GOV. WILSON'S LETTER.
August, 1912.

Dear Mr. McAdoo:
To bring about the election
of a President through a cam-
paign financed by popular sub-
scriptions, would be a distinct
and gratifying triumph. It
would strikingly evidence the re-
newed supremacy of the people
and would mean the emancipa-
tion of our government from
those selfish influences which
have been too long relied upon to
furnish the campaign funds in
return for favors to be bestowed.
I am in hearty sympathy with
every effort that may contribute
to such a result. The idea back
of the proposed popular subscrip-
tions plan is thoroughly com-
mendable and I hope that you
and your associates will push it
and make it an effective instru-
ment for the attainment of so
praiseworthy an object.

Cordially and sincerely yours,
WOODROW WILSON.
Mr. W. G. McAdoo,
New York City.

W. G. McADOO'S LETTER.
August 24th, 1912.

To Banks and Trust Companies:
Gentlemen:

An unprecedented opportu-
nity is presented to the Banks
and Trust Companies of this
country for the performance of
a patriotic service of inestimable
value to the people.

There has long been a deep-
seated conviction in the public
mind that Presidential cam-
paigns have been financed by
certain interests having a spe-
cial stake in the control of the
Government. It is clear that
such campaigns should, for the
common good, be free from the
suspicion of sinister influence.

The Democratic party, at
least will respond to the over-
whelming popular sentiment in
favor of the financing of presi-
dential campaigns by the peo-
ple themselves. This year's
campaign must be financed by
"popular subscriptions." These
cannot be secured unless con-
venient and responsible agencies
all over the country are provid-
ed for the receipt and transmis-
sion of subscriptions.

Banks, Trust companies and
newspapers are the best agen-
cies. The newspapers are al-
ready at work. Will the Banks
and Trust Companies perform
the same patriotic service? The
Banks and Trust companies of
course will not be partisan.
They should accept and trans-
mit subscriptions for each of the
National parties, if they act at
all.

Will you agree to receive and
transmit subscriptions to the
Democratic National Committee,
the Republican National and the
Progressive National Committee?
Speaking for the Democratic
National committee, I would not
ask you to act for one unless for
all. This must be a patriotic
service to the public and not to

She Kissed Ollie On His Bald Head.

Senator Ollie James, of Ken-
tucky, received the surprise of
his life Thursday night. He at-
tended a performance of "Hanky
Panky" at the Broadway Thea-
tre, and was kissed on the bald-
spot by Florence Moore, who, as
Corinda Scriblem, goes down in
the audience and does such aw-
ful things.

"Oh, well," the senator said,
'it is not such a hardship to be
bald, after all.—New York Cor-
respondence, Cincinnati Inquirer.

SERIOUSLY CUT IN KNIFE DUEL.

June Purtle, Tobacco Dealer, Well
Known Here, Cut in Knife
Duel at Sebree, Ky.

Sebree, Ky., Aug. 22.—June
Purtle, a tobacco dealer, is lying
at his home here in a serious
condition as a result of knife
duel with Oscar Collins a local
barber, last night. Collins car-
ries several flesh wounds, but is
not so badly cut as Purtle.

The stabbing occurred last
night when Purtle remarked to
a friend that Collins had evident-
ly taken a bath in whiskey, as
the latter walked past. Collins
overheard the remark and after
a flow of abusive language stab-
bed Purtle in the left side, just
below the heart. Purtle drew
his knife and slashed Collins
four or five times. It is believed
that both men will recover.

Editorial Note.
Mr. Purtle was here engaged
in the tobacco business several
months and has many friends
here who will regret to hear of
his hurts.

of the Banks agreeing to act will
be given to the press.

Will you kindly telegraph at
our expense, if you will serve?
If you will agree to do so, please
notify the newspapers of your
community. In order that you
may know the attitude of Gov-
nor Wilson in regard to popular
subscriptions, I enclose a copy of
a letter from him on the subject
just received.

In the event that you accept,
Mr. Rolla Wells, Treasurer,

BULL MOOSERS ORGANIZED SAT.

The Crittenden Co., Roosevelt Fol-
lowers Met at the Court
House Last Saturday.

As per previous announce-
ments, the Bull Moosers met
at the court house, Satur-
day afternoon to organize.
Over 100 voters were here and
in attendance and great interest
was manifested. Speeches were
made by such representative for-
mer Republicans as Dr. T. A.
Frazer, V. Y. Moore, A. C.
Moore, C. W. Haynes and others.
Crittenden county is now recog-
nized as doubtful territory. Us-
ually it goes 400 to 600 repub-
lican, but with that vote divided
there is a chance for the Demo-
crats to carry the county this fall.

BOY CARRIED 2,000 FEET IN AIR

Falls to Death. Lad Was Acci-
dentally Caught by Guy
Rope of Balloon.

Flint, Mich., Aug. 30.—In the
presence of hundreds of people,
14-year-old Chester Betts son of
Bert N. Betts, of Flint, was ac-
cidentally caught by the guy
rope of a balloon today and car-
ried about 2,000 feet in the air
before the rope untangled and
hurled him to his death. He
crashed against the roof of a
barn and was still alive when
spectators reached him, but he
soon expired.

The tragedy occurred at a
county fair, and when the bal-
loon and aeronaut shot upwards
many people thought the youth
dangling at the end of a rope
was a dummy. The heroic ef-

MILLER J. W. PARIS DROPS DEAD.

He Was Called While at Work in
The Mill at Crider, Ky.
Tuesday Afternoon.

James Whitsett Paris, the well
known and much loved miller,
dropped dead Tuesday afternoon
while at work in the mill at Cr-
ider, Ky. The news caused pro-
found sorrow here where Mr.
Paris has spent most of his life
of three-fourths of a century.

He was not ill and was here to
visit his family, Sunday in his
usual health and had only return-
ed to his work Monday morning.

Mr. Paris was born, Jan. 27,
1837 and was twice married. His
first wife was Miss Prudy Ann
James and she was the mother
of four children now living: Wm.
F. Paris of Lola, Rev. J. Lewis
Paris, of Odessa, Mo.; O. H.
Paris of this city; Mrs. Martha
Fralick, Poplar Bluff, Mo.

Mr. Paris' second wife was
Paulina Jane Conger who is the
mother of eight living children:
Mesdames Fannie Jennings and
Nannie Brown of Salem, Ky.,
Robt. S. Paris of Lola, Prof. J.
B. and Bunyan C. Paris of this
county; Mrs. Cordie Moreland of
this city; Morris Paris, Metropo-
lis, Ill., Sam W. Paris, Fulton.

The venerable, Rev. W. F.
Paris is his only surviving brother,
but he leaves four sisters;
Mesdames Nancy Young, Polly
Hunt, Sallie Swansey, and Jo-
seph Wilson, all of this county.

The funeral and interment
will take place at Pleasant Hill
Primitive Baptist Church Ceme-
tery, two miles east of Marion
Thursday afternoon at 1 o'clock, Rev.
J. Riley Clark, officiating.

Efforts of the balloonist to rescue
the boy soon disclosed the truth
to the crowd below. As the big
gas bag crept higher and higher
the aeronaut in peril of his own
safety could be seen working
desperately to pull the dangling
form to the trapeze. Finally the
rope swirled away from the boy
and the tiny form dropped down-
ward like a stone.

NO CONFEDERATE PENSIONS UNTIL NOV.

From A Friend in The Far West.

Lawton, Okla., Aug. 26, 1912.

Mr. S. M. Jenkins.
Dear Sir:—Find enclosed \$1.00
for which send on the dear old
home paper which I see is cele-
brating its 34th birthday. Have
been reading it every year, and
need it now more than ever. I
missed getting it last week and
sure missed it. Hope I wont
miss it this week.

I will stop by wishing the
Record-Press many happy birth-
days. Your Friend,
MRS. A. J. CRIM.

WILL HAVE FOUR TRACKS.

Illinois Central Is Getting Ready
for Big Business When Pana-
ma Canal Opens.

A move is said to be on foot
by the Illinois Central railroad to
four-track their right-of-way
from Chicago to Cairo and prob-
ably all the way south eventual-
ly. Right-of-way from Chicago
secured, it is said on good au-
thority, from Chicago, and this
improvement is another of the
Central's many plans to take ad-
vantage of the huge volume of
business that it is expected will
develop when the Panama canal
is opened. This fits in with the
great expansion policy of the I. C.
and as demonstrated locally by
the immense new yards to the
south. Four tracks mean a
very heavy increase in the num-
ber of trains each day, and as
Centralia is the division point,
it means more men eventually
for this city to handle the ter-
minal facilities and local shops.

Gets Poetic And Reminiscent—
Letter From The Lone
Star State.

Myra, Tex., Aug. 28, 1912.

Dear Marshall:—From the
time when the memory of man
runneth not to the contrary I have
been a constant reader of the
Press. The city of Marion grew,
was consumed and grew again;
children have become fathers
and mothers, of children; middle
aged people have become stooped
and gray; the old have, in great
numbers, passed to the great
beyond; and still I feel practi-
cally as well and active as when, I,
a school boy, trod the hills of
Crittenden. While this has, in
some respects, been the most
trying year of my life, my com-
panion having spent a great part
of the summer in the hospital,
she underwent a serious opera-
tion, still we are contented in
life, pleasantly situated and hap-
py if the Press comes every
week on time and glad to remit
\$1.00 for the good old Press an-
other year.

Respectfully,
F. J. Clement.

SAYS EXAMINER, STONE.

None Received in Time for The
August Disbursement,
He Says.

Lexington, K y., Aug 14.—
Capt. W. J. Stone, Examiner of
the Confederate Department of
the State Government, has sent
out a circular letter to applicants
for pensions, advising them that
no payment will be made until
November 5th, or later, no ap-
plications having been approved
in time for Aug. 5th, one of the
quarterly payment days.

Frankfort, Ky., Aug. 12, 1912.
Dear Sir: Replying to your let-
ter relative to your application
for pension will say that final
action has not been had on any
application yet. There are 2,600
applications now on file and
many being received daily and
they are being prepared as rap-
idly as possible for considera-
tion by the Pension Board. It
takes a great deal of time and
labor in each case and conse-
quently much delay occurs. As
soon as applications are finally
passed upon by the board I will
notify each applicant or his at-
torney of the result. The dates
provided in the law for the pay-
ment of pensions are August 5,
Nov. 5, Feb. 5 and May 5.

"Consequently no pensions can
now be paid before Nov. 5, next.
The pension will begin in all
cases that are favorably acted
upon on the day the applications
are received in this office.

"When applications are re-
ceived here the date is stamped
upon them, so that in all cases
in which pensions are allowed
they will be calculated from the
date of the reception of the ap-
plication here. No pensions can
now possibly be paid before
Nov. 5th. How many or what
particular ones will be ready for
payment by that time it is im-
possible for me to tell at this
date.

"I want to assure you and all
who may inquire of you what I
realize the anxiety of many of
the applicants and that all possi-
ble haste is being made and will
be made in the consideration and
final adjudication of the claims
that are now pending or may
hereafter be filed.

"Very truly yours,
W. J. STONE, Examiner."

Negro Millionaire Dies in Memphis.

Memphis, Tenn., Aug. 30.—
Robert R. Church, Sr., easily
the wealthiest negro in Tennes-
see and long rated as the wealth-
iest in the south, died Thursday
afternoon at his home, 384 South
Lauderdale street. Death was
caused by heart failure, which
followed a year's illness. He
was 74 years old.

The singular circumstance of
a negro born a slave, rising from
cabin boy on a Mississippi river
steamboat to the master of a for-
tune estimated at a million dol-
lars made him a conspicuous
character and the news of his
death was received all over the
city with expressions of interest
and surprise. The burial will
probably take place Sunday. He
owned a handsome mausoleum
in Elmwood cemetery and he will
be buried there.

EVERYBODY WHO IS INTERESTED

In building new things or repairing old ones seems to want to know where the best place is to buy.

We are manufacturers operating saw mills and planing mills in Paducah, Kentucky and Colfax, Louisiana.

When you get ready to buy building material or mill work of any kind, store fronts, store fixtures, stairways, cabinet work of all kinds, write us direct and we will quote you the very best manufacturers price. In this way you save the dealer's profit and the commission man's commission and get the material as it is graded by the manufacturer and not after it has been regraded, in some instances, two or three times by the dealer.

We have no agents or commission men, therefore we appeal to the consumer direct for his business, guaranteeing goods and workmanship according to order. Write or phone your order. It will have prompt attention.

An Old Fashion Kentucky

Picnic Dinner.

Another of those old fashioned Kentucky dinings that are popular now was given on the lawn at the handsome and hospitable residence of Mr. and Mrs. H. K. Woods in this city Thursday last by Mrs. W. R. Cruce, of Crayne View, the beautiful country place of the Cruces, three miles south of the city limits. Among those who enjoyed the splendid dinner of substantial and dainties were Mr. and Mrs. James H. Orme and daughter, Clara Margaret, Mr. and Mrs. H. K. Woods, Mr. and Mrs. Marshall Jenkins, Rev. H. V. Escott, Miss Sarah Blue, of Morganfield; Judge and Mrs. J. W. Blue and son, John William, and daughters, Frances and Virginia.

Mrs. Cruce proved herself a charming hostess. The one regret of the day was that Mr. Cruce was not present, being detained at home with his invalid mother.

Another article that has merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H. W. Hendrickson, Ohio Falls, Ind., writes, "Chamberlain's Cough Remedy is the best for coughs, colds and croup, and is my best seller. For sale by all dealers."

Editor Dares Penrose to Face Proof That He Is a Briber.

E. A. Van Valkenburg, editor of the Philadelphia North American, in a signed letter addressed to Senator Boise Penrose, and given prominent display on the first page of the North American, after reciting certain facts

of more or less personal bearing, issues the following stinging challenge to the Republican Senator who is engaged in traducing Roosevelt and other Republican leaders:

The stain of corruption money is on your hands; the mark of corporation bribery is on your forehead, and your attempt to divert the finger of scorn and accusation from you by a slander of me will be unsuccessful.

You have more to answer to the Nation for than the Standard Oil bribes that passed into your hands. The foundation of your present title to admission to the Senate is as black with moral and legal guilt as Lorimer's. If an authorized tribunal of the Senate will hear the testimony, the North American will produce the evidence that you are a briber and a corruptionist and that you hold your seat by support bought with money. If you are a man—an ordinary man with red blood in your veins—you will ask the Senate to investigate this direct and unequivocal charge.

PADUCAH BANKER'S TESTIMONY

FOR the benefit of any of my friends and acquaintances who may be afflicted with Kidney or Liver trouble, I state that I have found Hays' Specific an efficient remedy and, I believe, a permanent cure for myself. For some time I was a sufferer from a disorder of these organs and finally resorted to Hays' Specific. It is with no degree of pride that I permit my name to be used to promote the interest of the manufacture of this remedy, but that it may be of some benefit to my friends.

OUR FRIENDS IN PRINCETON

Give Added Praise. Their Statements Are Convincing.

It is gratifying for us to read such good news as the following, for it shows that the experience of our friends in Princeton is the same as that of many Marion men and women who have spoken out so heartily in these columns:

Mrs. Mattie L. Morse, Princeton, Ky., says: "For years I suffered from kidney trouble. My back pained me terribly and at night the trouble was worse. I did not sleep and in the morning felt more tired than when I went to bed. I was dizzy and nervous and my limbs became swollen that I could not do my housework. I was hardly able to get around without assistance. At times I became unconscious. One day I got a box of Doan's Kidney Pills and as soon as I began their use, I felt their good effect. In a remarkably short time I was around, doing my housework. That was nearly four years ago and I have taken a few boxes of Doan's Kidney Pills since then and they have kept my kidneys in good normal condition. Any kidney sufferer who sees this will do well to take my advice and use Doan's Kidney Pills. I cannot praise this excellent remedy too highly."

GRAVES COUNTY ORGANIZES.

Chairman Claims Roosevelt Will Get More Votes Than Taft Polled Three Years Ago.

Mayfield, Ky., Aug. 31.—Progressives of Graves county, more than 200 strong, met here yesterday and organized. The meeting was characterized by the intense enthusiasm which the supporters of Col. Roosevelt displayed. Charles Anderson was elected Chairman of the executive committee, with J. N. Grace Secretary and Festus Gary, Campaign Chairman. Chairman Anderson asserts that Roosevelt will receive more votes in Graves county than President Taft did four years ago.

San Bernardo, Cal., Aug. 31.—When his laundry bill showed a charge for washing four green backs, George B. Rowan, of this city, gasped in astonishment. They amounted to \$60 which he remembered having failed to remove from his clothing before sending it to the wash.

Prominent Chicago politician when a candidate for an important municipal office, related the following campaign:

"Once I told three negroes that I'd give a big turkey to the one who would give the best reason for his being a Republican."

"The first one said: 'I see a 'publican kase de 'publicans set us niggers free.'"

"Very good Pete" said I. "Now Bill, let me hear from you."

"Well, I see a 'publican kase dey gone gib us a protection tariff."

"Fine," I exclaimed. "Now Sam, 'what have you to say?'"

"Boss," said Sam scratching his head and shifting from one foot to the other, "boss, I see a 'publican kase I wants that turkey."

Be Jolly.

What's the use of being sad?
What's the use of sighing?
What's the use of getting mad?
What's the use of crying?
Sadness does not cure the ill,
Sighing will not mend you;
Anger is a bitter pill,
Tears no aid can lend you.

IF COTTON GOODS ARE LUXURIES, CAN WORK-ING PEOPLE WEAR CLOTHES

President Taft, in his famous speech at Vienna in September, 1909, said regarding the Payne-Aldrich bill: "There has been no increase in the lower-priced cottons, and of the increases the higher-priced cottons enter into the consumption of the country to the extent of \$41,000,000."

Professor F. W. Taussig stigmatized the cotton schedule of the Payne-Aldrich bill as follows: "The duties on certain grades of cotton hosiery, seamless or fashioned hose were advanced, CHIEFLY ON THE CHEAPER GRADES. Both as to cottons and silk the advances in duty were defended ON THE GROUND THAT THE ARTICLES WERE LUXURIES AND, THEREFORE, PROPERLY SUBJECT TO HIGH RATES FOR REVENUE PURPOSES."

Protection Privilege Striking at Sewing Women.

The DUTIES on SPOOL THREAD OF COTTON, CROCHET AND EMBROIDERY COTTON WERE INCREASED by about ONE-FOURTH. The Tariff Board reports: "J. & P. Coats (Ltd.) control the price of cotton thread in every country in the world and own mills in the United States and other high tariff countries. THEY HAVE BEEN SUCCESSFUL AND PAY DIVIDENDS OF OVER 25 PER CENT." Many sewing women earn only 25 cents a day, and help to pay the 25 per cent. dividend.

Cotton Cloth Duties Increased by One-Seventh.

Mr. H. F. Lippitt, now Senator through the graces of the cotton manufacturers, said IN PUBLIC at a hearing of the Ways and Means Committee: "I am not appearing here to ask for an increase in the duties on the cloth clause of the cotton schedule. I think that while there are importations going on under them, it is reasonably regulative of the cotton trade."

Were Raised From 37.42 Per Cent. to 42.12 Per Cent.

The average duty on oilcloths, window hollands and tracing cloth was increased from 38 per cent. to

50.12 per cent on the actual imports in 1910.

Must Poor People Go Barefoot.

The rate on the imports of all COTTON HOSIERY WAS ADVANCED FROM 60.4 per cent in 1909 to 70.1 per cent. in 1910—that is, MORE THAN ONE-SIXTH. NO INCREASE IN THE RATES WAS MADE ON THE HIGHER GRADES OF HOSIERY, BUT THOSE USED BY POOR PEOPLE WERE MADE MORE EXPENSIVE.

Ready-made clothing and wearing apparel composed of cotton upon which any labor has been expended is taxed 50 per cent. ad valorem. The duty on shirts and collars imported averaged 61.44 per cent in 1910.

Taxing Underwear Off Poor People.

The average ad valorem duty on all underwear and knit goods in 1910 was 59 per cent. THE DUTY ON THE CHEAPER GRADES of men's and boys' cotton gloves, knitted or woven, WAS DOUBLED by the Payne-Aldrich bill, BUT LEFT UNTOUCHED ON THE MORE EXPENSIVE GOODS at half the duty poor people pay.

Cotton Schedule is Poverty Producer.

The average ad valorem duty collected on cotton goods in 1910 was 56.04 per cent; from 1884 to 1900 inclusive it was only 40.07 per cent. The value of manufactured cotton goods used in 1910 was \$839,241,000. THE EXTRA PRICE PAID BY CONSUMERS FOR COTTON GOODS IF THE PRICE OF COTTON GOODS MANUFACTURED IN THE COUNTRY WERE INCREASED BY 25 PER CENT.—THAT IS, BY LESS THAN ONE-HALF OF THE AVERAGE PROTECTIVE DUTY—WAS NEARLY \$210,000,000, OR AN AVERAGE OF NEARLY \$10.70 FOR EVERY FAMILY.

Five Dollars to Manufacturer, One Dollar to Government of the Country.

The total duties collected on cotton goods in 1910 amounted to \$38,077,844, so that the consumers paid at least five dollars to the manufacturer for every dollar paid

to the government.

WHY DID PRESIDENT TAFT VETO THE COTTON BILL, WHICH REDUCED DUTIES AND WOULD HAVE SAVED CONSUMERS AT LEAST \$88,000,000 A YEAR?

THE END OF TUBERCULOSIS

Fake Cures For Consumption.

By SAMUEL HOPKINS ADAMS. Any nostrum which claims to cure tuberculosis is a detriment to the patient, since, if it does no worse, it at least diverts him by falsely inspired hopes from the careful regimen of life wherein lies his best chance of recovery. Tuberculosis nostrums, therefore, may be divided into the positively harmful and the negatively harmful classes. In the first class I should put all those containing opium, hashish, chloroform and any considerable quantity of alcohol. Every physician whose work takes him into the slums well knows the typical history of the consumptive working man who puts his faith in this class of nostrums. Stimulated by the alcohol or lulled by the morphine into fictitious hopefulness or security, he continues his unchanged habits of life until the final breakdown comes with appalling swiftness. To those of the medical profession I leave it to say how swiftly incipient tuberculosis becomes galloping consumption under the influence of these drugs.

TYNER'S CHAPEL

(Delayed from last week.)

Bro. VanHoy will preach his last sermon here before he goes to Conference next Sunday at 3 o'clock p. m.

Misses Polena and Ida Penn went to the Hurricane camp meeting Sunday.

Corn crops are very good in this section.

Miss Julia Butler, who has been ill, is out again.

Three Funerals in One Day.

A large crowd attended the funerals at Tyner's Chapel Monday, Aug. 26th. It was so very sad to see three burials in one day. Bro. Franks, of Pinckneyville, preached Mrs. Davis' funeral; Bro. R. A. LaRue preached Mr. Mahan's funeral and then Bro. Franks made a short talk over little Virginia, the daughter of Mr. and Mrs. Jesse Tyner.

The Success of a Grand Rally And Still to be Continued.

Aug. 18, 1912, there was a grand rally at the Cumberland Presbyterian church, in honor of the colored Baptists, at which rally they were able to realize \$117.00. Not being able to get the desired mount the rally was continued until Sept. 15th, 1912, at which time all members and friends are asked to assist in said rally. We feel that we need the assistance of everyone in our great struggle, the membership being only 18 or 20.

NEW SALEM.

(Delayed from last week.)

A few of our farmers have commenced to cut and house their tobacco.

Died at his home near New Salem, Aug. 27th, Robert Mahan, aged 65 years and 4 days. The funeral services were held at Tyner's Chapel, conducted by Rev. Robt. A. LaRue, after which the remains were laid to rest. Robert Mahan was one of our best citizens, a man who attended strictly to his own business, a good neighbor and citizen. Peace to his dust.

Miss Florence LaRue is attending school at Salem.

There were three burials at Tyner's Chapel, Aug. 26th, Mrs. Davis, who lived near the iron bridge on Claylick creek, Robert Mahan and little Virginia Tyner. This is something that rarely happens at a country graveyard. A large crowd attended the services and burials.

Mrs. Elizabeth Grasham, Mrs. Charlott Thorning, Mr. and Mrs. Dow Loyd and Ed Grissom, of Livingston Co., attended the funeral of Robert Mahan.

Oliver Grasham and wife, of Paducah, attended the burial of their uncle, Robert Mahan.

Died at the home of her parents, Mr. and Mrs. Jesse Tyner, Aug. 25th, their little daughter, Virginia, aged three years. The funeral services were held at Tyner's Chapel, conducted by Rev. Watson, of Salem, after which the remains were laid to rest in the cemetery at Tyner's

Chapel. Mr. and Mrs. Tyner have the sympathy of their friends in the loss of their darling child.

Mr. and Mrs. Wm. Jacobs, of Carrsville, attended the funeral of her father, Robt. Mahan.

Mr. and Mrs. James Gibbs, of Pinckneyville, attended the funeral of little Virginia Tyner.

We know some people that from their actions seem to think that they will never be called on to face the grim reaper.

The funeral service of Mrs. Davis, was conducted by Rev. Franks, of Pinckneyville.

CARD OF THANKS.

We wish to sincerely thank from our hearts the kind friends and neighbors, who so kindly ministered to us in the sickness and death of our dear husband, father and brother, Robert Mahan. May He, who has said that he will be a husband to the widow, a father to the orphans, be with them when they are called to pass through the deep waters is the prayers of the Widow, Children and Sisters.

Fluor Spar, Lead Zinc etc.

[By F. Julius Fohs, M. E. Phd.
Mining Geologist and Engineer.]

In Western Kentucky, fluor spar occurs more extensively than elsewhere in the United States, and has zinc, lead, and barytes associated, all valuable and by-products. In the same region there is an abundance of low-phosphorous iron ores. Lack of proper transportation facilities has been a chief drawback to the development of these deposits.

The district lies between the Tennessee river and the Western Kentucky coal field, is 80 miles long and 50 miles broad. It includes Crittenden, Livingston, Caldwell, Lyon, Trigg and Christian counties, developments having been largely confined to

the first two.

The elevations range from 300 feet in the river bottoms to 750 feet tops of ridges with an average altitude of 500 feet. Mississippi lime stones and sand stones cover most of the district, conglomerate and coal measure rocks being confined to the eastern edge and a few scattered outliers. The Quarternary clays and gravels are prominent chiefly west of the Cumberland river and where these are present all trace of the fluor spar veins is covered. Sandstones where in proximity to the veins occur altered to quartzite, a great help in locating the deposits.

The district underwent both regional and local disturbances with attendant faulting, subsequent intrusion of igneous dikes and later, the deposition of minerals from ascending heated solutions along the faults and dykes. The faults and fractures are arranged along zones, often several miles long, while the individual veins are less than 1,000 feet long. The veins occur in sets of parallels, either in step-fashion or intersecting, and strike both north-east and north-west, and while all carry more or less mineral, most of the mines are on the north-east fissures.

Fluor spar is the principal mineral mined. Calcite is next in abundance, but is not saved. Barytes occur locally with no able amount, and in some of the minor veins is intergrown with the fluor spar; however, few of the veins carry barytes. Zinc blende occurs in varying amounts in parts of the veins, sometimes as much as 15 or 20 per cent usually 5 or 10 per cent. Above water level the zinc blende is often altered to zinc carbonate of which considerable quantities have been mined at a few points. Galeson seldom make up more than three per cent of the ore.

The deposits occur filling open fissures some partly replacing the wall rock, while still others cement the fractured rock particles and constitute braccias. The largest ore and spar bodies are found in the locality more fractured parts of the district and where the wall rocks were suitable to deposition. The deposits extend practically to the surface in all instances, there being usually less than 15 feet of surface covering. The deposits above water have been subjected to weathering. The ore bodies in some instances go to a depth of 2000 feet. The change of mineral with depth depends chiefly upon wall rock. The veins show no decrease of fluor spar with

depth, the greatest mined, —500 feet—showing a vein still 20 ft wide.

The district contains fully 200 million tons of fluor spar, two-thirds of which occur in Crittenden and Livingston counties, an amount ample to supply all American demands for more than six centuries to come. Out of the 225 mines and prospects in the district, 130 occur in Crittenden and 50 in Livingston, and of the total, 70 have been producers, chiefly in the counties named.

The total production, 1896 to 1911, inclusive, of fluor spar has been 165,000, whereas the 100,000 annually consumed in America (chiefly in iron and steel plants) could easily be supplied by 20 properly developed mines with adequate transportation facilities and overcoming the present freight rate discrimination. Lead and zinc ores are often sufficient to add materially to the profit of fluor spar mining and in some instances occur in ample quantities to be profitable in themselves, especially since a commercial separation of fluor spar and zinc blende is now possible. "Whereas less than 175 men are now employed in the district with proper transportation facilities—such as an interurban would give—the industry would support 500 employes and yield about five times the present output."

In southern Livingston, northern Trigg, southwestern Crittenden and northern Lyon, that portion of the district where the fluor spar deposits are either covered or absent, iron ores of excellent quality occur. These ores are kidney ores, averaging 45 per cent iron and often running 55 per cent and are especially noted for their low phosphorus content, hence their high reputation for boiler plate iron. Owing to poor transportation facilities and difficulties under such conditions of bringing coal to them, these deposits are not now being worked. They occur as pockets in the red clay above St. Louis limestone, often associated with chert to some extent. With the fluor spar an abundance of high-grade limestone flux, the proximity of coals of the Western Kentucky coal field, and these high-grade iron ores, the additional transportation facilities given by the interurban will be a great step toward making the district an iron and coal producer.

Deadly Thunderbolt Lays Claim on Live Stock.

The heavy electric storm that

passed over Hardin county, Monday morning appeared to reach the earth with most of its bolts. Much timber is reported struck which will kill or materially damage it.

A fine calf belonging to Samuel Ledbetter, two good milch cows to Mr. Laster, and a fine heifer, to Walter Page was struck and killed, making the loss pretty heavy to the latter.

This has been a very destructive season for electric storms. Perhaps Hardin county has lost five thousand dollars worth of live stock since last March. —Elizabethtown (Ill.) Independent.

What Uniontown Thinks Of Us.

The city of Marion in executive session recently passed an ordinance which makes it a punishable crime to let chickens stray from your own property. It is an up-to-date amendment to the stock law and is certain to bring practical benefits—or cause trouble among otherwise friendly neighbors.

We are not certain as to the underlying cause of this novel law. It may have emanated from a council who were lovers of fowls and considered it wiser to be liable to a small fine for allowing their delicious, minature humming birds (commonly called extra-ultra-spring chickens) stroll into a neighbor's yard than to let him have the traditional right to mercilessly eat them when caught on his place. Or it may have been enacted by men, who, being non-raisers of chickens, prefer the beauty and cleanliness of flowers and shrubbery more than the price of fowls.

Regardless of its origin, however, the city of Marion is to be commended on its spirit of progressiveness, and if they enforce it strictly, there is no reason why it should not assist greatly in elevating civic pride. —Uniontown Telegram.

Ten of the children of the late J. W. Paris were here to attend the funeral Rev. J. L. Paris, and Mrs. Martha Fralick, both both of whom reside in Mo. were unable to reach here. The children ordered a "Blanket of Roses" to cover the mound under which the remains of their beloved father sleeps in the Pleasant Hill Cemetery.

Judge J. W. Blue who went to Edmond, Okla., to attend the funeral of his nephew, Edwin Evans, was delayed in reaching there on account of a wreck being on the road in front of his train, which prevented him reaching Edmond until Thursday.

The Paducah Presbytery of the Southern Presbyterian church will convene in this city Tuesday, Sept. 10.

Card Of Thanks.

To the many neighbors and friends who so kindly assisted us during the sickness and death of our dear husband, father and brother, we extend our sincere thanks for the many favors and attentions shown him while afflicted. We shall never forget your presence help and encouragement. May the rich blessings of our dear Heavenly Father follow you all the days of your life. May life's sweetest pleasures ever be yours and when your head presses a dying pillow may you have friends to administer to you as you have to our dear loved one. May God bless all who gave a helping hand. Many thanks to our physician, Dr. Todd, for his faithful work in prolonging life and alleviating pain. MRS. M. L. STONE, Children and Brother.

Rise in Ohio River Accounted For.

Mrs. Zetha McKinney of near Herrin, Ill., who has been visiting the family of J. H. Oxford the past two weeks, returned home Monday of this week. She is 23 years old, educated and refined, but somewhat diminutive

in size, weighing only 268 lbs. A rather funny incident occurred while she was here in which she is said to have played a conspicuous part. She said J. H. and wife went in bathing somewhere above the Eltown landing and after Miss McKinney had donned her bathing suit and accidentally dropped from their boat into the water there was observed a perceptible rise in the river from Tolu to Rosiclare.—Herald Co. The Only Honorable Way.

The Muhlenburg Sentinel very truly says: The only honorable and honest way to stop a newspaper is to step into or send to the office and pay up all arrearages, get a receipt and have your name taken off the list. To fire your paper back at the publisher marked "refused" when you owe six months, a year or more, and never offer settlement, is not only disreputable but is superlatively dishonest as well.

Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Cost of Bad Roads.

It costs twenty-three cents to haul a ton of farm produce one mile over semi-improved roads. Over gravel or stone roads it costs a fraction less than ten cents. If a farmer's average haul to a shipping point is nine miles he must spend three cents extra for every bushel of wheat he hauls to market, because the

county does not build good roads.

At twenty bushels to the acre and fifty acres of wheat the farmer raises 1,000 bushels of wheat. Thus he must spend as a useless, senseless bad-roads-tax \$30 every year on wheat alone. If every farmer in Union county were taxed one and one half cents for each bushel of wheat he raised, and for this were guaranteed good roads, the heavens would hardly hold the sound of mighty protest. Yet he would be saving half of what he now throws away.—Uniontown Telegram.

Greatly Disappointed.

Mrs. Harriet E. Peyton, of St. Louis, Mo., who was Miss Harriet Love before marriage, is visiting Mrs. Maggie Love and family near Sheridan. Mrs. Peyton expected to be present at the Love reunion, but was unavoidably delayed on her trip, and failed to arrive on time—reaching the ground after most of the family had dispersed. She was greatly disappointed, and her relatives regret the loss of her presence. Had she been present, there would have been children to represent each of the four Love brothers:—Andrew, Arthur, William and Robt. who were children of the Loves that first settled in this country. Mrs. Peyton is the only living child of Robert A. Love.

Mr. and Mrs. Lockett Love and son, Loren, of Cartersville, Ill., are visiting Mrs. Maggie Love, of the Sheridan neighborhood. They left Cartersville on the morning of Aug. 17th, hoping to arrive in time for the Love reunion, but the boat failing to arrive on time, made them too late. Their relatives regret it very much.

Barkleys' Great Achievements.

The achievement of Judge Alben W. Barkley, of Paducah, in winning the Democratic nomination for Congress in the First district, and the certainty that he will be elected to fill Ollie M. James' shoes as the congressman from the Gibraltar Democratic district of Kentucky, is the third step in the remarkable political career of this young man, who is just thirty-five years of age. Serving one term as county attorney, he was elected county judge of McCracken county, which office he is now holding. He is a splendid speaker and has the reputation of being able to hold to his own on the stump with the best of 'em. His friends are certain that he will more than "make good" in Congress, and that he has a long and useful congressional career before him.—Times.

BOONE CO., VS. BELL CO

As to Jailers Expenses And Witness Fees

Boone county holds the unique record of not having cost the

State a cent for witness fees in a felony case in three years. The Jailor of that county has drawn \$140 in the last year, \$60 of which was for fuel and attendance on the court and \$47 for transportation to the penitentiary of one prisoner, who must have plead guilty, as there were no witness fees. E. W. Gaines, claim clerk in the State Auditor's office, who lives at Burlington, declared it is because the county is free from lawlessness, and not through any laxity in the law's enforcement.

Bell county goes to the other extreme, and the office of Jailor apparently pays well. Witness fees for felony cases in Bell in the last year aggregated \$5,058.98. The transportation of prisoners cost \$1,200, while the Jailor drew for the care of State prisoners alone \$7,002.17, exclusive of county and Federal prisoners.—Courier Journal.

Must Use Side Saddles,

"Must use side saddles," a declaration which is scattered through the saddle horse premium list of the Indiana state fair, which opens next week. Formerly women have been using cross saddles, and at the fair last year there was scarcely a side saddle to be seen in the arena of the museum.

"The opponents of the cross saddle use the argument that its use is not conducive to good health, that the cross saddle flatters of manishness which ill-becomes a lady and that horse shows should get back to the old order by requiring the use of the side saddles in show arenas," said Charles Downing, secretary of the fair.

The movement, it is said, does not have the support of the women who frequently appear in the horse shows over the country, but it certainly will have the support of the gentlemen who cling to the modesty and refinement of their mothers and grandmothers. What is most admired by gentlemen, in the fair sex, is modesty and refinement, and many a sweet innocent girl allows the styles and fashions of the day to induce her to follow some one unworthy of being a leader.

Many Driven From Home.

Every year, in many parts of the country thousands are driven from their homes by coughs and lung diseases. WILSON'S SPEECH HIGHLY PRAISED

Press and Public Men Join In
Chorus of Approval.

DISCREET, ABLE, SAFE, SANE.

"Will Impress the Country Favorably,"
Declares William Jennings Bryan.
"Admirable Pronouncement," Says
Champ Clark—"Appeals Strongly to
Every Legitimate Business Interest."
Declares John W. Kern.

An Admirable Speech.
Hon. William J. Bryan—"Governor Wilson's speech of acceptance is admirable. It is original in its treatment of the issues of the campaign. I am sure the address will impress the country favorably."

Appeals Strongly to Every Legitimate
Business Interest.

John W. Kern, Senator from Indiana—"Governor Wilson's speech of acceptance is a masterpiece, setting forth with great clearness his conception of the work to be accomplished by the Democratic party under his leadership. It is in complete harmony with the progressive sentiment of the country, but also appeals strongly to every legitimate business interest."

Will Take High Rank.
Champ Clark, Speaker of the House of Representatives—"Considered from a literary standpoint, Governor Wilson's speech of acceptance will take high rank in the political output of the year. It will make pleasant reading and therefore will prove a fetching campaign document. He discusses the issues of the day philosophically, clearly and forcibly. Its courteous tone will allay opposition and win him friends. It is an admirable pronouncement."

Battle Hymn of Democracy.
Senator Gore of Oklahoma—"The closing sentence of his speech will become the battle hymn of Democracy in the pending campaign: 'I thank God and take courage.' It is at once a hymn of praise and is a summons of patriotic duty."

Discreet, Able, Safe and Sane.
John E. Lamb, ex-Representative from Indiana—"Speech is discreet, able, safe and sane. Governor Wilson believes in the efficacy of the scalpel rather than the big stick. His dissection of trust and tariff evils is unique and convincing. His suggestions of reform in methods of government and reduction of tariff schedules will meet with approval of legitimate business and the laboring masses as well."

Points the Way For Justice.
Hoke Smith, Senator from Georgia—"I am delighted with Governor Wilson's speech of acceptance. It is a superb statement of the present purpose of the Democracy and points the way for justice to all through real progress by law under the constitution. With his election assured, it should give confidence to honest business and new courage to those who need a square deal."

Lays His Soul Bare.
John F. Fitzgerald, Mayor of Boston—"Governor Wilson's acceptance is characteristic of the man. He lays his soul bare to the people and asks them to join with him, irrespective of party. In righting present wrongs without undue clamor or injury to legitimate interests. He lays emphasis on constructive thinking, and I believe this epitomizes one of the nation's greatest needs at the present time. It will be President Wilson overwhelmingly in November."

Progressive, but Not Wild.
Thomas Mott Osborne, Auburn, N. Y.—"Governor Wilson's speech fits the occasion and the man—progressive, but not wild; sane, strong and unmistakably Democratic. It makes an inspiring opening of the campaign, indicating clearly and nobly the spirit in which the leaders of our regenerated Democratic party must work; not one of mere 'partisan make believe,' but of honesty and justice toward all men."

Prophetic of Success.
Governor William H. Mann of Virginia—"I think it was an admirable speech. It was wise, conservative, comprehensive, prophetic not only of Democratic success, but of Democratic supremacy for years to come."

Rings True In Every Sentence.
Governor Frederick W. Plaisted of Maine—"It is a splendid presentation of the issues for the American people. It rings true in every sentence and in every word. It represents the spirit of the Democracy of today. It is the address of a statesman."

An Admirable Presentation.
Governor Eugene Foss, Massachusetts—"It was an admirable presentation."

REVISE TARIFF UNHESITATINGLY
DOWNWARD.

There should be an immediate revision of the tariff, and it should be downward, unhesitatingly and steadily downward.—From Woodrow Wilson's Speech Accepting the Democratic Nomination.

LABOR AND THE RULE OF RIGHT.

The working people of America—if they must be distinguished from the minority that constitutes the rest of it—are, of course, the backbone of the nation. No law that safeguards their life, that improves the physical and moral conditions under which they live, that makes their hours of labor rational and tolerable, that gives them freedom to act in their own interest and that protects them where they cannot protect themselves can properly be regarded as class legislation or as anything but as a measure taken in the interest of the whole people, whose partnership in right action we are trying to establish and make real and practical. It is in this spirit that we shall act if we are genuine spokesmen of the whole country.—From Woodrow Wilson's Speech Accepting the Democratic Nomination.

tion of the real issues upon which the campaign will be fought this fall. I think that it is bound to strengthen Governor Wilson among the thinking people of the country."

Will Ring Through the Country.
Governor George W. Donaghey, Arkansas—"It was a great speech. It will ring through the country. It is just what he should have said. The people have never felt more confident of success since the first nomination of Grover Cleveland."

Iowa For Wilson.
Judge Martin J. Wade, Iowa—"For the first time since the state was admitted to the Union Iowa will this year give its electoral vote to the Democratic nominee for president."

Jeffersonian to the Core.

John A. Dix, Governor of New York—"Governor Wilson's speech of acceptance is marked with broad vision and clear thought, expressed in language every American can understand. As a business man and manufacturer, I am especially pleased with his positive and statesmanlike position on the paramount issue of tariff reform and his demand for an immediate downward revision. In sincerity, precise statement and comprehensive grasp of great principles and their application of the fundamental needs of the country the speech is Jeffersonian to the core. It contains no appeal to passion and excites no prejudice. Governor Wilson has presented to his party and to the nation clear conception of the truth that the real struggle in the pending campaign is between the concentrated powers of privilege and the aspiration of the American people to realize in their government and their economic industrial and social relations the full measures of the principles of freedom, justice and progress, upon which the republic was founded. To all the issues and every national need Governor Wilson applies the rule of right and common advantage. The reforms he advocates are far-reaching, but they are necessary, sound and practical. The speech will awaken and stir the national conscience and lead to a triumph that will restore to the people the control of their government and inaugurate a new and happier epoch in the life and development of the republic."

Worthy Leader of Progressive Americans.

Louis D. Brandeis, Boston—"Governor Wilson's speech of acceptance is the utterance of a twentieth century statesman. With keen perception he recognizes the evils from which the people are suffering and the dangers which threaten our welfare. With broad vision he points the way by which those evils may be removed and the dangers averted. He proves his understanding alike of business and of social needs and that he is a Democrat in fact as well as in name, and his courage is undoubted. Progressive Americans have in him a worthy leader."

Equable and Moderate.

New York Sun—"Governor Wilson's speech of acceptance has good luck as well as merit. It comes just in time to contrast sharply with the interminable bedlamite rant of Th. Denatus Africanus Perot. And, if without contempt of campus it may be said, though written by a college president very recently retired, it is in the English language, not anaemic and seldom with suspicion of priggishness or donnishness, though it has an air, a certain academic distinction of its own. What will please everybody who has a living to make is Governor Wilson's equable and moderate tone. Governor Wilson is for repair, not for destruction."

Partnership of the People.

New York Times—"It is applicable. The dominant thought, the very soul of his discourse, is the common interest of all the people, their partnership in our activities and our prosperity. The partnership idea comes from his mind not as a sublimated political theory, but as a practical, immediate remedy."

Straight to the Heart.

New York World—"Woodrow Wilson's speech of acceptance is the ablest, clearest, sanest statement of high public purpose this country has known in a generation. Without passion, without invective, without abuse, without partisan bitterness, without denunciation, without egotism, without demagoguery, he has driven straight to the heart of the supreme issue of American institutions—the partnership between government and privilege."

KILL THE PEACH BORER NOW

Do Not Wait Until Spring, for Then Eggs Will Be Hatched and Insects Scattered.

(By W. H. UNDERWOOD.)
Go to your blacksmith with a ten or twelve inch flat file and have five or six inches of the small end made into the shape of a sharp-pointed knife blade with one side of the blade flat and the other half round. Both edges of the blade must be sharp. Bend this blade to a crescent shape, with the flat side on the inside of the bend. Put a good handle on and you have an instrument with which you can sit down to a tree and scrape all sides of it without moving. The diameter of this bend should be at least three inches.

After the first frosts, go through the peach orchard with this little

File for Scraping Trees and Half-Diamond Hoe.

Instrument, scraping the bodies of the trees at least two inches from the surface of the ground.

A small diamond or half-diamond shaped hoe, with a handle not over two feet long, is another tool you must have to get over the trees rapidly.

In the late fall, most all eggs have hatched out, and most of the little grubs will be between the earth and bark, within a few inches of the top of the soil. In scraping the rough bark or outside of the bark of the tree, you will get 95 per cent. of them.

In the spring go over the trees again. In three or four days after going over the trees the second time, go over them a third time. Then you can readily see all you have missed the second going over. In the third going over draw the soil back from the trees, leaving the dirt a little the lowest at the base of the trees.

The Men who Succeed

as heads of large enterprises are men of great energy. Success, to-day, demands health. To all is to fail. It is utter folly for a man to endure a weak, run-down, half alive condition when Electric Bitters will put him right on his feet in short order. "Four bottles did me more real good than any other medicine I ever took," writes Chas. B. Allen, Sylvania, Ga. "After years of suffering with rheumatism, liver trouble, stomach disorders and deranged kidneys, I am again, thanks to Electric Bitters, sound and well." Try them. Only 50 cents at Haynes & Taylor's and J. H. Orme's.

The Kerry Cow.

The Kerry cow is a light framed cow of varying size, but generally smaller than the Ayrshire. She is black in hair. The Dexter, although derived from the same stock, is quite different, being thick and blocky, and in color may be either black or red. Both of these cattle are particularly good dairy cows, doing well in moderate feeding and giving surprisingly large quantities of milk, very rich. Many Keries give quite as rich milk as is produced by the Jersey. The Kerry does not fatten kindly until she has reached full age, but the Dexter may be fattened younger.

BEET SUGAR INDUSTRY YIELDS RICH RETURNS

Annual Output in Colorado Alone Is \$14,000,000—Farmers Receive \$5,000,000.

From carefully compiled facts and figures the total investment in the seventeen beet sugar factories in Colorado is found to be \$19,250,000. From the same source of information it is learned that the annual output of these factories is approximately \$14,000,000, and the sum paid by the factories to the farmers is more than \$5,000,000 each year.

These factories are operated by companies, but plans are under way for the building of several factories on a co-operative basis.

To the farmers the sugar factories offer a dependable market. The price of beets is arranged before the crop is planted and is based upon amount of sugar they contain. Contracts with farmers are signed in advance of planting. This year the price is \$5 per ton for beets which contain less than 14 per cent. sugar, and a corresponding increase is allowed for a higher sugar content.

TRACTION ENGINE RUNS AWAY

And Man is Injured While Trying to Save Horse.

Eddyville, Ky., Aug. 29.—T. J. Baldwin, a member of the County Board of Magistrates, was injured painfully on his shoulder, arm and hand in attempting to protect his horse and buggy from a runaway traction engine.

The engineer lost control while coming down Penitentiary Hill, and to save the engine from running through the town headed it for a telephone pole eighteen inches in diameter to which Mr. Baldwin's horse was tied. In trying to save the horse Mr. Baldwin was caught in the wreck. The pole was broken in two, but it nevertheless saved the engine from being dumped over the bluff into the river.

The beet sugar companies have a large number of forty and eighty acre farms that can be rented either on shares or for cash. Expert advice is given, free of charge, relative to planting, irrigating and cultivation.

Both soil and climate in Colorado are exceptionally well adapted to the production of sugar beets. Water for irrigation provides the best insurance against droughts. The soluble salts of the soil have not been leached out by excessive rains, and during the growing season there is a maximum of sunshine.

Beets should be rotated with other crops such as alfalfa, wheat and potatoes. Alfalfa especially is necessary, as it acts as a fertilizer and is the basis of all general farming in Colorado. Cattle raising and dairying are natural adjuncts to the beet sugar industry. The beet tops, pulp and molasses can be made to add to the earnings of the farm when used for the fattening of stock or for the production of milk.

Beet growing, therefore, is becoming recognized as an important factor in the productive capacity of the farm rather than as a specialty in agriculture.

Earl McChesney and Noel McDowell, two of our enterprising young farmers, were in Marion on business Saturday.

On The Old Stinson Place.

James P. Jones and W. D. James have as fine a corn crop on the old Stinson place one mile from Marion on the Cave-in-Rock road as ever grew anywhere. Jim says, is the "Yellow Pryor," and "White Burley" grade and the ears are full, sound and extra heavy. As this farm has been in cultivation as long probably as any land in the county it goes to show that land, if taken care of, will produce fine crops indefinitely.

Few, if any, medicines, have met with the uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers.

HEBRON.

After school Friday evening Hebron accepted Fords Ferry's challenge to play ball on the latter's ground. Fords Ferry lead in the first two innings, but after that Hebron kept just a little in the lead until the eighth inning, when the score was even. By some extra good batting in the ninth inning Hebron won. Both teams conducted themselves admirably and the game was absolutely clean from start to finish. The great plays were made 1 by John Underdown, (Hebron) when he batted a high fly over the fence, scoring two men besides his own home run. 2 Sam Barnes, (Fords Ferry,) while playing short stop on a dead run made a one hand catch of a "liner," driven over the pitcher's head.

Quite a number from here attended the camp meeting last week.
