## Many Lives Lost In Tornadoes. Great Loss of Life at Dayton, O.

### Awful Harvest of Death in Wake of Cyclones in Various Sections of Country

Omaha, Neb., Looks for Loss of Life to Reach 200, While 70 Is Figure at Terre Haute, Ind.--Hundreds Missing in Several States, Toll Will be Appalling

Terre Haute, Ind., March 24.—Late reports Monday afternoon placed the death list between 40 and 50 in the tornado at Terre Haute last night.

Two hundred persons are injured. Many will die. Company B of the Indiana National Guard is on duty at the scene.

Terre Haute citizens subscribed \$5,000 in a few hours for the relief of the homeless.

Terre Haute, Ind., March 24.—Eighteen dead bodies have been taken out of the ruins in 500 homes, wrecked here by last night's tornado.

The city has arranged to feed the 1,000 homeless in school houses.

Special deputies are guarding the wrecked area. The police have the situation well in hand. The death toll may reach 70.

Evansville, Ind., March 24.—A bolt of lightning followed by a thunderous crash swept down

on the Crown pottery, O. Division st., about 4:20 o'clock Monday morning, igniting the roof of the warehouse. In half an hour the warehouse and decorating department, all in one separate building, had been gutted by the flames.

Galesburg, Ill., March 24.—Several persons are missing and are believed to have been killed by the tornado which swept this city Sunday night.

Many were injured and the property loss is great. Hundreds of houses were unroofed.

Chicago, Ill., March 24.—Four are dead and between 90 and 100 injured as the result of the hurricane that swept nearly every section of Chicago after 2 o'clock this morning.

Chicago, Ill., March 24.—Messages received here today by the Western Union Telegraph Co.,

stated that 1,000 persons had lost their lives in a tornado which swept Omaha, Neb., late last night.

Wire service was crippled and the message had to be sent to Chicago from Omaha by way of Grand Island.

Late reports, however, declared that the death list had been exaggerated and that the fatalities would probably reach 200 when all the dead are accounted for.

Chicago, March 22.—The death toll of the storm that swept 20 states of the west and middle west Friday will probably reach 200.

There were 600 injured and the property loss aggregates at least \$5,000,000.

Partially restored communication from towns in the south today brought reports of the terrible destruction by tornado.

Cleveland, O., March 22.—Six dead and a score missing or unaccounted for, several score injured and property damage estimated at more than two million dollars is the summary today of the 80-mile gale that swept over Ohio Friday.

Communication from many districts had not been restored this morning.

### SAD DEATH OF G. LUTHER TRAVIS

Dies at Walker Sanitarium, Evansville, After Operation For Appendicitis

Luther Travis died at the Walker sanitarium in Evansville Saturday and his remains were brought here Sunday enroute to his old home near Tribune, and the interment took place at Sugar Grove Monday.

George Luther Travis, son of F. I. and Dorothy A. Travis, was born January 21, 1890. He professed faith in 'Christ, Oct. 17, 1902 and joined the church at Sugar Grove Oct. 18, 1903. He married Miss Minnie Travis, September 4 1910, to this union was born one child, 'Armond Barbee'. Luther was taken to Evansville for an operation for appendicitis about the first week of March, the operation was successful and he seemed to be doing well but later took pneumonia which resulted in death on March 22, 7:30 pm.

He was buried at Sugar Grove cemetery in the presence of a host of friends and relatives perhaps the largest congregation that ever attended a funeral at Sugar Grove. The funeral was preached by Rev. W. T. Oakley. We as a church, sympathize with the bereaved wife and little babe, the father and mother, brother and sisters. But we learn that Luther expressed himself as ready to go if the Lord willed it so. And we shall see Luther again where parting is no more. Clerk of Church.

Dayton, Ohio, March 25.—Except for the most remote suburbs, this city tonight is covered by seething flood waters from eight to twenty feet deep.

The loss of life is certain to run into the hundreds, and probably into the thousands. The property loss will total millions of dollars.

The flooded districts compose a circle with a radius of a mile and a half, and in no place is the water less than six feet deep. In the main streets down town the water is twenty feet.

The horror is heightened by more than a dozen fires, which fire fighters cannot reach.

Springfield, Ohio, March 25.—The mayor of Dayton in an appeal to the mayor of this city reported at 8 o'clock tonight, that according to unconfirmed reports five thousand lives have been lost and thirty five thousand people are homeless at Adams and Piqua. He has gone and confirmed the reports, saying that five hundred and forty lives have been lost in Dayton alone.

Indianapolis, Ind., March 26.—(2 a. m.)—The first reports of 200 to 400 dead in Peru, Ind., as result of the flood was confirmed after midnight when Governor Ralston talked over long distance to Frank Butler an attorney at Peru, who told the governor that at least 100 coffins were needed, the other bodies having been washed away. The survivors need food and clothing.

Cincinnati, March 25.—Today experienced a cloudburst which started the Ohio river rising rapidly, and flooded many streets. The great bridge over the Miami river at Middleton, Ohio, went down this afternoon and fifteen persons are missing. The section between Louisville and Cincinnati in Kentucky suffered heavily from the storm.

Louisville, Ky., March 25.—four and one-half inches of rain has fallen here since 7 o'clock Monday evening, according to the local weather bureau. A sharp rise in the river resulted in a thirteen-foot canal, showing an increase of 1.6 feet since morning. Below the locks where the stage was 24.2 feet this morning the gauge tonight showing 38.6.

Evansville, Ind., March 25.—Another severe flood of the Ohio river is expected as a result of heavy rains and a cloudburst in the valley in the last twenty-four hours. The river is rising the entire length. A stage of 48 feet, which is a half foot higher than the January over flow, is predicted here.

### NEGRO BRUTE DIES IN ELECTRIC CHAIR

Woodford County Negro Pays Penalty of Crime After Speedy Trial.

Eddyville, Ky., March 21.—Silas Williams, the young negro who was tried, convicted and sentenced to die at Versailles last Monday, was electrocuted at the penitentiary here this morning. No witnesses were allowed to attend the execution on account of the small-pox quarantine which prevails here.

Williams' trial and conviction probably sets a record in Kentucky for speedy hearings. Williams assaulted Mrs. Susan Black and Mrs. Lee Moffett, two white women, at Troy, Woodford Co. on Feb. 24. Mrs. Susan Black, an aged woman, died the next day from her injuries. Mrs. Moffett has recovered. Williams surrendered to Lexington officials and confessed his crime.

### STATEMENT OF METHODS

Employed by the Treasury Department in Securing Sites For Federal Buildings.

Upon the enactment of a law authorizing the acquisition of a site for a Federal building the Treasury Department invites, through a local newspaper proposals for the sale or donation of land suitable for the purpose.

The offers are opened in Washington at the time stated in the advertisement, and as soon thereafter as practicable an agent of the department is sent to make a personal examination of the proposed locations and such others as he deems desirable, and to investigate the reasonableness of the prices placed on the properties as compared with recent sales of real estate in that vicinity.

(It should be noted that the department is not provided with a regular force of site agents, but in the investigation of sites is obliged to depend upon those of its employees who have had experience in such work. These representatives are sent to inspect sites as soon as practicable having due regard to the per-

## A Chi-Namel Demonstration That is Different

You can ask the Demonstrator to show you any Chi-Namel product you may be interested in, actually applied.

For instance--White Enamel, Porch Furniture Enamel, Gold and Aluminum Paint, Varnish Remover the kind that softens old varnish so it can be washed off with a common scrub brush and clear water Floor Wax, Furniture Polish, Mission Stains, Colored Varnishes for staining and varnishing with one application.

She will not merely show the package containing these materials, but show it in the brush, and applied before your eyes--in fact, you can take the brush and apply it yourself.

You can see the actual colors--see how easy it is to apply--how all brush marks disappear before it hardens.

This will be a demonstration worth while for the care and good appearance of the interior woodwork and furniture of a home.

By asking for a demonstration of any particular Chi-Namel product you will not place yourself under obligation to buy; this demonstration is to acquaint the public with the use and economy of Chi-Namel in the home.

## VIOLATION OF POOL CHARGED

### Two Farmers Haled Into Court For Selling Tobacco Out Of Pool.

Arrested Wednesday on charge of selling his tobacco personally after he had pooled it with the Stemming District Tobacco Association, on a warrant sworn out by D. H. Denton, W. M. Hanley, of the Rock Home neighborhood, between Niagara and Robards, maintains that he is that he innocent of violating the pool, and that the tobacco he sold was that of his wife, and was unpooled, and that his own tobacco was burned. Hanley was arrested by Sheriff Abbott and arraigned before Judge S. A. Young, his trial being set for Saturday. He executed \$50 bond.

To a Gleaner reporter Hanley showed written statements from William L. Sisk, insurance agent, and E. G. Thompson, secretary of the Stemming District Association, in support of his declaration that he did not sell his tobacco.

The statement of the insurance agent is to the effect that Hanley's tobacco was burned September 21, 1912, and the loss was paid through Adjustor S. H. Cromwell.

Mr. Thompson's statement certified that the secretary had signed a statement to the insurance adjusters in which the association released any claim it might have on the tobacco of Hanley pooled with this association in the 1915 crop. The statement was dated February 22. It was his wife's tobacco, said the farmer, that he sold, and this tobacco had never been pooled.

The offense charged is a misdemeanor, and the fine is from one cent to \$250.

#### ANOTHER FARMER ARRESTED.

A farmer by the name of Gish was also arrested Wednesday on a warrant charging him with selling his tobacco, which he is said to have pooled with Stemming District Association.

His trial will be held before Judge Young Saturday, March 29 th.

## INTERESTING INCIDENTS

### Father Told By Y. M. C. A. To Look After Son.

Mr. J. H. Power, a prominent attorney of Flemingsburg, was surprised when a letter from the Secretary of the Y. M. C. A. at Nashville came to him a few days ago, requesting that he look after his son, H. C. Power had been rooming in the Nashville Y. M. C. A. building, and when he told the secretary that he was going to Flemingsburg, he didn't mention the fact that it was his home.

The Secretary, following the Y. M. C. A. customs, sat down and wrote a letter to the pastor of the Baptist Church in Flemingsburg, asking that he meet Mr. Power and introduce him to the best Christian influences while there. There being no resident pastor of this church there the letter was delivered to the elder Power, who is a deacon in the Baptist Church. He was surprised and greatly pleased, too, to find that it was about his own boy. He thought it a great system that could follow his boy away from home and then follow him back. His son is leaving for Phoenix, Ariz., and Mr. Power writes this letter to the Y. M. C. A. secretary.

"I want to thank you for the attention you are giving my boy and the effort you are making to have the pastor of our church take some cognizance of him.

I want to ask you to kindly write to the pastor of the First Baptist Church at Phoenix, Ariz., and call his attention to the fact that my boy has recently moved into that town, and ask him to become acquainted with him and take some supervision of him.

"For a number of years past it has been my pleasure and my privilege to contribute to the Y. M. C. A. fund of Ky., in an humble way. I have been doing this for the benefit of other people's boys. At that time I never thought of my boy being so far from home, and I never thought of the fact that this splendid Association would be in a position to look after his interest. This matter has come home closely to me, and I want to say to you that I fully appreciate what you are doing, not only for my own son, but for thousands of other boys who have been compelled to leave the environments of home and home influence.

"Thanking you again for the effort you are making to look after the interests of my boy and all other boys, I am, very truly yours,

(Signed) J. H. Power."

This is a unique incident of the corresponding membership system of the State Y. M. C. A., which follows up thousands of young men away from home.

### Chronic Stomach Trouble Cured.

There is nothing more discouraging than a chronic disorder of the stomach. Is it not surprising that many suffer for years with such an ailment when a permanent cure is within their reach and may be had for a trifle? "About one year ago," says P. H. I had previously used any number of different medicines, but none of them were of any lasting benefit." For sale by all dealers. \*m

## THE LACK OF MONEY

### Is Not What Makes "People Poor Or Helpless.

David Grayso, writing a new Adventure in Contentment, in the April American Magazine, makes the following observation:

"I have many times found among our American farmers, an intelligence (a literacy growing out of what I believe to be improper education) which was better able to discuss the problems of rural life than to grapple with and solve them. A dull, illiterate Polish farmer, I have found, will sometimes succeed much better at the job of life than his American neighbor.

"Talk with almost any man for an hour, and you will find that his conversation, like an old-fashioned song, has a regular current chorus. I soon discovered Mr. Clark's chorus.

"Now, if only I had a little cash," he sang, or, "if I had only a few dollars, I could do so and so."

"Why," he was as helplessly dependent upon money as any soft-handed millionaire.

He considered himself poor and helpless because he lacked dollars whereas people are really poor and helpless only when they lack courage and faith."

5. The president goes to church to worship, not to be seen. Crowds may gather about the president's church door, but if he sees them first they will not see him.

#### ELIMINATE GOLD BRAID.

6. The gold braid and lace business has been eliminated; Major Rhoades, military aide, inherited from President Taft, dresses like an ordinary citizen when he goes out with the president.

7. The khaki-clothed motorcycle policemen who used to follow the White House automobile, have been given other employment. The president rides without bicycle escorts.

8. The ancient custom of draping the president's box at the theater and playing the national anthem when the president arrives have been put into the discard.

#### PRESIDENT FOR PUBLICITY.

9. Old "it is said" has disappeared from the White House news and instead it appears "The president said."

10. "That was said in a cabinet meeting and can not be made public," is of the past. What transpires at a cabinet meeting is public property.

11. The bi-weekly cabinet meeting are under the ban. The cabinet will meet when there is something to be done.

12. Promiscuous use of the "executive order" has been stopped. Miss Salome Tarr, barred by the civil service regulations, from the White House stenographers' corps, could have gone in by special appointment of the president, but the president refused to exercise the power in her behalf.

#### HAS COLD SUPPER SUNDAY.

13. President Wilson rests the seventh day. He puts the bars of the White House up Saturday night at 12 o'clock and lets them stay up until Monday.

14. Cold suppers are to be the rule at the White House Sunday evenings. The old Presbyterian rule will prevail.

15. The president declined an invitation to the Chevy Chase club.

16. John Barleycorn and all other sorts of intoxicating drinks have been tabooed at the White House.

### Mrs. W. J. Stone Honored.

The Frankfort State Journal says: Mrs. Elizabeth Stone, wife of Capt. W. J. Stone, keeper of the Confederate records, has been appointed matron of honor for Kentucky at the Confederate reunion which will be held at Chattanooga in May. The appointment was by Gen. Bennett H. Young, of Louisville, commander-in-chief of the United Confederate Veterans.

## "BLOOD IS THICKER THAN WATER"

Without good red blood men have a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ill ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic (oxide) gas. This blood, or blood which lacks the red blood corpuscles, in anemic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

### A Girl of Fourteen Who Gets the Family Dinner Once a Week.

The following is taken from the page in the April Woman's Home Companion devoted to "Good Ideas for Girls":

"A young girl of fourteen whom I know, plans and cooks the dinner at home one evening a week, and her mother stays away from the kitchen entirely on this afternoon. The girl's father gives her a small amount of money in the morning before he leaves home, and she does the marketing with this sum. The event is anticipated with great pleasure by all the members of the family as well as by the little cook, and the nourishing and appetizing dinner she serves is certainly surprisingly good."

## RECOVERS HER REASON AFTER NINETEEN YEARS

### Mrs. Jordan Awakes to Find Her Reason Restored Through Operation.

Nineteen years ago Mrs. Carrie Belk Jordan, of 23 Oliver street, lost her reason just two weeks after her baby daughter was born. Monday, after an operation, she suddenly recovered her reason, and found her baby daughter grown, married, and the mother of two children.

Mrs. Jordan can hardly believe that her baby girl is now the mother of children and that she herself is a grandmother.

Mrs. Jordan's recovery is considered a remarkable feat of surgery. For nineteen years she had been without reason. The later part of February she was operated on, but the operation was without immediate effect.

On Monday she recovered her reason without warning, and her cries of joy notified the attendants of the Red Cross hospital, on Cooper street, of her sudden recovery. Dr. W. B. Lingo performed the operation.

## CHAS. BAKER KILLED

### Prominent Young Man Meets Accidental Death While Out Hunting.

Charley Baker, son of Hor. and Mrs. J. V. Baker of this city, was killed near Risco last Sunday evening by the accidental discharge of a gun.

Charley left Morehouse the latter part of last week for a hunting expedition to the overflow lands. In company with "Shorty" Hunt and several other companions he went to a point about five miles from Risco. Late in the evening while the party was sitting on a log resting, a crane flew over, and Charley reached for his gun, which was leaning against the log. One barrel discharged, the load taking effect in the leg and piercing an artery. His companions did all they could to stop the flow of blood from the wound, but their efforts were in vain, as Charley lived only two hours.

Remains were brought to Morehouse on the Frisco passenger Monday morning and were carried to his home, where they were viewed by his hundreds of friends. Funeral services were conducted by Rev. Fry at the residence Wednesday morning, after which the body was carried to Sikeston for burial. Business in Morehouse was suspended for the day and scores of friends accompanied the body to Sikeston.

Charley was 26 years of age and spent most of his life here. He was well known here and in surrounding towns, where he had many warm friends. Unassuming, cheerful, always ready with a pleasant word to everybody, he numbered his friends by the hundreds.

The funeral cortege was probably the history of the city, more than three hundred being present.

The remains of Charley Baker of Morehouse, passed through Monday on the Frisco passenger enroute home where his friends were taking him after accidentally shooting and killing himself with a shot gun while out duck hunting near Risco, Mo.

We regret to hear of Charley's death as he was well known here.

### The Cause of Rheumatism

Stomach trouble, lazy liver and deranged kidneys are the cause of rheumatism. Get your stomach, liver, kidneys and bowels in healthy condition by taking Electric Bitters, and you will not be troubled with the pains of rheumatism. Charles B. Allen, a school principal, of Sylvan, Ga., who suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys, writes: "All remedies failed until I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Maybe your rheumatic pains come from stomach, liver and kidney troubles. Electric Bitters will give you prompt relief. 50c and \$1.00. Recommended by James H. Orme and Haynes & Taylor.

### The Old Family Clock.

(by J. B. M.)

Away back from the county seat, Stand the old family clock, Tall trees in the front yard grow, And from its station in the hall, It speaks a word of warning to us all.

Half way up the stairs it stands, Points and beckons with its hands And echoes down the corridors of time, Speaking words of sublime, Time, time, time. Its voice is heard low and light, Its warning comes day or night, Crosses itself, and says at last, A word of caution to all who

### Order of Court That County Roads Must be Worked or Pay According to Law

On motion at a special term of Fiscal court of Jan. 7, 1913, it was ordered that the roads of Crittenden county be worked by hands to be warned in by the County Road Engineer, or his assistants, and all able bodied male citizens of the county over the age of 18 years and under the age of 50 years, except licensed ministers of the gospel and citizens of incorporated towns and cities, are required to provide themselves with necessary tools and implements, and to work on public roads of the county, not exceeding two days in a week and six days in each year, provided, however that any road hand may pay to the county engineer, the sum of three dollars. (\$3.00) on or before the 1st day of June, of any year, and upon payment of said sum, he will thereby be released from work upon the road during the said year. The County Road Engineer shall immediately pay over said sum so paid to him, to the county treasurer, who shall place same to the credit of road fund, and same shall be applied and used in the employment of graders, plows, and teams and hands to work upon the roads of the county when needed. And said treasurer shall keep a separate account of such funds from that paid to him by the sheriff.

In employing hands to work upon said roads the County Engineer shall pay the prevailing wages in the neighborhood where said work is done, not however, to exceed \$1.50 nor less than \$1.00 per day, for each day of eight hours. In view of this fact I am now prepared to give receipts to all who want to

**TO THE CITIZENS OF MARION.**

It has been currently reported in Marion, so we are informed by some individual to foster their own interest, that the Marion Ice Company would not run the plant the coming season, and thereby induce some people to purchase ice shipped in. Now to make a long matter short would we not have been so foolish to have supplied the citizens of Marion with ice since last November, through the entire winter until May at a considerable loss had we any idea or intention of not running the plant. We can assure you for five to six months during a year there is actually not sufficient ice sold in Marion to pay a man for delivery and feed stock necessary to deliver it, giving the ice for nothing, but we are in the ice business to stay and have at all times kept ice for those using it for sickness and other uses even when our supply would run short actually shipping it in by express which alone cost as much as we often get for the ice.

This shows reliability and our intention to remain in the business and give service and we do believe that our service along this line is appreciated by the citizens, neither do we believe as a rule many people in Marion can be induced to patronize a foreign industry, when they have at home an enterprise worthy of patronage, which has at all times not only furnished the goods but showed their faith in Marion by erecting an ice plant that has given employment to their people.

There may be few people in Marion that probably will catch the Sears & Roebuck habit but as a rule they are in a class to themselves. The good citizens of Marion can depend on the plant not only being run when the proper time arrives but will be supplied with the best of ice at all times, and the promptest service possible, rendered. We give this notice that all may understand the facts and may know what to depend on. Mr. W. D. Baird, whom you all know, is looking after the prompt delivery of ice. We are preparing to put the plant in better condition this season than ever before, for not only turning our better ice if possible, but in larger quantities and will be well prepared to

customers at the proper time.  
Very sincerely,

**CORROBORATION**

**Of Interest to Marion Readers.**

For months Marion citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Marion residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? The following statement should carry conviction to the mind of every Marion reader.

J. E. Glass, farmer, Marion, Ky., says: "The statement I made in 1908, regarding the attack of kidney trouble that I had at that time and was permanently cured by Doan's Kidney Pills, was correct. I recommend them to all sufferers of kidney trouble. They surely do all that is claimed of them. I have recommended Doan's Kidney Pills to many other people and they have also been cured of severe cases of kidney and bladder trouble." For sale by all dealers. Price fifty cents. **Notice of School Trustees'  
Meeting Next Saturday**

I want to have another trustees' meeting on next Saturday, March 29th for the purpose of arranging our plans for the next year's work, fixing a time for schools to begin &c. We will have the meeting in the court house in the afternoon. There are several things I should like to talk to you about. I have the census blanks and they are so different to what they have been that they will need some explanation. I can give you this explanation, too, they are so large that it will be a little difficult to mail them to you on that day with a word explanation that will be sufficient.

From all reports and from my observation, the schools have made greater progress this year than has ever been known in one single year in the history of the county. I attribute this to the co-operative efforts of all concerned, and the trustee is one of the co-operative factors of this co-operation. This day may seem to some like a day lost from their farm work and other pursuits, and a day of expense in town, but it will show, in the development of educational activities, among our children in the near future.

A complete understanding of each other, and the perfect organization of the members of any business firm makes great strength. There is no greater business interest in any country than the education and development of its childhood.

Come here on the above mentioned date and let us do our duty to our fellow men and the future citizenship of Kentucky as best we can.

## AUDUBON'S OLD HOME BURNED

Mill Owned By The Famous Naturalist Destroyed At Henderson.

Henderson, Ky., March 18.—The old mill, formerly owned, and the home of the world-famous naturalist, John J. Audubon, together with the Clark tobacco factory, combining a loss of \$12,000, together with fifty hogsheads of tobacco on the river bank, valued at \$6,000 and owned by the American Tobacco Company, burned late this afternoon. The famous old site sat on the bank of the Ohio River. The Henderson bridge, a wharfboat and a number of small boats caught fire. Had the wind been in the opposite direction, the entire business section of the city would have been wiped out. The fire originated through children burning some brush.

The building was erected in 1816 on the bank owned by the city, and the owners were given a ninety-nine year lease, at which time it was to revert back to the city. It was highly prized and frequently visited by favorites of

Audubon's works.

It was the biggest fire in the history of Henderson.

## The Forty Year Test.

An article must have exceptional merit to survive for a period of forty years. Chamberlain's Cough Remedy was first offered to the public in 1872. From a small beginning it has grown in favor and popularity until it has attained a world wide reputation. You will find nothing better for a cough or cold. Try it and you will understand why it is a favorite after a period of more than forty years. It not only gives relief—it cures. For sale by all dealers. \*m

## SUES EGAN FOR \$25,000

Former I. C. Conductor Alleges He Was Slandered.

Paducah, Ky., March 25.—Alleging slander, suit was filed today by Henry Harris, a former conductor, against A. H. Egan, Superintendent of the Kentucky Division of the Illinois Central, for \$25,000 damages. Harris charges that Egan accused him in the presence of others of stealing from the company. He says he was discharged about December 7, 1912, and has not been able to secure work since.

## OLD IDEAS ARE PUSHED ASIDE

Schools Must Have Contact With Activity of People.

## "WHY NOT TRAIN FOR LIFE?"

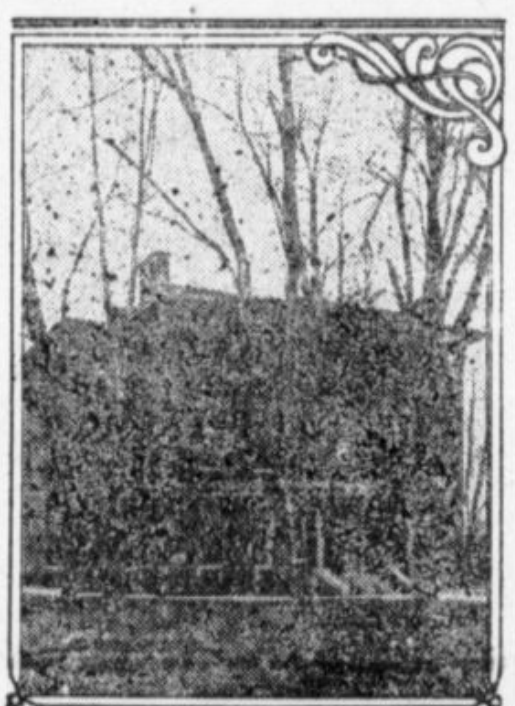

Higher Grades Are More Than Mere Incubators For Embryo Lawyers, Doctors, Teachers and Preachers, Domestic Science and Domestic Arts.

Schools will attract and hold the attention of the public in proportion to their contact with the everyday life and activity of the people. The old idea of a high school being an incubator for embryo lawyers, doctors, teachers and preachers is being pushed aside.

The school people—the real, live, wide awake school people—have seen this proposition clearly for some time, but they have been afraid of what the general public might think. The public has sensed that there was something out of gear in our school machinery, but it was afraid of what the education expert might say. And so the public and the school people have been seeing.

Boys and girls welcome any study that tastes of everyday life and activity. The little girl in the lower grades mothers her doll, makes her clothes and mends them and cooks wonderful dinners on a homemade stove of brick out in the back yard. She keeps house and plays her part in a mimic world because it is the only outlet for what she sees of the activities of the world in which she is eventually to take her place. The years slip by, and she must put her doll aside, and she can no longer with dignity cook on the brick stove in the back yard. Her own feeling would prompt her to go forward in sewing, cooking and the other household arts, but she is in a high school in which no such course is offered, so she loses an interest that had been part of her life and development. If she happens to find such a course in the high school the chances are that it is for a single period each day, and her credits earned for graduation would

be greater for Latin, German or mathematics. She is anxious to get full credit for her labor, so she takes a topic for which she has no real liking. IN OTHER WORDS, OUR HIGH SCHOOLS ARE PUTTING A PREMIUM UPON WORK WHICH HAS SOME MENTAL AND CULTURAL VALUE INSTEAD OF COMMON, EVERYDAY HOME VALUE.

A LIVE HIGH SCHOOL.

At the Henderson high school both domestic science and domestic arts for girls and manual training for boys have been given a very prominent place in the course of study. The school is now offering a three year course, and a fourth will be added next September. It is a four year course that calls for two forty-minute periods each day in the week, that real, strong, helpful, practical work may be accomplished. Too much of our school work has been theory, and we must have time enough for the practical side of domestic science and manual training.

Two years of this course, the freshman and the junior years, are used for sewing, pattern making, designing and a study of cloths and materials of various kinds. It is the aim of this work to have a girl strong enough to design a garment or plan a wardrobe rationally, to alter a pattern that does not fit or suit her. In a course of study of one period per day this would be impossible, but with eighty minutes each day of her school year at a sewing table results can be gotten.

In domestic science the work is rather out of the ordinary in that it seems so thoroughly commonplace and so usable in the home life that most of us have to live 365 days in the year. There is nothing that is fancy, but a very great deal about breads of various kinds, yeasts, baking powders, the care of stoves, refrigerators, etc. As one goes through this high school and sees the girls at this work there is the feeling that many of them are to be saved from the disappointment that comes to most young housekeepers.

That this work in Henderson appeals to the girls is shown by the fact that

## Resolutions of Respect.

Whereas an allwise and loving Heavenly Father has taken from our midst, one of our best pupils, Bro. Ben Horning, therefore be it resolved by the teachers of the Shady Grove M. E. Sunday School, that in his death the school lost one of its most valuable, consecrated scholars.

Resolved, that we extend to the bereaved loved ones our tenderest sympathy in this trying hour we would remind them that God is our refuge and strength, a very present help in trouble and through the cloud as it were beyond which is everlasting sunshine for we are told that in the heavenly city the Lamb is the light thereof.

Resolved, we would commend his aged mother to Him, who is able to sustain comfort and strengthen to his wife, sisters and brothers; we recommend his example of faithfulness, cheerful fortitude and christian living, we would point his daughter and three boys to the Savior, the only hope of salvation.

Resolved, that our loss is his gain, and although he can not come to us, we can go to him and then oh, then forever united. We shall sit together in heavenly places in Christ Jesus and sing His praises forever more.

## SHERIDAN

This little town is situated midway between Marion and Tolu. If you were to rise in an airship 750 miles high at this point you could see the green wheatfields of Minnesota, also

the Great Lakes. If you could rise 1,500 miles you could see both the Atlantic and Pacific oceans without turning your head.

Our candidates will spend this week collecting their thoughts.

Uncle Jim Lanham says the most sensible way of trimming an Easter hat is to take a pair of shears and trim everything off of it.

The question has been asked: "What is more annoying than the mole in the garden?" answer, "That one on your chin."

An accident befell John Bealmer one day last week that resulted in a broken limb. He was pruning a fruit tree when the limb upon which the ladder rested gave way and was broken.

I. W. Thompson has the champion egg producers of this section. He came to town one day this week with—as it seemed—nothing but eggs. Our clever merchant, E. F. Sullenger, found that he lacked only one egg of having a case and intended to give him a square deal any how, when lo, I. W. threw up his hand and took one out of his whiskers.

## Squire Hodges for Jailer.

Squire L. J. Hodges of Iron Hill was here Tuesday and in course of a conversation he informed the Record-Press that he was a candidate for Jailer, subject to the action of the Republican primary on August 2nd next. Squire Hodges is well known to most of our voters. He has been on the magisterial board and has faithfully looked after the county's interests and is popular in the Shady Grove and Piney sections, where many of his relatives, the Lambs and Cullens live. He is also related to the Hunt and to the James families and will poll a good vote.

### Methods of Securing Sites for Federal Buildings.

Continued from Page 1.

formance of their ordinary official duties.)

Based on the agent's report, together with written representations from other sources, the department selects the site and, if the property is to be acquired by purchase, accepts the offer of the successful bidder, subject to the conditions hereinafter stated and the Attorney General's approval of the title. No intermediary between the landowner and the Government is necessary. While it is advantageous to all concerned to have proposals submitted at the date fixed in the advertisement, in those cases where it is impracticable to submit an offer then, belated proposals will have due consideration if received before the department makes its selection.

Whenever the department is unable to secure from the owner a proposal to sell the site desired or (any part thereof) for a reasonable price, a resort may be had to condemnation proceedings to ascertain the valuation of the property. If the price, so judicially determined, is satisfactory, the award is confirmed and payment made. If the damages are deemed excessive, however, the proceedings are dismissed and some other location is taken under consideration.

Where an acceptable title to the site selected (or any part thereof) can not be secured by voluntary conveyance, an agreement may be reached with the owners as to the price to be paid and the title condemned under a consent verdict fixing the award at the agreed valuation. When condemnation is necessitated by the condition of the title, it is customary for the owner to pay the costs thereof, besides furnishing the usual surface surveys and the abstracts, evidences of title, etc., required by the Attorney General.

The buildings (if any) on the site should be reserved by the vendor, to be removed upon 60 days' notice (usually) after payment for the land has been made. Generally, notice to clear the site is not given until the construction of the Federal building is about to begin, if the vendor is willing, pending such removal, to pay a reasonable ground rent, the rate for which can not be made a part of the consideration for the site, but will be agreed upon after the land becomes the property of the Government. A small bond is usually required in this connection.

"Clearing the site" includes the removal therefrom of all buildings, foundations, or other improvements (except retaining walls and walls supporting sidewalks), and all tracks, poles and wires (overhead or underground) the abandonment of all gas, water, and heating pipes, ducts, etc., conduits, ditches, and sewers crossing the site, together with the satisfactory plugging of the ends thereof at the lot lines (unless the requirement for the discontinuance of any such pipes, ducts, conduits, or sewers is expressly waived by the department); the safely covering over, or railing off, of any open wells, cellars, excavations, etc., on such site, and the taking away of all debris resulting from such removals, and the leaving of the land clean all without expense to the United States and to the satisfaction of the custodian of the site to be hereafter appointed.

There is frequently a large volume of the site business before the department, and while such work receives unremitting attention until finished, it is not

make a selection within a reasonable time) to withdraw their proposals, but will be expected by the department to give notice of such intention.

When the department has selected a site, such action is final unless the vendor fails to perform the conditions of the contract with him or (in case of condemnations) the property can not be acquired at a price the department would feel justified in paying. When once the title to a site is vested in the United States, a new act of Congress would be necessary to enable the department to change to some other location.

Plans for public buildings are taken up in the order in which the titles to the sites therefor are vested in the United States, and the contracts for their construction are let at as early a date as practicable.

### PROPOSALS

No special form of proposal is required or provided, but the offer (and any accompanying documents) must be typewritten (on letter-size paper), addressed to the Secretary of the Treasury, in care of the Supervising Architect, and should indicate definitely the location and dimensions of the property and the price at which it is offered. The proposal must be accompanied by a diagram, or plat, on a sheet (of tracing linen, if possible) 8 by 10 inches, on which the following data must be clearly indicated, viz:

1. The city, county and State, and name of the owner of the site.
2. An outline map of the land offered, showing accurately its shape, grades, and the dimensions in feet and inches of each side, counting only clear building space, exclusive of all sidewalks or any other decrease. (If the lands occupied by the sidewalks are not owned by the city, that fact must be stated. Also, proponents should be careful in stating the dimensions of their properties. The later discovery of a material shortage might be deemed sufficient cause for annulling an acceptance of a site, or for requiring a proportionate reduction from the price therefor to offset such shortage in area.)
3. The names and width (from lot line to lot line) of adjacent streets, including widths of sidewalks, and widths of roadways between curbs, and whether or not paved and the character of the paving.
4. The widths and locations of adjacent alleys, and whether public or private, paved or unpaved, and open or to be officially opened.
5. The approximate locations (in adjacent streets or alleys) of gas, water, and heating mains (noting the kind of gas and heat); conduits or overhead wires or cables; sewers, with their depths below street levels and their diameters, and whether sanitary or storm-water sewers, or both, and if public or private.
6. If no sewers are in adjacent streets, a statement from the city engineer must be secured and attached to the plat showing the distance from the property offered to the nearest sewer with which connection could be made and the fall obtainable; also, the diameter of such sewer, its depth below street level, and whether sanitary or stormwater, or both, and if public or private.
7. Describe any proposed improvements or facilities (such as sewers, gas, water, or electric service) adjacent to the proposed site, and state probable date of installation.
8. The plat must have indicated thereon the approximate location of any right of way, sewer, ditch, conduit, gas, steam

to be there is subject to termination.

9. The plat must show with reasonable accuracy the "north point" of the compass and in skeleton lines the locations of the building [if any] on the site.

10. If it is claimed that the nearest corner of the site offered is within 80 rods of the point where the mail is actually taken from the trains at the railroad station handling the bulk of the mail, the proposal must state the actual measured distance over the route usually traveled by wagons. (When the city is the terminus of such railroad, this paragraph should be ignored.)

11. If there is any body of water, or water course, adjacent to the site, the proposal must state the normal, minimum, maximum levels of water. If the site is exposed to freshets, state the essential facts as to conditions to be expected as shown by past experience.

12. The proposal and plat, and any accompanying papers, must be securely fastened together.

13. Bidders should indicate whether they bid as owners or agents.

14. When two or more parcels of adjacent lands are required to make a site of the required dimensions, the department prefers that the owners join in one proposal, indicating the portions of the total price to be paid for the respective interests. The plat should show the dividing lines between the several parcels offered.

15. When an owner of a part of the site desired refuses to offer his property at a reasonable price, the Government would entertain a proposal from the owner of the remainder of such site, stating a price for the whole site and undertaking that, should it be found necessary to condemn the former property, he will accept for his land whatever balance of such stated price is left after the Government pays into court the award for the condemned portions.

### RESTRICTIONS

16. The proposal must describe any existing restrictions upon the use of any part of the property offered. If the property is subject to the reservation of mineral rights, that fact must be stated, and the plat made to show approximately the depth below the street level of the top, and the location and extent, of any excavation or workings under the property, together with a statement of the character of the strata from the natural surface of the site down to such excavations or workings; also state whether mining operations are still going on in the immediate vicinity of the site.

### TITLE PAPERS, ABSTRACTS, ETC.

17. No title papers need be submitted with proposals; but if the title to the property is in such condition that conveyance thereof can not be made by deed, the facts should be briefly stated.

18. The owner of the site finally selected by the department will be advised in writing of the acceptance of his proposal, and will be required to furnish without additional cost to the United States all requisite abstracts, official certifications, deeds of conveyance, evidences of title, maps, etc., which may be necessary, in the opinion of the Attorney General, for the proper examination of the title to the property and to vest in the United States a good and valid title thereto, free and clear of all liens and incumbrances of every kind and character, including easements, leases, judgments, taxes, and assessments, accrued or inchoate, at the date of transfer of title to the United States, and must pay the cost of

tion. The deed or deeds from the grantor to the United States unless otherwise agreed upon, will be recorded at the expense of the Government. It is not necessary to discharge liens upon the property until the transfer of the title to the Government is about to be made.

### SURVEY.

19. The vendor must furnish the title papers an accurate survey of the site, to be made by the city engineer (unless permission is specially given to employ some other qualified engineer or surveyor.) This survey must be prepared in conformity with the attached "Specification for Vendor's survey." The vendor must have said surveyor mark each bound of the land conveyed to the United States, as required by said specification.

## Surest Way to End Catarrh.

Go to Haynes & Taylor's and say: "I want a HYOMEI outfit." Take it home—pour a few drops of HYOMEI from the bottle into the little hard rubber inhaler—breathe it for five minutes and note the refreshing relief—breathe it four or five times a day for a few days and Catarrh and all its symptoms will gradually disappear.

Booth's HYOMEI is balsamic air; it contains no opium, cocaine or other harmful drug and is sold on money back plan for Catarrh, Croup, Colds and Coughs. Complete outfit (includes inhaler) \$1.00—extra bottles if later needed, 50 cents at Haynes & Taylor's and druggists everywhere. Simple instructions for use in every package—you can't fail. Just breathe it—no stomach dosing. m27a3

### Best Known Cough Remedy.

For forty-three years Dr. King's New Discovery has been known throughout the world as the most reliable cough remedy. Over three million bottles were used last year. Isn't this proof? It will get rid of your cough, or we will refund your money. J. J. Owens, of Allendale, S. C., writes the way hundreds of others have done: "After twenty years, I find that Dr. King's New Discovery is the best remedy for coughs and colds that I have ever used." For coughs or colds and all throat and lung troubles, it has no equal. 50c and \$1.00 at James H. Orme's or Haynes & Taylor's. m

### Entertainment.

On Tuesday evening, March 25th, Mrs. L. B. Vosier gave her little daughter, Inez, a birthday party, although it was raining and very disagreeable, the little girls were beautifully entertained with games and amusements prepared by Mrs. Vosier, who proved a charming hostess.

Inez received quite a number of presents which were very much appreciated by her.

Delightful refreshments were served which added much to the enjoyment of the evening.

Those who were present were Misses Ina Bigham, Virginia Miller, Lena Maude Guess, Virginia Doss, Viva Shuttlesworth, Reba Parrish, Mabel Sutherland, Fannie Porter, Marie Threlkeld, Bernice Sutherland, Marie Loyd, Gladys Enoch, Edwina Weldon and Charline Weldon.

### Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, price 50c. Take Hall's Family Pills for constipation.

### Teachers Training Work.

I have been appointed organizer of the Teacher Training Work, by the S. S. executive Board. I hope each one in the county who is interested in the work, or who would like to know more about it will write me. I shall gladly give all the information I can.

When joining a class you do not subject yourself to any obligations and the year's work costs nothing except the price of the book, which for the first yr. is about 30cts.

I hope to hear from someone in each school. If you are not an officer or teacher, but are interested, do not hesitate to write Edna Roberts, Tipton, Ky.
