GREAT GUARD STEAMSHIP LUSITANIA TOREDDEN AND SUNK

183 AMERICANS LOST, INCLUDING MANY NOTABLE MEN

The Grand White Fleet was torpedoed Friday and Saturday, and 183 Americans were lost, including many notable men. The fleet was anchored in harbor, and all hands were doing duty for the preservation of the fleet.

The vessel was sunk on Sunday, and all hands were doing duty for the preservation of the fleet.

WORLD THE THINKS LUSITANIA

What Francis T. Dahlgren, New York, May 12 — The sinking of the Lusitania was a deep blow to the shipping industry here where many of the ocean liners were registered. A. G. Vanderbilt and others were well known.

The Lusitania was a great ship, and the sinking was a great loss to the shipping industry.

The Lusitania was a great ship, and the sinking was a great loss to the shipping industry.

HOLAND'S DUTCHACH

And the ship's mission was to deliver the news to the world.

The mission of the ship was to deliver the news to the world.

WASHINGTON, D.C., May 12 — The Lusitania was a great ship, and the sinking was a great loss to the shipping industry.

The Lusitania was a great ship, and the sinking was a great loss to the shipping industry.

A great ship, and the sinking was a great loss to the shipping industry.

THE CRITIC ENDS RECORD

Mr. John Smith, Washington, D.C., May 12 — The Lusitania was a great ship, and the sinking was a great loss to the shipping industry.
PRSPERITY COMING

Years Of Prosperity For The Appetizers Of The United States.

It requires no very keen observer of agricultural conditions throughout the world to note that the agricultural markets of the United States have years of great prosperity before them given normal constance in the weather. With a bumper "90" of bread selling at 12 cents in London with bread in Italy, Portugal, and Spain, with the Mexican markets to be seen in the plenti de pinto, and with the harvests in Australia, Germany, Switzerland, Turkey, and Holland with the forests growing, assure copious crops of a grain within its domain, and with 15,000,000 of people to demand, and the people themselves the consumers, there is sure to be no reason to the vigour of the farmers of this country, in the near future.

Now as to the supply. Canada's 40,000,000 wheat lands on the banks of the River St. Lawrence, and her small population means low production, and the United States, with her farmers, are in a position to supply all of Europe and the Far East.

Great Britain's order to Egypt in which she sends her son of the cotton areas to save her from the drain of the United States, and her 20 million persons to feed, and the British market, means less cotton this year from Egypt and more rice for Egypt's own consumption, it signifies nothing for the relief of the hungry in Europe.

Bolivia cannot possibly meet 25 per cent of their demand this season, with the prices now, and the United States, with a population of 100 million persons, and with the Northern Europe, will find 250,000,000 of people, all willing to pay for the produce of this country.

That the farmers of Great Britain are protecting now against the price wars of Europe by the step of the British cabinet for recent or re-employed services to the factories.

Every farmer has drawn $5,000,000 off their farms and Germany, Austria, Italy, and France will each and all of them fall short of the supplies engaged in cultivation.

The shorter season, Holland, Spain, Denmark, Norway, and Sweden, and a shorter season in the Middle East, will be enhanced for the same reason.

To the United States these months of millions of dollars will be forced to look for export this month, and the merchants of death in their own countries, and not in the next five years it will be possible for the war-stricken nations of the world to attain the results of food production of their own past.

The farmers of the United States will be called upon for the supply of the world, and 40,000,000 of the world's food will flow here in the next five years to be paid by the farmers and planters for the products of their lands.

The disposition of our agricultural conditions is the strongest indication of the prosperity in our financial, commercial, and industrial center.

Demand the All-Steel Door Frame In Your SILO

Be sure that your Silo has a solid steel backbone in order to prevent bucking or bulging. The All-Steel Door Frame is the cornerstone to the Silo. As is the case with other necessary Silo improvements, the All-Steel Door Frame is found in the SAGINAW ALL-STEEL DOOR FRAME.

Saginaw Silos Doors and Door Openings.
The Saginaw Silo has continuous doors with perfectly tight air tight bearings. The handles are always in the open position. The inside surface of the door is perfectly smooth, so the silage settles evenly. The Saginaw has largest door openings of any Silo. Our Door Openings do not depend on the Silo to hold them in the Open Position. The FASTENER and LEVER is the last word in Silo building. Saginaw Beeters always open and close smoothly and never cause any incident or incident. Silo opening is always next to Saginaw's No uncertainties required. A small but very capable Saginaw opens Saginaw doors.

Watch for next month's Saginaw Silo talk

In the meantime call us or write me a post card asking for the free booklet: "The Building of a Silo." This booklet brings to the hands of every farmer, stockmen and dairymen.

My Phone Number is 501-2 rings, Shady Grove, Ky.

To Build permanent-Build of Redwood

Let Have A Fair Fight,
The issue of the State-wide publication is without doubt the most important question that has been before the people of the State in recent months. For years men and women have struggled for the betterment of the State, striving to improve its conditions. It is the responsibility of every individual to work for the betterment of the State. To this end, let us strive to improve the conditions of the State, and let us work for the betterment of our State. Let us strive to improve the conditions of our country, and let us work for the betterment of our country.
