ONE LESS WHISKEYinker.

While alcohol may not be the cause of most of the world’s ills, it is a factor in a large number of them. It is a factor in alcoholism, in crime, in war, in poverty, in disease, in suffering, in death. It is a factor in EVERYTHING.

We urge all our readers to observe the law. Drink moderately, if at all. Help to establish the permanent liquor law. Help to make our county and state a dry state.

GREAT WORK OF KENTUCKY'S FISH AND GAME COMMISSION
COVERS AND STREAMS OF STATE ARE RESTOCKED WITH THE HOPE OF ONE DAY MAKING KENTUCKY A SPORTSMAN'S PARADISE

EXECUTIVE AGENT WARD A BUSY MAN

Cubs Are Being Organized in the Different Counties to Promote Interest and Co-Operate With the Commission

When district game wardens and county fiscals call in for a few minutes one day to snap a picture with the state executive at Frankfort, the executive gets mighty busy. Secretaries and state fiscals think they are the only men who get the full attention of the executive, but when they call in, usually a group of county fiscals follows along and the commissioner is kept mighty busy.

When district wardens are also called on and the commissioners are interested in stopping and chat with the executive. Secretaries or county fiscals when they go out to visit the counties usually catch the executive, as he is very busy with office work, and the county fiscals are interested in getting all the information they can.

The state executive is busy with all kinds of things, and on the day mentioned he was busy from morning until night with all kinds of business, and the county fiscals that went to visit him were very sorry that they were not able to get all the information they wanted.

When the district wardens are out on their rounds they are usually interested in getting all the information they can, and when they go to see the county fiscals they are also interested in getting all the information they can, and the executive is very busy with all kinds of business.
