## MARION PARENTS-TEACHERS MEETING

First Regular Meeting Held in the School Auditorium On Friday Evening, Well Attended.

The first regular meeting of the Marion Parent-Teachers Association held in the School Auditorium, Friday evening, was attended by eighty or more live, wide-awake parents and other school people. A good, practical program on the subject of Home Study had been arranged, and every speaker who had been assigned a topic, was present, willing and anxious to do his part in making the work a success. The first part of the program was given by pupils of the school and consisted of the following pleasing features of entertainment:

Piano Solo, Miss Roberta Moore  
Reading, Miss Dovie Carter.  
Vocal Quartet, Misses Hardy, Miller, Stembridge and Mr. Rupert Belt.

Story, "The Mustard Plaster," Miss Ethel Hard.

Piano Solo, Miss Virginia Guess.

At the conclusion of the entertainment part of the program, Judge John W. Blue, who is president of the Association, called the meeting to order, and in his own pleasing manner explained the purpose of the Parent-Teachers Association and mentioned some of the advantages to be derived from it. Below are given some extracts from Judge Blue's speech, together with extracts from other speeches of the evening.

"Every where you go, say a good word for your school."—Judge Blue.

"Remember that it is not a fine school building, a great pile of text books, nor a long printed course of study, but the way that each day's lessons are learned and the way that learning is

## REPRESENTATIVE EDWARD D. STONE

Ex-Superintendent of Public Printing, Lewis, Gives Him A Good Boost.

Representative Stone showed by his works in the last legislature that he was a servant of the people, representing no special interests but stood like a stone wall for the mass of his constituents.

It has been stated by a number of voters of both parties that his record as a servant of the people in the last legislature surpasses that of any former Representative ever sent from this district. The election of this brilliant, active young man means protection to the farmer and laborer, equal protection to all.

The people will not vote for a man who has no platform (even Stanley says they should not). Mr. Stone's opponent has no platform, nor has he promised the people what he will or will not do, but agrees to protect individuals.

Mr Stone is making an honest race on his own merits. The voters are asking him to make the fight as he did before, for the poor people.

Mr. Stone can truly wear the phrase of a self-made boy living a true christian life.

After completing his common school education and devoting himself to diligent study for higher learning he was enrolled as a student in the Cumberland University in 1909, taking the required course for an alumni of the said University. Two years later he received the degree, Bachelor of Law, graduating third in his class. While in this school he ranked as one of the leaders in debating and producing good reasons and sound

### IS YOUR STOMACH WRONG?

Sooner or later you will be wrong in every organ of your body. It is a well-known fact that over ninety-five per cent. of all sickness is caused by ailments of the digestive organs. ## A Message To Women

### Those of Middle Age Especially.

When you have found no remedy for the horrors that oppress you during change of life, when through the long hours of the day it seems as though your back would break, when your head aches constantly, you are nervous, depressed and suffer from those dreadful bearing down pains, don't forget that Lydia E. Pinkham's Vegetable Compound is the safest and surest remedy, and has carried hundreds of women safely through this critical period.

Read what these three women say:

### From Mrs. Hornung, Buffalo, N. Y.

BUFFALO, N. Y.—"I am writing to let you know how much your medicine has done for me. I failed terribly during the last winter and summer and every one remarked about my appearance. I suffered from a female trouble and always had pains in my back, no appetite and at times was very weak.

"I was visiting at a friend's house one day and she thought I needed Lydia E. Pinkham's Vegetable Compound. I took it and have gained eight pounds, have a good appetite and am feeling better every day. Everybody is asking me what I am doing and I recommend Lydia E. Pinkham's Vegetable Compound. You may publish this letter if you wish and I hope others who have the same complaint will see it and get health from your medicine as I did."—Mrs. A. HORNUNG, 91 Stanton St., Buffalo, N. Y.

### Made Me Well and Strong.

MACEDON, N. Y.—"I was all run down and very thin in flesh, nervous, no appetite, could not sleep and was weak, and felt badly all the time. The doctors said I had poor blood and what I had was turning to water. I took different medicines which did not help me, but Lydia E. Pinkham's Vegetable Compound made me well and strong, and I am recommending it to my friends."—Mrs. FRED CHACE, R. No. 2, Macedon, N. Y.

### The Change of Life.

BELTSVILLE, Md.—"By the use of Lydia E. Pinkham's Vegetable Compound I have successfully passed through a most trying time, the Change of Life. I suffered with a weakness, and had to stay in bed three days at a time. Lydia E. Pinkham's Vegetable Compound restored me to perfect health, and I am praising it for the benefit of other women who suffer as I did."—Mrs. W. S. DUVALL, Route No. 1, Beltsville, Md.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

**CREAMERYMEN AND BUYERS** all over the country are demanding better cream, and if you sell cream it is to your advantage to deliver the best possible cream.

### Oak Hall School Goes On Hike.

Last Friday afternoon, after a week's hard work, our teacher consented to take us grape hunting. We marched four abreast to a neighboring woods where there was reported to be lots of grapes. We arrived there about 2:30 o'clock. Some of the boys climbed the tree and proceeded to throw down some o'possum grapes to the clamouring crowd. We all got enough to 'black' our teeth and then went to another tree, which was an oak tree, and of course there were lots of acorns. The girls began to throw kisses at the boys which caused an acorn battle which lasted some minutes. We found to cap off the jubilant manner of the children, a merry-go-round which caused lots of fun and laughter. We then returned to the school house Indian file and all reported a nice time. All escaped unharmed except for a few bruises from the acorns. The teacher got the worst end of the acorn battle.

Although we all returned unhurt we didn't look it for some time. One happened upon some pokeberries and such smearing of juice on faces no one even saw before.

Lafey Claghorn certainly was a sight. He kept picking on all the girls and they got their hands full of pokeberries, and after Miss Eulah had dismissed they caught him, and well if you could have seen him you'd believe they certainly did smear him.

We all had a nice time and intend to be good so we can go again. A pupil.

### CONSTANTINE HOLDS THE CRISIS IN PALM

Forecast of Kaiser's Ambitions for Extension Toward India and Asia in Disentanglements.

London, Oct. 27.—Even the greatest battles of the war may prove to have had less weight in deciding the future of Europe than the events of the past few days in the Southeast in Kingdome.

King Constantine, of Greece, brother-in-law of the German Emperor, appears to hold the balance of the Near East in his hand for the hour. In the second crisis, where Greece seemed on the brink of entering the war by the side of the Entente Powers, he has virtually dismantled the foremost Greek statesman, Eleutherios Venizelos, from the Premiership, and has asserted personal control of the Government.

King Ferdinand, of Bulgaria, has rejected Russia's ultimatum demanding that she break with the Central Powers and expel German officers who have taken charge of Bulgaria's Army Staff, and, at the same time, according to several correspondents, has sent an ultimatum to Serbia, allowing a time limit of twenty-four hours for the cession of Ma-

cedonia to Bulgaria.

The programme of the Germanic Empires apparently includes the consolidation of their field operations with their Turkish allies by sweeping clear a channel from Berlin and Vienna to Constantinople. For the accomplishment of this programme they have already secured the co-operation of Bulgaria. They need the neutrality of Greece and Rumania, and then must crush Serbia.

Today's developments tend to confirm the statements of the German press that the German Emperor has guaranteed to Bulgaria both Greek and Rumanian neutrality. Thus the crucial field of warfare has shifted from the French and Russian fronts to the Balkan peninsula, where German

success would mean the realization of Emperor William's ambitions for expansion toward India and Asia.

The people of the Entente Nations fully appreciate the momentousness of the crisis. The British newspapers impress upon the public that if the German Emperor has secured the friendly neutrality of the King of Greece, enormous military efforts will be needed to check the combined German and Austrian advance towards a junction with the Turks and Bulgars.

The French and British expedition may have completed the landing at Saloniki, but if Greek support against Bulgaria cannot be counted upon heavy reinforcements will be needed.

### McChesney a staunch Supporter of Stanley.

Shelbyville, Ky., Oct. 26.—  
The Hon. H. V. McChesney,  
who was the controlling candid-  
ate for the Democratic nomina-  
tion for Governor, made a rous-  
ing speech at the courthouse  
here, in which he heartily in-  
dorsed the whole Democratic  
ticket from top to bottom, and  
warmly commended the platform  
unanimously adopted by a united  
party in the most harmonious  
convention ever held in the State.  
Mr. McChesney said that his  
personal attitude on the issues  
of the primary had not changed,  
but that the party had spoken  
in unmistakable terms, and that  
those issues had no place in the  
present campaign. He reviewed  
the achievements of the Na-  
tional Administration, which he  
pronounced the greatest in fifty  
years, and declared that the  
passage of the Federal Reserve  
Act, which makes another 'Bank-  
ers' Panic' forever impossible,  
entitled the party to the confi-  
dence and indorsement of the  
nation, if it had enacted no other  
legislation.

Mr. McChesney was especially  
happy in his comparison of the  
State Democratic and Republican  
platforms and present and past

## MRS. CARRI- THERS FELT DISCOURAGED

Glad She Took Advice When  
Husband Said, "Let's Get a  
Bottle of Tanlac."

Louisville, Ky., Oct. 27.—  
Statement after statement is now  
being made in regard to the  
merits of Tanlac, the new med-  
icine that is accomplishing such  
astonishing results in Louisville.  
Mrs. Sallie Carrithers, residing  
at 3846 Grand Boulevard, city,  
wife of a well-known car builder  
at the L. & N. Shops, said re-  
cently:

"My husband just simply  
forced me to take this Tanlac,  
but now I am glad that I took  
the medicine, as I am one of the  
happiest women in Louisville.

"I had always suffered from  
catarrh of the stomach, but my  
real trouble began when I ate  
something and had ptomaine  
poison as a result of it. My  
stomach was in such a bad sensi-  
tive condition that I could not  
eat anything.

"My husband said to me one  
day, 'Why don't you try this  
Tanalac?' I had tried so many  
things that I felt discouraged  
and told him that I believed  
nothing would help me.

"He took me for a walk one  
evening recently, and when pass-  
ing the Taylor-Isaacs Drug Store  
he said, 'Let's go in and get a  
bottle of Tanlac.' He had my  
arm and we went into the store  
together and bought a bottle of  
Tanalac.

"I waited until morning be-  
fore I began taking the medi-  
cine. I took a dose before  
breakfast, one at noon, and a  
third at supper. That night I  
slept more soundly than I had in  
months. I now have taken two  
bottles of Tanlac and feel like I  
am cured. I am here to get  
another bottle, though, as my  
husband insists that I should do  
so.

"I simply cannot get enough  
to eat now. I never had such an  
appetite in my life. I enjoy  
everything I taste and I digest  
everything properly. My stom-  
ach is in an excellent condition  
and the catarrhal trouble has dis-  
appeared. My hearing has even  
improved. Tanlac is really a  
very wonderful medicine."

Tanalac, the premier prepara-  
tion, is sold exclusively in Marion  
at Jas. H. Orme's drugstore, and  
in Blackford at A. T. Brown's  
drugstore. Adv.

### The "Wonder Car"

#### Demountable Rims

The 1916 Maxwell is equipped with demountable rims, and has the same size tire on all four wheels. Two vitally important features.

To replace a tire on the road it is only necessary to loosen five bolts; slip off the flat tire; slip on spare rim and tire; tighten three bolts, and proceed.

We are waiting to take you for a test ride in the car that has broken all low "First-Cost" records, and is breaking all low "After-Cost" records.

(Delayed from last week.)  
In Hebron we all whisper, "Ich Leibe Du," to the farm.

We love its liberty, its wealth, its conditions and environments. We are never worried by "a dress like this," or "a dress like that," the common slogan of small towns. Laughter is on our lips, and love gladdens our hearts and fills them with emotions which no tongue can express. To us every grove is a paradise on earth, and every grapevine swing is a sylvan chariot.

We "appreciate" every thing that affords us laughter and an inkling of news.

October 12th, the scheduled date for our Farmers' Club Meeting, brought together a very good crowd of Rustics all brim full of expectation. Mr. Bird opened the meeting by giving a short, but helpful lecture on the subject, "Seed Corn."

Mr. Bird then introduced the two Democratic candidates who were present, G. N. McGrew, candidate for State Representative; and Judge Gibson, candidate for Circuit Judge. McGrew's speech was short, but to the point and "Brevity is the soul of wit." Judge Gibson's speech was more lengthy and eloquent. He paid a tribute to all Democratic candidates and a closing blessing to all Republican candidates. He spoke well of President Wilson, the God chosen pilot of the "Peace Policy."

All candidates have my sincere commiseration and tender sympathy.

Thorns are hid among the flowers, Along the path they tread.

Thorns are in the passing hours, And thorny is their bed.

Who can but shout, with deep feeling "Vive a candidate!" Because he is "the man" or else a great big "Pool," for it takes one of these to stand the criticism. The newspapers skin them from head to foot, and the little whisper-snapper politicians make carrion of their good name.

The first program of the newly organized Literary and Debating Society was carried out successful last Friday night, old and young were present with a smile of appreciation and a blessing of God's speed.

The next regular meeting will be held Friday night Oct. 23rd. Every body is welcome.

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

## What's The Use?

It is little use for the local editor to waste his lungs and sprain his spine in trying to boom a town when the citizens indifferently wait for something to turn up, and look with suspicion on every suggestion of enterprise. If the town council and business men do not put their shoulders to the wheel and do a little boosting, and start their brains to work for the upbuilding of the town, it is useless for the editor to try to pull the town out of the rut. He can write "boom" articles till he gets bald-headed, but if the citizens themselves do not take hold and push, the town will forever stick in the mud. Of what use is it for this paper to suggest improvements and new enterprises if the suggestions are never acted upon? One man cannot boom a town. It requires the concerted action of the citizens. Unity in action is what counts. Why did we not get the large spoke and handle factory? Why did we not get the large ore separating plant? Why did we not get the overall factory? Why did we not get the glass factory? Why do we not have water-works? Oh, what's the use? If we need a bath, we can go to Crooked Creek, and we don't need a clean town, no how.

logic Like McKinley in his boyhood days, he believes in reasoning and searching for the truth. In May 1913 he was granted license to practice law in the courts of this commonwealth. His learning and power of thinking and of speech is hard to surpass. signed Ira C. Hughes,

R. F. D. No. 4, Marion, Ky. The record shows that House Bill No. 35 came into the hands of the Superintendent Jan. 14th, 1914, and was sent to the printer the same day. It was returned from the printer January 17th and delivered to the Clerk January 19th. The enacting clause was in the original bill when it went out and was in when returned. The original bill as drawn by Mr. Stone was in good shape, well worded, short and to the point—the whole bill, exclusive of the title, making but one page of print. When it went to the Committee on Railroads it was recognized as too good a thing for a Republican to receive the credit of getting through so the Committee took charge of it and when they reported it and the House finally passed it, the bill altered, amended and had grown to three pages. It was reported to the Senate, delivered to the Superintendent on the 16th of February, sent out to be printed, returned Feb. 19th—the enacting clause still being present—and delivered to the Clerk of

the Senate. From that time it was in the hands of the Democratic Clerks and Enrolling Clerks of the Senate and House. The Superintendent of Printing never saw it, never had charge of it or was in any manner, shape or form responsible for it. Nor was Mr. Stone, for by the time the Senate got the bill was so changed he could not recognize it and had nothing to do with it, and neither he nor the Superintendent could have had anything to do with its mutilation, as slanderously insinuated by Mr. Stanley.

Since Mr. Stanley boasts of his achievements as an investigator of the hated corporations and lobbyists, his skill in letting the light of day shine in upon their devious ways, he might find it profitable to turn his eagle gaze upon this matter and discover what influence, if any, the aforesaid corporations and lobbyists brought to bear to cause the enacting clause of the Railroad Fare Bill to be "forgotten," and what was the expense thereof.

Here is a touch of the "Invisible Government" he proposes to wipe off the face of earth. Let him go to it, at once and with speed. GEO. A. LEWIS,

applied in the life of the child that makes an education." From Mrs. Geo. P. Robert's speech on "The Parents Part in Home Study."

Mr. Christian emphasized home study, (1) for the sake of the home, (2) for the sake of the school and (3) for the sake of the pupil.

Mrs. F. W. Nunn, Mrs. Chandler and Mrs. Gugenheim gave splendid talks on methods of home study, the parents part and some advantages of a Parent-Teachers Association.

On the subject, "Who Shall Do Home Study?" Miss Margaret Moore laid special emphasis on home study in the upper grades and stressed the importance of having some good reference work in the home for the child's use.

"We'll help to make the County School Fair, here Saturday, the best day that Marion and Crittenden county ever had."—Miss Margaret Moore.

Judge Blue appointed the following as members of the program committee of the Parent-Teachers Association: C. S. Nunn, W. B. Yandell, Miss Minor, R. F. Haynes, Mrs. Maude Taylor, Trice Bennett, J. C. Bourland, Miss Margaret Moore, Geo. M. Crider, Walter McConnell, John A. Moore, Dr. R. L. Moore and V. L. Christian.

"The school is the greatest thing in Marion. It is to the interest of every church in Marion, it is to the interest of every business man in Marion, it is to the interest of every citizen of Marion to encourage and actively support the Marion Graded and High School."—Judge Blue.

Announcement of the next meeting will be made later.

## MRS. DEAN'S LETTER

(Continued from page 1)

Sister and I visited Long Beach, which is one of the most noted beaches on the Pacific coast, and from there to Catalina island, where we saw fish as large as a man, and a sea lion which was 80 years old, but the most beautiful sight—according to my idea—was the submarine gardens viewed from a glass bottom boat. Imagine looking down through the deep bluish green water onto a lovely forest, some trees 150 feet high, flowers bright purple, blue and red, but the predominating color being different shades of brown and green and all sparkling as if covered with diamonds; while fishes of all colors and sizes are swimming around. A noted diver went down in 30 ft of water and brought up shells from the bottom and also fed a fish from

his hand.

Next we attended the exposition at San Diego. My niece, Mrs. Bealmy, and Mrs. Dobson, my neighbor, accompanied me to San Diego. It is a beautiful city and there are some lovely buildings and exhibits at the fair. I believe the buildings are more beautiful than at San Francisco, as they are to be permanent. There were quite a number of points of interest, as well as the fair; Old Mexico, Theosophical school, wireless station, aviation school, Point Lomar and the big light house with a \$25,000.00 lens and f g horns which may be heard twenty miles.

We stopped off at Mr. Thurman's for a day and night and then assumed our journey, although it was hard for me to leave Mr. Thurman sister Myrtle and family, as well as to enjoy their good company. I would have liked to have stayed and helped them to enjoy their nice comfortable home, which the contractor had just completed which has all the modern conveniences including sunparlor, electric lights, water, etc.

We went up the valley to San Francisco in order that Mrs. Dobson could see her sister again, Mrs. Henry Dodge and family, of Lindsey, where she had spent the summer. We spent a pleasant day and night, going on accompanied by Mr. and Mrs. Dodge's two daughters and son-in-law, Mr. and Mrs. Hugh E. Martin and Mrs. Clyde Wolfe, all of which were former Kentuckians.

We spent on Wednesday evening until the following Tuesday evening at San Francisco exposition, would have visited it for a year and seen something new every day; it was on such a grand scale.

We boarded the battle ships, Oregon and Dakota, which were very interesting to me as I had never been aboard one. We saw four of U. S. best equipped and largest submarines pass out the golden gate, on their trial trip to Honolulu.

I could not say I felt very proud of old Kentucky as I never saw or heard of any exhibit only one large lump of coal.

We left San Francisco for Kentucky on the evening of Oct. 5th, crossing the Sacramento river on the largest ferry boat in the world; saw quite a number of snow-capped mountains; coming by Ogden; crossing the great Salt Lake, reaching Omaha on the evening of the 8th, where we heard the noted evangelist, Billy Sunday, who delivered one of his great sermons. The city was also in its gala attire, as the Ak-Savben carnival was in session. We reached Chicago on the morning of the 10th, took in Lincoln park, reaching old Kentucky on the morning of the 11th. We were glad to see the hills and hollows and familiar farms and faces of our old Kentucky home. Although while in California we met quite a few Kentuckians at Panama. The Rev. Jackson Milligan and wife, who was Miss Willie Love, of the Hebron vicinity, came to visit me and from appearances they have certainly prospered both physically and financially and sent best wishes to Kentucky friends.

I will long remember my pleasant visit.—GEORGIA DEAN.

## DOUBLY PROVEN

MARION CAN NO LONGER DOUBT THE EVIDENCE.

This Marion citizen testified long ago told of quick relief—of undoubted benefit.

The facts are now confirmed. Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit. J. E. Glass, farmer, Marion, Ky. says: "I was subject to backache of the worst kind for years, in fact, the pain caused many sleepless nights. I took a number of medicines, including the doctors; without the slightest benefit. I finally got a box of Doan's Kidney Pills at Haynes & Taylor's drug store, and they gave me instant relief. In less than a week the pains in my back had vanished."

OVER FOUR YEARS LATER Mr. Glass said: "I can still recommend Doan's Kidney Pills to kidney sufferers. The relief they gave me has been permanent."

Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Glass had. Foster-Milburn Co., Props., Buffalo, N. Y. 102128

## I. O. O. F. HOLD THIS YEAR'S BIG MEETING IN DAWSON SPRINGS, KY.

Big Speeches Made by All the Important Officers and Visitors.—General Business Transacted by the Lodge and New Officers Elected.—Gates of City Thrown Open to All.

### OFFICERS ELECTED.

Virgil P. Smith, Somerset, Ky., Grand Master.  
W. V. Gregory, Mayfield, Deputy Grand.  
Beckham Overstreet, Louisville, Grand Warden.  
R. G. Elliott, Lexington, Grand Secretary.  
B. J. Durham, Grand Treasurer.  
W. S. Simpson, Grand Representative.  
Directors Orphans Home, old Board re-elected.  
Fri. afternoon the grand lodge selected a meeting place for 1916. The indications were that Lexington would be the place. The orphans home is in Lexington, and for that reason many of the members want the next meeting there so that members of the order who have never seen the home could see just what a great work is going on. Louisville however, being more accessible, was selected.  
The new Grand Master named the appointive officers. The meeting adjourned Friday afternoon. That night the boys band and the girls orchestra gave the same concert given on Tuesday night.  
Tuesday night a great crowd witnessed the concert of the children of the home. The Auditorium was packed and almost as many as were in the building were turned away.  
The Concert pleased the audience and the houses were crowded again Friday night.  
John Rainey, age 16, who was the speaker of the evening was loudly applauded. His story of what the home had done for him and others was well told. The lad delivered his address in a manner that might be envied by persons much older.

### BOYS AND GIRLS.

The concert given by the boys and girls orchestra of the I. O. O. F. home at Lexington was greatly enjoyed by the large audience. This was the crowning feature of the meeting.  
The boys and girls attracted a great deal of interest with both the home folks and the visitors.  
Tuesday afternoon automobiles were provided and the children given a joy ride. The cliffs were visited and many other places of interest in and around the city.  
The band and orchestra arrived in the city Monday afternoon and played just before the moving picture show started at the Auditorium.

### YOU ARE WELCOME.

Tuesday morning was taken up with addresses by different ones. The addresses were attentively listened to and enjoyed by the audience.  
Dr. L. E. Nichols, of the city, delivered a strong welcome address. When he finished there was not a delegate that did not feel that he was indeed welcome to this place.  
Dr. Nichols after speaking of the good of the order of Odd Fellows as done for suffering humanity, spoke as follows:  
"For such an order it is my proud privilege to represent, and in its name I welcome you to the most beautiful city in Western

Kentucky, the only city which the Almighty God in his infinite wisdom has blessed with the fountain of health.

"In behalf of her citizens and in behalf of Dawson Lodge No. 110, I. O. O. F., I welcome you to our hospitality.

"You know it has always been the custom to hang the latch-string on the outside and tell you to pull it, but this time you don't need to burden yourself with pulling the latch-string, for the old door is off the hinges, and you have only to walk in and help yourself. You do not even need say 'please sir' or 'thank you man,' but simply make yourself at home.

"Dawson Springs has opened wide her gates, and her brothers and sisters, the portals of their homes, that you may come in and drink freely of her health giving waters, and break bread with hospitable citizenship.

"Then, where my friends in all this broad commonwealth could be a more appropriate place for this gathering, there where we now clasp hands and exchange fraternal greetings? What is there wanting for your own personal comfort or happiness? What accessories of situation, what more agreeable surroundings, or more beautiful scenery? Where could the Grand Lodge of the Brotherhood of the Independent Order of Odd Fellows be more pleasantly convened than one of garden spots."

### OTHER SPEAKERS.

The invocation was made by Rev. W. B. Wright, pastor of the Christian church.

After the welcome address by Dr. Nichols, Jr., Elliott Baker, of Princeton, in a splendid address responded and assured the Dawson Springs folks that the I. O. O. F. folks were glad to meet here. Mr. Baker in his usual forcible way gave a short history of the order and what it has accomplished.

Beckham Overstreet, of Louisville, with that smile that never wears off, in behalf of the order welcomed the delegates. His address was listened to with interest.

Judge W. V. Gregory, of Mayfield, one of the best known men of Western Kentucky, who has a host of friends in this place, in his usual happy way responded in behalf of the local lodges. Judge Gregory's address showed that he was well acquainted with the great order, as he told of the many widows and orphans that have been taken care of by the order in the past.

Virgil P. Smith, of Somerset, member of many years standing, in an address that was interesting and beautifully delivered, responded to the welcome address in behalf of the grand lodge.

After the addresses Rev. Willis Smith, pastor of the Presbyterian church, delivered the benediction.

### LARGE CROWD.

### LEFT BEHIND.

By WALT MASON.

"When the rich man dies we are prone to think on the folly of human greed; he toiled and worried to get more than a mortal could ever need. For years and years he had no repose, no rest from the beastly grind; and now when down to the tomb he goes he leaves all his junk behind. He leaves all his bonds and he leaves all his stocks, and the deeds that he prized so high; and he leaves his gems and his shining rocks—all junk when the rich man die! Of no use then to the plutocrat are the markets weak or strong? For a suit of clothes and a white cravat are all that he takes along. Like Lazarus, to the open ditch he goes, with his wreath of flowers, then he's mourned by the idle rich for seven and twenty hours, not long shall the teardrops flow, or deeds be kept in mind, for the plutocrat, when at last they go, leave all of such things behind. Few earnest mourners shall weep above the graves that the rich men hold; they never wanted such stuff as love—their efforts were all for gold; they had no faith in such things as hearts, no knowledge of human souls; they spent themselves in the busy marts, increasing their bulging rolls. They bear no wealth to the golden isle where the angels sing their song, for a white cravat and a wintry smile are all that they take along."

### Uses Coffin in Pulpit

#### For Sermon on "Death."

East Newport, L. I., Oct. 26.—From the narrow confines of a new coffin, standing upright like a sentry box in the pulpit of his church, to illustrate his point, Rev. Dr. Herbert C. Carter, pastor of the East Northport Methodist Episcopal Church, preached an interesting sermon on "Death," which, because of the advertising it had been given, completely filled the church and turned an overflow of hearers into the street outside.

Dr. Carter, in explaining his use of the coffin at the service in the opening statement of his sermon, said:

"Christ delivered a glorious sermon at the tomb of Lazarus. John Wesley preached from his father's tombstone. I preach from a coffin."

Last week Dr. Carter chose for the subject of his preaching, "The Devil in a Woman."

# HAMLETT'S REPLY TO E. P. MORROW

## Hopkins County Voters Hear Every Charge Explained

### EDUCATION ADVANCED

Kentucky Climbs from Forty-third to  
Near the Top Within Three Years  
Under Hamlett's Administration—  
Shows How Economy Has Been  
Practiced.

Hundreds of Democrats from Western Kentucky gathered in Madisonville, Hopkins County, on October 4th, and listened attentively to the opening of the campaign by Barksdale Hamlett, present Superintendent of Public Instruction and Democratic nominee for Secretary of State at the general election on Tuesday, November 2, 1915.

Mr. Hamlett was liberally applauded and it is quite evident that the solid Democracy is behind him. He answered every charge made against him by the Republican nominee for Governor, Edwin P. Morrow, and showed of gross extravagance in the last Republican administration.

A verbatim account of his address follows:

**Fellow Citizens:**  
In this campaign, as the Democratic nominee for Secretary of State, and the present Superintendent of Public Instruction, I am addressing myself particularly to what Democracy has done for education in Kentucky, and to an offensive reply to the Honorable Edwin P. Morrow, who has viciously attacked an Administration that has done more for the cause of popular education and the improvement of the public schools of Kentucky than has been done by all Republican administrations in the history of the State, or would be done by any that might come in the future.

There is a natural hostility on the part of Republican leaders to popular education and progressive movements tending to the building of a great Commonwealth. Thomas Jefferson, aside from being the author of the Declaration of Independence, counted it his next greatest achievement that he used the remaining best efforts of his life in building a public school system for Virginia; and in planning a model for America; and we honor Jefferson for his posthumous glory as much for this as for any of his other great achievements.

#### Progress Under Democracy.

From the beginning of our public school system in Kentucky all progress and improvement in the system has been accomplished when the affairs of State were in the hands of Democrats and Democratic Legislatures.

We have modeled our system after the plan of Jefferson, the founder of Democracy and the Democratic Party of America. We have developed in spite of the opposition of such small politicians as Morrow, R. "Pea" Green, the illiterate "Broncho" Franks, the intrepid "Bank-failure" Bruner, the wise and austere one-time Democrat, Walker, the millionaire mountaineer Lewis, who, I am informed, has handled school funds in times past, and others of this ilk whom I have neither space nor time to mention, a system of public education commensurate in its efficiency to that of any commonwealth in America. "I exclaim, as Cicero did, "O tempora, O mores;" and with the Bard of Avon, "Alack the day" when such men, clothed in Catilinarian habiliments, should parade themselves before an intelligent public and dare to stand in the way of educational progress—who would attempt to deny to the children of this Commonwealth their rightful heritage which they should enjoy, liberally, through an equitable distribution of the State's equipment.

I am glad to state to the people of Kentucky that I know, from written and verbal evidence, that even the thinking, sober citizenship of the Republican Party of Kentucky today condemns such men and their insidious aspersions, directed at the bed-rock and foundation of the existence, maintenance, and progress of a great Commonwealth.

#### From Forty-third to Near Top.

Since 1911, when the Republican Party was dethroned by an overwhelming majority, on account of promises made by Democrats in a platform of principles, Kentucky has moved from the forty-third in the scale of illiteracy close to the top, and today stands in the vanguard of Commonwealths of America. In fact, the eyes of the whole nation are upon her, and she is pronounced by the leaders of every State as the one State that is leading today in education and the dissemination of knowledge.

#### Schools Increased 45%.

We have not only increased the attendance in our public schools forty-five per cent within three years, but we have added to the revenues for school purposes, directly and indirectly, more than three millions of dollars. We have increased the school term in every rural district from six months to seven months, increasing at the same time in the aggregate all teachers' salaries, and in many cases the term has been made eight, nine or ten months, all of which has been done without a mill increase in taxation. In fact, the rate of taxation which was formerly twenty-five cents and a half on the hundred dollars for public school purposes has been decreased to twenty-six cents.

Now, for the present, I pass over Mr. Morrow's sophomoric effusions in which he states that "political campaigns are primarily for the benefit of the people," etc. But I come directly to certain specific statements that he made in his opening speech at Bowling Green.

#### Replies to E. P. Morrow.

We have today a balance in the school fund of one million dollars. At the corresponding date in 1911, under a Republican administration, there was a balance of \$314,684. We promised the people of Kentucky four years ago "most rigid economy" in the Department of Education, and we stated to the people that we would not stand for any diversion of the school funds, since it was, and is, clearly in violation of statutory law and the Constitution of Kentucky. We condemned unequivocally misappropriation of school funds. Mr. Morrow speaks of "large cash balances." I will show you why their balances were not so large. Their books, December 30, 1911, show a credit to the Sinking Fund of \$73,827.84; School Fund, \$445,014.43; total balance, \$518,842.27; deficit, General Expenditure Fund, \$249,123.33. They turned over to Mr. Thomas S. Rhea a Treasury balance, School Fund and all, January 1, of \$269,718.94.

I would like to know why they did not turn over that "sacred and inviolate" school fund, under the law and Constitution, of \$445,014.43. I would like to know now, for what purpose, and why they misappropriated those funds, and what they temporarily did with those funds.

From this you can see why their cash balances were not so large. I need not quote you Section 184 of the Constitution, nor Section 4371 of the Statute and Section 4372, wherein is stated, "Except as otherwise expressly provided in this chapter, no part of the common school fund, nor of the revenues thereof, shall be used for any other purpose than the payment of the teachers of the common schools." And Section 4373, which states, "The Auditor shall keep accounts in relation to this fund. He shall once in each month make a transfer to the credit of said fund, all receipts into the Treasury, with the sources of each item, for the benefit of the common schools, up to the date of said transfer." Section 4371 states, referring to a previous section and to the Constitution, "The foregoing shall constitute the annual resources of the school fund of Kentucky and shall be paid into the Treasury and shall not be drawn out or appropriated except to pay the expenses of the State Department of Education of whatever kind or character."

I want to know what this Republican administration did with this \$445,014.43, or such part of it as was unaccounted for when they turned over to Mr. Rhea, the new State Treasurer, altogether, school fund, and everything else, the sum of \$269,718.94. At the time when it was done, I personally called the attention of Mr. Farley, the Republican Treasurer, to the fact that there appeared to me to be "something rotten in Denmark." This gentleman facetiously stated that I had "much to learn," and that I would discover soon that the office of Superintendent of Public Instruction was regarded, among Republicans, as an insignificant position "without authority," and that I had better "keep quiet" and do as Republicans had done, leaving such matters to those "higher up."

**Economy of Present Administration.**  
This present Democratic Administration has kept inviolate and sacred every penny of the school fund. Hence, the "large balances in the Treasury" that have been referred to, and for which this Administration has been viciously attacked. When there was this balance of \$445,014.43, shown by their own books, to the credit of the School Fund, they deliberately refused to pay a warrant of \$108,756.50, and this warrant had been paid due the teachers of Kentucky since October 5, 1911. What were they doing with this "sacred" and "inviolable" fund? They used these "sacred and inviolable" funds for the retirement of State warrants and for the purpose of showing a "small cash balance" in the Treasury. In the meantime the poor school teacher went without her pay, three months past due, while the Xmas holidays were passing and the rigor of winter fast approaching.

#### Republican's Extravagance.

I have in my hands the photograph of a transaction that should bring "iron tears" to Pluto's cheeks, and make the angels in Heaven blush. I hold here the photograph of the "rape" of Kentucky's childhood's opportunity, the embezzlement of childhood's sacred heritage. I have here and present as an exhibit, the picture of a warrant for \$1,800, payable to an undertaker out of the school fund of Kentucky, and charged to the school fund of Kentucky for materials furnished in the erection of the State Capitol building. I have before me in my hands a photograph of an agreement under the terms of which \$3,761.29 was to be paid, and was paid out of the school fund of Kentucky for work done in various offices, including that of the office of Superintendent of Public Instruction, Attorney General, Adjutant General, and for the office of the Clerk of the House, Senate, and for other work done on the third floor in the new Capitol. This was payable to an undertaker and paid out of the school fund of Kentucky, which the Constitution and the statutory law both require to be "inviolable" and "sacred."

#### I have a photograph of a document

filed in the records of this transaction, which reads as follows:

"O. K.  
"Charge to J. G. Crabbe (School Fund.)

"According to agreement with commission for altering Hall of Fame, C. M. Fleener."

"This estimate was allowed and ordered paid by Board of State Capitol Commissioners, June 7, 1909."

**Edward M. Deane, Secretary.**  
I have also before me a duplicate of a contract made and entered into between the Capitol Commission of this Republican Administration, under the terms of which these school funds were paid to a Republican undertaker; and this agreement and contract approved by the Superintendent of Public Instruction under this administration.

Incidentally, I might mention an item of \$15.00 that was paid out of the school fund for six small silk curtains about the size of a pocket handkerchief, to be used in the Hall of Fame, that the light of day might be shut out from these precincts wherein were supposed to reside the hope of Kentucky's childhood, and the future of Kentucky's manhood and citizenship.

I want you to note that this same Dr. Bruner, who was a member of the State Board of Education at the time, and a member of the State Capitol Commission at the time, and who is the same Dr. Bruner who presided over the destinies of the now defunct Commercial Bank and Trust Co. of Louisville, voted for and authorized by his vote this unholy diversion of a "sacred fund;" and that he was a member of the Sinking Fund Commission, charged under the Constitution with the protection of this fund; and the same Dr. Bruner who attacks this present Administration in its management of the school finances of Kentucky.

"I want you to note that Mr. R. 'Pea' Green, who is the Republican nominee for Superintendent of Public Instruction, endorses all of this, and that he is the same Mr. Green who is an Indiana carpet-bag Republican, hardly yet a naturalized Kentuckian; and who has been fed at the public crib of Kentucky by the hands of Democrats, for years, as a 'professor' in the State Normal School at Bowling Green."

#### Explains Morrow's Charges.

Now, referring to certain items in Mr. Morrow's Bowling Green speech, to wit: \$63.75 for motor car service, charged to the credit of this present Administration, and it is a credit to this present Administration, that this money was spent on behalf of the restoration of decency in the conduct of teachers' examinations in Kentucky. Mr. Morrow and his associates know that this expense for motor car services covered a period of more than two months and that the service was rendered by your humble servant as Inspector of Schools and as a public officer, doing his duty to conserve the very bed-rock, foundation and morale of the public school system of the State. As a result of the expenditure of this money, there has been no more stealing and selling of examination questions in Kentucky and the illicit traffic has been completely broken up and eliminated.

He refers to an item of \$45 for taxi-cab services in the city of Louisville. He knows that this was paid as of one date, as is customary, but that it covers items extending over more than a month, on account of services during cold, dark and winter nights, in an effort to assist in the recovery of \$109,000 back taxes due the school fund in the Highland Park graded school district from the Southern Pacific Railroad Company. The records of the Jefferson Circuit Court show that this money was recovered and paid over on account of the efforts of your humble servant in the prosecution of this case. He refers to a small item of \$2.85 on account of two meals on a dining car between Frankfort and Paducah, and other items expended on account of this same trip to Paducah, which covered a period of three days, amounting altogether to \$28.45 in all. He knows that this was a legal expenditure of money, and fruitful of results of which the State today is proud. On account of a call and a summons from the Livingston County Circuit Court, demanding the service of your humble servant and the speaker, in a case involving the prosecution of a County Superintendent of Schools, alleged to have embezzled the school funds of the State and county; and the money was recovered.

#### More G. O. P. Extravagance.

I want to speak briefly of some little expense matters incurred under the Republican Administration. In 1910 there was passed an Act at the instance of the Republican Governor, allowing this Governor \$3,000 for the entertainment of a National Governor's Conference at Frankfort, but on account of some joker left in the bill, this expense was decided to be a permanent appropriation. However, I believe that is all right and have no criticism to make of it, but let us see how the funds were expended by Republicans: On June 28, 1910, there was charged to the State \$29.00 for one trip to Lexington and return; June 29, \$57.12 for a trip to see Mr. Roosevelt in Louisville, and there is an item of \$23.40 for meals on car, baggage, cab, porterage, and an item of one five-cent street car fare. I find on October 29 an item of \$21.62 for trip from Louisville to Bowling Green, for the purpose of making a speech before the Normal School. I notice in this same item of the Bowling Green trip that this Republican Governor paid \$3 for one lunch and that he paid \$1.50 for one supper.

I pass over many items similar to this, including some large sums, all of which were paid on what I conceive and what I feel the present Governor James B. McCreary would conceive to be business of a purely personal nature, and not chargeable to any expense fund allowed by the State.

I find that he charged another five-cent street car fare, and 65 cents for porter on December 13, and in addition to this, \$9.50 for "presence" and "courtesies" to chautauques of various automobiles, and on account of "resourties to guests." Next I find a charge of 25 cents for a telegram, here given verbatim: "London, Kentucky, November 5. Miss Nora Brown, Frankfort, Ky. Home 7:35, P. & C. T. M. Mansion, Augustus E. Willson." On January 10, the same official was paid \$6.44 for entertainment of visitors and their wives at the Louisville Country Club, which occurred on December 2-10, prior to this date. April 18, 1911, \$60.00 paid to the Capital Motor Car Company for one trip. January 27, 1911, \$25.75 for one funeral design and express charges. They not only divert the school funds of Kentucky and disburse them through an undertaker, but use the general expenditure fund for the purchase of a funeral design to be placed upon the graves of the dead. I do not have to make charges, but merely to state the facts as I am doing.

"I give you the facts and figures of these accounts; I leave judgment to your common sense."

Mr. Morrow made mention of a typewriter desk bought by the Department of Education for \$110, which was a duplicate of a certain similar type of desk bought at the same price from the original contractor and made to order. Now, I want to give you some more figures in regard to this question of the purchase of furniture.

#### Luxuries Purchased by Republicans.

I find that they bought for the Adjutant General's office a typewriter desk for \$118; for the Insurance Department they paid \$235.00 for another one. They paid \$150 for three easy chairs in the Prison Commission office. In the office of the Superintendent of Public Instruction they paid as follows: One desk, \$177; one desk, \$129; one small revolving book case, \$50; one easy chair, \$50; one soft-cushioned sofa, \$125; one umbrella rack, \$16. In the office of Dr. Bruner, the Secretary of State, two desks, \$354; one clothes rack, \$60; one plain oak desk, Department of Agriculture, \$100. The Governor's office: One flat-top desk, \$270; one sofa, \$150; one revolving book case, \$60; one hat rack, \$34; one umbrella stand, \$24; one plain book case, \$235; one typewriter desk, \$217. Again, in the office of Secretary of State, one flat-top desk, \$175; one typewriter desk, \$217; one soft-cushioned sofa, \$140. I am omitting items amounting to thousands of dollars, for lack of time and space to mention them. I do find again for Dr. Bruner's office two more typewriter desks, \$244, not listed separately, and one wardrobe for this Secretary of State, \$79. For the Assistant Secretary of State I find a typewriter desk, \$172, and one umbrella rack, \$95. One wooden bench for the lobby of the Auditor's office, \$47.50. In the Treasurer's office, one flat-top desk, \$220; one roll-top desk, \$192; one easy chair, \$185, and many other costly and expensive items. I find a desk for the Librarian's office for \$177. I find three easy chairs at \$85.00, and a great many of what they style as side chairs, that amount to thousands of dollars. I do not know what side chairs are intended for, but doubt if there is sufficient space in the entire State Capitol to afford storage room for all of the side chairs bought and paid for under this Republican administration. Expensive luxuries, contracted for by Republicans and paid for by Uncle Sam and John Jones, who earn their bread by the sweat of their brow, pulling the plow line over Lize through hot summer days.

Such figures are a record of service to the people, comparable to that exhibited in the famous Pennsylvania State Capitol grant disclosure. I find that these Republicans bought a number of chairs at a most exorbitant price or pages in the Senate Chamber. Evidently they were preparing for the extra help charged to the Democrats at the present time, and I find another item of \$375 for easy chairs that are never used on any occasion, and four more sofas amounting to \$560. I find an item of \$1,700 for an unnamed number of oak chairs and any amount of money expended for more side chairs, etc.

Mr. Morrow has referred to an item of drinking water. The Republican Administration preceding the present administration, installed at approximately \$98,000, a plant, a part of which was for the purpose of furnishing to the offices in the State Capitol refrigerated water, filtered and refrigerated. It is a well-known fact, Mr. Morrow and his associates know, that this plant, built by his own party, was and is yet an absolute failure, and that that never was supplied by this expensively built plant either filtered or refrigerated water to any Department in the State House. I consider it just as much my right under the law to provide myself and my associates with pure water on hot summer days when serving the people between the hours of 7:00 A. M. and 12:00 at midnight, as any other Department in the State Capitol, and I state that it has been customary among most of the offices to purchase and provide drinking water just as they have purchased and provided ice and other small necessities incident to the conduct of these offices at the expense of the State.

#### Printing Placed by a Commission.

Mr. Morrow refers to printing bills and printing contracts; he mentions an item of \$6,000 paid in 1912, most of which was contracted for under a Republican administration and paid for by the present administration. This is, therefore, a part of the deficit left by the former Republican administration. He states that all the printing in the Department of Education was contracted for by the State Superintendent—a statement he knows to be false. The State Superintendent of

Public Instruction has no jurisdiction under the law in the matter of letting a printing contract. He (Mr. Morrow) knows that the law provides for a Printing Commission, composed of the Governor, the Attorney General, the Auditor of Public Accounts, the Attorney General and the Treasurer, and that all printing contracts let for the Department of Education have been subjected to the scrutiny and are directly under the control of the State Printing Commission, as provided by law. He insinuates extravagance in the matter of the amount of printing done by this Department. Mr. Morrow endorses in his party platform free text-books, free printing and a seven months' school term, and yet viciously repudiates all of them in his speeches.

#### Printing Sent to Every School in State.

During the present Administration there have been sent free to the people of Kentucky—Democrats and Republicans alike—more than a half million pieces of printed matter, that have been in a nature sent to them as free text-books. We cite for instance the State Course of Study, which is a text-book in every school in Kentucky and a guide for practically every State in America. In addition to this, we cite the Arbor & Bird Day Book, 25,000 copies of which have been distributed this year free to the people of Kentucky, and which has done more for the conservation of our natural resources and accomplished more in behalf of the conservation of our forests than all else done in the previous history of Kentucky.

This department has distributed free to the people hundreds of thousands of pamphlets, booklets and books, including the valuable History of Education in Kentucky, and the Official Manual of Kentucky, all of which have been gladly received by the people and for which this department has been most cordially commended. The cost of these publications is but a trifle compared to the great good received by the people of the State. We have no apologies nor any defense to make for any publications issued or any printing that has been done by this department; we have done it for the people; it has been paid for by the people, and the accruing benefits have been received by the people.

#### G. O. P. Printing Order.

We wish to note, however, for the benefit of an unsuspecting public, that under the previous Republican administration, on December 6, 1911, five days prior to the inauguration of James B. McCreary as Governor, as shown by the orders entered on pages 43 and 44 of the records of the Printing Commission, there was an order made by the Printing Commission directing the Commissioner of Public Printing to let a contract for the publication of nine geological bulletins to certain parties not having the State contract. These parties, represented by certain individuals, were presumed to be the Inter-State Publishing Co. The contract for the printing of these bulletins was approved by George A. Lewis, Superintendent of Public Printing, and presented to the subsequent Democratic administration for approval and payment. This was the first information which the new Printing Commission, composed of James B. McCreary and his associates, received of the fact that their predecessors had authorized the Superintendent of Public Printing to let a contract to persons other than the regular contractor. It is a well-known fact that Mr. Lewis was called before the Commissioners to explain why the contract price of this job of printing was so greatly in excess of the prices for work done under the regular State contract. The Superintendent was required to furnish an estimate of this work under the regular State contract. It was found that the Inter-State Publishing Company was charging \$1,718.50 for what the State, through its regular contract, would be required to pay \$1,165.78. It was also found that county report No. 4, which under the special contract amounted to \$1,792.90, would amount to only \$1,093.00 under the State contract, as would have been let by a Democratic administration and a Democratic Printing Commission. The Democratic Printing Commission refused to pay under this special contract made by Republicans with some spurious Republican beneficiaries, and saved the State on two items, \$1,161.72. It is also a notable fact that this special contract has disappeared and can not be found in the office of the Superintendent of Public Printing.

#### Turns the Light On.

Now, my friends, there is nothing so clarifying and purifying as sunlight, and I have taken the pains to have before me facsimile copies and photographs taken from the originals of all of these illegal acts. I need not refer to the fact that Mr. Morrow has himself admitted his false statement and error in regard to the balance that he alleged to have existed in the school fund of 1914 of \$683,000, and that the per capita was kept at \$4.00. He has apologized already to the public for making such a statement.

#### Secured Seven Month School Term.

I would like to add here, however, that on account of this \$683,000 accumulated by conservative business management of the school funds, I did, arbitrarily, on account of what I conceived to be my authority as executive, state that I would declare a seven months school term. I was immediately advised by the proper legal authorities of the State that this could not be done without Legislative enactment. Then I did declare a \$4.50 per capita, the largest that had ever been declared before in the history of Kentucky, and every teacher in Kentucky knows that the salaries were paid promptly every month. I then drafted a bill for the following Legislature, which was passed, and the result of which was the establishment of the seven months school term which we

now have, at a per capita of \$5.25.

"Broncho" Franks, of Owensboro.

Now, I have noticed that a certain Mr. Franks, known as "Broncho" Franks, from Owensboro,

has been making a most vicious campaign, also in a most vicious manner. I have heard a lot of his kind being a friend to the cause of education, not to any other party except I do know that there is a certain Mr. Franks who has been making an alleged crime that would make one so sensitive as he claims to be, to blush in shame and keep his mouth in check, instead of in fact, in every way tacking the down and worst servants of the people and the present children of this Commonwealth. I do not know how Mr. Franks has become so prominent in the politics of his party, nor how he has grown so rich, but I have been told that he had something to do with the equalization of liquor revenues, whatever that is; I do not know. But, I am informed that it was in his case a most lucrative business, and, on account of his expertness in such matters, he became Collector of Internal Revenue and retired from this office a millionaire after four years' service. This is all rumor to me—I do not know that it is absolutely true. However, it is told by Republicans, and I am sure they would not disparage Mr. Franks intentionally.

I do not take time to refer to the attacks of the other "small" gentlemen on this Republican ticket, and those interested on behalf of this ticket. The time is too short. The Honorable Judge Lewis Walker, for instance, a turn-out Democrat, who would sell his birthright for a mess of pottage, and yet with all that being a Republican, I feel kindly towards him on account of my sympathy for people whose ignorance is commensurate with their avarice, and I pass him by, and put him in a category with the heretofore referred to, R. "Pea" Green.

#### Endorses Woodrow Wilson.

Now, in conclusion, The Democratic ticket is led by a princely statesman whose ability and achievements are comparable with those of a Woodrow Wilson, an Oldie James, or any of the greatest Democrats of this age, or any other age. The fact that the Republican nominee for Governor would stoop so low as to direct his attacks, and all of his lieutenants to direct their attacks at the insignificant office of State Superintendent of Public Instruction is indicative of the fact that they are desperate and know not where to turn, nor how to form their lines for an attack.

#### Morrow's Doom is Sealed.

The fact of the business is, Mr. Morrow, and every man on his ticket, realizes and recognizes, and acknowledges already, ignominious defeat, and by their mad attacks upon the bulwark of the commonwealth, the public school system, they evidence the fact, and notoriously parade the fact, that their attitude is retrogressive in all things and especially in this one great business of the State. Mr. Morrow sealed his doom in his first attack in his speech at Bowling Green. A man of such low ideals, and of so small conceptions of what a great commonwealth should be and how it should be developed, is not fit to be the nominee even for the great office of school trustee, in this State. The Republicans, even of the most radical type, condemn him for his unwarranted, flimsy attacks, based on hypocrisy and the intense desire to get an office.

#### Too Far Advanced to Consider Hypocrisy.

I tell you again, my fellow citizens, that the people of Kentucky have advanced too far to consider such cant and hypocrisy. Their homes are too dear, and their love for "The little red school house" and the church by the wayside" is too pure to listen to a man, or set of men, who would prostitute what should be better ideals to a cause, and an attempt so low. I have faith in the people of Kentucky; I have faith in the God-fearing mothers and fathers of Kentucky; to the services of whose little children I have dedicated my life and efforts; I have faith in the school teachers of Kentucky. I have led for four years Kentucky's great "standing army," and I tell you that America's standing army is today that body of school teachers of which Woodrow Wilson has been one; and that it will be due to the efforts and the ideals of this army that America will go forward continuously in peace, love and prosperity.

#### A Reconstructed Man Costs \$500.

With exhibitions and catalogues of artificial limbs now brought to notice one gets to calculating the cost of a reconstructed man. Seemingly a little more than \$500 would suffice. A pair of artificial legs costs about \$150 and a pair of arms about \$100. Ears, with drums, etc., cost \$75 each; eyes \$30 a pair, and so on. Without heart and brain a man is worth about \$500. With them—the price might change.—London Chronicle.

#### Nothing to Be Said.

Judge—You admit, then, that you stole the loaf of bread? Woman—Prisoner—Yes, your honor. Judge—What have you to say for yourself? Woman—Nothing, your honor. If it was lace or jewelry I might plead kleptomania, but we can't try that when it's bread.—Chicago Herald.

#### In the Station.

"I want to take a train to New York."  
"But, my dear sir, we pay our engineers to do that."—Baltimore Evening Star.

#### Marsh Cure.

Hubby (at breakfast)—I've got a bad head this morning. Wife—I'm sorry. Dear I do hope you'll be able to shake it off.—Piston Transcript.
