AUTO DRIVER HELD ON MURDER CHARGE

Lexington Councilman's Son Charged With Criminal Carelessness.

Lexington, Ky., Sept. 8.—A decided sensation was sprung here this morning when Robert Cunningham, son of former Councilman C. D. Cunningham, and who was driving the automobile which collided with a trolley pole between this city and Paris Tuesday night, killing young Glen Elkin and seriously injuring Howerton Gratz and Warren Fisher, was arrested on a charge of manslaughter.

The warrant for young Cunningham's arrest was sworn out by County Attorney George Batters, of Bourbon county, and alleges that Cunningham is guilty of criminal carelessness in running the machine which caused the death of Glen Elkin.

The warrant was sent here early today and the arrest of Cunningham was made by Detective Veal, of this city. Accompanied by his father, young Cunningham was taken to Paris by the officer on an interurban car and presented before County Judge Dennis Dundon for examining trial. Young Gratz, the

other victim of the accident, still lingers in a local hospital, and was reported as somewhat improved last night.

A telephone message from Paris states that Cunningham was held over under \$500 bond, which he promptly executed, with his father as bondsman, for his appearance next Wednesday, Sept. 13, for examining trial.

A Citizen Worth While.

Hon. E. L. Nunn was here Thursday of last week and is much enthused over the prospects of getting the telephone line, on which he has worked so laboriously for several years, through his section of the county. This is a commendable enterprise and one which every citizen should assist in putting in, if not in a monetary way, by work and at least by lending his influence, encouragement and patronage after it is completed. To Mr. Nunn more than any other man is that section indebted for this great modern convenience, and those who are fair and honest, will give him the praise now while he's here and not wait to heap roses on his grave after he's dead and gone. The rural free delivery is another creature of his industry and enterprise and those along the route are benefitted immeasurably. He is also working on a coal development pool, which, if successful, means much to that section of Crittenden county.

MARION GIRLS ALWAYS PLEASE THE CROWD.

The recital given at Payne's Auditorium Tuesday evening by three charming young ladies, of Marion, was a delightful affair, and all who had the pleasure of hearing them left highly pleased with the entertainment. The piano playing of Miss Gwendoline Haynes was very good, Miss Anna Haynes' singing was great and the readings by Miss Lena Holtsclaw were splendid. They make a trio of entertainers that would be hard to beat and we hope that they will decide to visit us again some time.—Providence Enterprise.

To Build New Home.

Mr. J. E. Dean, who moved to the Turley farm near Crider last fall, will soon begin the construction of a handsome two story frame residence. The building material is already on the ground. Mr. Dean was for years one of Crittenden county's prominent and prosperous farmers and bought the Turley place and became a resident of the Crider section nearly a year ago.

Highest Bridge in United States.

Lexington, Ky., Sept. 5th.—Announcement was made here today by Division Superintendent Caldwell that the new high bridge over the Kentucky river, said to be the highest structure of its kind in the United States, just completed by the Queen and Crescent railroad to take the place of the old one, at a cost of \$1,250,000, will be thrown open Thursday for the passage of trains.

The first train over the new bridge will be train No. 5, from Cincinnati. The new structure is of the best steel and is thirty feet higher than the old bridge, being 318 feet above water. The American Bridge Company, of New York, built the new bridge, which has been under construction for about a year and a half.

GETS "DUCKING"

Sister of Local Man Turns Hose on Police Judge at Frankfort.

Frankfort, Ky., Sept. 5.—Mrs. Jennie Cardwell, of this city, sister of former Mayor George Todd, of Louisville, turned the hose on Police Judge W. C. Herndon when he demanded that she stop sprinkling in front of her residence, so that the countrymen could use the street for their stock. Mrs. Cardwell is a pioneer in the effort to stop the use of the streets in the residence part of the city for stock pens.

Luke Hansbro had complained to Judge Herndon that Mrs. Cardwell had ducked him for not moving his stock, and Judge Herndon demanded that Mrs. Cardwell cease sprinkling. Mrs. Cardwell is one of the most prominent women in the city.

Aeroplane Mail Service Starts.

London, Sept. 9.—The first flying postal service was inaugurated this afternoon under the auspices of the British Post-office. The points of departure and arrival were, respectively, the Hendon aerodrome and Windsor Castle, the distance being somewhat under a score of miles.

The aerial mail experiment was undertaken to demonstrate the practicability of this means of letter transit when war or strikes render unavailable the ordinary train service.

Four airman, piloting two monoplanes and two biplanes, were engaged in the work. Upward of 100,000 postal packets constituted the first delivery. King George was so interested in the service that he gave his permission to the aerial postmen to alight on the lawn of Windsor Castle.

Feathers Filled the Air.

A battle took place a few days ago when a new blue topknot heron was put in the pelican cage in the Central Park menagerie. The air was filled with feathers of all kinds, and the fight only ended when the blue heron had driven all the pelicans, white storks, ducks and pigeons into a far corner of the cage, and stood with one leg lifted, the victor.

It must have been the first time the inhabitants of the pelican cage had ever seen a heron, for they all gathered at the door when Keeper Hurton let the newcomer into the cage. Mrs. Heron at once pounced upon a young pelican. The other three pelicans came to the rescue, being joined by all the other birds in the inclosure.

Drawing her head back, the heron aimed at one of the mallard ducks in the water tank and drove her bill into the side of the duck. From then on for five minutes the old inhabitants fought with the heron only to be driven into a far corner of the cage.

After Mrs. Heron had introduced herself, as Hurton explained it, she amused herself killing sparrows which flew into the cage to gather corn the other birds had failed to eat.—New York American.

Diarrhoea is always more or less prevalent during September. Be prepared for it. Chamberlain's Colic, Cholera and Diarrhoea Remedy is prompt and effectual. It can always be depended upon and is pleasant to take. For sale by all dealers.

HORSES TO GO ABROAD

Irving H. Wheatcroft to Ship Kentucky Thoroughbreds to Australia.

Lexington, Ky., Sept. 5.—Irving Wheatcroft, proprietor of the St. James stud at St. James, B. C., and Lexington, will ship his horses to Melbourne or Sydney, Australia, to be sold at auction. In the stud here are sixty mares, forty foals and ten stallions, including St. Savin, Caesarian and Don Royal.

Snake's Greed Costs Life.

Owensville, Ind., Sept. 8.—Alva Montgomery, a farmer living south of town, reports how a chicken snake's greed got the reptile into an awful predicament and which hastened its untimely death. The snake, a monstrous critter, was rambling along searching for something to swallow. It came upon two hen eggs near a picket fence and promptly downed them in great glee. The snake looked about for more of the same when it spied a nest full of hen fruit on the other side of the fence. The eggs were so near the fence that it was only necessary for the snake to crawl half way through to reach them and which it proceeded to do.

After swallowing two eggs the snake decided that four whole eggs in its stomach was a plenty for one meal. When it attempted to leave the feast it found that the space between the pickets was too small for it to go forward or backward. The first two eggs the snake swallowed made it impossible for the snake to go forward and the other two eggs prevented it from crawling backward—there it was a prisoner—and all because of its selfish greed. The snake was in that condition when Mr. Montgomery accidentally discovered it. He killed it with a club then and there.

JEFFERSON DAVIS HIGHWAY

Good Roads Meeting at Hopkinsville.

A batch of representative citizens of Marion attended the 'Good Roads' Meeting at Hopkinsville on Saturday last and succeeded in getting a "fighting chance" for the proposed 'Jefferson Davis Highway' to be brought through Caldwell, Crittenden, and Livingston Counties from Hopkinsville to Paducah.

It having been casually heard on Thursday last that a meeting of the Jefferson Davis Highway Association was to be held in Hopkinsville on Saturday, a party consisting of Judge John W. Blue, Jr., John A. Moore, Dr. Arthur Mather, George M. Crider, R. F. Haynes, George H. Foster, C. W. Haynes, W. V. Haynes, and John Wilson left here for the Christian County Seat on Friday evening, and on Saturday morning attended the convention in a body and succeeded in getting the three counties above named enrolled in the Association, thus entitling a hearing on the behalf of our local interests in this matter of supreme importance.

A strong speech from Col. Bennett H. Young of Louisville outlined the object before the

convention, and it was agreed unanimously that the proposed road be brought from Bowling Green to Russellville, thence to Hopkinsville, and forward to Paducah by the most feasible route. This latter part of the agreement contains the "fighting chance" for this and the two adjoining counties of Livingston and Caldwell to become part of this great Highway, and was only secured on the understanding that these counties had not had an opportunity of organizing and conferring with regard to the matter; and in order to facilitate this, it was agreed further that another meeting should be held in Paducah on Friday morning Sept. 22nd at 10 o'clock at which the proposed route should be finally selected.

Proud of the fact this concession had been obtained, the Marion delegation left Hopkinsville on Saturday afternoon, and traveled by train to Princeton, where the two automobiles of Messrs John Wilson and W. V. Haynes were in waiting, and in which they were conveyed home, reaching Marion by about ten o'clock on Saturday night.

News of this important matter was circulated freely on Monday, and a call for a meeting of the business interests was made for Monday night in the Court House. At this meeting, presided over by Judge Blue, it was resolved that the adjacent counties interested be at once ascertained, and a Committee, consisting of W. B. Yandell, P. S. Maxwell, T. H. Cochran, Jno. A. Moore, Dr. Arthur Mather, G. H. Foster, W. V. Haynes and John Wilson, was appointed to undertake this work and report to another meeting to be called later.

After this matter had been decided it was unanimously resolved that a "Good Roads Association" be formed for Crittenden County so that the work of improving our highways may be taken in hand right away. A large initial membership was enrolled, which will doubtless grow greater as the enterprise becomes known, and there is abundant evidence that the immediate future will see a great improvement in the roads of this County.

Death of Mrs. Jesse Glenn Allen.

The many friends of Mrs. Jesse Glenn Allen will be distressed to hear of her death at her home at Brazil, Tenn., last week. Her death was quite sudden. Her sisters, Mrs. W. T. McConnel of this city and Mrs. Jno. Jones of Kuttawa, had visited her recently and left her only two days before her death thinking she was much better, all the particulars have not been received by the relatives. She was buried there. As Miss Jesse Glenn she made her home several years ago with her sister here and was much beloved by all her associates. Her husband, who is the druggist there survives her. She left no children.

FOUND GUILTY FIRST DEGREE

Famous Murder Trial Comes to an End—Beattie Will Die in the Electric Chair.

Chesterfield Court House, Va., Sept. 8.—Henry Clay Beattie, Jr., whose trial for alleged wife murder has attracted the attention of the country for the last fortnight, tonight was found guilty of murder in the first degree and sentenced to be electrocuted at the Richmond penitentiary on November 24.

The jurors' minds were made up, it was learned later, when they left the court room. The twelve Virginia farmers knelt in prayer the first thing when locked in the room. Then one by one voted unanimously for conviction.

For an hour, lacking two minutes, they then considered the evidence and the consequences, prayed again for divine guidance, and returned to the court room.

With one voice the whole venire shouted "guilty." The prisoner, who had been directed by Judge Watson to stand, sank into his seat and covered his face with the sporting section of a newspaper which he had been reading.

The jurors neglected to fix the degree of guilt. Since the Virginia law provides that unless otherwise specified, it shall be second degree, Judge Watson sent the jurors back to decide on the degree. They soon returned having agreed on the first degree.

Down Where It's Hot.

The deepest hole in the world up to date is the boring begun 10 years ago at Czuchow, Silesia, with the object of attaining a depth of 2,500 meters, and which has now reached a depth of 2,240 meters (7,349 feet.) The bore is 44 centimeters in diameter at the top, and diminishes progressively to five centimeters. Measurements of temperature have been made regularly. At 2,220 meters the temperature is 83.4 degrees C. (182 degrees F.) This gives a geothermic degree (amount of descent corresponding to a rise of temperature of 1 degree C.) of 31.8 meters. The change of temperature does not proceed uniformly. In fact an interesting "temperature inversion" occurs between the depths of 640 and 730 meters, where the temperature actually falls, with descent, about two degrees.

For bowel complaints in children always give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil. It is certain to effect a cure and when reduced with water and sweetened is pleasant to take. No physician prescribes a better remedy. For sale by all dealers.

Discovered When She Refused a Drink

New Orleans, Sept. 1.—Miss Johnnie Pugh, aged 14, who was traveling between Alexandria, La., and Atlanta, Ga., in male attire, was arrested here today when her identity became known. It was revealed when a drummer offered her a drink of whiskey and she took offense over the act.

Obituary.

Mrs. Martha Newcom was born May 30th, 1836. Died July 23rd, 1911, at the home of her son, S. A. Newcom, of Rodney. She was married to Newton Newcom in the year of 1856. To this happy union eight children were born, five boys and three girls. Four are living. She was a kind, loving mother and a happy Christian.

She past from earth to Heaven Sunday evening at 5:00 o'clock, her husband being dead seven years ago.

To know her was to love her.

She was kind and loving to all and had a kind word for everybody. Oh, how we will miss our grandma and grandpa. Our home is left vacant and that no one else can fill, and oh, how lonesome it will be without them, but they have gone on to that Palace above where sickness and death shall never enter, and where there will be no more good byes. We can never call them back, but we can go to them in a bright and happy world above where sorrow will be no more.

In her sickness she was pa-

tient, never a murmur escaped her lips. She was ever ready and willing to go and meet her husband, children and Saviour, who is ready and willing to help us bear our burdens and wipe away all tears. We trust Him that we will be one unbroken family in Heaven.

She loved her bible, and first sought the kingdom of God and many blessings have been added to her lot.

Everything was done that kind hands could do to heal her suffering, but all in vain. She fell asleep in Jesus to await the resurrection, leaving four children as follows:—Mrs. Mary Walker, of Blackford; W. A. Newcom, Weston; Mrs. Zillah McMican, of Nashville, Tenn.; and S. A. Newcom, of Rodney.

Be though faithful unto Jesus Till the trial of life is o'er, Till we meet in happy union Over on the Heavenly shore.

Interesting Letter

From Bushton, Ill.

Bushton, Ill., Sept. 4, 1911.
Editor, Record-Press,
Marion, Ky.

Dear Editor:—If you will allow me a space in your paper I will try and write you a few lines about our little town and country. Bushton is a little town situated in the northeastern part of Illinois on the T. St. L. & W. railroad. We have a nice little town here, plenty of work going on in and around through the country. We have good schools and churches, we have graded school and two churches in town and a lot of

good people, most of the folks here are like myself, from old Kentucky. I left Kentucky last December a year ago and came out here but still it seems more like home in and around Marion although I have no relatives there, but I have friends there that will never be forgotten. I hope some day that I may come back, settle down and make my home there the rest of my days. I have a wife and two children buried in the Pleasant Hill cemetery and I want to be some day placed by their side and join them on the other shore.

Now a little about the country and I will close. I guess this is one of the best farming places there is in the country. We have fine crops here this year, corn will make from 40 to 80 bushels per acre, oats run 40 to 70 bushels per acre, broom corn will run about a ton per acre, wheat 20 to 35 bushels per acre. We have any amount of fruits of all kinds this year. This land is of a black loam, and all level, we have no hills in this country, nor rocks, only what are hauled in. Land sells here from \$200.00 to \$250.00 per acre.

Well I won't bother you any more. You will find enclosed one dollar for which you may send me your paper for one year. Wishing you much success, I remain as ever,

Yours Truly,
J. W. HALL, JR.

Several went from this community to Fredonia Saturday to the colt show, and the barbecue dinner they had was a fine dinner consisting of pork, mutton, light bread, pickles, and everything else that could be found at a big barbecue. Everybody enjoyed themselves and saw lots of fine colts get the

FREE REMEDY HELPS CHILDREN

Many a mother has learned of a way of avoiding sickness in her family, especially among the children, by the use of a free sample bottle of the famous laxative, Dr. Caldwell's Syrup Pepsin. This offer of the doctor's to send a free sample bottle has been responded to by thousands of women in all parts of America.

Dr. Caldwell's Syrup Pepsin is a truly wonderful laxative and especially adapted to the needs of babies and children because it is pleasant to taste and no child will refuse it. Then it is mild and never gripes. It is all that a child's remedy should be, though it is a good laxative for the whole family because it is effective at all ages. It is not dynamic like salts, pills and powerful cathartics, which should not be given to children under any circumstances.

Nine times out of ten when a child complains and you don't know exactly what is the matter with it, it needs a laxative—its bowels are constipated. Syrup Pepsin will correct the trouble, tone up the child and soon it will be well again—wonderful results have been secured with Syrup Pepsin over night.

You can buy it of any druggist at fifty cents or a dollar a bottle, the latter being the family size, but you are invited to make a test of it first at the doctor's expense. Send him your address today and he will send you a free sample bottle direct to your home. Then when satisfied buy it of your favorite druggist.

For the free sample address him, Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

STOP THAT DANDRUFF

before it kills your hair. You know dandruff is a germ disease and it leads slowly and surely to baldness and there is only one way to cure dandruff and that is to kill the germ that causes the trouble.

Greasy salves will never do this. ZEMO and ZEMO SOAP kills the germ and are guaranteed to cure dandruff, itching scalp and all other germ diseases of the skin and scalp.

ZEMO and ZEMO SOAP are the true scientific remedies for these afflictions. To show our faith in ZEMO and ZEMO SOAP we have instructed the druggist selling them to refund your money if you are not satisfied with the results from the very first bottle and the first cake of soap.

We can afford to make this offer because one bottle of Zemo and one cake of soap are sufficient to show their healing qualities and if used according to directions, they will affect a permanent cure.

Disobeyed Father, Killed His Friend.

Lexington, Ky., Sept. 11.—As the result of a collision of an automobile with a telephone pole between this city and Paris early this morning, Glenn Elkin, 22 years old, was killed. Howerton Gratz seriously injured, and Warren Fisher and Robert Cunningham were more or less painfully hurt. All were prominent young society men, of Lexington and were on their way to Paris to attend the fair hop.

The party left here about 12 o'clock midnight in a five passenger-car belonging to former councilman C. D. Cunningham, whose son Robert slipped the car out, after his father had retired and invited the young men to accompany him.

Three miles this side of Paris, at what is known as Shady Springs, there is a double curve in the road. Young Cunningham who was the driver, unmindful of the turn at this point, had the car set straight ahead, and when this double curve was reached the car, which was going at a high rate of speed, crashed into a telephone pole, snapping the pole in two like a reed, demolishing and hurling the occupants into the air. After snapping the pole, the car ran up an embankment, turned over and fell across the interurban track, a hopeless wreck.

Hurled Against Pole.

Young Elkins was hurled against the telephone pole and his skull crushed. He died a half hour later in the office of Dr. Dougherty, at Paris, where he was taken.

Gratz had his shoulder blade,

collar bone and several ribs, broken, and his condition is serious.

Cunningham and Fisher escaped with painful bruises.

Charles Weber and family, returning from the Paris fair in an automobile, discovered the wreck and rushed Elkins, who was the worst hurt, to Paris, for medical aid.

Elkins never regained consciousness and died shortly after reaching Paris. Examination showed his skull was crushed. Gratz was later taken to Paris also unconscious.

The \$2000 machine was smashed to smithereens. From the best information obtainable, the accident occurred about 12:20 o'clock this morning. Young Elkins, the dead man, is a nephew of J. P. Glenn, of this city, and was employed at Hughes and Company's confectionary. Howerton Gratz is a son of Mrs. Birdie Gratz, and is related to the Clays, McDowells and other prominent families here.

The accident was one of the worst automobile accidents that has ever occurred in this section.

"The Third Party"—The Public and Strike Publicity.

It has not, we trust, escaped the attention of thoughtful readers that the chambers of commerce of Omaha, Neb., and Houston, Texas, have adopted

resolutions upholding the Harri-man lines on the question of recognizing the new federation of railroad shopmen. The significant feature of these incidents is, however, this—that the resolutions followed a discussion of the issues of the controversy before the directorates of the respective chambers by representatives of the shopmen as well as of the roads.

Here we have evidence of a new temper, a new attitude, on the part of the great public and the business community. The chambers wished to hear both sides; they jumped at no conclusions, but reached them in the light of an unprejudiced consideration of the pros and cons. Can there be any question that their position is likely to be the position of other important commercial bodies and groups of citizens?

The time, we say again, has come when employers and employed in the fields of utilities or necessities of life must reckon with the "third party." This means or involves a good deal more than may appear at first sight. It means that the public must be constantly appealed to and provided with full, accurate information. It means that the judgment of the public formed on the basis of such information must be deferred to, even when passion and hostility point the other way.

In the case of the railroad shopmen the need of more light, more publicity, is manifest. What is the case of the advocates of federation? What grievances have the shopcrafts under the existing contracts? How will federation benefit them, and how will it benefit the roads? How many lines have been persuaded to recognize the federation, and why have they recognized it? Are all these lines important, conservative, well-managed, public-spirited?

Instead of talking or threatening strike let the shopmen's spokesmen give the public more facts and more arguments. Let them take all the time necessary to present their case. And in the end let sobriety and common sense prevail.

The same demands will henceforth be made of employers in the case of a threatened lockout of moment. The rights of the community, of industry and commerce generally, must be honestly considered and respected.

If we cannot, by appeal to reason and fair play, bring about conciliation, arbitration and adjustment, the public interest will inevitably impose compulsory arbitration.

The country will not submit to dislocation, waste, paralysis in silence and resignation.

UNION OFFER REFUSED

Illinois Central President Denies Conference to the Federation Officers.

Declaring that compliance with the demands of the federation of its shop employees would take from officers of the company power to manage its affairs, President C. H. Markham of the Illinois Central Railroad forwarded a letter yesterday to W. F. Kramer, secretary of the International Brotherhood of Blacksmiths and Helpers, in which he gave final notice of his refusal to deal with representatives of the federation.

At a meeting of the union leaders today action will be taken on the question of calling strike. A more belligerent attitude was evident among the union

forces yesterday, and it was announced last night that more than 150 strike notices already have been prepared. These will be distributed throughout the Illinois Central system as soon as a decision to order a walkout has been reached. Officials of the mechanical crafts declined to commit themselves on that proposition last night, but their attitude indicated that they fully realize a crisis has been reached.

In his letter President Markham declares that the consolidation of the mechanical trades in the employ of the railroads could not be sanctioned by the management and it would not be supported by public opinion. He says that shipping interests would be injured by the formation of an organization which would have the power to throttle the commerce of the country.

He states that the separate labor bodies in the federation have not taken the proper steps to abrogate their contracts with the company. According to the agreement, he says, thirty days' notice must be given before a contract may be abandoned, and that this notice has not been given the company. He elects, therefore, to regard the agreements as still in force.

He says that the interests of the shipping and traveling public and of the 10,000 shareholders of the road "will not permit it to enter into negotiations, compliance with the initial demands of which would deprive the officers of the company of the power to manage its affairs."

The letter is an answer to the ultimatum given by the federation to the company.

Telegrams have been sent to union leaders who left Chicago late last week urging them to hasten their return, and it is expected nearly all of them will be in attendance at a series of meetings to be held today. Prompt action will be demanded of these officials, it is said, and the issuance of strike orders before nightfall is held possible.

"I can't tell what action I shall advise until I have read President Markham's letter," said Secretary Kramer last evening. "One thing is sure: The officials on the ground are not bound to await the approval of the unions, now assembled in San Francisco, before ordering a strike. The union leaders will meet to-morrow and give the matter thorough consideration. We have moved slowly in this mat-

ter and for one I do not care to forecast results until the situation has been carefully canvassed."

The international presidents of the five shop crafts unions in San Francisco have delegated the authority to enforce the ultimatum presented by the Federation of Shop Employees to the Illinois Central to President Markham to representatives on the ground, who have been conducting the Illinois Central negotiations, according to a statement last night by President J. W. Kline of the blacksmiths' union.

Society at Paducah Is Given Shock

Paducah, Ky., Sept. 12.—The arrest of Herbert Stewart and Samuel Winstead, prominent youths, on the charge of robbing the jewelry store of W. N. Warren, has created a sensation.

When searched at the police station about 100 watches were recovered from Winstead, who had them concealed in his pockets, and inside of his top shirt. Stewart was caught at a resort, and later several hundred dollars' worth of jewelry was found there and identified by Warren.

Stewart is the only son of Dr. P. H. Stewart, member of the city board of health. Winstead is the only son of Samuel Winstead, Sr., druggist and member of the school board.

Largest Sassafras Tree.

Atlanta leads the South in many respects, the nation in several ways, but until recently the fact that Atlanta leads the world in at least one thing has been unknown. A sassafras tree is the principal in Atlanta's new bid for fame. The largest sassafras tree in the world, says the Department of Agriculture.

To most people the name sassafras is associated in their minds with the picture of a low, stunted bush luxuriantly foliaged, from the roots of which their grandmothers made tea to "cure spring fever" and other ills of that nature. A sassafras tree has been a thing unknown.

In the yard of the First Methodist church of Atlanta the sassafras tree stands, passed by

thousands each day, none of whom has realized that in that yard was growing the biggest tree of its kind in the world. Few of the members of the church were cognizant of its existence, though it has shaded little children in their play for many years, and will probably perform the same loving task for years to come.

The tree, according to the experts of the Agricultural Department, is more than 100 years old. It is seven and a half feet in circumference, fifty feet high, and has a spread of more than forty feet, overshadowing all the trees in its neighborhood. Atlanta Constitution.

We Feel the Same Way About Acrop'anes in 1911.

In 1828 a company of progressive young men wanted to discuss the subject of railroads and telegraphs, and asked permission of the School Board of Lancaster, Ohio, to use the public school house. The request was refused, the school board using this language: "You are welcome to use the school house to debate all proper questions, but such things as railroads and telegraphs are impossibilities. There is nothing in the Word of God about them. If God had designed that His intelligent creatures should travel at the frightful speed of 15 miles an hour by steam, he would have foretold it through his holy prophets. It is a devise of Satan to lead immortal souls to hell."

ROBINSON'S CIRCUS MAKES ASSIGNMENT

To W. C. Bland, J. H. Orme's Brother-in-Law, of Uniontown, Ky.

Robinson's famous shows, which gave an exhibition at Morganfield Wednesday, made an assignment there, and W. C. Bland of this city, was appointed as the assignee, he filling the bond and taking charge yesterday.

All of the property of the circus, including the wild animals, horses, tents, wagons and other property was to have been brought down to this city yesterday and quartered at the Union County fair grounds, which will, in all probability be the home of the circus for the balance of the fall and winter, and until the season of 1912 opens.

Although the Robinson famous shows is not the biggest in the country, still it is one of the largest that has made this county in many years. There are nineteen cars in the outfit, which will be on the side track of the Illinois Central railroad here and at Morganfield.

The show was the property of George W. Little and Henry Alcott, both of whom wished the company thrown into litigation, they having on the grounds their attorney, Gillmore, of Chicago, who managed the affairs for the company.

It is claimed that it would take at least \$100,000 to put the circus on the road, but it was placed in valuation at \$50,000, while the liabilities of the company were placed at \$15,000. All is now in the hands of Assignee Bland, who will dispose of the property or hold same and place it on the road next spring, in accordance with the order of the court.

The officers and directors of

the Union County Fair Association in response to a call from the secretary met at Morganfield Wednesday afternoon and leased enough of the company's grounds to accommodate the circus for the winter, they receiving \$500 rental. This alone is a great help, and will make the stock of the company more solid for the coming year than ever. The fact that the circus will be wintered here will also be a great help to the town. The hundreds of wild animals and horses will, during the winter season, be the means of disposing of all the surplus feed stuff in the county, and will make business unusually good in all lines of trade in the city.

Mr. Bland, who was appointed the assignee, is a man who has had much experience in this line of work, he having acted as the receiver and assignee of many others in the past, and the business could not have been placed in more capable hands. — Uniontown Telegram.

MY DAUGHTER WAS CURED

By Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"I send you here with the picture of my fifteen year old daughter Alice, who was restored to health by Lydia E. Pinkham's Vegetable Compound. She was pale, with dark circles under her eyes, weak and irritable. Two different doctors treated her and called it Green Sickness, but she grew worse all the time. Lydia E. Pinkham's Vegetable Compound was recommended, and after taking three bottles she has regained her health, thanks to your medicine. I can recommend it for all female troubles."—Mrs. L. A. FROM CLAY

Committeeman W. P. Corry of Clay, in a letter of the 28th, to Secretary Thompson, says:

I herein hand you the result of the election at Clay, Saturday August 26. One hundred and five (105) for the continuance of the pool and not one against. Everything in good shape and still pooling.

I will be in Friday and hand in my pooling papers.

STILL POOLING.

Daily, from one to three or four, are dropping in the pool a few acres. The district board meets next Saturday, and will then name a day for the books to close. Those who propose pooling, should act promptly now, and attend the matter.

WITH RESPECT TO HOPKINS COUNTY.

"Is it not," asked a good Henderson county member, "a surprise to the association that Hopkins county failed to stand by the association?"

"Yes and no I answered. Local conditions there differentiate Hopkins from the other counties. Hopkins, several years ago, made her first poolings with the dark Protective Association. That association received the pooled tobacco and handled it after the methods peculiar to preparation of the Clarksville type of tobacco.

That proved to be a disastrous experiment, and much of the Hopkins prize muddled in the hogshead and was sold as damaged tobacco. Clarksville tobacco is the heaviest fired tobacco of any type, and therefore no other types are to be handled the same way. After that experience Hopkins county growers dropped out of the Protective Association and ever since, what of Hopkins tobacco has been pooled, went into the Stemming Association. But fully half of growers there have always dumped.

Until at length the poolers stiffened on their posterns this year and said to the dumpers: "Come with us or we'll stay with you. We are sick and tired of packing you." And His Dumps wouldn't come, and the members stayed. Nevertheless the Hanson district, a big producer of fine tobacco, will continue to co-operate with the Stemming Association. In all fairness it should ever be remembered the Hopkins county counties. And then, too, the emissaries of the monopoly have been more active there than in other counties.

Luke Mathews has set his squirrel rifle on a stump in the Gander Creek woods, and is having success in his new scheme of killing game. Bait is scattered in front of the gun. One end of a string is tied to the bait and the other to the trigger, and when the bird or animal swallows the bait the trigger is pulled and the victim kills itself.

Prof. Sap Spradlen made a flying trip to Tickville last week, where he made a trade for a map of the world. He will use this in his argument with the trustees of the Wild Onion school that the world is round. In the past he has been teaching the flat system, using the flat maps of the blueback geography. The globe secured by the teacher is rather old, having been used for several years at Tickville and will have to be remodded here and there, the world having underwent considerable improvement since then.

Marion Citizens Gladly Testify And Confidently Recommend Doan's Kidney Pills.

It is testimony like the following that has placed Doan's Kidney Pills so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Marion citizen:

Thomas L. Hillyard, Railroad St., Marion, Ky., says:—"Doan's Kidney Pills came to my relief after I had suffered a great deal from kidney trouble and had spent much money for medicine without receiving any benefit. Two years ago I was taken with an attack of typhoid fever and upon recovering, found that my kidneys were badly disordered. The pains in my back were so severe that frequently I had to leave my work and lie down for several hours. There was a constant desire to pass the kidney secretions and I was obliged to arise several times during the night. The kidney secretions were also highly colored and the passages were attended with pain. I became dizzy and dark spots floated before my eyes. A relative, hearing of my condition, advised me to give Doan's Kidney Pills a trial and I procured a supply at Haynes & Taylor's Drug Store. They cured me in less than two months. For over two years I have had no return attack of my old complaint and am bound to look upon my cure as a permanent one."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other. A31 S7-14

CATARRH SUFFERERS

If You Don't know About Hyomei Try It at Haynes & Taylor's Risk.

Nearly every reader of the Record-Press has read about HYOMEI, but many of them continue to suffer from catarrh just because they do not exactly understand just what HYOMEI is. To these sufferers Haynes & Taylor says you don't have to know anything about HYOMEI except that you breathe it and that it does not contain cocaine, opium or any harmful drug.

You can find out all about HYOMEI without any chances whatever. Just get an outfit today, read the simple instructions, give it a fair trial and then if you are not willing to say that it is the best remedy for catarrh you have ever used Haynes & Taylor will gladly return your money.

A complete HYOMEI outfit costs but \$1.00. Extra bottles 50 cents. S14-28.
