NEW RAILROAD INTO METROPOLIS

COUNTY FARMERS TAKE WARNING

Governor McCarty Wants
April 20 Day Observed

Franchisee reaches 300,000

The attention of all people, including the farmers and industrialists of the state, is directed to the importance of this day and the necessity of its observance.

Dr. Burnell: Quem Pastore

He has passed at the First Presbytery Church, Pulaski, Arkansas, on March 29th, 1915. The service was held in the church, and the rev. Dr. Burnell's body was interred in the church cemetery.

McKee: Railroad Man

Chicago, Nov. 4—Chicago has a railroad citizen to represent it, as the railroad is the lifeblood of the city. The railroad man is a representative of the people, and his vote is as strong as his influence.

PROCTOR PROCLAIMS

MASON OF THE LAWS

President: Representative Ed. Stone

Ed. Stone

The Hand is the one to which the partisans of the party in power have given this title. It is the hand of the party in power, which they say it. But the people who are in the habit of uttering these words, are the ones who now read the newspapers. The party in power is the one which has been in power the longest, and therefore has the most influence. It is the party which has the most to lose if they are not read. The people who are in the habit of reading the newspapers are the ones who are in power. They are the ones who are in power because they have the most influence. Therefore, the party in power is the one which has the most to lose if they are not read.

FORD, The Ford in Charge of Agent: Howard M. A. Blewett, of the New Ford Motor Company, is in charge of the New Ford Motor Company, and is the one to whom the partisans of the party in power have given this title. It is the one which has the most to lose if they are not read. The people who are in the habit of reading the newspapers are the ones who are in power. They are the ones who are in power because they have the most influence. Therefore, the party in power is the one which has the most to lose if they are not read. The party in power is the one which has the most to lose if they are not read.

New Ford Garage

The Ford garage in charge of Asa A. M. Whitman, of the New Ford Motor Company, is in charge of the New Ford Motor Company, and is the one to whom the partisans of the party in power have given this title. It is the one which has the most to lose if they are not read. The people who are in the habit of reading the newspapers are the ones who are in power. They are the ones who are in power because they have the most influence. Therefore, the party in power is the one which has the most to lose if they are not read.

**MARION GIRL IN THE GOLDEN WEST**

Miss Mary Fainley Writes Entertain-
 ingly of San Francisco And 
The Great Exposition.

San Francisco, Calif., Oct. 20th

Dear [Name],

And what a change! What a thrill! May it not be suddenly into the past, just as suddenly into the future? "From San Francisco, good night.

The weather is beautiful, the sun shining 
and the city clear and golden.

The Fair is in full swing, and the excitement is great.

I am writing one more letter for the Record-Press.

In the evening of the 6th of October, my little mailer and I set out for the Pacific Coast.

We arrived in San Francisco the 10th, and our hotel is located on Market Street.

On the 13th of October we went to the Golden Gate Exposition.

The buildings are magnificent, and the exhibits are wonderful.

The San Francisco Exposition is the largest in the world.

The electricity is wonderful, and the displays are a marvel.

I am returning to New York on the 20th of October.

May you enjoy a pleasant journey.

Yours truly,

**“My Electrical Home”**

Electricity should be your servant.

Few women realize the uses to which electricity can be put in their homes, as a means of simplifying the housework, while at the same time, increasing the comfort and pleasure of those about them.

The same wires that now serve you well with light are ready to bring you new comfort, convenience and enjoyment thrown in.

Next to the easy availability of electricity in most homes is its low cost.

You will find the small cost of burning one incandescent bulb over the year is a much lighter tax than was formerly paid for gas.

For operating most of the home devices the current consumption is far greater than an ordinary gas fixture.

There are the electric toaster and the many other heating devices for the easy preparation of food, and the light adjustable, inter-phones for communication from room to room.

And then there are those wonderful labor savers, the motor, the electric iron and washing machine.

All these devices and guar-anteed by James Clark Jr. Electric Company, dealers in all kinds of electric supplies.

Write us for our literature, catalogs and the name of our nearest agent in your locality.

**Your Christmas Gifts**

About this time thoughts of Christmas shopping commence to ring. The prospect of a successful Christmas season is not without its difficulties. Can you think of any gift which will be more acceptable to your friend than one of the above advertised articles?

**Are You One In A Million?**

A million is not quite the number of satis fied customers of James Clark Jr. Electric Co.'s appliances. There are more than a million.

If you're not one of them, you're not
