

HON. JAKE CORBETT.

Announces for Congress. Third Entry in Ring. Ballard's Favorite Son.

TO THE DEMOCRATS OF THE FIRST CONGRESSIONAL DISTRICT OF KENTUCKY:

I have long cherished the laudable ambition of representing the people of my native county and district in the congress of the United States, for, it is no means honor to be one of the comparatively few, who are selected to make laws for the government of approximately one hundred million of free people. This distinction is only excelled by the great responsibility imposed upon him who is selected to shoulder it, but many things have stood in the way of the realization of my aspirations in the past, and among them I might mention the pre-eminence of abilities, as well as their claims to political preferment, by reason of the long and faithful services rendered their party, by such distinguished Democrats as the Hon. W. J. Stone, Hon. John K. Hendricks, Hon. Charles K. Wheeler, and last but not least, the unbeaten and victorious Ollie James, who has represented us in congress.

Nor do I assume any superior qualifications or fitness for this exalted position now, over the two distinguished gentlemen who are nursing a similar ambition, but without any reflection upon, or disparagement of the abilities or fitness of either of them. I just don't see the formidable and

NEW BRIDGE

Across Livingston Creek at Free Betty Ford in the Near Future.

The firm who took the contract to put up the new iron bridge at Free Betty ford for Lyon and Crittenden counties, informs the county Judge of this county that as soon as the weather conditions will permit they are ready to put up the bridge and that the work will be rushed with all possible speed to completion.

A Delightful Home.

Felix Cox has rented his Salem property to J. Frank Wyatt of Fredonia who will move to it at once with his wife. His fine farm is in the rich eddy valley.

OLD SKULLBUSTER TO GO

Famous Scott County Church Will Give Place to New One.

Georgetown, Ky., April 30.—(Special.)—One of the historic landmarks of Scott county is being torn down to make room for a more modern structure. It is the Corinth Christian church, one of the oldest institutions in this section of the State. It has long been known as the "Skullbuster" and is said by the oldest inhabitant to have derived its unusual name from the fact that the doors of the quaint old house built of logs, were so low that unless the taller members of the congregation stooped on entering they were sure to bump their heads.

What Our Neighbors Are Doing Trigg Issues Bonds.

By a unanimous vote, the fiscal court authorized a bond issue for the purpose of building pike roads in Trigg county. The question will be submitted to the people at the November election. —Cadiz Record.

Figuring on Increasing the Capacity of the Power Plant

The Marion Electric Light & Ice Co., contemplates putting on a day circuit and in a few days those desiring it will be given the opportunity to express themselves. Many new buildings are being built and others contemplated which will require lights and several residences now here are to be wired in this month, necessitating an increase in the capital stock or bonding of the plant to raise the wherewith to make the needed extensions.

ADDITIONAL LOCALS

Mr. and Mrs. M. E. Bacon of Hopkinsville, were the guests of Judge J. A. Moore and wife Sunday.

Miss Addie Young, of Morganfield, was the guest of friends here several days the past week.

Green B. Crawford of Tolu, was here several days last week superintending some improvements to his property on Depot street.

Geo. C. Gray is having a substantial improvement made to his home by having put down a concrete walk on both the streets it faces.

Rev. J. R. McAfee, wife and child, arrived Wednesday at noon. He preaches to-night at the new Methodist church.

C. S. Nunn left Tuesday at noon for Frankfort to visit his parents, Judge and Mrs. T. J. Nunn. Judge Nunn has recovered from his recent slight illness.

Mrs. J. R. White and little daughter, of Sebree Springs, arrived last week to visit her parents, Mr. and Mrs. A. J. Duval, on south Walker street.

Farmers' Bank

of Marion, Kentucky.

Capital Stock \$15,000

Before the introduction of Rural Free delivery of mails in this county, it was inconvenient for many citizens of the county to transact their banking business in Marion.

On account of that inconvenience, many of this county's citizens began to do business with banks located in other counties.

The daily delivery of mail from Marion to the homes of almost all parts of the county, removes that inconvenience, and this bank has many patrons whose accounts are very active, but who seldom find it necessary to pay a personal visit to this bank. The mail brings in their business one day, and delivers them the bank's receipt at their gate, on the next day.

It is the purpose of this advertisement to reach such of the citizens of this county as may be continuing to transact their banking business with banks located outside this county, and invite them to patronize the institutions of their own county.

The Banks of this county, and their owners, pay their taxes in this county; they help to build and maintain the roads and bridges that you use; they help to maintain the schools in which your children are being educated. In these matters they are partners with every tax payer in this county.

Money deposited in the banks here, may be borrowed by your neighbor for the development of his business, and in helping him to his success, it helps to increase our county's resources.

Banks located in other counties do not help you pay taxes or maintain your schools but they use the money they make from your patronage, in devolving the resources of some other county.

Unless outside banks can offer you some facility or security that your home banks cannot offer you, do you not believe that loyalty to your home institutions should cause you to prefer to patronize them?

Some men have an idea that a National bank is more secure than a State bank, and for that reason hunt up a National bank to transact their business. The facts are; a National bank is not adapted to the needs of rural communities. No National Bank could lend your a thousand dollars on a ten thousand dollar farm, because the law forbids.

No National Bank could make you an offer for real estate notes, for the law forbids this kind of investments for them.

Your home banks can serve you in this way, because they are not restricted by the laws governing National Banks.

National Banks are required by law to keep as much as twenty-five per cent of their deposits in cash and on deposit in other banks.

On April 1st, this bank had seventy-one per cent of its deposits in cash and in other banks.

Some men have an idea that a large bank is safer to do business with than a small bank. The safety of any bank depends on the character and business ability of the men who manage its affairs.

A small field may be more carefully cultivated than a large one, so a small bank may be more carefully managed, more economically conducted, and is generally, more liberal in its dealings with its patrons.

If you are disposed to patronize your home banks, but are not quite ready to make the change now because you owe the other bank, come in and borrow from us the money you owe them, and pay them off and let them depend in the future on their home people for their patronage.

If you doubt our ability to serve you perfectly, ask your neighbor who does his business with us, he can, and will, gladly tell you how we do business.

TURNPIKE THE ROADS.

Our People Are Thourly Aroused Over Our Impassable Highways.

Every legal voter and freeholder in the county will now have the opportunity to register his desire for better roads, placing his wishes where action begins and talk ends. At every prominent point throughout Crittenden County the following petition can be signed.

"The undersigned legal voters and freeholders of Crittenden county, State of Kentucky, petition the County Court of Crittenden county to make an order on the Order Book of said court, directing an election to be held in said county, on Tuesday, November 5th, 1912, for the purpose of taking the sense of the voters of said county upon the question of issuing One Hundred Thousand Dollars in Bonds for the purpose of building and constructing turnpike roads in said county."

Attached to these petitions will be found a very full explanation of the costs as well as the points where pikes will be constructed.

The Press has carefully examined the law under which these bonds may be issued as well as an authentic map of the county and will state for the information of our readers that 89 miles of piked road, an all the year road, will connect Dycusburg Marion, Tolu, Irma, Sheridan, Fords Ferry, Weston, Repton, Sturgis, Blackford, Shady Grove, Piney Camp Ground, Fredonia, Mexico, Frances, Crayne and with in a couple of miles of Salem. The enterprising citizens of that city will build the missing line in Livingston county. The 20 cents on each one hundred dollars of the valuation of our property which will enable us to sell these bonds mean that if one owns a farm valued at One Thousand dollars the expense for these pikes will be two dollars per annum to him. This hundred thousand dollars will be expended here in the county and return to the original payers.

This proposition means everything to everybody in this county there could be no possible argument that would accentuate the feeling that we all have after attempting to use our present bottomless, impassable roads. Let every voter do his whole duty in this matter. It's the vital issue for all of us.

MINING ITEMS.

Mexico, Kentucky, Forges to the Front in Fluor Spar but Is not Rightly Named.

The name, Mexico, never has seemed just right for the class of a town that Mexico is. There's too much enterprise, go-ahead-iveness, bustle and hustle to be handicapped with the name of a greaser country. The only point that the Kentucky town resembles the chillcolorow section is in pepper, a straight square out business pepper that doesn't talk much but does a lot.

Somebody every now and then says, "No one has ever made a profit in mining Fluor Spar." The Pigmy Mining Company over at Mexico says differently. Why Prof. Wright of Louisville picked out the name "Pigmy" or why he selected a section of land that none of us thought of, he only knows, but here's a fact, every thirty days the Pigmy Mining Company through the management of Prof. Wright packs down sixteen hundred dollars of profit and there's but little fuss made over it and another thing, the spar is not being forced, four hundred tons only are mined and shipped, just four dollars per ton is the profit made on it by the Pigmy and this allows the second man to make a fair profit for his work.

When one wants it all, somehow, the thing don't pan out good. Sixteen hundred dollars each month for the Pigmy stockholders! We raise our chapeau to Prof. Wright. Wesay, Prof., you are all right and your definition.

A Nice New Mill For Marion.

It is reported that Marion ere the end of the year will have a new flouring mill, which is to be built on the vacant lot between the Depot and the Marion Milling Co. A. J. Baker and J. H. Mayes are the promoters. They contemplate using oil or gas instead of coal and may use electric motors also provided satisfactory and profitable rates can be obtained from the Marion Electric Light & Ice Co., for such service.

NOTICE.

The Weston Sunday School will observe May 12, 1912, it being the second Sunday as "Mothers' Day." Everybody, especially the mothers are invited. Respectfully,

When were farmers as late in putting out a crop?
Glad Threlkeld has bought a new saw-rig and set up on Mrs. Alice Hughes' farm for sawing a big lot of timber.

Anderson Pope, of Good Hope, was in this section last week on professional business.

J. B. Carter, our harvesting machine man, was out last week talking machines to the farmers. Mr. Graham, of Evansville, Ind., was with him.

Dell Robinson and family, of Hampton, visited relatives here last week. They were enroute to Marion to do some shopping.

Mrs. Lizzie Carter has been under the care of the doctor for some time. She is somewhat improved now.

Our mines are still out of business on account of no roads for hauling. Why not use our abundance of rock in building roads that we may deliver our products to the markets, and increase our bank accounts. We are in favor of bonding the county for rock roads. This precinct has lost more on account of no roads the past three months than the tax would amount to in forty years.

Mrs. Alice Franklin, of Tolu, visited sick relatives here last week.

We are glad to report L. L. Price much improved, able to be out about the house.

THE PLANTING DAY
AT THE CAPITOLOne To Be Set Out by Each County
Judge Garnett' Plan
Adopted.

On a date yet to be fixed by the capitol commission, delegates from each of the 120 counties of the State will go to Frankfort and plant trees on the capitol grounds, each county to have one tree. This was decided on at a meeting of the capitol commission yesterday afternoon on the suggestion of Judge James Garnett, attorney general, who called attention to the need of trees. It is expected that the day will be an eventful one and take hundreds of visitors to Frankfort.

The following is a copy of the resolution offered by Judge Garnett, which was adopted by the commission.

Whereas the plot of ground on which the State capitol is situated is practically barren of shade-trees are to be located at different points on the grounds.

Therefore, Be it resolved, That the Custodian of Public Buildings be and he is hereby directed to select and designate 120 points

Their Task a Difficult One

We expect much more of untrained servants to-day than the Southern slave-holders expected of trained ones. Even the less wealthy had so many hands to make light work that there was little weight of toil upon individuals, as the experience of a Northern woman in Baltimore at the close of the war will illustrate, says a writer in the Century. She advertised and anticipated no difficulty in obtaining the best of servants from the flotsam and jetsam of recently freed slaves, but this is the conversation which ensued between her and two negro girls who first appeared:

"You can cook?"
"No ma'am; we does'nt know how to cook. Aunt Ca'line uh Aunt Nancy uh Aunt Sue they always done de kookin'."

"But of course you can wash and iron?"

"No ma'am. Aunt Pheny and Aunt Lucindy, and Annie May uh Sweetah-Rose done de washin' an inin'."

"Well, you surel can do house work."

"No, ma'am: Emm'llne an' Aunt Mandy's Fanny an' Sally

Ann done dat."

"You waited on the table, did you?"

"No, Ma'am: ol' Marsah he would'n never let nobody but Uncle Sam an' Uncle Abs'lom un one o' theyeh boys do dat."

"But certainly you can mend or sew?"

"No ma'am; Liza and Luly Bell an' Aunt Viney's Jinny pudden to mendin' an' sewin' an' puttin' clothes away, an' sich doins."

"Humph! Then I take it you washed windows and woodwork and floors?"

"No, Ma'am; we never done no scrubbin' of no kin'. De boys dey was plenty of em' to do dat."

"You washed dishes, surely?"

"No, ma'am; Aunt Ca'line uh Aunt Sue's gurlhs hope um wid de dishes."

"Then, for mercy sake, what did you do?"

"Why, me'n Judy hyuh we took turns shooin' flies off'n of Marsah."

PADUCAH BANKER'S TESTIMONY

FOR the benefit of any of my friends and acquaintances who may be afflicted with Kidney or Liver trouble, I state that I have found in Hays' Specific an efficient remedy and, I believe, a permanent cure for myself. For some time I was a sufferer from a disorder of these organs and finally resorted to Hays' Specific. It is with no degree of pride that I permit my name to be used to promote the interest of the manufacture of this remedy, but that it may be of some benefit to my friends.

Obituary.

We are again reminded that in the midst of life we are in death. When we received the sad intelligence that the death angel had visited the home of J. C. McDowell, and snatched from their fond embrace the devoted wife and mother.

The subject of this sketch, Mary Louisa McDowell was born in Crittenden Co., Feb. 1, 1869, and died March 11, 1912, being 43 years 1 month and 11 days old. Sister McDowell was the youngest daughter Thomas Fralick and was united with J. C. McDowell in the holy bonds of matrimony. To this union was born 4 children, one of whom died in infancy, leaving three with their father to mourn the loss of wife and mother. The oldest of the three is a girl about 15 years of age who is keeping house with her father and the two little boys.

Sister McDowell professed religion in the year 1886 and she with 31 others received baptism administered by Bro. E. B. Blackburn and became charter members of the United Baptist Church known as the Blackburn Church, named in honor of the

beloved and faithful servant of the Lord, Elder E. B. Blackburn who was instrumental in the hands of the Lord in establishing the above named church.

In the death of Sister McDowell the Church loses one of the most loving and faithful members, the husband a faithful loving wife and a true helpmate, the children a kind and good mother, the father loses the youngest of his true daughters, and all the kindred, neighbors, and acquaintances will miss her.

She is gone. Her place is vacant. She was so suddenly snatched from us by that fatal disease that wrecked her nerves.

But bereaved and sorrowing friends and relatives mourn not as those who have no hope, for she gained the victory over death. She trusted in Jesus and when He comes the second time He will call the sleeping dead and they shall come forth to meet the Lord in the air. Now while the body is mouldering in the dust the soul is with Jesus waiting for the time when the saints shall come with him to see the redemption of their bodies, when this mortal shall have put on immortality, when the trum-

phet sounds and the dead shall rise victorious over death, hell, and the grave.

We will all join Sister McDowell and the redeemed host shouting victory through our Lord Jesus Christ.

Our dear brother, J. T. Davis, conducted the funeral service in the presence of sorrowing friends after which the body was laid away in the Fralick graveyard to await the Lord's appointed time to make up His jewels.

J. R. Clark.

Odds And Ends.

Mr. Morgan of the B. & O. R. R. and Moffet of the Blue Ridge Dispatch were soliciting Fluor Spar shipments for their respective lines, Friday last.

We note that Mr. Marting of Mathew Addy & Co. of Cincinnati was introduced to the Crittenden county roads last week on a trip to the Keystone mine.

County Judge Blue says that where an overseer of roads allows dangerous holes to remain in a road he is responsible and if the person receiving injuries or damages will make an affidavit to that fact the county judge will adjudicate the case. The Kentucky statutes say the same thing and the time may come when a stranger will stay around Marion three or four weeks to have an overseer fined a couple of dollars or such a matter, for personal injuries received.

Speaking of roads, good, bad and indifferent, why don't the Crittenden county fiscal court assert their authority and lay a tax for roads and bridges as per sec-

tion 4307, chapter 110 of the statutes of 1909.

The Press gives the paragraph in full for the information of the honorable court, such a tax will yield nine or ten thousand dollars but it will have to be expended strictly for roads and bridges. The following is the text:

"The fiscal court shall have full power to levy an ad valorem tax for road and bridge purposes of not exceeding twenty five cents per year on each one hundred dollars worth of property assessed for state and county taxation and also a per capita tax of not exceeding one dollar on each male citizen of the county, liable to work on roads between 18 and 50 years of age. Said tax to be collected in the same manner, by the same officer, and under the same obligations, as other county revenue is collected and the fund shall be designated as the "Road and Bridge Fund."

Naturally the roads at the present time need this kind of attention but will the fiscal court rise to the occasion and forget politics long enough to really do this great big thing for the people of Crittenden county, regardless of the usual and familiar protests.

Rev. Oakley Called.

New Church Cleared of Debt.

In spite of inclement weather, the beautiful House of Worship erected by the Methodists of this city was formally opened on Sunday last with a full list of appropriate services.

At 9:30 a. m. the Sunday School assembled in session at the old Church on Salem street and walked in procession to the New Building at the corner of Carlisle and College streets. The procession gained in proportions as it advanced, until, by the time it reached the new Church it more than filled the Sunday School auditorium, it being estimated that nearly five hundred men women and children had taken part in it.

At 10 o'clock Dr. Mather announced the Doxology which was sung as a prelude to the Baptismal Service which immediately followed, at which twenty-five children and young people were publicly dedicated to God in Holy Baptism.

Punctually at 10:45, the main auditorium being completely filled and the Sunday School auditorium lacking about two hundred being full, Dr. Mather announced the opening hymn, "O Worship the King" which was sung with fine effect by an augmented choir accompanied by the Church Orchestra. Prayer was offered by the Bishop, and after more singing, Bishop Denny of Richmond, Va., preached the opening sermon from the text found in the first verse of the fifty-first Psalm. For an hour and a half the Bishop discourse eloquently upon his theme and then followed a statement by the Pastor as to the amount of money needed to pay off the remaining indebtedness on the building. Dr. Mather asked for \$7,500.00, and,

despite the lateness of the hour forty-seven hundred of this amount was secured before the Bishop pronounced the Benediction.

During the afternoon the weather changed to a sharp rain and thunderstorm, and at 7:30, the hour appointed for the night service, about 500 people only, gathered for worship. After a short sermon, Dr. Mather proceeded to ask for a collection equal to the remaining indebtedness, and at 9:35 p. m., was able to announce that the amount was at such a point as to warrant him in asking the official Board to join him in assuming responsibility for the balance by taking the old Church property as collateral for the same. Then four young people were formally received into the Church as members, the Doxology sung, after a solo by Mrs. Schefflin of Smithland; and the Benediction brought to a close, what was probably one of the most remarkable service ever held by the Methodists in this part of the State.

The opening services will continue all this present week, and for three more Sundays, the formal dedication of the Church being set for Sunday, May 12th, when Bishop E. R. Hendrix, D. D. L. L. D., of Kansas City, Mo. will preach the sermon.

Judge Allen W. Barkley of Paducah was here Sunday to attend the opening exercises at the new Methodist church, and remained over Monday to meet some of the voters. Judge Barkley is lining the voters up pretty well when he meets them. He is a man of pleasant and affable manner who makes friends and his record in Paducah will bear investigation.

SHEEP QUARANTINE RAISED

Important Amendment Affecting Our County.

Frankfort, Ky., April 15, 1912.
Special Notice:

You are advised that the State quarantine on account of sheep scabies, promulgated June 22, 1910, and effective September 1, 1910; and the Federal quarantine for the same purpose, effective August 16, 1909, have both been amended so as to release from quarantine on May 1, 1912, that portion of Kentucky as herein-after described, to-wit:--Fulton, Hickman, Carlisle, Ballard, Graves, McCracken, Calloway, Marshall, Livingston, Trigg, Lyon, Caldwell, Crittenden, Union, Christian, Hopkins, Webster, Todd, Mulenberg, Logan and Simpson counties and those portions of Allen, Warren, Butler, McLean and Henderson counties lying west and south of the Green and Big Barren rivers.

The effect of this release will allow sheep to be shipped or moved from the counties and parts of counties above described to other counties in Kentucky and to other states, for any purpose, without restrictions other than those imposed by the states to which destined. It also prohibits the movement of sheep from the remaining quarantined section of Kentucky into the released area until such sheep have been dipped, certified to and transported in accordance with the provisions contained in Order 4 of this Board.

The movement and shipment of sheep from the remaining quarantined portions of Kentucky, (all those counties and parts of counties in the State not specified above) shall be made as heretofore in accordance with paragraph 6 of Order No. 4, as amended in Order No. 5, which requires the regular State certificate to accompany all movements and shipments of sheep when leaving a county.

Sheep scabies eradication in Kentucky is progressing in a highly satisfactory manner and it appears that the remainder of the State will soon be in such condition as to warrant its release from quarantine, which will be recommended in whole or in part just as soon as the remaining infected flocks are cured of this disease. The hearty co-operation of the county authorities will hasten the time when the release of the remaining territory can be made. Another inspection of all flocks has been ordered in Anderson, Bourbon,

Boyle, Bullitt, Fayette, Fleming, Marion, Mason, Meade, Mercer, Nelson, Nicholas, Robertson, Scott, Spencer, Washington and Woodford counties and parts of Harrison, Lincoln and Montgomery counties. The counties in which a first inspection has not yet been completed will be required to finish such inspection before release from quarantine.

ORDER NO. 5.

Releasing Certain Counties And Parts of Counties in Kentucky from Quarantine for Scabies in Sheep and Amending Paragraph 5 of Order No. 4.

Effective on and after May 1, 1912.

The fact has been determined by the State Live Stock Sanitary Board of Kentucky that the contagious disease known as sheep scabies has been eradicated and does not now exist among the sheep in the following described area of this State: Fulton, Hickman, Carlisle, Ballard, Graves, McCracken, Calloway, Marshall, Livingston, Trigg, Lyon, Caldwell, Crittenden, Union, Christian, Hopkins, Webster, Todd, Mulenberg, Logan and Simpson counties, and those portions of Allen, Warren, Butler, McLean and Henderson counties lying west and south of the Green and Big Barren rivers.

Therefore, we, the State Live Stock Sanitary Board of Kentucky, under authority of law, do hereby remove and revoke the quarantine now existing on the above described area: the same being part of the whole State of Kentucky which was quarantined by order, No. 1, effective September 2, 2910.

The effect of this order will permit sheep to be shipped or moved from the counties and parts of counties described above to other counties in Kentucky and to other states for any purpose, without restrictions other than that imposed by the states to which destined; and to prohibit the movement of sheep from the remaining quarantined portion of Kentucky into the specified released area until the same shall have been properly dipped, as required for sheep coming into Kentucky from other states, as provided in order No. 4.

Paragraph 6 of order No. 4 effective August 10 1911, is hereby amended so as to read:

"Before moving any sheep in that portion of the state of Kentucky quarantined for scabies in

sheep, or offering sheep in such portion of the State to any railroad company, steamboat, ferry or other common carrier for transportation to points either within or outside the State, they shall be inspected by the County Live Stock Inspector, found free from scabies and exposure thereto, and be accompanied by regular certificates of inspection, which shall accompany the shipments to their destination and be attached to waybills or other identification papers issued by the transportation company."

This Order is not intended to modify or revoke any Orders, Rules, or Regulations of this Board other than herein stated.

This Order No. 5, becomes effective on and after May 1, 1912. Passed at meetings of the State Live Stock Sanitary Board held at Frankfort, Ky., April 15, 1912

Signed:

QUICKLY CURED WITH "ZEMO"

A Trial Treatment For 25 Cents.

The makers of ZEMO—the celebrated eczema and skin cure—have placed on the market a trial treatment package consisting of a generous bottle of ZEMO, a trial cake of ZEMO SOAP and a 32 page booklet "How to Preserve the Skin."—This entire package to be sold at 25 cents, so that everybody can test the true healing and cleansing properties of ZEMO. We have received a good supply of these trial-treatment packages and urge all those troubled with Eczema, Pimples, Iching Skin, or any other skin or scalp disease, to come here and get the ZEMO trial-treatment. We heartily endorse and recommend ZEMO and ZEMO SOAP to all persons suffering from any form of skin or scalp trouble. It is a clean, soothing, healing wash and a sweet antiseptic soap that does not glaze over the trouble like salves, powders and greasy lotions, but penetrates to the very root of this trouble. ZEMO stops the itching at once and opens the pores and draws out the poisonous accumulations to the surface of the skin leaving it clean and healthy. Get a trial-treatment of ZEMO to-day—you'll find it the best 25 cent investment you ever made. HAYNES & TAYLOR, Inc., Marion, Ky.

So under the circumstances, I shall, as may be possible, see, and appeal to the Democrats of the district for their support at the primary election to be held the first Saturday in August next.

While you are to be the sole judges of the qualifications and claims of the aspirants to this high office, and while I recognize and concede the eminent abilities of my opponents, I would be untrue to you, and appear ridiculous to mankind, should I fail to claim for myself, qualifications and fitness equal at least, to those who are also seeking your suffrages. And upon this issue my fellow citizens, your judgment should determine the case, for after all is said and done it is the ability of those chosen to public office to faithfully, wisely and honestly serve the people that concerns you most.

I am, and have always been a Democrat, ever looking to the principles of this great party as taught by Jefferson and all of his successors down to and including that great leader, statesman and Christian gentleman, Wm. J. Bryan, as my political creed and guide, and am firmly fixed in the conviction, that only in the exemplification of these great principles by the law making power, can the masses hope for the perpetuity of a government of, by and for the people.

I shall endeavor during the campaign to meet and discuss with as many of you as possible in more detail, the issues as now made up between the two dominant parties in this country, as well as such as may develop between my opponents and myself, as to our respective claims to perform at your hands at this time.

In the meantime, I trust that the above outline may suffice, and that my long services to the party and loyal support to all of its nominees at all times and under all circumstances, may commend me to a fair and an impartial judgment at your hands.

Very respectfully,
JACOB CORBETT.

In another column of this issue will be found the card of the Hon. Jake Corbett, announcing his candidacy for congress from this district to succeed Hon. Ollie M. James.

"Jake," as he is familiarly and affectionately called, was born in that part of old Ballard county, now the county of Carlisle, about five miles south of Blandville on what is known as the Martain farm, and on which some of his ancestors and kindred lie buried, but was reared and brought up on a farm near Blandville, and received his education in the common schools of the old county seat. Here he read law with his uncle, Judge J. D. White, and was admitted to practice before his uncle, then Judge of the Common Plea Court.

His first office was that of a little page boy in the Kentucky House of Representatives, while his father, Hon. Tom Corbett, was representative for so long

from Ballard county. Among Jake's most precious relics is the old desk at which his father sat for so many years in the old Capitol at Frankfort, and which was sent to him by the commissioners on the completion and occupancy of the new Capitol, and which now occupies the position of honor in his little law office at Wickliffe.

In 1879 he was selected by that great and good man, Governor Luke P. Blackburn as his private confidential secretary, which position he continued to fill throughout the term, and was invited by Governor Knott, to continue in this capacity in his administration, and accepting, served for six months when he resigned to practice his profession.

While Mr. Corbett has never held but one elective office, county Attorney of Ballard, he has been one of the most active Democrats, not only in this district, but throughout the State ever since, and before he became of age.

Not only this, but his services as a stump speaker have been so universally recognized that he has been heard in nearly every county in the State fighting the battles of Democracy, for he is a born Democrat and orator.

The following from the "Calloway County Times" of October 29, 1909, when Mr. Corbett was canvassing that county in the interest of the Democratic ticket, will serve to illustrate the interest and admiration which he arouses in heated political campaigns.

"Hon. Jake Corbett, of Ballard county, spoke to a good crowd of the untimely Democrats of Swan, at Brown's Grove Wednesday. He was accompanied by the Brewer boys' Band, which made music for the occasion."

School was dismissed and the pupils marched in a body to hear this distinguished son of Kentucky expound the gospel of true Democracy.

Mr. Corbett is one of those sterling Democrats to whom the party can appeal in times of peril, and upon whom they may rely to redeem the State from extravagant Republican rule. He is a type of the old time Democrats, is a fluent and accomplished speaker, and his chief delight is to render faithful party service. He has a number of appointments in the county this week and those who fail to hear him will miss a treat, indeed.

Jake Corbett is the son of the lamented Tom H. Corbett, who, if we mistake not, was in the days of reconstruction a candidate for congress in this district. Then the voters had to march to the polls, and if a voter looked like a Democrat he received the jab of a bayonet in the fleshy part of his anatomy, 'just beyant,' and put out of line. Of course, Col. Corbett was defeated by the Republican. And they would do the same thing next Tuesday if they could.

We guess Jake is familiar with the history of the prostrate Southland, and the beacon fires made of Southern homes light his way to the path of duty. We mention these things lest we forget. We are proud to have such a Democrat with us. Hear him."

And so he has earnestly and eloquently pleaded the cause of Democracy since he was a boy. He hails from the banner Democratic county and judicial district of Kentucky, and without a flaw upon either his private life, or a scar on his political escutcheon, look out for Jake Corbett in the approaching congressional derby.—Ballard Yeoman, April 18, 1912.

A FLOOD LOSER.

A letter from Mr. James Kevill of Lake Village, Ark., to his brother, Mr. M. R. Kevill, of the Princeton Shoe Store, tells of his loss through the flood, due to the high waters of the Mississippi river. Mr. Kevill, who is postmaster at Lake Village, states that water is standing seven feet deep in his office. In addition to suffering many inconveniences, Mr. Kevill has lost fifty head of hogs and four head of mules on his farm near Lake Village by drowning.

THE BEST PROOF

Given by a Marion Citizen.

Doan's Kidney Pills were used—they brought benefit.

The story was told to Marion residents.

Time has strengthened the evidence. Has proven the result lasting.

The testimony is home testimony—The proof convincing.

It can be investigated by Marion residents.

Coleman Byford, Marion, Ky., says: I cannot express my gratitude for the great good Doan's Kidney Pills did me. I was laid up with my back. I had to pass the kidney secretions many times during the night, and there was a scalding sensation when being voided. My heart was also affected, and my health and strength run down. I had about given up hope of recovery. I was living in Owensboro, Ky., at the time, and the two doctors that were attending me could do nothing for me. I had heard my mother speak highly of Doan's Kidney Pills and as they had cured her, I procured a box at the Haynes & Taylor's Drug Store. Before I had taken the contents, I felt greatly improved and after I had finished four boxes, I was as well as ever was in my life."

(Statement given Feb. 3, 1908.)

RE-ENDORSEMENT.

On Feb. 2, 1912, Mr. Byford added: "I can still praise Doan's Kidney Pills. I do not need this remedy very often, but when I do it quickly cures me of kidney complaint."

Pressure of Water Will Not Allow Bodies To Rise.

Boston, Mass. April 27.—"The bodies of the victims of the Titanic are in the bottom of the deep, never to leave it," declared Prof. Robt. W. Wood of the chair of experimental physics of John Hopkins University, today.

"It is altogether improbable that any of the corpses will ever return to the surface, as is the case with bodies drowned in shallow water.

At the depth of two miles the pressure of the water is something like 6,000 pounds to the square inch which is far too great to be overcome by buoyancy ordinarily given drowned bodies by gases generated in time."

The bodies recovered are those of the passengers who sprang into the water as the ship sank.

NO CAUSE TO DOUBT

A Statement of Facts backed by a Strong Guarantee.

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will return the money paid us for it. That's a frank statement of facts, and we want you to substantiate them at our risk.

Rekall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rekall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets, 10 cents; 36 tablets, 25 cents; and 80 tablets, 50 cents. Life's a jest, a jape, a whimsey, Life's an article that's flimsy, Life's a game and life's a battle, Life's as foolish as a rattle, Life's a song of love and laughter,

With a sob that follows after, Life's a fire we did't kindle, Life's a humbug and a swindle, It's a weariness—a glory, Life's a queer, uncanny story, Life is simple—and a wonder, It's a dream, a fact, a blunder, It is like a patch work pattern Sewed together by a slattern; It's a sweetheart that we sing to It's a rope we madly cling to, Mostly life is as we take it, Modified by what we make it, And—the way we clutch and and grab it

Life's a universal habit, One whose bond's we have to sever

We have changed our meeting day at Emmaus from the second to the third Sunday in each month. I hope we will have a large crowd the third Sunday in May.

There Are in Marion Many Beautiful Sites

Which Can Be Had on Easy Terms. Buy Your Own Home Nest And Be Happy.

Every laboring man who does not own one should buy himself a town lot, get that paid for and then work to make the necessary improvements. A little here and a little there, would, in due time produce a home of his own and place him out of the landlord's grasp.

Remember fifty dollars a year saved in rents, will in a very few years pay for your home, and the money it costs him to move and shift about, without a loss of furniture and time, pay the interest on a five hundred dollar note against his property until he can gradually reduce it to nothing.

Any one can buy that way—why not risk it? If he fail, he is no worse off—if he succeeds as any careful man is sure to do, he has made a home and established a basis equal to his neighbor who appears to be more thrifty, just because he does not have to pay rent.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, it forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00.

MINING ITEMS.

Continued From Page One.

tion of pigmy should be changed. It's not a dwarf, fourteen inches in height. It's an elephant sixteen hundred feet high and the Lord only knows how long.

This Mexico country but a few miles south of Marion is a whole lot of country. Here's the Hoosier Mining Co., W. H. Whitaker, Pres., building a hotel that will cost over five thousand dollars—building it for the employees.

Mr. Whitaker says, "This is to be my home hereafter and the home of many of my Michigan friends—people who know all about the copper country of Michigan and the zinc fields of Wisconsin and Illinois. Of course the Hoosier Company has a good thing, an especially strong thing in zinc; more zinc is in sight just now than we ever thought could be sold for used in America. Fluor Spar too.

W. Murray Saunders parts his name in front. W. Murray S. is also to an extent Mexicanic.

The Blue Grass Mining Co. is operated by Mr. Saunders.

A large tonnage of fluor spar is being made ready for shipment. Two shafts are in evidence here and the product is like the little girl with the curl when it's good it's very, very good and when it's bad it's not as good or words to that effect.

The American Fluor Spar Mining Company is another high grade spar property over there. It is in charge of Mr. Yandell and its output is solid and substantial. The quality is exceptionally strong with the possible exception of considerable iron ore, (limonite) which at present unfits it for anything except open hearth fluxing.

Fred Clement is over at the Yandell shaft and he has gone down 200 feet at that point for the Kentucky Fluor Spar Company and is just ready to put a hole through at the bottom of the shaft to the vein of fluor spar a hundred feet away. In the ordinary walks of life this vein a hundred feet away might not be there when Fred arrived but Harry Haynes has charge of the interests of the Kentucky Co. and it's dollars to brass tacks the vein will wait for Fred's arrival.

The Marion Mineral Co., (shades of Bob Walker and Cooper of Hopkinsville and the Turpentine trust) this company under the efforts of Fred Clement and Johnson Crider and other way up m'n ling peopl' had a good thing and don't forget it. They knew it too. They really made more money selling gravel spar at about three dollars per ton on board cars at Mexico, mining it from the Pogue property, made more real money at that price than all of us people that know so much about the quality and the percentages and all that sort of thing and charge sixteen dollars per ton, ever will make.

Now here they come and buy the Pogue property and pay five thousand dollars for a strip thirty rods, ten dollars a running foot. Is Johnson going to mine another 1409 tons from the Pogue and sell it at \$3 per net ton. Shouldn't wonder if he could do it at a mighty good profit too.

F. A. McClellan, of Eddyville and of Golconda and of Kansas City, is another lucky investor, he stays right by the machine and remains on the job always, until after the whistle blows.

He has his shaft which is right next to the Pogue property nearly 200 feet in depth, at this point he will run a level to this mother earth's store house of fluorspar. With the "Ebbie" Hodge mine which is in the hands of leasers our resume of things especially Mexicanic for this week is concluded.

A little west of Marion the Franklin Mining Co. and the Roberts Fluor Spar & Lead Co. are busily hauling coal preparatory to pumping out their shafts

to resume mining.

The Eclipse Mining Co., Mr. J. B. White, Supt., is running a drift on the Commodore.

The zinc ore that is being out-putted at this property is of much more than the usual Joplin percentage in metallic zinc and increases in tonnage as the depth is gained. During Mr. White's incumbency as manager of this property, he has personally made himself the good friend of every man and judging from his pleasant personality, every lady in that section of the county. Mr. White, you are most welcome.

At the Memphis it is reported that "something is doing;" that there have been developments during the past few days that mean a great deal to this county but Mr. Reed, who is just as nice as they make them and will give one all the information about Tennessee Coal mines and how to raise chickens on fluor spar grit won't say a word about the Memphis.

A pleasant interview was had with Mr. Barnett the other day relative to boring for oil at Tolu. He states that this will be done, the first well being driven on his farm. The Press hopes sincerely that oil wells, gushers, will be developed because Billy Barnett would be the same man if all the oil in the world were on his Tolu farm and the price per gallon would not be increased a penny. That's the kind of a man Tolu has given Marion.

ORATORICAL CONTEST.

The Central Oratorical Association
To Hold Its First Contest in
Marion, May 3.

About two months ago a meeting was held in Sturgis for the purpose of organizing a new oratorical association in Western Kentucky. Six schools were represented, namely, Corydon, Dixon, Sturgis, Providence, Seebree and Marion. Each school is to send a representative each year to compete for a medal not to cost less than \$15.00. The winner of the Cochran medal is to represent Marion.

Many people are expected in town Friday night. If the hotels can't accomodate them all it is hoped that the people will open their homes and take the overflow. It is not in the agreement for the town holding the contest to entertain the visitors.

The exercises will begin at 8:15 p. m. and the admission will be 25 cents to all.
