Taylor sell MI-O-na stomach tablets and so do leading druggists everywhere. They are rigidly guaranteed to cure any case of stomach disease, or money back.

A large box of MI-O-na stomach tablets costs but 50 cents. They act so quickly that after dinner distress, heaviness and belching disappear in five minutes. Give MI-O-na a trial on money back plan. Free trial treatment of MI-O-na will be sent to any reader of the Record-Press on request. Address Booth's MI-O-na, Buffalo, N. Y. A27 M11.

Two Caves Fall In

Last week while Mr. J. R. Scrivenor was building a fence close to the foot of the knob he felt his right foot sinking in the ground and by jumping he avoided falling into a hole which was made by the earth caving in. The hole was found to be twenty odd feet deep and to have water in it. About the same time Mr. William Russel, who works on the farm of Mr. H. K. Jagers, of the Hillview section, was plowing with a horse and a mule; when going through a flat bottom the ground under the horse gave way and the horse sank in the ground up to his head. Mr. Russel removed the harness so that the mule would not be pulled in and he ran for help. The horse had a leg broken and died soon after being taken out. The hole fell in about fifteen or twenty feet. It is conjectured by some of the older citizens of the community that this section is over the Echo River, known so well by all who go through the Mammoth Cave.

AFTER 7 YEARS SUFFERING

I Was Cured by Lydia E. Pinkham's Vegetable Compound

Waurika, Okla.—"I had female troubles for seven years, was all run down, and so nervous I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound, and began its use and wrote to Mrs. Pinkham for advice. In a short time I had gained my average weight and am now strong and well."

—Mrs. SALLIE STEVENS, R. F. D. No. 2, Box 51, Waurika, Okla.

Another Grateful Woman. Huntington, Mass.—"I was in a nervous, run down condition and for three years could find no help."

"I owe my present good health to Lydia E. Pinkham's Vegetable Compound and Blood Purifier which I believe saved my life."

"My doctor knows what helped me and does not say one word against it."

—Mrs. MARI JANETTE BATES, Box 124, Huntington, Mass.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, and nervous prostration.

Kentucky's Smallest Man

Dies At Hickman

Hickman Ky., May 2.—Willie Williams, aged 18 years, died at his home of his uncle, Caleb Kelley, in West Hickman, after several weeks' illness. He had the reputation of being the smallest man in Kentucky. He was not more than waist high to the average man, or about 45 inches, and his legs were exceedingly short in proportion to the size of his body. His head was much larger than the head of an ordinary man. He was a son of Henry Williams, of this city, who is six feet tall.

MADDENED ELEPHANT

KILLS HIS TRAINER

Picks Up Victim In Trunk, Hurls Him to Ground and Tramples Upon Him

Dickson, Mo., May 10.—Hundreds of persons yesterday saw an infuriated elephant hurl its trainer into the air and then, after crushing him with its weight, repeatedly pierce the body with its tusks.

The tragedy came while James Hildebrand, the trainer, was endeavoring to put the animal, which belonged to a Wild West show, into a car. Hildebrand was adjusting the chains which bound to the elephant its mate.

Without warning the animal became enraged and wrapping its trunk around the trainers body, lifted him high into the air and then dashed him to the ground. It is believed he was killed instantly.

With its rage unsatisfied, the elephant began kneading the trainer's body with its fore feet. Then it dragged the body thirty feet along the railroad tracks in the yards and repeatedly thrusts his tusks into it.

Attaches of the show ran to the rescue with pitchforks and drove the elephant from its victim. It was not subdued until its sides were streaming with blood from the goads.

Immediately after the tragedy the elephant was shot. Hildebrand had been the trainer for years and frequently slept beside the elephant.

R, F. D. NEWS

If all the 90,000 horses used in the rural free delivery service in the Postoffice Department were stood in a straight line from New York to San Francisco there would be a horse every 46 yards. The distance, as the crow flies, is 2,350 miles.

Forty thousand men do the work and practically all the carriers have two horses, while some of them have three, made necessary by long, sand or hilly routes.

Now, three horses, on an average, only lasts three years at the work, which is very hard. They are worth, say \$100, each.

So it follows that the carriers must have one new horse on the average every year, to the tune of \$3,000,000, and this three million goes to the farmers on the different R. F. D. routes for the most part.

It costs \$100, a year to feed a horse sufficiently well so that he can stand to draw his buckboard or buggy over the route—and we find the farmers another \$9,000,000 from this source.

The figures grow stupendous. They sound like Standard Oil or war statistics.

Thus we have \$12,000,000 annually paid to farmers which they did not receive before the days of rural free delivery. It is a new source of income.

Vehicles and harness, bicycles, motor-cycles, and an occasional automobile cost the R. F. D. men \$3,000,000 annually. Here we have a new set of beneficiaries—bicycle dealers, automobile salesmen and harness makers.—Ex.

Sample Helps Frail Women

So many women are dragging out weary lives just because their digestive organs are weak. The result is poor circulation, nervousness and the verge of invalidism. It is often very unnecessary and the woman's own fault.

The first thing to do is to look to the welfare of your bowels. There the trouble usually lies. All physicians know that a large percentage of women are habitually constipated, and from this result indigestion, piles, weakness, etc., that women constantly complain of. But there is no use taking "female remedies" and things of that kind until you have started your bowels to moving. You will find that when the bowels move regularly once or twice a day all your petty ills will disappear. Take a good, mild laxative tonic like Dr. Caldwell's Syrup Pepsin for awhile and you will find yourself rapidly getting better and stronger. Your bowels will regulate themselves and work at stated times, and then your headaches and dizziness will disappear. Don't take strong cathartic pills or salts, but just such a mild and pleasant-tasting remedy as Dr. Caldwell's Syrup Pepsin.

You can obtain a bottle of your drug for fifty cents or one dollar, and either also may be enough to permanently cure you. Thousands of women keep it regularly in the house and will no longer be without it, as it cured them and can be used with safety by every member of the family, down to the youngest child, but if you have never used it take the advice of Mrs. Earl S. Cox, 209 West Fifth street, Mobile, Ill., and Mrs. Ellen Dungan, Muncie, Ind., and send to Dr. Caldwell for a free trial bottle, as they did, and learn for yourself what it will do in your own case. That it will cure you, as it did them, there is no doubt.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 500 Caldwell building, Monticello, Ill.

Swamps To Be Drained Deserts Irrigated.

Contending that it is as logical for the United States Reclamation Service to take water off swamp lands as it is for Uncle Sam to put water on western arid lands, many men prominent in commercial and professional circles who are identified with the Board of Control of the National Irrigation Congress, which meets in Chicago next December 8th to 9th, declare that the legality of the government employing funds created by the sale of public lands and by bond issues for the reclamation of privately owned southern swamp lands will without doubt be established within the next year.

Through the work of many in the north who are interested in the reclamation of southern lands as well as western projects, and of southerners who are alike interested this year in the work of the National Irrigation Congress, it is expected that at its December sessions there will be adopted resolutions urging that the National Congress be requested to authorize a bond issue by the government for the further reclamation of swamp lands of the south, the bond issue to be in proportion to those which have been authorized for the Reclamation Service in its work of watering western arid lands, there being over \$50,000,000 available in these funds.

The influence which the voice of the Irrigation Congress will bring to bear in this undertaking is suggested by the fact that it was the congress which first brought about, through

its agitation, the Roosevelt Reclamation Act in 1902. Later, at the Spokane Congress in 1909, the congress adopted resolutions requesting that the government authorize a bond issue for the extension of the reclamation work, and this bond issue was authorized. This resolution read as follows:

"Recognizing economic waste and menace to public health connected with our vast areas of swamp and overflow lands, we request our representatives in the Federal Congress to take suitable action looking toward reclamation of such lands under a policy corresponding to that of the reclamation of arid lands by irrigation under the Reclamation Service. Such reclamation of swamp and overflow lands to be carried forward through co-operation of individual owners, states and the Federal Government. A precedent has been established, first, by passage of reclamation act; next, by use of these funds for the irrigation of lands owned by states, corporations or individuals; finally, by the authorization by Congress upon the bond issue of \$20,000,000, which shall be used for reclamation of arid lands."

A similar proceedings to permit a bond issue of swamp lands owned by states or individuals is all that is necessary to start the government experts to work on the surveys. This, of course, will be followed by large expenditures of money in the consummation of projects now beyond the individuals, corporations, or even the states themselves.

It was this work of the congress that established the precedent through which it will this year again identify itself with the movement for a greater expansion of the work in the southlands.

The original reclamation act provided that the Reclamation Service, with funds obtained through the sale of public lands in certain western states and territories, might reclaim government arid lands in the west by establishing irrigation systems. When the time arrived to begin this work, however, it was found that the United States Government did not have any one body of funds in sole government ownership suitable for irrigation. Consequently, the money was employed for the reclamation of lands which were partly government owned and partly privately owned. It was contended at the time that it would not be legal for the government to reclaim lands that were in private ownership, such as the swamp lands of the south. In time, however, this was just what the Reclamation Service was doing, irrigating lands that were wholly in private ownership, in projects such as the Orland in California, the Klamath Falls in Oregon, and those of the Platt Valley in Wyoming and Nebraska.

One of the most prominent Chicagoans who will be identified with the Irrigation Congress and in the efforts of that organization to have authorized ultimately a government bond issue for work by the United States Government in the south, is W. L. Park, Vice-President of the Illinois Central and Yazoo & Mississippi Valley railroads. Mr. Park is the Chairman of the Attendance and Transportation Committee for the Board of Control. During the year he expects to create a great deal of interest in the congress throughout the south. He already has written the governors of various states, adjacent to his lines, calling attention to the interest of southern states in drainage, and urging that a strong delegation be arranged for, the end in view being to obtain national assistance through a re-endorsement of resolutions favoring work in the southern fields, such as were adopted at a previous congress.

"There are vast areas of the most fertile land in the world, which throughout the south, will not probably be brought under immediate cultivation unless some comprehensive plan is worked out by which the government can assist," said Mr. Park, who has for many years been prominent in western irrigation. "I think the time is ripe to turn the attention of reclamationists to the south. Those

high in the administration of the government are known to be favorable to the south in this respect, and it only remains for its citizens to get busy to put under way extensive drainage schemes similar to those now being undertaken in Florida. The Mississippi Valley lands are more fertile than those of any of the other southern states. Their drainage will add health, wealth and prosperity to the inhabitants and invite new settlers."

"The Illinois Central and the Yazoo & Mississippi Valley Lines can be counted upon to co-operate in any movement in this direction."

ALL MY PIMPLES GONE

Girl Tells How a Blotchy Skin Was Cleansed By a Simple Wash.

"I was ashamed of my face," writes Miss Minnie Pickard of Altamahaw, N. C. "It was all full of pimples and scars, but after using D. D. D. Prescription I can say that now there is no sign of that Eczema, and that was three years ago."

D. D. D. has become so famous as a cure and instant relief in Eczema and all other serious skin diseases, that its value is sometimes overlooked in clearing up rash, pimples, blackheads, and all other minor forms of skin impurities.

The fact is, that while D. D. D. is so penetrating that it strikes to the very root of Eczema or any other serious trouble, the soothing Oil of Wintergreen, Thymol and other ingredients are so carefully compounded there is no wash for the skin made that can compare with this great household remedy for every kind of skin trouble.

D. D. D. is pleasant to use, perfectly harmless to the most delicate skin, and absolutely reliable. A 25-cent bottle will give you positive proof of the wonderful effectiveness of this great remedy.

I believe Hays' Specific to be an effective and complete cure for eczema, and a valuable remedy for other ills, I am not interested, directly or indirectly, in the medicine, but I am acquainted with the gentlemen who are putting it up and know they are strictly business men, and would not fool away their time with anything even resembling a humbug. I personally know that the remedy that they are selling has cured some ugly cases of eczema. I have taken it for indigestion, and it has given me more relief than any other prescription I have ever tried.—John K. Hendrick, Attorney, Paducah, Ky.
