## THE BELOVED AND AGED MINISTER

Rev. John P. Hogard, Passed in's His Long Rest, on Last Friday Night.

The venerable, much beloved, and highly respected John P. Hogard, died Friday night, May 24, 1912, at his home four miles east of Marion, of the diseases incident to old age, coupled with a kidney and bladder trouble of long standing. With him at the time of his death was his faithful wife, Mrs. Elizabeth Hogard, and his only son, Rev. W. F. Hogard of Columbia, who arrived at his father's bedside as soon as possible after learning of his serious condition. Mr. Hogard was for 32 years an active minister of the gospel, and was a member of the Louisville Conference of the M. E. Church, South, until 12 years ago when he was superannuated. He was born, Jan. 9, 1830, and was therefore in his 83 year. Mr. Hogard was twice married, his first wife who was the mother of his two children, one a daughter who died several years ago, preceded him to the grave 28 years ago. She was Miss Mary Wilson a sister of the late F. N. Wilson familiarly known as "Piney Frank." His second wife who survives him, was Miss Elizabeth Goodrum of Warren county, Ky. He was born on the farm where James Pickens now lives and was a member of the church, "Hillsdale" near by.

The interment took place at 2 o'clock, Sunday afternoon at the new cemetery, after a short funeral service at the new M. E. Church, South, the pastor, Rev. Arthur Mather officiating in a touching and beautiful way.

### Commencement Exercises.

The annual commencement exercises of the Marion High School were held at the Auditorium, Tuesday evening, May 28, at 8:15 o'clock. The following was the programme:

Processional by the Orchestra. Invocation by Rev. Wallace Clift. Solo—"Oh Fair, O Sweet and Holy," by W. L. Vick.

Address—"The School of Life" by Rev. W. D. Farmer, Pastor Trinity Methodist church, Evansville, Ind.

Vocal Solo—"A Perfect Day," Carrie Jacobs-Bond, by M. Y. Fonville.

Presentation of Diplomas by Supt. Jas. U. Snyder. Benediction by Dr. Arthur Mather.

The graduates were: Frances Elizabeth Blue, Ruby Nell Cook, Mira Croft Dixon, Julia Maude Planary, George Coleman Foster, James Homer Moore, Elvah Stewart Pickens, and Katherine Yandell.

Never has a more interesting class matriculated. Composed of six of Marion's sweetest girls, two of her noblest boys the class launches out on life's voyage with bright prospects and many good wishes from everyone, who has known them or has watched their steady and commendable labor to win the coronet in the end. They were all the recipients of many beautiful and costly memorials attesting the high regard and affection in which they are held.

### NOTICE.

The service was most interesting. The sermon was suited to the occasion and was well delivered. The musical part of the program was excellent and much enjoyed by the large congregation.

Fine grade of Whipperwill stock peas at Olive & Walkers.

## Voice Recital Monday Night.

Miss Anna Haynes, one of Stetson University's most popular musical students, will be presented by Prof. J. W. Phillips, of the Stetson College of Music, on next Monday night in a voice recital.

This event is much looked forward to, Miss Haynes' voice being very greatly admired, and is acknowledged to be one of the best sopranos ever heard at Stetson University.

Her voice, a clear, sweet soprano, possesses a deep, rich quality which makes it very attractive and this, coupled with the perfect training and great care she has given it, makes it one of the most beautiful to be heard here.

Miss Haynes will be accompanied by Miss Zoe U. Sinnott, of the Stetson College of Music, and several other Stetson artists will appear on the program, making it a varied and interesting one.

Miss Haynes herself will present the choice selections of her extensive repertoire, and all who attend will be amply repaid, as this will be one of the most beautiful of the year's musical programs.—Deland, Fla., Exchange.

Mrs. Goodwin of Evansville was the guest of Mrs. J. W. Blue last week.

All members of this Camp are requested to be present, and also members of neighboring Camps are cordially invited to attend and assist in the exercises. ROBT. E. WILBORN, Con. Com. F. B. HEATH, Clerk.

## REV. LARUE WRITES

INTERESTINGLY

Of Southern Baptist Convention.

In company with Eld. M. E. Miller and Layman J. B. Hubbard of Marion we attended the great meeting of Southern Baptists in phenomenal Oklahoma City, May 16th to 21st, as Messengers of Ohio River Association.

The city has not yet reached its "majority" but for beauty, wealth and hospitality it is unparalleled. We were there six days without seeing, hearing, or smelling any body drunk. If it has any slums, we did not find them. After having visited many cities of the South, East and West, I can unhesitatingly say, Oklahoma City is the kindest, prettiest and best I have ever been in. The busiest citizen will stop and tell the "greenest" traveler where he is, where he wants to go and how to get there. A concrete city paved within, without and all about, crowded with motors and autos and footman, red-blood channels of strenuous life and activity.

The Convention was pronounced the greatest in its history of fifty-seven years. In contributions, a multi-millionaire, in soul winning, more than thirty thousand, missionaries from various parts of the world were there to tell of the victories and needs of their fields. About thirty Indians were before the convention, trophies of the Gospel and the work of the Home Board and told us of their joy in learning the "Jesus way." An aged chief, White Eagle, spoke to the Convention through an interpreter. They sang, "Take the Name of Jesus with You" in Indian language. They are fine singers. They are an answer to "Do Missions Pay?" that makes the question out of date.

Great things were planned for the future. The Foreign and Home Mission Boards have laid out their work on a basis of more than a million dollars. In memory of the fact that this is the hundredth year of Judson's start as the first Baptist Foreign Missionary, the committee recommended that \$1,250,000 be raised during the next three years for educational work in Foreign fields. Great enthusiasm marked the adoption of this report.

A resolution containing President Taft's action revoking the order of Secretary of Interior forbidding Catholic uniform in government schools was adopted by the Convention. We have many other thing to write about the Convention but ye cannot bear them now. We came away feeling that Baptists are not a feeble folk, yet commissioned to the greatest task ever assigned to man—giving the pure Gospel to a lost world.—R. A. LaRue

## MARION HIGH SCHOOL CLASS PLAY

The Deacon's Second Wife, a Comedy Drama in Three Acts.

The Deacon's Second Wife, a farce comedy in three acts was presented by the senior class of Marion High school at the Opera House, Friday evening May 24th.

The curtain went up at 8 o'clock sharp. There were 3 scenes—Act 1, Sitting Room in Deacon Fitz's farmhouse, Act 11 Deacon Fitz's dooryard, Act 111 Sitting room rearranged. The characters were:

Malvina Fitz, Miss Frances Blue, the Deacon's "first wife," Deacon Barachias Fitz Prof. V. L. Christian, a bigamist in spite of himself,

Milton George Washington Fitz, "Buster" Kemp, a good specimen of Young America.

Nancie Melissa Fitz, Miss Ruby Cook, his sister—a close second. Mrs. Brown, Miss Maude Planary who likes to 'tend to things.

Kate Rollins, Miss Katie Yandell, the Deacon's "second wife."

John D. Bullock, Coleman Foster, a captain of industry.

Mrs. Bullock, Miss Elvah Pickens, his boss,

Dorothy Bullock, Miss Mira Dixon, an up-to-date society girl.

Hartley Bullock, Prof. C. H. Richardson, author of "Why Boys Leave the Farm."

Larnest Rench, George Orme, about everything there is.

Phillip Gamboge, Herbert Rodgers, professional painter and amateur speculator.

The music was furnished by school orchestra and was excellent. They were assisted by Mr. Marion Fonville of Mexico, Mo., on the cornet. The young people received many compliments and it was the consensus of opinion that the play was a success in every respect. It seems to the editor that the young folks could not better occupy themselves than to put on a play every month. It entertains and delights the people to see home talent on the stage.

## Attending the State Convention.

C. S. Nunn and wife, J. W. Wilson, T. H. Cochran, G. W. Lawson, E. J. Hayward and son, L. H. James, J. H. Orme, J. I. Clement and C. E. Doss left Tuesday at noon for Louisville to attend the Democratic State convention which will instruct the delegates to the Democratic National convention which meets in Baltimore, June 25th.

## To the Readers of the Press.

The meeting to be held the 8th and 9th of June at Oakland, M. E. Church. There will be preaching Saturday 8th, at 11 o'clock and two worsted quilts to be sold to the highest bidder.

On Sunday 9th, there will be all day meeting and basket dinner. Every one is invited to come and bring some one with him. The quilts are to be sold, on Saturday and will have on them the names of the ladies married and single and the proceeds will go for repairs. Mrs. Ida Nation, in charge, will keep and give an account of the names.

Come one and all and let us spend this June meeting together and give God the glory.

Your brother in Christ, Rev. W. T. Nation,

Manager of Church.

## THE FAMOUS FORD AUTOMOBILES

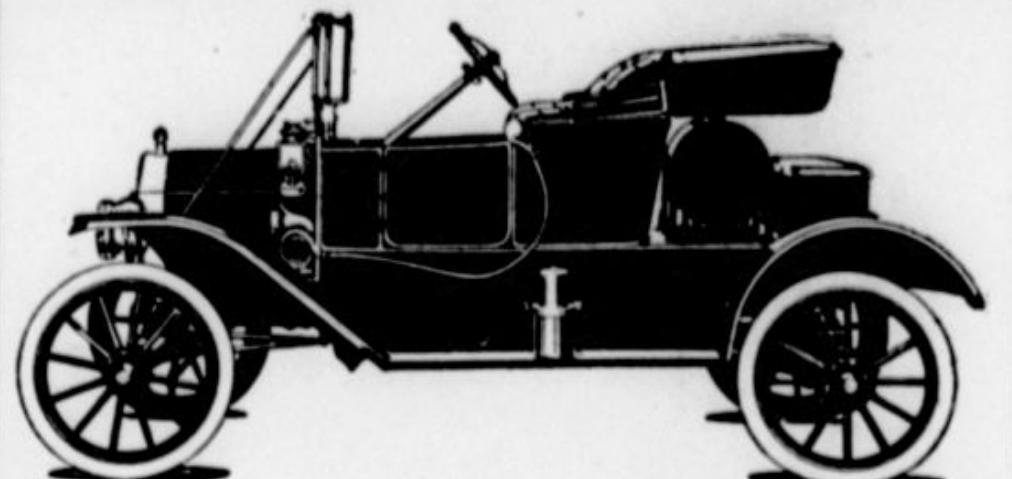

**\$690 - TOURING - \$690**

Yes--you buy something more than a marvelous automobile when you buy the Ford. No matter where you are--nearby you'll find a Ford service station. There's something better than a guarantee back of the Ford--and we'll sell seventy-five thousand of them this year.

**\$590 - RUNABOUT - \$590**

John Ruskin says that beauty is "that which is adequate"--that which completely fulfill its purpose. Measured by this standard the Ford is the beautiful car in all the world--another reason why we are forced to make seventy-five thousand of them this year.

**\$590 - PHYSICIANS - \$590**

A tireless car--almost. Prisoners "here" find freedom in the Ford. It's the always-at-your-service car--and a real tire trouble emancipator--for it puts more tire surface on the ground per pound of car than any other. And we're seventy-five thousand this year.

### ROAD BUILDING IN ALLEN COUNTY

The question of good roads comes so close home to the people that all information on the subject makes indeed interesting reading matter. In Allen county much has been accomplished along this line. In commenting on the work done there the Courier-Journal says:

"So many counties in Kentucky are wrestling with the good roads proposition in so many different ways that information as to any successful plan of operation in any especial locality should be of general importance and interest. 'A county which has made great improvement in its roads in the past few years is Allen located on the Tennessee state line in Southwestern Kentucky. A short history of the inception and progress of the work in Allen county's roads is given in a letter by Mr. Emory G. Dent, of Scottsville, published in the Leitchfield Gazette in response to requests for information. The letter is, in part, as follows:

"In either 1907 or 1908 Mr. Joe Meredith, a farmer living at Holland, about ten miles east of here, wrote the Commissioner of Agriculture asking something about the cost per mile of building pikes. In answer to that Mr. Rankin sent Mr. C. M. Hanna, of Shelbyville, and Mr. C. C. Crabbe, of Eminence, here to make an estimate. They came and announced the purpose of their coming and we called the Commercial Club together and carried them over the roads and had the County Judge to call the Fiscal Court together. They estimated that the roads here could be built for \$1-

000 per mile and we induced the court to make an appropriation of \$500 on each of the nine roads leading out of town, provided the citizens would raise a like sum. Our Commercial Club then agreed to give \$100 of each of these five so that the farmers only had \$400 to raise. That year the Bowling Green road, the Brown's ford road, the Gallatin road and the Holland road took advantage of the offer and the court employed Mr. Crabbe at a salary of \$100 per month to superintend the work on all the roads.

"Neither road was successful in building quite a mile, but they all went through the winter in such good shape and proved such a luxury that it was easier to get subscriptions the next year, people contributing who would not touch it at first. The court has continued that every year since.

"We have now twenty-five miles of finished road. The first year several of our home men, working under Mr. Crabbe, developed talent for the work and before he left in the fall he told us which of the men were competent to go ahead with the work, and since the first year we have hired nobody outside of the county.

"I will add right here that we have no regular road tax, the court levies more than is needed for county purposes and spends it on the roads. We first used some crushed rock, but found it too expensive, although we own a new crusher, and since then we have used gravel. The big expense seems to be getting the rock ready for the crusher. The cost of building a mile depends entirely on how far it is necessary to haul the gravel.

"Two wagon loads of gravel holding a yard each dropped side by side and raked together, being careful to rake the large pieces under all the time, will make nine lineal feet of road twelve feet wide and that is sufficient. This way it takes 1200 loads of gravel to the mile. If you can find out what you can get the gravel put on at per yard you can soon figure it.

"Part of the road I built last year, we could only make three leads a day from the gravel bar and on another stretch we na-

teened. The road that we made three and four loads a day cost us \$920 to gravel a mile, after it had been graded and prepared for the gravel. The grading ought to cost from fifty to two hundred dollars a mile, according to the condition of the road. If you can find a gravel bar close to the road you can gravel a mile for three hundred dollars or less.

"Our farmers seldom subscribe cash, but so many days hauling. I am surprised that Grayson county is not building roads right along. If we were rid of our railroad debt, which is \$100,000, we would finish ours immediately. Five or ten thousand dollars a year from the court, and a road superintendent that has the confidence of the people to solicit hauling from the people, can pike any county.

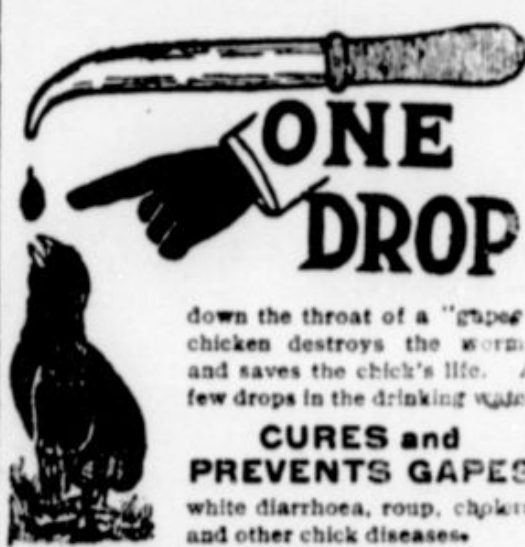

"The Mr. Meredith whom I mentioned in the first of my letter has long since brought the road to his house, a distance of ten miles, and any other man with the same amount of pluck can do just what he has done. He told me that he made up his mind to build a road to his farm or sell it and move to a road.

"We built more than ten miles of Lincoln road last year and we will finish it this year by subscription. We have twenty miles of it in this county. I often spend days walking up the creek and branches looking for gravel beds and often find in some places where the creek has in time changed its bed, I can by plowing and digging, get sufficient gravel to build a mile or two of road, where no gravel was thought to be; in fact we get more gravel from places like that than out of the bed of the creek."

"This interesting recital of the results that have been achieved in Allen county prove very clearly that it is possible for any county by similar methods to make material progress in the construction of permanent roads. The people of Allen are burdened with a railroad debt and do not deem it advisable to increase their bonded obligations, but they are improving their highways nevertheless. The farmers of the county want good roads and are willing to help build them, and where that sort of a sentiment exists im-

provement is sure to follow.

"There are other counties in Kentucky which are working on the same plan and are gradually lifting themselves out of the ruts. A few are preparing to issue bonds in order that the work may be done more quickly and effectively, while a great many are doing absolutely nothing in the way of betterment. The experience of Allen and other progressive counties show that something can be done anywhere that any energetic man or set of men will 'start the ball rolling.' There is small excuse for any county remaining supinely in the mud and bemoaning its condition, and counties that are so doing should be ashamed of themselves when they see what is being accomplished elsewhere."

Commanded a brigade at first Bull Run. Had three horses shot under him and was severely wounded at Shiloh, but was thanked by Grant for having saved the day. Assisted in the campaign at Vicksburg and in Grant's other operations in the west. When Grant was placed in command of all the armies he put Sherman at the head of the Army of the Mississippi. Pushed on to Atlanta in several hard fought battles and then made his famous march to the sea. He then swung northward through the Carolinas and compelled the surrender of Johnston. Was made general of the army when Grant became president.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

In the matter of daily output and shipment, a startling fact was accomplished last week by the Ford factory in the shipping of 693 cars in 540 minutes. One hundred and seven freight cars were required for this shipment, one day's output. This record was demonstration of Mr. Ford's theory that in raising the wages of his employees 15 per cent and reducing the working day by one hour, he would correspondingly increase the efficiency of the workers. His employees have responded nobly to Mr. Ford's voluntary generosity, and the scientific efficiency thus inspired more than offset the increase in the pay roll. — Courier Journal.

First American Oil Found in  
Kentucky on Cumberland River.

Dirigo, Ky., May 27.—The first oil well in the world was drilled in Cumberland county, in 1826, by the American Oil Well Co. The crude oil from this well was bottled up and sold by the bottle under the name of American Oil. The editor of the Burkesville Banner recently advertised

for one of these bottles and has been able to find two of them. These bottles hold something less than a pint and the words "American Oil," is blown into the glass on one side of the bottles and "Burkesville, Kentucky," on the other.

## NEW STEAMBOAT

Will Pass Our Borders.

Within the next few days the steel hull of Capt. Lowery's new boat will arrive at Evansville from Toledo, O., where it has been modeled. It will be shipped in sections requiring four cars for its transportation. Ten men will accompany it from Toledo and place it together at Evansville. The new boat will ply in the Paducah-Evansville trade in place of the burned steamer Lowery. She is expected to be ready for service early in the fall and being light draught and steel hull she will be able to run when the river is very low and until the river is closed by ice, making her practically an all year round boat. — Paducah Sun.

The Coffee Trust.

New York, May 29.—The Federal Government attacked the so-called coffee trust—the Brazilian Valorization scheme—as being in violation of the Sherman law. The first move in the proceedings was the service of a subpoena upon Herman Sielken, the American member of the Valorization Committee, commanding him to appear in court to answer the government's charges.

There never was a time when people appreciated the real merits of Chamberlain's Cough Remedy more than now. This is shown by the increase in sales and voluntary testimonials from persons who have been cured by it. If you or your children are troubled with a cough or cold give it a trial and become acquainted with its good qualities. For sale by J. H. Orme. m

## AMEN

Rev. Madison C. Peters on The  
Richeson Case.

New York, May 28.—"The solemnity and mock religious atmosphere that apparently surrounded the electrocution of Clarence V. T. Richeson surely horrified the most hardened, and if the Rev. Herbert S. Johnson asked Richeson: "Are you ready to die for Jesus sake?" it was the worst travesty on the church and religion that I ever heard," today declared Rev. Madison C. Peters, pastor of the Pilgrim Congregational church. "Just such maudlin and sacreligious things disgust sensible people with the church and make them despise religion. "Richeson did not die for Jesus sake. That is mockery. He did not even die for the sake of Avis Linnell. He died to satisfy the demands of justice because the state of Massachusetts declared that he had to."

## LUZON

Spanish Vessel Enters St. Louis  
Port.

St. Louis, May 29.—Three salutes from a four-inch gun pierced the shrieking of many whistles and the clanging of bells, as the two-ton anchor of the Isla de Luzon, a protected Spanish cruiser sunk by Admiral George Dewey in Manila Bay, and which was raised, rebuilt and recently ordered to St. Louis, slid into the Mississippi river on the east side of the channel, just below Eads bridge, at 3:45 o'clock yesterday afternoon.

The Luzon is nearly 140 feet long. She is constructed on the lines of a gunboat and armed with four 4-inch guns, four 6-pound guns and two 1-pound guns. She is steered and propelled by steam and well fitted.

## Pet Dogs against

## Steerage Passengers.

According to a statement in a New York paper, 15 out of 30 valuable blooded dogs belonged to first cabin passengers on the Titanic were saved. Maybe some of the folks in the steerage were not so "blooded" as those canines. Yet, in the workings of everlasting justice, it may be a time will come when inquiry will be made as to why first cabin dogs were given place in the boats and steerage passengers were consigned to the deep.

## Harmon And Roosevelt Carry Ohio

Columbus, O., May 24.—Theodore Roosevelt has defeated President Taft by between 30,000 and 35,000 in the presidential primary, and Gov. Harmon, a majority over Gov. Wilson is about 15,000.

According to the late returns received, Roosevelt will have 32 district delegates to Taft's 10.

Harmon has 22 delegates certain and will also have the delegate-at-large.

While the county conventions to select delegates to the state conventions have been held in only a few counties by the Republicans, those who have been held give Roosevelt a big lead and he will undoubtedly have six delegates at large, though the Taft people will fight this vigorously.

Taft won in Cincinnati, as did Harmon.

The vote was lighter than expected in rural districts owing to the busy season for farmers.

La Follette failed to get a delegate.

#### Bonds For Marion School.

Very soon the voters of Marion will decide the question as to whether they will be raised above their already high standard as school town or be lowered considerably and lose several teachers. The citizens are asked to vote the small sum of \$3,000 that the nice building may be improved, the auditorium enlarged and furnished with proper seats, etc. And surely these good wide-awake people of Marion will do this. God forbid that they should fail, as every dollar means the continued advancement of every dollar's worth of property in the city and the man that casts his vote against the issuance of the bonds

which means lowering the standard the school has held for years, will be voting for the depreciation of his property, for property will be in most and best demand in live church and school towns. --Uniontown Telegram.

Elsewhere in these columns we publish an article from the Bowling Green Times-Journal on "road building in Allen Co.," which we think is worth reading and worthy of the attention of our fiscal court and county officials. Anyone, who has traveled in Allen county, particularly in the days when timber and lumber camps, those annihilators of roads, were in most all parts of the county, and all of the products of the woodman's axe, the hewer's adze, and of the saw mills as well, were trying to reach the railroad at the nearest point, will read with pleasurable surprise of the progress that has been made in the past twelve years.

#### School Bonds Voted.

By a vote which was 6 to 1, the Marion Common School district voted to allow the trustees to sell \$3,000 worth of bonds for the repair and general overhauling of the building. This will be done during vacation so that when the fall terms opens, things will be in fine shape around the premises.

Dewmaine, Ill., has a colored doctor, who is president of the board of health. Recently he issued a "clean up" notice which was unique and has been published in several papers, in the vicinity, whose editors regarded it as a literary gem from a health standpoint and to show his appreciation of it the Supt., of the Madison Coal Co., which corporation is largely interested in the town offered a prize of \$5.00 in gold to the party keeping his yard and premises in the nicest condition, and a second prize of \$2.50 and a third prize of \$1.00. The awards are to be made in October on decision of the judges selected among the miners themselves. This idea seems to us a good one worthy of emulation and we think that town is to be congratulated on having a colored citizen so progressive. Below we publish his proclamation.

"This is the time to clean up. Get in line with the thought, for it is a good one. Talk to your neighbors and get them in line too. Now, like all good ideas, this clean-up idea must be enthusiastically and energetically carried out in order that the best results may be obtained and the largest amount of benefits derived. Dirt and filth accumulate all the time and if neglected soon become ugly, unsightly and dangerous. It pays to have clean, attractive surroundings; it pays in comfort and satisfaction, in pride, joy and self respect. Get after the hog pens, chicken houses, stables and toilets. Use lime freely around them to kill the flies and germs. Use kerosene oil in the cesspools and places where mosquitoes breed, to kill them off. Screen the doors and windows of the dwelling houses to keep out the flies for they carry disease germs on their tiny little feet from the toilet, stables and hog pens and deposit them on your food and baby's face, for you and baby, poor little baby may then have to wrestle with typhoid fever, malaria, consumption and a host of other diseases all because we will not clean up. Now here, say lets clean up for baby's sake, what say you? And when we do, let us use all our influence to keep things clean. Hog pens in the city must be moved for baby's sake. You who have hog pens in the city, if you have no babies, move them for the sake of your neighbor's baby and those who have hog pens and babies will move the hog pens rather than run the risk of moving that sweet, little baby out behind the powder house. Burn all old rags, paper and such. Tin cans and other trash put in a pile to be hauled away. Then let us clean up, clean out and keep clean our bodies, homes and back yards

'Paper cans were made for papers' Neighbor mine, Let's not this fact escape us

Neighbor mine, And if you will lend a hand Soon "Dewmaine," dear, shall stand As the cleanest town in the land, Neighbor mine. A. W. Springs, M. D., Pres. Board of Health.

Supt. G. U. Dollar will leave soon for Chicago to select machinery for the enlargement of the Marion Electric Light and Ice Co. The plans of the Company comprehend the purchase of two 250 horse power boilers. One direct connected, non-detaching Corliss engine. One generator 150 Kilo Watt, 60 pole 3 phase, operating at 120 revolutions per minute. This equipment will double the capacity of the present plant and will enable the Company to furnish power to any establishment wishing to operate its machinery by motor and will be large enough to supply Marion for many years at the steady and even growth which she city has enjoyed for the past ten years. It will also necessitate an increase in the capital stock from ten, to twenty thousand dollars.

## PAPER BAG COOKING

Great System Perfected by M. Soyer, Famous London Chef.

FOR THE SCHOOL BOX FROM HOME.

By Martha McCulloch Williams.  
Are you numbered among the many mothers of this great nation who have boys and girls away at school or college? Then you know what a great delight it gives the children to receive from "Mother" a box of home-cooked things to eat, from solid meats, like turkey and chicken, to the frothiest of sweets.

Right here, good mother, you will find the paper bag a very present help. A plump chicken, a small fine turkey, bag-roasted and well drained and popped inside another bag, lightly greased, packs well, can be eaten without a quail, and makes a mighty fine cornerstone for the upbuilding of a proper box.

The box from home is the cornerstone of the season's supreme school or college "spread." Wherefore, make it one to honor alike your child and your housewifery. Besides the turkey or the chicken, or the brace of ducks, or the nest of smaller birds safe in their own gravy, put in cakes, pies, tarts, tartlets, sundry small and plump meat turnovers, indeed, the very choicest things amongst all those heretofore set forth as suitable for paper bag cooking. Make, too, in quantity pricked biscuits—they will be good much longer than the average college boy or girl can keep them.

Here are a few candy suggestions worth consideration even by a "woman" freshman or sophomore.

Fondant, which is the basis of many candies, is variously made; this is as good a way as any I have found: To each cup of sugar allow a drop of acetic acid and one-third cup of cold water. Cook in a very clean brass or enamel kettle, stirring constantly until it begins to boil. Wipe off any dry sugar from the sides of the kettle, add the acid, cover the kettle and cook without further stirring at gentle heat until the syrup, dropped in cold water, forms a soft ball. Pour out then in a flat dish, wet with very cold water. When cool, not cold, work with a paddle back and forth until white and creamy, then put in something deep, cover with a clean damp cloth, and set away to ripen. This formula is adapted from observation in a famous candy factory, where huge tubs of fondant stood month after month until the trained sense of the heads said it was just right for use. When ready to use, cut out a good lump, put in an earthen vessel and liquefy over boiling water. Then flavor and color to taste, and either dip into it blanching nuts, dates, figs or crystallized fruit or small rounds of hard fondant. After the first dipping, set them upon a wire rack over a bowl to drain and harden. Dip a second time if you want the candies very superior. If there is not time for this, roll while still soft in powdered sugar and set on waxed paper to dry and harden.

Fondant thus liquid, colored pink, green or yellow, flavored with mint and dropped from a spoon-tip upon waxed paper, makes delectable mint cream. Any other flavor can be used instead of mint. With orange or lemon flavor, after dropping the creams, sprinkle while still soft with finely ground nuts, or stick a tiny bit of coconut in the center. Coconut cut to shape and cream nuts, shelled whole, make fine candies if they are first covered with stiff fondant and then dipped in the melted stuff, which has been made rich with chocolate. Here, as elsewhere, put in a very little brandy with the chocolate, as a means of accenting its flavor.

Fruit squares are good. To make them, take equal quantities of seeded raisins, well chopped dates cut small, figs steamed and cut up fine, shredded citron, shredded candied peel, shredded fresh coconut and shredded blanched almonds. Stir all well together and spread without packing evenly over a well buttered flat dish. Pour upon the mixture boiling hot a taffy made by boiling until it crackles in the teeth, two cups sugar, with one-half cup vinegar and water mixed and one tablespoonful of butter. Let stand till the surface hardens slightly, then with a well-greased knife mark in squares. Break apart when cold and wrap in waxed paper. Pack the wrapped squares inside a paper bag.

Lastly, be sure that almost the biggest cake bagged for the box is a Lady McMillan, which to my mind quite discounts Lady Baltimore. Take for it three and a half cups sifted flour, two cups sifted sugar, one cup blackberry jam, one cup sweet milk, two-thirds cup creamed butter, five whole eggs or yolks of twelve, two teaspoons baking powder, one teaspoon cinnamon, one teaspoon mixed cloves and allspice. Cream butter with part of sugar, add yolks beaten light with rest of sugar, sift flour with baking powder and add alternately with milk and stiff beaten whites. Add spices mixed in half cordial, then jam. Bake in layers put together with icing filled with seeded raisins and chopped English walnuts. Use plain icing on top and sides. Or bake in a large sheet inside a bag, cut square and put together as directed. The essential thing is to fill a big bag with it, so that the spread it graces shall be a huge success.

CATTLE BRING \$9.15 PER HUNDRED WEIGHT

St. Louis, Mo., May 22.—The highest price ever paid for cattle at the St. Louis National stockyards was given yesterday for two cars of Missouri steers. One car came from Saline county, weighed an average of 1,770 lbs. and brought \$9.15 per hundred weight. The same price was paid for a car of prime steers from St. Louis county, averaging 1,500 pounds.

Corn is 30 cents higher than it was a year ago, and cattle sold here at \$6.20 a hundred, the top of the May market in 1911.

## An Absent-Minded Professor.

A very absent-minded professor was busily engaged in solving a scientific problem when the nurse hastily opened the library door and announced a great family event.

"The little stranger has arrived, Professor."

"Eh?" said the professor.

"It is a little boy," said the nurse.

"Little boy, little boy," mused the professor. "Well, ask him what he wants."—June Woman's Home Companion.

## The Other Way.

The grade teacher had just finished a warm plea for kindness to dumb animals in general, and to cats in particular.

"Now, children," she asked, "what can we do to prevent the poor cats from getting their heads stuck in tin cans?"

An earnest-faced youngster who looked as though he might have a solution ready, was waving his hand.

"All right, Jimmy, let's hear it."

## THE PROGRESS OF THE CROSS.

Wonderful and Entirely Probable of Accomplishment If Undertaken.

If a report of a standing committee is adopted by the Presbyterian general assembly, now meeting in Louisville, that denunciation will buy up all the heathen temples in China and turn them into church-houses consecrated to the use of Christianity. According to the report of the committee, these temples may be purchased for a song. The revolution has turned the attention of the Chinese people to the United States where Dr. Sun Yat Sen absorbed most of his progressive ideas, and the Chinese are said to reason that if secular America encourages education and advancement like Dr. Sun has begun in China, her religion is capable of infinitely greater things.

So it is. A parallel to the case is not found in history. Here is a people deserting the oldest philosophical religion extant for comparatively modern ideas. They are not doing this under the inspiration of a religious revival, but under the inspiration of a revival in civilization. They are giving up the ideal gentleman handed down by Confucius for the ideal man handed down by Jesus Christ.

Sooner or later the whole world will come to admit that the commoner's religion is Christianity. The historic Buddhist, the Confucian, the Stoic and the Hindu, all believers in a highly developed philosophical religion,

with an intricate path from this life to whatever is to follow, are giving way before militant Christianity. The simplicity of "Come unto Me, all ye who labor and are heavy laden, and I will give thee rest," bewilders those who tax their minds with, "Up from Saturn through the seven gates I rise," or with the highly entertaining account of an Indian who sat under a tree and answered questions until he had evolved a theology.

It appears that now is the time for Christians to invade China, if ever one time is more propitious than another. With heathen temples converted into Presbyterian missions—or Baptist or Methodist or any other denomination—the Giant of the East will awake. Even in our day and time we may see the prophetic, worldwide conquest accomplished.

## J. B. Morse Enthusiastic over Kansas.

Atwood, Kansas, May, 21—Mr. S. M. Jenkins:

I send you P. O. money order for another year's subscription for the Crittenden Record Press (on renewal). We get all the neighborhood news and news from half dozen States, where we have relations and friends, so you can imagine how we enjoy the grand old Press.

It was the Press that put me in communication with some of my old friends back in Kentucky and in other states, so keep it coming another year.

The wheat crop is reported good in my State but it has been quite cool all spring but it is warming up now and vegetation is growing nicely.

People farm on a much larger scale here than in Kentucky. Quite a number of farmers out here make as high as ten thousand and bushels of wheat per annum and we can use all kinds of machinery and do all of our work riding. It is much easier to farm in this country than it is in old Kentucky. We have two-row listers and one man and six horses will break up lay off drop and cover twenty acres per day. Now, how long will it take a farmer in Kentucky to do that? Then we have two-row implements for cultivating corn. Now you can have an idea of how we farm. We head our wheat and with our machine, and teams and men to handle it, will cut and stack 40 acres per day.

As to churches and schools we are up to date, and fine 60 foot roads for automobiles, and there are plenty of them here—our R F D mail carrier rides a motor cycle. But you must remember that this is a fast age.

Wishing you a long and prosperous life, I am, yours truly,  
J. B. Morse,

## Pale Faces

Pale-faced, weak, and shaky women—who suffer every day with womanly weakness—need the help of a gentle tonic, with a building action on the womanly system. If you are weak—you need Cardui, the woman's tonic, because Cardui will act directly on the cause of your trouble. Cardui has a record of more than 50 years of success. It must be good.

Take CARDUI

## The Woman's Tonic

Mrs. Effie Graham, of Willard, Ky., says: "I was so weak I could hardly go. I suffered, nearly every month, for 3 years. When I began to take Cardui, my back hurt awfully. I only weighed 99 pounds. Not long after, I weighed 115. Now, I do all my work, and am in good health." Begin taking Cardui, today.

## Hanna's Green Seal "The Made-to-Wear Paint"

If you expect to do any painting, you are interested—you should be—in the quality of the paint to be used.

In any given job of painting, labor represents practically two-thirds, material one-third the cost.

It stands to reason that with so much expense in labor, the enduring quality of the paint is all important.

Why have the painting done unless the protection and durability of the job is sought?

How is one to determine the true value and obtain paint that may be depended upon for durability?

HANNA'S GREEN SEAL PAINT IS NOT A SECRET. This paint has the printed formula on every package.

The makers have confidence and take pride in the quality and tell the public the composition of the paint.

IS THIS OF ANY VALUE TO YOU? IT OUGHT TO BE.

## THE END OF TUBERCULOSIS

Hospitals For Advanced Cases.

By DR. WILLIAM H. WELCH.

It is not so easy to say exactly what has been responsible for this progressive diminution in the amount of tuberculosis, but Koch in Germany and Arthur Newsholme, the best vital statistician in English speaking countries, came to the conclusion that the factor that has done the most is what is called institutional segregation. That means the isolation of patients with tuberculosis, so far as is possible, in institutions. That should be emphasized today as the central feature of the campaign against tuberculosis, and the great need in this country is a supply of suitable hospitals for these cases of advanced tuberculosis.

## COW PUNCHER LASSES AND KILLS WHALE

New York, May 30.—A whale 20 feet long and weighing about two tons was lassoed off Rockaway Beach, Long Island, yesterday by John Ehrhart, a young man who was visiting the life savers.

The monster was sighted early in the day, evidently trying to free itself from a depression in the sand, having crossed a small bar in pursuit of a school of fish. Ehrhart, who said he had punched cattle in the west, improvised a lariat of coarse rope and with a neat cast dropped the noose over the mammal's thrashing tail.

Notwithstanding the monster's struggles the rope held him captive after it had been firmly tied to a driven pile. As the tide ebbed the whale gasped its life away and all afternoon in lay an object of great curiosity to beach strollers.

Boys Pick Messages Out of Air.

Wireless telegraphy plays an important part in the lives of W. Hollis Berry and Harvey E. Evans, two youths living at 340 North Normal Parkway. Almost every evening and on Sundays the boys gather in Berry's little room and listen eagerly to messages picked out of the air, which have been flashed, in some instances for a distance of over 2,000 miles.

The two boys, who are still in their teens, installed the wireless apparatus several months ago. The code signal for their station is B. C. The longest distance from which their instruments have picked up messages is about 2,400 miles. They are not able to send much farther than the city limits, however, because the power carried by their batteries is insufficient.—Chicago News.

LOST—Fine Span of Mules.

Mr. Robt. Brown had the misfortune of losing a splendid pair of mules in an unusual way. It seems that Mr. Brown was hauling timber in Crittenden County and while ferrying his team across Tradewater, the mules became frightened and backing off the boat were drowned immediately. The wagon, containing about fifteen bushels of corn and other things was recovered. Mr. Brown had only a few days before refused \$300 for the mules and valued them at not less than \$350. The mules were in charge of Toke Barber at the time.—Sturgis News Democrat.

SUTHERLAND'S EAGLE EYE SALVE. Good for Nothing but the Eyes

IN MEMORIAM.

Mrs. Randa Lee Truitt wife of Claud M. Truitt, died at her home May 9, 1912. A husband, five sisters, and three brothers, survive her. They are, Mrs. Gus Quiry, Blackford, Mrs. Tom Cox, Mrs. Field Crowell, Mrs. Wm Heath, and Miss Gusta Rich; her three brothers, Jas. Ed, Kim and Green. She was a daughter of Mr. Berry Rich who died seventeen years ago. She was born, June 28, 1886, and was married to Claud M. Truitt Feb. 10, 1906. To this union were born two children, one of whom died in infancy. The other lived to be one year old then God called it to his home he had prepared for it.

Randa was a good girl and loved by every one who knew her. She professed faith in Christ at an early age and joined the M. E. Church at Mt. Zion some little time ago. She was a faithful member and always gave a helping hand to the promotion of all church interests. She was the home dispelling all sadness with her genial nature and made all feel welcome that entered the sacred precincts. She was a woman of fine judgement and was loyal to her friends. While she might chide them for their faults she would nobly defend them against any attacks which might be made in their absence.

She passed away sweetly and quietly, knowing she was prepared to meet her redeemer. She has but gone to live with Jesus. She has left dear friends and relatives for a little while only to meet them by and by in the beautiful beyond. She has closed her eyes on earthly scenes only to open them with enraptured vision amid the splendors of Paradise. She has dropped her harp and scepter only to wave the palms of victory and sweep celestial harps with deft fingers awakening the blissful, harmonies of heaven. Do not mourn dear husband, and sisters, God has delivered your sweet wife and sister to her father, mother and brother and sweet little children who have gone on before.

Now that dear Randa has gone the writer joins with many other friends in offering consolation to those who are left to mourn her absence. May God comfort the bereaved ones.

A precious one from earth is gone! A voice we loved is still, A place is vacant in our homes, Which never can be filled. God in his wisdom hath recalled The boon his love hath given, And tho' the body moulders here, The soul is safe in heaven. Her friend —Beatryce Bennette.

Misses Ray Turley and Mayme Stone spent last week in Lyon county, returning home Sunday. They report a fine time.

All the good Republicans here are for Taft and all the true blue Democrats are for Champ Clark. As to the candidates for Congress, well just wait and see what we do.

If you are a professed Christian and you are really what you profess to be, you are serving the Lord because you love Him and the good you can do to fallen humanity and not merely miss hell and get to Heaven. If there was no hell, the road to Heaven would not be crowded. If you think you can conceal your meanness and get to the golden shore you will be wonderfully disappointed when you start on the voyage and miss the landing.

Mrs. Fannie Walker will leave soon for Edmund, Oklahoma, to enter the State Normal preparatory to accept a position as teacher in the Oklahoma schools. Mrs. Walker's friends here are quite rebellious about this move.

T. L. Love and wife of Tolu were here Wednesday shopping. They brought up 50 dozen eggs to Asher-Lamb Grocer Co., which proves Mrs. Love to be a thrifty wife. Mrs. Love before her marriage was Miss Gwendolyn Ford and is well known here, where she attended the Marion Graded and High school for several terms.

## Struck by I. C. Train.

Dorris Taylor, a fifteen year old boy who claims Christian Co. as his home and who was a passenger on the I. C. R. K. excursion last Sunday, was struck and seriously hurt by the 11 o'clock passenger train Monday at a cattle gap where the R. R. crosses the Flynn's ferry road just beyond Repton. It seems he left the excursion train at Blackford Sunday night and expected to get work there but was disappointed and started to walk to Marion Monday and had gone to sleep on the track at the place of the accident. The train crew brought him here and he was given attention by Dr. Clement, and is now at the Spees Hotel and is getting along very well. Unless complications arise he will soon be able to return to his home. His father came to see him Tuesday, immediately after hearing of the boy's plight. He received a deep cut on one leg and numerous smaller cuts and bruises and the miracle is that he was not instantly killed.

Mr. and Mr. Hughey Hurley of Mt. Vernon, Ind., are here for a visit to the family of Judge J. T. Aikin. - Princeton Leader.

## Commencement at State.

Elaborate Preparations are being made by the seniors of the State University for their commencement exercises which begin next Sunday, June 2, with the baccalaureate sermon and end Thursday, June 6, with the commencement address. The invitations which have just been issued, are bound in beautiful grey leather and contain the announcement of the forty-fourth annual commencement of State University, a complete program for the week, the class officers and a list of graduates.

The valedictory address will be delivered by N. Gray Rochester, class representative, the son of Judge and Mrs. J. G. Rochester of this city who graduates this year from the College. Mr. Rochester won the Patterson medal for oratory last month, and was also a member of the debating team that defeated Transylvania recently for the State championship. He will take for his subject, "The Elements of World Progress."

The officers for the year who are known here are,  
N. G. Rochester—Class representative.

N. W. Utley, Jr., of Eddyville, Ky.,—Orator.

Miss Addie Dean of, St. Louis Mo.,—Prophet.

Miss Annie Dean of Crider, Ky.,—Poet.
