## GREAT CUNARD STEAMSHIP LUSITANIA TORNADOED AND SUNK

### 188 AMERICANS LOST, INCLUDING MANY NOTABLE MEN

OF 2067 ON BOARD ONLY 764 ARE RESCUED. TWO TORPEDOES WERE FIRED INTO GREAT PASSENGER SHIP AND NO WARNING WAS GIVEN. SANK IN ONLY A FEW MINUTES.

"The Cunard liner Lusitania was torpedoed Friday and sank. The Lusitania was naturally armed with guns, as were recently most of the English mercantile steamers. Moreover as it is well known here, she had large quantities of war material in her cargo.

"Her owners, therefore, knew to what danger the passengers were exposed. They alone bear all the responsibility for what has happened.

"Germany, on her part, left nothing undone to repeatedly and strongly warn them. The Imperial Ambassador in Washington even went so far as to make a public warning, so as to draw attention to this danger. The English press sneered then at the warning and relied on the protection of the British fleet to safeguard Atlantic traffic."

The latest estimate of lives lost as a result of the torpedoing of the Cunard liner Lusitania by a German submarine off the Irish coast yesterday is 1,198. It is believed that almost all, if not all, the survivors have been brought ashore, and there is little hope of recovering any others alive.

Of the dead many are women. The stories from Queenstown describe the bringing in of the bodies of a great number of women, many of them still unidentified. The Queenstown docks are the temporary resting places also of the bodies of several children. One dead mother still is clasping in her rigid arms the body of her three months' old baby.

When the Lusitania left New York, May 1st, she had on board 1,901 souls; 1,251 passengers and 650 crew. The passengers were made up of 291 in the first cabin, 599 in the second and 361 in the steerage. The list of survivors shows, so far, that 90 first class and 75 second class passengers were saved. The first cabin passengers were at lunch when the unheralded German attack sent the liner to the bottom. It is noticeable that comparatively few first-class passengers were saved.

### WAS THE "UNSINKABLE"

**Lusitania Highest Mark in World's Shipbuilding.**

The Lusitania was pronounced by her builders to be as nearly unsinkable as any ship could be. The lower deck was watertight. The double bottom was so constructed that should the big keel be torn away and the hull pierced, the entering water would be confined within the inner and outer bottoms. The lower portion of the hull was divided into 175 watertight compartments, with communicating doors so constructed that they could be closed automatically from the navigating bridge in a few seconds.

The Lusitania was launched June 7, 1906, at Clyde Bank, and

## WHAT THE WORLD THINKS OF THE SINKING OF THE LUSITANIA

### What France Thinks Of It.

Paris, May 12.—The sinking of the Lusitania has aroused deep indignation here where many of the passengers, notably A. G. Vanderbilt and Charles Frohman, were well known. The press characterizes the torpedoing of the steamer "as an act of supreme cruelty surpassing everything yet perpetrated, and violating the most elementary sentiments of humanity."

The Matin expresses the opinion that the wave of indignation which will be provoked in America perhaps may lead Washington to take measures which will be unpleasant for Germany.

### HOLLAND'S VIEWS

Says The Telegraaf, in an Editorial Amsterdam, via London, May 11.—"The torpedoing of the Lusitania, was a deliberately staged reproduction of the Titanic disaster. It was a premeditated crime against a passenger ship on which were 2,500 non-combatants. It is no longer outrageous; it has become fiendish.

"Does there still exist something like conscience among the neutrals? The neutral powers remained silent when Belgian neutrality was trampled upon, when the Germans carried out practices profaning international law and when submarine assassins took their first victims. Will they now look on inactive? Only the spontaneous joint protest of the entire civilized world, from which Germany has separated herself, can be an answer to this latest provocation."

### Theodore Roosevelt's Views.

Syracuse, N. Y., May 12.—Theodore Roosevelt to-night gave out the following statement:

"On the night of the day that the disaster occurred I called the attention of our people to the fact that the sinking of the Lusitania was not only an act of simple piracy, but that it represented piracy accompanied by murder on a vast scale than any old-time pirate had ever practiced before being hung for

the cost, \$6,250,000. The steamer was one of the largest and best appointed vessels in the Atlantic passenger service.

The length of the vessel over all was 790 feet, breadth of beam 88 feet; depth to boat deck 80 feet; draught, fully loaded, 37 feet 6 inches. Her displacement was 45,000 tons and her height to the mastsheads 216 feet.

The ship's passenger accommodations were luxurious. There were accommodations for 500 first class passengers, 500 second class and 1800 third class.

### Washington's View.

### DECISION MOMENTOUS ONE.

The decision which the President and his advisers must reach it was admitted in all quarters, was a momentous one. Those officials conversant with the legal aspects of the case pointed out that the United States faced a grave and serious problem of lasting importance in history, as all the world—neutrals and belligerents alike—would wait with acute expectancy for the course which the United States would pursue to preserve the rules of international law, particularly the rights of neutrals with respect to the safety of non-combatants on merchant ships at sea.

The suggestion that the warnings by the German embassy in newspaper advertisements should have been sufficient to deter Americans from traveling aboard ships flying the British flag was widely commented upon among diplomats. At the State Department Secretary Bryan revealed that the embassy's warning had never been officially communicated to the State Department and that since the announcement in February of its proclamation of a war zone, the American protest and the reply from Germany saying the Government would disclaim responsibility for accidents to neutrals, the subject for several weeks had not been officially mentioned by the Berlin and Washington Governments.

### What Chairman Stone Of The Senate Foreign Relations Committee Thinks.

"This is no time to 'rock the boat,'" President Wilson said. "It was the same statement which Chairman Stone, of the Senate Foreign Relations Committee, had expressed earlier in the day. The single phrase expressed the desire of the Washington Administration that prejudices and passions be not thrust into the unstable equilibrium while the Government endeavored to learn all the details.

One important fact was definitely ascertained by the Washington Government to-day from the port authorities at New York, who gave clearance to the Lusitania—that she carried no guns, either mounted or unmounted, in accordance with the caution of the State Department and British Government early in the war. This disposed in the minds of officials of the claims that the German submarine had a right to attack the Lusitania because she was an auxiliary or converted cruiser. The officials of the Cunard line are under-

## MARION BOYS SHOW CLASS

High School Wins Inter-Scholastic Meet Against Strong Field. Splendid Showing.

The Marion High School Track Team captured the first annual Field Meet of the Central Inter-scholastic Association at Morgantown last Saturday. A large field of competitors from the other schools in the Association was out but Marion far out-classed them and thus has the honor of holding the first championship.

This is a new branch of athletic activity in the local school and is arousing considerable enthusiasm among the students. The members of the team have trained faithfully and much favorable comment was aroused among the spectators at the meet by the ability which they showed. This was especially noticeable in the pole vault and the shot put; the audience cheering the efforts of our representatives with as much spirit as they did their own.

It has been the effort of the promoters of the Association to stimulate athletic interest among as many students in the schools in the Association as possible and the results of the meet show that their purpose has succeeded admirably. Every event was hotly contested but at no time was Marion's score in danger. The home team consisted of: Willie Joe Foster, Floyd Wheeler, Ted Boston, Owen Moore and Rupert Belt. Boston and Wheeler were the individual stars of the meet, each of them winning more points than any of the other schools in the contest. It is hoped that a large number of the boys will try out next spring for the squad and help to keep the championship at Marion. With the rest of this year's team as a nucleus it ought to be easy to build up another winning team which will bring honor to Marion. A summary of events follows.

100 yard hurdles time 14  
1. Wheeler Marion  
2. Newman Morganfield  
3. Sheffer Corydon

Pole Vault Height 7ft. 10 in.

## IN THE OLD HOME TOWN.

Governor To Be, H. V. McChesney Here. Given An Enthusiastic Welcome.

Almost unheralded, in a quiet, unostentatious way, all his own, Harry Vernon McChesney, candidate for the Democratic nomination for Governor, stepped into Marion Sunday morning from Fredonia, where he spoke Saturday night. Few persons here knew we were entertaining the future Governor of the great Commonwealth until he appeared, (as his custom each Sabbath morning) at the Baptist Sunday School, and took his seat in a class. Mr. McChesney spent the time, until the announced hour for him to speak Monday at the Court-house in meeting old friends, renewing acquaintance and shaking hands with the boys and girls he knew thirty years ago, and there were many of them who came to town to see him and brought their children and some of them their grandchildren. At 1:30 o'clock the people filled the Opera House the place of speaking having been changed to accommodate the people who could not get in the Court-house.

Rev. Barbee led the prayer. This was the first political meeting ever held in Marion which opened with prayer. Former Judge, J. W. Blue introduced Mr. McChesney who was given a most cordial reception and a studious and respectful hearing. His speech was well received and his hearers showed they were with him by their applause. Mr. McChesney plainly enunciated his platform, and left no doubt about where he stands on all the matters that are agitating the public today. He was frequently interrupted with applause and was given an ovation when his speech closed, which proved beyond a doubt that he will have the support of the people who knew him as a farmer boy a third of a century ago.

Boston and Wheeler tied for first place. Sheffer and Stapp tied for third place.

One mile run 6:02 min.  
1. Smith Sturgis  
2. Truitt Sturgis  
3. Clemens Morganfield

One mile relay time 4:17½ min.  
1. Marion  
2. Morganfield  
3. Corydon

In this event four men each ran 440 yards. Marion's team consisted of Boston, Moore, Foster and Wheeler running in the order named.

Summary of points:  
Marion 61  
Morganfield 18  
Sturgis 14  
Corydon 6

These events constitute the record for the Central Inter-scholastic Association and some of them are excellent considering the condition of the track. However, it is hoped that the team which represents Marion next year will succeed in substantially lowering them. Many events would have drawn better scores if Marion had been pushed, and it may be expected that next year's meet will prove an exciting contest.

### Newcoms Family History.

Joseph Newcom, grandfather of the late Joseph Newcom was born in Scotland in the year 1767. Hearing of America, the sturdy Highlander with his bonnie bride determined to try their fortunes in the new country. Landing at New Orleans in 1795, they made their way up the Mississippi, Ohio and Cumberland rivers and settled on the banks of a small tributary of the latter, is what is now Humphrey county, Tenn. Here they lived till in 1867, they with their four living sons, one of whom was married, moved to Ky., and settled in the community of what afterwards became Bells Mines, Crittenden Co.

Their son Joseph soon immigrated to Illinois, and with the exception of occasional newspaper accounts little is known of his family.

Dudley married and settled on what is now known as the Finis Black farm.

William married and warranted the tract that afterward became the Steve Rutherford home.

John went back to Tenn., married Sarah Price and settled on his father's land. To this couple were born nine boys and five girls. The sons in order were as follows: Dudley, John, Joseph, William, Wesley, Pleasant, Dennis, Alvin, and Newton. The daughters were: Martha, Nancy, Betsy, Sarah, and Jane.

John Newcom remained in Tenn., until 1828, when he moved to this county and settled what is known as the Lindle farm.

His third son, but fifth child Joseph was born in Tenn., Jan. 7, 1825. Married May Eliza Cain, oldest child of Charles S. Cain, Jan. 3, 1850.

To this union were born eight children, seven sons and one daughter. Two of these boys died while small. John, Albert the third child died while a young man, 27 years of age. Sylvester the oldest living resides near Weston. Frank and Rutledge, in Marion, Dr. E. E. Mattoon and Ella Stanley, the daughter and youngest, at Repton.

## PROSPERITY COMING.

Years Of Prosperity For The Agriculturists Of The United States.

It requires no very keen observer of agricultural conditions throughout the world to note that the agriculturists of the United States have years of great prosperity before them if given normal climatic conditions for their crops. With a 4-pound loaf of bread selling at 17 cents in London; with food riots in Italy, Portugal and Spain; with the Belgian people depending upon the charity of this continent for food; with the known scarcity of grain in Austria, Germany, Switzerland, Turkey and Holland; with the Russian government assuming control of the grain within its domains, and with 15,000,000 of people in Mexico facing starvation, there remains no doubt of the urgency of immediate and future demands.

Now as to the supply; Canada's 150,000 stalwart men on the battlefields of Europe out of her small population means less production of foodstuffs in the Dominion.

Great Britain's order to Egypt's farmers that one-third of the cotton acreage must be given up and the released area planted in rice, means less cotton next year from Egypt and more rice for Egypt's own population, but it signifies nothing for the relief of the hungry in Europe.

Belgium cannot possibly raise 50 per cent. of its normal crops this year; Galicia, Poland and East Prussia, Serbia and one-fifth of France will yield next to nothing so far as field crops are concerned.

The farmers of Great Britain are protesting now against recruiting and are angry with the British cabinet for recent attempts to call the depleted class of farm laborers to the battlefields.

They argue that their laborers are needed to help raise food for the army, the navy and the British people, and in that way are rendering the greatest service to the empire.

Russia has drawn fully five million of men from her fields and Germany, Austria, Italy and France will each and all of them fall far short of usual acreages in cultivation.

The neutral nations, Holland, Spain, Denmark, Norway and Sweden have drawn heavily through mobilization of troops upon their farm labor, and they, too will be embarrassed by great deficiencies in foodstuffs.

To the United States these hundreds of millions of population will be forced to look for supplies for the coming fifteen months of great dearth in their own countries, and not in the next five years will it be possible for the war stricken nations of Europe to attain the records of food production of their recent past.

The farm products of the United States will be called upon for the supply of the world, and the cash of the world will flow here in powerful currents to pay the planters and farmers for the products of their lands.

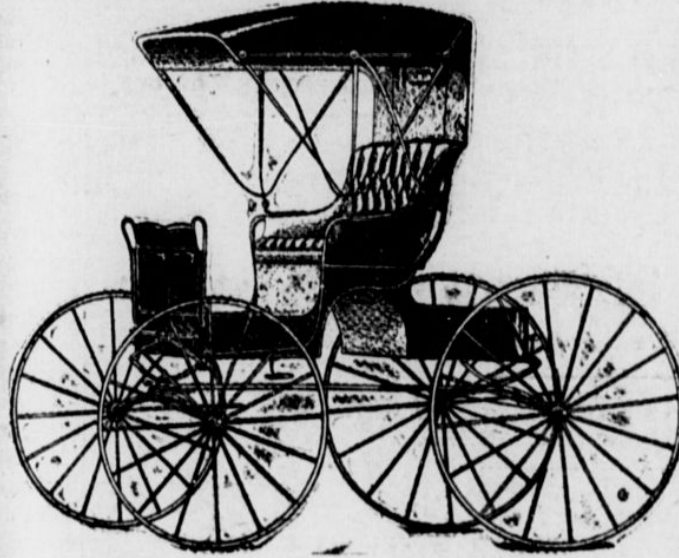

Given prosperity in our agricultural districts, who can doubt the prosperity in our financial, commercial and industrial affairs?—Washington Post, Washington D. C.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. ## REMARKABLE CASE of Mrs. HAM

Declares Lydia E. Pinkham's Vegetable Compound Saved Her Life and Sanity.

Shamrock, Mo.—"I feel it my duty to tell the public the condition of my health before using your medicine. I had falling, inflammation and congestion, female weakness, pains in both sides, backaches and bearing down pains, was short of memory, nervous, impatient, passed sleepless nights, and had neither strength nor energy. There was always a fear and dread in my mind, I had cold, nervous, weak spells, hot flashes over my body. I had a place in my right side that was so sore that I could hardly bear the weight of my clothes. I tried medicines and doctors, but they did me little good, and I never expected to get out again. I got Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I certainly would have been in grave or in an asylum if your medicines had not saved me. But now I can work all day, sleep well at night, eat anything I want, have no hot flashes or weak, nervous spells. All pains, aches, fears and dreads are gone, my house, children and husband are no longer neglected, as I am almost entirely free of the bad symptoms I had before taking your remedies, and all is pleasure and happiness in my home."—Mrs. JOSIE HAM, R. F. D. 1, Box 22, Shamrock, Missouri.

## The Call Of Life.

There's a broad highway with an open reach,  
And it leads far out from the swales of care;  
So it's off with the old,  
And it's on with the new,  
In the land of sky and the wide glad air.  
Oh, it's up and away to the rolling hills,  
It is up and away to the tumbling sea,  
And it's off with the old,  
And it's on with the new,  
In the spreading shade of the old elm tree.  
There's a friendly kiss in the tossing foam,  
There are bells a-chime on the witching deep,  
So it's up and away,  
On the blue, blue bay,  
In our race for life up it's rocky steep.  
There's a dream in the heart of the winery woods,  
And never a thought of age in there  
So it's off with the old,  
And it's on with the new,  
With a thousand years and a day to spare.  
There is peace of love in the

magic hour,  
With the bay and the sun and the singing bird,  
So it's off with the old,  
And it's on with the new,  
Where the trumpeting call of life is heard.  
Oh, it's up and away where the mountains dwell,  
By the broad, high road of the sky and air,  
And it is off with the old,  
And it is on with the new,  
With the heart of a child where there's life to spare.

## Demand the All-Steel Door Frame In Your SILO

Be sure that your Silo has a solid steel backbone in order to prevent bucking or bulging. The All-Steel Door Frame is the keystone to the Silo. As is the case with other necessary Silo improvements, the All-Steel Door Frame is found in the

### SAGINAW ALL-STEEL DOOR FRAME

In constructing the All-Steel Door Frame heavy steel angles are placed in a vertical position for the door posts, with solid steel girders or braces 30 inches apart, horizontally across the opening. The Door frame is built by expert machinist. Heavy pneumatic riveting hammers crush the burr around the rivet hole and girder tight together. See the picture. Note the steel girders that continue past the uprights several inches on either side. Each end of the girder is fastened to the outside of the first stave of the wall with two heavy lag screws. Now, the other flanges of the upright angles have holes drilled in them at intervals for screws which fasten them to the first staves of the Silo wall, thus making a frame which is absolutely rigid and will not allow the Silo to bulge or buckle nor the doors to bind. You know the results of the binding doors without a steel door frame. It means you have to use a crow-bar or

an ax to remove them. The frame is an immense pressure brought to bear on the door frame by the staves and if your frame is not built of solid steel like ours, it cannot withstand this heavy pressure and your Silo doors or then a source of annoyance every time you want to take them out.

The first stave on either side of the door frame is fastened onto the steel frame before shipment is made, which makes the erection simple and easy for you.

You are beginning to see what extreme care is used in building the Saginaw Door Frame. I wish it were possible for each one of you to go through the wonderfully equipped plant of the McClure Company and see exactly how the Saginaw Silo is made. The best I can do is to show you in our newspaper, right here at home, pictures of the different improvements and descriptions of how the Steel Built Stave Silo is built.

### Saginaw Silo Doors and Door Openings.

The Saginaw Silo has continuous doors with perfectly air tight bearings. The handy levers hold them firmly in position. The inside surface of the doors is perfectly smooth, so the silage settles evenly. The Saginaw has largest door openings of any Silo. It is easier for you to get your feed out of the Saginaw. THE SAGINAW COMBINED DOOR FASTENER AND LEVER is the last word in Silo building. Saginaw levers always work smoothly. We do not depend on the silage to hold the doors in place. Sweet, succulent silage always next to Saginaw doors. No wrenches required. A small boy can operate Saginaw doors.

### Watch for next month's Saginaw Silo talk

In the meantime call me up or write me a post card asking for the free booklet: "The Building of a Silo." This book ought to be in the hands of every farmer, stockraiser and dairyman.

### Lets Have A Fair Fight.

The issue of the State-wide prohibition is without doubt the most important question that has been before the people of Kentucky for many years and deserves the fullest, fairest and most serious consideration. There are many people in the State, fair-minded and conscientious, who have not made up their minds upon the subject and want to be informed. The discussion on the stump, in the press and on the streets should be good tempered, calm and intelligent. Argument should be met by argument and not abuse. If either side advances what it conceives to be a strong reason to support that side, the other side should meet it with reason and not with vilification.

We are sorry to see already in the campaign on the side of the liquor advocates and their organs a disposition to abandon all argument and to make their fight by abuse and denunciation of those who advocate the submission of the amendment. This will do their cause no good. If the liquor people are unable to answer the arguments made by the temperance leaders, they are not going to help their cause by attacking the characters or impugning the motives of those

it. Judge O'Rear and Senator Beckham, representing the two leading political parties in Kentucky, have in public addresses, given their arguments in favor of the submission of an amendment for State-wide prohibition to a vote of the people. If the liquor organs cannot answer those arguments sanely and intelligently, they are not going to benefit their cause by attacks upon those two gentlemen and criticisms of their motives. Some of these newspapers have even gone so far as to charge, or to intimate, that these gentlemen are being paid by the Anti-Saloon League for their services. This is absolutely untrue; for we know that not only are they receiving no compensation for it, but are making the campaign at their own expense.

The paper that indulges in that kind of a fight—attacking men and not answering arguments—subjects itself to the very strong suspicion that it is getting money from the whisky side for its work. An honest editor, interested in proper settlement of a great question, is not going to resort to such methods as personal abuse, but will present the best argument he can for his side. We would therefore suggest to some of these over-zealous papers in the

State that the character of fight they are making and the attacks they are indulging in against temperance leaders, raises a very strong presumption that their zeal comes not from the heart, but is due to financial obligations to the liquor interests.

We, of course, realize that some honest and incorruptible men in the newspaper field are opposed to State-wide prohibition but those editors are making a dignified fight and are using arguments instead of abuse. It is a well known fact that the liquor interests, to prevent State-wide prohibition, are prepared to spend an immense sum of money for that purpose and it is not going to be difficult for the people to spot those editors or individuals whose methods of fighting indicate that they have been reached by the money of the whiskey and beer trusts.—The Shelby News.

nor's race.

I entered the race with the deepest patriotic motives, silently and I hope modestly feeling that if elected I could render my party and my state a real service. I entered the race upon a platform that I believed to be a constructive, moral and democratic program, and I have not had occasion to change my mind about a single plank in it. Every principle enunciated in the platform and in the Mayfield speech, came from an earnest desire to present a program of action for a greater Kentucky.

It is true that my position on the temperance question has created some discussion. No man who knows me, however, doubts for one moment my loyalty to the temperance cause. I have never failed to give money and moral support for its promotion. Without asking any citizen to surrender his views on state-wide prohibition, I took the position that it would be bet

ter for the cause of temperance to operate under the County Unit Law, which in its present form is but little over one year old, than it would be to abandon it at this time for state-wide prohibition.

## PEORIA WOMAN PRAISES REMEDY

Mrs. Tilla Conard Tells Remarkable Experience After Suffering for Months.

Mrs. Tilla Conard lives at 207 Morgan Street, Peoria. She suffered from stomach trouble for months. Nothing seemed to give relief. One day she visited a sister who resides in Bloomington, and upon urgent advice consented to try one bottle of Mayr's Wonderful Remedy. This, in her own words, is the story of her experience—read it.

"For a number of months I suffered terribly with pains in my stomach; would fill with gas and belch for an hour at a time. I had pains in my side which at times I thought would kill me. I was under the doctor's care for four months, but got no relief at all. One day while in Bloomington my sister persuaded me to take a bottle of your remedy. To say the results were wonderful would be putting it mildly. After the first dose my pain left me, my appetite improved, my skin became clear again, and I felt like a new woman."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. But as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your drugist now and try it on an absolute guarantee—if not satisfied money will be returned.

## DE LAVAL

### Cream Separators

are time tested

IN THE LAST TEN OR FIFTEEN years there have been dozens of cream separators come on the market which claimed to be "world beaters". But they couldn't make good in the hands of the users and one by one they have dropped out of sight.

THEIR OWNERS WERE willing to take a risk, and they lost.

IF YOU BUY A DE LAVAL from us you run no risk of dissatisfaction or loss. It's time tested and time proven. Why experiment? What's the use of taking chances with a

machine you don't know much about, or an inferior machine, when you know that the De Laval is recognized everywhere as the "World's Standard"?

MORE THAN THIRTY-FIVE years of experiments and experience have made the De Laval pre-eminently the best machine on the market for the separation of cream.

IF YOU HAVE NO SEPARATOR now, or an inferior one, we can sell you a De Laval on such terms that it will pay for itself while you are using it.

H. H. Cherry Withdraws From The Governor's Race.

To the Democrats of Kentucky: A confusion of politics making results uncertain, the attempt to force the state-wide prohibition issue into the campaign before the Democratic party has expressed a desire or purpose to abandon the County Unit Law to which it is now pledged, thereby muddying the political waters and endangering constructive legislation and party unity, and limited financial means prompts me to withdraw from the Governor's

## Splendid Medicine Stomach Trouble

I Suffered for Several Years Peruna Restored My Health

Mrs. Elizabeth Reuther, No. 508 Twelfth St., N. W., Washington, D. C., writes: "I am pleased to endorse Peruna as a splendid medicine for catarrh and stomach trouble, from which I suffered for several years. I took it for several months and at the end of that time found my health was restored and have felt splendidly ever since. I now take it when I contract a cold and it soon rids the system of any catarrhal tendencies."

Over Ten Years Ago. "I would not be without Peruna. Although it was over ten years ago that I first gave you my testimonial, I am of the same opinion as when I wrote it, and give you the privilege to use it as you see fit. I still use Peruna when I think it necessary. I am recommending it to my neighbors whenever a chance occurs."

tion. There are thousands and thousands of noble temperance workers who believe as I do and who are today resisting state-wide prohibition in the interest of temperance and are regretting that efforts are being made to make it an issue during this campaign. Many believe that the effort is not at this time fundamental and that it will divide the temperance forces, bring on a reaction and do harm rather than good.

The difference between the temperance people who believe we should operate for the present under the County Unit Law and those who honestly want immediate state-wide prohibition is simply a difference of the best methods of securing temperance and not a difference of moral ideas or personal loyalty to temperance.

My interest in establishing the state's business upon a sound basis, in paying off its debt, in re-organizing its tax system upon a just and sound basis and in interpreting into a greater Kentucky other things enunciated in my platform, prompted me to enter the race.

But the present situation convinces me that it would not justify one of limited means, who is not willing to accept material help from any source that would make him a tool in the hands of someone else, to continue in the race and spend every dollar he has and more in an effort to secure the nomination, in which effort he may fail, and when those things he holds to be at this time paramount to the state's best interest and to the future welfare of his party are being diverted from their proper channels, making their accomplishment doubtful.

I am deeply grateful for the active and constructive interest that has been taken in my race by my friends throughout the state. My heart is warm with gratitude to every citizen who has been interested in me. I am not unmindful of the devoted and able support of the thousands of former students who have attended the school over which I have presided for the past twenty-three years, and I assure all of them that their friendship and the work they have done are greatly appreciated. I thank the press for the numerous courtesies extended to me and for every act of interest shown in my race.

I do not withdraw in favor of any candidate. I release all my friends without any suggestion or intimation as to their future political alignment.

Most respectfully yours,

H. H. CHERRY.

Even this early in the campaign it does not take a shrewd observer to see the finish in the race for the Democratic nomination for Governor. One hundred & 6 counties in the State are now "dry" or will be in that column before the end of the month. Fourteen counties are "wet." The issue for and against State-wide Prohibition is being clearly defined. The people opposed to the continued domination of the liquor interests are lining up solidly behind McChesney. The "wets" are divided between McDermott, Bosworth and Stanley. With no more withdrawals the race won't even be interesting. —The Shelby News.

Not satisfied with their campaign of misrepresentation of State-wide prohibition issue they are carrying on through the mails, the liquor interests of Kentucky have opened their guns on Billy Sunday, the noted evangelist, who has been booked for a revival in Louisville next spring. The mails are being flooded with circulars quoting articles from Sundays' critics and nothing is left unsaid in an attempt to discredit him and bring him into ill repute with the people of the State.

This action of the booze trust is in strict keeping with their tactics in the past. Last year they spent thousands of dollars trying to fool the farmers into voting against local option, in the elections called under the county unit law, on the ground that in the event the saloons were voted out the farmers would be stopped from raising tobacco.

Nobody is fooled by such methods except the liquor people themselves. They evidently think they are influencing votes

or they would not spend so much money. Our citizenship is fast beginning to consider such communications an insult to their intelligence. —The Shelby News.

The Courier-Journal is the mouth-piece and subservient tool of the liquor interest of Kentucky. When they take snuff editor Watterson sneezes a double-leaded editorial denouncing all men who do not take their orders from the whisky trust. The great trouble with Watterson and the gang that trains with him is that they are hopelessly behind the times. At one time they violently opposed temperance legislation. ("Sumptuary" they called it), and the precinct unit law was an abomination in their sight. Then when that had been tried and when progressive people were demanding a county unit, then discovered all at once the great merit of the precinct as a unit. After a bitter fight a modified county unit law was adopted and when in 1911 the Democratic party held its great platform convention in the Masonic Temple at Louisville, the question of an unqualified county unit law came up for discussion. Col. Watterson was there with his choicest vials of wrath to empty upon the heads of all who dared to advocate the adoption of that plank. But it was adopted and Democracy broke another of the links which had bound her to the whisky juggernaut—no play on words intended—and stepped up to a higher plane of citizenship. Now, the people of the state are being asked to take the next and logical step to State-wide prohibition. And lo, and behold! Watterson and his crowd are just dead in love with the county unit and pledge themselves to support it with their mind, soul and strength, and are emptying their vials of wrath upon the heads of Senator Beckham and Judge O'Rear, who are daring to proclaim the tidings of the movement throughout the grand old Commonwealth of Kentucky. The fish-wife vocabulary of the distinguished editor is ransacked for epithets with which to assail them. But the movement will succeed. Both parties will fall in line and when the time comes Kentucky will shake off the "Old-Man-o-f-the-

Sea" and banish the traffic from her borders.

Then, when the next struggle comes, for National constitutional prohibition, Colonel Watterson and his whisky cohort will come forward as the enthusiastic supporters of State-wide prohibition as opposed to the larger measure. And wouldn't that be in keeping with their whole course in the past?

In the past the Courier-Journal once referred to the editors of the country press as "Rural Roosters." It seems that the Rural Roosters have been the real leaders of thought and action in Kentucky, while the C.-J. has lagged along in the inglorious rearward. —Flemingsburg Times-Democrat.

his misdeeds.

"I called attention to the fact that this was merely the application on high seas, and at our expense, of the principles which, when applied on land, had produced the innumerable hideous tragedies that have occurred in Belgium and in Northern France.

"I said that not only our duty to humanity at large, but our duty to preserve our own national self-respect demanded instant action on our part and forbade all delay. I can do little more than reiterate what I then said. When the German decree established the war zone and, of course, plainly threatened exactly the type of tragedy which has occurred, our Government notified Germany that in the event of any such wrong doing at the expense of our citizens, we would hold the German Government to a strict accountability.

"The use of this phrase, 'strict accountability,' of course, must mean, and can only mean, that action will be taken by us without a n hour's delay. It was eminently proper to use the exact phrase that was used, and, having used it, our own self-respect demands that we forthwith abide by it."

## YOUR HEALTH

Don't Endanger It With Calomel.

It is generally agreed by experts in this country and Europe that calomel has a very violent effect on the system. This accounts for the familiar disagreeable feeling accompanying a dose, and the weakened condition following it.

LIV-VER-LAX is a harmless vegetable compound, that is a mild, but effective substitute for calomel. It has all the effectiveness, but not the effect, of calomel. Its splendid value has brought it into such wide use that in some states it has almost entirely replaced calomel.

Just try LIV-VER-LAX once, and you'll never use calomel again. Insist on the genuine, bearing the likeness and signature of L. K. Grigsby, which is guaranteed to give satisfaction or money refunded. For sale by Haynes & Taylor, Marion, Ky.

## LOYD'S BRAIN LEAKS.

By F. S. LOYD.

Ed Baker says the best luck any man can have, is never to have been born, but that seldom happens to any one.

Uncle Billy Loyd on his first visit to Cairo, thought he would go to the theater and see the play called "Forty Thieves." When he got to the theater he asked the man at the box office if they were playing the "Forty Thieves," there, and on being informed that they were, and without asking the price of the seat told the box office man that he wanted a tip-top seat, and laid a five dollar bill down. The box office man laid the ticket down and three dollars. Uncle Billy did not think it to be more than a 25-cent show, picked up the \$3.00 and walked off without his ticket, whereupon the box office man shouted "See here, sir, you've forgotten your ticket." Uncle Billy shouted back "Keep it, god darn you, I don't want to see the other thirty-nine."

Little Willie Cox said: "Father, what is a hypocrite?"

"A hypocrite is a married man who advises bachelors to get married, my son."

"Willie, you go to bed," said Mrs. Cox.

Albert Elder says when he was first married his wife was always feeling his shoulders and waiting for the wings to sprout. But later on she was afraid to rub his head for fear she would feel the horns growing through.

Effie Baker says when you want to work other people, an ounce of flattery will get you more than a ton of truth.

"Papa, what is a parasite," said Cecil Loyd.

"How long have you been going to school, young man?" asked Charley Loyd.

"Four years," answered Cecil.

"Well," continued the old man, "there's something wrong with our educational system if four years of schooling haven't taught you that a parasite is a person who lives in Paris."

"Kenneth can you define a hypocrite?" Said his teacher.

"Yes'um, it's a kid what comes to school with a smile on his face."

A friend said to Billy Elder: "You've had that suit but two weeks, and yet it looks as if you had been sleeping in it."

"I have, I wore it to church last Sunday."

## THE DALLES-CELIO CANAL NOW OPEN

With Yesterday Began A Series Of Celebrations Of Its Construction.

The Dalles, Oregon, May 10.—The Dalles-Celio canal, a government project, which will have the effect of opening vast stretches of the Columbia and tributary rivers to continuous navigation, is now complete, and a series of celebrations, extending from May 3 to 8, in which many towns and cities participated, was planned in honor of the event.

During the century that the waters of the Columbia have been used to float the boats of white men, a six or eight mile portage has been necessary at The Dalles, where the river breaks through a mighty barrier of rock and lava. Narrowing from a smooth expanse of over one mile in width a short distance above, the river enters a gigantic gorge, which at one point is only 168 feet in width but has a depth of over 200 feet, within a distance of 8 miles the streams drops approximately 100 feet.

Ten years ago the government undertook the work of constructing a canal, sufficiently large to accommodate the largest river

steamers around this obstruction.

It is now completed and is six miles in length with a minimum depth of 8 feet, has 10 passing basins and five locks, by the use of which the fall of from sixty to eighty feet, according to the stage of the river, will be overcome. River steamers will be able to pass from opening to opening in less than three hours.

Work on this canal was commenced in October, 1905, and has been continuous since, the sum expended approximating six million dollars.

Through the removal of this obstruction the largest of river steamers may now proceed from the Pacific Ocean to Lewiston, Idaho, on the Snake river, a tributary to the Columbia, a distance of 479 miles, and to Priest Rapids, Wash., on the Columbia, a distance of 450 miles. By the removal of some additional minor obstructions the Columbia will become navigable to Revelstock, British Columbia, a distance of nearly one thousand miles.

In the early days of the northwest a short line of railway was built around the rapids of The Dalles for the purpose of facilitating the portage of steamer cargoes. This railway, state-owned and the first to be built in the northwest, will be abandoned, a portion of the track having already been removed to make room for the canal.

## THE HERALDS.

"Though I speak with the tongues of men and of angels," and use not Types, "I am become as sounding brass and a tinkling cymbal. And though I have the gift of prophecy and understand all mysteries and all knowledge," what avails it if I am deprived of the use of Types? Though I have merchandise that is desired of all nations, it benefits them not if Types speak not for me; yea, it is not salable except in places within a day's journey. Things that were of old are lost, the wisdom born of cycles of effort and sacrifice is forgotten, the heritage of the world's greatness is buried, when Types cease to proclaim them. Verily, I will honor the Printer and his Types, that I may speak my thoughts and express my soul to all mankind forever and ever, and announce my skill and the merits of my handiwork to all who might benefit by the use thereof; for what Power is there in all the world that approaches thine—beautiful thought carriers, prompters of progress, cultivators of ideas, world-encircling, never-failing Voices—my Printer's Types.

## Genuine Prescription For All Rheumatism

Satisfaction Guaranteed or Money Back Says James H. Orme.

Rheuma—that is the name of the scientific prescription that is putting old rheumatism out of business.

Rheuma cures by driving the uric acid from the blood. It also acts directly on the kidneys and is better for them than most so-called kidney cures. Porter Smith, Dobblin, W. Va., writes: "I have been a great sufferer from rheumatism for about 26 years. The disease had become chronic. I began taking Rheuma with little faith in its virtues, but was better from the first day I began its use, and at this time have no more pains."

James H. Orme, Marion, Ky., and all druggists sell Rheuma, and no rheumatic sufferer can afford not to use it 50 cents a bottle. Your money back if not satisfied.

## A Letter From California.

Duarte, Cal.

Editor Crittenden Record Press:

Dear Editor:

I thought that perhaps you would like to have a dollar from California. I am sure that we want the Record-Press from old Kentucky, so keep on sending the news and we'll keep on sending the dollars. If you will give me a little space in your paper I will tell my old friends where they can find me. Wife and I left Morley, Mo., the 8th day of December 1914 at 10 o'clock, went to St. Louis, got our sleeper and started for Los Angeles, California. We arrived there on the 13th, at 6 o'clock in the morning. Our folks were at the Depot, all smiles; so were we for it was our first trip for such a long distance. We had for dinner, figs off the tree, peaches, peas and most all good things to eat. Our home is 20 miles east of Los Angeles at a little place called Duarte. If any of my old friends will write me address

Your old friend,

L. C. Terry.

## Some Forms of Rheumatism Curable

Rheumatism is a disease characterized by pains in the joints and in the muscles. The most common forms are: Acute and Chronic Rheumatism, Rheumatic Headaches, Sciatic Rheumatism and Lumbago. All of these types can be helped absolutely by applying some good liniment that penetrates. An application of Sloan's Liniment two or three times a day to the affected part will give instant relief. Sloan's Liniment is good for pain, and especially Rheumatic Pain, because it penetrates to the seat of the trouble, soothes the afflicted part and draws the pain. "Sloan's Liniment is all medicine." Get a 25 cent bottle now. Keep it handy in case of emergency.

**Constipation**

It is so dreaded. It leads to serious ailments. Fever, Indigestion, Piles, Sick Headache, Poisoned System and a score of other troubles follow. Don't let Constipation fester. Keep your kidneys, Liver and Bowels healthy and active. Rid your system of fermented, decay foods.

## LOUISVILLE SILO &amp; TANK CO.

Incorporated.

HIGH GRADE SILOS  
Made of Long Leaf Pine and Oregon Fir.

A Few Reasons Why You Should Buy a "Louisville" Silo

- 1 Because it is easy to erect.
- 2 Because we guarantee every part of it.
- 3 Because our silo is second to none on the market.
- 4 Because it is a silo on which each and every feature has been tested and is not an experiment.
- 5 Because all our doors are made of California red-wood, which shrinks and swells less than any wood on the market.
- 6 Because our doors are easy to remove and replace, and cannot stick or bind.
- 7 Because we own our own patents, and do not have to pay any royalty, thus saving the farmer from \$15.00 to \$25.00 on his silo.
- 8 Because the hoops can be adjusted from the ladder front door frame without the necessity of climbing all around the silo on a ladder.
- 9 Because we are not in the silo trust.
- 10 Because it is HOME INDUSTRY.

COOPER TO HAVE  
BIG BREAD LINEProceeds From Sale of Celebrated  
Tanlac to Feed Poor.

Louisville, May 12. L. T. Cooper, the noted "Tanlac Man," will establish and maintain, at his own personal expense, a "bread line" in Louisville this winter. Mr. Cooper conceived and began executing this idea as quietly as he performed his remarkable relief work among the Dayton flood sufferers in 1913.

Louisville will, therefore, be unique in its relation with the rest of the country, because this city will have the only "bread line" outside of New York and maybe a few other larger cities of the world, where the plan has been established and is now maintained by the charitable organizations.

Mr. Cooper spent the afternoon looking over several available locations for the "bread line" and he will probably be prepared to state definitely by today just where the work will be carried on. He has also been in communication with local bakeries, and an agreement with reference to the bread and coffee supply has been practically reached.

Mr. Cooper, who is one of the most magnanimous of men, has always been in sympathy with the poor and unfortunate. The "bread line" will therefore be only another exemplification of his nature. A large percentage of the profits from the sale of his celebrated preparation, Tanlac, the medicine that is accomplishing such remarkable results in cases of catarrh, stomach, liver and kidney troubles, will be devoted to charity and her children in this city.

In commenting upon this great undertaking, Mr. Cooper said:

"Since a mere boy, I have always been inclined to help those who were less fortunate than myself, and in each city I visit I have invariably shown my sympathy for the poor by performing some service at my own personal expense that would bring a bit of genuine charity directly to them. I can, therefore, imagine nothing, among the several charitable plans I now have in mind, that will prove as much benefit as a 'bread line.' The necessary details connected with the plan will be perfected by me this week."

Tanlac, the celebrated medicine now being introduced by Mr. Cooper, can be bought in Marion at J. H. Orme's drug store, and at A. T. Brown's, in Blackford, Ky. — Advertisement.

THE CATHOLIC  
CHURCH ST. PETER'S  
KINGDOM KEYSPastor Russell Claims to Be  
a True Catholic.

The Catholic Church—Its Divine Foundation—Apostolic Authority—St. Peter's Keys—How He Used Them. How "Keys of the Kingdom"—What Power and Authority Given the Apostles—May Sins Be Absolved?

Atlanta, Ga., March 21.—Of Pastor Russell's two discourses here today we report the one on Matthew 16:18, 19, "Upon this rock will I build My Church; and the gates of Hell [Hades, the grave] shall not prevail against it. And I will give thee the keys of the Kingdom."

For some unaccountable reason, the Pastor began, numerous Catholics have gotten the thought that I am their foe, just as Presbyterians, Methodists, Episcopalians, Baptists, etc., have the impression that I am their foe. I am a foe to no human being, especially to no Christian. He then explained at length that he fully believed in Free Grace, Election, Immersion, etc., and at the same time showed wherein he differs from the various denominations on these important doctrines. Similarly, he declared, he holds the great Catholic doctrine that there is only one true Church, founded by the Lord Jesus Christ, through His Apostles, nineteen centuries ago.

The speaker declared that he is aware that several churches claim to be Catholic, each reproaching the others as heretics; that he holds that the word Catholic means general, and when the word is limited by the use of the terms Greek, Anglican, Roman, etc., to that extent true Catholicism is denied. In other words, he believes that the one Catholic, or universal, or general, Church of Christ is that mentioned in the Bible—"The Church of the Firstborn, whose names are written in Heaven." If this be admitted, his next proposition is that the Lord records as members of His true Church all saints persons in all denominations and out of all denominations—and no others.

The spirit of sectarianism, he declared, began to manifest itself in St. Paul's day. The Apostle, in writing to the Corinthian Church, deplored that spirit of division which was creeping into the Church, and showed that it resulted from a failure to recognize the true Head of the Church, His true representatives and His true members. The trouble is the same today. The entire foundation of divided Christianity would disappear and the true Church would be speedily manifest, if truth Catholicity were acknowledged.

The great obstacle to true Christian unity, the speaker holds, is the erroneous doctrine of the eternal torture of all non-church members. Many of the theories that have come down from the Dark Ages were not taught by Jesus and the Apostles. The Catholic Church, the true saints of God of all denominations, should promptly move back to the foundation doctrines Divinely provided in the Scriptures. The voice of God to the Church came through "The twelve Apostles of the Lamb." All others so claiming are denounced by Jesus Himself as false.—Rev. 2:2.

The Church Founded Upon the Rock. From his context the Pastor showed that on one occasion St. Peter had made the first public declaration of Jesus' Messiahship. Jesus replied in the words of the text. In the Greek Peter signifies a small stone, while the word rendered rock signifies a foundation stone. What Jesus evidently meant was that St. Peter's statement was a recognition of the Master as the great Foundation of the Divine Plan—the Messiah. Upon that foundation truth—that Jesus is Christ—the Church would be built, and St. Peter was the first who by confession became of the living stones (1 Peter 2:5) to build himself upon that Foundation. St. Peter himself gives us this thought—that he and all other members of the Church are living stones, being built into a holy Temple of God.

The entire Gospel Age has been devoted to finding and building these stones upon that great foundation. Truths-Rock. As soon as the Temple is completed, the New Dispensation will be inaugurated. The gates of Hell—Hades, the tomb—shall not prevail against the Church; for they shall come forth in the First Resurrection.

The Keys of the Kingdom. The keys explained, are Scripturally shown to be two in number and used in two different opening works. A key is symbolic of authority. St. Peter used his first key of privilege on Pentecost, when he opened the door of the Church of Christ to the Jews. Three years and a half later he used the second key to the Kingdom of Heaven—the Church, the embryo Kingdom preparing for glory. At the home of Cornelius, St. Peter opened another door of opportunity, through which have been admitted believing Gentiles—"that the Gentiles might be fellow-heirs with the Jews to the Promise."

## Morehead, Ky.

"Hello" to everybody in dear old Crittenden: and Hurrah! for McChesney for Governor.

The Crittenden Record-Press to me, is like a good rain to a thirsty garden. I look forward to every Friday noon for my home paper. Crittenden county Ky., is the dearest place on earth to this boy. I know I am not very far away, but I get awfully home sick for a good old Crittenden hand shake. I tell you there is no place like it. I am having a good year. I have a good people to serve and we are pushing forward the work as best we can. Morehead is a good mountain town, much better than it used to be. Some times a man is killed, but they don't kill 14 in one day as they did one time. (If they did, guess I'd be going) With love and best wishes for all. I am yours, Chas D. Lear.

THE BROOKLYN  
TABERNACLE  
BIBLE STUDY ON  
HEAVENLY INTEREST IN SIN-  
NERS.

Luka 15:1-10—April 26.

"There is joy in the presence of the angels of God over one sinner that repenteth."—Y. B.

TODAY'S lesson tells that the Pharisees and the scribes murmured against Jesus, charging against Him as a sinner that He received sinners. Whatever did not harmonize with their standards they could only contest. Their difficulty in part was that they had too high an opinion of themselves. In this matter their spirit was an evil one, begotten of the Adversary. Hence Jesus sometimes spoke of them as children of the Devil, because he works they did.

The Heavenly Ninety and Nine. So it is with us. "The servants ye have to whom ye render service." By their fruits ye shall know them."—Matthew 23:23.

Applying this words to many who profess to be His disciples, we are bound to suppose that other than the fruits of the Holy Spirit, they are in opposition to the Master's spirit.—Matthew 23:23.

Knowing the Pharisees' thoughts, Jesus answered them in a parable, saying, "What man of you, having a hundred sheep and having lost one of them, doth not leave the ninety and nine in the wilderness, and go after that which is lost? The shepherd's compass, Jesus declared, illustrates the attitude of God and all the holy angels. They have a special interest in those who have strayed, and especially rejoice in the recovery of such.

How encouraging it is to know that this is the sentiment of Heaven, and that our imperfections are not a personal bar to recognition by the Lord, if we return to Him! But any sheep, having been found by the Shepherd and then preferring to live with the wolfish, would no longer interest the Heavenly ones.

Many seem to think of the whole world of mankind as representing the flock of a hundred sheep, and the one straying sheep as representing the sinners of earth, comparatively few. Surely this cannot be the true interpretation! Rather, as the Prophet declared, "All we like sheep have gone astray." "There is none righteous."

Mankind the Lost Sheep.

Interpreting the parable on a broader sense, in accordance with the facts and the Scriptures, let us understand the one straying sheep to represent Adam and his family, and the ninety-nine just persons the holy angels. To this view every feature of the parable points. The Good Shepherd left the heavenly flock and came to earth to redeem, to recover, mankind. And there is more rejoicing in Heaven over human recoveries from sin and alienation from God than over the holy ones themselves, who have never been redeemed with such a price, and never needed recovery.

The lesson to the Pharisees is plain. There was an earthly view, selfish, proud, hungry. Jesus would have His disciples copy God: "Be like unto your Father in Heaven!" God's mercy sent His Son, the Under Shepherd, to be our Redeemer. His mercy will pursue the lost sheep until every member of Adam's race shall have been brought to a full opportunity of returning to the fold of God. To this end the Messianic Kingdom is to be established, when Satan shall be bound and the knowledge of the Lord shall be made to fill the whole earth.

How Merciful God's View!

How different is this view of our loving Creator from that handed down from the Dark Ages, and representing the Almighty as having prepared a place for the eternal torment of mankind, except an elect few! On the contrary, God's loving provision is only beginning to be manifested, in His favor toward Christ, and the Church. Ultimately the knowledge of the glory of God shall fill the whole earth.

"The Son of Man came to seek and to save that which was lost." The race was lost, not merely a few, the Church; and the recovery will include all. This does not signify universalism, however. Every member of Adam's race will be brought to a full opportunity of recovery from sin and death.—1 Timothy 2:4.

The Lost Coin.

Jesus gave another parable to illustrate the same great truth from another angle. It was the custom among Jewish women to wear on the forehead a fringe of coins. These might be of gold or silver, and sometimes represented their dowry. The loss of one of these coins would represent more than its intrinsic value; for its absence marred the beauty of the bangles.

The search for the lost coin would mean that, instead of being abandoned as not worthy of consideration, it would be sought until found. The neighbors would learn that it was found and would rejoice. This is another illustration of the joy among the angels over one repentant sinner.

stood to have stated that the Lusitania was not convoyed.

These facts in the opinion of law officers of the American Government left the German submarine no excuse under law or reason for an attack without warning on a ship with hundreds of non-combatants aboard, including neutral men, women and children. The position of the United States has been that the presence of contraband—even arms and ammunition—according to the rules of international law, including the Declaration of London which Germany has upheld, cannot warrant the sinking of a merchantman without the previous exercise of the right of visit and search and the removal of non-combatants to a place of safety. The Government stated this in its last note to Germany and at the same time issued a warning that the Imperial German Government would be held "to a strict accountability" by the United States for any loss of vessels or lives.

### California Senate Recommends Immediate Action.

Sacramento, Cal., May 11.—Resolutions "relative to the President's request for an expression of public opinion" on the sinking of the Lusitania were introduced in the California Senate and Assembly today and referred to committee.

The resolution reads: "Resolved; that the Legislature convey to President Wilson the message that its people will indorse whatever action, no matter how severe, he may deem warranted, and the Legislature recommends immediate steps to increase the strength of the navy for adequate protection of the honor of the nation and the lives of its citizens."

### What Italy Thinks.

Genoa, May 11.—Gabriele D'Annunzio, the poet and author expressed horror and indignation when informed of the torpedoing of the Lusitania.

"Germany," said D'Annunzio, "is doing her best to array against her all the vital, healthy and youthful forces of the civilized world, which would rather perish than allow brute force and barbarism to triumph."

"From this baptism of blood, of which the travelers on the Lusitania were most innocent, but perhaps fruitful victims, as it may provoke the participation of America in the war, will reign law, justice and love on an in-

destructible basis, formed by the enlightened consciences of three continents."

### Colonel D. C. Robert's Views.

The admission of Count Sternberg, the German ambassador to this country that he had full knowledge of the proposed assassination of a ship load of people certainly places him in the position of an accessory before the fact. He should be denied "Sanctuary" anywhere in this country, him and his conferees. Sternberg's criminality merits the rope or the chair. Count or no account he is a murderer, he should have meted to him the same punishment as any other murderer. Were the people of New York City, Americans instead of a melting pot for all the world, Sternberg would have been torpedoed by a 45 Colt's before he reached the Pennsylvania station on Friday last enroute to Washington and the sanctuary of the German Embassy's residence. We seem to have lost our nerve in attempting the neutrality game, as a matter of fact can any one of us be neutral in anything, must not ordinary human nature make decision one way or the other? Neutrality is an absurdity, we are either for or against a proposition, straddling a fence is un-American, why not be ourselves as of old.

### \$300,000 SUIT COMPROMISED

Preston Estate Against Union Co. is Reduced to \$100,000 by The Agreement.

At a meeting of attorneys representing the A. J. Preston estate, of Davenport, Iowa, and the committeemen from Lindell and Cayesville precincts in Union county, held at Yeaman & Yeaman law office in the Ohio Valley bank building in this city, Saturday, a compromise was effected whereby the tax payers of the two Union county precincts pay to the Preston estate, the sum of \$100,000 in full payment of a judgement for \$300,000, returned against them in Federal court nearly a half century ago.

The attorneys representing the Preston estate at the meeting, were Helm Bruce and John Bryce Baskin, of Louisville, and representing the committeemen, Judge H. X. Morton, of Morganfield. Under the terms of agreement the \$100,000 is to be paid over to the estate within twelve months. The money will be raised by taxing the property in the district and will amount from four to six per cent, on all property subject to taxation in the two precincts.

The paying over of the money will bring to a close one of the most notable cases ever before the people of this section of Kentucky. It has been the means of more talk, and shifting of officials in Union county than any other one thing in its history. It has been the cause of sheriffs resigning their office, and the mandates of even the Federal court reversed and held for naught. The judgment was returned against the two precincts nearly fifty years ago, and up to the day the case was compromised not a penny had ever been paid over.—Henderson Gleaner, Monday, May 10th.

### A MARION MAN'S EXPERIENCE

Results Tell The Tale.

Can you doubt the evidence of this Marion citizen?

You can verify Marion endorsement. Read this:

William Redd, farmer, Marion, says: "I had a severe pain in the small of my back and it ached and felt lame in the morning. I tired very easily and was nervous all the time. The kidney secretions were too frequent in passage and contained sediment. Hearing Doan's Kidney Pills highly recommended, I began using them. I was helped almost at once. I have had no sign of the trouble since, but I keep Doan's Kidney Pills on hand for emergency." Price 50 cents at all dealers. ### Uncle Joe Newcom Dead.

Joseph Newcom was born Jan. 7th, 1825, in Humphrey county, Tennessee, come to Crittenden county which was Livingston county at that time, when two years old, and has lived here ever since.

He was married to May Eliza Cain, Jan. 3rd, 1850. To this union was born eight children; three dead and five living, those living are Ves, Frank, Rutledge, Dr. Em, and Mrs. Stanley.

He professed faith in Christ in early manhood and joined the church at Sugar Grove, where he lived a faithful christian until May the 8th, 1915, when God said: "It's enough, come up higher."

He had made his home with his son, C. R. Newcom, for many years. He was visiting his children, as was his custom, at the time of his death, and died at the home of his son, Ves.

To know uncle Joe, was to love him. He was a plain simple man, he lived what he professed. He was a good father, and a safe counsellor. His life was clean and pure.

The funeral was preached in the Baptist church at Repton in the presence of a large crowd of people by Rev. W. T. Oakley; the interment was in the Repton cemetery; the grave was covered with flowers.

### McChesney In Lyon And Caldwell.

Hon. Harry V. McChesney, of Frankfort, spoke to a large and appreciative audience at the Court-house in this city last Saturday in the interest of his candidacy for Governor. Mr. McChesney was introduced by the Hon. John C. Gates, who spoke in the highest terms of him.

Mr. McChesney spoke about one hour and a half on State

issues, speaking at length on State-wide prohibition for which he has declared in this race. He is an able and forcible speaker and his speech was well received.

Mr. McChesney came here from Eddyville where he spoke Friday night and went from here to Fredonia, and spoke there Saturday night.—Princeton Leader.

### Republican Committee Met.

The Crittenden County Republican Committee met in Marion, May 10th, 1915, and after fully discussing the question of nominating a candidate for the next General Assembly of Kentucky, passed the following resolutions unanimously, viz:

Be it resolved, that according to the well established custom of alternating the naming of a suitable candidate for representative of Crittenden and Livingston counties, that Livingston county is now entitled to that right as Crittenden county furnished the representative in the last legislature.

The Committee is informed that the republicans of Livingston county at a meeting in said county, had endorsed Mr. P. H. Styers, of Hampton, and commended him to the voters of the district.

It is the opinion of the Committee that we should not depart from this custom.

Attest: JNO. T. PICKENS, Ch'm of the Republican Committee.

JNO. G. ASHER, Secretary.
