SMITHLAND

POSTOFFICE

Robbers Sentenced in United States Court in Paducah are Criminals of Worst Type.

In custody of United States Marshal Edgar H. James, Thos. Harding, alias Edward Hartman, and James W. Coleman, alias "Toronto Jimmy," convicted Wednesday of robbing the Smithland, Ky., postoffice, left yesterday at noon for Moundsville, W. Va., where they have been sentenced to three years imprisonment. They were handcuffed together. They will arrive in Moundsville today.

That the two men were convicted of the robbery of the Smithland postoffice on the morning of March 19, 1915, are desperate criminals, is attested by the record of Coleman, or "Toronto Jimmy." They were arrested here on March 20, by local officers, on the Smithland charge. Postal Inspector Ashton, together with Pinkerton detectives, were hot upon the trail of the men, and would have caused their arrest within a day or two had not local police "beat them to it."

Place And Date Changed.

On account of the meeting of the F. D. E. A. at Princeton the contest in Division 3 will not be held until Saturday night, Dec. 19, 1915, and will be held at Rosebud instead of Baker.

An Old Landmark.

The log cabin home of Lewis Wilson, who died a few years ago and in which he, and George Ann, his wife, raised their family, is soon to be torn down. It is probably the oldest building now standing in Marion and was located on the old Princeton road which was used before the war, long before the present Princeton road or any of the streets of Marion in that part of the city were opened up. Tobe and Gruady, the sons, have now built new homes for themselves and their mother further out the Piney road, and the old home now so dilapidated will be dismantled ere it falls down. The editor had it photographed so as to preserve it for posterity.

Sen. Porter to be Postmaster.

Dixon, Ky., Nov. 23.—The next postmaster of Dixon will be Senator J. F. Porter, unless all present signs fail. Senator Porter has been promised the place by D. H. Kincheloe, the congressman-elect. So far as known, there are no other applicants. The term of John G. Jenkins, present postmaster, will expire the first of the year. He has been in office since 1896 with the exception of part of a term.

Bombs Dropped on Italian City.

Belluno, Italy, Nov. 19.—An Austrian aeroplane threw five bombs on the city at 8 o'clock yesterday morning, but only one of them exploded. Three persons were slightly injured. No material damage was done.

Morganfield Defeats Marion

Morganfield defeated Marion at football Saturday 45 to 0. The visiting team, heavier and more experienced, descended upon our town determined to score 100 points and were sadly disappointed. They found the team, again at which they were able to score 84 points two weeks ago, a stronger eleven in every respect and those who braved the wind and mud to see the game saw one that was not so one-sided as the score indicates.

Morganfield's best ground gainer was a forward pass from a fake end run. Their other distance maker was a wide end run but their line backs lacked the necessary punch, while this last named play was Marion's most successful play. One feature of the game was the playing of Conyer for Marion. He made several good runs and tackled with skill. Many acts of brotherly affection, so often seen on the football field, were not missing and a few were disabled, for a short time, with a horrible feeling in the stomach.

This is Marion's first year at football. Next year we will have a team that will give them their money's worth. McNeely has been elected captain. The lineup follows:

B. Waller	L. E.	N. Moore
Gill	L. T.	Coker
Ransdell	L. G.	Cannan
Henry	C.	Davenport
R. Waller	R. G.	Lynch
Houston	R. T.	Boaz
Garcia	R. E.	Crawford
Cambron	Q.	McConnell
Smith	L. H.	McNeely
Roberts	R. H.	Conyer
Spalding	F.	O. Moore

A Land That Flows

With Milk And Honey.

One day last week Rev. J. B. Trotter and W. T. McConnell went quail hunting out in the Deanwood section. They stopped in a cedar grove to eat their noon-day lunch, and while seated and enjoying the good things which their better halves had prepared for the inner man, one of them noticed a dense and rather uncertain looking form up in the top of one of the cedar trees. Visions of bears, bombs, aeroplanes and German submarines came to their minds and they hastily moved to a safe distance to reconnoiter and discover, if possible, what it was hanging in the bough of the tree almost right over their heads. It did not take them long to ascertain that it was honey, in the comb which the bees had built there, intertwining and locking the boughs together and then filling the comb with honey. One of these nimrods, we have not learned which, volunteered to climb the tree and rob the bees, of enough honey for their dinner which was soon acquired and added sweetness to the already delightful picnic dinner. When we learned of the above and about Mrs. Miles Flanary's fine jersey cow presenting her with twin heifer calves, last week, we were convinced that we live in a land that flows with milk and honey.

Sentenced For Robbing

Dixon Postoffice.

Paducah, Ky., Nov. 22.—Upon his confession that he had robbed the postoffice at Dixon, Webster county, of \$50 on December 21, 1914, Marshall Watson, a youthful negro, was sentenced to two years in the penitentiary at Moundsville, W. Va., by Judge Walter Evans in the federal court today.

'Black Texas' Executed.

Eddyville, Ky., Nov. 19.—Jro. Henry, alias, "Black Texas," a negro, sent up from Ashland, Boyd county, for the murder of J. C. Gibson, an engineer of the C. & O. railroad, was executed at the penitentiary here this morning at 5:07 o'clock. "Black Texas" made no statement either denying or confirming his guilt and very calmly took his seat in the chair and showed no emotion whatever.

Compliments Mrs. Bennett.

We congratulate the newly wedded Mr. and Mrs. A. J. Bennett. We are not acquainted with the groom but have known the bride since her early girlhood. She is the present owner of the big Cedar Point farm just above Cave-in-Rock. She is well fixed as relates to this world's goods, but deserves to be since as the very dutiful daughter of Mrs. and Judge John Tyre she gave her time for many years to the strictest devotion and care of aged parents, to whom she hourly gave her every attention so long as each lived irregardless of her own pleasures and comforts. The groom, whoever he is has won a jewel for a wife and helpmeet, and the Sentinel sincerely trusts the bride has been equally fortunate, for she is a lady of education and talent and what is better yet, the possessor of the most kindly heart, as all who know her most gladly attest.—Resilience Sentinel.

Marion Girl Wins

Honors In Roanoke.

Miss Mira Dixon, director of music at the Roanoke schools, made her first appearance before a Roanoke audience. One of the sweetest musical instruments known is the flute, but it must be well played to please. And well did Miss Dixon play this sweet sounding instrument. She took as her first selection the sextet from "Lucia." This is one of the most difficult selections of the musical world, but it was rendered in a way that convinced everyone present that Miss Dixon has complete mastery of her instrument. That her work pleased was evidenced by the unanimous encore which was given, and to which she most graciously responded. Miss Dixon is a most welcome addition to Roanoke's musical circles.—Roanoke Record.

Boy Hunter Is Killed

Climbing Over Fence.

Sturgis, Ky., Nov. 20.—Charles Shipley, 12 year old son of Al Shipley, a merchant was instantly killed at 3 o'clock this afternoon while hunting on the William Smith farm near town. He had leaned his gun against a fence and in climbing over accidentally discharged it, the load entering his heart.

HIGH SCHOOL RECEPTION.

The girls of Marion High School on November 20, 1915, gave a reception, in honor of the High School Football Team, to the boys of Marion High School. The visiting team from Morganfield was also invited.

The School Auditorium was beautifully decorated in the school colors, blue and white. The same color scheme was carried out in the little football souvenirs. Mr. Christian, Miss Minor, Mr. Franklin, the chairman of the committees and the Marion High School team were in the receiving line. The social committee arranged the progressive conversation on the "rapid fire" order so that no one either became tired or enjoyed themselves too much. After almost everybody had talked to almost everybody else a nice little program of readings and music was given. At the conclusion of the program delightful refreshments consisting of Saratoga wafers, salad, pickles, sandwiches and hot chocolate were served.

This is the first social affair the High School as an organization has had for some time, but judging from the success of this one we are sure it won't be the last.

Dycusburg, Ky., Nov. 20, 1915. Answering your inquiry in Press in regard to the mystery bird seen near Sheridan. From the description I think it must have been a ring neck pheasant. There was some on exhibit at the Paducah Fair last month and I am informed that there is a man near Paducah that raises them for sale at \$5.00 per pair.

Fiscal Court Orders Office Moved.

The Fiscal Court did a good thing in their recent meeting in ordering the County Clerk's office moved out of the court house into the old clerks office. This is done for several reasons—safety first, the old one story building is less susceptible to fire as it is isolated, being one story with a metal roof, and a fire proof vault will be added. In the second place our County Clerk needs better and more commodious quarters. The office now used is too small and the light is not good especially on cloudy days. By making an archway and throwing both rooms of the old clerk's office into one apartment with half a dozen large windows, an ideal clerk's office can be arranged, and this is what the public needs and what our clever County Clerk and his assistants need and should have.

Iran and Austrian Legation Archives Given Into Hands of The American Minister.

Petrograd, Nov. 22.—According to the latest advices received in Teheran, Persia, according to a dispatch from that city, a Russian force is within forty-five miles of Teheran and indications are that the Germans, Austrians and Turks in the city are preparing to leave, removal of the archives of the German and Austrian legations of the American légation, for instance, being in progress.

At a secret session of parliament the dispatch states, the majority of the deputies expressed the hope that an amicable arrangement of the difficulties between Russia and Persia would be reached. The cabinet ministers had been in session for twenty-four hours, it is added, trying to formulate conditions acceptable to Russia and Great Britain.

Much excitement is reported in the city, according to a dispatch, over the energetic action of the entente allies, and it is reported that the Shah will retire to Ispahan in event the Persian proposals are not acceptable.

DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. What the danger was he might not understand, but he would take no chances. It is different with the average man or woman. They attempt constantly to run by the danger signals of nature and that attempt costs thousands of lives every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a loss of flesh, when there is a constant feeling of dullness and languor, nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is losing the nutrition on which its strength depends.

Such a condition calls for the prompt use of Dr. Pierce's Golden Medical Discovery. It is the world's proved blood purifier. It's not a secret remedy for its ingredients are printed on the wrapper. Start to take it to-day and before another day has passed, the impurities of the blood will begin to leave your body through the liver, kidneys, bowels and skin, and in a few days you will know by your steadier nerves, firmer step, keener mind, brighter eyes and clearer skin that the bad blood is passing out and new, rich, pure blood is filling your arteries. The same good blood will cause pimples, acne, eczema and all skin eruptions to dry up and disappear. It's a tonic and body builder. Get it to-day in either liquid or tablet form or write Dr. Pierce, Invalids' Hotel, Buffalo, for free medical advice.

Mediterranean Submarine Toll.

On Oct. 18 Count von Bernstorff, the German ambassador, announced that he had received an official communication from Berlin to the effect that German submarines had recently sunk twenty-three vessels, including four transports, belonging to the Allies in Mediterranean waters.

This was the first intelligence which conveyed an idea of the extensive of the German boats in the waters in question. Since then the losses reported have been:

Oct. 18.—Muriel Hamlin, French transport.

Oct. 23.—Unknown, Italian.

Oct. 26.—Marquette, British transport.

Oct. 27.—H. C. Henry, British.

Nov. 4.—Friargate, British.

Nov. 4.—Dahra, French.

Nov. 4.—Calvador, French.

Nov. 4.—Ionio, French.

Nov. 4.—Sidi Ferruch, French.

Nov. 7.—Yasakuni, Japanese.

Nov. 9.—Ancona, Italian.

Austrian submarines have not hitherto been active beyond the Adriatic. But the Italian battleships Amalfi and Giuseppe Garibaldi, were sunk by them on July 6 and July 19 respectively, and the submarines Medusa and Ner-eide also met the same fate on June 17th and August 7. The French armored cruiser, Leon Gambetta, was sunk off Otranto, Italy, April 26, by the Austrian submarine U-5.

PAINS OFTEN MEAN URIC ACID POISON
PAY ATTENTION TO PAINS—MOST PEOPLE HAVE RHEUMATISM AND DON'T KNOW IT.

Ouch! Does it hurt to move your arms, legs, bend your back or stretch your muscles? Be careful and take heed in time. Rheumatism is stealing on you and may cripple you if you don't stop uric acid from settling in your veins and muscles.

Rheuma, a great specialist's prescription, chases this poison out of the system and gives relief from all forms of Rheumatism. It acts through the seat of the trouble, the kidneys, stops the formation of uric acid, then drives out through the bowels that which is in the blood.

Genuine Reuma (see that you get the trade-marked package) is sold by J. H. Orme and all druggists for 50c per box. Money back if not satisfied.

Nature Enough To Cure Cancer.

London, Nov. 23.—Seven patients suffering from cancer have been completely cured "by assisting nature's efforts," according to Dr. Robert Bell, head of the

cancer research department of the Battersea general hospital.

"We have," said Dr. Bell, "been able to demonstrate beyond doubt that the healing power of nature, if sufficiently assisted by regulating the diet regimen of the patients together with the administration of therapeutic agents, has proved in many instances quite competent not only to overcome the disease, but to bring about complete recovery."

Ballard's SNOW LINIMENT

Is the Right Remedy for All
Abrasions of the Flesh.

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of wounded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00.

Trenton, N. J. Nov. 23.—Approximately a million dollars damage was done early to-day by a fire which destroyed a portion of the plant of the John A. Roebling Sons company, wire rope manufacturers. The company has orders for war material in Europe. The origin of the fire is being investigated.

SEVEN SPRINGS

(delayed from last week.)

Rev. Willie Crouch filled regular appointment at Seven Springs the second Saturday, and surprised his congregation by placing his membership with Seven Springs Baptist church on this day, having obtained a letter from his former church, Sugar Grove, to unite with Seven Springs. We are glad to have Bro. Crouch as a member with us as well as our pastor.

Mrs. Sarah Patton returned home Saturday from near Mexico, Ky., where she spent a week with relatives.

Rev. U. G. Hughes, of Marion, was in this section last week. We were glad to have him in our midst, Bro. Hughes, but sorry that he didn't preach at Seven Springs while in our vicinity.

Phi Travis, of the Emmaus section, was visiting M. L. Patton and family Sunday.

B. A. Patton and family, of near Mexico, were visiting relatives here Saturday night and Sunday.

Mort Duval and wife were in Kuttawa shopping Friday.

Wylie Guess, of Lyon Co., was the guest of his sister, Mrs. Onie Duncan, Saturday.

The river is rising rapidly, now. Riley Brasher is attending court at Marion this week. He is a representative on the jury from this section.

Mrs. Myrtle Patton and daughter, Lileen, were visiting Mrs. Ruby Manus near Dycusburg Tuesday.

Mr. Orlean, deputy sheriff, was in this section Tuesday looking for the boys to go to Marion.

The church at Seven Springs has decided to revise her membership and try to get in touch, if possible, with those members that have not been attending their regular church services; some for a number of years. We would like to know something of their whereabouts. We will say through the columns of the Record-Press, and also by the request of our Clerk at Seven Springs, that anyone knowing themselves to be members of Seven Springs Baptist church, if he or she, as the case may be, desires to remain in fellowship with this church, will please manifest this by writing to our clerk, L. C. Travis, Fredonia, Ky., R. F. D., and let your desires be known? And he will advise the church of the matter, and if you so desire to remain with this body let it be known, and the church will most cheerfully retain you as a fit subject for membership. Who will be first to respond?

But This Does Not Bother Mrs. Burton, Under the Circumstances.

Houston, Texas.—In an interesting letter from this city, Mrs. S. C. Burton writes as follows: "I think it is my duty to tell you what your medicine, Cardui, the woman's tonic, has done for me.

I was down sick with womanly trouble, and my mother advised several different treatments, but they didn't seem to do me any good. I lingered along for three or four months, and for three weeks, I was in bed, so sick I couldn't bear for any one to walk across the floor.

My husband advised me to try Cardui, the woman's tonic. I have taken two bottles of Cardui, am feeling fine, gained 15 pounds and do all of my housework. Friends hardly know me, I am so well."

If you suffer from any of the ailments so common to women, don't allow the trouble to become chronic. Begin taking Cardui to-day. It is purely vegetable, its ingredients acting in a gentle, natural way on the weakened womanly constitution. You run no risk in trying Cardui. It has been helping weak women back to health and strength for more than 50 years. It will help you. At all dealers.

PAINS OFTEN MEAN URIC ACID POISON

PAY ATTENTION TO PAINS—MOST PEOPLE HAVE RHEUMATISM AND DON'T KNOW IT.

Ouch! Does it hurt to move your arms, legs, bend your back or stretch your muscles? Be careful and take heed in time. Rheumatism is stealing on you and may cripple you if you don't stop uric acid from settling in your veins and muscles.

Rheuma, a great specialist's prescription, chases this poison out of the system and gives relief from all forms of Rheumatism. It acts through the seat of the trouble, the kidneys, stops the formation of uric acid, then drives out through the bowels that which is in the blood.

Genuine Reuma (see that you get the trade-marked package) is sold by J. H. Orme and all druggists for 50c per bottle. Money back if not satisfied.

Nature Enough To Cure Cancer.

London, Nov. 23.—Seven patients suffering from cancer have been completely cured "by assisting nature's efforts," according to Dr. Robert Bell, head of the

cancer research department of the Battersea general hospital.

"We have," said Dr. Bell, "been able to demonstrate beyond doubt that the healing power of nature, if sufficiently assisted by regulating the diet regimen of the patients together with the administration of therapeutic agents, has proved in many instances quite competent not only to overcome the disease, but to bring about complete recovery."

A Barbed Wire Cut, Collar or Saddle Gail not properly healed leaves a disfiguring scar.

Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00.

Another Fire At War Order Mill.

Trenton, N. J. Nov. 23.—Approximately a million dollars damage was done early to-day by a fire which destroyed a portion of the plant of the John A. Roebling Sons company, wire rope manufacturers. The company has orders for war material in Europe. The origin of the fire is being investigated.

SEVEN SPRINGS

(delayed from last week.)

Rev. Willie Crouch filled regular appointment at Seven Springs the second Saturday, and surprised his congregation by placing his membership with Seven Springs Baptist church on this day, having obtained a letter from his former church, Sugar Grove, to unite with Seven Springs. We are glad to have Bro. Crouch as a member with us as well as our pastor.

Mrs. Sarah Patton returned home Saturday from near Mexico, Ky., where she spent a week with relatives.

Rev. U. G. Hughes, of Marion, was in this section last week. We were glad to have him in our midst, Bro. Hughes, but sorry that he didn't preach at Seven Springs while in our vicinity.

Phi Travis, of the Emmaus section, was visiting M. L. Patton and family Sunday.

B. A. Patton and family, of near Mexico, were visiting relatives here Saturday night and Sunday.

Mort Duval and wife were in Kuttawa shopping Friday.

Wylie Guess, of Lyon Co., was the guest of his sister, Mrs. Onie Duncan, Saturday.

The river is rising rapidly, now.

Riley Brasher is attending court at Marion this week. He is a representative on the jury from this section.

Mrs. Myrtle Patton and daughter, Ileen, were visiting Mrs. Ruby Manue near Dyessburg Tuesday.

Mr. Ordway, deputy sheriff, was in this section Tuesday looking for the boys to go to Marion.

The church at Seven Springs has decided to revise her membership and try to get in touch, if possible, with those members that have not been attending their regular church services; some for a number of years. We would like to know something of their whereabouts. We will say through the columns of the Record-Press, and also by the request of our Clerk at Seven Springs, that anyone knowing themselves to be members of Seven Springs Baptist church, if he or she, as the case may be, desires to remain in fellowship with this church, will you please manifest this by writing to our clerk, L. C. Travis, Fredonia, Ky., R. F. D., and let your desires be known? And he will advise the church of the matter, and if you so desire to remain with this body let it be known, and the church will most cheerfully retain you as a fit subject for membership. Who will be first to respond?

Stop coughing! You rack the lungs and worry the body. BALLARD'S HOREBOUND SYRUP checks irritation, heals the lungs and restores comfortable breathing. Price 25c, 50c and \$1.00 per bottle. Sold by James H. Orme.

NOW HER FRIENDS HARDLY KNOW HER

But This Does Not Bother Mrs. Burton, Under the Circumstances.

Houston, Texas.—In an interesting letter from this city, Mrs. S. C. Burton writes as follows: "I think it is my duty to tell you what your medicine, Cardui, the woman's tonic, has done for me.

I was down sick with womanly trouble, and my mother advised several different treatments, but they didn't seem to do me any good. I lingered along for three or four months, and for three weeks, I was in bed, so sick I couldn't bear for any one to walk across the floor.

My husband advised me to try Cardui, the woman's tonic. I have taken two bottles of Cardui, am feeling fine, gained 15 pounds and do all of my housework. Friends hardly know me, I am so well."

If you suffer from any of the ailments so common to women, don't allow the trouble to become chronic. Begin taking Cardui to-day. It is purely vegetable, its ingredients acting in a gentle, natural way on the weakened womanly constitution. You run no risk in trying Cardui, it has been helping weak women back to health and strength for more than 50 years. It will help you. At all dealers.

RUSSIANS NEARING CAPITAL OF PERSIA

Jim S. after at Mrs. Paul year old strong, and And Austrian Legation Archives Given Into Hands of The American Minister.

Petrograd, Nov. 22.—According to the latest advices received in Teheran, Persia, according to a dispatch from that city, a Russian force is within forty-five miles of Teheran and indications are that the Germans, Austrians and Turks in the city are preparing to leave, removal of the archives of the German and Austrian legations of the American legation, for instance, being in progress.

At a secret session of parliament the dispatch states, the majority of the deputies expressed the hope that an amicable arrangement of the difficulties between Russia and Persia would be reached. The cabinet ministers had been in session for twenty-four hours, it is added, trying to formulate conditions acceptable to Russia and Great Britain.

Much excitement is reported in the city, according to a dispatch, over the energetic action of the entente allies, and it is reported that the Shah will retire to Ispahan in event the Persian proposals are not acceptable.

DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. What the danger was he might not understand, but he would take no chances. It is different with the average man or woman. They attempt constantly to run by the danger signals of nature and that attempt costs thousands of lives every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a loss of flesh, when there is a constant feeling of dullness and languor, nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is losing the nutrition on which its strength depends.

Such a condition calls for the prompt use of Dr. Pierce's Golden Medical Discovery. It is the world's proved blood purifier. It's not a secret remedy for its ingredients are printed on the wrapper. Start to take it to-day and before another day has passed, the impurities of the blood will begin to leave your body through the liver, kidneys, bowels and skin, and in a few days you will know by your steadier nerves, firmer step, keener mind, brighter eyes and clearer skin that the bad blood is passing out and new, rich, pure blood is filling your arteries. The same good blood will cause pimples, acne, eczema and all skin eruptions to dry up and disappear. It's a tonic and body builder. Get it to-day in either liquid or tablet form or write Dr. Pierce, Invalids' Hotel, Buffalo, for free medical advice.

Mediterranean Submarine Toll.

On Oct. 18 Count von Bernstorff, the German ambassador, announced that he had received an official communication from Berlin to the effect that German submarines had recently sunk twenty-three vessels, including four transports, belonging to the Allies in Mediterranean waters.

This was the first intelligence which conveyed an idea of the extensive of the German boats in the waters in question. Since then the losses reported have been:

- Oct. 18.—Muriel Hamlin, French transport.
- Oct. 23.—Unknown, Italian.
- Oct. 26.—Marquette, British transport.
- Oct. 27.—H. C. Henry, British.
- Nov. 4.—Friargate, British.
- Nov. 4.—Dahra, French.
- Nov. 4.—Calvador, French.
- Nov. 4.—Ionio, French.
- Nov. 4.—Sidi Ferruch, French.
- Nov. 7.—Yasakuni, Japanese.

Nov. 9—Ancona, Italian.

Austrian submarines have not hitherto been active beyond the Adriatic. But the Italian battleships Amalfi and Giuseppe Garibaldi, were sunk by them on July 6 and July 19 respectively, and the submarine Medusa and Nerio also met the same fate. June 17th and August 7. The French armored cruiser, Leon Gambetta, was sunk off Otranto, Italy, April 26, by the Austrian submarine U-5.

The Hands Of Womankind.

O childish hands of womankind,
So greedy now for play,
What will you seek, what will you find
Through life's long dragging day?
Oh, little hands, in many lands,
New treasures wait for you,
When mother hands and teaching
Shall cast the ballot too.
O pighted hands of womankind
That fling on eager souls
The filling links of love and bind
To base on worthy goals!
New duties crown the heights that
sing
This message unto you:
The hands that wear the wedding ring
Should cast the ballot too.
O mother hands of womankind,
In travail sorely wrong,
Twisted in pain, in prayer entwined,
In agony uplong,
The yearning heart of mother earth
Foresees a balm for you,
When hands that guard the gates
Of birth
Shall cast the ballot too.
O toiling hands of womankind
That shape a world to be
And from the everlasting mind
Build up a destiny.
The brooding justice overhead
Will pay this debt to you:
The hands that earn the daily bread
Shall cast the ballot too.
O wrinkled hands of womankind,
That lift for Christ to see,
By sorrow lined by pain defined,
A new Gethsemane,
The touch that shall old age assail
Draws nearer unto you,
When hands that lead and love and
toil,
Shall cast the ballot too.
—Elliott E. Armstrong, in the Wo-
man's Journal.

Slaughter of Millions

Predicted by Edison.

Denver, Colo., Nov. 22.—“Soon we can be mowing men down by the thousands—or even millions—almost by pressing a button. The slaughter will be so terrible that the machinery itself virtually will have to do the fighting,” declared Thos. A. Edison, greatest living American inventor and chairman of the United States Naval Advisory Board, during a brief stay in Denver today.
Edison continued:
“The European war is a crime against humanity. The poor men who are doing the fighting did not desire war. Only a few desired it, and they dragged the millions in.
“We are a long, long way from attaining universal peace. This war has taught us that mankind is not as good as some of us were beginning to believe. “War can be made so scientific that the very horror of it will help to end war. But that day is not yet near.
“No one can say with certainty that the United States will not have war. But we are not ready. Our preparedness is at zero. Republics never are prepared.
“We should have right now ammunition factories capable of producing daily twice as much explosives as the whole of the armies in Europe are consuming daily. There should be at least twelve of these government munitions factories in the United States.
“I don't mean that ammunition should be made now and stored, but the plants should be kept oiled and ready, so that in less than a week we could be turning out twice as much ammunition as the rest of the world put together.

PEORIA WOMAN TELLS EXPERIENCE

Mrs. W. L. McClellan, of Peoria, suffered torture from indigestion, gas, belching and other symptoms of stomach trouble. She spent large sums of money for doctors' advice and medicine. Still her condition did not improve. She found relief, wonderful, surprising relief in a drug store window. This is her story, as she tells it: “I suffered so from distention and belching pains that at times I was completely incapacitated for my household work. I saw a window display of Mayr's Wonderful Remedy and decided to purchase a bottle, which I did. I have taken only one bottle and the results have been really wonderful. I have not had a pain in my stomach since, and let me say that for the first time in many, many months, two days following I have had a natural movement of the bowels. I feel I cannot say enough for the remarkable virtues of your remedy.”
Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

The Old Fashioned Mother.

Thank God, we have an old-fashioned mother—not a woman of the period, enameled and painted, whose white jeweled hands never felt the clasp of baby fingers, but a dear old-fashioned sweet-voiced mother, with eyes in which the love light shone, and dusky hair threaded with silver hair lying smooth upon her faded cheek.

Those dear hands worn with toil, gently guided our tottering steps in childhood, smoothed our pillow in sickness, even reaching out to us in yearning tenderness, when her sweet spirit was baptised in the pearly spray of the river. Blessed is the memory of old-fashioned mother it floats to us now like the sweet perfume of some wood-land blossom. The music of other voices may be lost, but the entrancing memory of hers will echo in our souls forever. Other faces will fade away and be forgotten, but hers will shine on until the light from heaven's portals shall glorify our own. Years have filled great drifts over between her and us, but they have not hidden from our sight the glory of her pure unselfish love.

In some days, please God, we hope to kneel again at mother's knee, and say in sweet contentment: “Father we thank thee.”

Meters Not Responsible For Gas Bill Increase.

Household heads who recently complained to City Sealer Wallenmeyer about faulty gas meters have the means of uncovering interesting causes for increases in the October gas bills. The city sealer made a hurried trip early in the week to the home of an irate gas consumer, living in a fashionable section, who could not understand an increase in his last bill. The complaint meter was applied and after a very thorough search for leaks the sealer discovered that a new housemaid had been burning the “midnight gas” until 1 and 2 o'clock every morning as she perused the thrilling pages “One-Armed Hank,” and others of the paper back variety.
Investigations of other complaints revealed the fact that recent bills have grown simply because the consumers had not stopped to think the period of darkness is daily getting longer at this season.
Out of thirteen complaints one meter was found fast, six slow, and the others normal.—Evansville Courier, Nov. 13th. 1915.

LOYD'S BRAIN LEAKS.

By F. S. LOYD:

Sam Howerton says: You can furnish reasons for the existence of some things; but there is no excuse for either summer colds or the bed-bug.

There was a wild-eyed customer stepped into McNeil's store. He said: I want a quarter's worth of carbolic acid. Hillyard said: This is a hardware store, but we have— a fine line of ropes, revolvers and razors.

Oscar Hibbs says a man may be a six-footer when he is in the street, but he never looks that big when his wife makes him go into a ten cent store to buy something for her.

Mrs. Albert Elder says the average woman gets mighty few roses between the day she is married and the day she is laid out.

Tom Bugg says as far as we are concerned the women are not entitled to vote as long as they wear shoes with heels longer than the toes.

John D. Parr says: There is too much competition in everything but taking castor oil and helping the poor.

Hanson Rushing says one reason why there isn't any fun in gambling with your wife is because it keeps the money in the family.

Ben Wigginton says a man thinks it is polite to say that he isn't hungry when he sits down to a table; but he has a boy that thinks he is a darn liar.

Hub Butler says a single man has to the impression that if they were dogs they would be too lazy to scratch their fleas off when they felt them bite.

Newt Dollar says most married men lost their good nature long before they lost their good looks.

Sam Watson says Hell is a place where people are compelled to love themselves as they loved their neighbors when they were on earth.

Sherrod Hall says we don't know who will succeed us but we sincerely hope he will receive the support due him, but we fear he will not, for there are more tightwads, big jacks and two faced hypocrites in this town than any place we ever knew.

Taylor Stokes says a whole lot of men are so busy arguing about the war in Europe causing hard times in this country that they haven't come to hunt for a job.

Bob Rushing says what has become of the old fashioned man who used to shine his boots with stove polish every Sunday morning.

Roe Patterson says life isn't the greatest mystery in the world to a fat man. What puzzles him most is where a fat woman tricks away her extra fat when she gets into a straight front corset.

Sam Howerton says every man knows a few mean things about himself that he doesn't want other people to know.

Dan Patten says a man never realizes how much furniture he owns until he gets home about 3 o'clock a. m. and falls over most of it when he is trying to sneak up to bed without waking his wife.

New York, Nov. 22.—Night's darkness at sea will be eliminated, the wireless telephone will become practical, the deserts will be irrigated and future wars will be fought without the use of explosives, all through the discovery that brought him the Nobel prize in physics, is the opinion of Nikola Tesla.

“I have concluded,” he said today, “that the honor has been conferred on me in acknowledgment of a discovery announced a short time ago, which concerns the transmission of electrical energy without wires. This discovery means that electrical effects of unlimited intensity and power can be produced so that, not only can energy be transmitted for all practical purposes to any terrestrial distance but even effects of cosmic magnitude may be created.

Mr. Tesla said wireless telephony would be brought to a perfection undreamed of, and added:

“We will deprive the ocean of its terrors by illuminating the sky, thus avoiding collisions at sea and other disasters caused by darkness. We will draw unlimited quantities of water from the ocean and irrigate the deserts and other arid regions. In this way we will derive any amount of power from the sun.

“I also believe that ultimately all battles, if they should come, will be waged by electrical waves instead of explosives.”

Neuralgia of the face, shoulder, hands or feet requires a powerful remedy that will penetrate the flesh. BALLARD'S SNOW LINIMENT possesses that power. Rubbed in where the pain is felt is all that is necessary to relieve suffering and restore normal conditions. Price 25c, 50c and \$1.00 per bottle. Sold by James H. Orme.

London, Nov. 23.—The Anglo-French forces are believed to be more than holding their own against the repeated attacks of the Bulgarians, who are trying to destroy the little army before re-enforcements can reach it. But as the Servians are driven back by the Austro-Germans and Bulgarians and the latter receive additional supplies of munitions they will be able to assume a stronger offensive in the south.

With the French reoccupation of Vele, however, the position of the Bulgarians at Uskub and west of that town is precarious.

Loyd's Brain

Albert Elder says a man that he has changed his mind doing a thing when he is young that his wife changed it when he is old.
Bro. Okley says ministers like everybody else; we all labor in the vineyard where the is the best.

Uncle Guss Bentley says you climb pretty high in the world, you never get so high that you are above suspicion.

Charles Okley said, Pay cut and dried mean? That you feel when some barbs five through with you, my son.

Calvin Elder taken a trip to Europe several years ago and when he returned he was telling his epitaph. It certainly takes the starch out of fellow when he gets sea sick. Press Maxwell said, Is that all, Calvin?

George Loyd says almost every man knows that red means danger unless the red happens to be on a girl's cheeks.

Dan Patten says a woman won't pay \$2 for a waist here, but she will go to Princeton and pay \$2.98 for the same waist and says she got such a bargain.

Slaughter of Millions

Predicted by Edison.

Denver, Colo., Nov. 22.—“Soon we can be mowing men down by the thousands—or even millions—almost by pressing a button. The slaughter will be so terrible that the machinery itself virtually will have to do the fighting,” declared Thos. A. Edison, greatest living American inventor and chairman of the United States Naval Advisory Board, during a brief stay in Denver today.
Edison continued:
“The European war is a crime against humanity. The poor men who are doing the fighting did not desire war. Only a few desired it, and they dragged the millions in.”
“We are a long, long way from attaining universal peace. This war has taught us that mankind is not as good as some of us were beginning to believe. “War can be made so scientific that the very horror of it will help to end war. But that day is not yet near.”
“No one can say with certainty that the United States will not have war. But we are not ready. Our preparedness is at zero. Republics never are prepared.”
“We should have right now ammunition factories capable of producing daily twice as much explosives as the whole of the armies in Europe are consuming daily. There should be at least twelve of these government munitions factories in the United States.”
“I don't mean that ammunition should be made now and stored, but the plants should be kept oiled and ready, so that in less than a week we could be turning out twice as much ammunition as the rest of the world put together.”

PEORIA WOMAN TELLS EXPERIENCE

Mrs. W. L. McClellan, of Peoria, suffered torture from indigestion, gas belching and other symptoms of stomach trouble. She spent large sums of money for doctors' advice and medicine. Still her condition did not improve. She found relief, wonderful, surprising relief in a drug store window. This is her story, as she tells it:
“I suffered so from distention and chiefly pains that at times I was completely incapacitated for my household work. I saw a window display of Mayr's Wonderful Remedy and decided to purchase a bottle, which I did. I have taken only one bottle and the results have been really wonderful. I have not had a pain in my stomach since, and let me say that for the first time in many, many months, two days following I have had a natural movement of the bowels. I feel I cannot say enough for the remarkable virtues of your remedy.”
Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

The Old Fashioned Mother.

Thank God, we have an old-fashioned mother—not a woman of the period, enameled and painted, whose white jeweled hands never felt the clasp of baby fingers, but a dear old-fashioned sweet-voiced mother, with eyes in which the love light shone, and dusky hair threaded with silver hair lying smooth upon her faded cheek.

Those dear hands worn with toil, gently guided our tottering steps in childhood, smoothed our pillow in sickness, even reaching out to us in yearning tenderness, when her sweet spirit was baptised in the pearly spray of the river. Blessed is the memory of old-fashioned mother it floats to us now like the sweet perfume of some wood-land blossom. The music of other voices may be lost, but the entrancing memory of hers will echo in our souls forever. Other faces will fade away and be forgotten, but hers will shine on until the light from heaven's portals shall glorify our own. Years have filled great drifts over between her and us, but they have not hidden from our sight the glory of her pure unselfish love.
In some days, please God, we hope to kneel again at mother's knee, and say in sweet contentment: “Father we thank thee.”

Meters Not Responsible For Gas Bill Increase.

Household heads who recently complained to City Sealer Wallenmeyer about faulty gas meters have the means of uncovering interesting causes for increases in the October gas bills. The city sealer made a hurried trip early in the week to the home of an irate gas consumer, living in a fashionable section, who could not understand an increase in his last bill. The complaint meter was applied and after a very thorough search for leaks the sealer discovered that a new housemaid had been burning the “midnight gas” until 1 and 2 o'clock every morning as she perused the thrilling pages “One-Armed Hank” and others of the paper back variety.
Investigations of other complaints revealed the fact that recent bills have grown simply because the consumers had not stopped to think the period of darkness is daily getting longer at this season.
Out of thirteen complaints one meter was found fast, six slow, and the others normal.—Evansville Courier, Nov. 13th, 1915.

LOYD'S BRAIN LEAKS.

By F. S. LOYD.

Sam Howerton says: You can furnish reasons for the existence of some things; but there is no excuse for either summer colds or the bed-bug.

There was a wild-eyed customer stepped into McNeil's store. He said: I want a quarter's worth of carbolic acid. Hillyard said: This is a hardware store, but we have— a fine line of ropes, revolvers and razors.

Oscar Hibbs says a man may be a six-footer when he is in the street, but he never looks that big when his wife makes him go into a ten cent store to buy something for her.

Mrs. Albert Elder says the average woman gets mighty few roses between the day she is married and the day she is laid out.

Tom Bugg says as far as we are concerned the women are not entitled to vote as long as they wear shoes with heels longer than the toes.

John D. Parr says: There is too much competition in everything but taking castor oil and helping the poor.

Hanson Rushing says one reason why there isn't any fun in gambling with your wife is because it keeps the money in the family.

Ben Wigginton says a man thinks it is polite to say that he isn't hungry when he sits down to a table; but he has a boy that thinks he is a darn liar.

Hub Butler says a single man has to the impression that if they were dogs they would be too lazy to scratch their fleas off when they felt them bite.

Newt Dollar says most married men lost their good nature long before they lost their good looks.

Sam Watson says Hell is a place where people are compelled to love themselves as they loved their neighbors when they were on earth.

Sherrod Hall says we don't know who will succeed us but we sincerely hope he will receive the support due him, but we fear he will not, for there are more tightwads, big jacks and two faced hypocrites in this town than any place we ever knew.

Taylor Stokes says a whole lot of men are so busy arguing about the war in Europe causing hard times in this country that they haven't time to hunt for a job.

Bob Rushing says what has become of the old fashioned man who used to shine his boots with stove polish every Sunday morning.

Roe Patterson says life isn't the greatest mystery in the world to a fat man. What puzzles him most is where a fat woman tricks away her extra fat when she gets into a straight front corset.

Sam Howerton says every man knows a few mean things about himself that he doesn't want other people to know.

Dan Pattent says a man never realizes how much furniture he owns until he gets home about 3 o'clock a. m. and falls over most of it when he is trying to sneak up to bed without waking his wife.

SHERIFF'S SALE.

By virtue of execution No. 348, directed to me, which issued from the Clerk's office of the Crittenden Circuit Court, in favor of E. M. Duvall, against A. R. Hughes, for the sum of \$1267 dollars and 17 cents, I, or one of my Deputies, will, on Monday, the 13th day of December, 1915, between the hours of 10 o'clock, a. m., and 2 o'clock, p. m., at the Court House Door in Marion, in Crittenden county, Ky., expose to PUBLIC SALE to the highest bidder, the following property (or so much thereof as may be necessary to satisfy Plaintiff's debt, interest and costs), to wit:
one-half interest in house and lot known as the old Tobacco Factory, located in the town of Weson, Ky., levied upon as the property of A. R. Hughes. And on Saturday, Dec. 11th, 1915, at the residence of Niles O'Neal 2 1/2 miles northwest of Mattoon, Ky., will sell to the highest and best bidder, one organ.

TERMS: Sale will be made on a credit of three months, bond with approved security required of the purchaser, with interest from date at the rate of 6 per cent. per annum, and having the force and effect of a judgment.

Witness my hand the 5th day of November, 1915.

Ben Wigginton says a man thinks it is polite to say that he isn't hungry when he sits down to a table; but he has a boy that thinks he is a darn liar.

Hub Butler says a single man has to the impression that if they were dogs they would be too lazy to scratch their fleas off when they felt them bite.

Newt Dollar says most married men lost their good nature long before they lost their good looks.

Sam Watson says Hell is a place where people are compelled to love themselves as they loved their neighbors when they were on earth.

Sherrod Hall says we don't know who will succeed us but we sincerely hope he will receive the support due him, but we fear he will not, for there are more tightyads, big jacks and two faced hypocrites in this town than any place we ever knew.

Taylor Stokes says a whole lot of men are so busy arguing about the war in Europe causing hard times in this country that they haven't time to hunt for a job.

Bob Rushing says what has become of the old fashioned man who used to shine his boots with stove polish every Sunday morning.

Roe Patterson says life isn't the greatest mystery in the world to a fat man. What puzzles him most is where a fat woman tricks away her extra fat when she gets into a straight front corset.

Sam Howerton says every man knows a few mean things about himself that he doesn't want other people to know.

Dan Patten says a man never realizes how much furniture he owns until he gets home about 3 o'clock a. m. and falls over most of it when he is trying to sneak up to bed without waking his wife.

SHERIFF'S SALE.

By virtue of execution No. 343, directed to me, which issued from the Clerk's office of the Crittenden Circuit Court, in favor of E. M. Duvall, against A. R. Hughes, for the sum of \$1267 dollars and 17 cents, I, or one of my Deputies, will, on Monday, the 13th day of December, 1915, between the hours of 10 o'clock, a. m., and 2 o'clock, p. m., at the Court House Door in Marion, in Crittenden county, Ky., expose to PUBLIC SALE to the highest bidder, the following property (or so much thereof as may be necessary to satisfy Plaintiff's debt, interest and costs), to wit:

one-half interest in house and lot known as the old Tobacco Factory, located in the town of Weston, Ky., levied upon as the property of A. R. Hughes. And on Saturday, Dec. 11th, 1915, at the residence of Niles O'Neal 2½ miles northwest of Mattoon, Ky., will sell to the highest and best bidder, one organ.

TERMS: Sale will be made on a credit of three months, bond with approved security required of the purchaser, with interest from date at the rate of 6 per cent. per annum, and having the force and effect of a judgment.

Witness my hand the 5th day of November, 1915.

Real Thunderbolts in Wars of The Future.

New York, Nov. 22.—Night's darkness at sea will be eliminated, the wireless telephone will become practical, the deserts will be irrigated and future wars will be fought without the use of explosives, all through the discovery that brought him the Nobel prize in physics, is the opinion of Nikola Tesla.

"I have concluded," he said today, "that the honor has been conferred on me in acknowledgment of a discovery announced a short time ago, which concerns the transmission of electrical energy without wires. This discovery means that electrical effects of unlimited intensity and power can be produced so that, not only can energy be transmitted for all practical purposes to any terrestrial distance but even effects of cosmic magnitude may be created."

Mr. Tesla said wireless telephony would be brought to a perfection undreamed of, and added:

"We will deprive the ocean of its terrors by illuminating the sky, thus avoiding collisions at sea and other disasters caused by darkness. We will draw unlimited quantities of water from the ocean and irrigate the deserts and other arid regions. In this way we will derive any amount of power from the sun."

"I also believe that ultimately all battles, if they should come, will be waged by electrical waves instead of explosives."

Neuralgia of the face, shoulder, hands or feet requires a powerful remedy that will penetrate the flesh. BALLARD'S SNOW LINIMENT possesses that power. Rubbed in where the pain is felt it is all that is necessary to relieve suffering and restore normal conditions. Price 25c, 50c and \$1.00 per bottle. Sold by James H. Orme.

ALLEGED CANADIAN BANK ROBBER FIGHTS

Wanted for Part in \$273,000 Theft, Assaults U. S. Deputy Marshal But Is Captured.

Chicago, Nov. 23.—George Wakefield, wanted in Canada for alleged complicity in the \$273,000 robbery of the new Westminster British Columbia branch of the bank of Montreal, several years ago, and arrested here recently on another charge, made a desperate attempt to escape.

Wakefield and others were charged with a fake prize fight fraud. States Attorney Hoyne had this charge quashed today in

Wakefield, free for the moment, left the criminal court building, but at the exit was met by United States Deputy Marshal, Thomas Sheehan, with the federal warrant. Wakefield struck Sheehan in the face and a lively fight was soon in progress when the marshal was reinforced. Wakefield was arrested and taken before United States Commissioner Maron, who set the extradition trial for next Friday.

Allies Hold Own.

London, Nov. 23.—The Anglo-French forces are believed to be more than holding their own against the repeated attacks of the Bulgarians, who are trying to destroy the little army before re-enforcements can reach it. But as the Servians are driven back by the Austro-Germans and Bulgarians and the latter receive additional supplies of munitions they will be able to assume a stronger offensive in the south.

With the French reoccupation of Veles, however, the position of the Bulgarians at Uskub and west of that town is precarious.

If we send papers overtime to
some people they claim to not
appreciate it and often are not
honorable enough to pay us for
it. This prompts us to say please
come in and renew and pay all
arrears. No paper will be mailed
after Christmas on which a years

Reply to Mrs. Love.

See us to Mrs. Gwendoline Love, of near Sheridan, in regard to the strange bird seen in her poultry yard. I wish to that this bird is a English Neck Pheasant that was liberated this spring by the Kentucky Game and Fish Commission. There have been 2,500 of these birds liberated in this state. This county received some fifty pair. These birds have been distributed over the county and the bird you saw was evidently one of this number. So if you see them again if you will feed and protect them they will stay around the home something like the peafowl.

We are glad you are interested in this bird as many of us are trying to stock Crittenden county with this beautiful foreign bird. We would be glad if every one would co-operate with us in protecting and stocking the country with these pheasants.

Yours very respectfully,
J. F. Dodge.
N. B. There is a heavy fine for shooting one of these birds.

KEEP THE KIDNEYS WELL

HEALTH IS WORTH SAVING, AND MARION PEOPLE KNOW HOW TO SAVE IT.

Many Marion people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers.

The following statement leaves no ground for doubt.

Mrs. W. H. Kelly, 517 O'Neal St., Hopkinsville, Ky., says: "I suffered from weak kidneys and had sharp pains across the small of my back and in my sides. Seeing Doan's Kidney Pills highly recommended, I got a box and was greatly benefited. Since then I have used several boxes and never failed to get relief. Another of the family has also taken them with good results."

Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Kelly had. Foster-Milburn Co., Props., Buffalo, N. Y. 11 1825

Fifty Bushels to a Tree.

J. M. Fugate, a well known farmer of the Moss Hill neighborhood, was a caller at The Hustler office last Saturday and in showing us some apples he had with him, stated that from one tree in his orchard he had gathered over fifty bushels. He stated that the branches of the tree were bent to the ground with their heavy load. "If anybody can beat this for an apple tree I would like to hear from them," he stated.—Madisonville Hustler.

Muriatic Acid is Spilled in a Wreck.

Pittsburg, Nov. 23.—George Pearson, aged 22, of Cleveland, Ohio, was seriously injured, and twenty-five were slightly burned while scores more narrowly escaped injury here tonight when twenty-five freight cars, two of which were loaded with 2,500 gallons of muriatic acid, broke loose from a train, dashed down a grade and collided with other cars on a siding on the Baltimore & Ohio railroad.

Pearson who was riding on one of the cars was pinned in the wreckage and it was only by playing a stream of water from a fire hose on him to avoid his being suffocated by the acid fumes, that he was finally rescued alive. Many others were burned when they attempted to get a better view of the wreck and walked through the acid which had poured from the wreckage into the street.

Mysterious Fire Destroys Plant Filling War Orders.

Trenton, N. J., Nov. 23.—Fire which started in the new rope mill of the John A. Roebling's Sons Company, early today had almost destroyed the building, a four-story structure, an hour later.

The origin of the fire could not be learned. The company was engaged in the manufacture of large orders for chains and barbed wire for the Entente Allies.

GREAT WORK OF KENTUCKY'S FISH AND GAME COMMISSION

COVERS AND STREAMS OF STATE BEING RESTOCKED WITH THE HOPE OF ONCE AGAIN MAKING KENTUCKY A SPORTSMAN'S PARADISE

EXECUTIVE AGENT WARD A BUSY MAN

Clubs Are Being Organized In the Different Counties to Promote Interest and Co-Operate With the Commission

When Daniel Boone and his sturdy pioneers came to Kentucky by the Wilderness road they found a land fertile beyond their wildest hopes, abounding with game and fish, upon which they were dependent for food and clothing. In reaching Kentucky, Boone and his followers found that the Indian tribes to the north, south and west had preceded them. To Kentucky the Indians made annual pilgrimages to kill their winter supply of game, which was found in great abundance and of splendid quality. At that time there was game in plenty for all, but the Indians looked with disfavor upon the presence of the white man, realizing that it meant the destruction of their favorite hunting grounds should they be left to occupy the land, so they stubbornly resisted by every possible means the advancement of the foreign hunter.

The Indian did not kill to excess and was determined that his happy hunting ground should not be destroyed. Their stubborn resistance made the name and early history of "Kaintuckee" typical of its Indian name, "Dark and Bloody Ground."

The pioneer, like the Indian, took only of this supply for food and raiment, but with civilization grew the sport of hunting for pleasure, and so wantonly was game destroyed by this class of citizens that thoughtful and representative men soon realized that if game was to be conserved for future generations, it was necessary to enact laws protecting them during the breeding season.

The first game laws in Kentucky, of which there is any record, were passed in 1822, and were for the protection of fish. In fact, most of the early laws were measures for fish protection. At that time all laws in the state upon this subject were local or county laws and remained so until the adoption of the present Constitution. Since that time all laws enacted upon this subject have been state measures, applying alike to each county in the state. To the county authorities were charged the enforcement of measures of this character.

To the average citizen there was little necessity for the enforcement of these measures; in fact, there was so little public sentiment for the enforcement of these laws that they were openly violated without fear of prosecution. To those who gave the subject thought, it was apparent that it was necessary to create a new law and entrusting to and charging others and specially named officers with their enforcement.

A bill was introduced in the 1910 session of the Legislature providing for the creation of a Game and Fish Commission, but was defeated. A similar measure, possibly wider in scope, was introduced in 1912 and enacted into law, which became effective in 1912. This law is found in its entirety in Chapter 35, Acts 1912.

To this Commission and its agents are entrusted the enforcement of the law and the restocking of fields and streams with game and fish. Authority was given to the Commission to appoint wardens throughout the state to enforce the law. Chapter 35, Acts 1912, made no changes in the then existing game laws, except that it provided that all hunters when hunting off their own land or that immediately adjoining their own, with the permission of the owner, should first secure a hunting license, for which they were to pay the County Court Clerk \$1. The clerks were allowed to retain 15 cents for each license, directing that the remainder be sent to the Treasurer of the State, to be placed to the credit of the Game and Fish Protection Fund.

The law provided that five thousand (\$5,000) dollars should be appropriated for the maintenance of the department during its first year. This sum, however, to be in the nature of a loan, and directed that the Commission should return this sum—or as much thereof as used—to the Treasurer from the first moneys collected from the sale of

hunters' license. Of the \$5,000 appropriated, only \$120.71 was drawn from the appropriation in the months of June and July, 1912. This amount, and the remainder of the \$5,000, was returned to the state in August, 1912. Since that time the Commission has not drawn one cent from the state's funds for the maintenance of the department, and it is specially provided that the state can not give any further financial assistance, and the State Treasurer is directed not to honor any warrants drawn by the Game and Fish Commission unless the money is in the State Treasury to the credit of the Game and Fish Protection Fund. All of this fund must be derived from the sale of hunting license.

During the year 1912 a call for volunteer wardens was made, the Commission agreeing, should their funds be sufficient during the next year, to compensate as many of the wardens, as possible, the selections for paid representatives to be made upon the merit system and without regard to political affiliations. The Commission is grateful to the volunteer wardens for their services and is earnestly laboring to develop a paid, competent warden service as rapidly as their funds will permit. The Commission is not now able—nor will it be for some time—to have a paid warden service in each county of the state, but even if this were possible, they could not accomplish the ends that they so earnestly desire until they have the co-operation and support of interested parties and representative citizens, and by this assistance and co-operation is meant, not only their assistance in securing the arrest and conviction of all violators, but by giving out the information in order that the general public might thoroughly know the reasons and necessity for the strict observance of the laws.

THE CONDITIONS EXISTING IN OTHER STATES.

Hunting License.
The resident hunting license law is not a new departure and prevails in every state in the Union, except Maine, Maryland, Delaware, Virginia, North Carolina and Mississippi.

Every state in the Union now requires that non-residents have a hunting license, except Arkansas, and there a non-resident is not permitted to hunt except upon his own land. All of the State Game and Fish Commissions throughout the United States and Canada are maintained and operated by

The cut shows a Llewellyn on point, after a bevy of quail have been flushed.

funds accruing from the sale of hunters' license, and in each state, as in Kentucky, the property owner is not taxed to maintain a Commission.

Combination hunting and fishing license, permitting the hunter and fisherman to both hunt and fish upon a single license, is now in vogue in fourteen states. Other states are sure to follow this plan, as in states where only the hunter is required to pay license, the fisherman is equally benefited, the funds being spent alike for the improvement of conditions for both, and it seems but just that the fisherman should contribute his part to the enforcement of the law and the restocking of the streams with fish, by which he is surely benefited.

HUNGARIAN PARTRIDGES

In May, 1914, we liberated 300 Hungarian partridges; twenty of these birds were sent to each of fifteen counties. The birds seemed to take very kindly to Kentucky, and many scattered broods were reported in the early fall, and in the spring of 1915 some reports were had of these birds. This fall we hope to get a report from the hunters that go afield that will give us definite information.

"What's your hurry?"
"My fire insurance expires at noon!"
"What company are you in?"
"I don't bother about details."
"Ever take notes from your customers?"
"Sometimes."
"Ever take a note without knowing the name of the man who made it?"
"Well, I guess not!"
"What is a note, anyway?"
"A promise to pay."
"What's a fire insurance policy?"
"I get you! A promise to pay if you have a fire."
"Exactly. You're paying good money for a promise to pay without knowing the name of the company that promises!"

"Say, what company are you in?"

OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. Fish Scooped by Wheel Of River Steamer Tacoma.

Mayfield, Ky., Nov. 23.—Officers of the steamer Tacoma give

details of the most remarkable catch of fish ever recorded in this part of the Ohio. While the boat was steaming along at a good rate a few miles up the river a crash was heard from the stern of the boat and on going there the crew was amazed to see the buckets of the wheel scooping up fish by the score and throwing them on the upper deck. Finally the wrecked remains of a large fish box was thrown up. The crew gathered up seventy-two good sized catfish and salmon which were served to the passengers. The wheel struck a floating fish box that had broken from its moorings.

FAMOUS NEGRO TEACHER DEAD

Booker T. Washington, Friend of Presidents, Dies at Home at Tuskegee Institute.

Tuskegee, Ala., Nov. 14.—Booker T. Washington, foremost teacher and leader of the negro race, died today at his home near the Tuskegee institute of which he was founder and president. Hardening of the arteries following a nervous breakdown caused death four hours after Dr. Washington arrived from New York.

Although he had been in failing health for several months, the negro leader's condition became serious only last week. He then realized the end was near, but was determined to make the last long trip south. Accompanied by his wife, his secretary and a physician, Dr. Washington reached home from New York last midnight and died at 4:40 o'clock this morning. His last public appearance was at the national conference of congregational churches in New York, where he delivered a lecture Oct. 25.

A widow, three children and four grandchildren survive. John D. Washington, a brother, is superintendent of industries at Tuskegee institute.

The funeral will be held at Tuskegee institute Wednesday morning at 10 o'clock.

BORN IN SLAVERY

Dr. Washington was born in slavery near Hales Ford, Va., in 1857 or 1858. After the emancipation of his race he moved with his family to West Virginia. He was a mysterious boy and when he was able to scrape together sufficient money he entered General Armstrong's school for negroes at Hampton, Va., graduating in 1875. Later he became a teacher in the Hampton institute where he remained until 1881 when he organized the industrial school for negroes in Tuskegee.

The institute started in a rented shanty church. Today it owns 2,500 acres of land in Alabama and has nearly 100 buildings valued at more than one million dollars.

Washington won the sympathy and support of leading southerners by a speech in behalf of his race at the Cotton States exposition in Atlanta in 1895. An honorary degree of master of arts was conferred upon him by Harvard university in 1896 and in 1901 he was given an honorary degree of doctor of laws by Dartmouth college.

LUNCH WITH ROOSEVELT

During the administration of President Roosevelt, he sat down to lunch with the president at the white house, either by formal or informal invitation. There was a storm of protest from many quarters and some hostility was shown toward the negro educator afterward. His work was not seriously affected, however, and he continued to have the co-operation of the white people in both the north and the south in striving for the uplift of his race.

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonsful for 50 cents.

If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficacy from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonsful, because 50c worth makes a whole pint (128 teaspoonsful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. Guaranteed here by JAS. H. ORME, M.F.O., Ky.
