NEW PARTY BORN ON SPOT WHERE OLD ONE DIED

National Progressives Holding Their First Convention in Chicago.

Chicago, Aug. 5.--The first session of the first convention of the new National Progressive party, of which Col. Roosevelt is sponsor, was held in the Coliseum today, and was attended by the usual political convention ceremony, the actual proceedings being suggestive of a love feast. There was no dissenting voice raised during the three hours' session, which was marked at times by explosive enthusiasm. The hall was filled, even to the galleries, and the convention leaders are enthusiastic over the showing made. Many women were present as delegates.

the comparative value of reading was taken up by Miss Mary Moore. Several points on the theme were well presented.

How much should the class read during the first year? This question was well answered by Miss Edith Davis, and in the general discussion of this subject many good points were presented.

Spelling--How to assign and study the lesson. This subject was discussed by J. C. Hardin. The relation of spelling to sense-training by Prof. Quill.

A FREE TRIP TO THE STATE FAIR.

120 FARM BOYS TO GO TO LOUISVILLE.

The Kentucky State Fair Management and the College of Agriculture have completed plans for a FARM BOY'S ENCAMPMENT that will give an opportunity for one boy from each of the 120 counties of the State to visit the Kentucky State Fair for a whole week without expense. The purpose of this encampment is to extend the educational advantages of the Fair to the farms of the State and to stimulate a greater interest in the State Fair by spreading throughout the one-hundred and twenty counties its real worth through farm boys.

APPLICATION

Attached to this circular will be found a blank application, in duplicate, which any boy interested may fill out, mailing the original to the School Superintendent of his county, and the duplicate to Secretary J. L. Dent, before the 20th day of August, 1912.

SELECTION OF BOYS

The selection of the boys will be made on competitive examination of essays by a Committee composed of the County School Superintendent, a member of the State Board of Agriculture and a member of the Faculty of the Agriculture College. The applicants should send all essays to the County School Superintendent of his County, who will grade same and forward to the Executive Committee for completion. This Committee will receive all applications, as set forth above, and mark all essays submitted to them.

The applicants must be of good moral character, willing to co-operate in making the encampment a success; be between the ages of 13 and 18 years, and be actual residents and workers upon the farm. No boy who has ever been enrolled in any College of Agriculture in this or any other State will be eligible to

Grave Yard Notice.

Those interested are requested to meet at Green's Chapel graveyard, Saturday August 10th, to clean off the premises. Please bring tools and baskets well filled and come prepared to spend the day and help beautify the last resting place of some friend or loved one.

M. A. Wilson, Com.

W. H. Brown of Shady Grove section, was here Wednesday and purchased a new buggy and harness for same of T. H. Cochran & Co.

Heath Lands the Contract.

It is a matter of pride to Marion people to know that Forest Heath has been given the contract to build the new \$30,000 Christian church at Sturgis.

OUR GIRLS.

Miss Marion Clement will enter Belmont College at Nashville in September. This is the same school she attended last year and with which she is delighted.

Miss Anna Haynes will leave next month to resume her studies at Stetson University at Deland, Fla.

COOL WEATHER LAST WEEK RECALLS KILLING FROST

Forty-nine Years Ago Corn And Everything Else Killed in August.

K. E. Cannan has grown reminiscent these cool August mornings. Some one asked him Monday if there was any frost at his house that morning. He said "no but in August 1863 on the 25th day there was a killing frost at my house. I lived in southern Illinois and there was not an ear of corn raised within 10 miles of where I lived, and there was frost every month in the year except July." As the date Mr. Cannan gave lacks only 1 year of being a half century ago, we could not help from marvelling at the wonderful scope of man's mind.

Struck by Lightning.

During an electrical storm recently the lightning struck a tree in the yard of S. H. Brightman of the Blackford vicinity and knocked Mrs. Brightman and their daughters senseless for several hours. They have recovered from the effects and are in their usual health now.

JUDGE BARKLEY WINS BY LARGE MAJORITY

Gets Nearly Half of All The Votes In The First District Where 19,000 Were Cast.

THIRD DISTRICT VERY CLOSE

Reports from nearly every precinct in Kentucky shows a remarkably heavy vote in the first State wide primary ever held in the State, Saturday.

In this the first Congressional District, A. W. Barkley received 9,483 votes, Denny P. Smith 5,707, Jno. K. Hendricks 3,363 and Jake Corbett 898. Barkley's majority 3,569 over Smith. He carried every county except five. Smith carried Trigg by 1,194. Lyon by 101, Marshall by 127 and Caldwell by 248. Hendrick carried Livingston by a good majority.

In the third district where Congressman R. Y. Thomas is seeking renomination with John S. Rhea opposing him, the vote is so close that it will require the official count before the result is determined. Rhea is claiming the district by 200 majority, but the missing precincts may wipe out his short lead.

In eighth district Congressman Harvey Helm was re-nominated by over 7,000, defeating J. A. Sullivan, of Richmond, in latter's own home, though Sullivan was supported by the governor.

It was the first opportunity women had to take part in the elections, they being able to vote on school questions, but they did not come out in numbers and the vote was much lighter than anticipated.

Congressman A. O. Stanley in the second, A. B. Rouse in the sixth, T. J. Fields in the ninth, and B. V. Smith in the eleventh, were without opposition. The republican vote was a very light one, little interest being manifested.

State Fair Farm Boy's Encampment.

Continued from page One.

complete, (this does not exclude boys who have attended the Agriculture Department in High School.)

APPLICATION

Original

I am interested in the State Fair Farm Boys' Encampment and should like to enter the contest.

I am years old, live upon a farm and intend to make farming my life work. If I should win first place in the contest I will do my best to aid in making the Encampment a success.

NAME ADDRESS

R. F. D. COUNTY

Mail this Application to your County Superintendent of Schools.

Each boy will be required to write an essay of not less than 400 or more than 600 words upon the subject:

"OUR HOME FARM."

According to the following outline:

- (a) Describe the farm.
- (b) Why I desire to remain there.
- (c) What changes may be made in the present system of carrying on this farm to insure better financial returns.
- (d) What can be done to make farm life more enjoyable.

All essays must be in the hands of the local committee before the twentieth day of August. The committee will read and mark them at once and notify the Secretary of the State Fair on or before August twentieth of the name and address of the boy standing highest, which boy will be the one entitled to the free trip to the State Fair as member of the Farm Boys' Encampment from his county. The local committee will keep a record of the markings of all the contestants, and the boys standing second and third in their markings will be designated as first and second alternates; the first to be selected in case the winner cannot come to the Fair, and the second alternate to be selected in case neither the winner nor the first alternate can come.

ARRIVAL AT LOUISVILLE.

The boys selected in the various counties must plan their trip so as to be at the Fair Grounds and report to the Superintendent in charge at the encampment headquarters on Monday forenoon, September 9th. Guides with "Farm Boys' Encampment" badges will be stationed in the main waiting rooms of the Union Station and Seventh Street Station to meet the boys. In case a boy fails to find a guide he should ask a policeman or other uniformed employe at the station to direct him where to take a street car for the Fair Grounds. Certificates of appointment will be mailed to each boy prior to the time of his leaving home that will entitle him to free transportation from railroad stations, lodging and meals at the Fair Grounds. Comfortable quarters will be selected for the encampment on the State Fair Grounds. Cots, mattresses and pillows will be furnished, but each boy must bring the following:

1. Blankets, sheets and pillow slips.
2. Towels, brush and comb.
3. Necessary clothing to last the week.

SUPERVISION

The boys and camp will be under the immediate supervision of Prof. T. R. Bryant. Strict discipline will be enforced and the conduct of the boys carefully looked after, and those not wishing to conform to the discipline and rules of the encampment will be asked to return at once to their homes. Should the management find it necessary to dismiss any boy before the close of the week on account of infraction of the discipline or rules of the camp, they will not be liable for his transportation expense.

DUTIES, INSTRUCTION AND PLEASURE.

As a partial remuneration to the Fair, the boys will be assigned some light work a part of each day, such as ushering in the Grand Stand and Stock Pavilion, messenger service for officers and assisting in the judging rings. For the purpose of seeing the Fair and studying the exhibits in a systematic and intelligent manner the boys will be divided into small groups, in charge of competent instructors. Special opportunity will be given to make a study of such exhibits as live stock, agriculture, horticulture, dairy, machinery, schools, good roads, etc. A short program with an appropriate lecture or address will be included in each day's routine.

AWARD OF DIPLOMAS.

All boys remaining in camp throughout the entire week, and whose camp deportment will merit, will be presented with a Diploma showing his membership in the Kentucky State Fair Boys' Encampment of 1912.

BREAKING CAMP.

Camp will be broken some time Saturday afternoon, September 13th, so that most of the boys can get home either Saturday night or Sunday morning.

PRIZE ESSAY CONTEST AFTER THE FAIR

Upon returning to their homes after the close of the Fair each boy will be given an opportunity to write an essay of not less than 600 or more than 1,000 words on the subject: "WHAT I SAW AND LEARNED AT THE FAIR AS A MEMBER OF THE FARM BOYS' CAMP."

These essays are to be forwarded unsigned, but with a signed letter accompanying, and in the same envelope, to the Secretary of the State Fair, J. L. Dent, Louisville, Ky., on or before October 10th. They will be read and marked by an impartial committee. The winner of the first prize essay will be invited to read the same before the next annual meeting of the State Farmers' Institute at Kentucky, in 1913, at the expense of the State Fair.

NOTICE TO PARENTS.

The State Fair Management will exercise the utmost care in looking after the welfare of the boys while in camp, and protect them in every possible way. They will not, however, be responsible for accidents, damage or loss. Should any sickness or an accident occur, quick attention can be given at the regular Emergency Hospital maintained on the Grounds.

It is expected to have a camp of good, healthy, ambitious farm boys, who will hereafter be an honor and an asset to Kentucky agriculture and their parents. The management want the farm boys in every county of the State to know the real worth of the State Fair, and have this means of giving one boy from each of the one hundred and twenty counties a free trip and week's outing at this great annual State Fair. They will be under the constant supervision of the Superintendent and his assistants.

APPLICATION

Duplicate.

BROUGHT TO LIGHT

Marion People Receiving Full Benefit

There have been many cases like the following in Marion. Everyone relates the experience of people we know. These plain, straightforward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Thomas L. Hillyard, Railroad St., Marion, Ky., says: "Doan's Kidney Pills came to my relief after I had suffered a great deal from kidney trouble and had spent much money for medicine without receiving benefit. Two years ago I was taken with an attack of typhoid fever and upon recovering found that my kidneys were badly disordered. The pains in my back were so severe that frequently I had to leave my work and lie down for several hours. There was a constant desire to pass the kidney secretions and I was obliged to arise several times during the night. The kidney secretions were also highly colored and the passages were attended with pain. I became dizzy and dark spots floated before my eyes. A relative, hearing about my condition, advised me to give Doan's Kidney Pills a trial and I procured a supply at Haynes & Taylor's Drug Store. They cured me in less than two months. For over two years I have had no return attack of my old complaint and am bound to look upon my cure as a permanent one."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Wild Oats.

When all the world is young, lad,
And all the trees are green,
And every goose a swan, lad,
And every lass a queen,
Then, hey, for boot and horse, lad,
And round the world away;
Young blood must have its course lad,
And every dog his day.

When all the world is old, lad,
And all the trees are brown,
And all the sport is stale, lad,
And all the wheels run down,
Come home and take your place there
The spent and maimed among;
God grant you find one face, there,
You loved when you were young.
—Charles Kingsley.

Croup

People with children should keep a bottle of Dr. Bell's Pine-Tar-Honey on hand at all times. Croup is worse at night when it is sometimes hard to get a physician. Look for the bell on the bottle.

A GOOD MAN PASSED AWAY.

Samuel A. Woodall, a highly respected citizen living near Fredonia died July 24th and was buried July 25 at Hill cemetery. He was born January 3rd 1840, and was 72 years, 6 months and 21 days old.

He leaves a wife, six boys and five girls to mourn his loss. For several months he suffered intensely but it was God's way and he bore it with fortitude and without a murmur.

He professed faith in Christ about the year 1860 and joined the Church at Piney Fork and lived a consistent member until his death and died in the triumphs of a living faith.

His spirit has gone back to God who gave it.

For the consolation of our sister, Letitia, and our nephews and nieces we can refer them to the word "God will wipe all tears away," and again, "Blessed are the dead which die in the Lord: for their works do follow them."

ANOTHER COUNTY PAPER FAILS

MORGANFIELD POST ASSIGNS.

The Post Publishing Co. filed a deed of assignment with the county clerk, Wednesday, making N. C. Hammack assignee.

At this time no schedule of the company's assets and liabilities has been filed.

About five years ago Ed and Eucelous Adams came to Morganfield and started the Post. Being practical printers and experienced men in the news-paper business they conducted the paper at the lowest possible expense, but after a long struggle were compelled to give up.

The result should be no surprise. It was inevitable from the time the Post started that either it or The Sun should ultimately suspend publication.

Morganfield, in fact no town on earth, under ordinary conditions, of 3,500 population or less can support two semi-weekly papers.

The total volume of business in the field is not sufficient to support two. That's all there is to it.

The Post suspended publication about two weeks ago but the deed of assignment was not filed until Wednesday of this week.

Is Willing to Bet Taft

Will Run Fourth.

Oyster Bay, R. I., Aug. 7.—Timothy L. Woodruff, of New York, and A. P. Moore, of Pittsburgh, called on Col. Roosevelt at Sagamore Hill today. Mr. Woodruff talked over the work of organizing the new party in Manhattan, and Mr. Moore discussed the situation generally. Mr. Moore said as he was departing that he would bet \$500 that Taft would run fourth—that is behind the Socialist candidate.

Dwight B. Heard, who was a Roosevelt delegate to Chicago from Arizona, was another of the Colonel's callers today.

Col. Roosevelt was asked if he would comment on Senator Lorimer's attack on him in the Senate. "I certainly have no comment to make on Mr. Lorimer," was the reply.

Mr. W. S. Gunsalus, a farmer living near Fleming, Pa., says he has used Chamberlain's Colic, Cholera and Diarrhoea Remedy in his family for fourteen years, and that he has found it to be an excellent remedy, and takes pleasure in recommending it. For sale by all dealers.

Lost His Life In Trying To Save Crippled Sparrow.

Evanston, Ill., Aug. 7.—The drainage canal is being dragged by the police to day for the body of Clarence Passmore, seventeen years old, who was drowned while trying to rescue a crippled sparrow.

With Thoren and Albert Wolff, boys of his own age, he was on his way to the Glenview golf grounds, where all were employed as caddies. Passmore spied the bird floating down stream with one wing broken, and as soon as he could throw off his clothing plunged into the stream. The boy succeeded in reaching the sparrow, but the current was so strong he was unable to turn back to shore, and he sank in a few moments. The other boys jumped into the stream in an effort to save him, and Wolff, who was unable to swim, barely escaped a similar fate. He was rescued by Thorsen.

"That was Passmore all over," sobbed Wolff. "He couldn't bear to see anything in pain. He never passed a dog on the street without making friends with him."

"Were all medicines as meritorious as Chamberlain's Colic, Colera, and Diarrhoea Remedy the world would be better off and the percentage of suffering greatly decreased," writes Lindsey Scott of Temple, Ind. For sale by all dealers.

A Faithful Servant.

The following summary shows the work the heart has to perform. A man has 500 muscles one billion cells, 200 different bones, 4 gallons of blood, several hundred feet of arteries and veins over 25 feet of intestines, and millions of pores. His heart weighs from eight to twelve ounces, its capacity is from 4 to 9 ounces in ventricle, and its size is 5 by 3 1-2 by 2 1-2 inches. It is a hollow, muscular organ and pumps 22 1-2 pounds of blood

every minute. In 24 hours it pumps 16 tons. It beats 72 times a minute, in one year an average man's heart pumps 11, 680 (60) pounds of blood. The heart is a willing slave, but sometimes strikes, and it always wins.—Carverville Enterprise.

M. NEY SMITH, M. D., R.C.O. 12TH & OLIVE STS ST. LOUIS, MO.

BEFORE IT IS TOO LATE.

If you've a gray-haired mother In the old home far away, Sit down and write the letter. You've put off day by day: Don't wait until her tired steps Reach heaven's pearly gate, But show her that you think of her Before it is too late.

If you've a tender message Or a loving word to say, Don't wait till you forget it, But whisper it today: Who knows what bitter memories May haunt you if you wait? So make your loved ones happy Before it is too late.

We live but in the present, The future is unknown: Tomorrow is a mystery, Today is all our own.

The chance that fortune lends to us May vanish while we wait; So spend your life's rich treasure Before it is too late.

The tender words unspoken, The letters never sent, The long-forgotten messages, The wealth of love unspent—For these some hearts are breaking.

For these some loved ones wait; So show them that you care for them Before it is too late.

Consolidated System of Schools To Be Tried.

It developed yesterday, following a conference between John B. McFerran, chairman of the Educational Committee of the Commercial Club, and Prof. H. H. Cherry, of Bowling Green, president of the Western Kentucky Normal School, that steps will be taken at once toward giving the consolidated school system a thorough trial in one or two counties of the State. It was announced that Warren and Daviess counties are being considered for the proposed trial of the system. Such a movement according to the announcement would tend to bring attention to the idea and those who launched the project believe it will encourage the adoption of the system throughout the state. Mr. McFerran has been advocating the consolidated schools for several years.

Opportunity for the establishment of the system has been afforded by the State Legislature in the bonding law enacted at the last session, authorizing the voters of any county to allow the issuance of county bonds in a sum not exceeding \$500,000 for building schools.

In Warren county, it is pointed out, it would be advisable to erect a consolidated school at a central location in each of four districts, the building costing between \$15,000 and \$25,000. Grade courses in the common schools and a four year high school course, it is explained, would constitute the period of study with ample accommodations for pupils in each division.

PADUCAH BANKER'S TESTIMONY

FOR the benefit of any of my friends and acquaintances who may be afflicted with Kidney or Liver trouble, I state that I have found in Hays' Specific an efficient remedy and, I believe, a permanent cure for myself. For some time I was a sufferer from a disorder of these organs and finally resorted to Hays' Specific. It is with no degree of pride that I permit my name to be used to promote the interest of the manufacture of this remedy, but that it may be of some benefit to my friends.

Tomatoes Growing On Potato Vine.

Carlisle, Ky., Aug. 6.—Tomatoes growing on potato vines is the newest curiosity in Nicholas county. Ed Buntin, a farmer of this county, brought to this city a potato vine from his place on which are small tomatoes, and says that most of the vines in his potato patch are growing both potatoes and tomatoes. This is one of the most singular freaks of nature seen here in many years.

MUTE FOUND HIS TONGUE.

"Don't Shove," Said Beggar, Whose Policeman Pushed Him.

Philadelphia, Pa., Aug. 6. Forgetting the role he was playing when Policeman Lang, of Darby, shoved him from the corner, a supposed deaf and dumb man, who had been working on the sympathies of Darby residents suddenly recovered possession of his tongue, to his own chagrin and the surprise of his victims.

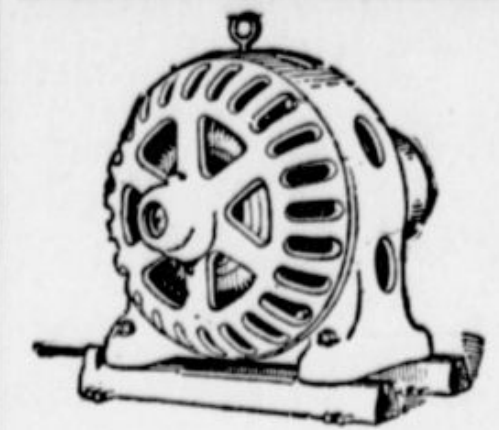

The man was surrounded by a crowd at the corner of Ninth and Main streets, where he was holding up trolley passenger by means of several printed signs to the effect that he was deaf and dumb. "You'll have to move on," said Lang to the man.

Pretending not to understand what was said, the supposed deaf and dumb man made signs that he could not speak, and handed the blue coat a pad and pencil to write it down. "Move on," wrote the policeman, on reading which the man began to laugh. Becoming angered at the man's action, Lang took him by the arm and pushed him from the pavement.

"Say, you don't shove too hard," shouted the man, forgetting himself in his excitement, and then realizing that he had given himself away, he started down the St., as fast as he could.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its function properly, the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver, and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by all dealers.

Deathless Fame.

Every good thing has been condemned in its day and generation. Every innovation has to fight for its life. Error once set in motion continues indefinitely, unless blocked by a stronger force and the old methods of thinking and doing will always remain unless some one invents a new and better way and then lives and dies for it. And the reason men oppose progress is not that they hate progress, but that they love inertia. Even as great a man as John Ruskin foresaw that the railroads would ruin England by driving the stages out of business and killing the demand for horses, thus bankrupting the farmer.

Thomas Jefferson tells us, in his autobiography, of a neighbor of his who "was agin" the public schools because, when every one could read and write no one would work.

Sir William Berkeley thanked God there was not a printing

press in Virginia, because printing presses printed mostly lies, and their business was to deceive the people.

In the time of Mozart, musicians were classed with stablemen, scullions, clowns and cooks. They ate below stairs, and their business was to amuse the great man who hired them and his assembled guests.

The word business was first used in the time of Chaucer to express contempt for people who were useful. The word was then spelled busyness.

To light cities by gas would set them afire. Electricity was dangerous, and to put up wires was to invite the lightning to come into our houses and kill us all dead.

Only a few decades ago any man who advertised in the newspaper was looked upon with suspicion, and even yet we have associations of professional men who stamp with their disapproval any individual among them who pays for his advertising. Such a one was called an "irregular."

If we look back through history we will find that every good and beautiful thing has at one time or another been under the ban, and assailed as an evil.

And the argument seems to be this—if you think a thing is right never mind what the many say, stand by it.

To achieve deathless fame, choose an unpopular cause that you know is just, then work for it, live for it, die for it.

Mistakes of Printer

Which Often Occur.

An Ohio Editor in an article chronicling the death of a certain prominent member of the community endeavored to say, "he died full of years of honor." But the printer set it thus: He died full of beer and honey."

In describing a wedding, an article intended to state that the "room was decorated in green ferns and potted plants," but the printer interpreted it as saying, "the groom was decorated in green ferns and potted pants." A western paper tells of an accident that happened to a lady of the town. She was walking down the street and the walks being covered with ice, she slipped and broke her left leg between the postoffice and the bank.

Mrs. S. A. Alvis, of Salem and her daughter, Mrs. Lee Dorroh and children of Hammond, Okla. were the guests of friends in the city Thursday. Mrs. Dorroh, as Miss Ophelia Alvis was one of the belles of the Salem section and her many friends have given her a hearty welcome back to the "old Kentucky home."

WESTON

The river has been rising very fast but it is failing now. The farmers are glad to see this, as the water has gotten up over some of their bottom corn.

Letter From J. H. Crider.

Pond Creek, Okla. July 20, 1912.

Editor Record Press:

I have just received a letter headed Kuttawa but postmarked Marion. The author asks me many questions, and I he is a man of average intellect, he ought to know he would have to give me some way by which to answer him. He'll have to come out of the brush into the light. Why is he in the dark any way? The best authority I have, my scripture, says, "Man loves darkness better than light because his deeds are evil." He criticises me in many things, but he fails to discuss but one side of the question. As I take it he proposes to be the judge. Let's see what my authority says about that. "Therefore thou art inexcusable, O man, whose ever thou art that judgest for wherein thou judgest another thou condemnest thyself for thou doest the same things." Is he judging? If not why is he in the dark? Because he is a coward and can't face the light. So I can't expect him to show himself, but if he will come face to face with me, and there is any good that can be done by it, I will gladly discuss the matter with him. As I never practiced doing such business in the bush I don't know how to find him. Besides, Uncle Sam objects to carrying such mail. The writer fails to sign his name. I guess he is ashamed of it. Prov. 26th Chap., 17 verse "He that passeth by and meddeth with strife belonging not to him, is like one that taketh a dog by the ears." Prov. 20 chap., 3rd verse, "It is an honor for a man to cease from strife; but every fool will be meddling." Mr. Editor, will you be kind enough to give this article space in your paper and oblige. Sincerely, —J. H. C. ider.

Growth of Industrial Trusts Under Protection.

BY JOHN MOODY.

Prior to the entry of the Republican Party into power in 1897, there were few industrial trusts in the United States. The Sugar Trust, the Standard Oil Trust, and the so-called Whiskey Trust were the only ones of very large capital which were in the public eye. But immediately upon the enactment of the Dingley tariff law trusts began to increase and multiply, and at the end of a few years the number of separate plants which had been absorbed into great combinations ran into the thousands. At the same time the capitalization created by these combinations rose by leaps and bounds. At the beginning of 1898 there were in all, only 38 real industrial trusts in the United States, representing a combination of 672 plants, and carrying a total capitalization of but \$1,419,428,500.

But within two years from the opening of 1898—that is, at the close of 1899,—the number of trusts had more than doubled and the capital represented had increased to \$3,027,910,561. The following three years, however, proved to be the halcyon period of industrial trust formation. Between the opening of 1899 and the close of 1902 the trust forming movement expanded to an astonishing extent. It was in this period that the various independent steel interests of the country were converted into nearly a dozen mammoth trusts and then finally absorbed, en masse, into the great United States Steel Corporation with its capital of a billion and a half. During the same period the woolen trust was formed and the tobacco trust was enlarged from a minor combination covering only one or two branches of the industry to a vast consolidation covering complete production and distribution. At the close of 1902, therefore, trust capitalization had leaped to \$5,723,741,660, represented by 136 industrial trusts which embrace no less than 3,264 plants.

At the end of 1902 there was a widely held theory that the trend toward industrial consolidation had reached its limit. Subsequent events, however, have proven the unsoundness of this idea. For steadily, throughout every year of the past decade, trust capitalization has continued to increase. By the end of 1905, the year in which Theodore Roosevelt began his second administration, the figure had risen to \$6,843,391,760, and in the year when Mr. Taft entered the White House a further expansion to \$7,590,004,000 was shown. And now, with Mr. Taft closing his term, we note that, notwithstanding the so-called trust prosecutions and the enforcement of the Sherman law, the total industrial trust capitalization has reached the astounding total of \$8,066,290,861.

This, moreover, does not include industrial concerns which are not trusts. There are thousands of manufacturing concerns enjoying the benefits of the trust system, but which, strictly speaking, are not trusts. The Government's Federal Corporation Tax report for 1911 shows that the total capitalization represented by the industrial concerns was about \$26,000,000,000. This includes the many close corporations, concerns of small capital which, while "industrial" are not trusts in the ordinary understanding of the term.

It will be noted that the growth of trusts during Mr. Taft's administration has practically all been accomplished since the enactment of the present Payne tariff law.

It is a noteworthy fact that the capital represented by industrial trusts in this country does not reflect, except to partial extent, the investment of money or property. While no exact figures on the subject are obtainable, it is reliably estimated that not more than 25 per cent. of the eight billions of capitalization represent original investment. The remaining 75 per cent. is what is commonly called "water," but which is more definitely described as the "capitalization of earning power." For industrial trusts, like franchise trusts, railroad trusts, etc., have all adopted the methods, during the past generation, of capitalizing, not only the original and current investment in the plants and property, but also the net profits which can be shown. Thus it is apparent that in the case of these trusts which have been built up chiefly on tariff benefits, a large part of the net profits shown, and in some cases, two-thirds or three-fourths of the profits, are the direct results of the protective legislation which they have received.

Industrial combinations, in the great majority of cases, have been formed primarily for the purpose of controlling or advancing prices to the consumer. While the theory has been persistently urged for many years that the main purpose of combination was to reduce producing and operating costs, and thus increase profits without the advancement of prices, yet the records shown during the entire trust era go to prove that such has not been the case. The great enlargement in profits has for the most part been accomplished by price advances and not by cost curtailment.

Never in our history, perhaps (except in war periods) has the price level risen faster than it rose during the first few years after the passage of the Dingley Tariff Act in 1897, and during the period when trusts were forming most rapidly. From July 1, 1897, to January 1, 1900, the cost of living advanced 31 per cent. From July 1, 1897, to May 1, 1902, the cost of living advanced 51 per cent. That the trusts were largely responsible for this great advance is clear from the fact that from July 1, 1897, to January 1, 1900, the prices of foodstuffs (in which there are but few trusts) advanced but 25 per

cent. while the prices of metals, clothing and miscellaneous products (in which there are most trusts) advanced 38 per cent. Notable advances occurred in Steel Trust productions, some of which more than doubled within one or two years.

If this process had not taken place the Steel Trust to-day would doubtless be able to show substantial profits on its original and current investment, but no profit whatever on its "water."

TO PENSION AGED PASTORS

Presbyterian Church Will Raise Fund Of \$10,000,000.

Philadelphia, Aug. 5.—The sub-committee of the Executive Commission of the General Assembly of the Presbyterian Church today took the first step in the movement authorized by the General Assembly to raise \$10,000,000 for the support of aged and infirm ministers of the denomination and their dependents. The subcommittee consist of the Rev. Charles A. Little, Wabash, Ind.; the Rev. Wallace Radcliff, Washington, D. C., and the Rev. William P. Fulton Philadelphia. Tomorrow for the first time the Board of Ministerial Relief and the Board of the Ministerial Sustenance Fund will meet under one management with the purpose of further pushing the movement. Heretofore there have been two agencies appealing to the general church for funds for the aged ministers, but hereafter there will be but one.

PAPER BAG COOKING

Great System Perfected by M. Soyer, Famous London Chef.

REINFORCED FISH DISHES.

By Martha McCulloch Williams.

Fish is especially good for brain-workers, through supplying phosphorus, of which the brain stands always in need to repair its own waste. But where fish comes frequently to table it ought to have the reinforcement of nitrogenous substances, such as milk and eggs. There are some fish dishes which are particularly adapted to paper bag cooking. Before undertaking them it is well to have in hand sundry paper soufflé cases. Though the fish are to be cooked in paper bags, a la Soyer, the cases make the cooking somewhat easier, and the serving very much more slightly.

But rissoles or patties require no cases. Fish pudding and fish custard can be cooked and served beautifully in shells of pastry, baked in a mold, then taken out, filled and slid into a paper bag. All the dishes require cooked fish, either baked or boiled. You can do either in the paper bag. For boiling, put in with the cleaned fish a tumbler of water, seal the greased bag, and cook in a hot oven fifteen to twenty minutes. Baking requires less water and about the same time in the oven.

For fish custard, free the cooked fish from all skin and bone, cut up, but not too small, and season to taste with salt and black and red pepper with a grate of nutmeg if desired. Lay without packing in a buttered soufflé case and cover with a custard thus proportioned: Beat two whole eggs and one extra yolk very light, add a pint of sweet milk and a pinch of salt. Beat all well together. Put the case in a bag, which will need but little greasing, seal and set in a very moderate oven for half an hour. Make a peep hole, look in and if the custard is not firmly set, cook until it is. Serve very hot, garnished with curled parsley.

Begin fish rissole and patties by making good puff paste. While it gets properly cold, flake fine a pint of fish, freeing it of bone and skin. Season with butter, salt and pepper to taste and a very little finely minced onion. Roll the paste rather thin and cut out circles with a saucer. Put a spoonful of minced fish on half of each circle, fold over, pinch tight, brush over with beaten egg, then put in a bag with a lump of butter and cook in a very hot oven for eight minutes.

For patties bake the pastry into tiny shells, fill them with the minced fish, sprinkle on top grated cheese, slip in a bag and cook ten minutes in a moderate oven. These are not quite so rich as the rissoles which are in effect fried in the bag.

Fish timbale requires two cups of cold fish, chopped fine or ground, one cup of cream sauce, a tablespoon of butter, two fresh eggs, a little minced parsley, and salt and pepper—both kinds—to taste. Mix the fish well with the sauce, beat in the butter, then add the eggs beaten very light, and mix all thoroughly. Put into a buttered soufflé case, slip inside a bag, and cook in a very moderate oven half an hour.

For fish pudding take a pint of boiled fish, grind it fine, add to it one and a half tablespoonsful of butter, half a tablespoonful of flour, one teaspoonful of salt, a quarter of a teaspoonful of pepper, and the same of onion juice. Mix all well and set in hot water while you beat two eggs very light with half a cup of sweet milk. Pour the mixture on the fish and beat hard, keeping it over the hot water. When it is hot through, pour it into the prepared bag, keeping the shape as round as possible, tie the bag-top together firmly, and set on a trivet, in a moderate oven for half an hour. This should set it firmly.

Fish rolls are fine for breakfast or luncheon. Mince cooked fish fine, season well, and heat in a rich cream sauce along with the crumbs scooped from the hearts of breakfast rolls. Cut a thin slice from the top of the rolls before beginning to scoop them. Leave only the hard crust. Fill the rolls with the mixture, grate a little hard-boiled egg-yolk over them, seal in a paper bag, and crisp for seven minutes in a hot oven.

Planked fish is not beyond the paper bag. Get a half-inch oak plank cut to a size to go easily inside a big bag. Make it very hot under the gas flame, butter it well, then lay on it the fish, cleaned, seasoned, buttered all over, and spread as flat as possible. Slip into a greased bag and cook for half to three-quarters of an hour in a hot oven. There should be a trivet under the bag the same as if it held no plank. Make a peep-hole to find out if the fish is well done—it had better be nearly in the middle, so no gravy will be lost.

Boiled fish, creamed, suits many palates, especially those of tender age. Let the fish get cold, free it of skin and bone, and then flake, but not fine. Put a layer of it in the bottom of a buttered soufflé case, dot with bits of butter, dust with salt and cayenne, and add a few fried crumbs. Cover with cream sauce, upon which spread more fish. Keep on with the layers until the case is full. Then cover with a thick layer of fried crumbs, squeeze a little lemon juice on, and bake inside a greased bag in a quick oven for fifteen minutes. Serve from the case, and garnish with hard boiled egg.

WILLIAM T. PADON.

This princely man among men passed to his reward July, 17th, while on a visit with his wife to their son Charles, in Dycusburg. He was enjoying his usual good health until a few hours before the summons came.

His life of eighty-three, June 18th, was spent almost entirely in Livingston county, a member and deacon of Good Hope Church. In early manhood he spent some two or three years in the gold fields of California. He succeeded in finding some gold and returned to Kentucky, married Miss Addie Threlkeld, a true and faithful help-meet in all life's conflicts.

A man of energy, industry and fine business acumen, he gained a competency of this world's goods and raised a family of eight children to years of man-

hood and womanhood, starting them well on the voyage of life. Though a busy man he found time and means for church attendance and work. His wide influence, wise counsel, gracious presence, and liberal offerings made him a power for good in the church and the world.

The church, family and friends have a goodly heritage in his life walk and example which abide with us. So Christ-like, brave, kind, gentle, true, a constant call to all that is high, sublime, heavenly. Our best tribute to his memory is an emulation of his example, a response to his appeal, an answer to his call. Few men have wrought so long, so much, so faithful, so well, in Church-life, in family life, in business life.

We miss him yet his life abides with us, faithful, fruitful, help-

ful, beautiful.

His companion, four children and the saints miss him here, while four children, and the heavenly hosts greet him over there.

They will meet us, cheer and greet us, When we reach that heavenly shore. —R. A. LARUE.

A GOOD MAN CALLED TO HIS REWARD.

L. L. Price of Levias, Ky., Has Gone But Lives in Memory.

The subject of this sketch was born in the state of Tennessee in the year 1834, and came to this state at the age of eighteen years and made this his home until death called him to his home above.

He was united in marriage four times; first to Miss Rushing, then to Mrs. Sarah Gilles. To this union there were born five children, two of whom are now living, J. H. Price and Mrs. O. G. Threlkeld. He was afterward married to Miss Levinia Sugg; to them were born two children, one now living, Mrs. James Minner. Afterward he was married to Miss Antonia French and to them were born two children, Mrs. Carson Franklin and Miss Margaret Ethel.

Brother Price was a man of sterling worth; there was combined in him those manly and Christian characteristics which conspire to make one truly

great.

He professed faith in Christ at the age of eighteen and was baptized into the fellowship of Union Baptist Church where he lived a worthy consistent life until the hour of his death. He loved his Church, and was a constant attendant on its services as long as he was able to go, and after he was unable to attend, because of old age and declining health, he would look forward to the time of its meetings with much solicitude and prayer for the welfare of the Church. He was ever ready by his presence, his sympathy, his prayers, his counsel and his money to help the Church and her interests on to success. He could sing with sincerity.

"I love thy kingdom Lord, The house of thine abode, The Church our blest Redeemer bought,

With his own precious blood." He lived to spend sixty of his best years in the service of his Master whom he loved.

He spent the earliest years of his married life on the farm, where he served the Lord and by honest toil and fair dealings with all, made an honest support for his family and something more to enable him to respond to every call of benevolence: showing himself to be a true, noble, loyal citizen.

For several years of the remaining portion of his long and useful life, he was in the mercantile business at Levias, Ky., in which he was courteous, kind and gentle, showing no partiality but dealing fairly and honestly with all, proving that he was the true Christian gentleman that he professed to be.

He was a kind, generous husband, and a fond, loving father, a good neighbor, a great Church member, a loyal citizen, a friend to all. Truly a Prince in Israel has fallen. "Blessed are the dead which die in the Lord, ye saith the Spirit, from henceforth they rest from their labors, but their works do follow them."

"It is a shame that a man of your age should be giving his mind up to stealing. Do you know of any reason why sentence should not be pronounced on you according to law?"

"Now, judge," was the reply of the aged sinner, "this is getting to be a trifle monotonous. I would like to know how a fellow can manage to please you judges. When I was only 17 years old I got three years, and the judge said I ought to be ashamed of myself stealing at my age. When I was 40 I got five years, and the judge said it was a shame that a man in the very best years should steal. And now, when I am 70 years of age, here you come and tell me the same old-story. Now, I would like to know what year of a man's life is the right one, according to your notion."—Paducah Sun.

Girl Whips Negro Who Hid in Her Closet.

Ardmore, Pa., Aug. 7.—Miss Elizabeth P. Coleman Lewis, an athletic society girl of Philadelphia, yesterday refused to appear against a negro bellboy whom she thrashed at the Bryn Mawr hotel.

Miss Lewis heard a noise in one of the clothes closets. She yanked open the door and found Harry Davis, 17 years old, attempting to hide behind the door. Miss Lewis pulled him from the closet and with a right-hand swing sent him to his knees.

The negro made for Miss Lewis and was met with a straight left, which doubled him up. All the fight had left him by this time and he made a dash for the door. As he passed the girl knocked him over a chair.

Miss Lewis quieted her maid, pulled Davis to his feet and knocked him down again with a blow on the nose. The maid opened the door and Miss Lewis gave a blow which sent the negro down the stairs.

When asked to appear against Davis Miss Lewis said he had been punished quite enough to suit her.

THE SIGN OF A GOOD WAGON
TENNESSEE
THE PROOF OF THE UNEQUALLED QUALITY OF THE TENNESSEE WAGON IS IN ITS WEIGHT

EVERYBODY KNOWS the better the quality of timber, the more it weighs. Some of the greater weight of the "TENNESSEE" wagon is in its ironing, but most of it is in the better quality of timber used in building it. Notwithstanding "TENNESSEE" wagons weigh more, size for size, than other wagons—

THEY ARE EASIER RUNNING than any other wagons as proven by the testimony of hundreds of thousands of users who are putting them to the test every day and who write the manufacturers of them such letters as the one below.

"TENNESSEE" WAGONS are not only made of better timber and better ironed, but they are more handsomely and durably painted than any other wagons.

HUNDREDS OF THOUSANDS OF THEM in use every day rendering perfect service, proclaim their quality and value louder than any words can express.

COME IN AND SEE THEM on our floor and you will be convinced that the "TENNESSEE" is the only wagon for you to buy.

Odessa, Mo.
Kentucky Wagon Mfg. Co., Louisville, Ky.
I have one of your "TENNESSEE" wagons that has been in actual service for 20 years, and is good for 10 more years. I paid \$11.85 for new one, and it has cost me all the cost it runs and speaks in 20 years. This wagon has been in 20 years. This wagon made two round trips to Texas and back.

CROWDS EXCITED AS AIRSHIP PASSES OVER THE CITY

Monday evening, shortly after sunset, hundreds of persons watched an airship sail directly over the business section of the city, apparently five or six hundred feet above the earth. People along Garrison avenue were startled to see a large dirigible airship with a man sitting in the framework beneath what resembled the world-famous Zeppelin type of Germany.

The airship, with its numerous mechanism at work, sailed rapidly and within a few minutes had crossed the Arkansas river and was floating over Oklahoma soil, while the crowds wonderingly watched it as it disappeared in the western horizon.

Investigation revealed the fact that the "airship" in question was a life-like dirigible airship that was sent up from the top of the Goldman Hotel by the publicity managers of the International Drug Company, who have their advertising offices at the Goldman.

The International Drug Company was organized last May under the laws of Arkansas with an authorized capital of \$100,000. While this corporation has only been in existence a short time, they have attracted attention all over the United States and sections of Canada, Mexico and Cuba. They sell four remedies as follows: "CHILLAX" for Chills and Fevers; "KIL-POIS" for Blood Ailments; "KIDNEY-FLUSH" for Kidney and Bladder Diseases, and "666" for Rheumatism. From the present outlook, and if they continue to grow as rapidly in the future as they have in the past, these remedies will undoubtedly prove the largest sellers ever known, as remedies with merit sell, and it is hoped they will break all previous records of the medicine world, which will put Fort Smith in the homes of millions and millions of people—Southwest American, July 23rd, 1912.—Fort Smith, Arkansas, U. S. A.

MUST BE WONDERFUL DISCOVERIES

The Company mentioned above is patronizing us with a nice advertisement, as shown on another page, and you will see that they are offering the consumer a mighty liberal proposition, putting Remedies in the homes of the people at the Company's risk, as they figure that every family receiving a set of Remedies means several permanent users.

The International Drug Company further claim that a satisfied customer is worth more to a business than a solid block of flashy billboards.

We are glad the Remedies are proving large sellers, as one spending years upon years searching and researching at an uncounted cost, to relieve suffering humanity, deserves success.

Something else to be admired of the International Drug Company is the fact that their advertisements do not claim any "CURE ALLS," etc., and we will say for the benefit of our readers that single Remedies and 50c sizes may be had at any Drug store or General Mercantile store throughout the country; although you cannot lose by ordering the "Family Set," as each Remedy must give absolute satisfaction or the Company does not want the other \$4.00, and you are to be the sole judge. Evidently these Remedies have proven wonderful discoveries, or no concern could have built up such an enormous business on so liberal terms.

We are informed that the International Drug Company is offering the druggists and merchants an Airship free with each order received for Remedies during August. These Airships are exactly like the one that thousands of people in the Company's home town riveted their eyes on recently. They are 12 feet long and have a framework beneath that resembles the old famous Zeppelin type of Germany, which has created comment from every quarter of the globe.

Every man, woman and child would like to see an Airship float in the upper blue. Who is the first live merchant?

CHAPEL HILL

Wheat all threshed in this neighborhood and a poor yield is reported.

Mr. and Mrs. James Fowler and children were pleasant callers on relatives in Marion Sunday afternoon.

The little two-year-old son of Mr. and Mrs. David Yandell is in a very dangerous condition, first being attacked with paralysis, and since has been suffering with spinal trouble. Drs. Clement, of Marion, and Hayden, of Salem, are the attending physicians.

Misses Nellie Adams and Reba Hill are visiting at the home of Rev. A. J. Thomson, of Kuttawa, this week.

Miss Francis Adams has returned home from a two weeks' visit to friends and relatives in the Frances and View neighborhoods.

Several from this place attended Children's Day at Pleasant Hill Sunday.

Master Arlof Walker spent Saturday night and Sunday the guest of his grandfather, W. H. Bigham.

Misses Ina Minner and Iva Bigham were guests of Miss Marion Jennings Saturday night. Robert Minner has purchased

a new buggy.

Mr. and Mrs. J. A. Elder and little son, Arnold, visited his parents, Mr. and Mrs. Charles Elder, Saturday night and Sunday.

Mrs. Thomas Walker and children, of near Fords Ferry, are visiting her mother, Mrs. J. C. Long, of this place.

Notice of Hurricane

Camp Meeting.

The Hurricane camp meeting will begin on Thursday, August 22nd, 1912. Revs. G. Y. Wilson, P. C., of Tolu circuit; J. J. Smith, of Big Springs, Texas; J. M. Sitton, of Kingswood, Ky.; song leader, Prof. S. H. Prather, of Madisonville, Ky.; and organist, Miss Lena Yates, of Sheridan, Ky.

Seven days and nine nights of the meeting will be free with open gates, both Sundays and the last Saturday will be with closed gates with 25 cents gate fees, to pay the running expenses of the meeting, which will continue ten days. All people who are on the inside on the three days mentioned above, will be required to wear badges so that we may know who paid the gate fee. Each occupied camp will be required to pay one dollar and will not pay the gate fee. Come and rent a camp if you want one. R. M. FRANKS, Pres. Com.

NEW SALEM.

Fine rains.
Crops growing.

Mercury down to 56.

Considerable sickness now.

The meeting at Tyner's Chapel has closed.

Died July 29th, 1912, at his home near Tyner's Chapel, J. W. Grimes in his 63rd year. Wess, as he was familiarly known, was one of Crittenden's best known citizens, and a man that attended to his own business and allowed other men the same privilege. A large concourse of friends and relatives attended his funeral, which was conducted by Rev. Van Hoy, of the M. E. church, after which the remains were laid to rest at Tyner's Chapel to await the morning of the resurrection.

Prof. Rasco was a pleasant caller in this section last week.

Mrs. Bart Brown, of Chapel Hill, was the guest of her daughter, Mrs. Mont Davenport, last week.

James LaRue, Jr., and wife spent part of last week the guests of relatives at Salem.

When a man gets so cussed mean that when a friend faints and falls out of his chair in his business house runs to his aid with a glass of water when he has a quart of "Queen of Nelson," hid under the counter and when he knows that about four fingers of the "corn juice" would revive him, is mighty little potatoes, and few in a hill.

John Harpending and family,

of Salem, were guests of his parents Sunday.

Judge Stevens, of Salem, was over in Crittenden last week. The old Judge looks hale and hearty, for a man of his years, and we were glad to see the old gentleman one more time.

Mr. and Mrs. William Jacobs, of Joy, Ky., are guests of her parents, Mr. and Mrs. Robert Mahan.

We are very sorry to report that Judge Mahan is very sick at this writing.

Threlkeld—Bishop.

The greatest social event of the season in our community, took place Wednesday, July 31st, at Love's Chapel, when Miss Lora Bishop, youngest daughter of John Bishop, became the wife of Clifton Threlkeld, formerly of Crittenden county.

Protracted meeting had been in progress at Love's Chapel for several days and at the conclusion of the service Wednesday night Bro. Lowery announced the marriage.

Herschel Franklin, of Crittenden county, who had presided at the organ during the week before the wedding march and before the audience had time to think, the attendants, Hollis C. Franklin and Miss Ruth Cook, both popular young teachers of Crittenden, came up opposite aisles of the church, keeping

perfect step to the music. At the opposite sides of the altar the attendants waited until the bride and groom had reached the chancel and then with exact step they took their places—Miss Cook at the left of the bride, and Mr. Franklin at the right of the groom.

In a short, yet very impressive ceremony, Rev. Lowery, pastor of the Presbyterian church at Carversville, said the words which made the young people husband and wife. Just at the conclusion of the ceremony, the bride and groom leaving the way and closely followed by Miss Cook and Mr. Franklin.

Announcement was then made by Bro. Lowery that the young couple would receive their friends at the home of the bride's father. Nearly seventy-five friends of the young couple left the church immediately for Mr. Bishop's to extend congratulations and wish them a life of happiness.

From 11 o'clock until midnight refreshments consisting of ice cream and cake were served. In the meantime the crowds who had eaten or who were waiting to be served, were entertained pleasantly by Herschel Franklin and Miss Cook, who presided at the piano and organ.

At midnight another announcement was made that dinner would be served the following

day (Thursday) at 1 o'clock at the home of the groom's brother, Percy, whose wife is a sister to the bride. A greater part of the crowd accepted the invitation, and at exactly 1 o'clock Mr. and Mrs. Percy Threlkeld were inviting the crowd to take their places at the long table spread in the front yard of the Threlkeld home. The dinner was past description, everything good to eat was plentifully served to please the most fastidious. Those who have had the pleasure of dining with Mr. and Mrs. Threlkeld, know what the dinner meant and to those who have not "the half can not be told." At a late hour the guests departed, appreciative of the blessings of the day and wishing the popular young couple a long life of perfect happiness.

John Clayton of the Crooked Creek section died Sunday of stomach trouble and was buried Monday at "Pilot Knob Cemetery" better known as the Fowler grave yard.

Dr. J. V. Hayden of Salem was here Tuesday, enroute to Dawson Springs.
