STANLEY MAKES TWO TALKS AT RICHMOND

Crowd So Large That It Could Not Get In The Courthouse At One Time.

Richmond, Ky., June 15.—The honorable A. O. Stanley spoke here today in the interest of his candidacy for Governor. A crowd of more than 1,000 heard him. It was necessary for him to make two speeches owing to the fact that all the crowd was unable to get in the courthouse at one time. The second address was from a bandstand on Main street. Mr. Stanley is the second person ever forced to deliver two speeches here the same afternoon because of the size of the crowd, former Gov. William Goebel being the other. Mr. Stanley was introduced by Thos. H. Pickles, editor of the Kentucky Register. Other candidates here today were Claude B. Terril and Sherman Goodpaster, of Frankfort, for State Treasurer; Rodney Keenon, of Harrodsburg, for Clerk of the Kentucky Court of Appeals; W. A. Byron for Lieut. Governor and H. H. Colyer, for State Auditor, Advertisement.

RELATING TO THE STREET OIL

To The Residents Of Marion Who Paid For Having The Streets Oiled.

Most of the residents were very liberal. Some sat back and let their neighbors pay for this work. Even in the business part of the city there are five business houses who did not pay one cent, but got the benefit just the same. In residence sections the same thing happened except in three cases. Everyone paid on Elm street, west from Main as far as oiling went. Every one on South Main street paid, and from Baptist church west everyone paid. You will find a list of all who paid for this work and the amount they paid. The worst trouble a person has in a job like this is that the parties who pay one or two dollars want the same amount of oil as those that pay ten or fifteen dollars. We did the best that we could and feel that it was what we agreed to do, and more. Mr. Cannan saw to getting the oil into the wagon tank and then turned it over to me to distribute on the streets. I was a little disappointed in my calculations. I expected when we commenced, to get as many as thirty cussions, but I only got twenty-three, so you see I am short seven. Of course they may come in later. I do not know how many Mr. Cannan got because he would not tell me. You see he played me a trick by getting me in the place he knew most of them would come from. But the oiling is done and we are both living. We used 14,266 gallons of oil. We paid for this oil, a carload of sand, all labor and expense, and still have 10 per cent. of your money, which we will pay back to those who contributed to oil fund. So now all that want their 10 per cent. call on us on or before the tenth day of July. You must get it by then or not at all.

Hon. H. V. McChesney

Speaks At Pembroke.

Regardless of the very large audience that gave Hon. H. V. McChesney, candidate for Governor on Democratic ticket, the glad hand in Hopkinsville Monday, and regardless of the fact that many Pembroke citizens were in that audience there was earnest desire on the candidate's part to see the other citizens of Pembroke and he made a hurried call on our little city Monday evening. The speaker was announced very late but some how the people got in line on time and there was a most enthusiastic crowd at Hotel Ackerman to greet the speaker. Mr. McChesney made the "rousingest" short speech that Pembroke has heard in some days (not excepting those big short speeches made Morgan day.) He is a man of firm convictions and not afraid to champion a great cause that has not received, but will soon receive its proper recognition.

May God speed the day when we will have many men in politics like Hon. H. V. McChesney who thinks about and talks about our part in this great temperance question. They say we must put this whisky question out of politics. We say so too—But we say put it out the McChesney way.

Hurrah for McChesney for Governor of Kentucky.—Pembroke Journal.

Who Remembers Him?

Samuel J. Levy, who died at Hot Springs, Ark., Monday afternoon was a prominent citizen of Paducah and formerly lived here, where he was born Sept. 14th, 1853. This was in the first decade of Marion's existence and has been over sixty years ago. Is there anyone here or in the county who remembers Mr. Levy?

The wedding march was played by Miss Ada Ryan. The ceremony was performed by the Rev. R. A. LaRue. Hearty congratulations were extended by members of the family present.

CATARH CAN NEVER WITHSTAND THIS TREATMENT.

Louisville, Ky.—"I was run down and weighed 87 pounds when I should have weighed 130. I was a nervous wreck. Had catarrh all through the system and was bloodless as far as color is concerned. I was down in bed and getting weaker. I hardly thought I would live. I began using Dr. Pierce's Golden Medical Discovery and after using it for about a week I got out of bed and began to gain. My breath became less offensive, my appetite came back and I gained in weight. The use of four bottles restored my health, gave me a weight of 136 pounds, and I have been well since. It is a wonderful remedy and I tell everyone."

—Mrs. J. M. BEAL, 2522 Bank St.
The prompt action of Dr. Pierce's Golden Medical Discovery in driving harmful germs and impurities from the blood, sets in motion the repair process which works actively on the diseased membrane where Catarrh flourishes unchecked.

Thus by building up a new and perfect covering and carrying out of the system the catarrh-infested matter by way of the blood, liver and kidneys, catarrh is overcome and permanently conquered. Don't be deceived in regard to catarrh; proper local applications help of course, but no catarrh sufferer can hope for permanent freedom from this stubborn disease until all impure matter in the blood is carried away.

All dealers in medicines can supply Dr. Pierce's Golden Medical Discovery, or send 50 cents in stamps to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for trial box of tablets also ask for free book on catarrh.

Decreased Fluorspar Production.

The quantity of domestic fluorspar reported to the United States Geological Survey as marketed in 1914 was 95,116 short tons, valued at \$570,041, compared with 115,580 short tons, valued at 736,296 marketed in 1913, a decrease in quantity of

20,465 short tons and in value of \$166,245, according to statistics compiled by Ernest F. Buchard. Notwithstanding this decrease the production of 1914 has been exceeded only by that of 1912 and 1913. The average price per ton at mine or mill for the whole country, considering all grades of fluorspar—gravel, lump and ground—was approximately \$5.99 in 1914, compared with \$6.37 in 1913, a decrease of 38 cents a ton.

The market for the bulk of the fluorspar sold in the United States depends on the steel industry, and when that industry becomes depressed the demand for fluorspar quickly diminishes. Gravel spar is consumed as a flux in basic open-hearth steel furnaces and to a smaller extent in other metallurgic operations. In 1914 the marketed production of gravel spar constituted about 83.3 per cent. of the total marketed output of domestic fluorspar.

The market for lump fluorspar for the manufacture of hydrofluoric acid is reported to be improving. This report appears to be confirmed by the increase of nearly 55.8 per cent in quantity and 91.3 per cent in value of sales in 1914, in connection with which the price per ton increased about 22.8 per cent.

In Illinois the output in 1914 came from three mines, all in Hardin county. Spar was shipped from ten mines in Kentucky (nine in Crittenden county and one in Livingston county), one mine in New Hampshire and five mines in Colorado. The mines in Arizona and New Mexico that were active in 1913 reported that there was not sufficient demand for their product to warrant any shipment during 1914.—U. S. Geological report.

Mr. McChesney For Governor.

Hon. H. V. McChesney, in entering the contest for Democratic nomination for Governor, does not enter the arena bearing a two-faced shield having inscribed on the one side "Prohibition," and on the other "Liquor," to be flopped as the exigencies of the case may demand. In the opening paragraph of his announcement he leaves no doubt as to where he stands on the main issue. Probably no announcement for office in Ky., for years has awakened the same enthusiasm as the straightforward card issued by Mr. McChesney. Recognized as one of the best speakers in the state, with as clean a record as the most critical could ask, with a well-trained mind, and having been in most intimate association with state affairs by reason of his official connection, he comes before the people of Kentucky asking for the nomination for an office for which he is peculiarly well qualified to fill. Mr. McChesney is a leader in the Young Men's Christian Association work, a devout Christian, and in hearty sympathy with all reforms looking to the betterment of humanity. He is a leader of whom the Democracy and the better element of every political faith may feel proud to follow.

Mr. McChesney belongs to the modern high-class politicians represented by such leaders as Wilson and Bryan. He belongs to the younger generation who have learned that the world "not only do move," but that it is moving on a higher and better plain. The people will hear him gladly and vote for him enthusiastically. Before the canvass is closed, McChesney will be recognized as "the Billy Sunday" of politics in Kentucky.—Cadiz Record.

A bilious, half-sick feeling, loss of energy, and constipated bowels can be relieved with surprising promptness by using HERBINE. The first dose brings improvement, a few doses puts the system in fine, vigorous condition. Price 50 cents. Sold by James H. Orme, Marion, Ky.

A Chautauqua Week Attraction

THE MUSIC MAKERS MALE QUARTET AND THEIR MARIMBA-PHONE.

THE Music Makers Male Quartet, who are to appear here Chautauqua week, aside from their vocal solo and ensemble numbers, will render music on that very unique and peculiar instrument, a marimbaphone. In nearly every city where the Music Makers appear a crowd gathers around the platform at the close of the evening's entertainment to get the boys to explain the workings of the marimbaphone.

In the modern marimbaphone there are powerful resonators connected with the keys. The tones are produced by felt covered hammers. The resonators create the volume, and the soft hammers beautify the quality. The effect might be said to suggest that of a powerful harp.

The members of the Music Makers Quartet are: Charles Bryan Huff, baritone and reader; Lloyd F. Garrett, first tenor; Mark Swingley, basso, and W. H. Head, second tenor.

CURIOUS BITS OF HISTORY

PLENTY OF BEER BUT NO TOBACCO.

By A. W. MACY.

Beer and tobacco are supposed by some people to be on about the same footing, but a certain company in London 200 years ago did not seem to think so. It was the business of this company to look after the welfare of the emigrants who had gone out from the mother country to seek homes in the New World. In 1629 it sent over the good ship Talbot, loaded with provisions, clothing, etc., to the Massachusetts bay colony by the same ship the company sent a long list of instructions in regard to their conduct, telling them what they should and should not do. One of the things they were forbidden to do was to cultivate and use tobacco, "unless it be some small quantity for mere necessity, and for physic for the preservation of their health, and that the same be taken privately by anti-social men and none other."

CURIOUS BITS OF HISTORY

A NAVAL VICTORY WITHOUT BLOODSHED.

By A. W. MACY.

In 1778 Captain Rathburne, commanding a little American vessel with twenty-five men and twelve four-pound guns, swooped down upon the island of New Providence with its nest of Tories and its British garrison. With a quick dash he landed, seized the forts, raised the American flag, released some American prisoners, and captured six British vessels. A privateer of sixteen guns lay at anchor in the port, and a British sloop-of-war hovered outside; but they were too surprised to do anything. The Tories armed themselves and attempted to capture Rathburne and his men, but changed their minds when he threatened to burn the town. He held the place two days. Then he spiked the guns, carried off the arms and ammunition, burned two of the captured ships and sailed away with the other four. Nor lost he a single man.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Where Present Meets Past.

In the Dardanelles the Past shakes hands with the present, face to face; for just around the corner from Kum Kaleh, Homer's river Scamander, under another name, still flows into the Hellespont. Along the breach at its mouth Agamemnon hauled up his "black ships" three thousand years ago. Its waters now, as then, flow from springs on Mount Ida and drain the "windy plains of Troy," but in all these ages they have brought down a lot of classic mud out of the Troad and with it filled up the crescent bay used by Greece's long ago. When landing parties went ashore in March from the French and British ships to take possession of the Sigeum promontory, they hauled up their cutters on the soil of "many towered Hium."—World's Work.

German Transport Torpedoed.

London, June 15.—It was officially announced today that a British submarine torpedoed a large German transport in the sea of Marmora yesterday.

IN MEMORIAM.

It is once again the grim reaper, death, has visited our little town and claimed as its own, the life of our dear friend and neighbor, Mrs. Louisie Cain.

She was born March 28th, 1842, and died May 5th, 1915.

Aunt Rissie—as we all know her—was a good, kind and sweet woman. She professed faith in Christ at the early age of sixteen years, and joined the Baptist church. She was a true Christian and was never happier than when helping others. To know her was to love her.

She was married to Wm. J. Cain in 1870. He preceded her to the grave twenty-nine years ago. To this union was born one son, Charley, who still survives, besides one step-daughter, Mrs. Necie Clark, of Rosiclar, Ill., five grandchildren, Muriel, Reed, Sylvan and Newton Clark and Mrs. Maude Fritts, of Marion, and four great grandchildren, Herbert, Edwin, Kenneth Fritts and Carrolton Clark.

Aunt Rissie was as well and hearty on Wednesday as she ever was in her life, and was found dead in the yard Thursday morning, by a neighbor. She was all alone, her son being in Ridgeway, Ill., where he had been at work, for about four weeks. She had been bothered with heart trouble for several years.

Mrs. Cain was a true loving mother, friend and neighbor; she loved her church, and could always be found there, when well. She was the light of the home dispelling all sadness with her kind words and bright smiles and made all feel welcome who entered the sacred precincts.

She has left dear friends and relatives for a little while only to meet them by and bye in the beautiful beyond. She has closed her eyes on earthly scenes only to open them with enraptured vision amid the splendors of Heaven. Dear children, do not mourn for your sweet beloved mother, you know she has gone to the beautiful home in the great beyond. Her earthly life is ended. The sweet voice you loved so much, is hushed in death. In the light of eternity your departed mother and grandmother, may have learned more in these few days, than in her earthly life. Children rejoice in the confidence that in the great ends which she set before her. She was an obedient follower of the Savior patiently endeavoring to do His will. She has dropped her harp and scepter only to wave the palms of victory and sweep celestial harps with deft fingers awakening the blissful harmonies of heaven.

She will be greatly missed by all. Be comforted dear children, for God knows best her life which scattered so much sunshine, has gone to shine more beautifully on the other side and may it prove a beacon light to land the children and loved ones together on the other shore and from an unbroken family in a land of happiness and perpetual sunshine radiant from the throne of God.

The writer has spent many happy hours in Aunt Rissie's home.

Her remains were laid to rest in the Mt. Zion cemetery. Rev. F. L. McDowell officiating. A great concourse of loved ones, friends and neighbors followed her to her last resting place. There we had to stop, we could go no farther, we had to turn away from the new-made grave with our hearts bursting with grief and our eyes red with weeping, but some day we will see her again, may God's richest blessings rest upon the heart-broken family.

We loved her, yes we loved her, But the angels loved her more, And they sweetly called her, To yonder shining shore. The golden gates were opened, A gentle voice said "come!" And with farewells unspoken, she calmly entered home.

Her Friend,
LILLIAN BENNETT.

Proof of What Rheumatism Does For Rheumatics

Convincing Evidence of The Effectiveness of This Standard Remedy.

Henderson, Ky., Feb. 14th, 1914.

"Having suffered as rheumatism as one could suffer from rheumatism and been almost miraculously cured within a comparatively short time, it is my earnest desire that all rheumatics may benefit by my experience. During the time I was afflicted I got very little, if any, rest at night, and was in such terrible pain at all times that I almost wished for death to relieve me. After eight months of this suffering I obtained two bottles of RHEUMA under guarantee to cure or refund my money, and was permanently cured by its use."—T. D. Brown, Clay street.

Ex-Governor Shallenberger Coming Chautauqua Week

HON. A. C. SHALLENBERGER NOW CONGRESSMAN FROM NEBRASKA.

HON. ASHTON C. SHALLENBERGER, ex-governor of Nebraska and newly elected congressman, whose campaign was in many ways very remarkable, is to lecture here on the third day of the Redpath Chautauqua season. Aside from his prominence in state and national affairs, he is a fluent and entertaining speaker, and his appearance on the program is an event well worth while.

In the 435 congressional elections in 1914 only four Democrats won in districts that were already represented by Republicans. Mr. Shallenberger was one of the four. After continued solicitation by the Democratic leaders of the state he consented to run for congress with the understanding that he would not make any political campaign for the nomination. He had already signed a contract with the Redpath Bureau to fill a season of 1914 Chautauqua dates, and the tour was near at hand.

Mr. Shallenberger was not in his district a day during his campaign nor was any work done for him by any one else. Some others made a complete canvass of the district with speechmaking, posters and literature.

When the election was held Mr. Shallenberger was at Farmington, Mo. While there he received a telegram that he had won the nomination and that he had received more votes than all the other candidates against him twice over. He had defeated his leading competitor by about three to one.

Mr. Shallenberger finished his Chautauqua tour in Missouri about Sept. 1. Returning home, he jumped at once into a whirlwind campaign. He reached every town in his district by automobile and spoke about 150 times in four weeks. Sometimes he spoke four times in one day. He was out in a strong Republican district over a man who had never lost a political battle before. He still has the distinction of being the only Democrat that has been able to carry this district for congress since he represented it before.

Mr. Shallenberger has served in congress from his district before and in 1908 was elected governor of Nebraska, receiving a majority nearly double that of his fellow citizen, William Jennings Bryan. He is the only Democrat ever elected from his district to congress and the second Democrat governor of Nebraska.

A Delightful Picnic.

Mesdames Alma Matlock and Ina Gray, thoughtful of the young people, and making sunshine for them along the cloudy way, chaperoned a party of 17 to Salem's popular park, Fleming Branch. The hay ride was an enjoyable feature. The social side of life was emphasized, the friendly tie was lengthened and strengthened. Old nature smiled her various charms in primal forest, babbling brook, hill-side and dale, flowers and shade.

After drinking our hearts full of these we prepared our evening meal on the coals. Fried chicken, sandwiches, coffee, pickles and cake were served in the "good old fashioned way." How swift the hours passed, beguiled with such delight. The evening shadows called us home with many thanks to our chaperones and sweet recollections of that good time. —Joy.

DEATHS

George A. Heath, son of Forest and Mary Heath, was born Nov. 7th, 1894—aged 20 years, 7 months and three days. He professed faith in Christ in 1905 and joined the Cumberland Presbyterian church in the same meeting. He lived a consecrated christian life—he lived what he professed. He loved the church and the church could always count on George. He was sick for a long time, and bore his afflictions with the greatest of patience—never was heard to murmur or complain, and he surely suffered a hundred deaths when God said to George in the dead hours of the night, whe-

everything was still as death. June 10th, 1915. 'It's enough. Come up higher.'

He leaves father and mother, two sisters and one brother, Mrs. Lillian Olive, Miss Rena and little Forest to mourn his death.

Our whole church believes that God took one from among the very best. Everything was done that could be done. George never wanted for anything. Brother and sister Heath, loving sisters and little brother would have kept him if they could, but God said, "No, I will take George to his Heavenly home, where they do not suffer, where there is no pain." The faithful doctors did their best, but their hands were too short to reach the trouble.

George placed himself under the care of the Princeton Presbytery of the Cumberland Presbyterian church two years ago last April as a candidate for the ministry, but was never permitted to take up his life's aim. To know George was to love him. He had the confidence of all his acquaintances. He was a perfectly polished christian gentleman. The funeral was conducted from the residence by Rev. W. T. Oakley, assisted by Revs. Barbee and Woodruff, in the presence of a large and sympathetic audience. The floral offerings were beautiful. The pall bearers were: Walter and Marion McConnell, Orville Lamb, Roy Cook, Creed A. Taylor and Frank James. Interment in the new cemetery.

Thus ends the career of one of Marion's brightest lights, and we can but feel that our Lord's ministry has lost a strong and faithful emissary. Affectionately,
A Friend.

In the death of Wm. David Johnson, which occurred at 10:30 o'clock Wednesday morning June 9th of a complication of diseases, the county loses a good and honest man. The end came at his home just north of the city on the Fords Ferry road. Mr. Johnson is survived by his second wife who was Miss Mary Susan Daniels to whom he was married Jan. 12, 1888, and by six children. George C., H. Calvin, Marietta, wife of Joe Allen Gass, Willie Ann, wife of Henry Fritz, Ruthie, with whom he made his

home, and Burnie, wife of Charles M. Howerton, of Repton.

The first four named being the children of his first wife, Margaret Ann Ashley, whom he married during the civil war and who died Dec. 7th, 1883. One son Hiram died in infancy. Mr. Johnson was born in Caldwell county, Nov. 9th 1844, and was therefore in his 71st year.

He professed religion in early

life and renewed his vows in later years. The funeral was preached by Rev. J. B. Trotter, pastor of the First Baptist church of this city, and the interment took place at Pilot Knob Thursday at noon in the presence of a large gathering of friends.

Farmers' Notes.

The dairy business in Crittenden county is looking up.

If one hundred men around Marion, Repton and Crayne could be induced to take interest in this very profitable part of farming, the deposits of the two Marion banks would, no doubt, improve in a very gratifying manner.

A number of years ago Mr. John W. Blue was in Mineral Point, Wis., and noted the unusual deposits in the banks there. He remarked about it to Mr. Snow, and asked him if the banks loaned their money to the farmers. "Oh! no," he replied. "The farmers are the depositors. We have to loan our deposits to manufacturers and buy commercial paper."

Mr. Snow continued "at the close of the civil war, our land around here was in the same condition as Crittenden county land. It would not raise anything much, and sold at about the same price.

At the close of the war though, we got the dairy business started and now land is 100, 150 and 200 per acre. Our banks are full of money and nearly all of it belongs to the farmers."

Now, does anyone doubt that the same condition would obtain in Crittenden provided our people would take hold.

On the first day of April, Jas. Alex Hill started with eight cows and six of them were heifers with first calves.

On June 1st, the proceeds for cream alone, exceeded \$100.00 less \$20.00 for extra feed.

In addition he sold two bull calves for \$14.00 and has three heifers worth \$20.00 each.

He fed the skim milk to hogs. He says he expects to make 12 cows bring him \$100 per month for cream alone. A good index of interest manifested in the dairy business, is the number of cream separators sold and in use in Crittenden:—Jas. Alex Hill, Harry Perry, W. W. Rice, C. A. Adams, H. O. Hill, H. S. Hill, Essie Clement, Jessie Minner, Bob Enoch, Tom Griffith and Will Ward.

The Crittenden Record-Press earnestly urges investigation by those situated close to the railroad, and if the investigation proves the dairy business to be the thing for you, go to it.

We all need more money; we all need better land. If the dairy business will bring both, why not try it?

Tobacco 50 Years Old.

Mr. Clem C. Clardy left at the Kentuckian office yesterday a sack of smoking tobacco more than 50 years old. In 1864 and 1865 Dr. J. D. Clardy, father of Mr. Clardy, was a member of the commission firm of Bacon, Clardy & Co., in New York City. A lot of tobacco put up by Chockley & Oliver, of Richmond, Va., was consigned to them for sale. It was put up in 80 pound boxes, the packages weighing about 6 ounces. When the firm retired from business, Dr. Clardy shipped two boxes of the famous smoking tobacco to his home in this county and has kept some of it to the present day. He still has a few sacks and it is as fine in quality and flavor as it was half a century ago.—Kentuckian.

BLACKFORD

(delayed from last week.)

Health fairly good in this part of the world.

Rev. J. Frank Baker, of Sturgis, Ky., filled his regular appointment at the Methodist church at this place Sunday and Sunday night.

Married at the home of the bride's parents, on June 2nd, 1915, Prof. Jacob Farris to Miss Zola White, Rev. J. Frank Baker officiating.

The farmers throughout the country are feeling somewhat discouraged owing to the continuous rain. But such is human nature. There are always some people not satisfied anywhere nor with anything.

Chesley Marion Chandler has moved from Marion to this place and is running a grist-mill on 3rd street.

Jasper R. Head, formerly of this place but now of Eldorado, Ill., has been called back as a witness in court at Dixon.

James A. Oakley, manager of the Blackford Farmers' Union & Supply Co., of this place, has, for reasons best known to himself, showed off his mustache. A committee consisting of Jack Parish, Andrew Tudor and Noble Bean, are diligently considering the case and are striving to find out the direct cause for such a "catastrophe."

Quite a number of Blackforders attended the all-day services at Cave Spring, Crittenden county, on last Sunday.

Richard M. Vaughn and J. Leslie Garrett, who are troubled with rheumatism, are thinking of going to Hot Springs, Ark.

We noticed in the last issue of the Record-Press that Granville P. Crow had slain a rattlesnake 4 1/2 feet in length and possessing seven rattles and one button. Success to the venerable "corn-doctor."

Trusting all readers of the Record-Press are enjoying the balmy days of "good-old-summer-time," and that each one of us may do some good deed to make others happy, we quit until next time.—Picayune.

DANGER IN DELAY

Kidney Diseases Are Too Dangerous For Marion People to Neglect.

The great danger of kidney troubles is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, gravel and Bright's disease often follow in merciless succession. Don't neglect your kidneys. Help the kidneys with Doan's Kidney Pills, which are strongly recommended right here in this locality.

Mrs. W. T. Smith, S. Main street, Madisonville, Ky., says: "I began to suffer from weak kidneys, causing sharp twinges of pain to dart through my loins. I saw Doan's Kidney Pills highly recommended and began using them. One box gave me prompt relief. I highly recommend Doan's Kidney Pills to everyone suffering from kidney complaint."

WHAT CATARRH IS

It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building- tonic, free from alcohol or any harmful drugs. Try it.

You can't make good cream with a dirty cream separator

CREAMERYMEN AND BUYERS all over the country are demanding better cream, and if you sell cream it is to your advantage to deliver the best possible cream.

IF YOU MAKE BUTTER IT is equally important that your cream be first-class. Good butter can't be made from poor cream.

THE ONE FACTOR THAT most largely determines the quality of cream is the sanitation of the cream separator bowl in which it is separated.

THE EASE WITH WHICH the De Laval can be thoroughly washed and kept in a

sanitary condition is one reason why creamerymen prefer cream separated by the De Laval and it is likewise one of the reasons why butter made from De Laval cream has scored highest at the National Dairy Show for over twenty years.

THE CONSTRUCTION OF the De Laval is such that it can be completely taken apart for washing. There are no tubes, crevices, holes or corrugated surfaces such as are found in other machines, and which are very hard to clean.

THE DISCS ARE WASHED AS a single piece, and the whole machine can be thoroughly cleaned in five minutes.

Supplying Ammunition.

The armies of the Triple Entente number approximately ten million men, and the Allies must allow for an expenditure upon a most conservative estimate of at least 50 million rounds of artillery ammunition per month.

It is difficult to estimate accurately the quantities being furnished by America, but rough-

ly speaking at present the total output of our factories is not more than 100,000 artillery rounds per month, or less than one fifth of one percent. of the total expenditure. One eightieth of one percent. by the same accounting, represents the total amount of cartridges shipped from this country per month.—World's Work.

COOPER TELLS WHY TANLAC IS POPULAR

Because The Preparation Contains Real Merit, He Says In Statement.

"If I have been successful with Tanlac," says L. T. Cooper, "it is because the preparation contains real merit.

"Tanlac is the result of many years of arduous study by my principal chemist. In fact, the two of us have carefully watched its development from the beginning of the experimental tests to its present high state of efficiency.

"In cases of catarrhal affections of the mucus membranes, stomach, liver, and kidney complaints, I believe there is nothing so far discovered that will equal the action of Tanlac.

"When I came to Louisville, I stated that the success of the medicine would be as great in this city as elsewhere. I offered Tanlac upon its merits, knowing full well that it would prove satisfactory if properly tested.

"The success the preparation has achieved here in Louisville is ample evidence that my confidence in Tanlac is well placed.

"A large percentage of your best people are now using the preparation, and they are daily testifying to its excellent worth as a medicine of exceptional value in instances of catarrh, stomach, liver, and kidney derangements, nervous debility, and in cases where a superior tonic is required.

"Tis true that the demand for Tanlac has been large, but no larger than I had expected. Louisville is only awakening to an appreciation of the full value of such a preparation. Tanlac's success in your city will be even greater.

Tanlac, the premier preparation, is being introduced in Marion, Ky., by J. H. Orme, and Blackford, Ky., by A. T. Brown.

THE VITAL PROBLEM OF AGRICULTURE

By Peter Radford.

There is no escaping the market problem and the highest development of agriculture will not be attained until it is solved, for a market is as necessary for the producer as land on which to grow his crop.

Governmental and educational institutions have spent \$180,000,000 in the United States during the past ten years for improving soil production and improving seeds and plants, but very little attention and less money has been given to the marketing side of agriculture.

The problem is a monumental one and one which will never be solved until it gets within the grasp of a gigantic organization where master minds can concentrate the combined experience and wisdom of the age upon it. It is a problem which the farmers, merchants, bankers, editors and statesmen must unite in solving.

The Farmers' Union stands for all there is in farming from the most scientific methods of seed selection to the most systematic and profitable plans of marketing, but does not believe in promoting one to the neglect of the other. We consider the work of farm demonstrators valuable and we ask that governmental and commercial agencies seeking to help us, continue to give us their assistance and advice, but we believe that their influence should be extended to the marketing side of our farm problems also.

We cannot hope to develop manufacturing by over-production of the factory; we cannot build up mercantile enterprises by the merchants loading their shelves with surplus goods and no more can we develop agriculture by glutting the market with a surplus of products.

DARIUS

The neigh of a horse made Darius King of Persia, the six contending powers for the throne agreeing among themselves that the one whose horse should neigh first should possess the kingdom. This ancient method of settling disputes among politicians could be revived with profit today. If our partisan factions and petty politicians could only settle their disputes by the neigh of a horse, the bark of a dog or the bray of a donkey, it would be a great blessing and would give our citizens a better opportunity to pursue the vocations of industry free from political strife.

Let those who pick political plums by raising rows and who flash swords dripping in the blood of industry understand that they cannot turn the public forum into a political arena and by a clash of personal aspirations still the hammer and stop the plow and that their quarrels must be settled in the back alleys of civilization.

Two Members of This Company Who Are to Be Here Chautauqua Week Recently Played For the Chicago Advertising Association

THE SAVRANOFFS, RUSSIAN PLAYERS.

ON Wednesday, Jan. 14, Mr. and Mrs. Savranoff, two members of the Savranoffs' Company of Russian Players, who are to appear here Chautauqua week, furnished the music for the Chicago Advertising Association luncheon on the occasion of the appearance of Governor Adolph O. Eberhart of Minnesota. They presented four musical numbers, including Liszt's Hungarian Rhapsody, and were greeted with rounds of applause. The imitation of the chimes on the piano by Mrs. Savranoff was especially appreciated.

The Savranoffs, a trio of Russian players, present a program filled with life and enthusiasm. The program includes piano, violin, cello and vocal solos and ensemble numbers.

This company is composed of the following members: Margaret Savranoff, soprano and pianist; Leo Savranoff, violinist, and Russell Chalmers, cello.

Mr. Savranoff is a graduate of the Imperial Conservatory of Music of St. Petersburg and is rightly described as a wonder on the violin. He delights music loving audiences with his fantastic playing.

Mrs. Savranoff is not only a piano soloist, and accompanist, but also a sweet singer with a mezzo soprano voice. She presents characteristic songs of the Russian people, gives one pianissimo entitled "I Am Glad I Am in the United States," also one selection with cello obligato and by way of diversion one of the well known popular airs.

Russell Chalmers, born in Russia, came to the United States at an early age. His natural love for music soon manifested itself. He has studied the cello under some of the best teachers in this country in developing his remarkable talent.

David W. Bryant, Octogenarian, Goes To His Reward.

"Uncle Davy" Bryant, who has lived in Marion over thirty years, and who was born in Livingston county Oct. 15, 1829, died at the home of his son-in-law, J. W. W. Glore in this city, Wednesday morning, June 16, 1915, at 4:40 o'clock, aged 85 years, 8 months and one day. He had been ill of the diseases incident to old age for several weeks, and was taken worse Tuesday and became unconscious, from which attack he did not rally. He was a member of the Cumberland Presbyterian church. His wife had been dead two years.

He is survived by one son, Lee Bryant, and two daughters, Mrs. J. W. W. Glore, of this city, and Mrs. Joseph Barnes, of Gracely, Kentucky. The remains were laid to rest Wednesday afternoon at the new cemetery, beside those of his wife. Mr. Bryant was a familiar figure on our streets and was an industrious and honest man, the noblest work of God. He crossed the Isthmus of Panama in 1849, enroute to California in search of gold, returning via same route 4 years later, to Livingston county where he resided until he moved to Marion. Peace to his ashes.

Miss Edith Brewer visited home folks Saturday and Sunday.

Miss Ruth James visited Mrs. Bertha Worley Friday.

W. E. Curry made a business trip to Marion Saturday. He was accompanied home by Miss Amy Wathen, who was in attendance at the ice cream supper here Saturday night.

The Ohio river is still declining which is very pleasing to the mussel diggers as well as our river bottom farmers.

The ice cream supper at Ford's Ferry Saturday night was well attended. The cake for the prettiest girl present, sold for \$12.20 and was awarded to Miss Mae McDowell, of Cave-in-Rock, Ill. Some excellent music was furnished by Brewer Bros., string band, and everyone seemed to enjoy the occasion. The net proceeds of the supper was \$20.65 and goes to Ford's Ferry Sunday school. Hurrah for Ford's Ferry. With the help of the lord we will come to the front in spite of Satan and all of his workers.—Sunshine.

ADDITIONAL LOCALS.

J. P. W. Brouse, of Pulaski county whose home is at Somerset Ky., was here last week in the interest of Prof. R. S. Eubank candidate for Superintendent of Public Instruction. Mr. Brouse is a gentleman of pleasant address and says the state is going almost solidly for Eubank for State School Superintendent.

Councilman W. H. Copher, former Senator W. J. Deboe, Dr. R. L. Moore, Deputy Sheriff V. O. Chandler, Jailer W. E. Belt, C. Eugene Clark, of Tolu, and others who attended the Republican State Convention at Lexington, Ky., returned home Wednesday morning.

The Chautauqua opening Wednesday morning was quite propitious; the weather was ideal; the crowd good, and the excellent program carried out advertised. The superintendent, Mr. Glenn H. Thomas, and his assistant, Mr. Harrington, are all that could be expected of them and better selections for the posts could not have been made. We bespeak a delightful feast for those who are inclined to music, art and a lecture.
