## WILSON AND MARSHALL NAMED TO LEAD DEMOCRATS TO SURE VICTORY

Wilson Nominated By Acclamation After Forty-Sixth Ballot---Marshall In Same Manner After Second.

### NEW JERSEY MAN RECEIVED 990 VOTES ON LAST BALLOT

For president, Governor Woodrow Wilson, of New Jersey; for vice president, Governor Thomas R. Marshall, of Indiana.

This was the ticket completed at 1:56 o'clock this morning by the national democratic convention. Marshall's nomination came somewhat as a surprise, for when the night's balloting began it seemed that the Bryan-Wilson contingent had definitely decided upon Gov. John E. Burk of North Dakota.

Marshall led easily, however, on the first two ballots and little resistance was offered.

Gov. Wilson's nomination came on the forty-sixth ballot, and like Marshall's, was quickly made unanimous. The best of feeling appeared to prevail, and the delegates tonight departed for their homes singing and happy.

WOODROW WILSON  
BY ACCLAMATION

Baltimore, July 2.—Governor Woodrow Wilson, of New Jersey was made the presidential candidate of the democratic national convention this afternoon, after its six long days of deliberation, when he received 990 votes to 84 for Champ Clark.

The Missouri delegation which had remained faithful to Clark to the end then moved that the nomination be made unanimous. There was a chorus of approval and the long fight was over.

### COULD NOT STEM TIDE

When adjournment was taken last night the convention seemed hopelessly deadlocked but the decision was reached today on the fourth ballot taken. The falling Wilson vote encouraged Clark and he hurried to Baltimore today, hoping to retrieve his fortunes, but when he arrived the Illinois delegation had already decided to make the change. As the Wilson supporters indicated the Illinois switch was the beginning of the end. Meteoric gains for Wilson the withdrawal of Underwood and Clark though the releasing of delegates by representatives of these two men, came fast. The delegates weary by the long sessions of the past week, realized all at once that the climax had come and from then on to adjournment, there was a great and enthusiastic confusion. The only display of temper marking the nominating session came from some of the Missouri delegates when they demanded of Senator Bankhead why Underwood had not withdrawn when Clark appeared to have a chance of nomination and accused the Underwood delegates of "faking."

### Death of Earl Motsenbarger

Earl Motsenbarger, a grandson of Mrs. E. M. Frisbie, died Monday morning at a sanitarium in Evansville, of tuberculosis, and his remains were brought here on the noon train Tuesday and laid to rest in the new cemetery. His mother, Mrs. Nellie Fansler, accompanied the remains.

### Piney District Sunday School Convention.

The Piney District Sunday School Convention was held at Enon School House on Friday, June 28th. There was a large attendance of enthusiastic Sunday School workers and the day was very much enjoyed by every one present. At the usual hour a good, old time country dinner was spread and after every one had gotten a square meal, there was still enough ham, chicken, and other good things left to have fed many more. Besides being an enjoyable day it was very effective toward the betterment of the Sunday Schools of the district.

Mr. G. M. Travis, Dist. Sec. of the S. S. A. called the convention together and after a song the devotional exercises were conducted by Rev. R. M. Franks.

The welcome address was delivered by H. A. Babb.

Rev. Geo. A. Joplin, the general State Sec. of the S. S. A. addressed the convention on the subject "Association Work. How, Why?" He spoke of his general work in connection with the S. S.; of how the S. S. is being organized and carried on; and various persons who are most active in S. S. work.

Messrs Cardwell, Allen, and Todd were appointed on a committee to nominate association officers for next term. They nominated G. M. Travis, Pres. and H. N. Lamb Vice Pres. Both were elected by acclamation.

A very liberal offering was then taken. The morning session closed by a prayer led by Mr. Cardwell and the dinner was then spread.

In the afternoon Rev. Joplin again addressed the convention on the subject, "Importance of Teachers' Training."

The value of good music in Sunday School was discussed by W. J. Hill and Mr. and Mrs. Walker.

Mr. Ed Dean, Dist. Pres. of the S. S. A. then announced that the county S. S. convention would be held at Hillsdale on July 23rd and the convention then adjourned.

### Former Union County Girl Burned To Death.

(Morganfield Post.) Miss Daisy Carter, with three other people, was burned to death in a Louisville hospital fire Thursday night.

Miss Carter is a Union county girl and lived for many years with Dr. Geiger at Grove Center who took her from an orphan's home. She was at the time of her death, a trained nurse working in Louisville. The news of her death was received here yesterday.

### Second Time Refuses Vice Presidency.

Baltimore, July 2.—(Special.)—As at Denver in 1908, Senator-elect Ollie James was offered second place on the Democratic ticket tonight. He was called in by W. J. Bryan and urged to accept the vice presidential nomination but Mr. James refused, saying that just now at least, he preferred to be United States Senator from Kentucky.

### PLANT TREES ON ROADS.

Not Only Good Highways, But Shade Also Is Needed To Beautify.

(Saturday Evening Post.)

We have spoken often for good public roads as the best investment, everything considered, that the country can make, but we are indebted to the Maryland State Grange for the sound suggestion that there are no really good country roads without shade trees along them. The practical economic value of trees along the roadside is beyond dispute. They actually protect the road and lessen the cost of keep. What they add to the money value of abutting farms it would be difficult to estimate, but if, of two farms, otherwise exactly equal in value and offered at the same price, one is fringed by shade trees and the other is bare, there is little doubt which nine buyers out of ten would prefer. In no other way can the attractions of a bit of country road be so much enhanced. Who that drives in the country doesn't feel grateful to the farmer whose trees beautify the scene? Planting shade trees where none exist is not really expensive, and in the long run it pays quite as well, at least, as planting wheat. There are, of course, certain practical problems, such as avoiding too dense a shade upon grain land and selecting the stock; but a treeless road anywhere outside the desert is a reproach to those who live upon it.

### For Young People Especially. Special Public Service.

Every body is invited to attend the installation of the officers of the Young Folks' Christian Endeavor Society and a special Music Program at 7 p. m., Sunday, July 7, 1912, at Main Street Presbyterian Church. Officers will be installed by Rev. Wallace Clift, Miss Elvah Pickens leader.

### Sixty-one Years Young.

Our congenial Mattoon citizen, G. D. Summerville celebrated his sixty-first birthday on last Tuesday, July 2nd, with a birthday dinner, to which he invited a few friends. "Oh, that dinner," When dinner is announced at the Summerville house, all who know the hostess glow with anticipation; and are never disappointed when they reach the table; and that day's dinner sustained her reputation for every thing good to eat and drink.

Those present besides the host, hostess and their two sons, Frank and Percy Moore, were Dr. L. R. and Mrs. Moore and their son Summers, of Cotton Plant, Ark., Mrs. D. M. Summerville, Dr. and Mrs. R. L. Moore and their daughter, Roberta, of Marion and Misses Annie and Rebecca Phillips.

The village, Mattoon, is situated on what was the farm of the late R. L. Moore, Sr., on which farm the hostess and her sister, Mrs. D. M. Summerville and her brothers, Drs. L. B. and R. L. Moore were reared. The two brothers and two sisters are all who are left of the Moore family, and this is the first dinner where all were present in thirty-five years. The day was spent in pleasant reminiscences and wishing the host just 50 more just such birthdays, and that each guest might attend all and enjoy the good dinner incidental thereto.

## ROAD and FARM IMPROVEMENT

### GOOD VENTILATOR IN CELLAR

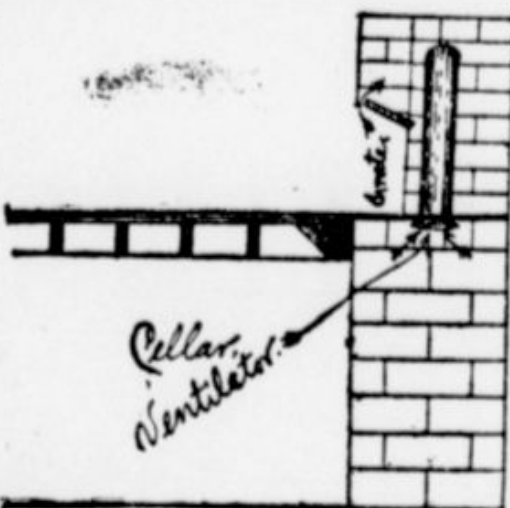

To Insure Good Health Too Much Attention Cannot Be Given to Sanitary Conditions.

Many cases of typhoid and other malignant fevers may be traced to the pile of decaying vegetation or moldy piles of old carpets and rubbish in the cellar.

Let us clean up, take everything out of the cellar that can be moved easily and air it out, whitewash the side walls and ceiling with plenty of carbolic acid in the whitewash.

Put a ventilator in something like the one shown in the accompanying sketch.

The draught in the chimney will be improved by the addition of an open-

ing from the cellar into the chimney about two or three feet above the fireplace or grate.

There is generally a wardrobe or closet at the side of the chimney through which the pipe may run. The pipe should be 8 or 10 inches in diameter, made of galvanized iron and perfectly air tight.

The pipe should fit the openings in the floor and the chimney so as to allow no gases to escape in the closet, and to make the draught stronger.

The drawing shows plainly the position of the pipe in the floor and the chimney.

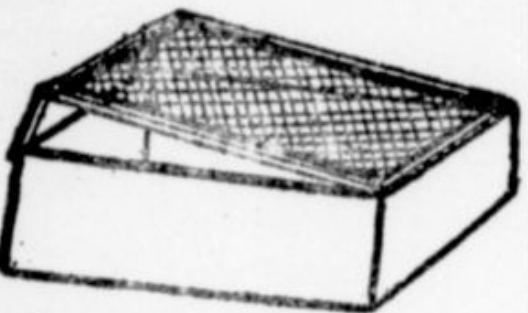

The pipe should be made to correspond with the distance from the floor to a distance two or three feet above the fireplace.

When a heater is located in the basement of the dwelling the ventilator may be run in connection with the heater pipes.

### EASILY MADE POTATO SORTER

Tedious Labor Can Be Relieved by Use of Device Shown in Illustration—Much Time Is Saved.

The tedious labor involved in sorting many bushels of potatoes can be relieved with the device shown in the illustration, and the amount of work

Easily Made Potato Sorter.

done in half or a third of the time possible under the hand method. A frame is built to go over a large box or bin. This, says Orange Judd Farmer, is covered with one-inch mesh chicken wire and set so that it slants upon the box or bin. The potatoes are placed upon this screen, and the small ones pass through the meshes into the box or bin below.

The larger potatoes roll down toward the lowest end of screen. Two men standing on each side of the device can pick out all the damaged potatoes as they roll down over same, thus securing perfectly sorted potatoes with but a fraction of the time, labor and expense required to sort them by handling each one.

If the device is placed on a bin that is several feet from the ground an inclined surface should be placed at the foot of the screen so the tubers will not be bruised by dropping directly to the floor or ground.

### Lightning Kill's Farmer in Christian County.

Hopkinsville, Ky., July 2.—Lightning this afternoon struck a wagon in which S. C. Dillard, 28, a farmer, and Sumner Ellis, a negro and also a farmer were fleeing to shelter from a heavy rainstorm. Mr. Dillard was killed instantly and the negro was knocked insensible and may not recover. They had been working in a wheat field on Mr. Dillard's farm, eight miles west of Hopkinsville. They had just climbed in to the wagon and started for home when the bolt fell, splintering the wagon and setting fire to and destroying a shock of wheat. Mr. Dillard leaves a family.

### Leaps From Biplane 3,000 Feet Above Earth.

Hampstead, N. Y., July 2.—Poising himself on an extra seat of a Wright biplane operated by Harold B. Brown, the Boston aviator, at an altitude of 3,000 feet today, Rodman Law, an aeronaut, carrying two parachutes, leaped off into space. The first parachute opened when he had dropped 30 feet and the second when he was half way to earth. The aeroplane had begun to volplane just as Law jumped. Its stability was not disturbed. Law some time ago leaped with a parachute from the Statue of Liberty in New York.

## PAPER BAG COOKING

Great System Perfected by M. Soyer, Famous London Chef.

### THE BACHELOR'S BLESSING.

By Nicholas Soyer, Chef of Brooks' Club, London.

He came in with a most gloomy expression, and sat down close, too close, to my desk, where I was up to my eyes in "paper bag" correspondence, and in no mood for confidences.

"Whatever is the matter?" I queried, crossly, divided between curiosity and a desire to get on with my work without interruption.

"Baxter has gone," he said, mournfully. Baxter is his housekeeper, and, according to him, one of the greatest treasures that ever fell to the lot of a bachelor. "Only for a day or two," he went on. "But I've got"—and he named a very eminent lawyer indeed—"coming to supper." And he sighed deeply.

"Take him to a restaurant," I replied unfeelingly.

"He won't go to restaurants," said Baxter's master with bitterness. "Says they spoil his digestion, gastric trouble, and all that. He can only eat white foods, and must have a fruit salad at every meal. Talk of fads!"

"Cook the supper yourself," I suggested. "You've got an electric stove, you know."

"Cook it myself! Oh, come, you might show a little feeling and interest when you see me in such a fix."

"Paper-bag it," I went on calmly, holding one up for inspection.

His face lit up. "Do you think I could? I've never cooked since my schoolboy camping days."

"Now, look here," I said severely. "If I give you the paper bags and tell you what to do, will you go away and do it and let me get on with my work?"

He gave me a most unfeeling wink. "You bet! What a lark!" I proceeded to give him the following menu:

Filleted Soles, fines herbes  
Sweetbreads au naturel  
Green Peas  
Roast Fowl Savory Crumbs  
New Potatoes Salad  
Asparagus  
Fruit Salad  
Coffee

I gave him full instructions, and late that night he rang me up on the telephone.

"Was it a success?" I asked, although I knew the answer beforehand.

"A success? I should just think so. The old boy was delighted. Helped himself twice to everything, and asked who my cook was! I'm thinking of giving a little supper party next week. I suppose you could let me have one or two more recipes, eh?"

So for the convenience of bachelors generally, I give the following recipes:

**Filleted Soles Fines Herbes**—Take four or six fillets of sole, dust lightly with salt and white pepper, and sprinkle also lightly with finely minced parsley, chopped mushrooms and a very little minced shallot. Add the finest possible squeeze of strained lemon juice. Put a bit of butter on each fillet and slip them gently into a well greased bag, add quarter of a glass of sherry. Bake in a moderately hot oven for 15 to 18 minutes. Cut open the bag very carefully with a pair of clean scissors, and slip the fish and the sauce which will have formed during the cooking on to a very hot dish. Send to table at once.

**Sweetbreads au Naturel**—Take four sweetbreads; parboil them. Take off the skins. Grease a bag thickly. Dust each sweetbread with salt and pepper very lightly, and pour over each sweetbread a tablespoonful of cream. Slip the sweetbreads into the greased bag, cook in an only moderately hot oven slowly for 40 minutes. Open bag. Slip out gently on to hot dish. Surround with border of green peas and serve.

**Green Peas**—Butter a bag well. Put in the peas, a pint to the four sweetbreads, three or four leaves of mint, a teaspoonful of powdered sugar, and salt to taste, a sprinkling of flour, and a small tumbler of water, or, better still, if to hand, good white veal or chicken stock. Place bag on broiler or gas broiler. Cook gently for 60 minutes.

**Fowl—Savory Crumbs**. Wash the fowl out well inside with plenty of cold water. Dry well, put the liver and a small shallot inside the bird. Have ready a large tablespoonful of white breadcrumbs. Add to them a lump of butter the size of a big walnut, pepper and salt to taste, a teaspoonful of finely minced chives, and a teaspoonful of well washed and minced tarragon. Mix all together and put into the bag with the bird. Cook gently for 25 minutes. Open bag. Slip bird and crumbs out gently on to a hot dish and send to table with new potatoes and salad.

Note that the asparagus, which forms a course by itself, is cooked in the same way as the green peas.

For the salads, the only things not cooked in the bag, wash well and dry a head of lettuce. Tear—do not cut—into pieces of a suitable size. Rub a bowl with a split clove of garlic, put in the salad. Add pepper and salt to taste, and oil and vinegar in the proportion of two tablespoonfuls of oil to one of vinegar. Mix thoroughly, and just before serving add a small orange freed from skin, pith and seeds, and cut into small squares. (Copyright, 1911, by Sturges & Walton Company.)

### Was Night, But Cook Thought Day Had Come.

New York, July 2.—The finer, Kaiserin Auguste Victoria, just in from Hamburg, is the second ship to arrive here since the Titanic disaster to be equipped with a searchlight.

Captain Rosser, of the Auguste Victoria, tried his searchlight for the first time on the voyage by turning it on the Scotland lightship, four or five miles away, and by it he could read her name quite easily.

The glare also woke up the crew of the lightship and caused the cook to turn out to get breakfast, in the belief that it was broad daylight.

### Story With A Moral.

A man who was too economical

to subscribe for a paper sent his little boy to borrow a copy taken by his neighbor. In his haste the boy ran over a \$4.00 stand of bees and in ten minutes looked like a warty summer squash. His father ran to his assistance, and failing to notice a barbed wire fence ran into that, cutting a handfull of flesh from his anatomy and ruining a \$4.00 pair of pants. The cow took advantage of the gap in the fence and got to the cornfield and killed herself eating green corn. Hearing the racket the wife ran out, upset a four-gallon churn full of rich cream into a basket of little chicks, drowning the entire hatch. In her haste she dropped a \$25.00 set of false teeth. The baby, having been left alone, crawled through the spilled milk and into the parlor, ruining a new \$20.00 carpet. During the panic the oldest daughter ran away with the hired man, the dog broke up eleven sitting hens, and the calves got out and chew-

ed the tails off of four fine shirts on the clothes-line.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by J. H. Orme.

## Woman Stops Runaway:

Hits One of the Horses.

Wichita, Kan; June 29.—While milking a cow on the Gaines farm north of here Mrs. S. B. Gaines saw a four-horse team her husband had been driving, heading toward her on the run, dragging the plow and Mr. Gaines. Taking a wooden standard, Mrs. Gaines gained a position of safety, which the horses would have to pass and felled one of the animals with a blow on the head. This brought the runaway to a stop and after learning her husband was not severely injured, the woman telephoned for a veterinarian, who found the horse so badly hurt it had to be killed.

## Lightening Kills Horse.

Dixon Ky, July 2.—Lightening struck twice here during an electrical storm early today, one bolt causing the destruction by fire of one of the largest merchandise stores in the county, and the other killing a horse.

The large two-story building of Townsend Bros. and the stock of goods were destroyed at a loss of over \$15,000. The dwelling house of Suter Townsend, adjoining the store was also destroyed. The second floor of the Townsend building was used as a lodge room and \$1,000 insurance was carried on the furnishings. Townsend Bros. carried \$8,000 insurance.

The horse killed in the field near the store belonged to a man by the name of Lewis.

## Foiled Buglar Shaves Himself.

York, Penn. June 29.—A burglar with a taste for cleanliness and neatness spent most of last night in the office of Smyser & Sneft, coal dealers. He shaved himself, for paper with lather on it was found on the floor. The burglar secured fifty two cent stamps.

Attacking the safe with a chisel and a crowbar he managed to break off the knob and derange the combination, but could not open the safe.

## FOREIGN LOAN.

Aggregating \$300,000,000 Raised  
by Six Powers Rejected by  
China.

Washington, June, 29.—China has rejected the \$300,000,000 loan from the banking group of the six powers, probably because of the stipulation for foreign supervision of the expenditures. The proposal for foreign administration of the salt monopoly also has been declined. Four cabinet officers of the Tong Shao Yi have offered their resignation. These advices were received today by the interstate department.

## 97 PER CENT. PERFECT.

AN UNUSUAL RECORD FOR A  
PILE REMEDY.

When Dr. J. S. Leonhardt, of Lincoln, Neb., located the cause of piles and found a successful inward remedy for piles, he had it put on sale under a strict guaranty of satisfaction. In ten years only 3 per cent. of HEM-ROID users have asked for their money back, and it speaks well for this scientific modern remedy. Get a guaranteed \$1 package from Haynes & Taylor or any druggist, or write to Dr. Leonhardt Co., Station B, Buffalo, N. Y., for free HEM-ROID booklet.

## Huge Hubby Acts as

Maid of all Work.

Chicago, July 2.—Isaac Danielson, 35 years old, weighing 200 pounds, when arraigned before Municipal Judge Caverly today on a disorderly charge, admitted that his occupation was "housework."

"My wife is an expert milliner and can make more money than I, so she goes out to work while I stay at home and attend to the house," he explained.

Mrs. Danielson said she sent her husband out with fifty cents to buy some thread, and that he bought drinks with the money.

"Do you want him sent to jail, or will you take him back?" asked the court.

"I'll take him back because I do not want to do the housework," replied Mrs. Danielson, and the prisoner was discharged.

## PADUCAH BANKER'S TESTIMONY

FOR the benefit of any of my friends and acquaintances who may be afflicted with Kidney or Liver trouble, I state that I have found in Hays' Specific an efficient remedy and, I believe, a permanent cure for myself, for some time I was a sufferer from a disorder of these organs and finally resorted to Hays' Specific. It is with no degree of pride that I permit my name to be used to promote the interest of the manufacture of this remedy, but that it may be of some benefit to my friends.

## Hard on Judge Roach.

The Kentucky Court of Appeals in a recent decision denied the right of a county attorney to employ assistant counsel to assist in the prosecution of litigation in behalf of the county.

The case in which the decision was rendered was from Mercer and involved the right of the county attorney of that county to employ assistance, the case at bar being one in which Judge B. F. Roach had been employed and a fee of \$6,000 had already been paid him. The case is what is known as "the school book case" and the Mercer circuit court was appealed from its decision. Judge Roach will now have to refund the amount paid him.

## FARM TOOLS CHEAPLY MADE

By Little Ingenuity Many Useful and Necessary Implements Can Be Contrived.

(By J. W. GRIFFIN.)

To make a good roller at the cost of \$7 or \$8, take four old mowing machine wheels all of one size. Use the axles of the machines for the roller shafts.

Break off the lugs on the rim of the wheels, then have your blacksmith drill 1/4-inch holes four inches apart. For the drum or roller staves use 2x4-inch scantlings cut to three-foot lengths, bore 1/4-inch holes in these near each end to make the ends even with the edge of the rim of the wheel.

Bolt these onto the wheel, using washers under the heads of the bolts and the nuts against the inside of the rim of the wheel.

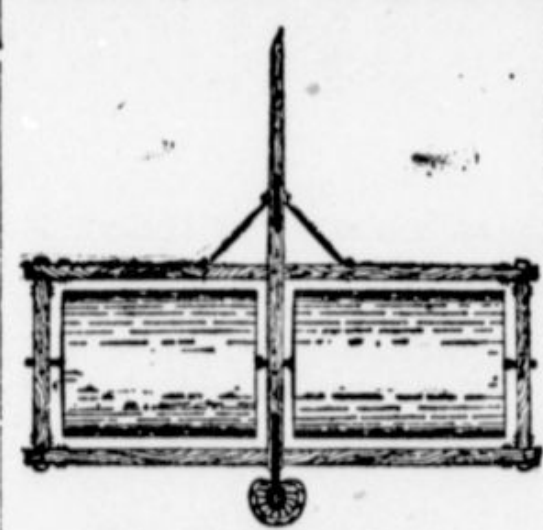

The piece of scantling should be beveled slightly, so as to fit closely against the rim of the wheel. Now we are ready for the frame, which should be of 4x4-inch stuff. Cut two pieces which should be 7 1/2 feet long. Two inches from each end cut a 1x3-inch mortise. In the center of each of these pieces cut a 2x4-inch notch for the tongue to rest in. Cut the end pieces long enough to clear the rollers when the frame is put together.

Cut tenons on each end of these pieces to fit the mortises in front and rear pieces of the frame.

Have the blacksmith make four corner irons with four holes in each 1/4-inch; pin corners securely, then put corner irons on and tighten up the bolts.

If you can find four old machine boxings that will fit the roller shafts, bolt to under sides of frame as shown in cut; if not, make some out of hard wood. The wooden boxings—lay two pieces of 2x4-inch hard wood together, clamp them and bore a hole about 3/32 of an inch larger than the roller shaft. Let the worm of the auger run directly between them, so one-half of the hole will be in each piece.

Putting rollers and frame together—place the shaft in each roller and make fast by means of a set screw in

Good Home-Made Roller.

the hub of each wheel; the shafts should turn in the boxings, not the wheels on the shafts.

Now place the frame over the rollers and adjust to proper position, that is, have the space around the rollers between them and the frame the same distance at all places.

Raise the roller frame slightly and slip in place the upper half of each boxing; let down frame on shaft, put lower half of boxings in place, then bore holes through the frame 2 1/2 inches from the shaft, and bolt all together with 1/4-inch bolts.

## What Horse Power Means.

Very few people realize what a horse power, as expressed in engineering terms, really means. When it is stated that the world's largest Curtis steam turbine, which drives an electric generator in the Waterside Station New York, develops 30,000 horse power, the meaning is vague and almost incomprehensible. Imagine this term reduced to man power and almost every one can grasp its full meaning. If it takes twelve men to equal one horse power then this mammoth turbine engine develops 12 times 80,000 or the working power of 300,000 men. If these men worked in eight hour shifts each day it would require the service 1,800,000 every 24 hours to produce the working energy of this single turbine unit.

## OUR NATIONAL HOLIDAY

It is fitting that the greatest nation on earth should annually celebrate its birthday. With the spirit of realizing that the Ruler of All Nations has seen fit to exalt us above all others, should come a veneration for those early American Heroes by whose strength and patriotism a hope was matured and crystallized into a definite and tangible fact.

With this thankfulness and veneration let us marshal a determination for Unity and Co-operation. Let us remember that the highest duties of American Citizenship demand of us perpetuation of our institutions in their present form, and also an incessantly broadening condition of our responsibilities as a nation, looked up to and patterned after by our less fortunate sister nations.

Let us fulfill our daily destiny by daily improvement to the end, that we may remain worthy of emulation and deserving of continuous prosperity.

Each individual, or coalition of individuals, has a part to perform commensurate with the extent of his or their influence.

We, as individuals, and collectively as a business organization, feel that we have a considerable share of responsibility for the success and prosperity of our many customers who entrust us with their business.

We have a justifiable sense of pride in the fact that by knowing how to organize our business, supervise its operation, and deputize experts in its different branches and departments, we have solved the problem of satisfactory production.

As we celebrate our National Holiday, why not get this spirit of UNION which 136 years ago laid the foundation of the Greatest Nation On Earth? Why not Unite With Yandell-Gugenheim Co., and lay the foundation for economy in buying.

## \$500 For Trees Along Turnpikes.

A resident of Louisville, who still retains a live interest in Shelby county where she was born and reared has submitted a proposition to the officers and directors of the Shelby Fair Association to place \$500 in cash in their hands to encourage the planting of trees along the pikes leading into Shelbyville. The plan is for the fair association to award the money in premiums for the best display of growing shade trees planted along any pike within eight miles of Shelbyville the details of which are to be worked out by the fair board. It is suggested that the premiums be offered this year and the awards made three years hence which will give the trees

an opportunity to make a good showing. — Shelbyville News.

The munificent gift referred to in the Shelbyville News was first announced by the lady at the recent Editors' Convention at Olympian Springs and was received with enthusiasm by her hearers who were cautioned against making public her name.

We regard this as one of the most refined and progressive ideas ever conceived to beautify the public roads and convert them from barren, hot trails to shady and elegant boulevards. Nothing is more refreshing or invigorating on a hot summer day to a weary traveler than the wide, spreading branches of pretty shade trees and nothing would add more charm to a good turnpike than a row of stately trees on each side from one end of the county to the other. Will Crittenden county not encourage the idea and make a start at once?

From Sunday's Courier Journal's Washington Society News we clip the following:

"Mrs. Ollie James was a recent guest at luncheon of Mrs. Martin Littleton at the latter's beautiful Washington home, Calumet Place. Mrs. James and her sister-in-law, Miss Ruby James will return to their home in Marion after the Baltimore convention.

"Miss Ruby James, handsome and commanding in appearance, has proved herself one of the popular girls in Washington during her few months' residence with her brother and sister-in-law. Besides being a licensed lawyer, practicing with her father in Kentucky, she is an expert athlete, being a crack golf and tennis player and tooling an electric runabout with confidence and skill. Miss James has won a number of bridge prizes lately. She is a member of a tennis club here."

In honor of visiting young ladies, Misses Howerton, of Fredonia and Long of Shreveport, La., Miss Gwendolyn Haynes entertained at 500 last Tuesday af-

ternoon, June 25, from 3 to 6.

At 5 o'clock the guests were taken to the dining room which was beautifully decorated with flowers. A delightful lunch consisting of French peas 3 kinds of sandwiches, olives, fruit salad, sherbet and cake were served.

Those who were invited to enjoy Miss Haynes' hospitality were:

Misses Nannie Rochester, Frances Blue, Katherine Yandell, Mary Deboe, Ellis and Frances Gray, Nelle Williams, Esther and Kate Barnett, Nell Clifton, Pearl Kay of Mo., Madeline Jenkins, Mary Coffield, Martha Henry.

Mesdames J. Seth Henry, Ollie Tucker, Wilbur Haynes, G. P. Roberts, W. H. Crawford, and Walter Johnson, Kitty Gray, Elizabeth Johnson, Ruth Croft.

## RESOLUTIONS

Adopted at a Meeting of the Marion Bar, June 29th 1912.

Whereas, for the past week, the honorable McKenzie Moss, of Bowling Green, Ky., has presided as special Judge of the Crittenden Circuit Court, and whereas, during said time he has exhibited, at all times, a spirit of fairness, an attitude of fairness, an attitude of courtesy and kindness toward the members of this bar, litigants witnesses and jurors, and a knowledge of the law, and ability as a judge beyond criticism, therefore,

Be it resolved, that we, as members of the said Marion Bar extend to said Judge McKenzie Moss our thanks for his uniformly courteous treatment of all who had business in his court, and for his just and capable rulings on all of the various propositions brought before him, and express to him our high appreciation of the great service he has rendered the people of our county generally.

Be it further resolved, that a copy of these resolutions be given the Hon. McKenzie Moss, a copy spread on the record book of the Crittenden Circuit Court, and copies furnished the CRITTENDEN RECORD PRESS and Marion News for publication.

## Accidentally Shot.

A shadow of sorrow was cast over the entire community, Friday morning when it was learned that Tommie Phillips was shot. The sad accident occurred about 10:30 and in a few minutes almost all the people of the whole neighborhood had heard it and were offering their assistance and sympathy.

Tommie was taking a piece off an old muzzle loading rifle to put on another gun and had placed the rifle barrel in the forge, having no idea that the gun was loaded, as it had not been used for years. The shot entered the abdomen. Drs. Lowery and Clement were called as soon as possible and they advised that he be taken to Paducah for an operation.

Loving hands carried him on a cot from his home to the river where Mr. Devers was waiting with his gasoline boat to hurry him to the hospital. He was accompanied to Paducah by his wife who was Miss Mabel Davidson, his brother, James, Willie Wolford, Charlie Walker and Dr. Clement.

At this writing, (Monday) his condition is much improved and we are earnestly praying for his recovery.

# THE FAMOUS FORD AUTOMOBILES

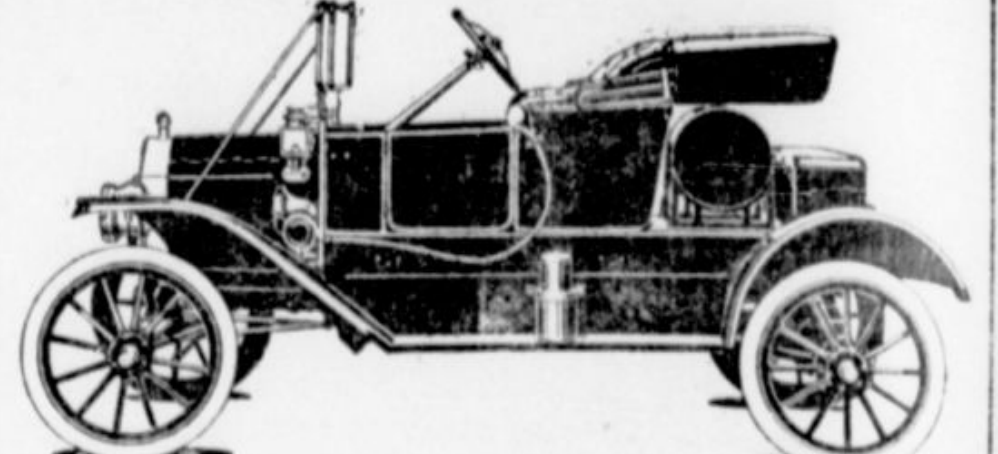

\$690 - TOURING - \$690

"Safety"-spell it the new way and it's "F-o-r-d." Certainty of operation-strength and lightness, made possible by Vanadium steel-simplicity of construction, these make the Ford the safest car in the world. A reason why every third car on the highway this year will be a Ford.

\$590 - RUNABOUT - \$590

All life is a "whiz"--and every third whiz on the road is a Ford. It's the car of the millions and the millionaire--lightest, rightest, most economical. Many thousands of the seventy-five thousand we're building this year are being sold to the owners of more expensive cars.

\$590 - PHYSICIANS - \$590

And this is this stamp of approval of a responsible maker-proud of his good handiwork. The "Winged-Pyramid" is backed by the biggest reliability in all automobiledom-something better than a guarantee-a worthy reputation-and a car that will go seventy-five thousand strong this year.

### THE HALL OF FAME.

DAVID GLASGOW FARRAGUT--Celebrated admiral of civil war days. Born Campbell's Station, Tenn., July 5, 1801; died Portsmouth, N. H., Aug. 14, 1870. Appointed midshipman in United States navy in 1810, served through war of 1812. Promoted lieutenant 1825, commander 1841, captain 1855, rear admiral 1862, vice admiral 1864, admiral 1866. Commanded naval armament together with General Benjamin F. Butler for reduction of New Orleans and captured the city April 25, 1862. Ran the batteries at Vicksburg June 28, up river, and again July 15, down river, returning to New Orleans, Aug. 5, 1864, supported by land force under General Gordon Granger. Farragut fought his way past Confederate forts at entrance to Mobile bay and after a desperate struggle captured the Confederate ironclad Tennessee. This put an end to the blockade running at Mobile.

### The Result at Chicago.

Chicago Inter Ocean: Every patriotic and sober-minded American will rejoice and give thanks today for the outcome of the Republican National Convention.

The greatest danger that has menaced the Republic since Secession died at Appomattox has been averted.

The assault of demented ambi-

tion and insensate idolatry, of chronic discontent and lawless disregard of tradition, upon the Constitution of the United States and the liberties and rights which it safeguards has failed.

Nashville Tennessean and American: Aside from all objections that may be brought against Theodore Roosevelt, with his third termism, of his restless nature, it is clear that his defeat and repudiation at the hands of his party indicates that the Republicans are not yet ready to take the initiative in progressive legislation, that standpatism is still predominant and powerful, and that the Republican party is the, reactionary party of the nation.

Cincinnati Commercial-Tribune: That the decision of the convention was thus arrived at by the expressed voice of about two-thirds of the membership is a fact. There can be no question as to the regularity of the convention as to the decision being made in a convention composed of more than the requisite majority without the seventy-two contested delegates.

Washington Times. It truly was the last stand of the Old Guard, the final rally of the Big Business. They won--but they cannot recover from the awful cost of that one victory. After such a spectacle the nominee and the platform of the convention will carry no appeal to the people and the election next November will nullify all the work of the Chicago gathering.

### INVOCATION OF CARDINAL GIBBONS

At the Opening of the National Democratic Convention at Baltimore.

We pray thee O God of might, wisdom and justice, through whom authority is rightly administered, laws are enacted and judgement decreed, assist with Thy Holy Spirit of counsel and fortitude the president of these United States, that his administration may be conducted in righteousness, and be eminently useful to Thy people over whom he presides, by encouraging due respect for virtue and religion, by a faithful execution of the laws of Justice and mercy and by restraining immorality.

Let the light of Thy divine wisdom direct the deliberations of this convention and shine forth in all its proceedings and enactments, so that they may tend to the preservation of peace and good will and the preservation of concord and harmony.

"May authority be exercised without despotism, and liberty prevail without license. May this convention demonstrate once more to the American people and to the world at large that the citizens of the United States have solved the problem of self-government by exercising and tolerating the broadest and most untrammelled freedom of discussion in their political assemblies, without dethroning

reason and without invading the sacred and inviolable domain of law and of public order.

"May the delegates assembled to select a candidate for chief magistrate be ever mindful that they are the sons of the same heavenly Father that they are the brothers of the same national family, that they are fellow citizens of the same glorious republic, that they are joint heirs of the same heritage of freedom, and may it be their highest ambition to transmit this precious inheritance, unimpaired to their children and their children's children. May the consciousness of this community of interests or of destiny banish from their hearts all bitterness, hatred and ill will, and inspire them

Repton, Mattoon, Gladstone And Blackford, Towns Made by J.B.M.

Leaving Marion Monday morning, we made our first stop at Repton. This is a beautiful little village situated north of Marion on the I. C. railroad. It consists of two genial merchant stores, one church, school house, blacksmith shop and a number of dwelling houses and post office. Mr. Perry is post master; Mr. W. S. Jones is carrying a stock of general merchandise, and when in need of goods, call on him; H. T. Summers, is, or was the village blacksmith, but since we called on him he has lost his shop and mill, of which we reported last week. After spending one day in and around Repton we pleasantly spent the night with J. J. Farley. Tuesday morning we called at Mattoon, Bart Summerville is the general dry goods merchant here and sells goods to all the people round and about. After this "burg," we next made "Nunns" (Gladstone.) This is a railroad town situated in a narrow valley but reached by several county roads therefore it is quite a business point.—Brantley & Arlick are dealers in general merchandise, and when in need of dry goods or groceries, call on them.

R. R. Crowell the people's blacksmith, horse shoeing a specialty. When in need of blacksmith work, call on him. We remained here several hours. Spent a pleasant night with the aged John M. Gilbert; he is one of the old land marks in that section. He is 87 years old and his wife 85. They have been married 60 years. Mr. Gilbert tells of many interesting events of the past.

Wednesday morning we stepped on the north bound train and in five minute were in Blackford. This town is at the junction of the Illinois Central and Dixon branch of the Illinois Central railroad. It is beautifully situated on a level plain stretching out from Tradewater river. This town has a population of about seven or eight hundred inhabitants. Among the business firms, we mention Allen & Chandler, dealers in hardware; J. W. Lence, groceries; Albert Johnson, barber; Blackford Milling Co; Blackford Pank, Goe. H. Nunn, Cashier. Blackford has the usual number of churches, graded school, doctors, preachers, and in fact all that it takes to make a first class town.

There are several fine residences, and from all appearance it is an ideal place to live.

Thanks for all favors in the way of printing work given us. With kindest regards to all, we close this brief report.

If the people would take as much time in going to church as they do in fixing for ice cream suppers to keep the boys and girls away from church, I am sure they would feel better when they have to leave this world. The very idea of church members working for the devil on a credit.

An out line of the June meeting on the 8th and 9th at Oakland church.

Saturday, preaching by G. Y. Wilson, at 11 o'clock; preaching at night by John Shad.

Sunday morning, at 9:30 preaching by W. T. Nation, on the subject of "Holiness," after which dismissed for dinner.

After dinner the meeting was called to order at 2 o'clock.

First, a short talk by Bro. Ellington in regard to selling the quilts; then by Bros. Ellington and John Corn. The quilts were sold at \$4.50 each the amount being \$9.00 for the two. Then a collection was taken up by Bros. E. M. Nation and John Corn, amounting to \$4.79 making in all \$13.79 for the repairing of the church. One of the

quilts was sold to Hickman Jones for his mother, the other one was sold to Mrs. J. W. Ainsworth. Then a short talk on Sunday School was delivered by A. Jones and a short talk by Bro. Nation on the Resurrection, and the meeting closed for the day Monday by Rev. W. T. Nation.

## Does Silage Affect the Flavor?

Have you noticed anything different in the flavor of the milk since you began feeding silage? If there is any change at all the flavor will be a little more pleasant, says O. E. Reed, head of the dairy department at the Kansas State Agricultural college. But if the silage is allowed to ferment too long and then fed, the milk will have a taint much like that noticed when weeds are eaten in the summer.

### Women!

If weak, you need Cardui, the woman's tonic. Cardui is made from gentle herbs, acts in a natural manner, and has no bad results, as some of the strong drugs sometimes used. As a medicine—a tonic—for weak, tired, worn-out women, Cardui has been a popular success for over 50 years.

## Take CARDUI

## FACT AND FICTION

Experiences of Marion Citizens Are Easily Proven to be Facts

The most superficial investigation will prove that the following statement from a resident of Marion is true. Read it and compare evidence from Marion people with testimony of strangers living so far away you cannot investigate the facts of the case. Many more citizens, of Marion, will endorse Doan's Kidney Pills.

Mrs. Emma Weldon, Salem St., Marion, Ky., says: "Kidney trouble annoyed me for five years and greatly affected my health. My back was lame and pained me most of the time. I had headaches and often could hardly see. None of the remedies I tried gave me any benefit until I procured Doan's Kidney Pills at Haynes & Taylor's Drug Store. The effect of this remedy was marvelous, as in two months I was free from kidney trouble. My only regret is that I did not hear of Doan's Kidney Pills sooner, as it would have saved me much expense and misery."

## CARE IN HANDLING APPLES

Few People Appreciate Importance of Preventing Bruises While Picking or Packing.

(By S. VAN SMITH.)

Few people realize the importance of handling apples with care while picking, packing and marketing. Apples are bruised very easily, and especially those varieties having a tender flesh or skin. Bruises mean not only an unattractive appearance, but a real waste of fruit by having to cut out the bruised tissue. Probably the greatest damage from bruises, however, results from the fact that the bruises furnish an entrance for fungus or rot spores. These spores, or "fungus seeds," are as fine as dust and float in the air. If they happen to lodge on a bruised or broken spot on the apple, they take root and grow and spread through the apple, causing it to rot. Wrapping or covering the apple may not always protect it, as the spores may have lodged on the apple before it was picked. However, if the skin and flesh of the apple can be kept intact and not bruised or broken, there is not much danger of the fungus or rot finding its way into the apple.

To prevent bruising, apples should not be dropped or thrown into a bucket, box, or barrel, and in pouring from one vessel to another care should be taken that the apples are as close as possible to the bottom of the vessel in which you are placing them before the pouring begins.

## MARION NEGRO IN TOILS IN HARRISBURG, ILLINOIS

Caught in Room at Mayor's Residence, With Mask on And Pistol in Hand.

Mrs. J. B. Blackman, who has been entertaining Misses Jappy and Harris Ridenhower, of Vienna at her home on West Poplar street, was awakened last Friday night by screams from the young ladies, and upon entering their room discovered a masked burglar with drawn revolver threatening to kill the ladies if they did not keep quiet.

Mrs. Blackman at once tried to quiet the girls, and the thief turned on her, stating he would kill her if she made any outcry. Thereupon she quietly backed into her room, across the hall from the one occupied by the guests, seized a revolver from its resting place near the east window and at the same moment called for help with all the lung power she possessed.

This act of bravery was evidently a surprise to the intruder and too much for his courage. He begged her not to shoot and began backing toward the stairway, closely followed by Mrs. Blackman, each keeping the other covered with a gun. The thief made his way safely down the stairs and escaped from the house before any of the neighbors, who had been aroused by the outcry, could reach the scene.

Wm. Johnson, superintendent of the Saline County Coal Co., who occupies the nearest residence, rushed to the rescue with additional artillery, but the burglar had fled. Neighbors heard the thief whistle and heard the answer by his accomplice.

The burglar was well dressed according to the impression reported by the ladies, soft voiced and genteel in manner, with nothing whatever about his appearance to suggest the bold, bad man aside from the mask which entirely covered his face, and the gun he displayed.

Mrs. Blackman has some very valuable jewelry, and it is reasonable to suppose that the thief, who seemed very familiar with the house, was hoping to secure her diamonds. As it was only a few pieces of jewelry belonging to the girls were taken, owing to the unexpected interruption. Both telephones with which the house is equipped were found to have been disconnected, and other indications of careful planning were apparent.

Mayor Blackman had gone to Chicago a day or two previous, and the ladies felt no alarm in remaining alone in the house.

## TWO SUSPECTS UNDER ARREST.

Two suspects were arrested Wednesday afternoon in connection with the burglary of the Blackman residence, one being Tom Spinkle, a negro employed about the house, the other a mulatto giving the name of Herbert Cruce. The authorities believe Cruce is the man who wore the mask and gave the ladies such a fright. He has been identified by Mrs. Blackman.

Cruce claims to have been but recently discharged from the navy and says his home is at Marion, Ky. He has been in Harrisburg about three weeks.—Saline County Register.

### Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleaned and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of wounded stock prefer this liniment to all others for this reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00.

#### WOMEN THAT TALK.

We have some women who talk, no matter how or what you

do. If you stay at home they talk and if you go they talk and if you go alone they talk and if some friend goes with you they talk.

They talk about you single. And they talk about you wed. They talk about you living. And talk about you dead.

If you have a new dress they strain their eyes to see how it is made and go home and say, "Polly, did you notice that dress? And did you see that dress Betsy? Wasn't it a sight? I could beat that with my eyes shut." And then they go and telephone about that dress. I have heard it said that the three quickest ways getting news over the world are telephone, telegraph and to tell it to a woman and I have come to the conclusion that it is true. If any one passes down the road they say, "There goes So and So. I can tell her by her dress." If a girl is modest they say she is "fogy" and she is "sure" going to be an old maid; and if a girl is free to talk she is "fisty" and crazy to marry and they meddle with young folks and say, "I wouldn't let that old fellow go with me and I wouldn't let this one, and so on but I hope God will give them a shining crown. They think their people better than any one else and what they do is done better than any one else could do, [And when they go visiting they don't go for just a social visit: they go to see how things look and to get to tell the other neighbors. They are always friendly. I will give them credit for that and they would be all right if it were not for that deceit and tongue. I hope the women will take this to themselves and help me fight against gossip and live for the Lord.
