HEAVEN HAS GAINED A JEWEL

Charline Elizabeth Weldon Succumbs After Lingering Illness of Tuberculosis.

After a lingering illness of several months, Charline Elizabeth Weldon, the little daughter of Mrs. Lan Harpending, died at 3:40 o'clock Wednesday, April 9. She was in her 10th year, having been born August 31, 1903. She was the only child of the late Charles Weldon and was born at Tolu.

The funeral service was held at the Methodist church Friday morning at 10 o'clock, conducted by Rev. W. P. Gordon and assisted by Rev. M. E. Miller. Burial at the New cemetery beside the grave of her father.

The unusual sight of four young ladies for pallbearers was witnessed, Misses Mary Deboe, Mary Lou Wilborn, Susie Boston and Nannie Rochester tenderly bearing the casket. Beautiful floral offerings in various designs were sent by the M. E. Sunday school, also her class at the Graded School, Ladies' Aid, the Eastern Star Lodge, C. V. Oakley and other friends, and the little mound was completely hid from view.

ROMANCE OF THE REAPER

Given Through The Courtesy of International Harvester Co.

Seven hundred people of this vicinity attended the Romance of the Reaper which was given through the courtesy of the International Harvester Company of America and their local implement dealers, T. H. Cochran & Co., W. E. Belt and Eskew Bros.

Everyone who listened to the lecture and saw the pictures spoke of them with enthusiasm. More can be learned about the development of agriculture in an hour at this lecture than in a whole term at college.

The history of harvesting is traced in colored pictures—these show how the grain was gathered in former days—first by the sickle, then the cradle.

The development of the harvesting machine placed in the field by McCormick, to the modern self-binder, developed by Deering, was most interesting.

Mr. Frederic W. Reick, of Chicago, entertained the audience in a delightful manner. He was accompanied by Messrs T. C. Van Cleve, J. P. Lilly and E. J. Ortmeyer of the advertising division at Evansville.

BOWMAN DIES IN ELECTRIC CHAIR

Marion County Man Convicted of Assault Pays Death Penalty at Eddyville, Ky.

Eddyville, Ky., April 11.—Jno. H. Bowman, aged 25, of Marion Co., was electrocuted here this morning. He was convicted at the September term of the Marion circuit court in 1912 for an assault on Minnie Lamb, aged 18, and given the death penalty. Bowman was taken from the death cell at 4 o'clock and without showing the least emotion was placed in the electric chair. The current was turned on at 4:10 o'clock and life was pronounced extinct by the prison physician at 4:22. Bowman was accompanied to the death chair by his confessor, the Rev. Father Joseph Welch.

Balance of \$40,000 After Paying Sheep Claims.

Frankfort, April 14.—Nearly all the sheep claims have been paid by the State Auditor, H. Z. Churchill, of the Auditor's office, said that year a balance of about \$40,000 from the dog tax will go to the school fund after paying claims for sheep killed. Last year the balance was more than double this amount.

Gentleman Well Known Here.—Awarded First Prize.

In January, the Insurance Press, a periodical published, as its name indicates, in the interest of the insurance world, offered prizes for the best article submitted on certain topics. B. G. Harrington, local manager for the Metropolitan, offered them an original article on "Helps for the Man in the Field," and was both surprised and pleased when he received a check and the information that he had been awarded first prize. He also had a letter from the vice President of the Metropolitan Co., complimenting him on the article. This is the second prize Mr. Harrington has received in such contests.—Princeton/Lerder.

GREAT REJOICING

At Harrodsburg When Presbyterian Church Union is Approved by One Body.

Harrodsburg, Ky., April 15.—There was a season of great rejoicing by the large crowd attending the prayer meeting of the First Presbyterian church last night when the pastor announced that the basis of union adopted by the two local Presbyterian churches on March 30 had been approved unanimously by the Presbytery of Transylvania, U. S. A., in session at Campbells-ville. The telephone lines were kept busy until a late hour by the members of the two churches in their expressions of joy and exchange of Christian greetings. Perfect unanimity has characterized every step in connection with this union, and intense interest is being manifested in the approaching meeting of the Presbytery of Transylvania, U. S. A., at Campbells-ville next week, and the future work plan of Presbyterianism in Harrodsburg will be materially affected by the action of that body.

PRINCETON PRESBYTERY

Judge J.W. Blue Delivered Welcome Address at C. P. Church in This City.

Princeton Presbytery of the Cumberland Presbyterian church met in Marion, Ky., April 8, 1913, at 7:30 p. m.

The opening sermon was preached by Rev. J. M. Cook, of Madisonville, Ky., although it rained almost continually 25 of the 30 churches were represented and twelve (12) ministers were present.

The Presbytery was welcomed to the city by a splendid address by Judge J. W. Blue. Rev. J. B. Lowey was elected Moderator. Rev. J. L. Price preached on Wednesday at eleven and Rev. W. T. Oakley administered the sacrament.

A good Sunday school program was discussed Wednesday afternoon. Wednesday evening the Ladies Missionary Society rendered one of the best of the many good programs with which they have favored the Presbytery.

On Thursday at eleven Rev. J. M. Cook preached a sermon on "A Call to the Ministry" full of the power of the holy spirit. Two young men, W. H. Wallace and George A. Heath, were received as candidates for the ministry. Thursday at noon Dr. Goodnight came in, having been delayed by high water. He was called to the rostrum and addressed the Presbytery for a few minutes. He mentioned particularly the importance of securing complete statistics.

The good people of Marion entertained the Presbytery splendidly, and each one seemed to think he had the best home.

The next Presbytery will meet with Cave Spring church, near Repton, Crittenden Co., Ky.

H. N. LAMB, Stated Clerk.

Refuses Whiskey Advertisements.

The Columbus, S. C., State has decided to refuse all whiskey advertisements, on account of the sentiment for prohibition which is getting so prevalent in the state. This is commendable in the State, and is an example worthy of emulation by other newspapers. Of course this is a business proposition, and while The State is being commended on all sides for its stand, it is doubtful if the financial support given by its commenders will make up for its loss by refusing the whiskey advertisements.

The Hustler does not carry whiskey advertisements, and can name scores of other semi-weekly and weekly newspapers, but there are few daily newspapers that have the nerve to do as The State has done.—Madisonville Hustler.

The Crittenden Record-Press does not carry ads for whiskey dealers and has refused to do so for several years. Aside from the editor's view on the subject there is another thing to consider, viz: the fact that the people here are opposed to its sale here and have so expressed their views at the polls.

Accepted Invitation.

Rev. Hugh Watson, pastor of first Cumberland Presbyterian church at Paducah has accepted an invitation to deliver the commencement address to the theological students of Bethel college, McKenzie Tenn., May 12.

STAMPS AND MONEY SOAKED

Nine Pouches Lie in Water For Week; Postage Total Loss.

St. Louis, April 15.—Nine pouches of registered mail, containing \$100,000 worth of postage stamps and new currency of the face value of approximately \$100,000, all water-soaked in the flood district, reached the post-office here today.

The stamps are a total loss but the money may be saved by being shipped back to Washington to be "laundered."

The stamps were destined to postoffices in all parts of the Southwest. A temporary stamp famine may be the result in some places.

The mail left Washington March 25, on the Baltimore and Ohio, and was put off at Parkersburg, W. Va., where it lay for a week soaking in the flood.

Getting Ready for the Panama Canal.

New Orleans, April 15.—Announcement was made here today that the Illinois Central railroad Co., had completed a deal for the establishment of a new line of steamers between this port and the Argentine Republic with the first sailing on June 30 and monthly sailings thereafter.

Our Neighbors Across The Big River.

Uncle Alex Clark of Elizabethtown handed us a small piece of zinc Monday which he broke from a larger piece brought in by his son-in-law, J. W. Waggoner, which Capt. A. B. Thomas says is as rich as needs be and the richest thing yet found in the county. People are just beginning to realize that just a few years ago they (some few) made a guy-pert of the wrong man. We didn't care, then, but are glad now that we then thought we knew about this little county of ours has proven to be correct.—Hardin Era.

Mrs. Nunn Gives Birth-day Party to Grauddaughter.

Mrs. T. J. Nunn arranged a delightful surprise birthday party last evening in celebration of the fourteenth anniversary of the birth of her granddaughter, Miss Virginia Flannery, who makes her home with Judge and Mrs. Nunn.

The first part of the celebration included a visit to the moving pictures, Mrs. Nunn and Mrs. Joseph Rupert chaperoning the crowd. After visiting the vaudeville and picture shows, they repaired to the home of Mrs. Nunn on Third street.

GREAT LONDON PARADE

With Dublin Prize Horses, Which Will Exhibit at Marion Wednesday April 23.

A street parade, which will be a veritable horse fair, is promised by the Great London Shows, which exhibit at Marion, Wed., April 23. The pageant will leave the grounds at 10 o'clock day of the show, and follow a line of march to be announced later. First will come the World Famous Dublin Grays, the \$25,000 prize winners.

The band wagons' floats, and other paraphernalia will be drawn by 400 well groomed, well matched dapple gray horses. The stock is all in the pink of condition.

The racers are of undisputed lineage, the steeds attached to the Roman chariots are particularly beautiful, the Kentucky high school horses are the greatest equines on earth, and half a hundred Shetland ponies will delight the children.

When the show comes to this city the work of unloading will be well under way with the rising of the sun and there is little chance of the street display being late in leaving the grounds. Already choice locations for witnessing this display are in demand, and the chances are that the streets, along which the parade will go, will be lined with admiring thousands, cheering the handsomest parade ever seen with a circus, and the Great Dublin \$25,000 Prize Team will be an unusual feature to view.

where refreshments were the concluding feature of the party. The table decorations, which were unusually pretty, were in pink and white, ornations in these colors being used. The center of the table was adorned with a big birthday cake, which rested on a silver tray banked in smilax and white flowers. The cake was frosted with pink rosebuds, each of which held pink candles, indicating the number of years of the guest honor's stay on terra firma. At each end of the table were baskets filled with the carnations and ferns, the handles tied with pink ribbon. The confections carried out the prevailing color motif.

Those who enjoyed the evening were Misses Lucy and Josephine Severance, Margaret Biles and Christine Johnson, Messrs Douglas Booe, William Simpson, William Eales, Marshal Adams and Howard Gaines, Jr.

Wm. Barnett returned from a visit to his daughter at Evansville, Monday, and left Tuesday for his farm at To'u.

GOVERNOR CRUCE DOES HIS DUTY

As He Sees It.—Resists His Only Daughter's Plea.

Miss Lorena Cruce, the young daughter of Gov. Lee Cruce, and a student of the State Normal School at Edmond, appeared as the head of a delegation of students from various State institutions this week protesting against the Governor signing a recent bill of the Legislature prohibiting fraternities and sororities in the State schools. Miss Cruce and her friends protested in vain, as the Governor could not see his way clear to veto the bill.

Miss Cruce is the only child of the Governor and is practically his all, as his wife died when Miss Lorena was a small child. However, the Governor resisted her pleadings, as he was firmly convinced that it was his duty to let the bill become the law of Oklahoma.

The bill applies to schools kept up by public funds, but is not constructed to affect the higher institutions. It gives the Board of Education power to expel students who persist in retaining membership in fraternities or sororities.—Oklahoma Correspondence in Sunday Courier Journal.

Pains in the Stomach

If you continually complain of pains in the stomach, your liver or your kidneys are out of order. Neglect may lead to dropsy, kidney trouble, diabetes or Bright's disease. Thousands recommend Electric Bitters as the very best stomach and kidney medicine made. H. T. Alston, of Raleigh, N. C., who suffered with pain in the stomach and back writes: "My kidneys were deranged and my liver did not work right. I suffered much, but Electric Bitters was recommended and I improved from the first dose. I now feel like a new man." It will improve you, too. Only 50c and \$1.00. Recommended by James H. Orme and Haynes & Taylor's.

Occupants of Launch

Near Watery Graves.

Charles Davis, manager of Col. R. H. Soaper's lower bottom farm, chartered a launch Friday morning to go to Mr. Soaper's upper farm to assist in loading mules on the Margie M., to take to high land but got no farther than the middle of the river and with the owner of the boat had a narrow escape from death.

When a third across the river waves rolled over the craft half filling it and stopping the engine. Both men were wet to the skin but lost no time in baling out the water. For an hour they worked as fast as they could and all the while more water was running over the and the boat was tossed about like an egg shell on the ocean.

Finally enough water was removed to start the engine and a bee line was made for shore.

Mr. Davis said he had no idea the waves were so high until the boat was well on its way across the river. In relating his experience to the Gleaner he said he would never again venture out in rough water. He said the waves were so high that when the boat went down to ride another he could not see the buildings along Water street.—Henderson Gleaner.

COLD IN HEAD

GOES OVERNIGHT.

Don't try to break up that bad cold with dangerous stomach disturbing drugs. Get directly to the inflamed membrane by breathing Booth's HYOMEI (pronounce it High-o-mo). Get a bottle for 50 cents at Haynes & Taylor's and try the safe treatment that thousands are using.

Into a bowl of boiling water pour a scant teaspoonful of HYOMEI, cover head and bowl with a towel, and breathe deep into the lungs the healing vapor that arises.

Breathe this vapor for five or ten minutes until the head feels fine and clear, then go to bed and sleep soundly until morning. No cocaine or opium or harmful drugs in Booth's HYOMEI. It is made of Australian Eucalyptus and other antiseptics. It is guaranteed to end Colds and Catarrh or money back. Just breathe it—no stomach dosing. a1017.

Litigation May Follow.

Lancaster, Ky., April 4—The merchants and citizens of Paint Lick, who were so severely damaged by the waters of Paint Lick creek overflowing that village last week, have consulted with lawyers, and it is said that suits may be brought against the L. & N. Railroad Company for \$30,000.

It is alleged that the railroad bridge, just east of the town,

was responsible for the damage done, for the construction of the bridge was such that it diverted the waters from the original channel and caused them to take a new course through the town and inundate storehouses and dwellings. Scarcely a business firm in the village escaped damage by the overflow, the entire stock of one being damaged to the extent of \$3,000.

Found a Cure For Rheumatism.

"I suffered with rheumatism for two years and could not get my right hand to my mouth for that length of time," writes Lee L. Chapman, Mapleton, Iowa. "I suffered terrible pain so I could not sleep or lie still at night. Five years ago I began using Chamberlain's Liniment and in two months I was well and have not suffered with rheumatism since. For sale by all dealers."

Old Jack Dead.

The subject of this sketch was born in Tolu, Kentucky, in the year 1900 and was the only survivor of his family of four. He lived an up-and-down life, as he undertook to be the boss among his fellow dogs everywhere he went. Though he was seldom guilty of jumping on a dog smaller than himself, he was never known to be whipped in his life. He was obedient to his master wherever his lot was cast. He was a great squirrel dog—would hunt and tree squirrels for the stranger, as well as for his most intimate friends. He never attached himself to any secret order, so far as we know.

As to politics, he believed in equal rights to none and special privileges to himself. Therefore he undertook to fight his way through, which no doubt shortened his days, bringing his career to an untimely end.

When the writer broke up housekeeping at Silver Heights it became necessary that Jack should also leave the home of his puppyhood, which he seemed so much to love. He was given to James Homer Moore as his next best friend, who, at the time, thought Jack had a good home for the rest of his life. But Jack soon became hostile to the bird dog which had a better right to the home by reason of earlier possession. So it was ruled that Jack should change his abiding place, and John Fletcher, colored, become his owner. Somehow or other—maybe owing to the fact that Jack was almost a white dog—he became dissatisfied with his home and became a hobo, wandering wheresoever he willed. Tiring of tramp life, he took up abode at Hodge Fritts'. From this home he left the city and went to the country, where he remained until called back to town by his original owner, R.

M. F., at the home of C. E. Weldon. He afterward made a trip to Tolu, where he fell in company with old Bro. Wooten. While here he fought a great fight, breaking his contestant's leg. This ended his career.

During one of the sudden changes of the weather in February he passed out, having reached his thirteenth milestone. From this writing it may seem that Jack was a large dog, but in weight he never exceeded 35 pounds.

NOTICE

Order of Court That County Roads Must be Worked or Pay According to Law

On motion at a special term of Fiscal court of Jan. 7, 1913, it was ordered that the roads of Crittenden county be worked by hands to be warned in by the County Road Engineer, or his assistants, and all able bodied male citizens of the county over the age of 18 years and under the age of 50 years, except licensed ministers of the gospel and citizens of incorporated towns and cities, are required to provide themselves with necessary tools and implements, and to work on public roads of the county, not exceeding two days in a week and six days in each year, provided, however that any road hand may pay to the county engineer, the sum of three dollars. (\$3.00) on or before the 1st day of June, of any year, and upon payment of said sum, he will thereby be released from work upon the road during the said year. The County Road Engineer shall immediately pay over said sum so paid to him, to

the county treasurer, who shall place same to the credit of road fund, and same shall be applied and used in the employment of graders, plows, and teams and hands to work upon the roads of the county when needed. And said treasurer shall keep a separate account of such funds from that paid to him by the sheriff.

In employing hands to work upon said roads the County Engineer shall pay the prevailing wages in the neighborhood where said work is done, not however, to exceed \$1.50 nor less than \$1.00 per day, for each day of eight hours. In view of this fact I am now prepared to give receipts to all who want to pay.

ICE GORGES BREAK

Let Loose Roaring Torrent At Chippewa Falls, Wisconsin.

Chippewa Falls, Wis., April 7.—A heavy thunderstorm early today broke the ice gorge one mile up the Chippewa river from here letting loose a roaring torrent of ice, water and log booms.

For two hours the waters swept through the city with such a commotion that the entire city was awakened. The river rose five feet in thirty minutes. There were five miles of big ice cakes backed up by the gorges and when it let loose the noise could be heard for miles. Much farm land was inundated and the property loss will be heavy.

ston, subject to the action of the Repub-
lican primary, Saturday, August 2nd.

No process is so fatal as that
which would cast all men in one
mold. Every human being is
intended to have a character of
his own, to be what no other is to
do what no other can do. Our
common nature is to be unfolded
in unbounded diversities. It is
rich enough for infinite manifes-
tations. It is to wear innumera-
ble forms of beauty and glory.
Every human being has a work
to carry on within, duties to
perform abroad, influences to
exert, which are peculiarly his
and which no conscience but his
own can teach.—(Channing.)

Mr. Bryan's Atonement.

"Stand-pattism is dead," said
Mr. Bryan in his speech at Des
Moines. In stating the lesser
fact Mr. Bryan omits the greater
fact. Not only is stand-pattism
dead but Hannanism is dead. It
was Mark Hanna Republicanism
that put the United States govern-
ment into partnership with
Big Business. It was Mr. Bryan's
free-silver campaign of 1896 that
gave Hanna and Plutocracy their
opportunity. In trying to escape
the evils of a debased cur-

rency the country swung to the
other extreme.

As a result of the 1896 cam-
paign Washington moved to
Wall street and Wall street be-
came the capital of the United
States. The Government was
frankly and conically adminis-
tered for the profit of Privilege.
Plutocracy became as arrogant
and despotic as slavery. If Wall
street wants legislation, the
legislation was enacted. If Wall
street wanted laws suspended,
those laws were suspended. If
certain governmental policies
meant dividends for Big Busi-
ness, those policies were adopted.
If Wall street wanted to exploit
the resources of the country,
those resources were placed at
its disposal.

The very expression "stand-
pat" was coined by Mark Hanna
to encourage the Republican ma-
chine to resist the public demand
for honest tariff revision, and it
soon became a battle-cry against
every assault upon public abuses
and public wrong. From the
Dingley act to Dollar Diplomacy,
every evil that helped to bring
about the final wreck of the Re-
publican party had its origin in
the unholy alliance that Hanna
established between the Govern-
ment and Wall street.

Mr. Bryan can take pardon-
able pride in the death of stand-
pattism, for Mr. Bryan is a very
fortunate man. He has lived to
retrieve the mistakes of his past.
His free silver campaign drove
the country to Plutocracy, but
his battle for progressive Demo-
cracy in 1912 emancipated it.
To his efforts the country owes
the nomination of Mr. Wilson
for President and the effective
realization of the new policies
that have taken the United
States Government out of the
hands of Wall street. Without
William J. Bryan we should have
had no Woodrow Wilson. Mr.
Bryan's case is unique. There
is no other instance in American
history in which a statement
atoned so brilliantly and so ben-
eficently for his blunders.—New
York World.

The city of Henderson is tak-
ing advantage of the fact that
her location is 20 feet above the
highest overflow ever known and
is advertising it to the world to
induce factories to locate there
and as a further inducement are
offering free lights, free water
and free taxes. This is enter-
prising.

Jailer W. H. Wallace has with-
drawn from the race for re-elec-
tion and wishes to express his
thanks to his friends for their
support in the past and for the
encouragement extended him in
the present race. He has decid-
ed to retire from politics and
will enter the ministry of the
Cumberland Presbyterian church
which, after due consideration,
he feels it his duty to do. At

the close of his present term of
office he will enter a preparatory
school at McKenzie, Tennessee.
His friends are wishing him suc-
cess in his new field of work.

A Word to Senator James.

The Times has the kindest of
feelings for Senator James.
Hence the regret that, as the
only Democratic Senator from
Kentucky, he should have em-
barked on the indefensible
course of assuming to exercise
his own judgment in recom-
mending appointments to such
Federal offices as are now vac-
ant in the State.

What Mr. James should have
done, if we may trust the dic-
tum of an eminent authority on
this question, was to turn the
whole matter over to one of the
prospective candidates for the
Senate at the election to be held
in November, 1914 and to a cer-
tain editor, who has trafficked
with every party in the hope of
securing patronage, only to have
his advice rejected and his wish-
disregarded by all.

Of course, Mr. James may ar-
gue in support of his action that
he is but following precedent in
the exercise of the right of
choice which his place as a
Democratic Senator gives him
with a Democratic administra-
tion. Precedent and right, how-
ever, have nothing to do with
the case. Necessity knows no
law. And the necessity of his
advisors is dire.

If Mr. James would have their
good will, he must at once turn
over to them the leaves and
fishes which they have so long
and vainly sought. True, one
of them is a political harlot and
the other may never be Senator.
But think, Senator James, how
happy the power of distribution
would make them!—Louisville

Lost Mules And Corn By Refusing Assistance.

According to Captain William
H. Soaper it was through the re-
fusal of Robert Gibson, of the
Alzey country, that his corn and
mules were lost, an account
which was published in Tuesday
Gleaner.

Captain Soaper said that one
of his boats had been in that
section and that the man had
been advised to load his stock
and corn on the boat. Captain
Soaper told him he would do the
work for the man free of charge.
"How am I going to feed my
stock? Naw sir. I am going to
stay here," Gibson told him.
Consequently Gibson lost nine
mules and 6,000 bushels of corn
and was rescued from his own
house a short time before it is
reported to have collapsed.

By a vote of 183 to 57 the bond
issue of \$1,000,000 for the rais-
ing and strengthening of the
twenty one miles of Cairo's levee
system carried at the special elec-
tion held Tuesday. As a result
of this election nearly \$375,000
will be expended on the levees of
Cairo and the drainage district.

Of this amount the United
States government appropriated a
quarter of a million, and the rail
roads as much. The work will
begin early next summer.

Negro Confessed That He Assaulted White Woman.

Elkton, Ky., April 15.—Sam
Taliaferro, the young negro who
is to be electrocuted at Eddyville
April 18 for assaulting Mrs.
George Robinson, wife of a young
farmer of the Britmart neigh-
borhood, in this county, made a
complete confession while en-
route to the penitentiary Friday,
according to the officers who had
him in charge. Taliaferro stated
that every word of the testimony
of his victim was true, and that
he was fully prepared to die.

Taliaferro assaulted Mrs. Rob-
inson while she was alone with
her 6-weeks-old baby. The scene
of the crime is a wooded, hilly
section, and the negro was trail-
ed for miles by a posse. He was
captured at the home of his father
and held until the arrival of
Deputy Sheriffs, who, after a
hard ride, succeeded in landing
him in Elkton. Fearing mob
violence the negro was taken
from the jail and kept out all
night, after which he was rush-
ed to Bowling Green for safe-
keeping. During his trial he
was removed to Russellville
every night.

In Memory of Samuel W. Travis.

On Thursday evening, April 10, just as the day was closing, closed the life of Samuel William Travis.

He was born May 27, 1858; married Miss Lillie Makaney on July 22, 1880. To this union were born seven children, five of whom survive him, two having gone before.

His wife departed this life on May 28, 1900, since which time he has fought the battles of life alone.

He was baptised into the fellowship of the Seven Springs church October 26, 1906, having professed faith in Christ a short time before.

Besides his children, he leaves

an aged mother in her 85th year, one brother and one sister to mourn his death.

He was one of the very faithful in the erection of the church at Seven Springs, having worked almost every day anyone else did. His was the first funeral to take place in that church.

Funeral service was conducted by his former pastor, Rev. U. G. Hughes. Text: "As for me, I will behold thy face in righteousness. I shall be satisfied when we awake in thy likeness.—Psalms 17:15.

"Pittsburgh Perfect" Fence

Why we are Advertising It

We are giving "Pittsburgh Perfect" Fence as wide publicity through newspapers and farm journals, as is given most news items of national importance. This advertising, of course, costs us a great deal of money. Why are we spending it?

Simply because we thoroughly and honestly believe "Pittsburgh Perfect" Fence is the best fence made.

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

AS MADE TODAY, is a fence unequalled by any other on the market. We know exactly what's in it, for we make it entirely in our own furnaces and mills.

Doesn't our faith in "Pittsburgh Perfect" Fence make it worthy your full investigation?

MISS ROOSEVELT QUIETLY MARRIED

Youngest Daughter of Former President Becomes Bride of Boston Physician.

Oyster Bay, N. Y., April 4.—The ceremony which at noon today united in marriage Miss Ethel Roosevelt, youngest daughter of Col. Theodore Roosevelt, to Dr. Richard Derby, at Christ Episcopal church here, was quite simple. The church had not been elaborately decorated for the wedding because of the wish of Col. and Mrs. Roosevelt to have the ceremony performed with as little display as possible.

The reception at the house was a short one. Not more than 200 guests were present and these were the friends of Miss Roosevelt and Dr. Derby. The friends of the Colonel and Mrs. Roosevelt were omitted from the list of the invited, because this was no White House wedding such as that which marked the marriage of Miss Alice Roosevelt to former Representative Nicholas Longworth.

While Col. and Mrs. Roosevelt declined to say anything about the presents received by Miss Roosevelt it is known that she received many beautiful and costly gifts from friends of the family and those who have been and are now prominent in public life of the country.

Look to Your Plumbing.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same function in the human body as the plumbing does for the house, and should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by all dealers.

Pittsburg Perfect Fence

Electricity Welded.

Welding two pieces of metal together by the old processes was at best unreliable. When the strain on the welded joint was heavy, you never knew whether it was going to hold, or not. But with the use of elec-

tricity in making the weld, the fiber of the two pieces of metal are made to flow into each other and so become practically one piece. The success of this new method was recognized at once, and now you have hardly a tool or piece of machinery on your farm but what is electrically welded where there is a juncture of metals. The present state of perfection of garden and barn yard tools, mowers, reapers, binders, threshers, cultivators, kitchen utensils, dairy machinery, edge tools, chains, automobile engines and steering gears, bottoms of oil cans, frames of bicycles, etc., is made possible through electric welding. The same process produces "Pittsburgh Perfect" electrically welded wire fencing, made by the Pittsburgh Steel Company, whose advertisements are appearing regularly in this paper. "Pittsburgh Perfect" Fencing is a solid, one piece fabric with many distinctive advantages, among them being the ease with which it is strung, the great tension to which it can be stretched because of the absolute elimination of "long" and "short" line wires, the smooth surface making wire-cuts impossible, and the neat appearance of the fence. The welded joints in "Pittsburgh Perfect" are twice as strong as the wire its self, because two wires are made into one by electricity, which also piles the galvanizing around the joints, adding greatly to the life of the fence. Modern methods of manufacture in many lines have been greatly benefited by the discovery and practice of welding by electricity.

GROUND TO DEATH BY SWITCH ENGINE

H. F. Spink, of Louisville, L. & N. Fireman, Killed At Bowling Green.

Bowling Green, Ky., April 7.—L. & N. fireman, H. E. Spink, age 29, of 3024 Third street, Louisville, met a horrible fate here at midnight by being ground to death beneath the wheels of a switch engine in charge of Engineer John Carter in the yards here. Spink, with his crew on freight train No. 76, arrived here shortly before midnight and was relieved from duty. He had returned to his engine for his gloves and leaped to the ground and slipped in front of the switch engine. His body will be shipped to Louisville on No. 6 this afternoon.

Coughs and Consumption

Coughs and colds, when neglected, always leads to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today." Known for 43 years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by James H. Orme or Haynes & Taylor.

J. Bell Kevil, of Marion, came down Wednesday and surveyed off 33½ acres of D. H. and Arthur King's farm, which they sold to F. M. Chandler. Considerations, \$418.75.

We learn the back water is almost all over Weston. We hope Little Pansy won't get drowned.

Sam Bailey, of the Repton section, was through here last week buying stock.

Miss Cordie Arliff is attending school at Seminary Springs.

Hello! Gladstone, write us a few more items. We would also like to hear from Iron Hill as some one from there sent us a postcard asking for news from this place. The one that sent us that card, be sure and meet us at Cave Spring the second Sunday in April and make ourselves known.—Rambler.

FARMERS' LOSS IN SOUTH IS GREAT

Lack of Co-operation Declared to Be the Cause.

EXPERT GIVES FIGURES.

Professor Coulter of Census Bureau Has Compiled Some Startling Statistics on Annual Loss Sustained by Southern Farmers—Co-operation at Versailles For Past Year a Success.

Professor John Lee Coulter, expert special agent in the census bureau at Washington, has compiled some startling statistics in regard to the annual loss sustained by the southern farmers because of lack of co-operation.

The crops of the southern farmers are worth each year in round numbers \$2,500,000,000. Most of this sum is spent for farm supplies, food, clothing,

THE NEW MILL.

etc., and \$1,000,000,000 of this amount finds its way into the pockets of the ever present middlemen.

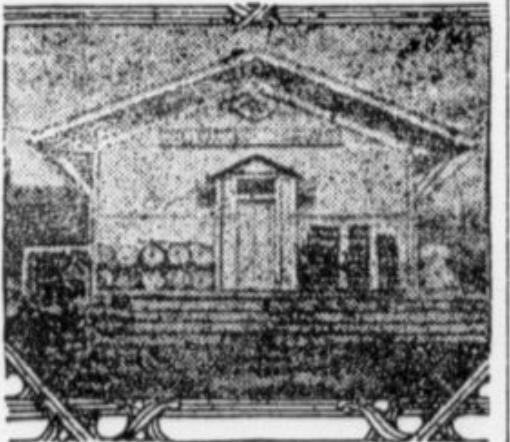

It is estimated that the southern farmers secure credit by paying \$103,000,000 in excessive interest each twelve months.

All of this tremendous waste of money is made possible through lack of co-operation on the part of the gardeners and farmers, while at the same time it makes the city man pay a much higher price for the produce than he should.

Among the men in big business enterprises co-operation has been recognized as the golden key to success in the twentieth century. Co-operation and close organization, however, are products of education, and education is the weak point in most of our rural communities. Co-operation among farmers and growers has failed largely because the mass of our rural population has been poorly educated and at the same time scattered over a wide territory. In the future our success in organization and co-operation among farmers, gardeners and fruit growers will lie in better schools, in better teachers, wide awake ministers and a closer community life.

Versailles is finishing a successful year in co-operative work with its Farmers' Union Supply company. Last summer 119 farmers and stockmen took stock in the company and its success was almost immediate. As the stockholders in this company are largely growers of Burley tobacco and raisers of blooded stock it will be seen that the union can do very little as a selling agent. The main work of the past year has been as a buying agent; and in this particular line it has been a great success.

The first year's buying business will amount to about \$45,000. Large amounts of wire fencing, field seeds, farm machinery, paint and coal have been bought both from jobbers and wholesale men. The first year's business has been good enough for the members of the union to receive 6 per

OFFICE UNION SUPPLY COMPANY.

cent on their stock and also obtain a rebate of 5 per cent upon all purchases made through the union.

A new mill has just been completed and will soon be in operation. This will take care of the grain grown by the members of the union and enable them to buy their mill feed at quite reasonable figures.

Education in co-operation will mean better roads, better schools, better trustees, better tax laws, better men and women everywhere in the highways and byways of our rural Kentucky.

TO RALLY IN LOUISVILLE.

If never there, you ought to go. If ever there, you'll want to go.

During the Kentucky Educational association meeting, April 30, May 1, 2 and 3, Louisville will be overflowing with teachers, trustees and friends of the schools. The people of the big cities are watching the rural school problem with great interest. Louisville was among the first to strive to help in its solution.

TREASURY IS DEPLETED

Gov. Johnson Says California Cannot Afford Building at World's Fair.

Sacramento, Cal., April 7.—Gov. Hiram W. Johnson has notified representatives of the Panama-Pacific Exposition that there would be no California building at the World's Fair in 1915. An empty treasury, he said, precluded it.

Early in the session of the Legislature a bill appropriating \$1,000,000 for the State building was introduced, a site for the structure selected and tentative plans for its construction made by the exposition company.

Yesterday the Governor declared emphatically that the State could not afford to spend one dollar.

Representatives of fifty-seven counties were present at a conference to urge the passage of an appropriation. Gov. Johnson told them the counties must combine to put up a building if one were to be erected.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

Kentucky Coal in Spain.

The steamer Kamouraska recently arrived at Barcelona from Baltimore with 6,700 tons of Fairmont coal, consigned to a local gas company. The price at which this coal was delivered here could not be ascertained, as the purchase was contracted by the head officers of the company in Paris.

"Yes, our new wagon's a Studebaker—the only kind we KNOW"

"The Studebaker idea has been in our family for sixty years. We have never thought of buying any other kind of a wagon."

"It's true, we're continually being offered other wagons costing a little less, with lots of promises as to what they will do. But we know in our family what a Studebaker will do. A few dollars difference in price doesn't mean much. It's the service a wagon gives that we consider most."

"Long service for a fair price means more every time than short service for a few dollars less."

"That's why we stick to Studebaker—and 'Stick to Studebaker' is a pretty good motto for a man who uses wagons."

"Studebaker wagons are built of good stuff. They're made right by people who've had years and years of experience in making them right—people who are trusted the world over."

"Studebaker wagons last, because they're made to last."

"Look out for the dealer who tells you his wagon is just as good as a Studebaker. That's my advice after a good deal of experience—and the experience of all my people. You get a Studebaker and you've got a safe investment."

WOMEN KNOWN BY JEWELS

Each Article of Adornment is Observed and Carefully Catalogued by Society.

A woman frequently changes her face and always her gown, while to charge her jewels is an event calling for chronicle. Richard Barry writes in the New York Times.

"Is that Mrs. So-and-So in box —?" I heard one woman ask another the other night.

"Let me see," replied her companion, seizing the glasses. "No. Mrs. So-and-So has sapphires surrounding a pearl in her pendant. That has emeralds. It is Mrs. If-and-But."

"Who is that next to her?" "With the cross of diamonds and the jade stomacher?" "No. With the oval brooch set with opals."

"Oh! That is Mrs. Or-to-Be's brooch, but it doesn't look like her daughter, only she never will let any one wear her opals; lucky for her, unlucky for another is her idea. What has she done to her face?"

These women, their dependents and their intimates hold their jewels in the affectionate regard that another group of women might hold their children. The entrance to the circle of each new piece of jewelry is noted and commented on carefully. It undergoes jealous observation at first. Then, if deserving it, it achieves a place and is duly catalogued.

"Look! There is that little Miss Pretty. It's her first night. She's barely eighteen, and see that string of diamonds. I do think that is rushing it a bit, don't you? They might wait till the second year, at least, for a necklace like that. However, give me your glasses; they are better than mine."

After a moment she releases the glasses with a satisfied smile. "At any rate," she observes, "they are perfectly matched and just the right size."

So it goes. Jewels the center of attention; jewels which mark the distinctive elements of personality. From the tiny necklace, which is the joy of the newest debutante, to the sturdy stomacher which is the consolation of the oldest dowager, jewels proclaim, define, limit, differentiate, vitalize and de-vitalize society.

Electric Bitters

Made A New Man Of Him.
"I was suffering from pain in my stomach, head and back," writes H. T. Alston, Raleigh, N. C., "and my liver and kidneys did not work right. But four bottles of Electric Bitters made me feel like a new man."
PRICE 50 CTS. AT ALL DRUG STORES.

The Kentucky Educational Association is a tremendous power and influence for good in the educational life of the State. It should be the greatest deliberative body of the State because it is inaugurating measure and fighting for reforms of the greatest conceivable importance to the welfare of the State. It should have the active support, and encouragement of every teacher and trustee in this county and every one who can possibly do so should attend the big meeting in Louisville on April 30, May 1, 2 and 3.

It Helps!

Mrs. J. F. Daniels, of Sip, Ky., writes: "I was so sick for 3 or 4 years, I had to hire my work done, most of the time. I had given up hope. When I began to take Cardui, I knew, right away, it was helping me. Now, I am better than ever before in my life, and Cardui did it."

Take CARDUI

The Woman's Tonic

Cardui has helped thousands of weak, tired, worn-out women, back to health. It has a gentle, tonic action on the womanly system. It goes to the cause of the trouble. It helps, it helps quickly, surely, safely. It has helped others. Why not you? It will. Try it. Get a bottle today!

Sunshine, Plants—and Girls.
Sunlight is so important to life that it is little wonder that sun worshippers prevailed in primitive days. Plant a potato in your cellar, and if there is a little light the potato will sprout and try to grow. Surround it with the best fertilizer, water it, and do the best you can for it except that you keep it in the dark and it cannot digest and grow. See how slender and pale it is! The process of digestion, the great function of assimilation, cannot go on without sunshine. Nature's laws are the same in the animal world. It is just as true that the only girls with red cheeks and sweet breaths, the only girls who become fully ripe and sweet, are those who baptize themselves fully in glorious sunshine. The many pale girls who are to be seen with a bloodless, half-baked sort of face, whose walk, whose voice and whose whole expression is devoid of spirit, are not half ripe.

Comparative Digestibility of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with
Royal Cream of Tartar Powder:
100 Per Cent. Digested

Bread made with
phosphate powder:
68 1/4 Per Cent. Digested

Bread made with
alum powder:
67 3/4 Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

The Princeton Presbytery Meet at Madisonville.

The Woman's Presbyterial Society of Home and Foreign Missions, which met at the church jointly with the Presbytery, was noted for the excellence of the numbers on the program. Many members of the program were absent, and their places were filled by substitution in a very creditable manner.

The report of the corresponding secretary, Mrs. L. E. Crider, of Marion Ky., was interesting as was that of Mrs. S. D. Lightfoot, the treasurer. These reports showed the membership and finances to be in good shape.

One of the most interesting and instructive speakers was Miss Kittie Anderson, of Kuttawa.

Rev. J. F. Claycomb, of Sturgis, was elected to attend the General Assembly to meet in Atlanta in May.

The Presbytery adjourned Thursday morning, having concluded the work of the Presbytery. —Hustler.

The following, well known here, were present: Rev. A. J. Thomson, of Kuttawa, Rev. James F. Price, Chapel Hill church, J. Alex Hill; Crayne church, J. M. McCaslin; Frances church, M. F. Pogue; Fredonia church, J. E. Hillyard.

Ladies: Mesdames L. E. Crider, Marion; Nelle Guess, Crider; M. F. Pogue, Frances; Misses: Kittie Anderson, Kuttawa; Dorothy Ratcliffe, Princeton.

Straight at It.

There is no use of our "beating around the bush." We might as well out with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world wide reputation, and people everywhere speak of it in the highest terms of praise. It is for sale by all dealers.

STRING TOWN

We are having lots of rain—more rain more grass.

Aunt Mary Davidson is on the puny list this week.

The mines that Jim Meeks is operating has caved in and work has been suspended.

The backwater has gone down and the road to Salem is open for traffic.

Earl Martin was the guest of A. E. McKinney, Sunday.

Misses Stella and Mina Polk are attending Barber Lot's Normal at Jackson's college. Go on with the good work, Barber.

Miss Stella Polk is preparing for the teachers' examination. She made 76 1/2 per cent on the diploma examination, and hope she will do as well on the teachers' examination.

Ralph Brown has been very low with appendicitis, but is improving, now.

FAIR EXCHANGE

A New Back for an Old One—How a Resident Made a Bad Back Strong.

The back aches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame that to stoop is agony. No use to rub or apply a plaster to the back if the kidneys are weak. You cannot reach the cause. Follow the example of this Marion citizen.

J. O. Tabor, Mexico, Ky., says: "I was afflicted with kidney trouble for about six years. The pains in my back were severe and when I was stooping or lifting, sharp twinges passed through my loins. My back always ached more intensely at night and in the morning I felt lame. I tired easily, was languid and nervous and had headaches. The kidney secretions also passed too frequently and caused me annoyance. I took one and a half boxes of Doan's Kidney Pills and they rid me of every symptom of my trouble. I am now in good health."

For sale by all dealers. Price fifty cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

After any Sickness

nothing so rapidly restores health and vigor as **SCOTT'S EMULSION**. It is the essence of natural body-nourishment, so medically perfect that nature immediately appropriates and distributes it to every organ, every tissue—feeding, nourishing and restoring them to normal activity.

SCOTT'S EMULSION is not a patent medicine, but is nature's body-nourishment with curative, upbuilding properties and without a drop of drug or alcohol. It contains superior cod liver oil, the hypophosphites of lime and soda with glycerine, and is so delicately emulsified that it enters the system without digestive effort—builds, tones and sustains.

After croup, whooping cough, measles and other child ailments it is nature's ally in restoring health.

After grippe or pneumonia it imparts strength and health, and for colds, coughs, sore, tight chests and throat troubles **SCOTT'S EMULSION** gives the greatest relief known.
