PUBLIC SERVICE EFFICIENCY

Without Increased Taxes

Text of Speech Made by Democratic Candidate for Governor at Mayfield on 2

Mayfield, Ky., April 8.—Mr. Harry Cherry, now representing the Third District in Congress, spoke this week at Mayfield, where he warned to enter the race for the Democratic nomination for governor of Kentucky, and that he plans to be in the race all the way.

Mr. Cherry said that the people of the Third District and all Kentuckians demand a state government which will give them the best possible public service for their money. He said that it is not uncommon for a state to have a surplus, but when the people of the state come to spend their money, the government is left with a deficit. He said that the Democratic party is the only party that can give the people the public service they want.

Mr. Cherry also spoke about the importance of education and the need for a strong education system in Kentucky. He said that education is the key to a better future for Kentucky and that the state government must be committed to providing quality education for all citizens.
