THE CARE OF THE FARM FLOCK

The Quid of Fred is at Great Lengths to come. His care Best Results.

FARMER USES OWN METHOD

The question of feed is one we feel we must do with all the critical winter egg problems. What to feed and how much at each time is the question the farmer or his trusted advisor must face for themselves.

My experience, as well as others, has proven me, with the lack of hay or low-quality hay in the winter, the necessity of having a good, thorough, high-quality feed, to keep the flock in good condition through the winter months.

In addition to the grain feed, I also feed the flock a mixture of good-quality bird seed, which I believe is an excellent source of nutrition for the flock. The flock is fed on a ration of 2 pounds of corn, 1 pound of hay, and 1 pound of high-quality bird seed. The flock is also given a small amount of water daily.

The flock's state of health is closely monitored, and any signs of illness are immediately treated. The flock is also kept warm and dry during the winter months.

The flock is the lifeblood of the farm, and we must ensure their health and well-being to ensure a bountiful harvest in the future.

The Cellar Hole and the Sewer Hole
By HERBERT KAUFMAN
A COAL, part stopped before an office building in Washington, D.C., ran out his clock, and proceeded to enjoy the cold. An eldly colored sheet covered his body. Suddenly the black corned man got up, lifted his white-bobbed head, and laughed, until continued for several minutes. The man's driver, who had been standing by the corner, also joined in the laughter. "When will this man die?" the driver asked. "He always laugh when you tell coal going into a cellar." The man, who had stopped his laughter with a grin, replied: "He laugh because he know I'm dead." He then passed on.

The advertisement who display lack of judgment in selecting the newspapers which carry their copy often enemies the sewer and the cellar.

The money that is put into newspapers isn't taken out any more. The fact that all papers possess a certain physical texture doesn't necessarily start a character and create a character. The fact that all papers have a certain texture doesn't necessarily mean that they are of the same people. What goes into a newspaper is determined by the character of the person who runs it and by the people who read it. The character of the people who run it and by the people who read it is determined by the character of the person who runs it and by the people who read it. The character of the people who run it and by the people who read it is determined by the character of the person who runs it and by the people who read it.

French Remedy Aids Stomach Sufferers

Sick Women
Made Well
Reliable evidence is abundant that women are constantly being restored to health by Lydia E. Pinkham's Vegetable Compound.
The many testimonial letters we see continually published in the newspapers are not hollow phrases, but true, and undiluted expressions of heartfelt gratitude for the freedom from suffering that has come to those women who have taken the aid of Lydia E. Pinkham's Vegetable Compound.
Money could not buy any kind of influence attain such recommendation, you may assure. That any testimonial we publish is honest and true, you have only to ask this to the women whose names and addresses are always given, and learn for yourself.

Read this one from Mrs. Waters:

Cupertino, N.Y. - "I was told to use this years ago with serious results, and my kidneys were affected. I sold a deodorant, and now think it to be a blessing. I had very little confidence in it until I tried it. It cleansed my stomach and was a great benefit to me."

From Hanover, Penn.

Havenor, Pa. - I was a very weak woman and suffered from stomach trouble for a long time. Lydia E. Pinkham's Vegetable Compound cured me. Since then I have never had another stomach complaint. My strength is returned, and I am now a happy woman."

Now answer this question if you can. Why should a woman continue to suffer after giving Lydia E. Pinkham's Vegetable Compound a trial? Now answer this question if you can. Dr. Pierce’s

Favorable Prescription

In the winter, cold and wet weather is the most common cause of colds, and at no other season of the year is there more opportunity for the growth and multiplication of disease-producing germs in the human system.

The criticism of Dr. Pierce, performed by Dr. William H. Yost, was the first of its kind done in the world. It is known as the double alas operation.

Women in distress, with weakened stomachs, poor appetites, and constipation, will find great relief from this wonderful diet plan.

We have held three suc-

cessful Implement Days.
We will hold the fourth on
Monday, April 12th, 1912.
