GO-TO-SUNDAY-SCHOOL DAY

Executive Department Proclamation of The Governor of Kentucky.

To the people of Kentucky:

The first state-wide Go-to-Sunday-School day was observed with marked success on May 3, 1914, at which time the Sunday School attendance in our state increased from three hundred thousand to six hundred thousand, and fifty thousand of these visitors became permanent members of the Sunday School; and the success of this day in Kentucky has led other States to appoint Go-to-Sunday-School Days.

The Kentucky Sunday School Association has appointed April 25, 1915, as the second annual Go-to-Sunday-School Day and has planned a campaign for new members for the Sunday School in every part of the State.

The Sunday Schools of all denominations will observe this day and are issuing invitations to all our citizens to attend Sunday School on April 25, 1915.

All those who desire a Christian citizenship for our state should unite in the hearty support of every movement which makes for character and Christianity.

The Sunday School has something for every life and all of life.

Therefore, I, James B. McCreary, Governor of the Commonwealth of Kentucky, call upon all Kentuckians and the visitors within our borders to attend Sunday School in the church of their choice on April 25, 1915, that they may give encouragement and honor to those who teach in these schools, that they may see the work which is being done, and that they may in this service worship their God.

In Testimony whereof I have caused these letters to be made patent, and the seal of the Commonwealth to be hereunto affixed.

Done at Frankfort, the thirty-first day of March, in the year of our Lord, one thousand nine hundred and fifteen, and in the one hundred and twenty-third year of the Commonwealth.

JAMES B. MCCREARY.

BIG FIRE AT HURRICANE CAMP GROUND.

About Half Of The Camps Were Destroyed. Shed Was Also Damaged.

About one-half of the camps at Hurricane Camp Ground burned last Thursday. Camp owners engaged in cleaning the ground were burning brush and trash near the camps and sparks from these caused the fire. The shed was also damaged. The loss was about \$750. There was no insurance. A high wind came up unexpectedly which made it impossible to control the flames.

The following lost their camps: J. C. Stephenson, Committee's two camps, Mrs. Winders, Mr. Watson, Mr. Threlkeld, Mrs. Bebout, Geo. Williams, J. T. Terry, J. B. Perry, G. Josh Hamilton, Geo. Tucker, Sam Wilcox, Blake Terry, Orbitt Griffith, C. E. Weldon, Bob Belt, Mrs. Nannie Moore, J. W. Miller, L. C. Terry, 3 Ministers' R. D. Moore, Mrs. Guess and Chas Taylor.

Man Is Found With Throat Cut.

Princeton, April 19.—The lifeless body of Carl Coleman, 25, was found in the railroad yards here, about two o'clock Sunday morning. His throat had been cut. His head and face were terribly bruised.

About two hours before his body was found, Coleman left a restaurant near the Illinois-Central passenger station with Gus Lacey, of this place. Lacey, who admits that both had been drinking, surrendered to the authorities. He claims that he did the killing in self defense. Later a warrant was sworn to by John Coleman, brother of Carl Coleman, charging willful murder. Lacey was lodged in jail to await examining trial which was set for Thursday, April 15.

Lacey states that when they left the restaurant Coleman insisted that they go to a crap game said to be in progress near the outskirts of the town. An argument arose, he declares, and Coleman became angry, attacking him.

MERCHANT KILLED AT DEKOVEN.

Tom Brantley, Young Miner, Charged With Killing B. F. Hart.

Morganfield, Ky., April 19.—Tom Brantley, whose home is at DeKoven, this county, was lodged in the Union county jail here this afternoon charged with the murder of B. F. Hart, a merchant at DeKoven. The feeling against Brantley is high and precautions have been taken by Sheriff Abell to guard against any outbreak.

It is charged that Brantley, while intoxicated, went into the store of Hart this afternoon and created a disturbance, for which he was ordered from the premises. The miner went but soon returned with a shotgun, it is alleged. Placing the gun against one of the store windows he is said to have fired twice at Hart, hitting him both times. One of the charges lodged in the heart of the aged merchant, causing almost instant death.

Immediately after the killing Brantley ran to his home, it is stated, and hid in the cellar, from which he was dislodged by a posse, which included nearly the entire population of DeKoven. When Sheriff Abell arrived at DeKoven he found Brantley in the custody of citizens. Brantley apparently is in a deep stupor.

FROM REMOTEST PARTS OF WORLD

Famous Medicine, Tanlac, Draws Ingredients From Distant Points.

Louisville, April 21st, L. C. Cooper, the man who electrified the larger cities with his philanthropy, health theories and medicine, is now meeting hundreds daily in Louisville and explaining the nature of his celebrated preparation, Tanlac.

To a group of friends at The Seelbach, where he is stopping, Mr. Cooper stated that the medicinal elements or properties, which go to make up his medicine, Tanlac, came from many remote sections of the globe. The Alps, Apenines, Pyrenees, Russian, Asia, Jamaica, Brazil, West Indies, Mountain States near the Rocky Mountains, Asia, Miner, Persia, India, Russia, England, France, Germany, Mexico, Columbia and Peru were among the points he mentioned as furnishing the ingredients for the premier preparation.

In the principal laboratory, the roots, barks and flowers or the medicine in its rough, is assembled under the personal direction of a German chemist of note and skillfully made to obtain of the high state of efficiency that is shown by the uniform preparation, Tanlac.

In sterilized bottles, made expressly for the purpose, Tanlac is placed, labeled, inspected and then shipped out over the world where the demand requires.

Mr. Cooper, having made an extensive study of catarrhal affections, was asked to express himself upon that subject. He said:

"Most of the so-called stomach, liver and kidney troubles are due almost entirely to a catarrhal inflammation of those organs. The constant coughing up of mucus, dull, throbbing headaches, pains in the pit of the stomach, and the persistent susceptibility to coughs and colds, are common symptoms from which so many suffer.

"Tanlac, the preparation I am introducing to combat this condition, preserves your health, gives you renewed energy, brightens your spirits, lengthens your life and is an unmistakable

SUNDAY SCHOOLS OF KENTUCKY

Large Things Are Being Done by the Schools of Blue Grass State

ARE OUT FOR A MILLION

Encouraged by Success of Last Year, the Kentucky Sunday School Association Has Appointed April 25th, 1915, as the Second "Go-to-Sunday-School Day"—Extensive Preparations Are Being Made.

Last year the Kentucky Sunday School Association, which represents all of the Sunday Schools of the state, about four thousand in number, with an average attendance of nearly three hundred thousand, appointed May 3rd as a state-wide "Go-to-Sunday-School Day," when an effort was made to secure one million people in the Sunday Schools of the state for that day. This was the first time such a state-wide movement had been attempted by any state.

Governor Jas. B. McCreary, Governor of Kentucky, issued a proclamation calling everybody to Sunday School for that day. This was the first time any governor had ever issued such a proclamation. The governor said: "The supreme need in Kentucky today is that the forces which make for character and Christianity shall control the forces which make for intelligence and patriotism, and one of the greatest forces which make for character and Christianity is the Sunday School." He then urged all Kentuckians and visitors in the state to attend the Sunday Schools in the church of their choice on that day that they might give encouragement and honor to those who teach in these schools, that they may see the work that is being done, and that they might in this service worship their God.

President Wilson also sent a telegram to the association endorsing the movement, saying in part: "The Sunday School lesson of to-day is the code of morals of to-morrow."

Every county in Kentucky was organized in this work and seventeen hundred voluntary workers took part in visiting Sunday Schools and the largest enthusiasm developed everywhere.

Many cities and towns made complete visitation of all people in the towns and country round about. Banners were placed across streets. Parades were held. Special invitations given to every home. Interesting programs were prepared for the occasion, the Kentucky Sunday School Association prepared and issued to all Sunday Schools an order of service. Many Sunday Schools used automobiles, bugles and all kinds of vehicles on that day in getting people to the services. The result was that the number who attended the Sunday Schools that day exceeded six hundred thousand white people and over fifty-six thousand colored people.

Encouraged by the success of the effort last year, the Kentucky Sunday-School Association has appointed April 25th this year as the second "Go-to-Sunday-School Day," and already extensive preparations are being made and plans mapped out to reach the million.

All of the newspapers of the state rendered valuable assistance last year and are entering heartily into the plans this year.

Rev. Geo. A. Joplin, General Secretary; Rev. T. C. Gebauer, Mr. W. J. Vaughan, Miss Maude L. Dance, Field Workers, and Miss Frances Grigsby, Office Secretary, are visiting all parts of the state organizing the local forces, and sending literature to every section of the state. Information concerning the movement can be secured by writing to the Kentucky Sunday School Association, 712 Louisville Trust Building, Louisville, Ky.

CELEBRATING ITS FIFTIETH ANNIVERSARY.

Forty-nine years of service to the childhood and youth of Kentucky should make every true citizen of our state desire to have a part in the work that the Kentucky Sunday-school Association is doing in its fiftieth year. Thousands of boys have been trained for good citizenship and prevented from becoming criminals. Thousands of girls have been prepared for the duties of fine home life and prepared to meet successfully the temptations of life. It means so much more to form life and to have to reform it. The Association is asking this year for \$12,000 and must depend entirely upon voluntary contributions for its work. There should be hundreds when they know of the opportunity who will gladly send from one to twenty-five dollars. The opportunity is now yours. Send your check at once to Mr. Clarence Watkins, 712 Louisville Trust Building, Louisville, Ky.

Demand the All-Steel Door Frame In Your SILO

Be sure that your Silo has a solid steel backbone in order to prevent bucking or bulging. The All-Steel Door Frame is the keystone to the Silo. As is the case with other necessary Silo improvements, the All-Steel Door Frame is found in the

SAGINAW ALL-STEEL DOOR FRAME

In constructing the All-Steel Door Frame heavy steel angles are placed in a vertical position for the door posts, with solid steel girders or braces 30 inches apart, horizontally across the opening. The Door frame is built by expert machinists. Heavy pneumatic riveting hammers crush the burr around the rivet hole and girder tight together. See the picture. Note the steel girders that continue past the uprights several inches on either side. Each end of the girder is fastened to the outside of the first stave of the wall with two heavy lag screws.

Now, the other flanges of the upright angles have holes drilled in them at intervals for screws which fasten them to the first staves of the Silo wall, thus making a frame which is absolutely rigid and will not allow the Silo to bulge or buckle nor the doors to bind. You know the results of the binding doors without a steel door frame. It means you have to use a crow-bar or

an ax to remove them. There is an immense pressure brought to bear on the door frame by the staves and if your frame is not built of solid steel like ours, it cannot withstand this heavy pressure and your Silo doors or then a source of annoyance every time you want to take them out.

The first stave on either side of the door frame is fastened onto the steel frame before shipment is made, which makes the erection simple and easy for you.

You are beginning to see what extreme care is used in building the Saginaw Door Frame. I wish it were possible for each one of you to go through the wonderfully equipped plant of the McClure Company and see exactly how the Saginaw Silo is made. The best I can do is to show you in our newspaper, right here at home, pictures of the different improvements and descriptions of how the Steel Built Stave Silo is built.

Saginaw Silo Doors and Door Openings.

The Saginaw Silo has continuous doors with perfectly air tight bearings. The handy levers hold them firmly in position. The inside surface of the doors is perfectly smooth, so the silage settles evenly. The Saginaw has largest door openings of any Silo. It is easier for you to get your feed out of the Saginaw. THE SAGINAW COMBINED DOOR FASTENER AND LEVER is the last word in Silo building. Saginaw levers always work smoothly. We do not depend on the silage to hold the doors in place. Sweet, succulent silage always next to Saginaw doors. No wrenches required. A small boy can operate Saginaw doors.

WHEN HER BACK ACHES

Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, are frequent indications of weak kidneys and should be checked in time. Doan's Kidney Pills are for the kidneys only. They attack kidney diseases by striking at the cause.

Can Marion sufferers desire stronger proof than this Princeton woman's word?

Mattie L. Morse, Princeton, Ky., says: "For fifteen years I had kidney trouble. I suffered from pains in the small of the back and whenever I stooped or lifted, sharp twinges darted through me. My back ached at night and was very lame in the morning. I tired easily and was often nervous. The kidney secretions were unnatural and caused annoyance. I finally began using Doan's Kidney Pills and they improved my health greatly."

Deafness Cannot Be Cured

by local applications, as they cannot reach
the diseased portion of the ear. There is
only one way to cure deafness, and that is
by constitutional remedies. Deafness is
caused by an inflamed condition of the mu-
cous lining of the Eustachian Tube. When
this tube is inflamed you have a running
ear and imperfect hearing, and when it is
chronically closed, deafness is the result, and
this tube restored to its normal condi-
tion, hearing will be destroyed forever; al-
ways out of ten are caused by Catarrh,
which is nothing but an inflamed condition
of the mucous surface.
We will give One Hundred Dollars for any
case of Deafness (caused by catarrh) that
cannot be cured by Hall's Catarrh Cure.

STATE-WIDE GO-TO-SUNDAY SCHOOL DAY

Order of Worship and Instruction, April 25, 1915.

1. Music—(Strains of sacred music played softly, at the sound of which all will be silent.)

2. Call to Worship—

Superintendent—"Oh, praise the Lord, all ye nations: Praise him, all ye people."

School—"For his merciful kindness is great towards us: And the truth of the Lord endureth forever."

Superintendent—"Praise ye the Lord."

3. Hymn—"Holy, Holy, Holy."

4. Responsive reading from the Scripture.

Leader—"The entrance of thy words giveth light; it giveth understanding to the simple."

School—"Thy word is a lamp unto my feet, and a light unto my path."

Leader—"Great peace have they which love thy law; and nothing shall offend them."

School—"Unless thy law had been my delights, I should have perished in mine affliction."

Leader—"I understand more than the ancients because I keep thy precepts."

School—"The law of thy mouth is better unto me than thousands of gold and silver."

All—"Let the words of my mouth and the meditation of my heart be acceptable in thy sight, O Lord, my strength and my redeemer."

5. Prayer.

6. Hymn—"Savior, thy dying love."

7. Responsive Reading.

Leader—This is the second annual Go-to-Sunday-School Day appointed by the Kentucky Sunday School Association for the purpose of bringing thousands of visitors to our Sunday Schools, and of giving public recognition of the splendid work these schools are doing for our state. Last year there were about three hundred thousand visitors in the Sunday Schools on Go-to-Sunday-School Day, and since that time the schools have reported an increase of fifty thousand in enrollment.

School—How many Sunday Schools are there in Kentucky?

Leader—There are three thousand nine hundred and sixty-four Protestant Sunday Schools among the white people of Kentucky.

School—Last year we were told that the Kentucky Sunday School Association was encouraging and stimulating the work of all the Sunday Schools in our state. What special things is this Association trying to accomplish this year?

Leader—The first point of the "1915 Goal" is five hundred thousand enrolled in the Sunday School. This means an increase of about eighty-two thousand.

School—How many new members should our school have during this year?

Pastor—We ought to have an increase of at least twenty-five per cent; which would make our total enrollment

Leader—The next point in the goal is fifty thousand signers of the temperance pledge.

School—Why should we sign the temperance pledge?

Pastor—The opening words of the International Temperance Pledge give the best reason for signing it, "That I may give my best service to God and to my fellowmen." Let that be our motive in all our temperance work.

Leader—There are twelve hundred and twenty-two organized adult Bible classes enrolled in the state Sunday School office. The goal for this department this year is fifteen hundred classes.

School—Why should our organized classes enroll?

Pastor—Jesus said: "Let your light so shine before men that they may see your good works and glorify your Father which is in heaven." To enroll our organized classes is obeying the spirit of this command.

Leader—Our boys and girls are wanted, too, in this and there is a call for seven hundred and fifty organized teen age classes.

School—Why should classes of teen aged boys and girls be organized?

Pastor—Every class of teen aged boys and girls should accomplish two things—win the members of the class to personal allegiance to Jesus Christ as Savior and Lord; and provide the opportunity for expression of the Christian life in service to others in the name and the spirit of Christ. To accomplish these two things class organization is necessary.

Leader—There are two departments of the Sunday School for the people in the home who can not attend our regular Sunday services. We want six hundred home departments and one thousand cradle rolls in Kentucky.

School—Would these departments strengthen our Sunday School?

Pastor—The report of pastors and superintendents in many places is that these departments cause an increase in church and Sunday School enrollment, more active service of church members, and larger offerings for the work of the Kingdom.

Leader—"The supreme lack in the present-day Sunday School is the lack of a sufficient number of thoroughly equipped teachers." The way to get good teachers is to train them, hence each Sunday School should have its training class. We want to have five hundred in Kentucky during 1915.

School—How could our Sunday School have a training class?

Leader—Our county and the Kentucky Sunday School Association will be glad to help us in this and any other department of Sunday School work. Information can be obtained by writing to the Sunday School office, 111 Louisville Trust Building, Louisville, Ky.

Pastor—There are many other things that this state association is doing, but lack of it all and through it all runs the one supreme purpose of winning the world to our Lord, Jesus Christ. Always and everywhere it is the business of the Sunday School worker to lead unto "Him that is able to keep you from falling, and to present you faultless before the presence of his glory with exceeding joy, to the only wise God our Savior."

8. Hymn—"Tell me the old, old story."

9. The Lesson Taught.

10. Business—Reports—Announcements.

11. Short address by the Pastor with invitation to church services.

12. Hymn—"Jesus calls us."

13. Benediction.

14. Dismissal.

A Few Reasons Why You Should Buy a "Louisville" Silo

- 1 Because it is easy to erect.
- 2 Because we guarantee every part of it.
- 3 Because our silo is second to none on the market.
- 4 Because it is a silo on which each and every feature has been tested and is not an experiment.
- 5 Because all our doors are made of California red-wood, which shrinks and swells less than any wood on the market.
- 6 Because our doors are easy to remove and replace, and cannot stick or bind.
- 7 Because we own our own patents, and do not have to pay any royalty, thus saving the farmer from \$15.00 to \$25.00 on his silo.
- 8 Because the hoops can be adjusted from the ladder front door frame without the necessity of climbing all around the silo on a ladder.
- 9 Because we are not in the silo trust.
- 10 Because it is HOME INDUSTRY.

VICTORIES OVER MODERN GIANTS

1 Samuel 17:1-54—April 25.

Giants of Old—David and Goliath. Not by Human Might, but by God's Spirit, or Power—Fighting the Good Fight—Not With Carnal Weapons. Power of the Pebble of Truth.

"If God is for us, who can be against us?"—Romans 8:1.

THE first giants mentioned in the Bible were those who had human mothers, but whose fathers were materialized fallen angels, as recorded in Genesis 6. These all perished in the Deluge of Noah's day. From time to time, however, there have been human giants found. The spies in their report on Canaan told of seeing giants there—sons of Anak. Goliath, whom David slew, was probably a descendant.

David, a youth of probably twenty years, visited the army of Israel, in which three of his brethren were soldiers, taking them food and delicacies. He found the army facing the Philistine army, each apparently fearing the other. A champion from the Philistines came forth every morning, a giant in size and strength, brandishing his spear, the head of which weighed twenty-five pounds. He not only defied the Israelites, but its God, declaring that a battle between individuals would settle the war.

David and Goliath.

The Challenge Accepted.

David was amazed that nobody had accepted the challenge. Realizing the Covenant between God and Israel, he accepted the Divine promises implicitly. He wondered at the lack of faith manifested by his countrymen, and intimated that, backed by God's promises, he himself dared to meet Goliath.

King Saul had promised great honor to whoever would meet the foe. Young David was brought before him; but he realized that the sinewy youth would be no match for the giant, one blow from whose spear would destroy David. Then the stripling pleaded his cause. As keeper of his father's sheep, he had often delivered them from the mouth and the paw of the lion and the bear. As God had blessed him in the past, so He would give strength for victory in the duty of the hour, the meeting of the giant's insult to Jehovah.

The king was impressed. He would lend David his armor—the best in Israel. But after trying it, David declined it with thanks. Unaccustomed to such armor, he could be himself better without it. He took with him merely his shepherd's staff and sling. Passing over toward the Philistines for the combat, he chose five smooth pebbles from the brook. This slight armament, with God's blessing, was more than sufficient for he used only one pebble.

The giant was indignant, saying, "Am I a dog, that this boy should come out to meet me with a stick?" According to tradition, he threw back his head and laughed as the lad approached. His helmet fell off, and he was exposed to the sure marksmanship of his despised opponent. The giant stunned, his armorbearer fled. David quickly dispatched him with his own sword, and took his armor as a trophy. Surprised, dismayed, the Philistines fled, the Israelites pursuing them.

How to Meet Modern Giants.

Following Jesus' death, a new Divine order of things began. Those having faith in God still have battles to win, but not with carnal weapons. Their victories, nevertheless, are based upon the same principle which operated favorably with David. Faith in God lies at the basis—the realization that the cause in which they fight is approved of God. A courage proper to their faith, developed in previous victories, gives strength for battling with the most terrifying giants.

Remembering this, each Christian should daily strive to overcome little weaknesses, little frailties—to conquer in the little battles with selfishness, anger, malice, envy, evil-speaking. Victories and experiences gained with God's help in overcoming these give preparation for the greatest trials.

The Divine promise, "To him that overcometh will I grant to sit with Me in My Throne," teaches that a great victory must be won to prove ourselves worthy of the great honor to which God has called His Church. This victory, however, is not always the strong, but to those whom God will bless. The conflict which God will reward is not strife with friends or neighbors, but strife against sin and everything which the Divine Law opposes. This strife and victory belong primarily in our own hearts and minds, but will extend, as Divine providence may indicate, in battling against public evils and in support of righteousness.

We are not to forget, however, that the great giant of Sin and Iniquity, which has dared God's people for centuries, will be smitten down only at God's appointed time, and by the Antitype of David—The Christ, Jesus the Head and the Church His Body. Shortly, a slingshot of Truth will smite down the opponent; and the antitypical David will begin the Millennial Reign which is to bless the world.

Bees May Be Busy But They Work Short Hours.

In the May Woman's Home Companion a contributor, writing about farm life, records the following observations after carefully watching bees at their work:

"I was much interested in watching the bees. It seemed much more appropriate to be watching the bees than to be working and sweating with the tree planting. The bees were hard at work certainly, but their example did not impress me. Watching them closely I learned that they were not so hardworked after all; for at best they kept only an eight hour day, like the labor unions."

What Mothers Should Do In May.

In the Better Babies department of the May, Woman's Home Companion appears the Mother's Calendar for May. May is housecleaning month and following are extracts from the advice given:

"Make housecleaning count for health.

"Danger lurks in drains, damp and dust.

"Have your plumbing overhauled. A leaking drain pipe may ooze typhoid germs.

"If spring rains have seeped into your cellar, use chloride of lime freely, whitewash the walls and, if possible have a cement floor laid.

"Avoid dry sweeping and dusting. Be sure to dampen broom, brush and cloth."

Whenever You Need a General Tonic

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Bare Arms and Covered Necks.

The May Woman's Home Companion says:

"Arms are bare and necks are covered these days. The sleeveless dress is in vogue, accompanied by a dog collar of tulle, velvet or brilliants."

A Few Words On The Subject Of Jails.

Dear friends just a few words about our Jails. Jails are only crime factories. It is only folly to try to cure a drunkard or to reform some petty offender by putting him in prison. Our jail system is all wrong. It is a poor plan to pen a man (convicted of some minor offense) up in a dirty hole where under the natural course of events he can only become worse. To incarcerate a drunkard with the hope of curing him is ridiculous. The confinement, with no occupation only

increases his craving for drink, and his physical condition instead of improving becomes worse.

I believe the municipal farm is the place for these men. A place where they can work and enjoy the benefits of the pure, fresh air. It would be the making of many a man and by cutting down your jail expenses and by allowing the men to raise most of everything that they eat, it would be possible to pay them fifty cents a day, which could go to their families, or if they have no families, be kept for them as a little nest-egg when they are liberated.

More than one criminal has been made behind the bars with-in jail doors, if you please. To develop lands with the men that you now keep in jails and by other men who are willing to work for their food and a little something to boot. It would be the biggest thing any city could do. It would be a help to the city of Marion and also its neighbors. I think we will finally grow into civilization. Thanking you in advance, I beg to remain,

Yours,
Jno. Roberts,
