Indemn Lawlessness

Uphold The Officials.

Indemn Organizations Condemn the Action of the Lawless Element.

Minutes of meeting held in Marion, Kentucky, of Crittenden County Executive Board and officials of the Farmers' Educational and Co-operative Union, and the Stemming Association, December 30th, 1911.

Whereas, anonymous and threatening letters have been mailed or sent recently to the Marion agent of the I. C. R. R., and to persons and firms engaged in the purchase and remanding of tobacco in Marion and Crittenden county, and, whereas, the sending of such letters and the making of the threats therein contained, whether put into execution or not, are violation of law, and calculated to alarm the people and render insecure their enjoyment of life and property; it also places grave obstacles in the way of the farmers in their efforts to organize for the purpose of securing living prices for their tobacco and farm produce; and will cause fire insurance companies to cancel policies and refuse to extend to people proper fire protection. Therefore be it resolved by the Executive Board and officials, we condemn and deplore such violations of law, and all violations of the law, and we hereby pledge the state and county officials our hearty and united support in every proper effort they may make to capture and convict the party, or parties, guilty of violating the law in any particular, and we endorse the action of the County Judge in offering a reward out of County funds to secure their capture and conviction.

We urge the County and state authorities to take all steps as may appear necessary and proper to them for the protection of life and property in this county.

E. Flanary, Chairman Executive Board of F. E. & C. U. of A. W. Fox, President of F. E. & C. U. of A. P. Griffith, Secy. & Treas. M. Dean, Chm. Crittenden County Board of Stemming District Tobacco Association.

Davidson-Phillips.

Married at the home of the bride's father, F. M. Davidson, Sunday afternoon, Dec. 24, 1911. T. H. Phillips and Miss M. Davidson.

After the ceremony had been performed by the Rev. U. G. Hughes, the married couple and their many friends were invited to the dining room where a sumptuous feast awaited them. The bride was groaning under the many good things which Mrs. Davidson had prepared.

The bride is the beautiful and accomplished young daughter of Mr. and Mrs. F. M. Davidson, of near Crittenden Springs. The groom is a prosperous young farmer of the Hurricane neighborhood. They will make their home on his farm near Hurricane.

The popularity of this young couple was well proven by the many valuable presents present, which are too numerous to mention.

May every blessing and perfect happiness be added to their life.

DEBOE—HUFFMAN.

Miss Mendoza Deboe, daughter of Mr. and Mrs. Phillip Deboe and John W. Huffman of Lawrenceburg, Tenn., were united in marriage at the home of the brides parents Christmas night, Rev. Costello officiating. They left Tuesday for Memphis, Tenn., to visit the groom's sister, after a short visit there they will proceed to the groom's home at Lawrenceburg, Tennessee, where they will reside. The bride belongs to a prominent family here being a relative of former U. S. Senator Deboe. She is one of a family of seven handsome sisters and is an attractive girl. The groom, who is a gospel evangelist and leader in singing is being congratulated on his choice and his success in winning her for his life partner.

Carter—Johnson.

Thursday morning Dec. 21st, the news was received here of the marriage at Mayfield, Ky., Wednesday evening Dec. 20th, 1911, of Walter Johnson, of this county, and Miss Agness Carter, of Mayfield. It was a great surprise to every one, except the groom's family who knew of his plans.

Mr. Johnson is a son of J. W. Johnson and wife, who live on the Morganfield road near the city. He is a young man of sterling integrity and is famed for his honesty, sobriety and general good character.

The bride, who is a Kentucky beauty, has visited here frequently and was a friend of the groom's sisters, Misses Elizabeth and Ann Eliza Johnson, for several years. She is a daughter of A. I. Carter, the well known merchant of Mayfield who has been in the mercantile business there for more than a quarter of a century, and who stands up among the first men of his city and county. The best wishes of a host of friends here and at the bride's home, will attend them through life. They will go to house keeping at once here.

Mr. Johnson contemplates opening a shoe store.

WILLETT—GREENE.

Mrs. Thomas E. Ward yesterday received a telegram Chelsea, Okla., announcing the marriage of her niece, Miss Mary Willett, to George Green, of Clarksville, Tenn.

Miss Willett was formerly of Corydon, but at present is teaching school at Chelsea, Okla.

The groom is proprietor of the Arlington hotel at Clarksville. He is a nephew of Mrs. John Hodge of this city.

Henderson Gleaner of Friday, Dec., 22nd, 1911.

Mr. Green is a son of the late honorable Wm. H. Green of Salem, and is a first cousin of Mr. George Gray of this city and is quite popular here.

Miss Willett taught elocution here and is remembered by many admiring friends as a young lady of talent, and a most attractive personality. The Crittenden Record Press extends heartiest congratulations.

Notice To Farmers.

I will receive tobacco beginning Thursday Jan., 4th. But one load from each farmer a week. Will not receive tobacco unless in keeping order. Read your contracts and govern yourselves accordingly.

Yours,

R. H. Kemp.

Penny Script Book.

On January 7th, 1912, the I. C. and Y. & M. V. R. R.'s will place on sale at their principal ticket offices a form of transportation order designated 'Interchangeable Penny Script Books' which will be honored by practically all of the Railroads in the Southeast and which it is believed will be welcomed by the public.

Each book will contain at time of sale 2,500 coupons of the face value of one cent each, or \$25.00 in aggregate but will be sold for \$20.00. The coupons of each book when attached to the cover and contract thereof and presented to ticket agents by the original purchaser will be accepted in the purchase of transportation for his own use between stations in the Southeast at the rates and under the regulations set forth in the tariff governing the sale and use of this form of transportation order.

G. H. Bower, General Passenger Agent.

Tragedy Of The Hunt.

Charles Camp, 12-year-old son of D. D. Camp, a farmer living south of town, was accidentally shot Thursday by his older brother while they were hunting. The child was wounded in the head and physicians say he cannot survive. The older boy, who was carrying the gun, fell and the weapon was discharged.

Later—The boy died yesterday. Princeton Leader.

President of the Crittenden County Farmers Union.

Silver Discovered Near Mexico.

The Pigmy Mining Co., of Louisville have struck silver on their property near Mexico in the southern part of this county.

This company bought the W. B. Myers property and have been operating it since early in the Spring, and have been getting a fine quality of Spar rich in lead and containing silver ore. The company work a large crew of hands and have every facility for mining on a large scale. Their mine is located on the I. C. railroad and they are putting in a branch and will load their ore on the cars direct from the mine. They have built a large washer to wash their gravel spar and will soon begin the erection of a crusher to separate the different minerals.

This is supposed to be the same vein of silver that was worked before the Civil War, when a lot of it was made into money and passed.—Exchange.

Thomas Evans Goes to Chicago For Operation.

The thousands of friends of this and adjoining counties of Judge Thos. Evans, now of Paducah, will learn with feeling of deep regret that he is seriously affected with gall bladder obstruction and will go to Chicago. The operations are usually successful but generally results in killing the patient, or at least they rarely ever recover. It is something of the same nature from which our townsman, Geo. W. Tipton died last summer. We all trust that Judge Evans may meet with greater success for him than our lamented friend and neighbor, Mr. Tipton. Judge Evans recently bought the Gilbert drug store in Paducah, in Mechanicsburg and is doing a thriving business.—Smithland Banner.

Saw Her Brother in a Moving Picture.

Boston, Mass., Jan. 3.—After receiving word recently that a long lost brother was dead, Mrs. John Doyle, of Esst Boston, saw him stalk out on the canvas screen of a moving picture theatre last night. The figure stepped out from a crowd in a naval scene, looked out from the audience, waved a hand and disappeared. An effort will be made to trace the source of the film.

WILL RECEIVE JAN. 10th.

The Association will begin to receive tobacco at the Marion factory Jan. 11, 1912, and pay for it at the door.

Two Wives Claim Man.

Knoxville, Tenn., Dec. 31.—William Weaver, who was killed in Hartford City, Ind., by a live wire, last Friday, is mourned today in Knoxville by two women, each of whom claims to be his wife. The Indiana wife, with a 2-months-old baby, accompanied the body here, arriving this morning. Wilfred Weaver, a brother of the dead man, brought the body and claims he did not know the Indiana woman and child were on the train, although she states she came upon his invitation and that he assured her she would be given a good home here. William Weaver had a wife here, whom he married several years ago. He had been here with his family a year or more, and his brother states William had not been heard from for four or five months, although previous to that time he had sent his Knoxville wife money once or twice each month. The Indiana woman claims she was Adeline Hill, and her mother and step-father reside at Marion, Ky. and that she married Weaver at Newport, Ky., on Feb. 27 last. The baby, she says, was born Oct. 6 last. The Knoxville wife had no children.

Smallest Woman on Earth.

President Taft last week received the smallest woman in the world namely Mrs. Tom Thumb. She is about 70 years of age and only two feet high. President Taft was obliged to bend very low in order to shake the hand of this diminutive little lady. Mrs. Tom Thumb said as she was leaving the White House that she had met every President since Abraham Lincoln's time. She was married to General Tom Thumb in Grace Church, New York City, in 1863 and one of the cities visited during their honeymoon was Washington and President Lincoln received the famous little couple and Mrs. Thumb has been able to call upon every President since that time.

Princeton Collegiate Institute.

The trustees of the Princeton Collegiate Institute had an important meeting last Friday. The buildings are well equipped and in good condition. The girls' dormitory is as neat as a parlor. The fall term had considerably over one hundred in attendance. Rev. W. W. Loyd has been in the field soliciting new pupils and has the promise of several. With the closing of the country schools and the Princeton Graded School already overcrowded we hope for a fine attendance at the spring term. It is expected that the School will open Jan. 15. Any one wishing to give their children first-class advantages in educational lines it will be well for them to consider this Institute. Write to D. H. Gardner, Princeton, Ky., for information in regard to the school.

Former Smithland Editor Weds.

Smithland, Ky., Dec. 31.—Mr. Charles Ferguson, of Smithland, Ky., and Miss Mamie Yates, of Carrsville, Ky., were married at the Palmer House, Paducah, Thursday. The groom is a lawyer and at present is first clerk in the Department of Education at Frankfort. He was formerly Superintendent of Livingston county schools. They will make their home at Smithland.

SWITZERLAND'S EAGLE EYE SALVE
Good for Nothing but the Eyes.

Calloway Gives \$10,000.

At a meeting of the Fiscal court Monday, the court voted to appropriate dollar for dollar for every dollar that the people subscribed, up to \$10,000 for the Jeff Davis Highway through the county, under the following conditions: "That the said \$10,000 herein appropriated shall be paid out and spent on the co-operation plan as the work progresses, and as the citizens of county subscribe and donate in money, work or material, any sum for its construction, then an equal amount out of the sum herein appropriated shall be paid and spent under the supervision of the court, in its construction until all of the sum heretofore appropriated shall have been used.—Calloway County Times.

A Holiday Gift.

One of the handsomest pieces of art work that has ever been gotten up is "The Bride" a beautiful lithograph calendar for 1912. It is lithographed in 15 colors and is a perfect reproduction of one of the finest oil paintings ever produced in this country. This calendar shows every detail of the original and could not be distinguished from it except by experts. Sold in the regular way it would cost a nice sum, but the publishers of the National Stockman and Farmer of Pittsburgh, Penn., have purchased 100,000 of these handsome pieces of art and will send them to any one who will send 10 cents in silver or stamps to cover packing and postage. Under this favorable offer "The Bride" should be in the hands of every reader of this paper. Address as above.

SMILES

Smile when luck is breaking wrong.
Chant a psalm or sing a song,
Cheerfulness will keep you strong
Where discontent will fail;
Yours is not the hardest lot;
Make the most of what you've got
Smile a bit, for kicking's not
A thing that will avail.
Let the other fellow frown,
Who admits that he is down,
You may never gain renown,
But laugh and life's worth while
Laughter makes the heart beat young,
The pessimist will die unsung,
But you can be a man among
Men if you always smile.

Convicted of Helping to Lynch Kentuckian.

Newark, O., Dec. 19.—After a trial extending over several days a jury in the Common Pleas court returned a verdict finding Edgar Owen guilty of manslaughter in connection with the lynching of Carl Etherington, of Willisburg, Ky., an anti-liquor detective, in July last year.

Sentence was not pronounced upon Owens. There are now serving terms in the penitentiary at Columbus a half dozen men who were convicted of complicity in the lynching of Etherington. Two more men also remain to be tried from the lynching inquiry.

ILLINOIS CENTRAL WILL BUILD CHICAGO PALACE

Ten Million Dollar Depot Plans Selected, Giving Driveway Along Lake Front.

Chicago, Dec. 18.—A development of the plan which will give the city an outer driveway along its whole lake shore and will bring about the erection of a new passenger depot by the Illinois Central railroad to cost nearly \$10,000,000 was made certain tonight.

The City Council adopted resolutions accepting the plan, and the agreement was signed by the Mayor, the South Park Board and officials of the railroad company. The plans give the station a frontage on Michigan avenue as

well as Park Row, its present location, and moves the terminal station west several hundred feet. They will be put into the hands of the architect directly, it was announced.

Among the other important changes brought about by the agreement are a site for the Field Museum of Natural History sought for in vain before in the downtown district.

The Praise That Comes from Thanking Marion People.

One kidney remedy never fails. Marion people rely upon it. That remedy is Doan's Kidney Pills. Marion testimony proves it always reliable.

W. L. Tabor, Marion, Ky., says: "I suffered for ten years from kidney trouble. There were severe pains in the small of my back and I was unable to sleep well, arising in the morning, lame and sore. I was always tired, languid and nervous, headaches were common and I also suffered from dizzy spells. My kidneys were disordered and the kidney secretions passed too frequently. It was finally my good fortune to hear of Doan's Kidney Pills and I procured a box at Haynes & Taylor's Drug Store. I used them and in three weeks was greatly relieved. This encouraged, I continued taking this remedy and it effected a complete cure. I recommend Doan's Kidney Pills to anyone suffering from kidney complaint."

One Thousand Dime "Tips" Buys Waitress Fur Coat

Denver, Colo., Dec. 19.—One thousand dimes, all 10-cent tips, received during two years, were paid today by Miss Ivy Cole, a waitress for a fur coat.

When she had selected the coat and begun to draw from various bags and pockets the \$100 in 10-cent pieces the proprietor of the store gave evidence that he was not sure he wanted the task of counting the dimes.

"It took me two years to get these dimes," said Miss Cole. "I decided to save the tips I received in dimes until I got \$100 and then

buy a fur coat. It is not so easy as it sounds either."

Beauty Truths

Pimples, Sallowness, blotches and Dull Eyes Caused by Stomach.

Beauty is only skin deep, but that's deep enough to satisfy most women, also men.

In order to keep the skin in a clear, clean healthy condition, the stomach must supply the blood plenty of nutrition. As long as the stomach is out of order and the blood lacks proper nourishment, the skin will be affected. If you want a skin that you will be proud of, take a week's treatment of MIO-NA stomach tablets.

Get a fifty cent box today, and if you are not satisfied after a week's treatment, you can have your money back.

For any stomach ailment MIO-NA is guaranteed. It gives almost instant relief and permanently cures.

Large box 50 cents, at Haynes & Taylor's and druggists everywhere.

Only Kentucky Town That Bars Negro Race.

Rockport, Ky., Dec. 17.—Island Station, McLean county, is said to be the only Western Kentucky town which bars negroes and not a single representative of the Ethiopian race is to be found there. Occasionally a colored man, beating his way on a freight train, stops off for a few minutes, not knowing of the antipathy. He soon "beats it." Even the colored porters on passenger trains are shy about getting off at Island and when they do it is only for a moment. Island is a town of 1,000 population and is located on the L. & N. railroad in McLean county.

Rev. Price Ill.

Rev. James F. Price, of Marion, was unable to fill his appointment at the Presbyterian church here Sunday on account of his being stricken with a severe attack of rheumatism.—Providence Enterprise, Dec. 21st

Pleurisy pains are located just below the short ribs. Lumbago affects the same region but toward the back. Ballard's Snow Liniment is the remedy in either case. If rubbed in thoroughly it eases pain, relaxes the muscles and the patient can move about freely and comfortably. Price 25c, 50c and \$1.00 per bottle. Sold by J. H. Orme.

Same Old Penholder But With a New Pen.

Frankfort, Ky., Jan. 3.—The State Historical Society today presented to Governor McCreary the inkstand he used when governor thirty-six years ago, with a brand new penholder, requesting him to return both when he quits office.

To prevent pneumonia, a cold settled in the lungs should be attended to at once. Put a Herriek's Red Pepper Porous Plaster on the chest and take Ballard's Horehound Syrup internally. It's a winning combination. Buy the dollar size Horehound Syrup; you get a porous plaster free with each bottle. Sold by J. H. Orme.

Thrifty Bridal Couple.

New York, Dec. 31.—The police are searching for a thrifty bride couple who have been married at least seventy-five times, each ceremony costing an unsuspecting clergyman \$10. Every minister who smiled over them and bade them good fortune and success is the possessor of a \$20 check, for which he gave \$10 in change. The checks were bad.

It is an entirely new swindle, and was apparently worked with the greatest of ease.

Snows Disappear From Mars Cap

Flagstaff, Ariz., Dec. 31.—Observations have shown that the South Polar cap of Mars, which has been melting slowly for months, has at last practically disappeared, a mere diamond point alone representing it.

At the same time several glittering points appeared at about ten degrees from where the old cap had been, and by lasting well into the Martian day showed that they were the first beginnings of the New South Polar snow cap.

A peculiarity of the Martian climate is that the autumnal cold does not begin at the pole,

but in a lower latitude. The date of this interesting event was what corresponds to September 8 on the earth. We are prevented from having any similar phenomena on the earth owing to the extensive permanent ice about the Poles, the ground never being bare, and that preventing what theory should take place, and which Mars actually exhibits.

Medicines that aid nature are always most effective. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by all dealers.

Leave Silver and Take Eggs.

New Haven, Conn., Dec. 31.—With eggs at the highest price in twenty years, burglars class them with jewelry and money as desirable booty. Burglars who entered the home of Roger Dickinson, at Montewese, last night, passed by a quantity of heavy silverware and took only a small sum of money, a few pieces of jewelry and four dozen freshly laid eggs. Similar losses have been noted in other houses entered recently in that vicinity.

Takes Day to Wed.

Oklahoma City, Okla., Dec. 30.—Love has entered a prison camp in Oklahoma and got a job cooking for the prisoners. Miss Alta Planson, of Anadarko, never lost faith in her fiancé, Henry F. Frick, although he had been convicted of illegally selling intoxicating liquors and was paying the penalty by working on the highway of Caddo county.

Frick is serving a thirty day sentence on the road and unless at the expiration of that time he can pay a \$50 fine he probably will continue on the job.

Recently he asked one of the guards if he might be relieved from work for a day or so. The guard let him go, probably on his own recognition. In due time Frick returned to the camp, bringing Mrs. Frick. The county gave her employment at cooking for the prisoners.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Preacher As Both Groom And Clergyman.

That Rev. Richeson married Avis Linnell in a weird secret ceremony in which he himself was both groom and clergyman, and the girl in plitely believed in the legality of the ceremony, is reported as a startling feature of the government's case against the Cambridge minister.

The government will produce witnesses to prove that Avis Linnell, the pretty choir singer who met death by poison, went through the ceremony which it is charged Richeson suggested, and which her trustful mind believed would unite her to the man she loved.

"I can marry others, why not ourselves?" is the amazing announcement that Richeson is alleged to have made to the little country girl.

"Won't that be romantic?" is said to have been the answer of Avis Linnell.

In the double role of clergyman and groom, Richeson, it will be

The girls of the town entertained a suspicion that a secret ceremony had been performed and to clap the climax Avis appeared one day wearing a wedding ring, which she told her friends Richeson had given her as a "birthday present."

Our Strange Old Earth.

The following list of odd things about the earth that the average person does not know has been compiled by Prof. R. H. Whitlock, of the University of Wisconsin geology department:

Did you know—
That the Pacific end of the Panama canal is further east than the Atlantic end?

That Venice, Italy, and Montreal, Canada, are in about the same latitude?

That if an express train had started out from the earth for the planet Neptune in the year 1, and had traveled forty miles an hour day and night ever since, it would not yet be half way there?

That Cuba would reach from New York to Chicago.

That the mouth of the Amazon river is as near to Europe as it is to New York?

That Texas is larger than Germany and as large as 212 Rhode Islands?

That when measured in degrees of longitude, San Francisco is about in the middle of the United States, including Alaska?

That the entire continent of South America lies further east than Florida?

That, if the southern end of Chile, South America, were placed at Florida, that single country would extend northward entirely across the United States and Canada and halfway across Hudson Bay?

Consolidated Schools.

Mason county has tried the consolidation of several country school districts and is pleased with the result. A magnificent brick building costing \$3,200, with all modern improvements, was built and is the best equipped rural school in Kentucky. Six districts combined to build the school. Seven wagons are employed daily to bring and take

home 300 pupils. The longest haul is six miles. Six teachers and a principal are employed. The cost of maintenance is some what greater than six separate schools, but the efficiency of the teaching has been so improved that the trustees figure that it is cheap. There is a nine months term instead of six as in the old plan. The high and common school courses are taught.—Elizabethtown News.

Not Hard on The Chigger.

Burn Crop, Rather Than Sell Below Price Asked.

"Willful waste will make woe-ful want, and I may live to say, oh, how I wish I had the bread that I once threw away."

The people of Beach Wood, in Metcalfe county, were greatly frightened last week by the alarm of fire. Upon investigation the fire proved to be one of the most unique ones ever known. Messrs. John and Cleveland Wilson were preparing to leave for the West, and failing to get their price for their crop, they decided on the eve of their departure to burn the corn and fodder rather than sell it below the price asked.—Glasgow Times.

LARGE SUM FOR THE CUMBERLAND

Congressman Proposes That Government Spend Almost Three Million.

Washington, D. C., Jan. 2.—The Cumberland river bill introduced by Congressman Joseph W. Byrns today calls for an appropriation of \$2,701,822, this sum to complete the entire lower river program. The lower river scheme calls for five locks, namely, B, C, D, and F, only the two first having been authorized. Congressman Byrns will leave no stone unturned to get the other three. For locks B and C there has already been made available the sums of \$200,000 and \$250,000, of which much yet remains unexpended. It will require \$140,000 more added to this to even finish B and C, as a lock and dam cost about \$600,000.

Complaint Against City Council.

Enfield Express: We hear some complaint against the village council, because certain places of business in Enfield are permitted to be kept open until a very late hour thus encouraging boys to form the habit of loafing. This we believe is a difficult problem to handle, and can only be successfully met by unity of action between parents and the village authorities. It is just these conditions and surroundings that have started so many bright boys on the road to ruin, and any effort on the part of the village authorities should be aided and abetted by the parents, and likewise the efforts of parents should be encouraged by the officials.

Brother Gave Skin To Save Sisters Life.

Owensboro, Ky., Jan. 3.—A story of the beautiful love of brother for sister is that shown by Harry Dear, aged 13, for Margaret Dear, aged 10. The little girl was frightfully burned about four weeks ago, when she bumped into her mother, who was carrying a pan of boiling water and caused the mother to drop the pan so that the entire contents were dashed over the face and breast of the little girl. The scalds were fearful and the surgeons stated only the grafting of skin could save the life of the child. The brother volunteered to furnish the skin so it was taken from his back. The operation has proven a success and both of the children are on the road to recovery.

CARTER—JOHNSON.

Mr. Walter G. Johnson, of Marion, Ky., and Miss Agnes Carter, of this city were united in marriage by Rev. Wood, pastor of the First Baptist church, at the Baptist parsonage on South Ninth street, Wednesday evening at 6:30 o'clock.

The young couple, shortly after the ceremony, took the seven o'clock train for Paducah, and Thursday morning proceeded on their way to Marion, their future home.

This wedding came as almost a complete surprise to the large number of friends and acquaintances of the bride in this city, the secret being well kept.

Shortly before the hour for the ceremony Mr. Johnson and Miss Carter, accompanied by Miss Johnson, sister of the groom, and Mrs. Ed Gardner, friend and near neighbor of the bride, took a carriage for the pastor's home, where a brief ceremony united the happy pair in wedlock.

Miss Carter is the daughter of A. J. Carter, member of the firm of Carter, Slaughter & Co., pioneer merchants of this city. She is a charming and lovable young woman, and will make an ideal lifemate for Mr. Johnson, who is a popular young man in his home town and county, being a substantial tobacco dealer with a high standing.

The Messenger, along with the scores of other friends, wish for the bride and groom a long and prosperous married life.

We publish today an article from the gifted pen of M. E. Bacon, of Hopkinsville, entitled a "Preachers Success With Apples," which each of our farmers should read. Mr. Bacon married Miss Carrie, younger daughter of Judge James A. Moore.

Elsewhere in these columns will be found the statements of banks of Marion and Tolu, the three representing the banking resources of Crittenden County which approximate a half million dollars. The strength of the banks of this county is a matter of pride as well as comfort to our business men not one of whom, if worthy is ever turned down. The financial towers of strength are well officered and move along in the even tenor of their way unaffected by panic or trade disturbances, which often occur at other places.

TOBACCO TIDINGS.

BY R. F. WHEELER.

"OH, LORD, LET ME NEVER
BE PUT TO CONFUSION."

The prayer uttered in the headline is contained in Psalm lxxi. No prayer conceivable could, during the past six weeks, have been more appropriately uttered by every officer of this association. I fervently uttered that prayer at this writing and add to it, "O Lord, let me never put to confusion any member of the of this association."

"Mr. Banks," said a good member to me only yesterday, "I find as a rule your Tidings clear, condensed and veracious, and hence free from confusion. Nevertheless a recent statement of yours is calculated, if I am correctly informed, to produce confusion."

"It may be so," I answered, "While exercising every precaution during the past six weeks I'm in big luck if I have made only one error in statement—so shifting and vacillating has been the conduct of the combined buyers while negotiating for the purchase of this year's tobacco. Proposition and counter proposition, offers and bids were made and withdrawn the next day. But what statement of mine was misleading?"

"You stated in effect that both the sold and unsold tobacco would be paid for at the door. How about that?"

"If I made unqualified statement it might prove productive of confusion. I had in mind more sales. Mr. Elliott told me he had strong hopes based on representations of the buyers, of making other sales. And he is still confident of other sales. Members understand that a distribution will be made of all moneys received from the tobacco sold, and where only a little remains unsold the association receives and pays for that and prizes the same, and when that is sold the dividend is paid."

In conclusion, I want to say I am glad my attention was called to the confusion in regard to payment and take the first opportunity to make plain.

Mr. Elliott, I believe, will be made before day. In that case, my

unqualified statement will hold good.

In any event, members know that Mr. Elliott and the executive board will do exact justice between member and member.

The only year this association ever issued warehouse receipts was in 1908. That year we had eight millions of pounds of unsold tobacco.

In 1909 and 1910 the association had unsold tobacco in Union county and received and paid for the same at the door, and prized and sold and made money for all the members on prized tobacco.

Also in 1910 the association had unsold tobacco in Crittenden county which was received and paid for at the door, and prized and sold at a profit. No warehouse receipts therefore were issued in either 1909 or 1910.

Buyers need it, but whether they will take all or any part of it is more than I can tell. To hazard a guess might be productive of confusion.

This letter goes to all the newspapers in the five counties to the end that members may be fully informed of the situation to date.

The members of this association have realized for years a bigger average price than have others. And that will hold true of the 1911 crop.—Banks in Gleaner.

Is good for anything for which a salve is indicated—Such as pimples, heads, sores, chaps, ulcers, sunburn and all skin affections. 25cts., at dealers.

There is no occasion for alarm or excitement over the tobacco situation in this county.

The good citizens simply will not tolerate lawlessness, and any one thinks he is doing the farmers organization a service by threats of any sort against independent he is making a mistake. The farmers organizations repudiate and deplore such tactics and all good people join with them in supporting the county officials in their efforts to repress violence and to punish the guilty, and just here the Press will offer a prediction that that is, that some arrests will be made, and convictions be had at the hands of a Crittenden County jury. The people will not permit ruffians to get the upperhand here.

The Ginseng Industry.

Edgar Howerton who lives on the Morganfield road about five miles from the city seems to be the pioneer in this section growing ginseng. Last year he delivered 90 lbs of dry roots market for which he received \$450.00. Last Thursday he shipped his second lot for this year which was a sack containing 100 lbs. He sent it to that well known produce firm, M. Sable, Son at Louisville, and valued the package at \$165.00., or \$5.00 per pound.

PICTURES

I never saw a masterpiece
On a cathedral wall,
But a long dim vista through the woods
Has held my heart in thrall,
I never stood before a niche
The critics all admire—
But I have seen the children play
Upon a cabin floor.

The painted pictures may be grand—
I am too poor to know;
But I have seen the rippling wheat
As winds breathed soft and low,
I know not art, and yet my heart
Is calmly reconciled,
For in the twilight I have seen
A mother and her child.

SANTA UNDERSTOOD

(By F. P. Pitzer.)

When Santa got into the room
He found the mantel bare,
And he was pretty sure last year
A stocking dangled there.

He looked about him anxiously
And saw upon a shelf
A big toy doll house deep in dust
(A house he'd brought himself).

Besides it lay a little doll,
With dusty dress and hood,
His small gray eyes filled up with tears,
For Santa understood.

He put the toys back in his bag,
And then said, with a sigh,
"I wish the little angels hung
Their stockings in the sky."

STOP THAT DANDRUFF

before it kills your hair. You know dandruff is a germ disease and it leads slowly and surely to baldness and there is only one way to cure dandruff and that is to kill the germ that causes the trouble.

Greasy salves will never do this. ZEMO and ZEMO SOAP kills the germ and are guaranteed to cure dandruff, itching scalp and all other germ diseases of the skin and scalp.

ZEMO and ZEMO SOAP are the true scientific remedies for these afflictions. To show our faith in ZEMO and ZEMO SOAP we have instructed the druggist selling them to refund your money if you are not satisfied with the results from the very first bottle and the first cake of soap.

We can afford to make this offer because one bottle of Zemo and one cake of soap are sufficient to show their healing qualities and if used according to directions, they will affect a permanent cure.

Sold by druggists everywhere and in Marion by Haynes & Taylor.

To the Members of The Se'nning District Tobacco Association.

Gentlemen:

As you now have a stripping season, we feel it is best to give you instructions as to assorting, that you may realize the very best prices on your tobaccos.

The crop will be graded and valued in five grades, as follows:

No. 1 Fine, long, rich, select, brown leaf and lugs.

No. 2 Good, long, brown leaf and lugs not as perfect as No. 1.

No. 3 Good, medium length, brown leaf and lugs.

No. 4 Medium, brown leaf and lugs.

No. 5 Common tobaccos, not good enough for any of the above grades.

We want to urge the members to class their tobaccos thoroughly; have the lengths and colors separate, stripping all dusty and dirty tobaccos to themselves, as it will not do to have dirty tobacco scattered through your clean grades.

To have No. 1 Grade leaf and lugs, the tobacco must be good color, good length, good bodied and smooth selection. No. 2 must be good tobacco, but of course not as select in quality as No. 1, yet it must have good length and color.

Please strip all dark and green tobaccos in two separate classes, not mixing it with the bright

tobaccos.

Make your lugs as good in proportion as the leaf of that class. If the lugs are not in proportion to the leaf it will be graded in a lower grade.

In stripping trash, bear in mind that will do better if you will have two grades, stripping the best quality of trash into No. 1 and the balance of your trash into No. 2, but the dirty trash must not be put in either No. 1 or No. 2, but kept separate.

We want especially to caution members of the Association to be as careful with their trash as with their leaf and lugs, and see that it is kept perfectly sound and sweet and free from dust, as we found an inclination on the part of the buyers to throw out the trash in receiving and have it taken in under the damaged class, which is very detrimental to members of the Association, for in selling at round prices, the trash is worth as much to the Association as the leaf and lugs. We find that some members are careless with their trash and low grades, thinking it does not matter so much about them, but let us caution you that this is a mistake and that you should be as careful with your trash as with other grades.

Again let us urge you to strip your tobaccos in good condition and not offer to deliver it with too much moisture in it, as this is a source of contention and is the cause of a good deal of docking. In taking down your tobacco for stripping, do not sprinkle it under any condition, as you will most surely injure it, but wait until the tobacco comes in order and then take it down on the dry side and be very careful in your assorting, having lengths, color and quality in separate classes, which will prove to your advantage, preventing trouble at the door in receiving.

Let us urge members to follow the instructions above, and we will be able to deliver the tobacco quickly and have no unpleasantness at the factory door.

Yours very truly,

Wm. Elliott, General Manager.

Soot And Stove Went Together.

Hickman, Ky., Dec. 31.—In attempting to blow the soot out of a stovepipe in Jackson's O. K. barber shop here this morning, they got in too much powder and blew the stove to pieces, one piece of the stove coming from the back of the house to the front and knocking out one of the large plate glass windows. The occupants had a narrow escape from the flying pieces of iron. The entire shop was literally cover with soot.

Speechless With Grief.

Kansas City, Mo., Dec. 31.—Grief over the loss of his two daughters, Ethel and Florence, who were killed Sunday when their sand pit playhouse caved in, physicians believe has destroyed the power of speech of Andrew Hutchinson, a well digger, who suffered an injury several years ago, and for the last year has worked only a small part of the time.

When the cave-in occurred, he ran to the sand pit and looked at the bodies of his daughters. He has been mute ever since and physicians fear he will never speak again.

NAMES WORLD'S GREATEST MEN

In a previous article Mr. Hubbard dissented from Andrew Carnegie as to the twenty greatest men, and now furnishes a list of his own.

1. Moses, who formulated a religion founded on a sanitary, common-sense code, and fused religion with life.

2. Pericles, who took the treasure of Delos—a fund raised for war purposes—and used it to build the most beautiful city the world has ever seen. The influence of Pericles in architecture, sculpture, oratory, the drama, physical culture, still endures and animates and inspires every worker in the arts.

3. Aristotle, the world's first scientist, to whom very much of our scientific terminology now traces; the man who organized the first herbarium, the geological collection, the first zoological garden and who taught the world that health, sanity and happiness were to be obtained only through an understanding and a love nature.

The world has not nearly caught up with Aristotle. Besides being the world's first scientist, Aristotle was the world's first school teacher. His teaching was founded on the idea of making all study pleas-

urable—as all life should be. He led the way for Frobel.

4. Michael Angelo, a workman who sanctioned manual labor; the first of modern architects; a poet, a painter, a sculptor, an engineer, who lived a long, happy and useful life. Millions of simple folk look upon his work and are uplifted by it.

The dome of the Capitol at Washington is patterned after the dome of St. Peter's, built by Michael Angelo, and all domes trace a pedigree to Michael Angelo. His work inspires every lover of art and every builder who strives for the ideal.

5. Columbus, who gave the world a continent, even though he died in chains.

6. Thomas Jefferson, who taught the principles of a Republican form of government, founded our public school system which he designed should be based on the honor system; who introduced Greek architecture into America; a man singularly patient, creative, loving, generous, and with whom the world has not yet nearly caught up. The only Democrat the world has ever seen.

6. Charles Darwin, discoverer and teacher of evolution, who has changed the complexion of every orthodox religious sect.

7. Franklin, discoverer, inventor, business man, financier, diplomat, philanthropist.

9. Lincoln, the statesman.

10. Edison, applier of electricity and common sense.

11. Watt, practical inventor of the steam engine.

12. Gutenberg, who invented printing.

13. Bell, the first inventor of the telephone.

14. Arkwright, inventor of cotton spinning machinery.

15. Hargreaves, inventor of the spinning jenny.

16. Stephenson, inventor of the locomotive.

17. Perry G. Holden, who, through the selection of seed corn, has shown the world how to double its productive wealth per acre.

18. George Westinghouse, inventor of over fifteen hundred electric and mechanical appliances.

19. Frederick Frobel, through whose teaching corporal punishment has been abandoned, and who gave the world a new system of education.

20. Adam Smith, author of "The Wealth of Nations," the first book that treats economies

as a science. All of these twenty men I have named, exerted a positive beneficial influence upon mankind which grows extent as the years pass. They were world factors—epoch launchers—and can well be called the twenty men who were world-makers.

Falls From Jury Box.

Memphis, Tenn., Dec. 31.—So uninteresting was a damage suit in the federal district court today that A. G. Jett, a juror, fell asleep and then fell out of the jury box to the floor, taking the chair with him. In his drowsy state the juror got mixed up with the fragments of the chair and it was several minutes before he could disentangle himself.

A shriek went up from the crowd when Jett and the chair took the dive and the laughter was not suppressed by the judge who had difficulty in preventing himself from joining in the levity.

The fall was only five feet, but as a result Uncle Sam is out the price of a previously perfectly good chair.

Are You ? A Woman ? TAKE CARDUI The Woman's Tonic

PREACHER'S SUCCESS WITH APPLES

(By Merriwether E. Bacon.)

A signal success in apple raising has been made by Rev. E. McCollom of Henderson county, Kentucky. The results he has obtained on a farm of less than a hundred acres have demonstrated that apple growing in Kentucky can be made most profitable. Now that he has proven this to be so, orchards are being put out in numbers and the fruit industry promises to become one of the most important of the state.

Mr. McCollom entered the apple business sixteen years ago. At that time he was 51 years of age and since early manhood had been engaged in the ministry of the Cumberland Presbyterian church, giving his entire time and attention to this calling. But he suffered for years from a chronic throat trouble that seriously impaired his voice. This, together with approaching old age, prompted him to seek some other avocation that promised more substantial returns when his usefulness as a minister was passed.

In this frame of mind he learned

of an orchard in Henderson county that was for sale. He investigated, with the result that he bought it at what was even then considered a very reasonable price. But the place was in bad condition. The house was a small one-story cottage that needed much repair. The out buildings and fences were dilapidated and the soil showed the lack of proper husbandry. There were thirty acres planted in young apple trees that were growing nicely, but that was about all that could be said of them except they were of good varieties, being principally the regulation winesap and the Stayman winesap, with a considerable number of Ben Davis trees and several scattering varieties. In addition, there were about sixty old trees that were practically valueless on account of their age and lack of attention.

Began at the Bottom.

When Mr. McCollom took charge of the place he had everything to learn. His mission had been the saving of souls and he had never given a thought to horticulture in any of its branches. But he tackled the proposition before him with vim and enthusiasm.

Having to learn it all, he properly decided to learn right and he studied along scientific lines and after the most successful growers. As fast as he gained knowledge he would put it into practice to determine its suitability to his needs. But his partiality for the ministry would not be so easily put aside, and for twelve years, along with his apple growing, he continued to serve churches in Henderson and Daviess counties as supply.

Now Mr. McCollom is one of the best informed apple growers anywhere, and he is so recognized. His orchards are exponents of scientific culture and the fruit which they produce is known and eagerly sought in many of the larger cities because of its general excellence. His place is one of the most attractive in the county and its value has nearly trebled though the splendid offers he has received for it have failed to tempt him for a moment. The house has been enlarged into a commodious two-story structure that is modern in all its appointments. The outbuildings and fences are in the best of condition and the soil is kept in a high state of productivity. At the age of 67 Mr. McCollom, as he has always done, exercises a personal supervision of everything about the place.

Since buying the farm Mr. McCollom has put out nine more acres of apple trees, these producing their second crop this fall. Still the demand exceeds the supply and he is preparing now to increase his acreage again in the spring to the extent of seven acres. The winesap apple is his favorite, both the ordinary variety and the large Stayman, but especially the latter. He does not like the Ben Davis and says he wishes those trees were replaced with the winesap.

Up-To-Date Methods.

In growing his fruit he employs the most approved scientific methods. The trees are cultivated as any other crop would be, though as their peculiar nature demands. They are kept trimmed and thus made to branch out and be low. They are sprayed at proper times to kill insects and to destroy fungus, and in every way their health looked after and safeguarded. As a result the fruit is very large, perfectly shaped, rich in color and luscious.

And the business has proven profitable. Already Mr. McCollom has received practically \$10,000 for a single crop of his apples and every year the receipts are well up into the thousands and show a handsome profit above the cost of production. The yield this year was something over 3,000 bushels, which is far short of the usual amount. This shortage was caused by an excessively hot spring. Yet he expects prices to be corresponding higher and his receipts to be full.

With his present orchard at its best a year's crop should be something near 15,000 bushels, and as he sells for fancy prices according to grade, which average not less than a round price of \$1 per bushel, a close estimate of what his receipts in a good year would be can be had. This is not counting the additional seven acres which he will put out next spring and which in due time should add their 2,500 bushels to the above figures. And all of this on a cultivation of less than fifty acres.

Still some people say fruit raising won't pay in Kentucky!

Of course Mr. McCollom had his troubles in learning how to handle and care for his orchard. One thing especially which bothered was in securing competent labor. This was not to be had anywhere about him, for apple growing was as little understood as was the culture of cotton or some other foreign crop. So he had to send to those sections where fruit-raising was the chief industry and get men who were thoroughly conversant with it.

This state of affairs still exists and workmen on his place today were imported.

A suitable method of marketing his apples was another problem over which he studied much. The first crop which he harvested was about 1,500 bushels, and, not having had any experience in selling, he was at a loss how to proceed. Finally he disposed of the lot to an Evansville commission house for \$1 per hundred pounds, or about 45c per bushel. He had to pick the apples and load them on the cars at a station about one-half mile from his place.

Apples a Big Money-Maker.

But the next year, with a larger crop, he made better arrangements and received \$2,500 for the apples as they hung on the trees. This time the buyer shipped some of his purchase right back to Henderson and realized a clear profit of \$2 per barrel. Ever since then Mr. McCollom has employed another plan. He gathers the apples very carefully, sorts them into different grades, such as extra fancy, fancy, selects, choice, etc. Each apple is wrapped in paper and packed into nice, clean, new barrels and these are placed in cold storage until the time to sell arrives. The Christmas trade pays the best price of the year for fancy apples, and when it opens Mr. McCollom advises his brokers in Memphis, Tenn., Louisville, Ky., Birmingham, Ala., Nashville, Tenn., and other points as to what he has to offer and quick sales at top market prices never fail to be the result. After the fancy stock is barreled and put in cold storage the rejected apples are sold as a lot to peddlers who dispose of them at the stores in Henderson. As a rule this is about all of Mr. McCollom's apples that Henderson people get.

From a clergyman, dependant upon his annual salary for his living, Mr. McCollom has become an apple grower who is independently well-to-do. His success has attracted wide attention. Yet he is very modest about it, and when questioned is very reluctant in stating figures, and declares that many "fairy stories" have been told as to fabulous amounts he had received from his orchards. That he is proud of his achievement there is no denying, but he looks upon it as something which any other man may do if he will.

He has raised a large family, the youngest daughter now being in Cincinnati completing her musical education. His wife is his daily companion and advisor, and she personally looks after the household with an energy and fidelity that younger women might emulate to their advantage.

That his apple orchards have proven a blessing to him in more ways than of financial returns is evidenced by his rare physical powers. At 67 he is as active and as tireless as most men half his age, and the outdoor life which he leads will doubtless serve to prolong his life materially.

ARE MICROBES IN YOUR SCALP?

It Has Been Proved That Microbes Cause Baldness.

Professor Unna, of Hamburg, Germany, and Dr. Sabourand, the leading French dermatologist, discovered that a microbe causes baldness. Their theory has time and again been amply verified through research experiments carried on under the observation of eminent scientists. This microbe lodges in the Sebium, which is the natural hair oil, and when permitted to flourish it destroys the hair follicles and in time the pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of hair being revived.

We have a remedy which will, we honestly believe, remove dandruff, exterminate the microbe, promote good circulation in the scalp and around the hair roots, tighten and revitalize the hair roots, and overcome baldness, so long as there is any life left in the hair roots.

We back up this statement with our own personal guarantee that this remedy called Rexall "93" Hair Tonic will

A Barnyard Question.

Said old Farmer Jenkins to his wife,

As she sat by the fire knitting, "When an old hen broods on a nest of eggs,

Is that hen setting or sitting?"

"Well I don't know as to that," she replied;

"But this puzzle to solve I am trying:

When a hen cackles to beat the band,

Is that hen laying or lying?"

BEULAH BUCK CONCERT COMPANY

Generally Pronounce The Best Concert Ever Given in Marion.

On Dec. 21st, the Beulah Buck Concert Company appeared at the Auditorium as the fourth number of the Lyceum course. The ensemble work was excellent in every respect. The company consisted, more than one person who had a constitutional prejudice against female quartettes.

Each member of the company should receive special mention, for there was not a single weak place on the program.

Mrs. Buck in her readings shows fine discrimination in selecting things appropriate, and finer skill in presenting them.

Miss Paddock, soprano, sings with that easy and natural grace which captivates and never irritates.

Miss Jones' solo work was much enjoyed because of the pure tone quality, and ease with which she sang.

The most wonderful of all, however, was Miss Opal Taylor, contralto soloist. How such a little girl can possess such a big voice is still the comment of the town.

Each member of the company was characterized by an easy, natural stage presence, void of pretense, and wholly delightful.
