Italy Declares War on Turkey And Takes Session of Tripoli; Europe is Much Aroused.

Rome, Sept. 30.—Italy has declared war on Turkey. The official announcement was made late this afternoon. It declared that the two countries were in a state of war beginning at half past two o'clock on the afternoon of Friday, Sept. 29.

This is the hour on which the Italian ultimatum to Turkey expired and followed a session of the cabinet at which the Turkish reply was considered and found unsatisfactory.

Though every indication pointed to this action by the Royal Government, there was always a possibility that the good offices of other Governments, would be successful in avoiding hostilities, and when the final decision of the Cabinet was announced the excitement throughout the city was intense.

The minister of Marines is believed to have sent a wireless message to the fleet off Tripoli to proceed immediately. His action followed a meeting of the Cabinet. Italy, it is said, will provide for the safety of all Italians and foreigners in Tripoli.

The blockade of the entire coast of Tripoli and Cyrene will be undertaken immediately and a notification of this act will be sent to all neutral powers.

Throughout the earlier part of the day the papers had issued special editions announcing that the Italian fleet was moving in plain sight of the coast of Tripoli and intimating that war might be declared at any moment.

The Minister of foreign affairs, Signor di San Giuliano, received the Turkish reply from the Turkish Ambassador this morning and immediately went into conference with his associates in the ministry. It is understood that the Ottoman Government completely conceded Italy's economic plans in Tripoli, but evaded a direct answer demanded by that Government, which had set forth in its ultimatum that Turkey must say that she would not resist the proposed occupation of Tripoli and Cyrene.

Instead the Porte sent a conciliatory note suggesting further delay. It was known that at the same time Turkey transmitted a note to the Powers in which it is assumed that she represented herself as the injured party and by inference at least sought their intervention.

The Royal Government decided to stand absolutely by its ultimatum of yesterday and in the absence of the reply called for, to declare Italy and Turkey in a state of war from the hour on which the ultimatum of 24 hours expired.

The steamer Hercules left Tripoli today with 500 Europeans.

Sturgis Assured new Railway Station.

Morganfield, Ky., Oct. 3.—C. H. Ellis of Sturgis who was recently made trips to Frankfort and Paducah in the interest of the new Illinois Central station for Sturgis, is in receipt of a letter this morning from Lawrence Finn, railroad commissioner, saying that it is assured the town will be granted the new building. He has asked for specifications, plans and the price on the new L. & N. station in his home town, which he would advise duplicating for Sturgis. He promises an early beginning of the station.

Ball Game.

Princeton 3, Marion 2 was the score of the Ball Game Saturday evening, which was played at Maxwell Park.

COMFORTING WORDS

Many a Marion Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Marion readers.

G. B. Johnson, 413 Gum St., Marion, Ky., says: "For five years I suffered from kidney complaint, brought on by hard work. Whenever I caught cold, it settled on my kidneys and at such times my suffering was aggravated. The kidney secretions were irregular in passage and I was often obliged to arise during the night. There was a dull pain in the small of my back and when I arose in the morning, I felt lame and stiff. I tired easily, was nervous and also had dizzy spells. When Doan's Kidney Pills came to my attention, I procured a box at Haynes & Taylor's Drug Store and after I had finished the contents, I was cured. It gives me pleasure to state, that time has proven the cure to be a permanent one. You are at liberty to publish this statement for the benefit of other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Nearly All Were Boys.

We forget that the Civil War was waged for the most part by

mere boys. Of the 2,278,588 who enlisted on the Union side, practically all were boys. The 118,000 who were over 21 years of age form but a fractional part of the enormous total of 2,250,000. A million of this total were enlisted between 18 and 21. About three hundred thousand were 18 years old. About six hundred were 17, and some one hundred thousand from 14 to 15 years of age. Three hundred were 13, 225 12, thirty eight were eleven and there were 25 who were only 10 at the time of enlistment. The figures on the southern side would show a yet earlier average age. It is this fact that keeps the pension roll alive today. If the average soldier was twenty at enlistment he would today be but seventy-one years old, and his wife would be yet younger.

WILLIAMS' KIDNEY PILLS.

Have you overworked your nervous system and caused trouble with your kidneys and bladder? Have pains in loins, side, back and bladder? Have you a flabby appearance of the face, and under the eyes? A frequent desire to pass urine? If so, Williams' Kidney Pills will cure you—Druggist Price 50 cents.—Williams' Mfg. Co., Cleveland, Ohio. Sold only by J. H. Orme, Marion, Ky.

Claims Cannot be Paid in Full.

Carlisle, Ky., Sept. 29.—Farmers of Nicholas county, who have sustained loss on account of sheep, either killed or injured by dogs this year, will only realize about 50 cents on the dollar on their claims. Up to date there have been filed \$1,900 in claims against the dog tax fund, which in this county amounts to about \$1,000. Last year the farmers received about 65 cents on the dollar, and if claims continue to come in it may go below fifty cents this year. About twenty head, either killed or badly injured, have just been reported.

Cup of Coffee Has

Doubled in Cost.

Chicago, Sept. 22.—With the further increase of a quarter of a cent a pound yesterday in sugar it dawned on Chicago that

a cup of coffee now costs twice as much as it did a short time ago. The Brazilian berry now costs fifteen cents a pound as against seven cents a short time ago. Sugar prices are doubled, the price to consumers being eight cents a pound.

The increased cost of coffee is due to the action of the Brazilian government in placing an arbitrary value upon its principal product instead of the economic value based on the cost of production and the demand.

A shortage in the sugar beet crop of Germany and the cane crop of the southern part of the United States, combined with a heavy demand for sugar for canning purposes, is responsible for the great increase in the cost of that article.

A Bowel Trouble

Is relieved almost instantly by using Dr. Bell's Anti-Pain. It destroys disease germs and stops inflammation. Keep a bottle in the house. Sold everywhere.

Essentials to Farming.

John W. Gates was born on a farm near Chicago. He thought,

little of the financial possibilities of a farmer's career. Hence to a Philadelphia reporter he once said:

"I used to know a farmer who took his son-in-law from the city into partnership.

"Well, Peleg," I said to the old man one day, "what kind of a farmer does the boy make?"

"Oh grand," said the old man. "George is a great help. I don't know how I would get along with out him."

"Why, said I, "George has no practical knowledge of farming!"

"No, the old fellow admitted. 'No, it's true that George knows nothing of planting or fertilizing, but on call loans, mortgages and promissory notes he's a caution.'"

ALL DRUGGISTS 11-16

Narrow Roads; Automobiles; And Skittish Horses.

The cry, that all the public roads of the county and state with few exceptions are too narrow to accommodate the traveling public, has become more serious since the advent of the automobile. Narrow roads are not only a hindrance to travel but are dangerous for persons driving stock not accustomed to meeting the auto. If a horse or mule is reasonably safe to drive where you are liable to meet traction engines, autos and the like provided the road is wide enough to pass with a five ft. space between, the roads are crooked and narrow and meeting an auto it looks like a collision is unavoidable, looks as if the machine was going to run under the horse and that is what scares. A horse is scared out of its wits for a hog or dog to run under its feet. The size and fuss of the auto would scare him worse than a whole pack of hyenas. The auto has come to stay and a complete revolution of the entire road system is inevitable. It is a fact and cannot be denied that there are places on our main big roads that two wagons or buggies can't pass without one or the other sidetracking in a wide place until the other gets by. To meet in a squeeze or pinch or narrow place neither could get by. This is not all, narrow places are found where a wagon or buggy can't pass, a person horseback or afoot without one side tracking until the other gets by. In many places on hills, and 1-2 of the mileage of our roads is up and down hill, the road has become a deep cut 20 ft. or more wide at the top tapering from each side to the bottom where where the track is only 6 ft wide 24 ft. ought to be the width of road bed now to meet the present conditions.

An immense expense would be the result of widening deep cuts. The cheapest and most expedient thing to do would be to change

the survey of the roads. Make rights of way on all main roads 60 feet wide 40 ft wide for 2nd. and 3rd class roads. Unless the roads are widened, people will be afraid to drive any kind of a horse out on the roads especially woman and children will not venture out but stay at home as close as if a wild animal were running at large, except short distances where they could walk.

The auto will soon be going out to the farthest corners of the county and gentle horses accustomed to passing them not noticed on the streets would not be safe drivers were they suddenly surprised in a narrow cut or short turn in some place where the road is less than 10 ft wide.

The bad conditions of the public roads all over the whole county has aroused the public mind. People are resolving to do something. It is being agitated to such an extent that some people are becoming almost frantic in their demands for better roads. It sometimes pays to make haste slowly. There has been so much public money wasted on the roads, out of ever \$1.00 spent 90 cents was wasted and perhaps 10 cents went to the permanent maintenance of the road. Nearly all the trouble has been lack of drainage, ditches too narrow. Not that the men did not work enough to earn the money they received but the work was not done in a scientific manner, in competent men as overseers, under no bond, work as they pleased or not work at all. Road working days ought to be the same all over the county. That is beginning in the spring and closing work in the fall for winter. A set time to begin. All begin the same week and go on until completed. Some would get done sooner than others but all could begin the same time and insure some work being done on all the roads. An overseer might put off from time to time working his road till the work season passed and nothing done. If worked by taxation and contract the rule to continue on all the roads at a certain date would hold good. Road overseers or supervisors should pass examination as to competency the same as school teachers. Nearly as much money paid out in the state for roads as for schools and yet no examination as to competency for supervisors of roads and on the other hand a most rigid examination for teachers. Years ago a teacher had but little to fear about certificate to teach. The County clerk, Sheriff, postmaster or just anybody that happened to be handy could examine him and give certificate. The state soon found such a plan too expensive as its money was being paid out and the returns not justifying the expense. The state will wake up some day and take over the whole road business. Have a state road supervisor, same as state school superintendent also county road supervisors. Everybody responsible and some degree of competency shown from the highest to the lowest officer connected with the work.

There will never be good roads in Ky., or in Crittenden Co., unless the Hills are cut out. Survey new roads around the hill. This can be done 9 times out of 10. If it is impossible to go around a hill and the road must go around a hill and a road must go over it take a gradual winding course not straight up at the steepest place to be found. Some say turn pikes are what we need. A turnpike up a steep hill is worse than dirt road 3 times out of 4. 1st It is easier to pull a load up a hill on a smooth solid dirt road especially after a pike has been built two or three years and all the fine rock gone and the road covered with loose rolling rock from the size of walnut on up. 2nd A dirt road is easier to go down dry. 3rd. A dirt road is easier to go down if its wet and muddy. 4th. A turnpike or

rocky hill is easier gone up in a wet or muddy season. So to spend money to build pikes on hills will be in keeping with our tradition of getting only 10 cts. value out of every dollar spent. First secure level right of ways. Run the roads from one joint to another, not the most direct course, but the most direct level route. 1-4 or 1-2 can be added to the distance if you can get a perfectly level route. Often the level route will be the nearest. As the first road engineers went out of their way to get on a hill. In their times road graders, scrapers and turning plows were unknown. The small shovel plow, commonly called bull tongue was all they had to ditch with. But now experience has taught that bottom or low land well drained is dryer than ridge land, as more sand and gravel is found in the valleys. The crazy notion that a road in valley would be mirry is no longer believed in. If we can get the roads changed to avoid the hills then turnpikes would be the next step. It will take 5 years to secure rights of way and level up the roads secure 60 ft right of way, make roadbed 24 ft and then piking will be easy. A wise old darkey said the first thing to do when you go about to cook a 'possum was to first catch the opossum. The first important thing to do about making turnpikes or better dirt roads is to get level rights of way, grade and fix something like a rail road company would fix its road bed then good roads will be assured. Obituary.

Roy Fritts, the son of Mr. and Mrs. John Fritts was born July 18, 1889 and died September 16, 1911.

He was married April 16, 1911, to Miss Lecta Simpson, the daughter of J. R. Simpson. He leaves a wife, father, mother, two brothers and three sisters and a host of friends to mourn his loss. He was sick only a short time and loving hands did all within their power to relieve him of his sufferings, but all in vain.

On the 16th day of September he fell asleep and was laid to

rest in the Crooked Creek cemetery. The funeral was preached by Rev. M. E. Miller in the presence of a host of friends. To the bereaved wife, father and mother, we would say, grieve not, for Roy is not dead but gone to sleep but not forever. He will be awoken at the judgment. May Simpson.

LEE CRUCE IN THE LIMELIGHT

Governor of Oklahoma Solves Prohibition Problem and Makes "Dry" Enforce It.

Oklahoma City, Okla., Sept. 29.—If state-wide prohibition fails in Oklahoma, it will be the prohibitionists themselves who will be to blame.

Gov. Lee Cruce has shifted the burden onto their shoulders. By the end of the year, ten thousand citizens of the state will be bearing commissions from the governor authorizing them to act as special deputy enforcement officers under the prohibition law.

"This is your law," the governor has said to them, in effect. "You voted for it, and it is up to you to create and maintain a sentiment favorable to its enforcement. If you do not make good the blame is on you and not on the state administration. The commission I hand you authorizes you to use all lawful means to enforce the law. You can make arrests, you can prosecute, you can raid, you can confiscate liquor, you can tear out gambling dens, you can have all the liberties and privileges vouchsafed to the man elected to any office in the state with power to enforce the law. But I have no money to pay you. There are no available funds for that purpose. It is up to your philanthropic, law-abiding, law-loving citizens to pay you for your work, if you demand pay."

The biggest issue in Oklahoma now is prohibition. A bill has been drafted by a state-wide organization of anti-prohibitionists to be submitted to the people next year under the initiative and referendum law providing for repeal of the prohibition paragraph of the constitution and the substitution of local option.

FREE FOR STOMACH AND BOWELS

We are in receipt of letters from Mrs. Eva Gaskins, 304 Madison St., Topeka, Kan., and Mr. P. H. Gavelas, Wagoner, Okla., as well as many others, telling about the wonderful results they have secured in the cure of their stomach and liver troubles by the use of Dr. Caldwell's Syrup Pepsin.

This remedy, as all readers doubtless know, has been before the public for a generation and is now being more extensively used than any other remedy for stomach, liver and bowel complaints. According to reliable testimony, it seems to be a very quick and lasting cure for constipation, indigestion and dyspepsia, liver trouble, biliousness, headaches, sour stomach, gas on the stomach, drowsiness after eating and similar disorders. It is a liquid with tonic effect, and so

mild and gentle in action that a child as well as a grown person can take it, in fact, it has no equal for children, women and old people.

It arouses the flow of gastric juice, and by a peculiar action trains the stomach and bowel muscles to again do their work naturally, and in time medicines of all kinds can be dispensed with. A free sample bottle can be had for trial by sending your address to the doctor, for in this way Mrs. Gaskins, Mr. Gavelas and many others first learned of the cure. Later, when satisfied it is the remedy you need, do as others are doing and buy it of your druggist at fifty cents and one dollar a bottle.

DR. BELL'S ANTI-PAIN For Internal and External Pains.

Every candidate for the legislature will be called upon to take a stand and the fight will center in each county on the election of a sheriff and a county attorney.

In each county and in many townships and precincts there are law and order leagues which will co-operate with the Anti-Saloon league. The Woman's Christian temperance union, the Epworth League, the Christian Endeavor and other religious organizations are getting ready for the fight.

While it is generally admitted that the prohibition law is tolerably well enforced in about 70 per cent. of the precincts of the state, there is no doubt that sentiment against state-wide prohibition has been growing. Last year a measure to repeal the prohibition ordinance of the constitution was defeated by a majority of about 25,000. The ordinance was adopted in 1907 by a majority of nearly 40,000.

These special enforcement officers in some communities have dampened the ardor of the regularly elected officers.

At Sapulpa the city marshal arrested an enforcement officer on the charge of carrying concealed weapons. Gov. Cruce immediately pardoned him and announced that he would pardon all others as fast as arrested. He said he would appoint 500 men in Oklahoma City to enforce the law if necessary. A suit has been filed in the district court at Sapulpa to test the constitutionality of the law under which deputy enforcement officers are appointed.

In counties where the law is being rigidly enforced authorities have ordered that all county convicts be worked on the public highways. These men, wearing white shirts and stiff collars and \$40 suits of clothes, have been placed beside common criminals, each with a pick or a shovel, to work in the hot sun on a public road.

"Some of our prominent citizens are now working on the road," said a county attorney. "You would be surprised to know the character of some of these men. Some of them have made thousands of dollars in the saloon business and probably have never done a lick of work before. But we work them. The horror of being placed in a road gang has had a great deal to do with making the law easier to enforce in my county."

A Barbed Wire Cut, Collar or Saddle Gail not properly healed leaves a disfiguring scar.

Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of wooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Put Us To The Test

If there are advantages to be gained by trading here, why don't you find out about it.

If a store told me through its advertisements, that it could save me money on the things I had to buy--that its store service was par-excellence--that its stock of goods was exceptionally complete--that its business was conducted according to the strictest principles of integrity in all its dealings--I'd put that store to the test, and if they did as they claimed to do, I'd be their customer always.

What we want you to do with us is to try us out, put us to the test. This store offers so many advantages for satisfactory trading that you will be a steadfast customer of ours, once you get acquainted with our goods and our methods. Why not try us the next time you need something in our line. We sell dependable qualities at moderate prices.

The Suit You Will

Like is Here, Sir!

So many different colors, shades, patterns and designs of fabric, and such a variety of different models are exhibited in our present showing of stylish new suits that almost every taste can be precisely gratified. We are showing some exceptional values at \$10.00, \$12.50 and \$15.00, and extensive assortments at these three prices. We will show you the best values on the market at \$5.00 to \$20.00. To fully appreciate their excellence you must see and try them on.

TOBACCO TIDINGS.

BY R. F. WHEELER.

JOIN THE MAIN ORGANIZATION

We have been informed that there is a movement on foot, in a certain community, in this county, to start a neighborhood or barn pool. We are told that it is being done on account of some little dissatisfaction that grew out of the delivery last winter.

We want to acknowledge that there are some little disadvantages in pooling tobacco. There is, however one great benefit. That of being able to get the worth of your crop. This can only be done, however, by getting practically all of one type in the same organization. It can never be accomplished by several small pools. It cannot be accomplished by two pools. By joining those small pools you have all of the disadvantages of the organization and none of the benefits. By doing this you play into the hands of the buyers by dividing up the crop. Cause competition among the sellers, make it harder for the main organization to sell, and lower the price of the whole crop.

Some growers seems to have the idea that it is the right thing to pool but that it makes but little or no difference where you pool. This is a very erroneous idea. To be effective there must be but one organization for each type of tobacco. In order for it to do so it must control practically all of that type. The Stemming District Tobacco Association in the only organization in the district that has ever pooled more than 8 percent of the crop. It has controlled more than 75 percent for several years. No

other organization can hope to have enough Stemming tobacco to affect the market for years to come, even with the best of success. Every crop that you pool with them you weaken the main organization that much, without helping yourself or any other interest except the buyers.

We wish that we could have an organization that would exactly suit every one, but that is impossible. We would have to have as many pools as there are growers.

A neighborhood pool can have no success except at the expense of the main organization, neither can a county pool.

We had an illustration of this, last year, in Henderson, County. Owing to the fact that they did not get the man they wanted for chairman, of that County, some of the members withdrew from the association, and formed an independent pool. They sold the first opportunity for \$7. About that time another small pool in the district sold for less than \$7. The independent pool spoken of, sold to one of the largest buyers of our tobacco. They had a provision in the contract that if that buyer paid more than \$7. for Henderson Co. tobacco, they were to share the advance.

The committee of the Association had fixed the price at \$8. This was justified by market conditions. But you can see plainly that the buyer of the independent pool would be very adverse to paying more than \$7. as he would thereby increase the price of what he had already bought.

It was only by the best of management that the Association got \$7.50. The tobacco was all worth \$8. If the members of small pools had all been in the main organization they would all undoubtedly, have gotten that price.

By staying out the smaller pools lost from 50c to \$1.25 per cwt., those in the Association lost 50c, which on the whole crop amounted to more than one hundred thousand dollars.

We understand, however that many of the members of this pool now see their mistake and are coming back, this year, to the main organization.

Here is the situation as we see it. The tobacco growers of this district have organized to try to get the worth of their crops. The movement has been a success. It has long since past the experimental stage. It is re-

cognized as one of the substantial business concerns of the state. But if the growers of this district are going to continue to quibble over matters of minor importance, if they are going to continue to act the quitter every time something happens that doesn't exactly suit them instead of trying to remedy the defect; if they are going to continue to divide into small pools and play into the hand of the buyers-- In other words if they are going to act like school boys instead of men of mature judgement; then we would as well make up our minds, once for all, to lay down the whole thing, and become the easy prey of every trust or combine, that cares to divide among themselves the product of our toils.

FREDONIA

The entertainment given at the Opera House here Friday evening by Miss Lena Holtzclaw assisted by the Marion High School Orchestra, was fully up to the high standard of excellence, we had been led to expect from the laudatory comments from Madisonville where this entertainment was given, a short time ago. Its needless to say the audience here was an appreciative one as that was amply proven by the enthusiastic applause and many encores. It is to be hoped we may soon have another opportunity to hear this rare musical and elocutionary treat.

W. S. Rice arrived Friday morning from Louisville driving his new E. M. F. car. He was accompanied by Mrs. Rice, her mother, Mrs. Charles Ratliff, and John Rice.

Mesdames Abe Koltinsky and Goldnamer were in a party that came over from Princeton Wednesday in Sam Koltinsky's car.

Mesdames W. O. Tucker, John Blue and Houston Orme, motored over from Marion Wednesday afternoon.

Eddyville, were the guests of Mrs. Dulaney, Sunday.

Mrs. Robert Jackson and daughter, Jennie, are visiting relatives in Dycusburg this week.

Mr. and Mrs. J. Frank Wyatt went to Salem last week to select the site for the new home they are preparing to build near town. Enroute home Mrs. Wyatt visited in Marion for several days.

Miss Eva Clement, of Marion, was with Miss Howerton from Friday until Sunday.

Several from this place attended the barbecue at Lawrence Wilson's barn last Tuesday evening, where a jolly party of neighbors and friends, 57 in number, congregated to enjoy a feast of barbecued chicken and game.

Several from here attended the dedicatory services of the new Presbyterian church at Crider, Ky., last Sunday. Princeton was well represented. The devoted friends and admirers of Dr. Darby, were much gratified to have him with them on this occasion, and all were impressed with his fine sermon.

The first regular meeting of the "Philomathean Club" was held last Tuesday afternoon with Mrs. Alexander Hamilton as hostess and Mrs. Andre as leader. Subject "Joel Chandler Harris." The program for the winter is an interesting one and the members are greatly enthused over the work.

The new front that Ira Bennett is having put in his store, will add much to the appearance of the business section of town. Fredonia is moving forward rapidly in the matter of civic pride and taking her place in the procession of growing towns.

THE 20th KENTUCKY VOLUNTEER INFANTRY

An Interesting War Record by F. S. Loyd, of Fredonia, Lieutenant Company H.

(Continued from Last Issue)

June 3, at 10 a. m., marched two miles to the left, went into camp, weather very warm and beautiful.

Wednesday June 8th, remained in all day, weather warm and fair.

Thursday, June 9th, at 8 o'clock a. m., left camp, marched two miles, some skirmishing, some rain and some sunshine; very warm. Heavy cannonading on our left. As we were building our breastworks George Turner, Co. I, was shot in the head and killed. During the night the Rebels shelled us. One shot fell in our regiment, killing Sergeant Curd, Co. B. Rained all day.

Saturday June 11, rained hard all day. George Pendergrass, of Co. H, was wounded in the head and afterward died. Very heavy cannonading on our left.

Sunday June 12th, rained all day; heavy skirmishing on our front all day; worked on our breastworks in the evening.

Monday June 13th, still raining and rained all day, very muddy. Some skirmishing in our front.

Tuesday June 14th, heavy cannonading on our lines, heavy skirmishing in our front. We could see the Rebels leave their works. We advanced and captured their works, also capturing several prisoners. At 4 o'clock p. m. we moved to the right two miles and built breastworks out of rails and logs; beautiful day.

Wednesday June 15th, heavy cannonading on our left. Some skirmishing in our lines. Sun shining very warm. Nice day, mud drying up fast.

Thursday June 16th, beautiful morning, heavy cannonading on

our left. 7 o'clock p. m. marched one mile, built breastworks, heavy skirmishing in our front. Some few men wounded; a nice day.

Friday June 17th, moved one mile, heavy cannonading on our right and left. Drove the Rebels from their works several miles, one man killed and one wounded in the 27th Ky. Heavy cannonading in our front. Built breastworks and remained in them until next morning.

Saturday June 18th, heavy cannonading still going on. William H. Morse, Co. H, 20th Ky., wounded in the arm, between Lost and Kenesee mountains. Heavy rain fall today.

Sunday June 19th, still raining; 2 o'clock p. m. left camp, marched through very thick mud, wading Hill's creek waist deep 100 yards wide. Heavy rain all day; heavy cannonading on our left. Camped in the woods at 9 o'clock p. m. Men wet; made fires to dry our clothing.

Monday June 20th, remained camp all day, cannonading still going on. Some rain today.

Tuesday June 21st, remained in camp all day, cannonading still going on. Rained hard all day.

Wednesday June 22nd, at 10 a. m., left camp and marched four miles, built breastworks during the evening. Our brigade had a hard little fight with the Rebels there. They were handsomely repulsed, killing 1,000 and taking a number of prisoners. 14th Ky. lost 40 men killed and 60 wounded. Beautiful day.

Thursday June 23rd, beautiful morning, 7 o'clock a. m., moved one-half mile and made work, remained half an hour and moved forward and slipped on the Rebels and got within 200 yards of their works. Built breastworks, men not allowed to make any noise. Heavy cannonading on our left. Rebel balls falling like so much hail. Rebels killed the day before still lay on the ground not buried. Beautiful day.

Friday June 24th, beautiful morning, skirmishing still going on. Reuben Stinnett, Co. K, killed, John Coatney, Co. K, wounded. Still remained in camp all day.

Saturday June 25th, skirmishing still going on, balls falling thick and fast and all day heavy fighting on our left. Very warm day. Henry Gomley, Co. A, wounded through the thigh, still remained on our works and skirmishing with the Rebels.

Sunday June 26th, very warm, two men wounded in our regiment belonging to the 19th Ohio Battery. No casualties in our regiment. Some cannonading on our

left. Moved and built breastworks after dark, working all night hard. No sleep in our regiment.

Monday June 27th, still worked on breastworks. Peter Brown, Co. B, wounded through the arm. Abraham Ensey, Co. B, killed by a ball which took effect in left breast, and Peyton Tabor wounded by a shell. Heavy cannonading in our works. Eight guns working all day. Very warm.

Tuesday June 28th, skirmishing still going all day, balls falling thick and fast. Joseph Shaw, Co. F, wounded through the thigh. His pocket knife was shot through his left leg. Very warm; no breeze stirring today.

Wednesday June 29th, skirmishing still kept up. Young E. Jennings wounded in the head. Three of the 19th Ohio Battery wounded, one killed. Zack Brown, Co. B, wounded in the thigh, still lay in our breastworks, not allowed to show our heads above our works; very warm all day.

Thursday June 30th, skirmishing still kept up all day. Heavy cannonading still going on. Jasper Powell, Co. A, killed; shot through left breast at 8 o'clock p. m. We were ordered to move to the right. Marched until 12 o'clock that night when we laid down in the woods and slept the remainder of the night. Very warm.

Friday July 1st, marched four miles to the right; there we came up with the Rebels, drove them three miles after had skirmishing. Sergeant William Yates, Co. H, was wounded in the right leg. Moved up into an old field, halted and built breastworks, worked all night making work; no sleep, very warm day, several men receiving sunstroke; very dry.

Saturday July 2nd, remained in camp until 11 o'clock a. m. We were ordered to the left, moved half a mile, lay on our arms, Rebels shelling us too hot to stay. Moved back to the rear about 300 yards, built breastworks, worked all night; very warm.

Sunday July 3rd, remained behind our breastworks all day. Some cannonading in our front, heavy skirmishing, weather very warm; Rebels retreating toward the river.

Monday July 4th, remained in our works all day, heavy cannonading and skirmishing in our front; weather very warm, nice level country.

Tuesday July 5th, remained behind our breast works. Some cannonading. At 10 o'clock a. m. we were ordered to be ready to move at a moment's warning. Moved to the right two miles, halted and got dinner, turned back and moved to our same works where we had left that morning; weather very warm.

Wednesday July 6th, beautiful morning, ordered to move at 6 o'clock a. m. Started at the time and moved to the right and then moved forward, crossing Nigger Jack river, marched up on the hill, stopped to rest, remained half an hour, then we continued our march, marching through the strongest Rebel works I ever saw, crossing the Railroad Ruffs station fifteen miles from Atlanta.

Ga. remained all night; very warm. Day cars came down and went on down the road.

Thursday, July 7th, remained in camp all day. Some heavy cannonading on our right; very warm all day, men could hardly stand it.

Friday July 8th, ordered to move at 4 o'clock a. m. Struck tents and took up our line of march and marched six miles, crossing Soap Creek, and at 10 o'clock p. m., after marching in the night, very dark, we camped in an open field one-fourth of a mile from the Chattanooga river. Men were allowed to go and wash, very warm day all day.

Saturday July 9th, laid in camp all day; no fighting of any consequence today. Sun shone hot all day.

Sunday July 10th, remained in camp all day. At 3 o'clock p. m. it rained very hard; all quiet in our front; very warm.

Monday July 11th, at 10 o'clock a. m. we received orders to move; then orders came to draw three day's rations. At 2 p. m. we took up our line of march, crossing Chattanooga river and marched two miles and camped on Hilton Ridge. It rained all night. All quiet in our front.

Tuesday July 12th, at 6 o'clock a. m. we were ordered to send seven companies out on a foraging expedition, and three to remain on picket. Remained until all day. Some rain; afternoon very warm; all quiet in our front.

Wednesday July 13th, cloudy in the morning, looked very much like rain. Remained in camp all day, very warm day; all quiet in our front; no skirmishing to be heard today. Did not know what to think about it being so quiet in our front.

Thursday July 14th, at 6 o'clock we received orders to march; moved about three miles to our left, camped and were ordered to remain until further orders. Very warm, heavy rain late in the evening. All quiet in our front.

Friday July 15th, remained in camp all day; cloudy and looked very much like rain; heavy rain late in the evening.

Saturday July 16th, remained in camp all day, cleaned quarters, set tents in proper order. All quiet in our front.

Sunday July 17th, at 6 o'clock a. m. we were ordered to be ready to move with a moment's warning. Marched two miles, halted, threw up breastworks. Some skirmishing in our front and some cannonading in our front; very warm.

Monday July 18th, ordered to march at 6 o'clock a. m. At 6 it was countermanded and we remained in camp, and in about a half an hour we were ordered to march at 8 o'clock. We left the camp, marched 10 miles. Beautiful country and fine farms, passing a new railroad that the Rebels had not finished. Camped on the bank of Peachtree creek. Very warm; some skirmishing in our front.

Tuesday July 19th, at 5 o'clock we received orders to move, and marched, crossing Peachtree creek and marched seven miles, had a right smart skirmish with the Rebels. Went into Decatur, Ga., after night. Smart little fight with the Rebels on leaving the work they burned their supply train consisting of about forty wagons loaded with provisions and munitions of war; also burning the depot. They left a large house filled with tinware made for the C. S. A., which we captured; also a large lot of sacked corn marked "C. S. A." which was distributed among the different brigades in 2nd division. We tore up the railroad and afterward the 15th, 16th and 17th corps came in and we moved to the right, camped in an old field; very warm day. Looks like rain, some cannonading in our front.

Wednesday July 20th, at 5 o'clock we received orders to move. Marched off in front of our brigade, moved four miles,

Are You ? A Woman !

halted, ate dinner, then moved about a half mile, formed line of battle, marched through the worst thicket I ever saw, marched through three companies of our regiment, sent out as skirmishers, marching driving the enemy about three miles and ran them out of their works, capturing three companies of the Rebels. Heavy fighting in our front, right and left. Very pleasant evening.

Thursday July 21st, soon in the morning we moved up, taking position within two hundred and fifty yards of the Rebels works. Could see them plain, and we threw up strong works and held them. Martin Girts, Co. H, 20th Ky., wounded in right breast.

Booth Alexander, Co. C, 20th Ky. shot through both arms, serious. Walter Lisby, Co. I, through the shoulder. Jasper Sutherland, of Co. G, wounded in the side, serious. Thomas Brookshire, Co. D, slight. Thomas Fitzgerald of Co. B, killed. Frank Coleman of Co. K, wounded in right side, serious. Capt. Harmon of Co. D, 27th Ky., wounded in left leg, afterward amputated; laid in our works all day after we got them done. Company H was sent out on picket and remained all night. Heavy rain in the evening, very warm.

Friday July 2nd, at 2 a. m. we were ordered, (that is, the skirmish line) forward to feel the enemy. Moved in the Rebel's works and laid until daylight. Ordered forward, skirmishing with the enemy and drove them about two miles. At 5 o'clock we (my company) was ordered to join the regiment, which we did and marched, out eating no breakfast. Came upon the enemy's works, laid under heavy shelling from the fort that was in the edge of town (Atlanta). We laid in sight of Atlanta, Ga., under three guns, all day. About 3 o'clock the Rebels made a desperate charge and were repulsed on the right and the left, leaving their dead and wounded on the field. Gen. McPherson was killed; Lieut. J. W. Hale, Co. D, 20th Ky., wounded by shell in left arm; Abe Daughtry, Co. G, 20th Ky., killed by a shell; Newton Pace, Co. D, 20th Ky., wounded in arm by shell. Heavy cannonading all along the line. Very warm. At 2 o'clock we were ordered back to build works, worked all night; nothing to eat. The wagons could not get to us.

Saturday July 23, cannonading still going on, heavy fighting on our right. Laid on our works all day. No casualties in our regiment today. Heavy fighting on our right all night. Beautiful weather, though warm. Some rain in the evening.

Sunday July 24th, cannonading

still going on, but no regular engagements. Strengthening our works; worked all day. Very warm.

Monday July 25th, still lying in our works; cannonading very heavy; skirmishing still going on. Thomas Emerson, Co. A, killed. Moved to the rear and built breast works. Some rain after night. Beautiful day, but warm.

Wednesday July 27th, at 7 a. m. moved back to our works, finished our works, laid in them all day. Heavy cannonading all along our lines. Very warm. Some rain in the evening.

Thursday July 28th, laid in camp. At 2 o'clock the Rebels opened their artillery on us, kept it up for half an hour, shells falling all over our regiment. Sergeant Curd of Co. K, wounded in the foot. Heavy fighting on our right, said to be 4000 killed. Heavy cannonading all day and night. Very warm day.

Friday July 29th, at 6 o'clock we were ordered to be ready to march and guard a wagon train to the river. Marched two miles, halted on the right hand side of the road and remained half an hour. Marched twelve miles and halted on the bank of Nancy creek and ate dinner and remained two hours. Another train of wagons loaded came along and we marched with them guarding them; marched until 12 o'clock that night. Very dark. Returned to our old camp; men worn out. Very warm; some rain.

Saturday July 30th, remained in camp all day. Cannonading and skirmishing very heavy all day and night. Very warm.

Sunday July 31st, laid in camp all day. Very quiet in the morning; rain in the evening. Heavy cannonading and skirmishing late in the evening and kept it up almost all night.

Monday August 1st, still lying in our works. Heavy cannonading going on. At 6 o'clock p. m. we were ordered to move. We marched and stood on the road until 12 o'clock. Very dark and muddy. Our artillery could not get up the hill and we had to halt for the night. Rain in the evening; very warm.

WOMAN ESCAPES OPERATION

Was Cured by Lydia E. Pinkham's Vegetable Compound

Elwood, Ind.—"Your remedies have cured me and I have only taken six bottles of Lydia E. Pinkham's Vegetable Compound. I was sick three months and could not walk. I suffered all the time. The doctors said I could not get well without an operation, for I could hardly stand the pains in my sides, especially my right one, and down my right leg. I began to feel better when I had taken only one bottle of Compound, but kept on as I was afraid to stop too soon."—Mrs. SADIE MULLEN, 2728 N. B. St., Elwood, Ind.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound? For thirty years it has been the standard remedy for female ills, and has cured thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, indigestion, and nervous prostration. If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Mrs. Pinkham at Lynn, Mass., for advice. Your letter will be absolutely confidential, and the advice free.

Indians Use Bath Tubs For Beds.

Banning, Cal., Sept. 29.—Although most of the improvements installed for the Mission Indians of Southern California by the Bureau of Indian Affairs have been gratefully received by the red men, bath tubs installed two years have not been thoroughly appreciated until recently. The bath tubs installed in the Indians' homes were regarded with suspicion and remained unused until one of the old chiefs discovered that they made excellent beds. He committed his discovery to others and now the head of each family possessed of a tub seeks his nightly repose within it.

Who Has Lost a Necklace?

Detective Dan Herring, of the Oklahoma City detective force, who arrived here today, failed to find the owner of a gold necklace taken from two thieves now being held in that city. The necklace was thought to have been stolen from a Kentucky lady, but no identification resulted.

The crooks under arrest there gave the names of Sam Morris and Carl Baker. Morris is an ex-convict and Baker was recently discharged from the United States army for disability. They pilfered a room in that city, but the owners of the stolen articles cannot be located.—Paducah Sun.

Crickets Take Possession of Town.

Austin, Tex., Sept. 30.—Millions of crickets took possession of this city today and are successfully combating the rights of the original residents. This morning Austin awoke to find the business district black with the plague. The entire fire department was called out to combat the situation, and tons upon tons of water were being thrown on walls and sidewalks with a view to drowning the crickets and to wash them out of the streets through the storm sewers. For four hours the principal business streets were several inches deep in water and black with crickets. In the residence section the crickets remained unmolested and arrogant.

SAYS NIGHT RIDERS GOT STOLEN HORSE

After Three Years Alleged
Horse Thief Behind
Bars.

Madisonville, Ky., Sept. 27.—After waiting for three years, the authorities landed J. C. Carter, alleged horse thief, in the county jail here today. Carter came to Madisonville three years ago and represented himself as a civil service agent. He went to a livery stable and hired a horse valued at \$250. The man did not return and all efforts to locate him were futile. About a year after, or two years ago, it was ascertained that Carter had been arrested at Nashville and convicted on a charge of stealing. He was doing time then at Nashville in the state prison. His time was out yesterday, and the Madisonville authorities were at Nashville to take charge of him as soon as the Tennessee authorities released him. Carter claims that night riders took the horse away from him and that was the reason he did not return to Madisonville.

One Million Dollars For A Good Stomach

This Offer Should Be a Warning to
Every Man and Woman.

The newspapers and medical journals recently have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach.

This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable.

His misfortune serves as a warning to others.

Everyone who suffers with dyspepsia for a few years will give everything he owns for a new stomach.

Dyspepsia is commonly caused by an abnormal state of the gastric juices, or by lack of tone in the walls of the stomach. The result is that the stomach loses its power to digest food.

We are now able to supply certain missing elements—to help to restore to the gastric juices their digestive power, and to aid in making the stomach strong and well.

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion, and dyspepsia.

We want you to try them and will return your money if you are not more that satisfied with the result.

Three sizes, 25 cents, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—the Rexall Store. Haynes & Taylor, Marion, Ky. 151t

The Favorite Laxative

One at Night Makes the Next Day
Bright; No Change if It Doesn't

Because of its extremely gentle and effective action, Rexall Orderlies have become the most popular Remedy for Constipation.

We are so positive that Rexall Orderlies will do all that is claimed for them that we positively guarantee to hand back the money you paid us for them upon your mere request, if you are not entirely satisfied.

Rexall Orderlies are eaten like candy, are very pleasant to the taste, do not gripe, cause nausea, or any other annoyance usually experienced when ordinary cathartics are used.

Rexall Orderlies have a positive regulative effect upon the bowels and tend to provide permanent relief from Constipation and the myriad of associated ailments. Besides, they help to overcome the necessity of the constant use of laxatives to keep the bowels in normal condition.

We honestly believe there is no similar medicine so good as Rexall Orderlies, especially for children, aged, or delicate people. They are prepared in convenient tablet form in three sizes of packages. Prices, 10c., 25c., and 50c. Why not try them at our risk on our guarantee?

Remember Rexall Remedies can be obtained in this community only at our store—The Rexall Store.—Haynes & Taylor Drug Co., Marion, Ky. 151t

CONFERENCE OPENS AT GREENVILLE

Bishop McCoy, of Birmingham, Occupies Chair—An Historical

a large number of absentees. The conference organized by various committees and by electing Joseph H. Chandler secretary. A cordial welcome was extended to the visiting members by T. N. Belcher in an address which was feelingly responded to by Bishop McCoy.

An interesting bit of church history was disclosed when the Rev. D. S. Campbell, of Lewisburg, presented to Bishop McCoy for use during the conference a table which had been used by the first bishop of the Methodist church in a meeting of the Tennessee conference held in 1814. Bishop William Asbury was the bishop and Greenville was then included in that conference. Mr. Campbell's remarks further disclosed that the first Methodist Church was organized in Greenville in 1808, the first Methodist Church building being erected in Greenville just 100 years ago. Bishop McCoy gracefully accepted the table, after which the routine business of the conference was taken up.

The Louisville conference is composed of the following districts which are represented here: Bowling Green, Columbia, Elizabethtown, Louisville, Henderson, Hopkinsville and Owensboro.

While en route to this place to attend the Methodist conference from his home at Oxford, Ga., Dr. J. D. Hammond was robbed in Nashville, Tenn., of \$150. Fifty dollars was in New York exchange and he hopes to stop payment on that amount of his loss. Dr. Hammond is one of the leading ministers of the Southern Methodist Church, having served as secretary of the Board of Education. He is now president of Paine Institute.

AN EXAMPLE TO US.

"Good Roads Week" Proved to be
a Great Success and it Was
Aided by Hundreds.

Somerset, Ky., Sept. 27.—Today was the first day of the week for Pulaski county which was set aside by County Judge R. C. Tartar by public proclamation, and men in large and small squads have been scattered all over the county working on the different roads. Dirt, rock and gravel have been flying fast and furious, and will continue to do so until Saturday.

Friday and Saturday will be the biggest days of the week and several thousand men are expected to be at work on public roads in this county on those days. Early this morning on almost every road in the county could be seen crews of men with wagons, plows, shovels and picks and it is believed that this week will see the greatest improvements in the roads of this county ever known in its history.

For the past year agitation of good roads has been keen in Pulaski and the effects are being shown by the improved highways. One of the most modern road building equipments, consisting of two traction engines and other paraphernalia has been purchased by the County Court and is kept busy all the time building pikes in various sections.

A number of young ladies are making the rounds of business and professional men who cannot work on the roads themselves and are taking offerings from them to employ others in their places.

You are not experimenting on yourself when you take Chamberlain's Cough Remedy for a cold as that preparation has won its great reputation and extensive sale by its remarkable cures of colds, and can always be depended upon. It is equally valuable for adults and children and may be given to young children with implicit confidence as it contains no harmful drug. Sold by all dealers.

Ollie James Makes Winning Fight.

All doubt of Democratic success can be dispelled by reading the newspaper reports of Ollie James' triumphant journey through the State. Wherever he has gone immense crowds have greeted him, and the enthusiasm is greater than has been aroused in years in any political Campaign. This is not entirely due to Mr. James' magnetic personality, although he is popular with all classes. It is caused by the desire of the Democrats to show by their presence that they are going to send to the United States Senate a man who will vote exactly opposite to Senator Bradley. They recognize that one vote in the Senate may mean the control of the body, so closely are the parties divided. It is necessary for the Democratic speakers to raise National issues in this fight. The voters themselves are asking questions about the tariff and the trusts and they have made this great issue a feature of the Campaign. All the efforts of Judge O'Rear to confine this contest to State matters have only convinced them that the Republican party wants to change the subject, because it

cannot face the people on its record in Congress and in the White House.

The Legislators to be chosen in November will not only elect a Senator next January, but nineteen of the State Senators will hold over for two years and will vote for Bradley's successor in 1914. Kentucky has never engaged in a more far-reaching contest. It concerns a Governorship and all the State offices; two United States Senatorships, and will have an influence on the election of a President next year. That is why Champ Clark, Speaker of the House, Oscar Underwood, the Floor Leader, Governor Marshall of Indiana, William J. Bryan, and all the great National figures are tendering their support to the Kentucky Democrats. They know how vital it is to success in the nation that Kentucky should vote right this year.

Eloquent as Ollie James is always upon the stump, he has revealed new powers of oratory and logic in this Campaign. His speeches are doing a world of good for the party, and where ever he has appeared Democratic hopes have been brightened.

Biliousness is due to a disordered condition of the stomach. Chamberlain's Tablets are essentially a stomach medicine, intended especially to act on the organ; to clean it, strengthen it, tone and invigorate it, to regulate the liver and to banish biliousness positively and effectually. Traction Line.

Paducah, Ky., Sept. 4.—(Special.) With absolute assurance in the form of an exchange of memoranda between the parties that the American Traction & Power Company, of Indianapolis will finance the construction of the Kentucky Southwestern Electric Railway, Light and Power Co., interurban lines from Uniontown, Ky., to Sturgis, Dekoven, Marion, Smithland, Paducah and thence through a thickly populated territory to the head of deep water navigation at Hickman, the final details of the organization are being completed rapidly, and within the next fortnight the company expects to have a corps of engineers in the field making the commercial report and reconnaissance survey, which the A. T. & P. board of directors have required before taking over the financing of the road.

The Kentucky Southwestern company has issued stock at exactly the estimated costs of the engineers' fee, \$25,000, and are selling stock in \$10 shares for the purpose of defraying this expense. No other stock sales, subscriptions or bonuses of any kind are being asked in addition. This stock is being scattered throughout the length and breadth of the territory that will be tapped by the road.

At Paducah and the larger points along the route the whole allotment practically has been taken. The company is said to have a motive in scattering this stock over as wide an area as is possible, as in this way they obtain greater patronage for the road when it is completed.

Within the next few days the officers of the company expect to visit Crittenden county for the purpose of placing their plans before the people and asking them to cooperate in their efforts to show the eastern financiers that Southwest Kentucky will wel-

come the tremendous commercial advantage given by an interurban railroad.

It has been pointed out that the counties which will be tapped by the road are practically without even decent railroad facilities, and none except McCracken county has competitive freight rates. The coal business alone is expected to show the 6 percent earning power required by the Indianapolis people before they expend the \$5,000,000 necessary to equip the road ready for the reception to traffic.

Don't trifle with a cold is good advice for prudent men and women. It may be vital in case of a child. There is nothing better than Chamberlain's Cough Remedy for coughs and colds in children. It is safe and sure. For sale by all dealers.

RODNEY

We are having some beautiful Autumn days at present.

Some of the farmers are preparing to sow wheat.

Carl E. Ill. Sept. 30.—Miss Clara Roekenhouse today accepted \$1,000 as payment for blood taken from her veins to prolong the life of the late Julia A. Sparks and the consequent alleged injuries to her mind and body. Mrs. Sparks was critically ill two years ago. A claim for the blood was filed against the estate and was allowed.

At The Opera House.

Theatrical Season to open here Thursday night, Oct., 5th.

Herbert Bethew in "The Man On The Box," will be the offering at the Majestic Theatre here coming with the original production direct from New York and using the same scenic equipment that Henry E. Dixie did with all the costumes, electric and property effects that made his show famous in New York where it enjoyed a run of over two hundred nights at The Old Madison Square Theatre. The Man On The Box will be the social event of the season as many society people have spoken.

VOLUNTEER ROAD WORK.

5,000 Men Work 4 Days in Pulaski.

Somerset, Ky., Sept. 25.—Everybody is ready for the "Volunteer road working week" in Pulaski. Judge Tarter expects at least 5,000 hands to work all beginning the 26th. Nearly every business man in the city has donated a hand for the four days. Judge Tarter is distributing 5,000 buttons to the volunteers. During the last year Pulaski has built about 10 miles of pike, and this will be greatly increased next year. Immediately following the Good Roads week a permanent "Good Roads Association" will be formed and the interest kept up. A president and Secretary will be elected and paid a salary.

Ham and Eggs Are

Scrambled in Runaway.

Newton, N. J., Sept. 24.—A passing train today frightened a horse pulling a load of eggs and driven by Rey Ham. The horse bolted, the wagon tipped over and Ham and eggs were thrown into the street. When Ham scrambled from among the eggs he resembled an animated omelette.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DAM BROKE

One Hundred And Fifty Lives Lost By Breaking of Dam at Austin, Pa.

Austin, Pa., Sept. 30. — Possibly 150 persons, most of them women and children, are dead tonight their bodies being scattered through the valley by the fall of water, 50 feet high, that dashed down Freeman's Run this afternoon, from the broken dam of the Bailess pulp mill, and snuffed out this little city.

The deluge was followed by fire.

Austin is a wreck, the living hardly able to seek the dead.

Nearly every survivor suffered a broken limb or strain or wound. The flood crushed nearly everyone of the 500 houses.

No warning came except a roar, then the shock of the flood, a crash of timbers, then screams and fear.

On the crest of the wave rode thousand of cords of pulp mill timber. This hit houses and stores like a succession of battering rams. It riddled the frame homes of the workers like canister and struck into unconsciousness the terror-stricken people seeking to swim the flood to safety.

The water passed the city wall two miles in length.

The course from the creek was down the valley of the Sinnema honing river.

Along the the banks hundreds of houses this evening were either covered or wrecked by the swollen river.

Costell Hallet, three miles south, was also wrecked, but timely work from Austin saved most of the lives there.

The pulp mill, a half mile north of Austin, was torn from its foundation, with its great piles of logs, and doubled back upon the city.

The Gordyear Lumber company had 7,000,000 feet of lumber stored at the outskirts of the city. This added to the great log-water battering ram which formed the apex of the flood. The planing mill, hotel and a store building fell before the hammering.

The churches were left standing.

The long barbed wire fence along the creek cut off the escape of two score who survived the

first onslaught.

When the flood passed, rescuers found bodies in the fence terribly torn. Many bodies were recovered five miles below.

Rescuing parties are busy fighting flames tonight to save the bodies buried in the debris from incineration.

Many were imprisoned in houses washed on to high ground, but soon licked up within the fire zone.

The fire departments from Smithport, Codersport, Bradford and Keating Summit rushed here to fight the flames.

The wreck of buildings left the gas mains open and the flames spread rapidly.

The hospital was soon filled with the injured, and bodies were piled in rows on the lawn.

Twice trains from Keating Summit carried food and clothing, doctors and nurses into the destroyed town and brought the injured to the lawn. The hospital on the hill escaped the flood.

The dam was modern concrete, supposed to be the most substantial in this part of Pennsylvania, until a year ago, when the bed was found to be weak. It was extensively repaired then and no further uneasiness was felt. The recent rains caused added pressure which is supposed to be responsible for the break.

J. J. Martin, the Sullivan planter and capitalist, passed through here Wednesday with 100 head of fat cattle which he purchased in the southern section of the county near the Cumberland river. There were sixty cows and calves and forty head of fat steers and they were a beautiful lot, and represented a pretty bunch of money.

Rev. T. N. Compton, of Owensboro, was here Friday and Saturday to visit his friend, Rev. J. S. Henry.

Rev. John S. Henry is unimproved and is gradually growing weaker. His friends however, have not ceased to hope that his robust constitution will pull him through.

D. C. Roberts, of Golconda, Ill., who arrived several days ago to visit his son, George P. Roberts, on Walker street, has been indisposed and it is said, is threatened with malarial fever.

Mr. and Mrs. J. H. Orme, family and chauffeur will leave this morning for Paducah to attend the horse show and other festivities which are being observed in the "Purchase Metropolis" this week.

Albert Craig of the Hebron Section died Sunday morning Oct 1st, 1911 of pneumonia and typhoid fever. He was 14 years of age. Next week we will publish a memorial from his teacher.

Mrs. D. C. Roberts of Chicago arrived this week to be the guest of her son Geo. P. Roberts.

Mr. and Mrs. J. W. Wilson and children will leave today for Paducah to attend the horse show. They will go in their automobile.

Dr. Mather returned home on Monday afternoon from Greenville, Ky., where he had been in attendance upon the annual session of the Louisville Conference. After a couple of days here he will leave for St. Louis, Chicago, and Tronto, Canada, where he will attend the Ecumenical Conference of world-wide Methodism which begins its sessions today and continues for two weeks.

The doctor will return by way of New York, Philadelphia, Washington and Indianapolis, in all of which places he has a number of

friends with whom he will make brief visits.

W. W. Whitfield and wife, who have been guests at the Gill House while he was employed at the Ice plant, will leave soon as the ice manufacturing season is over.

Mrs. Q. M. Conyer arrived home Tuesday afternoon from Memphis, Tenn., where she had been attending her daughter, Mrs. C. H. King, who has been ill, but is now convalescent.

Jack Cloyd, of Denver, Colo., was here Monday. He contemplates moving to Kentucky and may locate near here or at Madisonville.

Obituary.

Early, on the morning of Sept. 29, 1911 Mary Malinda Lamb, the mother of W. L. Wilson and daughter of James and Polly Lamb was called home after a long life full of service for the master and her church and neighbors. Jas. and Polly came to this county with their parents in 1800 and settled near where Quincy Wilson now lives. Aunt Malinda as every one called her, was born April 8, 1819 was married to Lysander H. Wilson Feb. 4 1847. Of this Union one child was born Quincey Lysander Wilsoe died Feb. 20, 1850. "Aunt Malinda" was married to Joseph Campbell Aug. 16 1867. He died March 11 1875. She spent the remainder of her days with her son. She professed religion at Piney Fork church when she was about 20 years of age. She joined the Cumberland Presbyterian church at Piney Fork and when the church was organized at Sugar Grove about 1840. She became a member as that was near her home. She was at one time the sexton of this church, a place she filled with much pleasure. She attended church as long as she was able, Rev. W. T. Oakley conducted the funeral services and she was buried in the cemetery at Sugar Grove.

SEVEN SPRINGS

Rev. U. G. Hughes, of Marion, was with us at prayer meeting Wednesday night and conducted the service for us. He read for his lesson the 12th chapter of Romans.

Mrs. Luda Stubblefield is very sick at the residence of her stepfather in this community, and but little hope is entertained of her recovery.

Jim Patton and children, of Caldwell Springs, were visiting his parents at his place Sunday.

The relatives of Mrs. Sallie Boaz gathered at her home in this vicinity on the morning of Sept. 27th, that being her birthday, to celebrate and enjoy this day with her and aunt Alec Crouch. This was kept a secret from aunt Sallie, as they all wished to sur-

prise her, but bye and bye very early that morning aunt Sallie noticed the vehicles and saw that they were coming to her residence, and they kept coming until a large crowd had gathered in, and she knew they were coming to enjoy this day with her. At noon a nice sumptuous dinner was served prepared by those good people. The table was just groaning beneath the load of good cooked vittles, such as ham, beef, pork, pies, cakes, jellies and preserves. A most enjoyable day was spent together. The writer has forgotten just how old this good woman was, but will say she is a very ripe old age. The writer wishes her many more birthdays like this, and though old and feeble in her head the writer hopes that our good Lord will permit her to enjoy many years with her people and friends, and when done with the trials of life we hope to meet her in the great beyond with scores of others, who have long since gone before, and are basking in the sunlight of God's glory.

M. F. Pogue, of Frances, attended prayer meeting at this place Wednesday night and made a very appropriate talk for the benefit of our church and prayer meeting at this place. We heartily endorse what he said in regard to the many excuses that people will offer to keep from attending their church duties. This is a matter that is neglected too often, and God says in His word "he that knoweth to do good, and doeth it not to Him, it is sin."

Let every one that can come to our dedication at Seven Springs Oct. 8th. This is a matter of vast importance and should interest every one.

The ice cream supper at Tom Patten's Saturday night, was a success, under the management of Miss Lulu B. Wheeler, who is teaching school at Boaz school house.

At The Majestic

Fine show here at the Majestic Theatre Thursday night, Oct., 5th. Harold McGrath's fascinating little story, "The man on the Box" in Grace Livingston Furniss dramatization or in its production by Herbert Bethew and all star Co. The role of Lieutenant Warburton made famous by Henry E. Dixey is well handled by Mr. Bethew. He injects none of the bombaste into his lines, but does his work in an easy, simple manner making the very best of a difficult part that could be easily overdone and by overdoing ruined. The supporting company is excellent. This same Company will appear here Thursday night, Oct. 5th., at the Majestic Theatre.
