### **EXPECTS A CONVICTION**

### Commonwealth's Attorney Confident in Tobacco Case.

Henderson, Ky., Feb. 25-"Not only have we indicted the Imperial, but we will convict them," said Sam V. Dixon, commonwealth's attorney, Tuesday morning.

"It is a dead open and shut case against the Imperial. Our evidence is simply overwhelming.

"The case will come up for trial in May, and you can look for conviction of the Imperial Tobacco company on the indictment at this time."

The penalty is a fine from \$500 to \$5,000, together with imprisonment, and automatically forfeits the charter and puts the Imperial out of business. The same charge of combining in restraint of trade in setting a price on the twenty five million pounds of tohacco held by the big pool will, it is said, be brought against Jno. H. Hodge, representative of the Regles, or the Italian government.

Just say on a Postal Card: "Send me a copy of Stark Year Book for 1913."

This Year Book is more than a mere catalogue of Stark nursery products, it is a practical easy to understand text book for the guidance of the man who plants trees. Our own experience of nearly 100 years, the reports of experience stations and the opinions of planters from all sections are condensed and reproduced for the benefit of busy people. An encyclopedia of orchard information, containing full size color illustrations of gloriously tinted fruits and many photographic reproductions in black and white; also information on many subjects in which the orchardist is interested.

Hundreds of varieties of apples, pears, peach, plum, cherry, apricot, quince grape and all small fruits are described; weaknesses of each variety are pointed ou and good points are explained. We feel that planters should know both.

# The Spirit of Bob Taylor

N July the thirty-first, eighteen hundred and fifty. Heaven loaned to earth the spirit of Bob Taylor, and charged him with a joyous missionto interpret to men the mystic messages of Nature.

"He heard and understood the tongueless tattle of brooks and rivers, the thunder-spoken language of the storm. He caught the sylvan stories of the forest that whispers with the borrowed breath of vagrant winds. He learned the jagged dialects of thorns and thistles, the sweet vernacular of flowers that woo the air with the wordless speech of fragrance.

"He led us to the trysting place of silent blooming things, where timid violets rest in the arms of coves that croon with songs of birds, and the wild honeysuckle, pink-gowned Princess of the woods, blows breath of honey in the faces of the enamored hills.

"With the magic of his words, he opened our ears to melodies that sing in all the sounds that din the world. From the single blast of the hunter's horn he evolved the merry music of the chase; he saddened a landscape with the mournful notes of a dove, and wrapped the vague beauty of the evening twilight hour in the mellow harmonies of distant bells.

"With eyes that conned the mute mysteries of trooping worlds he read the far away signals that twinkle from the fields of space and the sun-kindled fires that burn on the clould-hills of dawn.

"He played on keys that sound beyond the ken of flesh and blood and thrill the senses of the soul." DELONG RICE.

The influences of that great and kindly spirit linger with us like the incense of fallen roses, and its sweetest messagers are in the BEAUTIFUL BOOKS which contain his complete writings and the history of his life. They speak to us in the same words that flowed from his eloquent lips to soothe the multitudes; they hold up the mirror to the past and reflect the fascinating story of his romantic life.

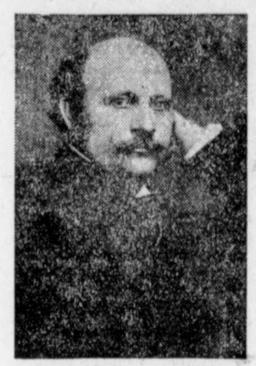

Within these two beautiful volumes are the best efforts of his genuis and the true story of his life and career.

# The Bob Taylor Books

T is a source of great interest, congratulation and New Year's greeting to the people of the Southand and of the whole nation, that the master-

pieces of oratory, word-painting and humor of the late Senator Robert Love Taylor, have been preserved. Happier still is the fact that they are being given to the world in a way that will honor the South and the name and fame of Bob Taylor.

In connection with his lectures and other famous productions, the Bob Taylor Publishing Company, No. 5, Noel Block, Nashville, Tennessee, is issuing a complete history of his life and career, written by his three surviving brothers.

The titles of these two books are: "LECTURES AND BEST LITERARY PRODUCTIONS OF BOB

TAYLOR" and "LIFE AND CAREER OF SENATOR ROBERT LOVE TAY-LOR (OUR BOB)."

The first named is the only complete compilation of the Senator's writings ever issued and cannot fail to command instant and widespread popularity. It contains his nine famous lectures delivered throughout the country, which made him premier of the American platform for twenty years, and moved a continent to laughter and tears. This book contains also the unfinished lecture' "Uncle Sam," which the Senator was building with special care at the time his last illness overtook him. It is a jewel of lofty thought in brilliant form.

In addition to the ten lectures, this volume presents numerous address, famous sayings and stories of "Our Bob" which the world will welcome.

The "LIFE AND CAREER" is a volume of about 400 pages of as clean, beautiful and thrilling literature as ever engaged a reader. It is the brain and heart work of the late Senator's three brothers, and gives a faithful and brilliant portraval of the life walk of Bob Taylor through all of its windings and eventful years-his struggles, his triumphs and the leading incidents of humorous and heroic kind.

These books reflect the great soul and romantic career of Bob Taylor, and they are creations of art from the publisher's standpoint. They are interpersed with attractive, historic and appropriate illustrations.

A million homes are waiting to welcome them.

The entertainment consisted of ten numbers as follows:

"Land of the Maple" Orchestra "Song Without Wordf"

Juliet Pope, Medley Cannan, Neville Moore, Owen Moore

Violin Duet: "Ave Verum" Lucile Pope, George Orme Waltz: "American Beauty" Orchestra

Reading: "A Few Bars in the Key of G" Miss Lena Holtzclaw

Churches of All Denominations and the Civil Powers of Earth Are About to Unite In Common Cause-Powerful Influence Preparing For the Battle of Armageddon-A Reign of Anarchy Will Be the Result of the Warfare Until The Messiah Takes Control.

Brooklyn, N. Y. Nov. 3 - The Brooklyn Academy of Music was crowded to the limit today to bear Pastor Russell's discourse on the "Battle of Armageddon." His text was: "He gathered hem together unto a place enited in (FASTOR RUSSELL) the Hebrew tongue

troversy between Truth and Error. right and wrong. God and Mammon. with which this age will close, perish. and the New Age of Messiah's glory be ushered in. He has purposely used highly symbolical figures of speech in the last book of the Bible, evidently with a view to hidling certain important truth until the due time for their revealment. But even in the due time. the Bible assures us, "None of the wicked shall understand" (Daniel xii. 9. 10: -none who are out of heart har mony with God-but only the wise of His people-the "wise virgin" class of the Master's parable.

Each hearer must use his own judgment, do his own Bible study. and reach his own conclusions.

Kindly remember that I am not responsible for the figures of speech used by the Lord. My interpretations do indeed constitute a terrible arraignment of institutions which we have all rever enced and which embrace good people. of good words and good works God's saintly people in these various institu tions, being comparatively few, are ignored when systems as a whole are dealt with in prophecy.

The Dragon, Beast, False Prophet.

Our context tells us that three imoure spirits (teachings) will go forth from the mouths of the Dragon, the Beast and the False Prophet, and these hree will be in accord, and symbolical ly the doctrines are represented by have a mighty influence throughout the civilized earth They are to gather the kings and their armies to the great Battle of Armageddon

The ecclesiastical kings and princes. and their retinues of clergy and faith ful adherents, will be gathered in solid phalanx - Protestant and Catholic. The kings and captains of industry, and as many as can be influenced by them, will be gathered to the same side. The political kings and princes, with all before the House of Representa- reason for his desire to get away their henchmen and retainers, will foilow in line on the same side. The financial kings and merchant princes, and all whom they can influence by the most gigantic power ever yet exercis ed in the world, will join the same side, according to this prophecy.

These "doctrines of demons," represented by the "frogs," will lead many noble people in this great army to assume an attitude quite contrary to their preference. For a time the wheels of liberty and progress will be turned backward and medieval re straints will be considered necessary for self-preservation-for the mainte-

nance of the present order of things In giving this interpretation, it is necessary for us to indicate what is symbolized by the Dragon, the Beast. and the False Prophet. Bible students of nearly all denominations agree with as that the "Dragon" of Revelation represents the purely Civil Power. Protestant interpreters generally agree that the "Beast like a leopard" (Reve lation xiii. 21 represents the Papacy But fewer still, we fear, will be rendy to support our view that Protestantism is the "Image of the Beast" (Revelation xiii. 15) in our context given another name, "the False Prophet." We urge no one to accept our interpretation nor shall we think hard of any who refuse it. We will neither slander nor otherwise injure them now, nor threat en them with eternal torture They have the same right to their views that I have, and the same right to make them known to others. And I. for one, will be very glad to consider anything which opponents may set forth is their interpretations of our text.

It is easy to understand by Mr. Stanley's past record that he The most important measure prabably had a much stronger tives at the present session of from Washington in such haste vote. He evidently did not wish ment of liquor into dry states or upon whose support he chiefly

depends in his race for the senatorial nomination, nor was he willing to stand up and vote against a measure demanded by all the temperance people of this state and of the country.

The people of Kentucky well remember that in the platform convention in August of 1911, when the fight was on over putting the county unit plank in the platform, Mr. Stanley was one of the leaders in the convention fighting for the liquor interests and against the adoption of the plank. So it is easy to understand the eagerness and alacrity with which he bearded the west bound train from Washington to Kentucky last Friday evening to make a school address, or to 'watch the effect of Gov. Add the rest of the flour, then the last of the egg-white. Stir in the lemon extract last of all. Pour into thickly buttered bags or very thin tin moulds thickly buttered. Seal the loaded bags and set on a trivet in the oven. Put moulds inside greased bags, seal and put on the grid shelf. Have the oven hot enough to turn white paper yellow in five minutes. If the paper scorches it is too hot-cool it by setting a very shallow pan of cold water upon the floor just before putting in the cake. Take out the pan after a few minutes, of course, first turning down the gas flame, or pushing in the dampers to reduce heat. Cook at moderate heat until done through. It will take an hour to an hour and a half, according to the thickness of the cakes. Midway the baking they should be trial in cases of colds, coughs and shifted-those from the grid shelf set croup." Make holes in the bag tops and test the cakes before taking them up by thrusting in a clean straw or thin knife blade. If the thing thrust in comes out with no stickiness clinging to it, the cake is done. Bag cooking prevents crusting over, and thereby facilitates rising. It also saves from burning and avoids the risk of jarring by too much opening of the oven door. Baking powder can be used in place of soda and cream of tartar, but to my thinking the old way is the best.

Jefferson County Leads With Its Magnificent Gardening Land-How William Frey Grew Eighty-eight Bushelsof Potatoes on One-fourth of an Acre.

Gradually the thinking school people are beginning to see and understand that if the parents will not go to the school the school must go to the home and make itself felt. Nothing Miss. Ina Burton is visiting has helped more in this movement than the boys' corn and potato clubs in this and many other states. The tremendous growth of the movement is due largely to a rational use of the Miss. Myrtle Brightman who children's enthusiasm and desire TO DO SOMETHING THEMSELVES.
