GREAT NICA MINE DISCOVERED

Near Birmingham, Ala., Sold For A Fraction Of The Undied Thousand Dollars.

"Florida capitalists, associated with Birmingham capital, have formed the new mine of W. L. Stiles and C. L. Baker, of Yare, at a cost of $900,000. J. A. Davis of Jacksonville, and E. T. Childers, of Atlanta, are the partners, associated with local people. The valuable minerals are considered among the richest in the South and have to be operated for two years. The production has been of a high grade, and the new owners state they intend to develop the properties as much as possible."

The above clipping is from the "Birmingham News" of Florida, July 14th, 1915, and is but a foretaste of a much larger sale probably reaching up millions in value which J. M. Percifull and Harry Watkins may make soon. They own a mine with a view six feet thick and long enough to be estimated to be worth several million dollars. The mine is down in the window at the Press building are much admired. Several Boston capitalists have bought stock in the mine.

Green Warm Reception

To the Editor:

I was the remark of the Hon. Claude R. Terrell last evening when asked on his return from Greensboro how he found the prospects for success for State Treasurer. "I was given a warm reception by the citizens of Greensboro, as elsewhere, I was overwhelmed with pledges of support in my race. The people have been more than usual and will continue to make efforts to work in their behalf. This was one of the first things that occurred to me when the good folks came to the front. Whatever is a good thing that would be for the people of my State especially was one who were not cut off from direct communications with the world by lack of intercommunication highways. Trade was at a standstill with them, no social life, no business, no educational advantages for the youth, few opportunities for their church services, in a word, every one of our best people were isolated because the State had no perfect system of highways. I have always been favorite advocate of good roads since that time and believe that every true citizen of Kentucky should do all he can to redeem the work brought about by bad roads."

He Terrell has certainly done more than his share in this big work, and has gained the people's assistance in an intercommunication highways from town to town on to city to city. He is highly regarded the sponsor of the movement. The criticism often on the part with his magnetic oratorical ability, a Democrat and party worker, citizen and church man. People once his influence on his race and there can be no doubt that he will be nominated from the great mass people of the Commonwealth.
