PASSENGERS RESCUED FROM BURNING SHIP

One Hundred and Thirty-Five Known to Have Found Watery Graves.

STEAMERS RESPOND TO CALL.

London, Oct., 14.—Not since the Titanic sank has the world been so thrilled as by the wireless message which came today telling of the burning of the steamship Volturmo in mid-Atlantic, with a loss, so far as known, of 136 lives, and the rescue of 521.

The survivors are now aboard the fleet of steamers summoned by the Volturmo's call, some of which were bound eastward, and others westward.

The Volturmo sailed from Rotterdam October 5 for New York. According to the official statement it carried 22 first cabin passengers, 538 in the steerage and a crew of 96. The rescue ships reached the disaster in plenty of time to save all, but for hours stood by the blazing ship, impotent, because of the storm to reach the agonized men, women and children who were crowding the decks of the burning ship. All of Thursday night the lifeboats made desperate efforts to get along side the Volturmo, but the waves beat them back. When the storm abated Friday morning the rescuers recovered the survivors of the doomed ship. Just how the rescue was effected is not known yet.

Volturmo's agents say the vessel was equipped with boats sufficient for a thousand people, but the storm, lack of boat drill, panic or something, prevented the boats being successfully used. Apparently most of the boats launched from the Volturmo were smashed or upset and the occupants drowned. Two boats are reported to have gotten away from the ship, but a search for them was fruitless. The occupants of the boats were included in the death list.

WOMAN KILLED NEAR ROSICLARE, ILL.

Two Women Engaged in Melee.—The Other Makes Good Her Escape For the Time.

Tuesday afternoon Sheriff Joel Pickens received word by telephone from Rosiclare, Ill., that a general fight had taken place on the bank of the Ohio river, opposite that town and that two women engaged in the melee, and that one of them was so seriously hurt that she died. The names could not be learned. The other woman, it was stated, had returned to or escaped to the Illinois side, from whence all the parties had come, it is said.

Sunday evening last at the Methodist church, Rev. J. A. Chandler's discourse on the beatitudes was excellent and was enjoyed by a full congregation, the absence of some of the city pastors giving him an exceptionally good attendance.

"THE DUST OF THE EARTH"

By Home Talent To be Given at the Marion Opera House, Friday Night October 31st.

Lovers of good, clean entertainment in Marion will be furnished a treat on Friday evening, October, 31st, when Miss Lena Holtsclaw and a selected cast of young ladies and gentleman will produce at the Opera House, a new delightful play, "The Dust of the Earth." The play is to be given under the auspices and for the benefit of the Ladies Aid Society of the Presbyterian Church, U. S. A.

"The Dust of the Earth" is a beautiful story woven about the troubles of an orphan girl in home where she is unwelcome, and running through it is a charming love story, a most exciting series of adventure, and several comedy parts that are certain to please.

Miss Holtsclaw has surrounded herself with what is said to be the best cast that ever put on an amateur play in Marion, each one carefully selected for the part he or she is to reproduce. Rehearsals are already under way, and by the evening of the 31st a well finished and rounded drama will be ready for presentation. A large crowd is expected.

ENDORSES GOVERNOR M'CREARY'S PROCLAMATION

Stands Ready To Help the County Officials and the Good Roads Committee.

J. B. CARTER FOR GOOD ROADS.

Editor Record Press: We read with interest what you had to say in last week's press in regard to good roads movement.

We heartily indorse it and are glad our Governor is patriotic enough to make the proclamation setting apart two days for work on the roads of our state.

I confidently expect to see every man and boy who possibly can be, out on the roads both these days; not for fear someone would say he is stingy or short, but because we feel that we want to give at least this much of our time and energy for the betterment of our community. I hope no one will say, "I've paid my road tax, or, I've worked my six days, and don't propose to do any more," but let us talk the matter up, not down. Let us select a competent supervisor, have an understanding as to where we will meet and all go to work with a vim and see what we can accomplish.

You may tell the good roads committee to put me down for wagons and two teams (and by the way they are good ones two)

Hoping we may have good weather for our work and that everybody will lend a helping hand.

I am yours for good roads,
J. B. Carter.

Visions of New Stores Now On Display.

Visions of the new stores of Geo. B. Simpson, Jr., and Stone Hardware Co., can be seen at their present quarters. Mr. Simpson has a drawing of his new store, as it will look when completed, on display at his store on Main street and Mr. Stone has a drawing of his new quarters on exhibition at his store on Fifth street.

Both stores will be far prettier than the drawings make them appear to be and will be the prettiest stores in Western Kentucky. There will be more window display in Simpson's store than in any store ever built in Sturgis and Mr. Stone will have display windows which will be the equal of any store in the state. Sturgis is lucky in having these two business men.—Sturgis News Democrat.—Yes, and luckier still in having our F. B. Heath to do the work, and carry out the architects plans.

FRANK CLIFT AND SON ARE DISMISSED

Charges Preferred Against Them In The Wayne Hammock Episode Not Sustained.

COURT DECISION APPLAUDED.

Frank and Lonnie Clift, father and son, were dismissed Wednesday afternoon in County Judge M. P. Smith's court of charges preferred against them by Dr. W. B. Moore growing out of the Wayne W. Hammock episode.

When the case was called before County Judge M. P. Smith's court, Attorney J. E. Baker for the commonwealth, asked for a continuance of the examining trial on the grounds that the main commonwealth witness, Wayne W. Hammock, was not present and his whereabouts were unknown, and therefore moved the continuance of the trial. To this motion an objection was made by Allie C. Moore attorney for the defendants, stating that the defense wanted to be heard, and would insist on a speedy trial or dismissal of the defendants.

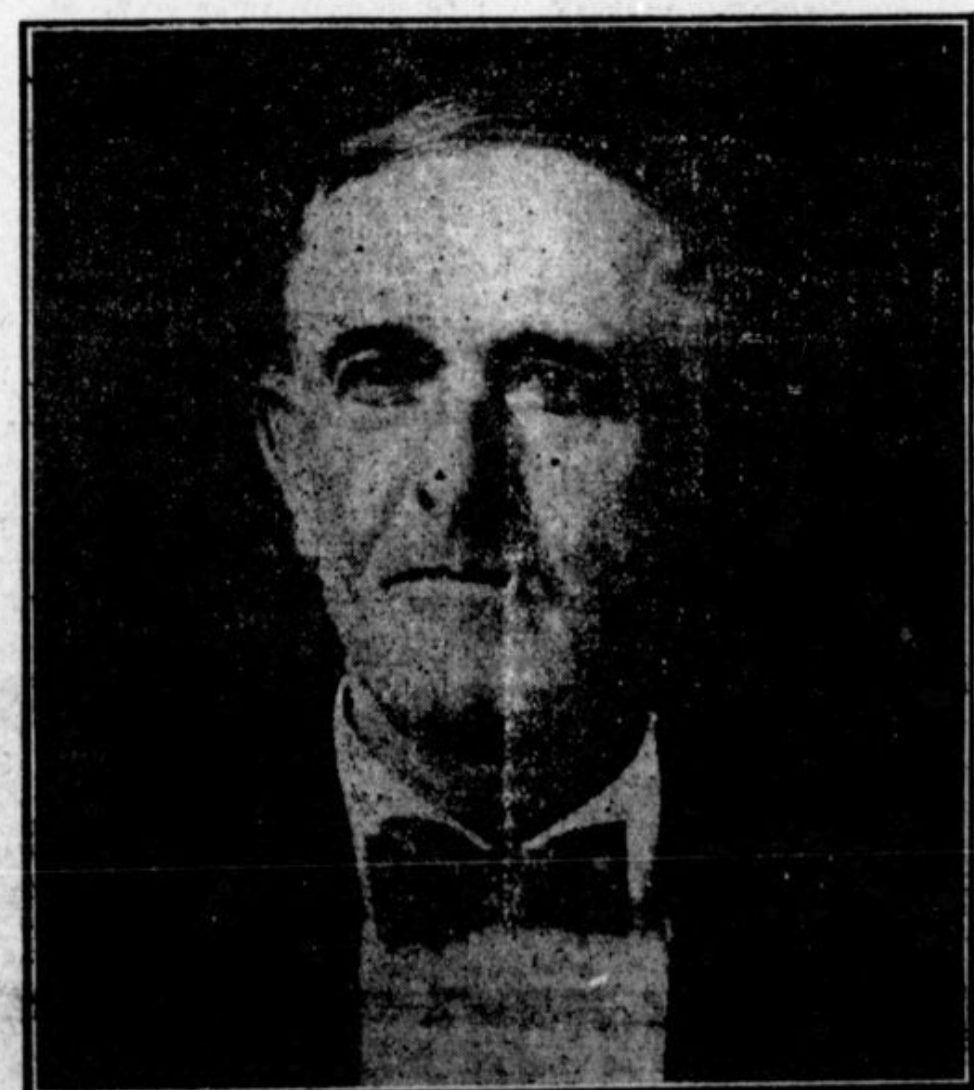

Attorney Virgil Moore, of Marion, and son of Allie C. Moore, opened the case and submitted plausible reasons why the trial should not be continued. Following Mr. Moore, Attorney R. W. Lisanby argued the motion for a trial or dismissal, while County Attorney Baker, argued in support of his motion, and Attorney Allie C. Moore closed the argument for the defense.

No evidence was introduced and after the very able arguments of the attorneys both for the defendants and commonwealth, Judge Smith, in a lengthy summary of the various points of law submitted, ruled that in as much as Wayne Hammock, also Dr. W. B. Moore, his kinsman, who had preferred charges against the defendants and at whose instance the warrant had been issued from his office were not present, and the indications were that they did not want to, or may never be present, he could see no reason in continuing the trial of the defendants, and further stated that while the defendants were acting in defense of their home and dear one which should always be done, yet a legal course would have been the proper one to pursue, nevertheless he would declare the dismissal of the defendants and release them of their bond.

The dismissal of the defendants was loudly applauded by the large crowd which packed the circuit court to its fullest capacity, and nearly every person present pushed forward to congratulate the defendants.

CITY OF HENDERSON

Plunged in Total Darkness—Municipal Lighting Plant Fails.

At 7 o'clock Friday night the city was plunged in total darkness. Every street light ceased burning, and those citizens who resided in Henderson even before gas lights were installed were given an experience of Henderson even in the olden days.

At the electric light plant the trouble was said to have been caused by an "open circuit." About 10 o'clock the trouble was remedied and the lights burned for a few minutes, and failed again.

Supt. Hite had several crews out endeavoring to locate the trouble and make repairs.—Henderson Gleaner.

THE END OF TUBERCULOSIS

A Winning Fight.

By DR. WILLIAM OSLER
This is not a battle of a year or a generation. The probabilities are that it will take two or three generations at least before we have the mortality from tuberculosis reduced to the rate, say, of that of typhoid fever in well regulated countries. This will probably be a matter of two or three generations. Whether tuberculosis will be finally eradicated is an open question. It is a foe that is very deeply entrenched in the human race, but when we think of what has been done in one generation, how the mortality has been reduced in some localities 50 and even 100 per cent, we at least feel that we can continue the battle with hope, and so long as we are fighting with hope the victory is in sight.

It is not always best or necessary for one to fight too strongly, to prove his or her innocence when wrongly accused. Wait and be patient. Protest is the servant of suspicion. A clear conscience never fears a black-mailer or any other evil-doer. Don't worry. Impatience destroys the courage you need in facing the difficulties and the snares of this old world.

Progressive Party.

The result of the registration in Louisville gives fresh hope to the members of the Progressive party. Progressives registered nearly 15,000 while the Republicans only registered about one half that number. In Paducah the Progressives made a good showing, Roosevelt urges Progressives to stand firm and opposes any fusion with the Republicans. The National Committee of the Progressive party has announced that it will have a candidate in each of the 431 Congressional districts in 1914. Ex-president Roosevelt will return from South America in about three months and will proceed to organize and electrify the Progressives from Maine to California. Over 2000 bade him a short farewell at the New York Roof garden and perhaps 200,000 will give him a hearty Welcome upon his return. As the Republican party only had 8 votes in the Electoral college in the last presidential election, it seems apparent that Roosevelt and the Progressives will be the contending forces against the Democrats and that the party led by Taft, Penrose, Aldrich and Barnes will almost become extinct. In

Louisville now Republican candidates are withdrawing in order to let the Democrats and Progressives fight it out. The Progressives refuse to compromise in any way. The congressional election in 1914 promises to be warm and exciting with three tickets in the field.

Big Potato Crop

M. A. Wilson, the county road engineer, brought to this office a potato of the "Rose of Erin" variety, which tipped the beam at 17½ ounces, and was raised by H. E. Wathen, of the Fords Ferry section, this being the least one of six in the hill. Mr. Wathen thinks this is an average hill of his entire crop of 14 acres, and if frost will let them alone fifteen days longer he will have enough potatoes to do him.

Washington.—According to estimates completed by the treasury experts, 425,000 American citizens must keep such accurate account of their income this year that they will be able to report to the income tax collector next spring exactly how much they owe the government under the new income tax law.

As the taxable American is concerned, the income tax law is now practically in force. Against him, while the tariff law in which the law is embodied will not be signed until next week, the first returns do not have to be made to the internal revenue collectors before March 1, 1914. But when the returns are made they will cover the income of citizens from March 1, 1913, to December 31, and the first payment of tax will be for money received during this period.

Every single person (citizen or foreign resident) whose annual income exceeds \$3,000, and every married person with an income above \$4,000, is expected to report his or her receipts in detail to the government agents March 1 of each year.

To Produce \$82,000,000.

The estimate completed indicates that the income tax will produce \$82,298,000 from the 425,000 persons taxed. To this will be added the \$35,000,000 or more produced by the present corporation tax, which is continued as part of the law.

President Wilson, the federal judges of the Supreme court now holding office and employees "of a state or any political subdivision thereof," are the only persons specifically exempted from the tax by the new law. The president and judges now in office were made exempt to escape any questions of the constitutionality of the law, and their successors in office will be compelled to pay the tax.

First Burden Is on Citizen. The general public is expected to give close study to the new law in the next few months, as the first burden of the tax payment rests with the individual citizen, and his failure to report his income is punishable by a fine.

It is admitted that when first returns are made many taxable persons probably will escape payments, but with each year the government's lists of persons with taxable incomes will be made more nearly complete.

Methods of Collecting Tax.

Two primary methods of collecting the tax are contained in the law. One is that the individual return made by the citizen; the other the return by corporations and other employers who pay their employees' taxes "at the source." Under the law as it will be signed by President Wilson next week, every large company employing labor will be compelled to report any regular salaries it pays in excess of the \$3,000 figure, and will pay the taxes for its employees and deduct the tax from their pay envelopes.

This "payment at the source" will apply to salaries, rents, interests, royalties, partnership profits and some other sources of income, and persons receiving such incomes must be prepared to show that the money has paid its tax at its source.

In figuring up his net income for the taxpayer, the American business man, after deducting \$3,000 for himself, or \$4,000, if married, will have

the right to claim the following additional exemptions:

Necessary expense of carrying on business, not including personal, living or family expenses.

Interest paid out of indebtedness.

National, state, county, school or municipal taxes paid within the year.

Trade losses, or storm or fire losses, not covered by insurance.

Worthless debts charged off during the year.

A reasonable allowance for the depreciation of property.

Dividends from companies whose incomes have already been taxed.

Interest from state, municipal or government bonds.

Must be Entire "Net Income."

It is a clear provision of the law, however, that the taxable person must make a return to the internal revenue collector for his entire "net income," and exemptions claimed under the law must be submitted to the federal officers for them to determine upon their reasonableness or legality.

The amount of the income tax, as finally agreed upon, follows:

From \$3,000 to \$20,000, 1 per cent; from \$20,000 to \$50,000, 2 per cent; from \$50,000 to \$75,000, 3 per cent; from \$75,000 to \$100,000, 4 per cent; from \$100,000 to \$250,000, 5 per cent; \$250,000 to \$500,000, 6 per cent; above \$500,000, 7 per cent.

A single man with an income of \$25,000, for example, would pay 1 per cent on \$17,000 and 2 per cent on \$500, a total tax of \$270. If married, the first tax of 1 per cent would apply to only \$16,000 of the income.

Ready to Answer Questions.

The treasury department is preparing for a flood of questions about the new income tax, realizing that this feature of the tariff bill about to become law strikes more intimately at the tax paying citizen than do the indirect taxes collected through the customs duties.

One of the first steps taken to get general information before the public will be to distribute income tax blanks through postoffices, internal revenue officers, and other federal agencies. However, the fact that he does not receive a blank or a request to pay the tax will not exempt a taxable person from the penalties of the law.

Representative Cordell Hull of Tennessee, who drew the income tax provision of the tariff bill which will soon become law, made public a detailed explanation of the tax plan as it will touch the individual citizen.

"The treasury regulations soon to be prepared will make clear to every taxpayer the requirements of the law and its application to income derived from the various kinds of business," Mr. Hull said. "Any person who keeps familiar with his business affairs, during the year should have no difficulty in executing his tax return."

How Tax Is Divided.

"The income tax is divided into two phases, the 'normal' tax of one per cent on the whole income above \$3,000, and the additional tax that begins with an extra one per cent above \$20,000 and is graduated to six per cent above \$500,000. Wherever the income tax is paid 'at the source' by a corporation for its employees or in similar cases, only the one per cent normal tax is so paid.

"The individual has to pay any additional tax himself. The provisions of the law requiring the tax to be withheld at the source does not take effect until November 1, 1913.

"For the first year the citizen will make return to the local internal revenue collector before March 1, 1914, as to his earnings from March 1, 1913, to the end of this year. The collector will notify him June 1 how much he owes and the tax must be paid by June 30. After next year the tax will apply on the full calendar year.

"If the income of a person is under \$3,000, or if the tax upon same is withheld for payment at the source, or if the same is to be paid elsewhere in the United States, affidavit may be made to such fact and thereupon no return will be required.

Covers Incomes of All Citizens.

"The tax covers all incomes of citizens of the United States, whether living here or abroad; those of foreigners living in the United States, and the net incomes from property owned or business carried on in the United States by persons living abroad.

"The net income includes all income from salaries or any compensation for personal services; incomes from trades, professions, business, or commerce; from sales or dealings in personal property or real estate; from interest, rent, dividends from securities; for all business carried on for gain.

"Requests will not be considered income, nor will life insurance paid to a beneficiary or returned to the insured person as a 'paid up' or 'surrendered policy' be taxable. Interest on such property will be included as income, however.

"The amount that may be deducted from a total income includes the cost

of carrying on business, actual losses, depreciation allowances, and tax exempt or tax paid money. Living expenses cannot be deducted, nor can money spent for permanent improvements to property.

Forms to Be Ready, Soon.

"The form that is to be filled out by the taxpayer will be drawn up soon by the commissioner of internal revenue. The taxpayer will have to give his gross revenue and then specify and claim the deductions to which he feels entitled.

"Unless a man's income tax is 'paid at the source' he must hunt up a tax blank, fill it out, and see that it finds its way to the proper federal official in his district before March 1, 1914.

"Firms, corporations, and the like having the handling of interest, rents, salaries, or other portions of the income of any citizen are compelled to deduct the tax for the individual and pay it to the government. The individual then will receive a receipt showing he has paid his tax."

WEALTH IN MIDDLE WEST

Investigations by Commissioner of Internal Revenue Reveal Large Fortunes There.

The commissioner of internal revenue made public the estimates on incomes for the middle west.

These estimates show that far more wealth is distributed in Illinois outside of Chicago than in the city. The commissioner of internal revenue is inclined to believe the reports are so far from correct that he will not use them to any extent in his plans for the collection of the income tax.

According to his statement, 12,000 citizens of Chicago have incomes ranging from \$3,000 to \$20,000 per year, while 12,800 citizens of the Eighth district, which has its headquarters in Springfield, have incomes within this scope. Only 5,000 individuals in the Fifth district, with headquarters at Peoria, are listed.

Likewise in Indiana there is a great variance in districts. The collector for the Sixth district reported over 20,000 taxable incomes, and the collector for the Seventh district reported only 6,000.

Large Fortunes in Iowa.

Iowa's incomes will be largely taxed, the collector for that state reporting nearly 17,000 taxable fortunes. Wisconsin has a few over 10,000, Michigan close to 12,000, and Minnesota about 4,000.

A feature about the Minnesota income estimate is that the collector declares there are 150 men in the state with incomes upwards of \$100,000 annually, while in Chicago the collector reported only 35 persons with incomes above the \$100,000 mark.

Large fortunes seem to predominate in Minnesota, for there are 1,000 men rated with incomes between \$20,000 and \$50,000, as against 500 in Chicago and 1,000 in the whole state of Illinois; 500 with incomes between \$50,000 and \$100,000, as against 175 in Chicago and 275 in Illinois, and 150 over \$100,000, as against 50 in Illinois.

Indiana and Michigan are also reported as having large income bearing fortunes over the \$20,000 mark.

Canadian Fox Industry.

Much money is involved in the Canadian fox industry. Since the opening of this season 219 live foxes of various hues including silver gray, valued at \$320,000, have been shipped from Edmonton to points in eastern Canada and the United States for breeding purposes. Included in this lot were ten young black foxes which were sold to a New York firm for \$30,000. Many young foxes die soon after capture. Several black pups have died after being sold for \$1,500 to \$2,500. A western fur company which has been supplying the eastern markets with young live foxes announces that it will discontinue the eastern shipments, having decided to establish a farm in western Alberta, where 40 foxes are already domiciled. A decrease of 25 to 50 per cent has taken place in the prices paid for these animals, which is attributed to the large number which have been supplied from the northern country of Alaska, Yukon territory, and the northwest territories. The supply has been plentiful because the young foxes were dug out of their holes before they were able to escape. In a short time the young foxes will leave their dams and it will then be impossible to catch them otherwise than singly in traps, and the prices will probably rise.

Printing Outfit at State University.

On the account of recent reforms in the course of journalism at Kentucky State University,

ty, the president has bought a printing outfit, and men are now busily engaged in making room for it in the basement of the Educational Building. The object of this movement is, first, that the school may establish a strong course in journalism; second, that it may print a daily paper.

This will open up vast opportunity for the students of State University. The president says the school of journalism here will be as good as any in America within the course of two years. Students will learn to set type and write editorials. "One editorial," says Phea Barker, "written by a student will be of as much value to him as a dozen lessons in English."

ENTOMBED MINER GETS FOOD THROUGH PIPE

Tube Sunk When Rescuers Hear Man Signaling by Hitting Gangway.

Centralia, Pa., Oct. 14.—A rescuing party seeking to liberate Thomas Toschesky, who was entombed in the Continental mine here last Friday by a fall of coal, heard him today signaling to them by tapping on the side of a gangway. A borehole was sunk from an upper level to where he was confined and bottles filled with liquid food were lowered to him. He may be reached by the rescuers some

time tonight.

Twice rescue parties have been within a short distance of the entombed miner only to be driven back by fresh rushes of coal. Toschesky, who was buried in a similar manner some years ago in a mine at Ashland, was employed at "robbing" pillars of coal when he was buried. Fellow-workmen, who succeeded in escaping, gave the alarm and the rescue parties were immediately organized.

Little hope was entertained of finding Toschesky alive until the tapping was heard today.

THE WORD HELL

A Little Book That Contains Some Startling Information.

A little book selling at only five cents, postpaid, is having a very wide circulation—running up into the millions. It contains some very startling information respecting the meaning of the word Hell. It claims to demonstrate, both from the Hebrew and the Greek of our Bible, that Hell is NOT a place of eternal torment, but merely another name for the TOMB, the GRAVE, the STATE OF DEATH. It affects to show that man was not redeemed from a far-off place of eternal torture, but quotes the Scriptures proving that he was REDEEMED from the GRAVE at the cost of his Redeemer's LIFE and that the Scriptural Hope, both for the Church and the World, is a resurrection hope based upon the death and resurrection of Jesus. The book is certainly worth the reading. The information it furnishes is certainly valuable, far beyond its trifling cost. Order it at once from the Bible and Tract Society, 17 Hicks Street, Brooklyn, N. Y.

Panama Canal Failure.

Washington, D. C., Oct., 10.—Speaking at the "Temple" from the text, "Clean hands and a pure heart" (Psalm 24:4, 5), Pastor Russell said:

God alone is the Judge of heart purity and clean handedness. Human judgment is liable to error. Lack of charity has oft branded good as evil, as dishonesty or carelessness. For instance, it is no fault of the able engineers that the Panama Canal will have an efficiency of only one-fourth of its intentions and capacity. The waters of Gatun Lake should have been sufficient to supply the locks, according to statistics. The fact the rainfall has been decreasing

during the past five years could not be foreseen by man any more than could the blessed increase of rain in Palestine. The world is the midst of great climatic changes which, with the increase of knowledge God is pouring upon us, are preparations for Messiah's Kingdom.

Yet, when the facts reach the public, disappointments will lead some to charge that the needed additional hundred millions of dollars for pumps or additional dams was foreseen and is merely a graft, unclean hands and dishonest hearts.

Let us rather "render honor to whom honor is due," and even though the greater temptations of our day and its brighter searchlights of publicity show impure hearts and unclean hands where unsuspected, let us not lose faith in humanity. While the Bible tells us that perfection will not be fully attained until the close of the Millennium, let us have confidence that even now there are thousands of pure hearts and clean hands. Loss of faith in our fellows is one of the serious omens of our day, boding evil to our civilization.

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ill ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic (oxide) gas. This blood, or blood which lacks the red blood corpuscles, in anemic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. THE CENTAUR COMPANY, NEW YORK CITY

THE SCHOOL FAIR AT HURRICANE IS TO BE HELD ON FRIDAY, OCTOBER 17th.

A Great Meeting.

Pastor LaRue returned from Hampton Monday, where he has been two weeks in a meeting, the greatest in the history of the church. Elder Terry Martin, of Jackson, Tenn., did the preaching. Distinctive Baptist doctrine was emphasized. The church and town were greatly revived. Twenty-five were baptised, with others to follow. The church is planning twice a month preaching, with Pastor on the field.

The City Election.

Dear Edi or Record-Press:

As you are yourself aware, the time is fast approaching when we are to have another City Election. The present board will have to again be elected, or they will be succeeded by another.

It has been the custom of this and other cities to head the various tickets for city office with the name of Mayor. The writer of this article wishes to drop just a thought to those who possibly contemplate preparing a list of citizens for the various offices of this city.

Mr. J. Bell Kevil, who is now acting as Mayor of our little city has filled the office of Mayor with much credit to himself and we believe with satisfaction to the people, and the writer has sufficient interest in the matter to see him head all the tickets that may be put out in the coming election.

This same thing occurred in a neighboring town of ours not long ago. The same man headed all the tickets for city offices, and of course resulted in his being elected mayor, while all of neither ticket was. The writer feels that no one would more appreciate the office than Mr. Kevil, and that we could not find a cleaner, more thorough gentleman nor a more competent man for the place. But the thought is simply this, let your ticket be made up, if more than one, less the office of Mayor, and allow Mr. Kevil to be voted for independent of any and all tickets.—A Citizen.

For Sale or Trade.

'Tom Thumb Wedding'

A Success.

The "Tom Thumb Wedding" which was presented at the auditorium last Friday night was enthusiastically applauded. The little folks did admirably. The house was packed even to standing room and not one was heard to say aught but praises of the play and the cast of characters. The beaux of the next decade looked quite gallant and handsome in their full dress suits and the little belles who will be their sweethearts long before the decade is ended, looked bewitching. Miss McClesky the director was requested to repeat the performance Saturday night and it was done to accommodate those who had not seen it the evening before and those who wished to see it repeated. It was a delightful little play by all home talent except Master Bransford

Mason, of Eddyville who came over to act as cupid and ring bearer.

Teachers' Association of Division Number Three.

Teachers' Association of Educational Division no. 3 convened at Baker Friday, Sept. 26, 1913.

Regardless of the rainy weather a large crowd was present. Not only the teacher of every district in division no. 3, was present, but the majority of the districts were well represented by both pupils and patrons.

The pupils of every district wore a badge of ribbon of two colors.

After the crowd had gathered and conversed pleasantly for some time, quietness was obtained by a song from the association; after which our programme was rendered.

Devotional Exercise, Prof. V. L. Christian.

Scripture lesson, John 20.

Mr. Christian made an apt comparison of the teacher to the other disciples.

The teacher though perhaps unconsciously, is an example for some in his district.

Response, Fred H. Hillyard.

Mr. Hillyard said he taught his first school at Baker, and that the kind co-operating spirit of Baker district encouraged him to continue his career in the teaching profession.

Discuss the course of study, E. E. Philipps.

Mr. Philipps, our worthy president, ably discussed this subject as he is capable of doing.

Judges for the contest were chosen as follows:

Will Put Some Ginger in Race.

He is not the candidate of any party or clique, and is running independent, under his own device. Dr. Stone is progressive in all things pertaining to the uplift of the town and community and, if elected, will give the city a clean government.

The Municipal Elections

Three Tickets in Field

It was thought for a while that the municipal election would be quiet and void of any special interest, but now it looks different. Mayor J. B. Kevil, who does not head any ticket, is a candidate for re-election, and is opposed by Dr. G. W. Stone, who also is not championing either ticket.

The present council, who are

asking an endorsement are G. C. Gray, W. B. Yandell, L. E. Crider, Jas. H. Orme, V. Y. Moore and F. W. Nunn.

The new ticket is composed of the following well known gentlemen:

F. B. Heath, W. H. Copher, Dr. J. E. Fox, F. G. Cox, James Parris and Geo. P. Roberts.

Either ticket is composed of as good citizens as we have, but the indications now are that some selections will be made from each ticket. The new council after its election and installation has the selection of the city clerk, city clock winder, city marshal, city Attorney and city assessor.

In the police judge's race, Judge Herman Koltinsky is asking for an endorsement and is opposed by Squire E. B. Franklin.

Administrators Notice.

All persons holding claims against Mrs. Polk Langsdon Green dec'd will present them to me, properly proven, on or before Nov. 10th, or be forever barred. Those knowing themselves indebted to the deceased will come forward promptly and settle.

On Thursday, Rev. J. R. King preached from II Chronicles 9:18. Every one seemed to feel that this was one of our very best meetings of Presbytery.

Thanks to the good people of Cave Springs church for their hospitality. H. N. LAMB,
Stated Clerk.

Message From Big Sandy

From Eastern Kentucky, near the mouth of the Big Sandy river, comes this message:

"Arrived at Ashland, Ky., this 8th day of October, 1913, a boy. Mr. and Mrs. Roy Gilbert. Weight 8 1/2."

The Indian name for that river, near which this young man first saw the light, is "Chatta Roi," and we opine that this little "Roy" will make a chatter in the home all right.

The 23rd, Encampment of Hurricane Camp Meeting.

The 23rd, annual session of this old Methodist camp meeting is now a thing of history, and it is the opinion of many, who have been attending these meetings from year to year that the recent meeting was one of the very best held in the nearly 24th year of its existence.

The attendance was much better than other years under the pressure of other camp meetings going on at the same time.

The workers were Dr. Powell, of Owensboro, and his preaching was highly satisfactory. He caught the people at the very first service and held them delightfully until the close; also Bro. B. F. Sheffer—one of our best at the Louisville Conference can produce—assisted in the preaching and made a profound impression on those who heard him. His preaching was of a high order, and he gave great satisfaction to all that heard him, those who heard Bro. Sheffer was anxious to hear him again. Rev. G. Y. Wilson, our pastor, did great work in our meeting, as praying and testifying and managing for the good of the meeting. The music was very attractive and delightful to all. Rev. Prather did great work as leader of the music, also praying, exhorting and testifying. Miss Lena Yates was our organist, and gave great satisfaction. Miss Prather helped much with listening to the music. I say we have the greatest music talent or as good as there is anywhere in Kentucky.

her piano in the music. People would get spell bound,

We had 45 or 50 conversions, reclamation and sanctification, and the church was greatly blessed.

We had some opposition to gate fees, yet the Lord gave us great victory. At the close of the meeting there was a great interest shown by the people, by coming to the committee wanting camps for next year, 1914, saying we want a camp. So if you hear any one say, "Hurricane camp meeting is going down," say to them, "that is a mistake, Hurricane is not going down, but is going up." And when the great Day shall have come, many will rise up and call Hurricane blessed.

and also Judge Smith upon his decision. It was clearly demonstrated that public sentiment was strongly in favor of the defendants, such as has been since the time of the affair, especially those who were most familiar with the circumstances.

Virgil Moore, who is perhaps one of the youngest attorneys in the state, has been roundly complimented for his successful and brilliant manner in submitting the case in behalf of the defendants. It was indeed a splendid presentation and made for him many admirers both among the young and the old who heard him.—Princeton Leader.
