JAMES PRESENTS

HIS CREDENTIALS

Offered By Senator Paynter and
New Member Receives
Congratulations.

Washington, Feb. 2.—The credentials of Senator-elect Ollie M. James were presented in the Senate this afternoon by Senator Paynter, were read and by the Vice President referred to the Senate clerk for filing.

Mr. James sat in one corner of the Senate chamber during this formal procedure. He was visited there by Senators Hoke, Smith, Bankhead, Shively, Ower, and Bryan and felicitated.

Senator Gallinger asked as to the wording of Gov. McCreary's communication, being curious about the occurrence of a statement that the Kentucky Legislature did "again elect" Mr. James on a Tuesday subsequent to the first Tuesday on which he was elected. Senator Paynter explained the circumstances and said he was elected in the same way. The Republican floor leader was satisfied.

As Senator from Kentucky, Mr. James will take Senator Paynter's place March 4, 1913.

Judge Gordon to Hear Case.

Owensboro, Ky., Feb. 6.—Judge J. Flem Gordon, of Madisonville, will hear the injunction case in which the Owensboro Baptist church is involved. He was selected by Judge Thomas Birkhead, he refusing to sit because of his being closely related to members of the contending factions.

Judge Gordon is not a member of any church. His family are Methodists.

Death of Mrs. J. T. Gifford.

News was received here last week of the death of Mrs. J. T. Gifford, which occurred at her home in Morse Mill, Mo., Wednesday, of heart failure. Mrs. Gifford moved to Missouri a year after the death of Mr. Gifford, which was caused by an explosion at Bell's Mines. She never rallied from the grief of this dreadful disaster and after a brave fight for the sake of her children she succumbed to a broken heart. Mr. and Mrs. Gifford were regarded by all who knew them as the very salt of the earth. During their several years residence in Crittenden county where Mr. Gifford was associated with Bell's mines the people for miles about loved them. Mrs. Gifford organized a day school and took the initiative in church and charity work among the people about her who looked for her a strong attachment. She leaves two married daughters, two married sons and younger children, Margaret James, all of whom have the best sympathy of their friends in Union and Crittenden counties, where the news of Mrs. Gifford's death was received with sincere regret.—Morganfield

Death of Mrs. Cruce of Tiline.

Mrs. Mary Cruce, aged 59, wife of E. Cruce, died at the family home near Tiline Sunday night of a complication of diseases. Beside a husband she leaves children, two daughters, Mrs. Ed Dunlap and Mrs. Ed Simpson, and one son Frank Cruce. Mrs. Cruce was a devoted Christian, having been a member of the Baptist Church for many years. Her husband and children she loved very much and she was a friend to many other relatives and a wide circle of friends to mourn her death. Burial was at Grove Chapel.

From Princeton Leader.

A. J. Thomson, the well known Presbyterian minister of Kuttawa, was in the city Saturday en route to Francis, Crittenden county, where he went to fill his regular appointment.

Attorney S. Hodge, who had been visiting his son, H. A. Hodge, at San Antonio, Texas, for the past three weeks, returned home yesterday. Mrs. Hodge, who accompanied him to San Antonio, will not return until March 1.

Mr. and Mrs. Frank Doss and children visited in Marion and Henderson last week, returning home Sunday.

Six More Weeks of Winter

Ground-Hog Saw His Shadow.

Bright and early the morning of Feb. 2, the sun arose, and when Mr. Groundhog awoke, stretched himself and then emerged from his dwelling, he saw his shadow before he had taken two steps. The little animal did not remain away very long, but decided that it was not right to stay out. He crept back into his bed, and cuddled up for another six week's snooze. That means that winter will not be over for six more weeks.

Herbert Jacobs Appointed.

Herbert Jacobs was appointed administrator of the estate of his father, M. J. Jacobs, deceased, upon the petition of his mother, Mrs. P. C. Jacobs, last Friday. He filed his bond in the sum of \$300.—Zillah, Free Press, Washington.

GIRLS TO CONTEST

For The Hayward Medal At Auditorium

Marion High School Girls to Appear Before the Footlights February 12.

The annual Declamatory Contest will be held in the Auditorium, Monday night, Feb. 12 at 8 o'clock. Six young ladies of the High School are competing for the medal given by Mr. E. J. Hayward.

This medal is offered every year, and the girls voluntarily compete for it. No one is appointed to speak—the honor of it prompts them to try for it. An admission of 25cts will be charged for adults, and 15cts for all school people. The music is by the School Orchestra.

Miss Ruth Flanary who won the Hayward medal last year will preside over the contest.

"TEN REASONS"

Why You Should Patronize The FARMERS BANK of Marion.

1st. The officers and Stockholders of this bank, were all born, reared, and now reside in this county. **No other Bank in the county is so owned and officered.**

2nd. The earnings of this bank are distributed among men who help to maintain your schools and other public institutions.

3rd. The net profits, earned from your patronage, to this Bank is not sent to Stockholders who live outside this State, or in other Counties of this State, but it is paid to men who live in this County; and the money becomes available, at once, for the use of any man in the County who needs to borrow it.

4th. The Stockholders of this bank do **not** borrow the money of the depositor, to use in furthering their private interests.

5th. The officers of this bank, are men whose conservative and successful conduct of their own affairs, proves their ability to manage the bank's affairs.

6th. The officers of this bank are bonded against dishonesty, and its vault, (the **ONLY** steel vault in Crittenden County) is insured against burglary.

7th. Alike all State Banks in Kentucky, this bank is examined by an official from the office of the Secretary of State, but we make no boast that we have been found honest. It is the **Duty** of officials of a bank to see that the affairs of the bank are honestly conducted. We claim no special distinction for having performed our duty.

8th. This bank is **not** a **United States Depository**. No money is sent from Washington to be deposited in State Banks in Kentucky. Under the Postal Savings Bank law, the Postmaster is permitted to re-deposit in local banks, such **small sums** as have been deposited in the Post office. **Provided**; a bank can be found willing to comply with the requirements of the Government; which are, in substance, that the local bank must first deposit with the Government say, **One Hundred Dollars**, then the Postmaster is permitted to deposit with that bank **seventy-five to ninety dollars**, provided the bank pays the Government **2 1/4 percent per annum interest**. This Bank pays home depositors **Two percent** on time certificates of Deposits. We do not believe the advertisement of having "**United States Depository**" appended to our sign, would be of enough value to justify the paying of a higher rate of interest to the Government than we pay to home people.

9th. Since the organization of this bank, there has not been projected in this County a single enterprise which was thought for the good of the County, which we have not assisted.

10th. This bank offers you the security of careful, honest and conservative management, added to ample capital for all its needs, and abundant credit for extraordinary needs, combined with liberal terms and courteous treatment, as all who patronize us will testify.

There is no other Bank in Crittenden County that can offer the above reasons for your Patronage.

We solicit your business.

Marion Milling Co. inc.

GREAT ACTIVITY

In All Mining Enterprises in This Field.

Season Just Opening Promises to be the Banner One For This District.

The fluor spar, lead and zinc mining interests in and around Marion are in a stronger position today than ever before. In other words, the effervescent frothy period has been passed. Legitimate business methods combined with intelligence in mining have taken the place of the earlier days with all of their absurdities of statements regarding this section of the state and its mineral resources.

Fluor spar, zinc and lead mining in western Kentucky is not a poor mans game, the mining of ores and mineral here not only requires patience and pluck but a good strong bank account. Given these requisites, the returns are as sure as in any industrial enterprise known in this country.

The past few years have proven that in the counties of Crittenden and Livingston great veins of these ores and mineral exist. It has also been proven that with proper facilities as regards mining and preparing the ore for market the demand is constant and the money returns are large enough to declare superb dividends where the capitalization is not excessive.

The situation has so entirely changed in the past twelve months that the "Record-Press"

GEORGE T. DRURY

EXONERATED

Committee Finds All of County's Property Which Was Reported Missing.

We the undersigned committee appointed to investigate the charge against Geo. T. Drury, former keeper of the Crittenden county Poorhouse, said charge being made that there was 210 sheets left at said Poorhouse when said Drury turned said Poorhouse over to his successor, and that there had been bought for said Poorhouse one bolt of brown domestic for the purpose of making sheets and that said purchase was of recent date and there was no new sheets there or any sheets. Now we, H. S. Wheeler and A. S. Hard being appointed by the Fiscal court to investigate said charge find that there are now at the Poorhouse 13 sheets and find that 2 old sheets and 2 new sheets were carried away from said poorhouse by a pauper that had been placed with a private family, and we further find that said poorhouse keeper caused to be made for the inmates of said poorhouse the following garments:

Six gowns, two each for the following persons who were inmates of said poorhouse, Lizzie Chandler, Geo. Ann Adams and Nancy Edwards and that there were 18 yards in said gowns and that there was made for Lizzie Weldon 4 undershirts containing 10 yards and that 5 yards was used for making drawers for Lizzie Duffy and 1 yard was used for waists for Jeff Adams, a small boy now residing at poorhouse, and that 10 yards was used in making two sheets and that these two sheets was the same new sheets that was removed from the poorhouse with said pauper which was placed with a private family and we find that the brown domestic which was used for making above named garments amounts to 44 yards, same being the bolt of domestic purchased by said Drury for the use of said poorhouse. We made this investigation in presence of witness under oath and we find said charge untrue and groundless and that Geo. T. Drury former poorhouse keeper left everything at the poorhouse belonging there except the things accounted for.

Poultry in Livingston and Crittenden Counties.

I have seen quite a number of the improved breeds of chickens, turkeys and ducks and have been of the opinion for some time that we have about as good poultry as the high-price stock advertised in the poultry journals.

A recent visit to the big poultry show at Evansville, Ind., has confirmed me in this belief.

There, I had the opportunity to see almost all the different breeds, both before and after the awards were given, to watch the judge score them and learn the strong as well as the weak points. So I think I am a fairly good judge of R. I. Reds, Buff Orpingtons, Barred Rocks, White Leghorns and Wyandotts.

I think I could have shown a pen (4 hens and a cockerel) of R. I. Reds and a pen of S. C. White Leghorns that would have been classed along with prize winners. I think the same could have been done with some of the other breeds I have seen in the two counties.

What I think we want to do is, to take better care of what we have, provide better houses (I may have something to say on this subject later), give them a variety of feeds which can be grown on any of our farms, in fact care for our poultry as we do our fine horses, sheep, etc.

I am frequently asked what breed seems to be the most popular. Well they all have their admirers. If you were to ask Mr. Demberger, the owner of the \$500 hen, and by the way she didn't look much better to me than some of her less valued white sisters, he would say White Wyandotts. Dr. Billman would say Hondas and G. W. Watson would say Barred Rocks. Ask Mrs. J. B. Carter, she would say Rhode Island Reds and White Leghorns every time. So you see we differ as to breeds in poultry as we do about our other stock on the farm.

Any of the good winter laying strain, if comfortably housed, fed

and watered will lay during the winter months when eggs are a fancy price.

If this escapes the waste basket I may have something more to say later.

Women!

If weak, you need Cardui, the woman's tonic. Cardui is made from gentle herbs, acts in a natural manner, and has no bad results, as some of the strong drugs sometimes used. As a medicine—a tonic—for weak, tired, worn-out women, Cardui has been a popular success for over 50 years.

Take CARDUI

The Woman's Tonic

Mrs. Lula Walden, of Gramlin, S. C., followed this advice. Read her letter: "I was so weak, when I first began to take Cardui, that it tired me to walk just a little. Now, I can do all the general housework, for a family of 9." Try Cardui for your troubles. It may be the very remedy you need.

DISGUSTING

Wants to Come Over and Wed Rich Wife.

Vienna, Jan 31.—count Buch has petitioned court to allow him \$5,000 from his sequestrated estates in order that he might go to America and capture an heiress.

"For I must have money," insisted his lordship, "and here, where my bankruptcy is known I can't get a rich wife."

The court gave the count a hearing. Buch, unblushingly, pleaded as follows: "Three years ago I inherited six million francs (one million two hundred thousand dollars.) I started a racing stable and lost money all the time. But that did not bother me since, up to three months ago, I could always obtain all the money I wanted from usurers. My half interest in the last landed property I controlled I sold for \$20,000; my brother owner of the other half, sold his part for a million francs since. Since I was declared a bankrupt my relatives pay me \$800 per year, just enough for cigarettes and club dues. My only chance is to marry a rich American heiress, for a count like me must have money. He must."

The court took the matter under advisement.

Tongue Almost Served.

A delicate and unusual surgical operation was performed yesterday upon the two-year-old son of Frank P. Peters, a carpenter, in an effort to save the child's tongue, which was almost severed resulting from a fall. Dr. J. M. Morris, 1814 Frankfort avenue, who attended the child, found it necessary to take several stitches in the child's tongue. The boy will have to be fed liquid food for some time. The child while playing, stumbled and fell in the yard of its home, 115 Stoll avenue, striking its face against the ground.—Louisville Times.

BROUGHT TO LIGHT

Marion People Receiving Full Benefit.

There have been many cases like the following in Marion. Everyone relates the experience of people we know. These plain, straightforward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Thomas L. Hillyard, Railroad St., Marion, Ky., says: "Doan's Kidney Pills came to my relief after I had suffered a great deal from kidney trouble and had spent much money for medicine without receiving benefit. Two years ago I was taken with an attack of typhoid fever and upon recovering found that my kidneys were badly disordered. The pains in my back were so severe that frequently I had to leave my work and lie down for several hours. There was a constant desire to pass the kidney secretions and I was obliged to arise several times during the night. The kidney secretions were also highly colored and the passages were attended with pain. I became dizzy and dark spots floated before my eyes. A relative, hearing about my condition, advised me to give Doan's Kidney Pills a trial and I procured a supply at Haynes & Taylor's Drug Store. They cured me in less than two months. For over two years I have had no return attack of my old complaint and am bound to look upon my cure as a permanent one."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Coming Sure.

The day will soon come in Kentucky when election thieves will be given free board at Frankfort, not given the emoluments of office. Dr. Cook's Audience Stung by Bees

Hopkinsville, Ky., Jan. 31.—(Special.)—Many persons who last night attended the lecture of Dr. Frederick A. Cook, the Arctic explorer, were stung. During the extremely cold weather swarms of bees flew for refuge into Union tabernacle and lined the ceiling. Thawed out by the heat of the building they dropped by scores on the heads and necks of people in the audience. Hand clapping was as frequently slapped at intervals as applause for the lecturer's eloquence. A number of leading

citizens and numerous children are nursing sore sports to-day.

Banker H. L. McPherson pulled three stingers out of the back of his neck, Col. Will A. Wilgus' right ear suffered and the Hon. W. Herman Southall had an eye nearly closed.

Dr. Cook himself while describing a brave encounter with a polar bear was stung on the hand with which he was wielding an imaginary hunting knife. Apprehending the cause of his painful interruption and seeing other busy bees hovering near, Dr. Cook discreetly left the spotlight and spoke from the far side of the stage.

When BALLARD'S SNOW LINIMENT is rubbed in rheumatic aches and pains, it reaches the spot quickly and the relief is very gratifying. Price 25c, 50c and \$1.00 per bottle. Sold by Jas. H. Orme.

The Idea.

A certain woman assured her husband she never told him a lie, and never would. He told her he did not doubt it, but would hereafter cut a notch in the piano when he knew she deceived him. "No, you won't!" she screamed. "I'm not going to have my piano ruined!"

CORPSE IN CAKE OF ICE

Believed to be Body of George W. Johnson, Carpenter Who
Fell Into Sewer.

Word has been received here that what is supposed to be the body of George W. Johnson, the Louisville carpenter who lost his life some time ago in the sewer near the Bourbon Stock Yards, is floating down the Ohio river, imbedded in a large cake of ice, the body was sighted several times Saturday by workman engaged on the construction of a bridge near West Point, but as it was impossible to put out in a boat, the body could not be rescued. Word has been sent to points below, and it is thought that the body will be found after the thaw becomes more general. A reward of \$50 is offered for it by the Sewer Commission.—Louisville Times.

Poker Game Didn't Stop for Duke.

Washington, Feb. 7.—When royalty entered the National Press club last night, a poker game was in progress. A servant entered and announced: "Gentlemen, the Duke Connaught is down stairs." "It'll take more than a Duke to break up this game," remarked a well known member of Congress; as he raked in a pot, "it'll take four kings at least."

Little Girl Victim of

Blood Poisoning.

Glasgow, Ky., Feb. 7.—While playing with a feeder cutter at the home of her father, Wiley Simmons, a prominent farmer near town, Mable, the nine year-old daughter had her hand fearfully mangled and one finger severed by her little playmate, Russell Miller. Russell was turning the cutter and Mable was feeding it when her hand was caught. Physicians attended her and she was thought to be recovering when blood poison and lockjaw developed and she is now in a dying condition.

Do you know that more real danger lurks in a common cold than in any other of the minor ailments? The safe way is to take Chamberlain's Cough Remedy, a thoroughly reliable preparation, and rid yourself of the cold as quickly as possible. This remedy is for sale by J. H. Orme.

THESE SIX LETTERS From New England Women

Prove that Lydia E. Pinkham's Vegetable Compound Does Restore the Health of Ailing Women.

Boston, Mass.—"I was passing through the Change of Life and suffered from hemorrhages (sometimes lasting for weeks), and could get nothing to check them. I began taking Lydia E. Pinkham's Vegetable Compound (tablet form) on Tuesday, and the following Saturday morning the hemorrhages stopped. I have taken them regularly ever since and am steadily gaining."

"I certainly think that every one who is troubled as I was should give your Compound Tablets a faithful trial, and they will find relief."—Mrs. GEORGE JUBY, 902 Fifth Street, South Boston, Mass.

Letter from Mrs. Julia King, Phoenix, R.I.

Phoenix, R.I.—"I worked steady in the mill from the time I was 12 years old until I had been married a year, and I think that caused my bad feelings. I had soreness in my side near my left hip that went around to my back, and sometimes I would have to lie in bed for two or three days. I was not able to do my housework."

"Lydia E. Pinkham's Vegetable Compound has helped me wonderfully in every way. You may use my letter for the good of others. I am only too glad to do anything within my power to recommend your medicine."—Mrs. JULIA KING, Box 282, Phoenix, R.I.

Letter from Mrs. Etta Donovan, Willimantic, Conn.

Willimantic, Conn.—"For five years I suffered untold agony from female troubles causing backache, irregularities, dizziness, and nervous prostration. It was impossible for me to walk up stairs without stopping on the way. I was all run down in every way."

"I tried three doctors and each told me something different. I received no benefit from any of them but seemed to suffer more. The last doctor said it was no use for me to take anything as nothing would restore me to health again. So I began taking Lydia E. Pinkham's Vegetable Compound to see what it would do, and by taking seven bottles of the Compound and other treatment you advised, I am restored to my natural health."—Mrs. ETTA DONOVAN, 762 Main Street, Willimantic, Conn.

Letter from Mrs. Winfield Dana, Augusta, Me.

Augusta, Me.—"Lydia E. Pinkham's Vegetable Compound has cured the backache, headache, and the bad pain I had in my right side, and I am perfectly well."—Mrs. WINFIELD DANA, R.F.D. No. 2, Augusta, Me.

Letter from Mrs. J. A. Thompson, Newport, Vt.

Newport, Vt.—"I thank you for the great benefit Lydia E. Pinkham's Vegetable Compound has done me. I took eight bottles and it did wonders for me, as I was a nervous wreck when I began taking it. I shall always speak a good word for it to my friends."—Mrs. JOHN A. THOMPSON, Box 2, Newport Center, Vermont.

Letter from Miss Grace Dodds, Bethlehem, N.H.

Bethlehem, N.H.—"By working very hard, sweeping carpets, washing, ironing, lifting heavy baskets of clothes, etc., I got all run down. I was sick in bed every month."

"This last Spring my mother got Lydia E. Pinkham's Vegetable Compound for me, and already I feel like another girl. I am regular and do not have the pains that I did, and do not have to go to bed. I will tell all my friends what the Compound is doing for me."—Miss GRACE B. DODDS, Box 133, Bethlehem, N.H.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself who will not try this famous medicine, made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Lamb With Two Bodies

Richmond, Ky., Feb. 7.—Robert S. Hendron, a farmer residing about five miles of this city, was the center of attraction and the topic of discussion of the streets to-day, after he had displayed a freak of nature in the form of a lamb, only a few days of age, which had two bodies, eight legs and one head. It only lived a short while after birth.

1467 Swear Words

Break Club's Habit.

New Albany, Ind., Feb. 7.—Joseph Kraft, probation officer, has received 1,467 pennies from Casper Erb, treasurer of an anti-

swearing club, the money representing penalties collected from member for breaking the rules. The club was organized about six months ago. It was agreed that each time a member thoughtlessly uttered an oath he must drop a penny in a box. At first the pennies clattered in rapidly, but the "cuss" words have become less frequent and some of the members say they have abandoned the habit. The box was opened and the contents turned over to Officer Kraft to be used for poor relief.

A Torpid Liver is a fine field for the Malarial Germ and it thrives wonderfully. The certain result in such cases is a spell of Chills.

HERBINE

Is a Powerful Chills Tonic and Liver Regulator.

It puts the liver in healthy, vigorous condition and cures the chills by destroying the disease germs which infest the system. Herbine is a fine antiperiodic medicine, more effective than the syrupy mixtures that sicken the stomach; because it not only kills the disease germs, but acts effectively in the liver, stomach and bowels, thus putting the system in condition to successfully resist the usual third or seventh day return of the chills. Herbine is a cleansing and invigorating medicine for the whole body.

Bills of appropriation to the amount of \$1,247,617 have up to this time been introduced in the Ky. legislature.

"I notice Bryan gave Ollie James a Bible. It looks like we have gone back to first principles."—Cor. Morganfield Sun.

The Kentucky Senate has passed a bill increasing the salary of State Supt. of Public Instruction \$1,500 a year and allowing him \$3,000 for salaries for school inspectors and clerk hire.

The business people of Brookport Ill. are encouraged in the belief that the railroad bridge which East St. Louis are promoting will cross the Ohio river from the Brookport to the Paducah bank.

Simpson County, Ky. claims the largest sassafras tree in the world. It stands in the yard of Esqr. Tinsley in the northwest section of the county. The circumference of the tree is 12ft 5in.

On the first page of this paper will be found an advertisement of the FARMERS' BANK, which it is hoped will be carefully read and considered ESPECIALLY by the men of this county who have been doing their banking business with banks OUTSIDE of this county.

The liquor interests are said to be arrayed against the nomination of Woodrow Wilson for President.

Good Roads. There is no one subject that interests the farmers and miners more than good roads. During the past ten days so many object lessons have been given that it would seem superfluous to even imagine that any one could be dense enough to object to any plan that would give the people a road available for travel in the fall and spring. If one noticed the half dozen mules attached to a load of tobacco that one mule would haul on a hard clean road this one argument would be sufficient to make him an ardent advocate of any plan of improvement.

Henry S. Barker head of the Kentucky State University says: Higher public education is necessary for the better protection of property rights against agrarianism: when the country was young and sparsely settled when there was plenty of elbow room, for all plenty of public lands to be had for the asking, property was secure and all were contented: but with the filling up of the continent by our marvelous immigration, men are beginning to jostle each other in an uncomfortable manner and the call for patriotic statesmanship resulting from this conflict of interests were never insistent or necessary as now.

The necessity for higher education was never so pressing as now. He is but a superficial observer who fails to see the sentiment of the people is rapidly changing in regard to many public questions. But a few years ago the corporations thought they were owners of their property in fee simple and could do with it as they pleased. Now they are being taught that in many cases they are trustees for the benefit of the people and have only a limited interest in the property: instead of being masters, they are trustees subject to the control of the law for the benefit of the public. The people are coming more and more to the front in the matter of legislative control, in the control of their representatives and the enforcement of the laws.

We are hearing new terms and phrases, which we hardly yet fully understand, the initiative referendum and the recall. These words are far reaching toward absolute democracy.

If the people are really intending to take their Government into their own hands, it behooves them to be deeply learned in the

science of law and profoundly skilled in the practicalities of administration. If they are educated and wise they will not be afraid to change a law or a principle of government because the proposed change is new, nor, on the other hand, will they be over-anxious to change a principle of law simply because it is old; they will not have the fear of the ignorant reactionary on the one hand nor the reckless haste of the inexperienced on the other. The educated man knows the past and is able to profit by the experience of those who have gone before; he does not believe that every proposed change is necessarily good but on the other hand is not like Burke overmuch impressed with the awful "hoar of the ages." Education gives wisdom and confidence. It places the citizen above the wiles of the demagogue and enables him to take charge of his own affairs and administer them for his own benefit."

Great Activity.

Continued from Page One.

deems it proper to present a somewhat detailed account of what is being done today and of the men who are doing it.

In this connection it is most gratifying to note the names of several of the oldest and financially strongest American firms who are today interested in the mining and sale of fluor spar. Such houses as Matthew, Addy & Co, Rogers, Brown & Co, Hickman Williams & Co, all having branches in our larger cities and who handle practically all of the pig iron and much of the coke produced in the United States.

The demand for fluor spar is a constantly growing one, many new uses are being found for this wonderful mineral and from a few hundred tons per annum thirty years ago the consumption in 1912 will be in excess of 125,000 tons.

Mexico, Ky., eight miles south of Marion on the Illinois Central railroad shipped in 1911 according to the railroad agents statement 252 car loads of fluor spar, aggregating some 10,000 tons while from Marion an equal tonnage was probably made but largely of the ground product which brings the highest price on account of its purity. The shipments of lead and zinc ores from the latter station have also been large, last weeks movement of lead concentrates being two car loads from the Kentucky Fluor Spar Company and one car load from the Roberts Fluor

Spar & Lead Company aggregating in value some \$5,000.

It is difficult in an article of this character to cover all of the mining work that is being prosecuted throughout Crittenden county but the following so far as known is correct.

Crittenden Springs. Edward F. W. Kaiser of Louisville, who recently removed with his family from that city will make Marion his home for the purpose of keeping in touch with the mining developments on the Springs property which will include the sinking of a shaft on the Sulphide of Zinc (Black Jack) fissure vein and the opening up of a large body of carbonate of zinc in another section of this land. This work will be under the general management of Mr. John W. Wilson.

Keystone Mine. This property under the direct supervision of George P. Roberts the president of the Roberts Fluor Spar and Lead Co., was a large producer in 1911 of both lead and fluor spar. During the months of February and March extensive sinking will be made although the present depth is 250 feet and the present statu of the vein is wonderfully strong in high grade white fluor spar, a working test of 500 tons showing 4 per cent of lead ore or 80 pounds of lead to the ton of fluor spar. The Roberts Fluor Spar Company's shipments in 1911 were exactly 13,000 tons of fluor spar, a portion of which was purchased in Illinois and shipped from that state.

Mary J. Franklin Farm. The full equipment for sinking a shaft on this land has been ordered and the work will be conducted under the management of Mr. James Henry.

Eaton Mine. At 115 feet depth indications for a body of ore, largely made up of lead and zinc, are most promising. At a depth of 150 feet drifts will be run and the veins fully determined. James Henry, Superintendent.

Franklin Mining Co., A large tonnage was mined from the 150 feet level of this property last season, a large proportion being of a strictly No. 1 grinding product. At 200 feet a cross cut will be made.

Commodore Mine. Under the direction of Mr. J. B. White, a very considerable tonnage of fluor spar is being mined as well as a large amount of zinc ore, the latter being treated by the Sanders Ore Separating Company at Marion.

LaRue Mines. A large amount of development work has been carried out in this property during the past year under the di-

rection of W. Murray Sanders assisted by Mining Engineer Link and Mr. Twitchell of Joplin. It is stated that a large body of zinc ore has been blocked out and will be raised this season. In all some 2000 feet of core drilling was made before the shafts were sunk showing strong ore bodies.

The Mann Carbonate Property. Carbonate of zinc extends to a depth of 125 feet in the last shaft sunk on the ore body, water is met at this point, the ore changing to a sulphide. \$25,000 worth of carbonate was shipped in 1911 and \$15,000 worth now on the dump ready to move.

The McDowell Property. Considerable carbonate of zinc is shown in this property which adjoins the "Mann" land work conducted under supervision of W. Murray Sanders.

The Miller Mine. W. Murray Sanders is obtaining 2 tons of zinc carbonate daily from this property.

Red Hill Mining Co., Work will be resumed on this property next month.

Memphis Mine. Contract has been let to a professional shaft sinker, Mr. P. W. Doyle of Pittsburg, Pa., to sink deeper the old shafts at this historic fluor spar mine. When Mr. Doyle and his trained "hard rock" crew of men complete their work of sinking "The Memphis," the question will be solved whether fluor spar in this region can be relied upon to continue to depth in economic occurrence. Mr. A. H. Reed represents principals who are "taking a look" at the "Memphis" in a substantial way.

Sam Matthews Land. The American Fluor Spar Mining Co. is producing an exceptionally high grade product in the form of a 96 per cent fluor spar, exceptional even for this section of country. This property adjoins the famous Yandell mine of the Kentucky Fluor Spar Co., which is now under the management of Mr. Fred Clements and on which a shaft will be sunk and christened the "Bill Yandell" shaft, this is done in recognition of Mr. Yandell's well known roseate viens of Marion as a mining centre which he has held for many years.

Kentucky Fluor Spar Co., In addition to sinking a working shaft on the Yandell property this company is raising fluor spar from both the Brown and the Hodge mines. Under the direct management of Mr. Harry Haynes the company has made a splendid financial success, its sales of ground fluor spar were made at top prices in 1911 and contracts covering its entire out-

put for 1912 were signed in December last.

The Myers Property. Prof. Wright of Louisville, the well known geologist and mineralogist expert has a wonderfully large body of fluor spar and lead opened up having sold a very large tonnage the past year at first class prices.

Hoosier Mining Co., Reverend George Cramer who has the operations of this company well in hand has opened up a wonderfully large body of zinc ore. Two shafts have been put down by him and an exposure of many thousand tons of a good grade of Jack made. Large boilers for compressors and other machinery are being installed.

Tabb Property. Mr. James Persons has a strong fluor spar exposure on which he has made leases to miners. On one of these leases a guarantee has been made that 5000 tons of fluor spar will be produced this summer and delivered.

Glendale, Henry Butler at 40 foot depth has a good showing of fluor spar and lead.

The Blue Grass Co., Under the direction of Captain Haase, four shafts have been put down on this property and each shows a strong body of fluor spar. It is the Captains intention to double the production of last year.

Burned to Death

Charles Gregory Formerly of Marion Meets His Death in Accident at Eureka Springs, Ark.

Mrs. Lucy Finley received the sad intelligence last week that her brother, Charles Gregory who is remembered here by almost every one, was burned to death in a residence he was boarding in Eureka Springs, Ark. whither he had gone from his home at Atchison, Kan. in search of health. As Mr. Gregory was alone at the time of his death the particulars will probably never be known. The owners of the property were away for the night and the whole building was enveloped in flames when neighbors discovered the fire and not until it was all over when they actually came to Mr. Gregory's remains, did they know any one was in the house. It is to be hoped he was suffocated by smoke and died a painless death instead of being burned to death and conscious during the time of his suffering.

WEEKLY FRANKFORT LETTER.

(BY HON. M. F. POGUE.)

This week closes the first half of the session, and while many duplicates of bills have passed both houses, no bill, so far, has passed either House or Senate as coming from the other house, which every bill that becomes a law must do.

The Graham unit bill has come over from the senate and been reported and will pass the House this week and will probably be the first bill to become a law.

Both Houses have passed a compulsory Primary Law very similar to each other by a unanimous vote, which assures us beyond a doubt that hereafter in Kentucky all nominations for any office will be made by a direct vote, and any one can run for office by merely putting up a nominal fee to show good faith. The next measure to receive attention as a platform obligation is the corrupt practice act. It seeks to purify elections by putting restrictions upon the candidates in the use of money and the general conduct of elections. The bill to regulate insurance companies passed the senate by a unanimous vote and will pass the House; some claim that it will reduce fire insurance rates and others that it will run the insurance companies out of the state.

No redistricting is likely to be done, and no body seems to care anything about it, even the minority seem unconcerned and some very prominent Republicans are discouraging it. The Prison Board fight is on

for this week and it looks now like a bipartisan board with civil service for minor employees.

Many educational measures are proposed which I will discuss in a future letter.

The General Assembly and the state-at-large showed Hon. Ollie James great honors last week in the reception that they tendered him. Ollie measured up to the requirements as usual, and there is no question that he has long ago out-grown the state of Kentucky and others lay claim on him and we hear him spoken of for the presidency every day.

Woodrow Wilson will be here this week and will address the General Assembly and the consensus of opinion is that he will be the next president of the United States if Ollie don't want it.

No good roads in sight yet.

Birthday Dinner.

Last Saturday being Lafe Loyd's 21st birthday his father J. F. Loyd gave him a birthday dinner and also had a family reunion.

Saturday morning the 8 o'clock train rolled up to the I. C. depot and the following people alighted —W. P. Loyd and wife, J. P. Loyd, Mrs. Minnie Loyd, Birdie and Miss Mary Loyd of Crayne county, also the well known string band of Crayne, who went to the home of J. F. Loyd. In a few minutes, Mrs. Nancy Clark, Miss Eula Wheeler, Miss Franklin, Mrs. Lucy Parris and daughter and others whose names we have not learned came to enjoy the day.

The string band was assisted by Miss Kevil who accompanied on the piano.

The music began at 10 o'clock and continued until 12, when the table unable longer to bear the burden being heaped upon it called for a relief committee and three tables of twelve each did honor to themselves in trying to stop the distress cry. Finally these gave up their undertaking and returned to the music room and music continued until time to take the 4 o'clock train. All evening friends came in to listen to the fine music. Among the long list of presents Lafe received two which were found under his plate when he sat down to dinner were a fifty dollar bill given him by his father and a beautiful Bible given by his grandfather.

We do not think it possible for a crowd to enjoy themselves better than they did on this occasion which will long be remembered by all who were fortunate enough to be a guest.

Was Still Able To Preach.

A press dispatch from Muskogee, Okla., under date of Jan. 22, says:

With both eyes blackened and swollen, his faced and lips cut, clothing torn and disheveled and with a policeman on guard at the pulpit the Rev. D. Noland Smith preached the dedicatory sermon in the First Methodist Episcopal church here to-day.

A two weeks' legal fight for the possession of the new edifice culminated to-day in an assault upon the preacher as he was going to church. His assailant was C. F. McGee, a contractor, who had been held in jail three hours to compel him to turn over the keys of the building to the church officials.

Income of \$500 a Month, Work as Track Hand.

Cincinnati, Feb. 7.—Francis Harrison Anderson, wealthy Cincinnati clubman, who has been working as a track hand on the Pennsylvania railroad at Xenia, O., is back on his job after a few day's vacation. Anderson felt he needed a rest, so he just took off his working clothes, put on his pleasure garb and started for New York. He returned, according to a Xenia telegram.

"Getting up early in the morning is really the hardest part of this job," said Anderson. He has to turn out at 5:30 o'clock. Anderson has an income of \$500 a month.

Dear Mr. Jenkins:— Please find enclosed check for one dollar to renew my subscription for the Press for another year. The Press is always a welcome visitor at my home. With best wishes, I am, Your Friend, Lacey C. Nunn.

Okolona, Miss., Jan. 26, 1912. Mr. S. M. Jenkins, Marion, Ky.

Dear Sir:— I was reminded last week that my subscription price on the Press is due again.

Enclosed find one dollar for which please send the Press on another year. The Press is always welcome with us and enables us to keep up with what is going on back in Crittenden better than anything. It is a "letter from home" each week. Yours, J. H. Crider.

Hammon, Okla., Jan. 22, 1912, Editor Crittenden Record-Press:

Find enclosed the price of a renewal to your paper for the year 1912, must not lose the pleasure the Record-Press affords.

Dr. and I are delighted with our Western home. The doctor's work has all of the novelty of his profession attached to it out side of the regular practice being employed by Uncle Sam to see after the Cheyenne and Arapaho Indians located in and around this place.

Our address will be the same, Hammon, Okla., Box 112, known throughout the state as the "Little Gem City, the Queen of the Alfalfa Fields."

Best wishes to Record-Press and hope to receive a copy of same this week.

Respectfully, Mrs. Lee Dorroh.

Carrsville, Ky., Jan. 23, 1912. Mr. S. M. Jenkins,

Dear Editor:— You will find enclosed one dollar for which send me your paper, Record-Press, one more year. I am always glad to get it. I am sorry that I haven't sent in my subscription sooner but have just neglected it.

Yours, P. E. Threlke'd.

Jenny Lind Rock.

The Ohio river claims among its treasures the Jenny Lind rock. The singer was a passenger on a steamer which struck on a sandbar near the rock, and while waiting for the boat to be floated Miss Lind had boatmen row her out to the rock, where she stood alone and sang.

Precept and Practice.

"Do you wish to go to church this evening? Father is going to preach you know," the minister's fair daughter asked. The young man considered. "Um. The last time I went he rather fell on some of my small failings. Do you know what his text will be to night?" "Yes, 'Love One Another'." He regarded the round pink cheek approvingly. "Suppose," he suggested softly, "that we let the old gentleman go preach while we sit on the porch and practice?"

Cultivate Art of Cookery.

To cook is an art of arts, within however, the reach of any who will take the trouble to master its alphabet and graduate into its higher branches. That one may become an artist by this study is not promised. Artists are the born, not made product. But a knowledge of cookery in the finer branches will be an aid to culture just as a knowledge of the languages helps to the comprehension of literature, and a knowledge of music to the comprehension of music.

Here is a message of hope and good cheer from Mrs. C. J. Martin, Boone Mill, Va., who is the mother of eighteen children. Mrs. Martin was cured of stomach trouble and constipation by Chamberlain's Tablets after five years of suffering, and now recommends these tablets to the public. Sold by J. H. Orme.

SUITOR IS REJECTED BECAUSE OF CHILDREN

Girl Tears up license, Saying She Does Not Want to Marry a Family.

San Frisco, Feb. 7.—When Isadore Cohen, a San Frisco tailor, gave Minner Levy of East Oakland a list of the assets which would go to make him a valuable husband he neglected to inventory his eight motherless children.

Everything else was told her in detail and she was so impressed that she appeared at the County Clerk's office and obtained a license to marry him.

Upon learning the surprised fact the girl hurried to the County Clerk's office.

"I have been deceived. I want my marriage license cancelled," she announced.

Miss Levy said that Cohen explained after the license had been issued that he was the father of eight children.

"I don't want to marry a family," protested Miss Levy, as she proceeded to make confetti of the license.

The party at Ed Blackburn's Tuesday night, was enjoyed by all who were present.

Gus Bowman, of Dycusburg, moved to this section Wednesday.

Misses Polena and Ida Penn spent Tuesday night with their sister, Mrs. George Sinkins, and attended the party.

Miss Thelma Martin left Monday morning for Louisville to undergo an operation.

Mrs. D. A. Reese, of Sikeston, Mo., is visiting her father, A. J. Chambliss, this week.

Misses Marie and Corine Graves spent Sunday with Miss Maggie Fowler.

Ed Blackburn and family will leave for Missouri the latter part of this week.

Help Wanted

For that cough. Get a bottle of Dr. Bell's Pine-Tar-Honey. It is the best.

WESTON

The river is again full of ice and the boats are unable to run.

J. W. Bennett was in Marion Friday.

Hayden Causey left our little town for Rosiclar, Ill., to spend a few days.

Clarence Black, of Webster Co., was the guest of J. W. Bennett Saturday and Sunday.

J. W. Bennett, our famous blacksmith, has sold out to S. A. Dillard. Mr. Bennett says he does not know where he is going—just any place besides Weston. Mr. Bennett has been living here eleven years and has been our general blacksmith. We are sorry indeed to lose such a good friend and neighbor, but wish him success.

Henry King, of this place, has moved on his father's farm near Rodney.

Joe Newcom, of Baker, was in Weston Monday.

Just think! As cold as it was Bill Newcom and wife were in Weston, Saturday.

Bob and Martin Williams were in Weston Monday.

Jim Rankin, of Fords Ferry, was here Monday.

Mack Walker has sold his farm near Weston to Tom Powell, of the Repton section.

Robert Gahagan is moving to Weston this week.

Ham Sullivan, of Rodney, walked into Weston Monday. Mr. Sullivan is growing young again.

We guess it was too cold for J. N. Swansey to sit in his corn crib and shell corn to carry to mill, as he was in Weston Monday and carried out a sack of meal.

C. W. Grady made a flying trip to Marion Monday.

If you have dizzy spells, attacks of momentary blindness, with ringing noises in the ears it is an unfailing sign of a torpid liver; a condition which brings on some serious sickness, if neglected. HERBINE is a powerful liver tonic. It puts strength and activity into the liver, purifies the bowels and restores a feeling of health, vigor and cheerfulness. Price 10 cents. Sold by Jas. H. Orme.

CHAPEL HILL

Robert Enoch, of this place, has sold out to Press Hunt and will go to Missouri to make his future home. Mrs. Enoch and children will remain with her mother, Mrs. J. C. Lodg, a short time, and later will join her husband.

G. B. Daughtery and son, of Caldwell Springs neighborhood, visited old friends in this precinct last week.

Miss Ruth Hill was the guest of her grandparents, Mr. and Mrs. H. S. Hill, last week.

John Sutton, of Crayne, is working for James Fowler, of this place.

Miss Nellie Adams is confined to her room with tonsillitis and strong symptoms of pneumonia.

Mrs. Jocie Minner and children spent Sunday the guests of Mrs. Essie Clement.

Walter Clement and Norval Bigham attended church at Marion Sunday night and a "good sound ducking," also Pruitt Adams attended some kind of a "service" at Crayne and received the same treatment.

Mrs. Essie Clement and little son visited her daughter, Mrs. H. H. Hill, of Marion, last week.

Those who "hoofed" it to Marion Saturday from this place, were Messrs. E. H. J. T.; N. T.; and Sylvan Bigham. R. H. Waddell, Miley Hill, and Walter Clement.

James N. Hill and family, who moved from Crayne the first of the year to his father's farm at this place, is building a new addition to his house which will be a great improvement.

According to the old adage "Mr. Groundhog" saw his shadow the 2nd., so there will be forty more days of winter. If not correct, let's hear from some one else.

Prof. P. M. Ward, of Weston, spent Sunday the guest of his son, W. W. Ward, and family.

Chest pains and a dry, hacking cough should be treated with BAL-LARD'S HOREHOUND SYRUP taken internally, and a HERRICK'S RED PEPER POROUS PLASTER applied to the chest. Buy the dollar size Horehound Syrup; you get a Porous Plaster free with each bottle. Sold by Jas. H. Orme.

LEVIAS

Mr. Groundhog still holds the championship among weather prophets.

The exhibition Friday night is the talk of the town. The students acquitted themselves with honors, winning many compliments of the large audience. Prof. Thompson has done faithful work.

Miss Beulah Nelson, of Hampton school, attended the exhibition and visited relatives a few days.

Mrs. J. B. Carter gathered forty-five dozen and three eggs in January. If anyone in the county can beat that, come and get the cake.

Mrs. Leona Hardy, of Dawson, visited relatives here and in Livingston county last week.

Mrs. Udie Farmer, of Marion, visited her mother and friends here a few days last week.

Thos. Carter, of Salem, attended the exhibition and visited relatives and friends here last week.

Kelroy and Miss Fleta LaRue, of Sheridan, visited relatives here last week. Miss Fleta has just closed a successful school at Irma.

Gid Manley and Bill Taylor have not been out of business this hard winter. They have new barns to show for their work.

Reuben Wheeler is building a work-

shop on his Levias property.

Some of our boys, scarcely out of knee pants, are breaking mothers' hearts, blighting cherish hopes and beautiful prospects, by acting a hog and getting drunk.

LILY DALE

We have had a great deal of snow and cold weather this winter. Perhaps it means a bumper crop for 1912.

We admire the way in which the Seven Springs correspondent closed the items. Surely God will bless such a people.

Roads have not been so bad in this vicinity this winter as usual, perhaps will not be because most of the tobacco has been delivered that has to be hauled over our roads. We do not think our roads as a whole, will ever be any better under the present system of working. We would like to have a new system, then we think we would have better roads. We would be glad to see more of our roads in our county like the hill near Crayne.

Mrs. Maude Deboe has been quite sick for several days, but we are glad to report that she is improving.

Victor Young has gone out of business at Mexico, as depot agent. He contemplates going to school. Hurrah for Victor, he has the brain and knows how to use it. With a little improvement he will make his mark.

Price Boisture, the noted hunter of this vicinity, is working for Dick Cruce. Mr. Cruce owns a large stock farm near Crayne.

J. H. Ordway hauled the banner load of tobacco for D. E. Boisture instead of J. R. Woodall—just a little mistake of the Editor.

A LIBERAL OFFER

We Guarantee to Relieve Dyspepsia.
If We Fail The Medicine
Costs Nothing.

To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia.

The Pepsin used in Rexall Dyspepsia Tablets is carefully prepared so as to develop its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important elements of the digestive fluid. Without it the digestion and assimilation of food are impossible.

The Carminatives possess properties which aid in relieving the disturbances and pain caused by undigested food. This combination of these ingredients makes a remedy invaluable for the complete relief of indigestion and dyspepsia.

We are so certain of this that we urge you to try Rexall Dyspepsia Tablets on our own personal guarantee. Three sizes, 25 cent, 50 cent and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store.

IN SOCIETY

The dissertation or epic poem by that genial clergyman the Rev. Mr. Conway, on the possibilities of a real country ham, which was published in the PRESS several years ago was vividly recalled last Thursday evening when a number of Marion's old boys gathered around the hospitable dining table of Mr. and Mrs. John W. Wilson.

There are certain forms that must be observed before a real old Kentucky ham is divided among the guests. These formalities vary in different sections of the country, yet everywhere gravitate toward the one idea of thin glassware and some class of liquid. Here in Kentucky, a lump of ice, sugar and a very little water is slowly stirred with a silver spoon, the tinkling of the spoon and ice against the glass give that delightful, musical prelude prior to the "Bglook, gluck" of the finishing liquid as it is poured from its bonded receptacle.

As the appetizing odor of the properly cured, cooked ham permeated the atmosphere on its way to the dining table, the glass ware is again called into requisition and a rather hurried mixing is again gone through with under the unwritten epicurean law that at least two real "toddys" should be imbibed before such a ham is served.

This old Kentucky ham was taken from its long resting place in hickory ashes where it slowly had gathered to itself its delightful flavor, thinly sliced, placed in a broad bottomed skillet and fried, the well cooked slices being transferred to a warm plate, the presiding goddess of the range then by some magical use of hot water, produced a red gravy that is wonderfully good but quite indescribable. There were beaten biscuits, great big mealy baked potatoes, a delicious soup, bunches of white celery, glowing red apples, coffee and a desert of delightful flavor and to add to all of this a whole souled welcome to those old boys from

Stone vs Elder.

Marion, Ky.

Mr. S. M. Jenkins,

Dear Sir,

I see in Record-Press an account of Mr. Elders crop returns for 1911 in Fredonia valley Caldwell county. Those good people and farmers ought to come over to good old Crittenden. I have a small farm adjoining the city of Marion and I gathered 635 bushels corn on 101 acres. 3500 lbs of tobacco on 24 acres. 6 tons of hay from 4 1-4 acres. This crop was made on my farm by W. W. Grubbs. Come again.

Geo. W. Stone.

In view of the fact that the custom of tipping waiters at hotels taxes drummers alone \$50,000,000 annually in the United States, the Kentucky legislature is endeavoring to pass an anti-tipping bill with a penalty for violations. It is thought that if Kentucky passes this law other states will follow and hotel guests will not be compelled to pay the salaries for hotel proprietors.

Rev. Jas. F. Price is at Princeton this week, meeting with the Board of Trustees of Princeton Collegiate Institute and with the committee on Home Missions for the Presbytery.
