YOUNG, USEFUL LIFE TAKEN.

Excell Claude Paris Passes Into
The Great Beyond After
A Brave Fight.

WAS SICK SEVERAL MONTHS

Monday morning at 10:30
Excell C. Paris, son of Mr.
and Mrs. O. H. Paris of this
city died after a lingering illness
of tuberculosis of the lungs. He
had been a great sufferer but
patiently bore his afflictions.

A few months ago he went to
Colorado hoping to be benefitted
but gradually grew worse.
When his family learned of his
condition and that there was no
chance they had him brought
home, his brother Lester going
for him. After reaching home
he brightened up and seemed to
be improved in health, but for a
few days only, and his friends
and those who loved him realized
that the end was near. Sunday
he began to sink rapidly and
Monday, at half past ten, he
quietly and peacefully breathed
his last, surrounded by loving
parents, sisters and brothers and
other relatives.

Excell Claude Paris was born
Sept. 23rd, 1890, and died Aug.
12, 1912 in his 22nd year. Be-
sides his parents he is survived
by three brothers, Lester, Gil-
ford and Lawson, and two sisters
Vivian and Nellie.

The funeral by Rev. M. E.
Miller and the burial at the New
Cemetery, Tuesday at 4:30 p. m.
was largely attended and there
were many and beautiful floral
offerings. The railway opera-
tors attended from several sta-
tions where he had worked and
had friends.

A Missouri Automobile Party.

Last Thursday Albert C. Dren-
nan and wife, Claude Drennan
and wife, Will Cain and wife,
George Cain and Ellis Stewart,
all of southeast Missouri, down
in the rich Anniston, Charleston,
and East Prairie sections arrived
here to visit relatives and friends
in their old Kentucky home.
They will visit here and in the
county several weeks before re-
turned home.

OLLIE'S WIT.

The remark attributed to Ollie
James has more wit in it than
derision. T. R. isn't a bull moose
he says, but a bull loose, and the
Republican party is the china
shop. To which it might be ad-
ded that the china shop has a-
ways been operated jointly by the
Republican and Democratic boss-
es, and the smashed stock in
trade will be jointly deplored.—

SPEAKING OF HIGHWAYS.

Those in Hawk-eye
State Excel All Others.

Mr. Max Shloss, who has just
returned from an automobile
trip that covered several middle
west states, says Iowa roads are
far better than those of adja-
cent states. "Give me Iowa
roads every time," said Mr.
Shloss, "I have motored through
Wisconsin, Indiana and Illinois,
and after being lumpy and
jolted about on the cross-country
roads I was mighty glad to strike
the smooth, admirably kept
Hawkeye Highway which runs
west from Dubuque. This road
splendidly illustrates what can
be done to a road by vigilance
in dragging. I hate to say it,
but the worst roads I struck
in Iowa were in Polk county."

—Red Oak (Iowa) Express.
The "Hawkeye Highway" is
one of the seven dragged roads
which stretch across the state
of Iowa from the Mississippi to
the Missouri.

To Teach at Eddyville.

Miss Fannie Morehead has ac-
cepted a position in the Eddy-
ville Graded School, and is at-
tending the Crittenden County
Teachers Institute this week at
Marion.—Princeton Leader.

Tom Butler, Former Resident at Stonewall, Now at Piney Fork.

T. M. Butler, for many years
a prominent citizen and farmer
of the Fredonia Valley, now a
resident of Hopkinsville, was in
the city Wednesday. He will
visit a few days in the Fredonia
section, and then go to Piney
Camp meeting for a week's
stay.—Princeton Leader.

Marion's Second Baptist Church
Edifice Nearing Completion
On East Depot Street.

The new Second Baptist
Church on East Depot Street is
rapidly approaching completion
and is a commodious structure
and in keeping with, but none
too large, to accommodate the
splendid congregations they
have out there. Luther C. Gass
and Rev. Hosea Paris and oth-
ers are pushing the work on the
building. The house is to have
an entry tower at one corner and
has a self-supporting roof.

Union County Fair Ends Successful Week.

Morganfield, Ky., Aug. 10.—
The Union county fair closes to-
day after a most successful
week. Weather conditions have
been ideal. Occasional showers
laid the dust and kept the at-
mosphere refreshing and cool.
The track has been in fine condi-
tion and the races have been
hotly contested. On Thursday,
the "big day" there were four-
teen thousand people on the
ground.

Piney Camp Meeting.

The annual camp meeting is
in session this week at Piney
Fork church. This is one of the
oldest churches of that denomina-
tion in this part of the country.
Great crowds are always in at-
tendance, some for the good of
the services, some to visit old
friends and a great many come
to see and be seen.

There are people here from
several different states, and the
following towns are well repre-
sented:—Marion, Fredonia,
Shady Grove, Blackford, Repton,
Princeton, Hopkinsville, Provi-
dence, Wheatcroft, Dycusburg
and Mexico.

Old friends meet and shake
hands, relatives and friends take
this opportunity to meet and
have a good social time. And
in their conversation, we hear
echoes about like this:

There is something wrong.
The world is not run right.
Some lives are filled with song.
Others heaped with fright.
But there is a sadness to life.
There is never any going back.
This is our opportunity and it
may never come again. The
present is all thou hast, and as
"we have opportunity, let us
work for that which is good to-
ward all men." For God spreads
the Heavens above us like wings.
Then let us remember these
gatherings. "This annual camp
meeting" will soon be over, this
opportunity will soon be gone,
and if there is any good thing
we can do let us do it now for
we will not come this way any
more.

All the toil, the sorrow done;
All the battles fought and won.
There are a number of families
camping and attending every
service, and a good interest is
manifested. Rev. V. B. Costello,
of Lawrenceburg, Tenn., is do-
ing the preaching. The pastor,
Rev. Lillert McDowell, is pres-
ent at every service and they
are doing all they can to make
this meeting a success in soul
saving and bringing the church
into line of duty.

"Praise God from whom all
blessings flow."

NOTES.

There was an immense crowd
here on Sunday—estimated to
be two thousand people.

ALBERT F. CRIDER APPOINTED

Assistant Geologist. Gets a Good
Salary, Which Gives Pleas-
ure to Marion People.

Frankfort, Ky., Aug. 10.—As-
sistants and topographers were
appointed last night by the
advisory board of the Geological
survey which met with Gov.
McCreary at the mansion. State
Geologist J. B. Hoeing was elected
Secretary of the survey. W.
H. Cunningham, of Ashland and
A. F. Crider, of Marion, were
appointed assistant geologists.
F. G. McKay, of Bowling Green,
secretary and L. M. Sells, of
Lexington, topographer. The
assistants receive \$1,800, the to-
pographer \$1,200 and the secre-
tary \$1,000.

This was the first meeting of
the board. The survey office
will be removed here from Lex-
ington and the work of locating
watersites and mineral deposits
will be begun as will the topog-
raphing of the State in co-opera-
tion with the Federal survey.
There will also be a soil survey.
Mr. Hoeing said the men ap-
pointed were all experienced in
the work. All the board were
present, including John C. C.
Mayo, Rufus Van Sant, Percy
Haly and L. B. Herrington.

MRS. JUDY BETTIS DEAD.

Deer Creek Nonogenar-
ian Goes to Her Reward

Old Aunt Judy Bettis, living
in the Deer Creek vicinity, was
called home Tuesday, Aug. 6th,
1912. The deceased was 90
years old, was the mother of 5
children; had over 20 grand-child-
ren and five great-grand-
children. She professed a hope
in Christ when she was sixteen
years old and attached herself to
the Baptist Church in which she
lived an ardent and faithful
member, ever faithful, persistent
and an humble worker for
her Lord and Savior until the
final summons came and she
laid down mortality and donned
the bright robes of immortality
in the great beyond.

Her husband preceeded her
some years ago and she leaves
only a host of relatives and
friends to mourn her departure.

The funeral services were
conducted by Rev. Willis Pierce
in the presence of a large con-
course of sorrowing relatives
and friends, after which the re-
mains were tenderly laid to rest
in the Deer Creek cemetery,
there to await the final call.

—Carrsville Enterprise.

Mrs. Bettis was the mother of
Mrs. James W. Ainsworth and
J. Henry Bettis of Irma, Ky.,
and was an aunt of Judge J. P.
Pierce of this city. She also
had many other relatives in this
county.

Steers on Hoof Net \$10.10.

The price of beef soared at the
Chicago Stock Yards Monday.
A three-car-load lot of heavy
black steers sold for \$10.10 a
hundred—the first time in the
records of the Chicago market
that beef on the hoof, except in
the case of prize winning single
animals—has sold as high as 10
cents a pound.

The same figure almost was
reached in another deal when
cattle raised by the same feeder,
but slightly lighter in weight,
sold for \$10.10 a hundred.

The high price commanded by
the two lots of steers was due,
it was said, to the scarcity of
choice cattle and the activity of
competitive buyers to get hold
of especially desirable steers.
It was predicted, following the
two sales that the reason for
which was the scarcity of
range cattle.

The cattle which brought the
high figure were the property of
A. W. Bragg of Tuscola, Ill.

Range cattle also set a new
mark when the price touched
\$8.25. Last year's high figure
was \$7.90. —News Gleaner.

tistic in finishing.

NEEDFUL REPAIRS BEING DONE

The trustees of the Marion
graded school district and Prof.
Snyder are to be congratulated
on the substantial repairs being
made on the interior of the en-
tire building. The steel ceilings
have been put in and tinted.
The waincoating is being install-
ed and all the walls being pre-
pared to receive a flat coat in va-
rious tints in the different de-
partments. The electric light-
ing wires have been put in con-
duit and switches to control them
properly installed and arrange-
ments made for a light over each
entrance and exit, so that in fu-
ture the people who attend the
entertainments there will not
have to grope in and out in the
dark, the great danger of
falling on the steps will be less-
ened. All in all, the improve-
ments are quite commendable
and were certainly needed. The
interior of the building will not
look familiar to its many old de-
votees. Those who have gone
out from those sacred walls to
seek fame and fortune, on their
return will see a "thing of beau-
ty and a joy forever." Those
who will daily frequent these
halls for learning will find them
inspiring.

DROWNS WHEN PARACHUTE LANDS IN RESERVOIR.

Youth Drops 1,000 Feet to Death at Cleveland.

BODY LASHED TO TRAPEZE RECOVERED.

Cleveland, Aug., 10.—Robert Thibedeau, 18, was drowned late today when his parachute, cut adrift 1,000 feet in the air, descending in Fairmont reservoir.

It was Thibedeau's second ascension. A week ago he was to have gone up with O. R. Bankston, the aeronaut with whom he was serving a novitiate. As the balloon started some part of it gave away leaving Bankston on the ground. Thibedeau kept his head, cut lose the parachute and made a safe descent. Thousands saw the boy part company with his balloon today and start his drop. The reservoir is three acres in extent and the boy's inexperience doubtless cost him his life, as an older parachute jumper would have been a better judge of distance and driftage and avoided the water.

After some delay a boat put

out to the spot where the parachute floated. Thibedeau, however, lashed to the trapeze, had sunk. His body was taken to a neighboring hospital and efforts at resuscitation were made, though without avail.

PADUCAH BANKER'S TESTIMONY

FOR the benefit of any of my friends and acquaintances who may be afflicted with Kidney or Liver trouble, I state that I have found in Hays' Specific an efficient remedy and, I believe, a permanent cure for myself. For some time I was a sufferer from a disorder of these organs and finally resorted to Hays' Specific. It is with no degree of pride that I permit my name to be used to promote the interest of the manufacture of this remedy, but that it may be of some benefit to my friends.

A BEAUTIFUL BLOOM

Over the beauty of the plum and Apricot there grows a bloom and beauty more exquisite than the fruit itself—a soft delicate flesh overspreads its blushing cheek. Now, if you strike your hand over that, it is gone forever; for it never grows but once.

The flower that hangs in the morning, impaled with dew, arrayed with jewels—once shake it that the beads roll off, and you may sprinkle water over it as you please, yet it never can be made again what it was when the dew fell lightly from the heaven! On a frosty morning you can see the window panes covered with landscapes, mountains, lakes and trees, blended with a beautiful, fantastic picture. Now lay your hand upon the glass, and by the scratch of the finger, or by the warmth of the palm, all the delicate tracery will be obliterated. So there is in youth a beauty and purity of character which, when once touched and defiled, can never be restored—a fringe more delicate than frose work, and which when torn and broken, will never be re-embroidered. When a young man leaves his father's house, with the blessings of his mother's tears still fresh upon his forehead if he once loses that early purity of character, it is a loss that he can never make whole again. Such is the consequence of crime. Its effect cannot be eradicated; it can only be forgiven. Queensland Freemansions.

SUTHERLAND'S EAGLE EYE SALV.
Good for Nothing but the Eyes

An Ice House on The Farm.

Although it would seem the exception, it is more often the rule that farmers do not prepare to put up ice on their farms in the winter for summer consumption. Many who use abundant ice in season haul year after year from town, while a little trouble when the ice is a suitable thickness on a creek or clear-water pond in cold weather would give them a lasting supply and avoid any semblance of stinting when it is so badly needed during the hot months.

The crudest kind of a building which will keep out the sun and warm rains will do for an ice-house. The ice can be packed into this building in sawdust or marsh or swamp hay and kept satisfactorily. Farmers who can afford it are building concrete ice-houses at some expense, but for the farmer who is not yet ready to make such an investment, a protracted shack or a cave or pit in the ground will answer the purpose. Ice can be stored at a time when there is not much else demanding the farmer's time.

Ice on the farm is a godsend to the woman who can keep the dairy products so much better and preserve the meats and other foods. A low temperature is absolutely necessary for preserving milk for long periods, and the use of ice will facilitate the work greatly. The ice-house should be drained so that water from melting ice will run off. Use a covering on all sides of the ice of about 12 inches of sawdust or twice that thickness of hay.—Hartford Herald.

ROOSEVELT DOES NOT CARE A RAP

Where a Man Was Born so he Stands True to Ideals.

Oyster Bay, Aug. 12.—A protest against any hint of sectionalism in the new progressive party was made by Roosevelt today, replying to the insinuation credited to General Sikes that Wilson, "born amid rebel surroundings, would not be approved by the people" of the north.

Roosevelt said he did not "care a rap" where a man was born so long as he "stands true to the great ideals." His mother's brothers, who were Georgians, fought for the confederacy, he said. His father's kinsmen were in the Union army.

Reunion.

This has been a day of enjoyment. We, the children of Mr. and Mrs. J. N. McKinney, have spent the day with our loving parents, and it is a day to be long remembered by all. We met with our minds full of fun, and separated with our belts full of mutton, cake and all kinds of good things to eat.

There were some that were not there, and if this be the last time we all meet in this world, may God grant that it may be an unbroken family, and we that were there and those that were absent prepare ourselves to meet our loved ones that have crossed the river of death, and all gather together around the great white throne of our blessed redeemer, and may God's richest blessings rest on our kind parents in their old days, and as they grow in age may they grow in grace, is the prayers of the writer.

Our closing song was "God Be With You Till We Meet Again," and a few words, and then each departed to his or her home.

PAPER BAG COOKING

Great System Perfected by M. Soyer, Famous London Chef.

INSURES ECONOMY OF FUEL.

By Martha McCulloch Williams.
Paper bag cooking economizes fuel—the fact is demonstrable, beyond a doubt. Particularly if the fuel is gas. The figures to follow are given for gas, but are easy of translation into coal heat or even oil.

The oven of a gas range turned on full, burns twenty feet of gas an hour for each flame-bar. Commonly there are two bars—thus, the hourly consumption at full heat is forty feet. The giant burner on top likewise, at full heat, consumes twenty feet an hour, the small burners, each ten feet. Thus a stove in full commission for pot and pan cooking consumes ninety feet an hour.

Now, for paper bag cooking the oven must be lighted and turned on full for eight minutes before anything goes into it; it must also burn full strength for seven minutes longer. Thus, it consumes ten feet of gas at the outset. Turning out one burner to reduce the heat one-half at the end of the seven minute period reduces consumption to fifteen feet for the rest of the hour, making a total of twenty-five feet against forty. But roasting does not demand that a burner goes full—turning it down might save 5 or 6 feet in the hour. Thus the net hour-saving of gas on the oven account is ten feet.

But there are other accounts. By help of paper bags, you can not merely roast in the oven, but cook at the same time a couple of vegetables and bake a pie or pudding. With a small roast you may even cook three vegetables, thereby leaving unlighted three upper jets, which would mean a saving of thirty feet of gas an hour.

Cooking thus solely in the oven means a saving of fifty feet of gas an hour.

Nor is this even all the story. Mysteriously, things cook more quickly in bags than out of them. The saving in time is one-fifth to one-sixth. Putting this at the lowest, and estimating the whole range consumption of gas at ninety feet, there is a saving of fifteen feet. Add them to the fifty feet already in credit, and the sum is staggering, indeed, to the paper bag.

A Little Story of Pie Baking.
I had baked a pie à la Soyer and found it good. Notwithstanding, I resolved to show myself exactly the worth of the bag-cooking.

I made up puff paste enough for three pies, rolled out the crusts and filled a pan, using cooked fresh peaches for a filling. I put it on to cook, in its naked majesty, noting the time accurately. It took ten minutes to roll crusts, fill, and put in a greased bag the second pie. The oven was so hot by that time that I slacked the heat a minute after putting in pie number two. After twenty minutes—thirty minutes from putting in the first pie—I looked in the oven. The naked pie was cooking creditably enough, yet was pale-faced, and the crust still déntable to the touch. Further, there were bubbles of syrup along sundry spaces of the edge.

I turned on a little more heat and left the two pies to cook fifteen minutes longer. The naked one was then a pale, delicate brown on top, with rather a hard undercrust. The bag was brown all over and so crisp the corners crumbled at the touch. But from it came a pie beautiful to behold—light, not pale brown, crisp and flaky as to crust, ready to leave the pan at the first tilt, for a plate.

SAVORIES FOR SUPPER.

By Nicholas Soyer, Chef of Brooks' Club, London.

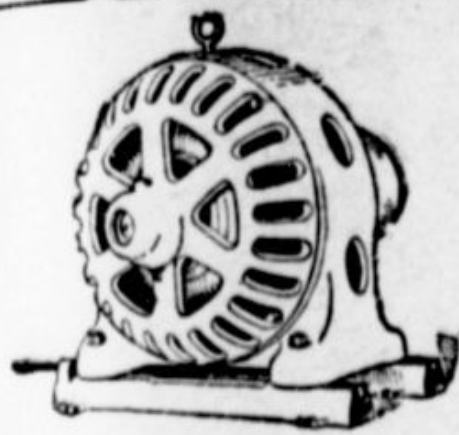

Fish Roe à la Soyer.—Place half the roe on top of a piece of buttered toast, put peeled mushroom on top, add salt and pepper to taste, and a little piece of butter. Place the other half of the roe on top of the mushroom, add a little cayenne pepper, a pinch of grated cheese (Parmesan, or any other kind), a few bread crumbs and another piece of butter. Place in buttered bag, seal up and place on broiler. Allow ten minutes in a hot oven.

Savory of Lobster.—Cut a small lobster from head to tail. Cut the flesh into small dice. Put in small stewpan with one tablespoonful of white sauce, one tablespoonful of cream; add salt and cayenne or other pepper to taste, and one teaspoonful of grated Parmesan. Mix up well, and place in the cavity of the shells. Put a little grated Parmesan on top, and a little bread crumb and butter. Put in a paper bag. Place on broiler. Allow ten minutes in hot oven.

Savory Oysters.—Take two tablespoonfuls of white sauce, one teaspoonful of grated cheese, one tablespoonful of cream, the liquor from the oysters and seasoning to taste. Take half a dozen deep oyster shells. Put a little of the above mixture at the bottom; then put the raw broiled oyster in the middle. Add a little more of the sauce on top, with a little bread crumb and a small piece of butter. Place your buttered bag on the broiler, put your oysters carefully inside, seal up and allow eight minutes in a very hot oven.

J. D. Elder went to Crittenden county Sunday and returned with Mrs. Elder, who has been visiting relatives there for the past week.

Rev. Isaac Talley and wife of Crittenden county, took the train here Monday morning for Crofton, where Rev. Talley will assist in a meeting.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its function properly, the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver, and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by all dealers.

Owensboro Man Killed in Fire.

Bloomfield, Ky., Aug. 12.—A fire which destroyed the Bloomfield hotel, shortly after midnight, caused the death of H. T. Ashby, of Leitchfield, a traveling salesman for an Owensboro grocery company, and did damage amounting to \$10,000. For a time it threatened to destroy a large section of the town. There were about twenty or thirty guests at the hotel, and many of them had narrow escapes. The hotel is operated by Mrs. Chas. McClain, and she lost practically everything. The flames were discovered in the room occupied by Aubrey and are supposed to have started from a lamp explosion. The charred body of Aubrey was found in the ruins minus a head.

"I was cured of diarrhoea by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes M. E. Goldhart, Oriole, Pa. There is nothing better. For sale by all dealers.

No Circus Will Come

Here This Season.

The people of Marion and Crittenden county, who en masse, always look forward to the coming of some circus during the summer months, will be disappointed this year, as all the cir-

cuses that were due in these parts, have turned their heads toward winter quarters. This general cancellation resulted from the poor business of the early spring and summer, the incessant rains throughout the United States having made the circus business very poor, and some of the larger ones lost millions of dollars.

Thermometer Down to Fifty-Two.

The cold wave which struck this section Friday night played havoc with all previous records for the first days of August. The days and nights were cool, and by the government thermometer the mercury registered a drop to 50 degrees Saturday night and during the day it rose to 71. Sunday night it dropped again to 50 degrees and during the day it rose to 81. Yesterday it was quite cool up to noon, but turned warmer in the afternoon.

Beauties of the Uintas.

The Uinta Range is one of the most impressive in the United States. King's Peaks tower above the great canyons and capacious amphitheaters, reaching a height of 13,496 and 13,498 feet. Mount Emmons is only slightly less elevated, with an altitude of 13,428 feet, while many other peaks rise above 13,000 feet.

Considered in its past and present, the region of the Uinta Mountains is a wonderful country, deeply interesting geologically, of great economic importance, picturesque, beautiful. Traveling westward over the Union Pacific route, after long miles of commonplace scenery, the Uintas loom up grandly, while features of beauty are the innumerable lakes and meadows made possible by the glacial scouring. From the summit of Bald Mountain, for instance, four great basins extend before the eye. Nesting among the forests at least seventy lakes may be counted. Scattered throughout the forests there are also numerous meadows. Above the forests rise some of the most majestic peaks in the Uintas.—Leslie's Weekly.

THE END OF TUBERCULOSIS

Consumption and Poverty.

By DR. OSCAR H. ROGERS.

Mr. Charles Booth in his notable study of poverty as he found it in the city of London estimates that 30 per cent of all chronic poverty is caused by ill health. It would be a most interesting study to determine by careful research how large a proportion of this ill health which causes poverty is due to consumption alone. If 30 per cent of the deaths among our adult population, taken as a whole, are due to tuberculosis may we not say that at least 50 per cent of deaths among the very poor are due to that disease? My own impression is that that estimate is not too high, that consumption and chronic poverty constitute a vicious circle, each reacting so as to produce the other, and that no real progress may be made in our campaign unless we somehow manage to break this vicious circle. I wish to strongly urge this point of view, that our campaign must be directed against the tuberculosis of the very poor. Poverty and ignorance unite to produce those conditions which favor the spread of consumption. Consumption contributes mightily to the poverty and ignorance among us.

Each and Every One a Speed Shell

The speed that breaks your targets nearer the trap. That's why Remington-UMC Steel Lined Shells have won 13 out of the 15 Handicaps held in the last three years.

The speed that gets that mile-a-minute "duck" with a shorter lead—that's why it takes over 50,000 dealers to handle the demand for Remington-UMC Steel Lined Shells.

The Shooting fraternity are speed wise. They know loose smokeless powder won't drive shot. They know that the drive depends on the compression.

The powder charge in Remington-UMC shells is gripped in steel. This lining is designed to give the exact compression necessary to send the load to the mark quickest. It insures speed—the same speed in every shell.

The steel lining is moisture proof—no dampness can get through. Jar proof—no powder can get out. Waste proof—no energy is lost.

THE TARIFF IN THE FAMILY SUGAR-BOWL.

The Average Family's Sugar-Bowl Contains \$14.00 of Sugar and \$8.00 for Taxes.

The average per capita consumption of sugar in the country is above 80 pounds, that is, for the average family, 368 pounds. Less than a quarter of this amount is from cane and beets raised in this country, slightly over a quarter in Hawaii, Porto Rico, the Philippines and Cuba and over half is imported from foreign countries.

The duty on refined sugar is 1.09 cents per pound, but with the profit on this duty amounts to 2.2 cents per pound. Only 40 tons of refined sugar were imported in 1911.

THE CONSUMER PAYS THE FULL DUTY OF 2.2 CENTS PER POUND.

The Ways and Means Committee that reported the McKinley bill stated: "The duty is therefore a tax which is added to the price not only of imported but of the domestic product." This report was made by such prominent Republicans as McKinley, Payne, Dingley, Payne, LaFollett and Gear.

THE DUTY ON SUGAR IS ADVOCATED BY THE SUGAR BEET AND CANE GROWERS AS A REVENUE RAISER THAT NO ONE CAN EITHER SEE OR AVOID. The duty yielded last year about \$33,000,000, nearly one-sixth of the total tariff revenue, but much of it came out of empty stomachs. A fair average cost of sugar is 6c a pound. The average family, therefore, pays for 368 pounds, \$22.08 a year, of which \$13.98 is for sugar and \$8.10 for taxes.

ONE DOLLAR FOR UNCLE SAM AND TWO DOLLARS FOR PROTECTION PROFITS.

The total consumption of sugar last year was about seven and a quarter billion pounds. The EXTRA PRICE THE CONSUMER PAID because of the protective tariff on sugar WAS APPROXIMATELY \$145,000,000—the \$92,000,000 we don't hear about—went chiefly as unearned dividends to plantation owners.

THOU SHALT NOT STEAL.

THE DUTY ON SUGAR IS BOTH PETIT AND GRAND LARCENY.

It costs the average family in the country about \$8.00 a year. That is petit larceny—ABOUT A WEEK'S WAGE FOR A LARGE PROPORTION OF OUR WAGE-EARNING POPULATION. It costs us altogether about \$145,000,000. THAT IS GRAND LARCENY, AND THE ONLY WAY TO CATCH THE THIEVES IS TO MAKE SUGAR FREE. A rich man eats no more sugar than poor man, but it doesn't take a rich man's income for a week to pay the tax on the sugar he eats.

SUGAR, CHAMPAGNE AND OTHER THINGS.

Sugar	78.87 per cent.
Champagne	70 per cent.
Furs	50 per cent.
Automobiles	45 per cent.
Rare paintings and statuary	15 per cent.
Diamonds	10 per cent.

If we must raise revenue by duties, should it be a duty on sugar or duties on luxuries?

The Michigan Sugar Co., recently declared a stock dividend of 55 per cent, in addition to the regular quarterly dividend of 1 1/2 per cent, on its capital stock, and has a surplus of \$1,200,000 left, which is more than 10 per cent, on its common and preferred stocks.

The Union Beet Sugar Company paid last year a 100 per cent, dividend, but its President tried to get the San Francisco Chamber Commerce to pass a resolution against any reduction in the duty on sugar.

It is strange that communities will decorate their cemeteries and let their school houses and school grounds go in a very dilapidated condition. Would it not be better to reverse this rule to some extent? Divide the matter. Give some attention to the living as well as to those who are at rest. It is surely very late to try to benefit one, but it is certainly harvest time for the other.—Carrsville Enterprise.

The above clipping appeals especially to the editor of the Crittenden Record-Press, who has always been a lover of trees and for many years here and elsewhere has made it a rule to set out trees each season. It is not a bad habit to get into, but like all habits its one that grows on you. The setting out of a few shrubs, evergreens, shade or ornamental trees this fall will cause you to wish you to repeat the operation and extend the scope, you are trying to beautify next fall. Try it.

Adlai Stevenson, a Christian country man, now 76 years of age, once Vice President, still a sound Democrat and believes that the party will win, is to make at least five speeches in Illinois for Wilson and is willing to go into other states. Pretty good for a man who has passed his three score and ten. "He's from Kentucky."—Hopkinsville Kentuckian.

Miss Ruth McChesney was hostess on Saturday evening at her home on North Seventh street, when she entertained a few friends in honor of her guest, Miss Irene Hughes, of Maysville, Ky. Music and dancing were the diversions of the evening, and a delightful salad course was served. Among those present were Miss Hughes, of Maysville; Misses Mary Ellen Rogers, Blanche Hopewell and Ora Pryor; Messrs. Robert and McClain Mitchell, Sam Adams, David Humphreys, Ward Browning, Philip Bailey and Reeves Elliott.—Paducah Sun.

Mrs. C. A. Taylor and Miss Mabel Yandell entertained at cards Friday afternoon, Aug. 9, in a most delightful manner at the home of Mrs. Taylor on N. Main street. Refreshments were delicious, consisting of banana salad, Primento sandwiches, olives, orange ice and cake.

The society young people of the city were all present. The out of town guests were Miss Margaret Blackman of Evansville, Ind., Miss Clara Clopton of Smithland and Miss Lucile Kirkpatrick of Greenville.

A six o'clock dinner was given Tuesday evening, Aug. 13, by Mrs. Jno. Wilson in honor of Miss Christine Gholson of Fredonia, and Mr. Kenneth Kimpton of Chicago.

At six the guests were ushered into the dining room where covers were laid for ten. The table was beautifully decorated in flowers—purple and white being the colors.

Those who enjoyed Mrs. Wilson's hospitality were:—Misses Gholson, Clement, Jenkins, Dixon; Messrs Flannery, E. Rodgers, H. Rodgers, M. Nunn, K. Kimpton of Chicago.

The guests departed at a late hour after spending a most delightful evening.

Miss Louise Clement entertained Tuesday night at her beautiful home on South Main street, in honor of her charming visitor, Miss Addie Young, of Morganfield. Every thing passed off beautifully during the evening, as progressive conversation and dancing were indulged in. Refreshments were served later, of pimento sandwiches and ice tea. Everyone present had a grand time.

The wheat crop in our vicinity was very short, and not much tobacco growing.

Girl Moper

Ought to Bring Herself Back to Earth

By BLANCHE BRUCE

THAT poor girl moper who goes around wedging wormwood into your views because Miss Gild was born with a gold spoon in her mouth and you weren't, or because the general divine scheme of things has queered you from way back, or because some darling of fortune can carry around poodles while you must tote bills and order books—that moper ought to bring herself to task before she goes to the ash heap or under the tube roses.

The "Brushwood Boy" and "William the Conqueror," two stories we have surely heard of some time, considering the fame of their author, can best give you a new relish for work if you have lost it through moping. The main people in these stories are all keen on the joy of using their facilities. Some of them even love their work first and their sweethearts afterwards.

Then that delightful story of the faithful and conscientious Jane Eyre, and that uplifting one in which Maggie Tulliver, who never has the things she would have, has such a wonderful gift for self-sacrifice.

And no books are quite so cheering and instructive to the worker as Dickens' novels, in which we are always taken to the heart of work houses and poor houses and all kinds of trades and industries and brought next to people who have things to contend with like ourselves.

The best way to get away from your own mistaken views is to read those of others. But there is still another way for the girl moper who suffers with decrepit standpoint.

A stenographer who used to mope because she wasn't the manager and who had too many dreams in her head that wouldn't materialize got a turn in the right direction one cold winter morning. A half-frozen woman with two little children accosted her just as she left the snug warm apartment of her mother, herself well protected against the wind in a new fur coat.

After she had heard the woman's story and called her mother to attend to her comfort she watched a vision in costly furs and billowy plumes carry her poodle across a little snowdrift and hug him to her pretty self. This gave her another turn.

When she reached the office, she didn't mope. She only reveled in her ability to do the chief's correspondence unaided, and reckoned that if fortune ever smiled on her in the shape of a real rich husband she would give more of her time to paupers than to poodles.

Regular Hours for Child's Study and Meals

By WELLS ANDREWS, M. D.

Constant nibbling of food between meals should be forbidden. It destroys the appetite, increases the saliva and interferes with stomach digestion.

Children should never be hurried off to school in the morning with an insufficient and rapidly eaten breakfast. Their appetites are often poor at this hour from the effects of an ill-ventilated sleeping apartment, and if they are kept at school for several hours without luncheon they are very ill prepared for mental work.

The greater number of children have a natural craving for sweets. The important role of sugars in furnishing energy in active childhood necessitates the consumption of a larger proportion of sugar than is required by adults. The craving of children for confections, candy and the like furnishes a true indication of the actual requirements of nature, and it must be admitted that a certain amount of wholesome candy, like plain molasses candy, not only does most children no harm but may serve them as an excellent food.

Simple forms of well-cooked bread and custard puddings should be furnished as dessert occasionally.

Tea and coffee should be withheld. They interfere with digestion and make the child nervous.

Too much water should not be allowed with meals, and what is given should not be iced.

Deciding on Right Kind of Husband

By Mrs. Harold Sanford

duties is the only fly in the ointment, and in view of the benefits to accrue, she considers the payment slight and strikes a good bargain accordingly.

But the woman of primitive instincts, whose emotions have not been dulled by civilization's edge, the idea of marriage with a man whom she does not love is an impossible issue.

Every fiber of her being rebels at the barter; she has no choice in the matter.

Money to her is a very insignificant part of the formula for happiness, and not to be reckoned in conjunction with the big primal forces that go to make up her existence.

She scorns to hawk her wares from one prospective buyer to another, but reserves for herself the right to win her own happiness, and gives herself with the splendid generosity of a great nature.

Of such are the real mothers of the race.

Whom shall the girl marry—the young man with muscle or the old man with money?

The question involves the matter of temperament. There is the woman who has little more emotion in her makeup than the average sack of flour. She lives for her personal well being, aided and brought about by material comforts. To her marriage is little more than the entering into a contract whereby she will gain more of the world's goods than at present she is blessed with. The fact that it entails the performance of a few unpleasant

Sunday School Convention.

County Sunday School convention No. 1, met at Glendale, July 23, 1912, called to order by Pres. R. M. Franks.

Song,—"All Hail the Power of Jesus Name."

Reading—By Harvie Turly.

Prayer—By Jeff Humphrey.

Welcome Address—Miss Mvrtle Thomas.

Response—R. M. Franks. His talk was very pointed and impressive.

Song—"Bringing Them In."

State visitor followed in a great practical talk on teachers training. He presented many practical thoughts presenting real objects to enforce his lessons:

1. Find the Babies for Cradle Roll.
2. Finding Boys and Girls.
3. Finding the Run away class.
4. Finding the Young People.
5. Finding the Married Folks.
6. Finding the Father and the Mothers. If you cannot come to Sunday School, join the home class.
7. Find the old Bachelors, bring them in. They have no family cares and nothing to do but do good for their community.

Remarks—Dr. Franks

Song.

General collection for Sunday School purposes was taken.

The county is divided into 5 districts. Each has its chairman

and secretary, we also redivided the county, making the Princeton and Fords Ferry roads dividing line. It was also announced the State Sunday School convention meets at Paducah Oct. 29, continuing 3 days.

THE HALL OF FAME.

ANDREW JACKSON—Celebrated general and seventh president of the United States.

Born Waxhaw Settlement, N. C., March 15, 1767; died at the Hermitage, Tenn., June 8, 1845. Prisoner in the Revolution. Studied law and removed to Tennessee, where he was successively public prosecutor, member of congress, United States senator and justice of the state supreme court. Defeated the Creeks in three battles, took Pensacola from the English and repulsed Sir Edward Pakenham in a signal victory at New Orleans in 1815. Jackson was then governor of Florida and again senator from Tennessee. Defeated for president in 1824, he was elected in 1828 and again in 1832. As president he brought in the spoils system, put the United States bank out of business and quelled nullification in the south.

COAL! COAL!! COAL!!!

"Tradewater Coal".

We are here at the same old stand and selling coal summer and winter.

Dealers come and go, but we are right here with the goods to stay. We have the famous

"Tradewater Coal", the best that comes to Marion. Can furnish you either lump or egg, so let us have your order at once before the rush comes on; as you know later the car shortage will come which will make it difficult to fill orders.

THE PROOF OF THE PUDDING IS IN THE EATING

THE BEST PROOF of the Unequaled Quality of the "TENNESSEE" wagon is its record of service all over the country—50, 60 and 80 years of wagon satisfaction—repair expense only a few cents a year—almost nothing.

THE TESTIMONY of hundreds of thousands of owners is absolute proof that the quality of "TENNESSEE" wagons is built in.—built in by the best wagon builders to be found anywhere, using the choicest air-seasoned wood stock, selected and inspected many times, substantially ironed, hand-sanded and durably painted and the utmost pains taken in constructing every piece and part. Rheims made from scientifically correct patterns in company's own foundry and set on axles with exact "pitch and gather", under immense hydraulic pressure.

THAT'S WHY "TENNESSEE" wagons hold grease well and last so long. That's why hundreds of thousands of wagon users have already placed their stamp of approval on them, and given them the highest reputation a wagon can have. That's why you will be more than satisfied with it in every respect.

You can't afford to buy any wagon until you have examined the "TENNESSEE" on our floor. Manufactured and guaranteed by the KENTUCKY WAGON MFG. CO., (Incorporated) Louisville, Ky.

A FULL STOCK ON HAND **Olive & Walker, Marion, Ky.** **COME IN AND SEE US**

EVERYBODY WHO IS INTERESTED

In building new things or repairing old ones seems to want to know where the best place is to buy.

We are manufacturers operating saw mills and planing mills in Paducah, Kentucky and Colfax, Louisiana.

When you get ready to buy building material or mill work of any kind, store fronts, store fixtures, stairways, cabinet work of all kinds, write us direct and we will quote you the very best manufacturers price. In this way you save the dealer's profit and the commission man's commission and get the material as it is graded by the manufacturer and not after it has been regraded, in some instances, two or three times by the dealer.

We have no agents or commission men, therefore we appeal to the consumer direct for his business, guaranteeing goods and workmanship according to order. Write or phone your order. It will have prompt attention.

FACT

Local Evidence.

Evidence that can be verified.

act is what we want.

Opinion is not enough.

Opinions differ.

Here's a Marion fact.

You can test it.

G. W. L. Nesbitt, Marion, Ky., says: "Kidney disease had made me an invalid. I was often in bed for two weeks at a time and no tongue can describe my suffering. I had often wished that death would come and end my misery. The kidney secretions became highly colored and my limbs were badly swollen. My sight also failed and the doctors had little hope for my recovery. I could hardly hold my arms above my head, in fact, my right side was paralyzed I had lost all hope when a relative advised me to try Doan's Kidney Pills. I finally consented to give this remedy a trial, and a box was procured at Haynes & Taylor's Drug Store. I improved from the first dose and after I had taken the contents of one box, I was so greatly relieved that I felt confident I had at last found something that would cure me. One by one the symptoms of my trouble disappeared, and in three months I was a well man, attending to my business in the usual way. That Doan's Kidney Pills are the greatest remedy in the world for kidney disease, is a fact of which I am firmly convinced."

The above statement was given Feb. 3rd, 1908, and on Feb. 3rd, 1909, Mr. Nesbitt said: "I still believe Doan's Kidney Pills are a good kidney remedy. I have not used any in over a year. Your are at liberty to publish my former statement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Good day to you all.

Live Stock.

Evansville, Ind., Aug. 14.—Receipts of cattle to-day were fairly liberal; market active at steady to strong prices on good to choice fat cattle of all weights but the medium and greasy half-fat stuff were very slow sale at a shade lower prices. We look for a strong market on all fat cattle the first of next week. We quote:

Receipts of calves light; market slow to steady prices. Best calves selling from 7 to 7½; medium to good, 6 to 6½; common, 5½ to 6.

Receipt of hogs light; market opened early and active, steady to strong prices. Best hogs 150 pounds and up sold at \$8.00; lights, 120 to 150 pounds at \$8.25; heavy pigs, 100 to 120 pounds at \$7.50 to \$7.90; light pigs, 90 pounds and down at \$7.50 down. Market closed steady.

Receipts of sheep and lambs light; market steady on sheep and slow and lower on lambs. Best lambs selling from 5½ to 6½; common to medium, 2½ to 4½; sheep, 1½ to 3½.

LEVIAS

Fine rain Monday evening.

Kelroy LaRue, of Sheridan, is baling hay in this neighborhood.

Our school opened Monday with Prof. Thompson to use the rod. We should keep in mind the compulsory school-law and govern ourselves accordingly. Failure to send children between the ages of seven and fourteen, not sick, subjects the parents or guardian to a fine.

Mrs. James Burklow is down with malaria fever at the home of Jesse Manley.

Mr. Durbin and family, of Anniston, Mo., enroute to Blackford in their automobile, were forced to abandon their car at R. A. LaRue's on account of so much mud.

Misses Leecie LaRue and Barina Threlkeld visited in Smithland last week the guests of Wm. Davenport and family. They were also in Paducah on their outing.

Elzie Gilles was a victim of a painful accident Saturday afternoon, while running a hog out of a field, and was about to throw a rock, an explosion or

gun shot knocked the rock out of his hand—making it necessary for the doctors to amputate a thumb and two or three fingers on each hand. He thinks an enemy did this bid in the bushes.

Charles LaRue, our wide-awake merchant, is building an addition to his store house, making more room for ever growing stock of merchandise and hardware. James B. Hughes, of Marion, is doing the work.

Eugene Wright and wife, of Carrsville, visited relatives here Saturday and Sunday.

Miss Mary Keibler, of Carrsville, visited John H. Price and family Saturday and Sunday.

Last Sunday was Mission day at Union church. The people responded liberally and cheerfully. The church makes a good report to the Association.

Bruce Moore and wife, of Oak Grove, attended services at Union Sunday.

John C. Green, of Pinckneyville, bought a nice lot of stock sheep in this section last week.

Mound Park Addition—

Lot Sale Successfully Conducted

The big lot sale in Pierce's Mound Park addition to the city of Marion so extensively advertised for "Wednesday, Aug. 14" was put on with a rush as scheduled, with a band of music, free lunch and all the requisites to such occasions. It was a grand success all the lots being sold and at good prices. Next week we hope to give a list of the purchasers and prospective builders and other items of interest connected with the sale.

PINEY FORK

We are here this beautiful Sabbath day, attending for a short time an old fashion camp meeting. The spirit of the Lord seems to be present today in great power. Bro. J. S. G. Green conducted the prayer service at 9 o'clock, many testifying to the fact that they were saved on old Piney Hill long years ago. This indeed was a glorious service. Bro. Costello, of Tennessee, preached an old fashion gospel sermon at eleven o'clock. His sermon was gladly received by an audience of from one to two thousand people. He spoke along the line of the practical christian life. His words were accompanied by the Holy Spirit, which was evidence by the many silent tears stealing down the cheeks of many of the old soldiers of the cross.

Tom M. Butler, of Hopkinsville, made a short talk at prayer service in which he said that he received two births at old Piney, the first, being seventy-three years ago in the old log camp near the graveyard, and the second, ten years later at which time God for Christ's sake forgave his sins. He said he had been at old Piney every year for seventy-three years.

There are seven autos unload-

ing now at the gate, and hundreds of buggies and wagons are rolling in. A wonderful crowd is here, some have come to get good and to do good, others are here for the loaves and fishes.

It is dinner now and a general invitation is given to all, who are hungry to partake of the bountiful feast, until satisfied. Many old friends from Texas, Kansas and Missouri are meeting for the first time in many years. Here are Claude Thomson, Nat Wigginton, Rev. Tom Rushing and many others too tedious to mention shaking hands with old friends. How do you do and may God bless you are heard on every corner.

The camps are all full, everybody seems happy and a great and good meeting is expected.

Prof. Samuel E. DeHaven, Lawrence Steele, Marion Crowell and Mr. Croft, of Blackford; and Mrs. Henry Conger and little daughter, Barbara, of Paducah, are guests of Henry Hamby's camp.

Carl Thomason, of Kansas, is on the grounds shaking hands with relatives and friends.

Sherman Turley, of Sikeston, Mo., is on the ground viewing old friends.

A TESTIMONY AS TO THE TITHE

Judge J. B. Hobson is chief justice of the Court of Appeals of Kentucky. For years he has been an elder in the Presbyterian church. He is a tither. Soon after he was known to be a tither a severe test was put upon him by the reception of a very large fee (the largest he or any other lawyer in that community ever received) from a long-continued, almost hopeless suit against a large corporation. Much comment was aroused; some predicted that the big fee would not be tithed like the little ones. It was tithed, however, being generously divided between his own and several other churches.

Judge Hobson once said: "The reason that most people do not tithe is that they believe they can not afford to do it. It is with the greatest difficulty they get along as it is, and they do not see how they can spare a tenth. Many years ago, when my income was small and I had become involved in debt, it seemed to me I could pay nothing for the support of the church until my obligations were met, but my wife said this would not do. So after talking the matter over we concluded to try tithing. The tenth of all I made was laid aside and put in a jar. To our surprise, all demands were met, the jar was never empty, the need grew. We did not miss the tenth. Since then I have always tithed, and am persuaded that if people would practice tithing few Christians, after trying it faithfully, would be willing to deny themselves the privilege."

His experience is that of thousands of tithers in the land, who have found it to be a grace, "freely to give."—Christian Advocate.
