## WIVES CANNOT TAKE INSURANCE

Themselves in Favor of Their Husbands According to New Ruling of Insurance Cos.

Marriage for the woman who has no income or property of her own is a risky proposition and she is in danger of losing her life. That is the attitude which has been taken by practically all of the principal life insurance companies of the country. They have passed a rule whereby a woman without property cannot insure her life in favor of her husband.

Cases where women have died under suspicious circumstances or disappeared in a mysterious manner soon after they have been insured, have become so numerous in the past few years that the insurance companies have been compelled to take notice of them. The attitude of the insurance companies as explained to this.

When a woman has no income of her own, the husband has everything to gain and nothing to lose if he puts her out of the way. The mortality among the women for the past few years has been high and so many cases come to our attention where the wife has met death at the hands of her husband shortly after she was insured with him as beneficiary, that we have decided that we will not accept women who wish insurance in favor of their husbands.—Ex.

Sheridan, Chapter No. 56, O. E. S., Sheridan, Ky.

## HON. E. T. FRANKS VISITS OLD HOME

Given A Rousing Welcome—Delivered a Good Speech in the Opera House Last Monday

Monday October 21st when E. T. Franks of Owensboro addressed the voters of Marion and Crittenden county he was listened to attentively by a large audience, the Opera House being well filled. Mr. Franks who is a former citizen of Marion is popular here and is recognized as one of the best speakers in the Republican party. He devoted much time to the "Bullmoosers" and argued with them to "come back" into the stand pat columns, but not one word of abuse did he have for them. As is his custom he interspersed many amusing and catchy anecdotes and jokes into his speech which from a "stand pat stand point" was a good and logical one. Mr. Franks went from here to Paducah where he spoke Monday night. He has delivered several speeches in the Ky. Purchase this week.

J. D. Farris the Salem ex-merchant is now under treatment at Dr. Pope's Sanitarium in Louisville. He has had a partial paralysis for several months and hopes now to be permanently benefitted. Dr. Pope is one of the most noted specialists in this section of the United States.

**Out of the Dust.**

They say that when a man is dead,  
Out of his dust will bloom  
A flower like his life, to spread,  
It's shadow o'er his tomb.  
And if his life was sweet and clean,  
The flower will be a rose;  
But o'er the grouchy and the mean  
It is a weed that grows.  
Some mighty man, with wealth untold  
Held all the world in scorn,  
May spring from out the church-yard mold  
A burdock or a thorn.  
Some humble life whose humble way  
Was hemmed with doubt and care,  
May blossom on the sunlit day  
A fragrance and a prayer.  
It is your daily thought and deed  
That blossoms on the tomb.  
You cannot live like a jimson weed  
And turn to a lily-bloom.

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by all dealers.

**Enthusiasm.**

Enthusiasm is the greatest business asset in the world. It beats money and power and influence. Single-handed the enthusiast convinces and dominates where the wealth accumulated by a small army of workers would scarcely raise a tremor of interest. Enthusiasm tramples over prejudice and opposition, spurs inaction storms the citadel of its object, and like an avalanche overwhelms and engulfs all obstacles. It is nothing more nor less than faith in action. Faith and initiative rightly combined remove mountainous barriers and achieve the unheard of and miraculous. Set the germ of enthusiasm afloat in your plant, in your office, or on your farm; carry it in your attitude and manner: it spreads like contagion and influences every fiber of your industry before you realize it; it begets and inspires efforts you did not dream of; it means increase in production and decrease in cost: it means joy and pleasure and satisfaction to your workers: it means life real and virile: it means spontaneous bed rock results—the vital things that pay dividends.—Henry Chester.

"She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough, when I was so weak my friends all thought I had only a short time to live, and it completely cured me." A quick cure for coughs and colds, it is the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quinsy, tonsillitis, hemorrhages. A trial will convince you. 50 cts., and \$1.00. Guaranteed by Haynes & Taylor and James H. Orme.

**Sheep Are Weed Eaters.**

Sheep are one kind of live stock that can be handled advantageously in connection with extensive grain growing, because of the fact that they are great weed-eaters. Horses and cattle will eat only about one-fourth of the varieties of weeds that sheep consume greedily. When the weed problem is one of importance a flock or two of sheep are of great benefit. While the weed problem can be handled by proper cultivation this cultivation can be greatly facilitated by keeping the right kind of animals on the land, and in addition to solving the weed problem the productivity of the soil also will be maintained.

Anything that will destroy weeds is worthy of the farmers' attention; anything that will maintain the fertility of the land demands his attention. Sheep will do both, and are therefore entitled to the attention of every grain grower in a dry-farming country.

## Only a Scrap of Paper.

Only a scrap of paper. We placed in her trembling hand Though she read not a word that was on it, She seemed clearly to understand For her eyelids trembled and quivered Like a maple leaf green in the grove, And we know that the tears she was shedding Were the tears of a heart full of love.

Only a scrap of paper Yet it paid for a nice little home And furnished a place for the nestlings Every evening at nightfall to come, It cheered up the weak, tired mother The poor hungry orphans it fed, It banished all gloom from that plain little home, Giving comfort and plenty instead.

Only a scrap of paper, 'Twas the father's strong arm in the home; 'Twas his presence among all his loved ones 'Tho' his body lay cold in the tomb; 'Twas a halo of love from the sky. 'Twas the soft voice of peace bidding sorrow to cease, From that home in the sweet by and by.

Oh! that little scrap of paper,

Like manna loaf dropped from heaven

Every day may carry glad tidings

To a heart that by sorrow was riven;

Be a boon to the child of misfortune,

Be a home to the soul in distress Fly away on your heavenly mission

The widow and orphans to bless.

—Exchange.

## A Big Oil Gusher

Struck at Hartford.

Hartford, Ky. Oct 17.—The west Kentucky Oil Company, of this place brought in well No. 2, a 400-barrel gusher, yesterday afternoon. The rush of oil was so great that scores of men with picks and shovels were pressed into service to throw up embankment and dig a ditch to direct the flow in the desired direction.

Well No. 2 is located on a farm five miles north of Hartford. Oil was struck at a depth of 1,800 feet. The oil has already been subjected to various approved tests and shows 23 per cent gasoline. Well No. 1 was brought in about two weeks ago and is producing fifty barrels a day. Well No. 3 located in the same locality is expected to be brought in within the next ten days.

The West Kentucky Oil Company, which is composed of Louisville and Hartford capitalists has tanks at this place, and is making arrangements to build a pipe line to the L. & N. track a mile distant.

## Fortunes In Faces.

of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality, loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing the indigestion. Michael Hesseimer, of Lincoln, Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50cts., at Haynes & Taylor's and Jas. H. Orme's.

## Play Fairly.

(Detroit Free Press.)

Play the game fairly, young man, Bring all your strength to the play; Fight just as hard as you can; Do not give up in dismay. Eagerly strive for success, Do not be ready to quit; But if you're facing success Always be fair when you hit. Play the game always to win, Put your whole soul in the strife; Battle through thick or through thin Seeking the glories of life. Give to the struggle your best; But if you rise or fall low, This is the ultimate test; Was fairly delivered each blow? Better in honor to fall Than win with a strain on your shield; Better, when strong men assail, To die for your cause on the field Than to conquer by methods unfair, To win by a foul blow or lie; Better to lose on the square Than succeed and have shame in your eye.

Play the game fairly, young man, Stick to your principles true; Fight just as hard as you can. Hit with the full strength of you. Eyes front and head in the air, Bravely dare all for the right; Fall if you must, but be fair; Keep in the open your fight.

## FIFTY HURT IN WRECK OF I. C. SPECIAL.

Slow Rate of Speed Prevents Loss of Life. Physicians Rushed to Scene in Automobiles.

Hopkinsville, Ky., Oct. 20 — A broken rail caused an excursion train on the Illinois Central Railroad to leave the track at Green's Crossing, six miles from here, at 8 o'clock this morning and fifty persons were seriously injured while all of the hundred and eighty passengers aboard were badly shaken up.

None is regarded as being fatally injured, though several received serious injuries from fractured bones, deep cuts and bruises.

The accident occurred on an embankment ten feet high and the four passenger coaches plunged off this, three turning as they crashed to the gully below.

Only the slow speed at which the train was running about fifteen miles an hour, as it ap-

## Improved Educational Conditions From an Investment Standpoint

By JOHN B. M'FERRAN, Chairman Educational Committee, Louisville Commercial Club

I. STUDYING the educational situation in the state, I am more and more impressed with the absolute necessity for a radical change in our viewpoint concerning the subject. We have been viewing the schools rather as a necessary evil, an expense to be kept at the minimum of cost. The logical result has been largely attained—cheap houses, cheap grounds, cheap equipment and in too many cases cheap teachers, cheap trustees, cheap county boards and cheap county superintendents.

In fact, so long has this policy prevailed that we have dwarfed everything pertaining to our schools, even our educators, and most of all ourselves, the average citizens. The whole outfit is a cheap and inadequate thing for the twentieth century. OUR SLIPSHOD AND CHAOTIC SYSTEM, IF SYSTEM IT CAN BE CALLED, POSSIBLY ANSWERED FAIRLY WELL THE NEEDS OF FORTY OR FIFTY YEARS AGO, but everything else has moved tremendously within that time and moved with the greatest celerity and momentum.

With our schools here in Kentucky we have practically stood still, trusting to luck or some other mysterious power to supplement our indifference and neglect. Not so with other more prosperous and progressive states, fully recognizing the value and importance of their children. With enlightened zeal and intelligence their tendency has been to crowd all the money into their schools that could be judiciously used, looking upon it as a wise, businesslike proposition, a most profitable investment, and so it has proved, states younger and no more favorably situated, with really inferior natural resources, surpassing us in material wealth two and three fold.

**BEFORE WE CAN MAKE THE NEEDED AND DESIRED PROGRESS WE MUST GET THE VIEWPOINT THAT IT IS NOT ONLY OUR HIGH AND HOLY DUTY, BUT MOST PROFITABLE, TO SEE OUR CHILDREN AND THEIR SCHOOLS FROM THE INVESTMENT SIDE AND PROVIDE GENEROUSLY THE FINANCIAL AID THAT IS IMPERATIVELY NEEDED.**

Furthermore, we must awaken out of our apathy and see that this money is used to the best advantage and not frittered away by incompetence or graft. We have been furnishing two and a half to three million dollars per annum for our schools for a number of years. What number of citizens have at any time taken the slightest interest to know how this money was being expended? There seems to have been great waste. WE HAVE ALLOWED THE INTEREST OF OUR CHILDREN TO DRIFT INTO POLITICS AND INTO CONFUSION. IT IS HIGH TIME TO CORRECT THIS.

approached Green's Crossing, saved heavy loss of life. The passengers were hurt by being hurled about in the coaches. The baggage coach and engine remained on the track.

The train was bound for Paducah, most of the passengers being Woodmen of the World from this and other localities who expected to attend the big Woodman rally at Paducah today. After the wreck they returned here as soon as possible.

A hurry call was sent here for physicians and help. Doctors rushed to the scene in automobiles and a special hospital train was dispatched.

Dear Sir:—

As you have no doubt noticed in the daily press, the Arkansas on Wheels Traveling Exposition with 150 representatives aboard will be in Marion for an hour's stop, on Saturday, Oct. 26, 1912, from 11 a. m. to noon.

The train is to be a veritable exposition, consisting of 3 big exhibit cars, 5 Pullmans, dinners etc. with a reception car where, we would like very much to have the pleasure of meeting your representative citizens. There will be absolutely no charges and no way to spend money on this train. Everything is FREE. We will have a nice sack of the celebrated Arkansas unpolished rice—finest on earth—to give you and your friends.

The party is composed of our best people, farmers, lawyers, doctors, merchants, bankers, state, county and city officials. Come, and let's get acquainted.

I, myself, am President of the Brinkley Commercial Club and would like to meet you and your friends when the train arrives. Our party would like to see as much of your town as our limited time will permit. Kindly see that we get as much publicity as possible through the columns of your paper. Very respectfully,

Wm. B. Folsom, Mgr.

### WHAT THE ARKANSAS ON WHEELS TRAIN IS.

The "Arkansas on Wheels" is a veritable Traveling Arkansas Exposition leaving Little Rock, Oct. 24th, en route for a 2500 mile tour through the North and West.

It is a magnificently equipped solid train of Pullmans, with the exception of four big exhibit or exposition cars. Aboard the train are 150 representative Arkansas citizens, both ladies and gentlemen: among them are farmers, lawyers, doctors, bankers, merchants, state, county and city officials, Board of Trade and Business Men's Club officials from practically every city and county in the State.

A big 20 piece brass band, singers, entertainers, speakers, entertain and interest the visitors and make pleasant the trip to the wonderful train.

This is the third annual trip of the "Arkansas on Wheels" the first having been made in November, 1910, when the train spent three days at the great land show at Chicago, and then went north through Iowa, Kansas and Nebraska. On the second annual tour, 1911, the party went through Tennessee, Kentucky, West Virginia, Pennsylvania, Ohio, Indiana, Illinois, Iowa and Missouri. The train was visited by 200,000 people. In Cincinnati, Columbus, Pittsburgh, Indianapolis, St. Louis and other places, the party aboard the train was banqueted in royal

style, when such dignitaries as Gov. Harmon, Vice-President Fairbanks, Mayor Schwab and J. Adam Bade, officiated as Masters of Ceremonies.

In the exhibit cars are to be seen fine exhibits of corn, cotton, apples, peaches, water melons, alfalfa, products of the mine, gold, silver, zinc, coal, pearls, diamonds, etc. In the reception room on the train a magnificent \$1,000 piano, made of Arkansas native Oak, is played by a talented Arkansas lady while another sings pretty Arkansas songs. There is absolutely no way you can spend a cent aboard the train—everything absolutely free. A nice sack of the celebrated Arkansas unpolished rice milled and sacked especially for this trip, is given to every housekeeper who visits the train and in addition to the entertainment the Arkansas travelers give the "glad hand of welcome" to every visitor.

### Sister Susie's Beau.

Sister Susie's got a beau—  
His name is Randall White.  
He comes around to call on her  
'Most every other night.  
He's all dressed up, an' nice enough  
As far as fellers go,  
But things ain't right around our house  
Since Sister got her beau!  
We useter to do our lessons in  
The parlor every night,  
'Cause there's a table good an' big  
And a dandy readin' light.  
I don't see why they want that room  
(The lamp they turn down low!).  
But we can't use the parlor now  
Since Sister got her beau!  
We useter go to sister when  
Our sums we couldn't do;  
But now she ain't got time for us.  
As soon as supper's through  
She goes upstairs to primp and preen  
(She powders, too, I know!).  
We're gettin' awful marks in school  
Since Sister got her beau!  
Ma says she thinks he's goin' to pop,  
And Pa says, "well, it's time!  
The way he's usin' heat and light  
Is certainly a crime!"  
I don't know what they mean by that,  
But there's one thing I know;  
The house is simply upside down  
Since Sister got her beau!

### Providence Lad Dies While Being Rushed to the Hospital.

Providence, Ky.,—While on his way to Evansville to be treated for injuries received in a mine accident, Clarence Givens, 18, son of Richard Givens, died on the train at Wheatcroft yesterday morning. It had been hoped that he would be rushed to Evansville in time to save his life.

The young man attempted to board a train of coal cars in the Highland mine and made a misstep, falling under the cars. The wheels passed over his right leg, nearly cutting it off and he was dragged several yards before the cars could be stopped. He received internal injuries and his back was badly cut. He died three hours after the accident. The body was taken back to Providence for burial.

### Mrs. Gugenheim's Father Loses Family Horse in Peculiar Manner.

Mr. H. B. Williams, of near town, had a rather thrilling experience with the old family horse Monday afternoon in which the horse lost his life and the owner escaped with only slight bruises and scratches. Mr. Williams was riding his horse along the road near his residence, when Frank Baker passed in his automobile. Though the horse had come in contact with the same auto numerous times before, this was the only occasion he was ever known to show fright, which he did by attempting to run away. Mr. Williams began sawing on the bit to stop him, when the animal began to back and finally fell backward. The rider slid off with but slight injury, but the horse's head bumped the ground with such violence that he was instantly killed. The animal was valued at one hundred dollars.

## PAPER BAG COOKING

Great System Perfected by M. Soyer, Famous London Chef.

### MEANS ECONOMY IN FOOD.

By Martha McCulloch Williams. Economy, which is now the cry in all things, from postage to politics, has no more valiant helper than M. Soyer's system of paper bag cooking. Roasts which have a knack of shrinking horribly in the pan come out of paper bags almost the size which they came from the butcher, and possessed of their full food value. They will have been cooked in vapors of their own essence—the best part of them will not have run out, to dry on the pan bottom, and smell most appetizingly, but be in large measure lost to the palate. There will be gravy in the bag, to be sure—gravy fit for a king.

In case of fish, the results are even better. Pan-cooking wastes a fifth, a fourth, sometimes even a third of a fish. Vegetables also taste better, and are better, for bag cooking. Bag cooking preserves in them their essential salts, which boiling takes away.

Because all manner of seasoning is thus conserved and driven into the food care must be taken to use seasoning liberally.

Here is a way of using up cold dinner meat that hearty children will relish, and even the man of the house not disdain. Cut the meat in slices, neither too thick nor too thin, and as broad as possible, butter them, sprinkle them well with salted flour, and a very little pepper. Lay in a well-greased bag, side by side, then place upon each a tomato, peeled, hollowed out, dusted inside with sugar, salt and pepper, then stuffed. Boiled rice is a good stuffing, so is cooked macaroni or spaghetti cut small. Bread crumbs fried brown are likewise tasty. Season the stuffing well and mix through it all the snippets and trimmings of the meat. Use either butter, bacon, or cold boiled pork, well minced, to enrich the stuffing. Scatter between the tomatoes the scooped from their insides. Place in bag, seal it, and cook in a hot oven about twelve minutes.

Quick Potatoes.—Take a large white potato for each person to be fed. Peel, slice thin, drop in cold water for five minutes, then drain, sprinkle with salt and pepper, and pack compactly in a well-greased bag, adding a tablespoonful of stock or milk and water, for each two potatoes. Seal, and cook twenty minutes. Boiled potatoes can be used, and take only half as long.

Baked Apples.—Wash well, but do not peel, cut out specks and bruises, core, fill the bottom of the core-space with a lump of butter, over which pile sugar, and add a bit of cinnamon. A clove stuck in the side may take the place of the cinnamon. Seal inside a well greased bag, and bake eighteen to twenty minutes in a fairly hot oven. Serve with sugar and cream or a hard sauce.

### A PAPER BAG COOKED BRIDGE LUNCHEON.

By Nicholas Soyer, Chef of Brooks' Club, London.

Broiled Chicken.  
Mushrooms. Asparagus.  
Olives. Radishes. Celery.  
Pudding a la Mayence.  
Black Coffee. Crackers. Cheese.

Broiled Chicken.—Split the chicken down the middle of the back, spread flat, and put a skewer in each side to prevent it from curling. Beat up a very fresh egg, with a pinch of salt, black pepper to taste, an ounce of melted butter, a teaspoonful of Worcestershire sauce or something similar, and a teaspoonful of made mustard. Mix well. With a brush glaze the chicken with the mixture. Place in a greased bag with bread crumbs around and over it. Be careful that the skewers do not tear the bag. Seal up tight and cook thirty-five to forty minutes in a very hot oven.

Mushrooms.—Peel and wash the mushrooms, brush them lightly over with melted butter, dust with salt and pepper, and put into a buttered bag with a lump of butter, a little water, and a spoonful of lemon juice or port or sherry wine. Seal tight and cook in a hot oven twelve to twenty minutes.

Asparagus.—Trim and scrape as for boiling, wash very clean. Tie in bundles and put into a buttered bag, with a little salt and half a gill of water. Seal and cook thirty-five to forty minutes in a hot oven.

Pudding a la Mayence.—Rub half a pint of breadcrumbs through a fine wire sieve, add to them a tumblerful of water, half a pint of the rind of a small lemon, washed, dried and grated, add a pinch of cinnamon, this of powdered sugar, and an ounce of butter. Mix well, pour into a buttered bag, seal, add the lemon juice of the lemon. Beat the whites of the eggs to a very stiff foam, add powdered sugar to taste, and a pinch of salt. Color with a few drops of green aniline color, and mix with a little caramel or brown sugar. Pipe on top, and cook in a very moderate oven for twenty minutes. The meringue is done when the top is brown.

### Will Support Wilson.

Rev. Stephen S. Wise D. D. New York City says:

"I shall support Woodrow Wilson because I believe that, with the aid of a Democratic Congress, he will carry into effect the party pledges of tariff reform and thus abate if not abolish, the legalized oppressions, the State-sanctioned oppressions of the protective order. The difference between the three parties with respect to the tariff may be briefly put. The Republican Party proceeds to foster the trusts by a highly protective tariff until these exercise the power of an intolerable monopoly and then it proceeds, or purports to proceed, to strangle them. The Progressive party plans to give a lessened but well considered measure of fostering care to the whilom infant industries and then to proceed to control the over-inflated trusts through the processes of regulation. The Democratic Party, however is pledged by the tariff plank of its platform neither to foster the monopolistic trusts through tariff protections nor yet to tolerate and sanction them under the name and guise of regulation. The tariff laws, as long administered by arrangement under the rule of the Republican Party, may once have been meant to convert public

utility into private gain. In truth they are become a futility and a private drain. The Democratic Party under Woodrow Wilson may reasonably be expected to put an end to those tariff laws which have led to imperialist adventure abroad and to criminally corrupt extravagance at home. The Democratic Party spurning today the leadership which long led to guilty complicity in the negotiations of the Republican tariff adjusters is become the valiant and uncompromising foe of a protective tariff, which protected chiefly the parties in the crooked alliance between business and little politics, which protected and aggrandized the masters of industry and entrenched them in the almost unassailable strongholds of monopoly and privilege.

### A Legacy In Which You Share.

In the pocket of an old, ragged coat belonging to one of the inmate patients of the Chicago workhouse, there was found after his death, a will. The man had been a lawyer, and the will was written in a firm, clear hand on few scraps of paper. So unusual was it that it was sent to a lawyer; and so impressed was he with its contents that he read it before the Chicago Bar Association and a resolution was passed ordering it probated. And it is now on the records of Cook Co., Illinois.

And this is the will of the old, inmate patient of the Chicago workhouse:—"I, Charles Lounsbury, being of sound and disposing mind and memory, do hereby make and publish this my last will and testament, in order, as justly as may be, to distribute my interest in the world among succeeding men.

"That part of my interests which is law and recognized in the sheep-bound volumes as my property, being inconsiderable and of none account, I make no disposition of in this my will. My right to live, being but a life estate, is not at my disposal, but, these things excepted, all else in the world I now proceed to devise and bequeath.

"Item: I give to good fathers and mothers, in trust for their children, all good little words of praise and encouragement, and all quaint pet names and endearments; and I charge said parents to use them justly, but generously, as the needs of their children shall require.

"Item: I leave to children inclusively, but only for the term of their childhood, all and every the flowers of the fields and the blossoms of the woods, with the right to play among them freely according to the customs of children, warning them at the same

time against thistles and thorns. And I devise to children the banks of the brooks and the golden sands beneath the waters thereof, and the odors of the willows that dip therein, and the white clouds that float high over the giant trees.

"And I leave the children the long, long days to be merry in, in a thousand ways, and the night and the train of the Milky Way to wonder at, but subject, nevertheless, to the rights hereinafter given to lovers.

"Item: I devise to boys, jointly, all the useful, idle fields and commons where ball may be played, all pleasant waters where one may swim, all snow-laden hills where one may coast, and all streams and ponds where one may fish, or where, when grim winter comes, one may skate, to hold the same for the period of their boyhood. And all meadows, with the clover blossoms and butterflies thereof; the woods with their appurtenances; the squirrels and the birds and echoes and strange noises, and all distant places which may be visited, together with the adventures there found. And I give to said boys each his own place at the fireside at night, with all pictures that may be seen in the burning wood, to enjoy without let or hindrance or without any incumbrance or care.

"Item: To lovers I devise their imaginary world with whatever they may need, as the stars of the sky, the red roses by the wall, the bloom of the hawthorn, the sweet strains of music, and ought else they may desire to figure to each other the lastingness and beauty of their love.

"Item: To young men, jointly I devise and bequeath all boisterous, inspiring sports of rivalry, and I give them the disdain of weakness, and undaunted confidence in their own strength. Though they are rude, I leave to

them the power to make lasting friendships and of possessing companions, and to them exclusively I give all merry songs and grave choruses to sing with lusty voices.

"Item: And to those who are no longer children or youths or lovers, I leave memory; and bequeath to them the volumes of the poems of Burns and Shakespeare and of other poets, if there be others, to the end that they may live the old days over again, freely and fully without tithe or diminution.

"Item: To our loved ones with snowy crowns, I bequeath the happiness of old age, the love and gratitude of their children until they fall asleep."

After all was he so poor and insane? It that was the world in which he lived, was he not richer, and his mind less disturbed than are some of us who go about freely and who have money in the bank? At any rate, to each of us he bequeathed something. Let us not fail to get our legacy.—Barbara Boyd.

## CRUSHED IN WRECK BY CORPSE IN COFFIN

Express Messenger Sam M. Chilton Meets Tragic Death.

Montgomery, Ala., Oct. 22.—Begging piteously that he be rescued, Express Messenger Sam M. Chilton, of Springfield, Tenn., pinioned in the Louisville & Nashville wreck near Elkmont, died under a casket which contained a corpse, according to a story told by Deputy Sheriff O. W. Strange of Athens when he reached Montgomery Tuesday.

Hundreds of men, women and children heard Chilton plead for life; heard him repeat the name of a bride of two weeks who was in Nashville without knowledge that her husband was pinioned under a corpse and several chicken coops without hope of being rescued.

Strange's story was told in the governor's office, where he came to apply for a requisition for the return of a man from Texas to answer for a crime in Limestone county. The officer did not know the name of the messenger nor did he know that he was a newly married man until Chilton appealed for the life and happiness of his bride. Then he learned who the dying man was.

Dozens of men answered the messenger's cry for assistance, but they were driven back by the fierce heat after they had pulled the hands and arms of the man until the parched skin had been torn from his hands. After being overcome by heat they were compelled to see the red fire eat its way into the coffin and take the body of the corpse with the life of the messenger.

Hole in vessel Clogged by Finny Tribe.

Pensacola, Fla., Oct. 21.—The British steamship Coniston, which has already cost the underwriters over \$50,000 to float, left Monday night conveyed by the tug El Toro for New Orleans, where she will be placed on a dock for repairs to the hull.

It was found that when the vessel grounded three weeks ago she had struck on the prongs of one of her own anchors and this had driven a hole clear through the bottom. A peculiar, but nevertheless correct, coincidence is that this big hole was clogged with fish and sand when the steamer was floated and she was not leaking until she got into the gulf, when the force of the water forced the fish and sand into the vessel and water began to pour in at the rate of over 200 gallons a minute.

### Yam and Potato Rivalry.

The golden yam (says the Washington Post), that elaborates the sun and the soil into a sugar which makes saccharine seem sour, was set apart by our first parents as the overlord of all tubers. The history of its Irish rival may be definitely traced to the foster care of Raleigh. It spread into Lancashire; its path through the low countries may be followed as clearly as the march of the army worm. But the genealogy of the yam is lost in the morning mist of antiquity. It is supposed to be identical with the mandrake, for which the Orient people dug as for hidden treasure. Beyond all peradventure it was the yam to which the Spanish gave what afterward became the generic name "batata" modified into our own collective "potato." Its purple flowers were hailed as the harbingers of nature's richest largesse, while Humboldt was still doubting whether nature originally had any thing to do with the creation of the Irish potato. It is the succulent root to which loving alluious are made by the great dramatists, who would have condemned the Mermaid as a tavern if he had been offered the tasteless bulb exploited by Master Raleigh. ### Waterways Are Worth Billions.

The Mississippi Valley system comprises sixteen thousand miles of navigable rivers from Pittsburgh, Chicago and Omaha to St. Louis and New Orleans. The Harriman system comprises eighteen thousand miles of rail from Portland, San Francisco and Los Angeles to Omaha and New Orleans. The investment in the Harriman system commanding face value of securities outstanding in the hands of the public considerably exceeds one billion dollars while market value is much in excess of face value. In population and wealth the territory it serves is of course, much less than the Mississippi Valley.

If eighteen thousand miles of rail lying west of the Missouri river and worth roughly, say, a billion and a half, what might sixteen thousand miles of improved waterways in the valley be worth? The question is pertinent because such figures as 50 to 100 million dollars for waterway improvement frighten many people.

As for investment in equipment, a modern ocean freighter cost about \$70 dollars for each ton of carrying capacity; a lake boat about \$40 dollars a ton; a river steamer and barges only \$12 a ton.

The railroads have completely captured the country's inland carrying trade and have it highly organized in their own interest. Something more than merely digging channels will be necessary to get trade for the rivers. St. Louis' rail borne traffic exceeds fifty million tons while its river borne traffic has fallen below two hundred thousand tons. But no doubt freight rates on those fifty odd million tons have been affected, beneficially to St. Louis by water competition.—Saturday Evening Post.
