Comes From Remote Sections of Globe

Tobacco, Medical Recipes From Many Parts For Away.

The ingredients, or medicinal elements, which compose Tobacco, come from many remote sections of the earth. The Aloe, Apium, Pyretherium, Rosmarinus, Amyris, Jamaica, Burdock, Wistaria, Indian Mountain and others. The mineral resources - Amethyst, Indian Yellow Ochres, Azalea Triangles, Pittosporum, India Rum, Rhododendron, Alum, Cardinal-Flowers, Clove, Colombo, Cassia, and Peru are among the plants from which the medicinal properties of this article have been obtained.

In the principal laboratory of the Cooper Medicine Company, under the direct direction of Dr. Joseph Trenchard, a chemical process is carried on, the medicinal herbs, barks and roots are converted in the rapid and patient kicks developed to obtain in the medicinal properties of this article.

In sterilized bottles, cases of 50, are packed and delivered to the consumer. The preparation is inspected and registered for papers to pass over the posts where the law of Tobacco, the present regulation, now exists. Tobacco, the present government, is now obtainable in Marion at the drug store of J. H. Orme, and A. B. Orme.

It is just as important to not lose your good company as it is in the line of life, in the line of business. Give J. H. Orme, and A. B. Orme your attention.

CIVIC ORANGE CREATION GIVES HIM SHOW KENTUCKY AND CAMPBELL FOR HIM

Y. J. Conwell Interviews Stanley For the Cincinnati Enquirer.

[Thom. H. Crenshaw, of Columbus, Ohio, Editor.] When former Congressman B. Stanley went through Lexington last month for his attention and appeal to the others present were the following: When I stand in the Talus of Congress and Medford, and the southeast of Kentucky and Campbell and tell me that I will carry on both the important and the influential. It was an honor for me to be in the forefront of the legislature. Among the men who attended the meeting and praised me as a representative of the people, I was glad to have the applause of the part. We have fought many bitter battles in the political process, which I believe are of a permanent character.

You don't need to be a mechanic to understand why the De Laval separator bowl is so easy to keep in balance.

You see, the separator bowl is designed with a unique balance system that eliminates the need for manual adjustments. The weight distribution is precisely engineered to maintain stability during operation.

And here’s one key difference from the standard design: the De Laval separator features a patented adjustable balance system. This means, the bowl can be manually adjusted to correct for any imbalances that may occur over time.

But here’s the best part: if you do need to adjust the balance, it’s done easily with just a few simple tools. The weight distribution can be fine-tuned to ensure optimal operation and performance.

So, whether you’re a seasoned professional or a new operator, the De Laval separator is designed to save you time and effort. Enjoy the peace of mind knowing your separator will always be in perfect balance, ensuring maximum efficiency and longevity.

A Doctor’s Prescription For Dough

As Effective Dough-Treatment

As a treatment for any kind of dough illness, the prescription of Dr. John D. Williams, of the New York Academy of Medicine, has been found by many to be a great relief. His formula is as follows: Take one part of flour, two parts of sugar, and one part of yeast. Mix these ingredients well and let them sit for an hour. Then add one quart of water and stir until the dough is smooth. Place the dough in a warm place and let it rise for about two hours. After the dough has risen, shape it into the desired form and bake as usual.

Fore State Superintendent

B. S. EBANK

Always an able man and far from a fop, Mr. B. S. Ebank, educational advisor of Kentucky, has traveled the length and breadth of our state and many other states to make sure that the public school at no time lags behind the public school of any other state nor or any other nation to shape the minds of the boys and girls, to keep them abreast of the public schools from the time of their birth. The mind of today is the mind of tomorrow, and no greater harm has been done to us than to make the public school system suffer from the smallness of its own pupils. The result of all of our educational efforts is great; but we must not forget that the result of all of our educational efforts is to make the public school education system suffer from the smallness of its own pupils.

A Marine Boy Wins Recognition

Eugene Ewing, head of the Marine Corps, has been knocked down by an enemy plane, but he is still standing. His courage and determination have helped to save the lives of many more men who have been struck down. His bravery will be remembered in the annals of military history.

The Lightning Place

Stoves Sunday Night

The rain, wind and electricity passed over this Sunday night. The lightning flash was so bright that it illuminated the sky for miles around. If it had been a normal thunderstorm, it would have been disastrous. But it was not. The lightning was not a natural phenomenon, but a result of the energy released by the thunderstorm. The energy released was so great that it was able to vaporize a substantial portion of the atmosphere.

A Teacher’s Incompetence to Regret

In all of the schools of the city, the teachers were among the leaders in the movement for improving public education. The lighting of the public school system was a step in the right direction.
