STEMMING TOBACCO ASSOCIATION POOL

Will Continue; District Board Met Oct., 3.

After The Canvass More Than 75 Per Cent of 1912 Crop of Five Counties is Pooled.

STATEMENT BY THE BOARD

The following statement was prepared by the board Thursday night:

To the Members of the Stemming District Tobacco Association:

Gentlemen:—We your district board met in association office today, October 3, and canvassed the pooling of the 1912 crop as reported by the several solicitors and are glad indeed to report to you that fully 75 per cent of the tobacco of the five counties has been pooled with the Stemming District Tobacco Association.

We also extended the time for the closing of the books to October 20, that you might make the pooling of this crop unanimous by getting these of your neighbors who have not already pooled to do so at once, thus enabling us to present one united and solid body of co-operating farmers to the buyers.

Very respectfully,
F. I. Travis chairman and member from Crittenden county.
R. H. Sellers, chairman and member from Henderson county.
I. G. Nance, chairman and member from Webster county.
J. B. Lynn, chairman and member from Union county.
C. L. Brown, chairman and member from Hopkins county.

Appeal to Record-Press Readers

Marion, Ky., Oct. 7.—Kind Editor, We feel sure that you will honor us with a small space in your valuable paper.

We Baptists of this "new homestead country" have organized a Church and pledged ourselves to make a brave effort to build a place of worship. We are weak two ways—in membership and financially, therefore we appeal to you for needed assistance.

We ask nothing great—just a small amount will help and encourage us wonderfully. We are soul-hungry for a modest place where we can meet regularly and do something that will help the "betterment" of ourselves and country.

Pastors, one and all, let us hear from you and your churches. We are actually expecting aid from these particular ones we have known personally, W. R. Gibbs, T. C. Carter, Robt. LaRue, J. J. Frank, M. E. Miller, T. A. Conway.

There are many preachers who are dear through relationship and personal acquaintance, so please help us if you can.

Thanking you, kind Editor, for the space you have so liberally given us, trusting the many who read this will favor us with needed help, we are your friends and brothers made dear through the relationship of Jesus Christ. For His sake we ask this of you.

Faithfully yours,
Mr. and Mrs. F. E. Clark,
Cone,
Union-County, N. M.

FALLS DEAD.

Mrs. Sadie Threlkeld Drops Dead In Salem At The Home of Her Son, Edgar.

Mrs. Sadie Threlkeld, a sister of Messrs. E. B. and S. H. Franklin, of this city, and Mrs. Lucy Davidson, of the Levias section, dropped dead at the home of her son, Edgar, in Salem Saturday night at 7:20 o'clock. She was not ill and her death was caused by heart failure. She was seventy-six years of age and widow of the late James Threlkeld.

She was a member of Union Baptist church, and her interment took place there Sunday afternoon, Rev. M. E. Miller, officiating.

She is survived by seven children: Messrs. Edgar, Anthony, Brack and Glad Threlkeld, all of this and Livingston counties, and Mesdames Nelson, of Okla., Hardy, Dawson Springs, and Magil, of Arkansas.

Mrs. Threlkeld recently visited here and was entertained at a family reunion by her niece, Mrs. Kate Yandell, wife of T. J. Yandell, cashier of the Marion Bank.

Rev. Love and Wife Move to Greenville.

Rev. R. C. Love and family bade us people goodbye yesterday, after having been here two years. They go to Greenville, Ky., and probably the good old brother will not be placed on any charge for a year or more, and in the meantime he will have the opportunity of availing himself of a much needed rest and recreation during his vacation. We regret to lose these good old people, but duty calls and they must obey. The community that is so fortunate as to get them, has made a splendid acquisition to their citizenship. —Carrsville Enterprise.

Big Real Estate Deal.

Dr. George W. Stone has sold his farm and residence near the city to James Seth Henry for \$5000.00. The place contains 42 acres and has a barn, new residence and stable. Mr. Henry desires to sell his town house and will occupy the suburban home acquired in above mentioned purchase. Dr. Stone contemplates locating in the west, but has not decided on a location.

Only 28 Counties of 120 Have Forwarded Trees to Date.

Frankfort, Ky. Oct. 3.—Twenty-eight county judges have notified State Forester. J. E. Barton that they will send the trees designated for their counties to plant in the arboretum in the rear of the state capitol, November, 13, as follows: Adair, Allen, Boone, Bourbon, Caldwell, Calloway, Campbell, Carlisle, Floyd, Hardin, Hart, Lawrence, Leslie, Lewis, Livingston, Madison, Magoffin, Mercer, Mason, Marion, Ohio, Perry, Pulaski, Rowan, Scott, Trigg, Union and Woodford.

Cumberland Presby'n Delegates

A large delegation of Cumberland Presbyterians from Union and Webster counties in autos and other carriages, accompanied by Reys. Price of Providence and Barbee of Greenville, passed through Marion, Tuesday, enroute to attend Presbytery at Hopewell church in Livingston county. They distributed themselves to the Gill House and other hostleries for refreshment and resumed their journey, expecting to return Friday.

NEW MAYOR

For Marion; Judge J. B. Kevil Elected By The Council Tuesday Night.

At the regular meeting of the City Council, Tuesday evening, the resignation of Mr. T. H. Cochran, was handed in and was accepted. Councilman Venner nominated former Judge J. B. Kevil and he was elected unanimously to fill the vacancy during the unexpired term of Mayor Cochran.

Mr. Kevil needs no introduction to our people. His integrity has never been questioned and his fairness when Judge was generally recognized. His qualifying for Mayor just at this time is opportune, as the city is soon to build water works and no man could plot the city in a more systematic way for streets, water works or any engineering enterprise. He is accurate almost to a fault and his official life will bring honor to the city as well as to himself.

RAY HUGHES ACCIDENTLY KILLED

Tuesday Morning at The Franklin Mine.

Accident Occured When A Falling Timber or The Tub Fell Killing Him Instantly.

SHOCK TO THE COMMUNITY.

Ray Hughes, second son of Mrs. Alice Hughes of the Levias section, was accidentally killed in the "Franklin mines" Tuesday morning at 9 o'clock, by the falling of the tub or a piece of timber which struck him.

He was 21 years of age and is survived by two brothers, Rush and Roy besides his mother who is a widow. He was a good boy and a great help to his mother.

Mrs. Hughes recently purchased a lot here in the Pierce addition and contemplated building and locating here where her sons would have the advantages of the city. The shock to her was terrible and her friends are in deep sympathy with her. Mrs. Hughes is a sister of J. M. Ellison, the well known farmer of the Levias section.

The New Road Law.

The new road law makes it a misdemeanor for any one to obstruct the public highways by cutting trees, leaving carcasses, wood, logs, fences or material of any kind in ditch or waterway along a public road. Any person who shall kill a tree and leave it standing within 50 feet of the road, destroy a foot-log across a stream, or deface any guide board, shall be fined not less than \$10.00 nor more than \$50.00.

Any person who shall ride or drive faster than a walk on any bridge, shall be fined \$5.00.

The fiscal court fixes the number of stock of any kind which may be driven over any bridge and notice of same must be posted on bridges. Any person who shall use on a public road not covered with ice a vehicle with a chained wheel unless the same rest on an ice-shoe, at least six inches wide, shall be fined no more than \$5.00.

Any person who shall draw upon the road any log or stone so that the road, shall be injured thereby, shall be fined not more than \$5.00 in excess of the cost of repairing said road.

Any driver of any vehicle who is overtaken by another vehicle, who desires to pass, shall turn to the right for that purpose or be fined \$10.00.

If any horse race be run upon any public road, all parties interested, will be fined not less than \$10.00 nor more than \$50.00.

The County Road Engineer, if he shall refuse to prosecute for any penalty provided in this chapter, knowing the same to have been incurred, shall be liable to a penalty of \$25.00 for every such neglect or refusal. The public will please take notice.

M. A. WILSON,
County Road Engineer.

WHAT IS NEEDED

TO IMPROVE OUR RURAL SCHOOLS—PARENTS MUST TAKE INTEREST.

Mrs. Verlie Koltinsky Writes Interesting Letter on Educational Conditions.

Most of the rural schools of the county are now in session and all along the dusty highways are seen the boys and girls trudging to their district school. Their eager happy faces are suggestive of surpassing aptness, yet many of them wend their way to unattractive and poorly equipped schools.

But the question, "Why should Union county have within its domains one neglected school?" Not because of the inferior intelligence of our boys and girls, because whenever opportunity has been given them, they have demonstrated the fact that they are the flower of Kentucky childhood.

It is only the people themselves who can better the conditions of their district school. The county superintendent can't do it, the teacher can't, neither can the trustees unless supported by the help and co-operation of the people.

Community interest is the key note of a successful school. Whenever in this county there is a community in which the people have awakened to the fact that the education of their boys and girls is paramount above every other interest, they have turned to the school as an institution that demands their attention.

The people of the average community think that when they have met and elected a trustee that their duty is ended and they literally wash their hands of the school and its affairs. If the school house is in a bad condition if it has not the necessary furnishings, if the outbuildings are in the last stages of earthly existence

that doesn't concern the people—so they think. Such petty annoyances should not be thrust upon their attention but should concern the trustee, and teacher only—and oftentimes it concerns only the teacher.

So long as there is a community where the people are in such a lethargy, so long will the school of that self-same community remain unimproved. Water cannot rise above its level. . . . either can the school rise above the ideals of the community. The school is a social institution and always represents the ideals of the people. Therefore it cannot become progressive until the people first become progressive in their educational ideals.

Patrons of the rural schools, now and then take half an hour of your time and visit your school. Ask the teacher if you can help her. See if she even has necessities and conveniences, much less helpful equipment. If she hasn't ask yourself whose duty it is to supply these needs. Is it the duty of the county board or the county superintendent to put equipment and supplies into the schools when the people are not interested enough to care whether they are there or not? No. The people themselves must realize their needs before they can appreciate what is given them.

It is the duty of the parents to visit the schools and see the conditions that surround their children during their absence from home. Let them see in what way the teacher is handicapped and if she is laboring to elevate their boys and girls amid surroundings repulsive to their aesthetic senses.

Some districts have already felt an educational awakening and the people have turned their attention to their district school. Improvement Leagues have been formed and by the co-operation of teacher and patrons great results have been attained. These are the progressive communities and they have made their schools progressive.

These schools are, and should be demonstrations to every other school in the county. The county board and the superintendent

have expressed their appreciation of the work done in these districts by making their schools models showing what can be accomplished when the people volunteer their help and interest.

So it is the resourceful idea of Mr. Hammack, our superintendent, to have the teachers from other districts visit these demonstration schools for a day now and then in order that they might see the fruits of co-operation efforts of teacher, patrons and pupils. A teacher coming from a less progressive district may take back many helpful ideas that may aid her in calling the people's attention to her own school.

Every teacher will put forth her best efforts when she knows the eyes of the people are upon her, not for criticism, but for an appreciation of her efforts. She will bring her best resources to the front in order that she may win the approval of the community.

Therefore, patrons, go to your teacher and tell her that your eyes are upon her and offer your sympathy and help. She will make you a better teacher.

Oxygen Cars on The Andes Railroad.

The new railroad climbs up from Tacna a pretty steep wall in surmounting the volcanic chain of the Andes. In some places the grade is six feet. In consequence the rack and cog system has to be used. The place where the ridge of the coast range is crossed is a little more than 14,000 feet. A novel idea is to be introduced on this road for the benefit of passengers. I have frequently described the soroche, or mountain sickness, from which few travelers in the Andes escape. It is sometimes called the land form of sea sickness. One gets over it in a few days, but in a short journey the sickness is very acute and for persons of weak heart is somewhat dangerous. To overcome the effect of the quick ascent and the great altitude it is proposed to have oxygen compartments in the passenger cars. Passengers in these compartments will have in the air they breathe the same proportions of oxygen as at sea level.—Christian Herald.

BOY GIVES LEG TO SAVE GIRL'S LIFE

Skin of Crippled Limb Is Grafted on Young Woman.

Gary, Ind., Oct. 7.—William Rugh, the crippled Gary newsboy, today parted with his useless leg in order that the skin might be obtained to save the life of Miss Ethel Smith, 18 years old, who was burned in a motorcycle accident.

Rugh and Miss Smith were placed on adjoining tables in a local hospital. One hundred and fifty square inches of skin was transferred from the boy's useless leg, after which it was amputated.

Letters protesting against amputating the newsboy's leg were received from all over the country. It developed that Dr. J. Craig, the surgeon-in-charge, was to have been married today to Miss Mary Arnold, of Lebanon, Pa., but that he hurried back to Gary when the operation became imperative. The wedding will take place shortly.

PAID IN PENNIES

40,000 Turned Over in One Deal For Rochester Property.

Rochester, N. Y., Oct. 9.—A chest containing 275 pounds of pennies is on deposit at a bank here today to the credit of Carl W. Stordant, a real estate man. The pennies, more than 40,000 in all, were turned over to Stordant as an initial payment to bind the sale of a downtown restaurant. The purchaser, a cafe owner, had taken in the pennies over his bar during a long course of years. He had made a habit of brushing all the pennies he received into a slot which connected with a chest in the cellar.

Zebra Handsomest Animal.

The zebra is, perhaps, of all quadrupeds the best made and most beautifully clad by the hand of nature. To the figure and graces of the horse, it adds the elegance of the stag; and the black and white bands with which its body is ornamented are arranged with such wonderful symmetry that we might almost be disposed to imagine that rule and compass had been employed in their formation. Those alternate bands are narrow, parallel and exactly separated. They extend not only over the body, but the head, thigh and tail. They follow so exactly the contour of the different forms that they exhibit the entire figure in the most advantageous point of view. In the female these bands are alternately black and white. In the male they are black and yellow, but always of a lively and brilliant tint. They also rest upon a ground of short, fine and copious hairs, whose luster considerably augments the general beauty of the colors.—Kansas City Star.

WOULD NOT SURPRISE OLLIE.

Senator-elect the Hon. Ollie M. James of Marion, Ky., was a guest of the Seelbach Hotel today enroute to his home in Marion, where he will rest up a bit before going to the West for a long speaking campaign.

Mr. James has been assigned to deliver a number of speeches in Indiana and then goes further West. He will remain in Marion several days and suck lemons to get his voice in trim, and as soon as he is in condition start his tour.

"It looks as if Wilson will carry Kentucky by 100,000" said the big Congressman this morning, "and is going to get a big Republican vote. Mr. Wilson is as progressive as any progressive, and you will be surprised at his vote here this fall.

"A man who cannot see a Wilson victory ahead of us this year must be blind."—Louisville Evening Post.

Brothers Executed for Murder of Negro.

Eddyville, Ky., Sept. 27.—Two negroes Charles and James Smith, brothers, were executed in Eddyville prison this morning for the murder of an aged negro at Maysville some time ago. Charles Smith went to the chair first and was electrocuted at 4:15 while his brother paid the death penalty at 4:33. Both made brief speeches before the current was turned on.

The executions were witnessed by fourteen persons, officials of the prison and attending physicians and accomplished without a hitch, each man being pronounced dead in less than two minutes.

When you feel discouraged, confused, nervous, tired, worried or despondent it is a sure sign you need MOTT'S NERVE RINE PILLS. They renew the normal vigor and make life worth living. Be sure and ask for MOTT'S NERVE RINE PILLS. Price \$1.00 by druggists.—Williams Mfg. Co., Props. Cleveland, Ohio. Sold only by J. H. Orme, Marion, Ky.

ARMAGEDDON.

We have had many inquiries as regards the word "Armageddon."

don" and its meaning. The use of this word by Col. Roosevelt and others in the sense of the last stand between the forces of good and those of evil, or the final battle between the armies of light and those of darkness at Armageddon seems to have been taken from Revelations, chapter 19, verse 16, as follows:

"And he gathered them together into a place called in the Hebrew tongue Armageddon."

Roosevelt And Lincoln.

Mr. Roosevelt says that his best policies are borrowed from Lincoln. It would be more accurate to say, Lincoln, Nebraska.

My Policies and Taft's.

The Globe says that prosperity can only come with the election of President Taft, and a continuation of his policies. and President Taft says that his policies have been merely a continuation of the policies of his great and good friend and predecessor, Roosevelt. Yet the Globe stoutly insists that the election of Roosevelt means disaster to the farmer and every business interest of the country. Why then prescribe another dose of the same medicine? The truth is, the policies of either of the gentlemen named are of little concern to the Globe and its legion of Editors. The postoffice in Marion and some minor federal offices is what they desire and they know, irrespective of change of policy, that the election of Roosevelt would mean another master at the crib where they have so long been accustomed to feed.

But the people generally know that what President Taft says is true, and his policies and Roosevelt's are identical. The same corporations that elected Pres. Roosevelt by contributions of millions of money, elected Pres. Taft as his successor in the same mercenary and fraudulent way. Monopoly grew apace in each administration, and under neither one has any effort been made to afford any real relief to the people from their extortion. These same monopolies are supporting Taft and Roosevelt because they expect the benefits to continue if they are elected.

Cheap Wheat.

The Globe asks the people to vote for Mr. Taft to "keep the bars up against Canadian cheap wheat growers." The Globe writes

er evidently did not stop to consider that three-fourths of the wheat in Canada is grown by Americans who in recent years have moved there from the Northern States. It will be news to these American farmers to know that this move has cheapened either them or their labor. The Globe editor has also overlooked the fact that these Canadian wheat growers are content with their market, and perfectly willing that Mr. Taft should keep the bars up against Canadian wheat! Our people have not forgotten that only last year the Canadians overwhelmingly rejected Mr. Taft's proposal for reciprocity, under the terms of which their wheat and all other farm products would have been admitted into this country free of duty. If the Globe wants the bars kept up against Canada, how can it advocate Mr. Taft's election? Free trade with Canada on wheat and all other farm products, was and is Mr. Taft's hobby, and he introduced and signed a bill with these provisions, and it would be a law but for its rejection by the Canadians. Singular, is it not, that the thing the Globe most fears, and which in its opinion would be most harmful to the farmers of Crittenden County is advocated and most strongly urged by its candidate, Mr. Taft.

The Owensboro Inquirer thus discusses Republican Discontent. The argument is being made by the stand-pat Republicans that the latter are composed of those who are discontented with the Republican party, which is true, but instead of its being an argument against the progressives it is a strong one in their behalf. It is discontent with the present order of things that results in new political organizations for the betterment of the condition of the people.

Discontent has split churches, resulting in the organization of new religious bodies, and who will say that the cause of Christ on earth has been retarded by it? Discontent has overthrown monarchies and brought about rule by the people—a wholesome discontent indeed.

Discontent brought about the American revolution which freed the American colonies from British rule, a case in which discontent resulted in the founding of the greatest republic and the greatest nation the world has ever known.

Discontent is the check to cor-

rupt rule. The stand-patters realize the danger of the Republican party, and they increase the danger by confessing the fact that discontent is the cause of the party split. Of course it is discontent. Discontent with robbery of the American people in behalf of foreigners and the trusts.

Discontent with broken pledges and promises. Discontent with class legislation. Discontent with graft and bribery. Discontent with every kind of corrupt practice in elections and conventions. Discontent which is going to put the Republican party out of existence.

Ability And Liberality.

There is hope of the Globe yet. It is honest enough to admit supply and demand have something to do with the price of products. It should have added that supply and demand affect the labor market to the same extent. If it will now be honest enough to let the people know how certain great monopolies have been given special tariff rates because of their enormous contributions to Republican campaign funds and how in this way supply and demand have been artificially controlled, it will earn a prize for frankness. But the Globe goes entirely too far when it says in the next sentence that these favored monopolies do pay high wages to the laboring man and high prices for farm products merely because they are able to. There is no protection against the imports labor of Europe. It comes in hordes day after day at every American port, and constantly depresses the labor market. Neither the Republican party, nor Mr. Roosevelt, nor Mr. Taft has ever proposed a tariff to protect the American laboring man against the increasing supply of European labor. And no corporation has ever been known to pay any more for its labor nor for the produce of the American farmer than compelled to. Organized labor has had to fight and organize, fight and organize, unceasingly to get the wage it now receives.

Although tariff duties on tobacco range from 25c to \$1.00 per pound, and this duty has been maintained for the last 15 years, yet the Crittenden County tobacco grower knows that the American Tobacco Company has never been willing to pay him what it was able to nor what his tobacco was worth, nor any more

than it was compelled to pay. Nightriding did not frighten it, nor Taft prosecution deter it. Nothing but close and compact organization of tobacco growers has ever been able to take from the trust a commensurate price for their tobacco.

The American Woolen Company with headquarters at Lawrence, Mass., is, perhaps, the most highly favored monopoly. It has always been permitted to write with its own hands the woolen schedules, and of course they have been ample. So far as ability to pay is concerned, one would think its laboring people were the highest paid and their living standards the very best, yet, we know that Lawrence, Mass., has been under martial law for the last two years, because of the strike among its laborers to force the American Woolen Company to pay them wages sufficient to afford a decent living. Ill clad and underfed, these Lawrence laboring people are dependent upon the charities of their more fortunate brethren in other parts of the country.

It is mighty poor logic to conclude that because one is able to pay, he is therefore willing to do so.

LYCEUM COURSE

For Our Community This Season
a Notable One.

A Feast of Good Things in Entertainments That Will Not Only Entertain, but Instruct and Inspire.

A feast of good things in entertainments that will not only entertain, but instruct and inspire, has been arranged for our community this season. The Lyceum course is becoming more and more a permanent institution in every town and city.

Some communities which have had a Lyceum course for years boast of a larger per cent of their young people in colleges than towns of similar size in the same localities which have not maintained a course. Many of our national problems, now considered paramount, were first presented in a forcible manner to the American people from the Lyceum and Chautauque platforms. Much also has been done to elevate music and the entertainer's art from these platforms and to abolish or decrease the attendance upon mediocre and questionable shows.

The course of entertainments which are to appear here this season is booked through the Redpath Lyceum Bureau, the oldest and largest Lyceum in the world. The course will consist of the following attractions:

Nov. 11, Colby—Cartoonist.
" 21, Taggart—Entertainer.
Dec. 3, Fletcher—Lecturer.
Jan. 6, Dr. Colledge—Lecturer.
" 30, Musical Favorites Quartet.
Feb. 25, Smith Damron—Potter Craftsman.
Mar. 4, Skovgaard—Violinist.
" 6, Music Makers' Quartet.
" 14, Lybarger—Lecturer.
Apr. 3, The Anitas—A Singing Orchestra.

YOUNGER ELEMENT
OF DEMOCRATS.

Will Form an Active Working Entity: Thorough Organization of Young Men in Old Gibraltar.

To further the principles advocated by Governor Woodrow Wilson, Democratic nominee for president, the national headquarters of the Democratic committee has set on foot the organization of what is known as the Young Men's Democratic Club. Representative Robert H. Scott has been appointed chairman of the first district organization of young Democrats by Stanley F. Reed, of Maysville, who was recently named as chairman of the movement in Kentucky. Mr. Scott, though young in politics, made a creditable showing at the last session of the legislature and the state chairman's choice no doubt will meet with the approval of all Democrats, young and old in the Gibraltar. In completing the outline of the organization of young Democrats in this district Mr. Scott has named chairmen in the thirteen counties.

The appointees for Crittenden and nearby counties are: John Lawrence of Cadiz, for Trigg county; R. H. Aikin, of Princeton, for Caldwell county; Lal D. Threlkeld, of Smithland for Livingston county; Clem Nunn of Marion for Crittenden county; and Seldon R. Glenn, of Eddyville for Lyon county.

Mr. Scott will get down to the work of perfecting his organization immediately. It is probable that a meeting of the executive committee composed of the thirteen county chairmen, will be held in Paducah sometime this week.

There are thousands of young

men who will vote for the first time at the November election. It is for the purpose of showing these young men the righteousness of Democracy and why they should stand for its principles that the clubs will be formed.

That the Young Men's Democratic Clubs will prove popular in Paducah and in fact all of the counties in the first district, is assured, especially with Mr. Scott as its head.—News Democrat.

FIVE THOUSAND SUNDAY SCHOOLS IN STATE

400,000 Sunday School Pupils Will Be Represented at the State Convention in October.

Five thousand Sunday schools with a membership of over 400,000 will be represented at the 48th annual Kentucky State Sunday School Convention which meets in Paducah Oct. 29 to Nov. 1, inclusive. Undoubtedly, this convention will be the largest ever held in Paducah—especially along religious lines. Those Sunday Schools which will be of the denominations, Baptist, Methodists, Episcopalians, Presbyterians and numerous other churches.

The general secretary, the Rev. George A. Joplin who was in Paducah several days ago was rather optimistic regarding the prospect for a big attendance at the meeting here and even more than 2,000 delegates may be in Paducah during the convention. It will be the first convention of the State Sunday school association to be held in Paducah or Western Kentucky.

MEETING AT LISMAN.

Oct. 4, 1912.—We began our meeting at Lisman, Ky., Shiloh church, Monday night after the 4th Sunday in September and continued ten days. Rev. O. D. Spence did most of the preaching to the delight of all who heard him. We held the meeting in our new church. We have a beautiful church. Great crowds attended the services. The school teacher, Miss Nellie Hancock, a noble character, brought her school to Church services. The result of the meeting was 19 additions and they were among the best families of the country. Bro. Spence is a clear cut gospel preacher. On the second Monday of the meeting, every body present was rejoicing, and the preacher failed to finish his sermon. It was a great meeting. —W. T. Find Chinese Stowaways
When Ship Is Fumigated.

New Orleans, La. Oct. 4.—When the work of fumigating the steamship, Puebla, from Mexican ports began this morning at quarantine station, six Chinese stowaways concealed in the hold, were driven from cover by the suffocating fumes of sulphur and began pounding on the iron hull, and yelled to be let out.

The fumigation was stopped and the Chinamen rescued. The ship arrived at quarantine Saturday night, after four days at sea. The stowaways were turned over to the immigration authorities, pending deportation.

Painter Falls 250 Feet
From Kentucky Cliff.

Lexington, Ky., Oct. 4.—J. B. ["Boek"] Powell, a painter of Wilmore, Jessamine county, toppled backward over the steep cliff beside the bridge which spans Kentucky river at High Bridge this afternoon and plunging down a distance of 250 feet, was crushed at the water's edge. There was an excursion to High Bridge today and Powell had gone down with a party from Wilmore. He was on the edge of a precipice when he suddenly fell backward. He struck feet foremost on a ledge about twenty-five feet down and bouncing off turned over and plunged headforemost to the ground, 250 feet below. He is survived by two sisters, Mrs. Harry Mastin, of Wilmore, and Mrs. James Haly of this city, and a brother, McTyre Powell, of Cincinnati.

Monopolies Must Be Abolished.
We notice that Perkins is criticizing Governor Wilson for not expressing his position on the tariff and trust problems.

It is hardly to be expected that any thing that Governor Wilson says should meet with the approbation of the man who organized the Harvester Trust, and who has been engaged in various enterprises which have fattened upon the tariff.
If Perkins will examine a little more carefully, however, he will find that Governor Wilson has been sufficiently specific on the trust question.
Mr. Perkins is engaged in the organization and management of monopolies. This is what the Democratic party says regarding

his business:
"A private monopoly is indefensible and intolerable. We therefore favor a vigorous enforcement of the criminal, as well as the civil law against trusts and trust officers, and demand the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to exist in the United States."
Gov. Wilson has repeatedly squarely endorsed this declaration in our platform and has stated:
"Until monopoly is abolished, until it is destroyed, the government is not free. And until the government is free, it cannot serve you or any man."—Messenger.

SHAWNEETOWN

Yields Honor of Oldest Illinois Town to St. Francisville.

Mt. Carmel, Ill., Sept. — With the preliminary plans of Shawneetown, in Gallatin county, to celebrate her one hundredth anniversary in the near future a discussion has arisen as to which is the oldest town in Illinois. It seems finally settled that St. Francisville, a small town of 1,000 population just over the border line between this (Wabash) and Lawrence counties, has this distinction.

The discussion arose when Shawneetown laid claim to the honor in preparing for her centennial. The claims were that the

town was plotted in 1809, but that there were whites living there four years before that time. St. Francisville came forward to compare notes and presented such good proof of antiquity that the honors have been offered that town.

It is shown by the records kept in the Catholic church at St. Francisville that a trading post was established at that place several years before 1800, and at the same time a ferry was being operated across the Wabash river there. The place was settled by French, who went across the river from old Vincennes.

The dairy of a Catholic priest who lived in Vincennes and had charge of those on this side of the river, shows that in 1800 there were fifteen or twenty houses on this side, where St. Francisville stands, and that there was a ferry operating across the river and two stores at the post.

The earliest settler of St. Francisville is said to have been Joseph Tougas, a giant Frenchman, who came across the river from old Vincennes. He operated a store for trading with the Indians. He was able to master the Indian in their sports on account of his great stature and was their idol and had much influence among them.

It was this big Frenchman who built the ferry. The first boat was built large enough to carry two carts. This ferry is still in operation and is one of the oldest, if not the oldest, along the entire Wabash river.

Chicago, 10 —More than \$5,000,000 is being expended by the Illinois Central Railroad for new equipment. A part of the additional rolling stock already has been received and the remainder, it is expected, will be delivered within the next sixty days. Increased business is given as the reason for augmenting the facilities of the company. Orders are now being filled for eighty locomotives, including fifty of the Mikado type, twenty of the Pacific type, and ten switch engines. Orders for additional passenger equipment includes nine chair cars, four cafe coaches, twenty-six baggage cars, ten coaches without smoking compartments, twenty coaches with smoking compartments, ten partition coaches, nine combination baggage and passenger cars, and seventeen mail cars.

Arrangements also have been made for 2,500 coal cars. It is

Meeting at White Hall.

The Teachers' Association of Education division, No. 1, met at White Hall last Friday with a large attendance of teachers, patrons and trustees.

After the welcome address by Miss Koon, and response by Mr. Ward, many interesting, and instructive talks, were made. A few of Miss Koon's pupils delivered some amusing, and entertaining exercises which everyone enjoyed and which goes to prove her efficiency, as instructor and disciplinarian. Miss Koon is one of the most progressive teachers of the county, and the patrons of White Hall are very lucky in having secured her as teacher of their school.

Prof. J. U. Snyder and Supt. E. J. Travis, were present and took an active part in the Association.

At 11:30 the meeting adjourned to partake of a sumptuous dinner which was spread by the good people of the community.

Prof. J. U. Snyder in an afternoon talk, expressed his thanks that no one had kept count of the number of pieces of pie he had eaten. But all felt amply repaid for the pie by the very excellent talks he made in the afternoon.

Supt. Travis spoke with his usual fire and enthusiasm on subjects relative to Crittenden Co., schools, and school work.

At 3:30 the Association adjourned and all went home feeling that the cause of education had been fostered and furthered by this meeting at White Hall.

PRINCETON PRESBYTERY.

The Presbytery of Princeton has just closed its fall meeting, held at Marion, Ky., Rev. W. C. Nagle, pastor at Dawson Springs was elected moderator. The Presbytery heartily endorsed Home Mission Week and will endeavor to have it observed in every church to some extent, at least. Some of the churches have already been using the charts in their services and will continue the preparatory work. Others will begin at once to use them. Some of our Young People's Societies are conducting missionary study classes, and the Presbytery recommended that these study classes be made a prominent feature in all our Young People Societies and that we endeavor during mission week to develop an interest in our churches, largely through our Young People's Societies. We would earnestly urge the pastors in all our churches to bring before their people the facts and data presented in the charts and literature sent them. Pastors in country charges, where they preach only once a month, ought to devote one Sunday in November to this work to be known as Home Mission Sunday.

Rev. W. T. Milburn from Muscogee Presbytery was received into this Presbytery.

A petition containing seventeen names was received from Pryors, Ky., requesting the organization of a Presbyterian Church at that place. The petition was accepted and Revs. J. W. Hudiburg and J. F. Price were appointed a committee to organize said Church.

A communication and action from the trustees of Princeton Collegiate Institute was received recommending the union of Princeton Collegiate Institute with Caldwell College at Danville, Ky. The recommendation was adopted by the Presbytery.

Stirring reports were made on Freedmen, Foreign Missions and Temperance. All the overtures sent down by the General Assembly to the Presbyteries were answered in the affirmative except number 7.

The report of the committee on

Young People's Work showed the importance of giving special attention to the organization and development of our young people. Two Young People's Societies have been recently organized, one at Chapel Hill and one at Water Valley.

The policy outlined by the committee is as follows:

1. More Organizations.
2. Greater efficiency.
3. More definite educational work.
4. More devotion to spiritual things and a closer adherence to the demands of the Christian Endeavor pledge. The A. M. E. T. Movement was heartily endorsed. It was recommended that Wednesday evening at each fall meeting of Presbytery be given to the Young People's Work.

The Spring Session of Presbytery will be held D. V. at Madisonville, Ky., April 8, 1913.

REPORT OF COMMITTEE ON RESOLUTIONS.

Your committee on Resolutions beg to report as follows:

The cordial and hospitable entertainment tendered by the members and friends of the Main Street Presbyterian Church is worthy of eulogy and eloquence. Coming to the rescue of Presbytery at the last moment when, because of diphtheria, the people of Crayne could not entertain us, they certainly have received us as princes.

Therefore, be it resolved,

1. That the people of Marion, regardless of Church affiliation, be tendered our most hearty appreciation for the expression of their good will and interest.
2. That we hereby express our appreciation and commendation to Bro. Wallace Clift and his good people in giving so bounteously of their homes and things to eat.
3. That a copy of these resolutions be sent to the Crittenden-Record-Press.

D. M. Harrison, Chairman.

his parents, Mr. and Mrs. Jeff Humphrey, and other relatives and friends for several weeks, have returned to their home at Eldora, Ill. They visited his sister, Mrs. Geo. Gerding, and his brother, Joe Humphrey, in Evansville, Ind., as they returned home. Bro. Humphrey assisted by Rev. B. L. Yates and L. B. Simpson, held a great revival near Sheridan, there being fifty reclaimed and converted during the series of meetings. They are all consecrated Christians, and doing a great work wherever they go. Bro. Simpson accompanied Bro. Humphrey to Illinois to hold a tent meeting there on his work. He is serving this people the fourth year. May the Lord continue to prosper them and give them many souls for their hire.

B. B. Terry, one of Sheridan's hustling merchants, was in this neighborhood Sunday.

Miss Cordie Butler has returned from a three weeks' visit to her sister, Mrs. J. W. Fowler, near Mt. Zion.

Mrs. J. P. Hatcher and Miss Stella Flanary went to Marion Saturday shopping.

Do we live the golden rule in regard to visiting those in our community, who are unable to get out? Or do we neglect it and suffer remorse of conscience?

Bob Thomas, of Marion, was the guest of his cousins, Guy and Ray Thomas, Sunday.

Clifton Enoch forgot what day it was and went to Sheridan to the postoffice Sunday.

There is not a very large crop of wheat sown in this neighborhood.
