One of the most elaborate bridal festivities in honor of Tuesday's bride, Miss May Francis, was a five months' engagement given by Miss Mamee Rose, of Marion, last Wednesday, Nov. 28th, at one o'clock at the Rochester home on Millbrook street.

The dining room was done in yellow chrysanthemums, time, with shaded candles in silver candlesticks and white holders of rich lace trimming.

We also plan to invest in some energy-efficient products to save on our utility bills. We have decided to shop at a reputable store that offers a wide selection of products. We are excited to see what we will find and make our home feel comfortable and independent.

Chair. This is the one we want.

We have been looking for a chair for our living room. We want something that is comfortable and stylish. We also want it to be durable and last for a long time. We have seen some options at the furniture store and are trying to decide which one to buy. We want to make sure that we choose the right one that fits our budget and style.

Japanese Tea and Utility Shoppe

The Ladies Aid, of the South Presbyterian Church, was highly successful in its "Sale of "Tea"", which was held last week in the Taylor building on Sabin street. The parents and children were most interested in the sale and the goods were quickly sold out.

The price, provided over three Marion businesses as set up over "Famul Links" is to be remade to the "J" bank and it did not lend for patrons.

The easy kitchen, and the post cards were two popular departments. Last but not least, the many streams of feminine apparel and at house held and table decoration were quickly disposed of. This total

“My Electrical Home”

Electricity should be your servant.

Few women realize the uses to which electricity can be put in their homes, as a means of simplifying the house work, which takes so much time. The same wires that now serve you so well with light are ready to bring you to new comfort, convenience and enjoyment thrown in.

Next to the easy availability of electricity in most homes is its low cost. You all know of the small cost of burning one candle for a candle, and the saving in lighting alone will quickly pay for electricity in your home. For many purposes, most of these devices the current consumption is in no greater than an ordinary lamp in a few minutes.

There are the electric toaster and the many other heating devices for the many apparatus of food, and the little stop-away inter-phase for kitchen or sewing. And soon there are these wonderful labor savers, the motor, the electric washing machine and many more.

We invite you to our literature, catalogs and the name of our nearest agent in your locality.

Get our ready-made literature. Examine and we will meet your proposition of volume or price. Our national advertising is ample.

Your Christmas Gifts

About this time thoughts of Christmas shop buying come to every mind. The practical woman's worry or save your till-then, or will you buy for those whom you know so well the little unneeded articles?

Are You One In A Million?

How can you not please the hundreds of customers of James Clark Jr. Electric Co.'s appliances, if there are more than a million? If you're not one you should be.

Our rebates save our buying. We must maintain our present valuable business—our reputation and the reputation of our appliance line. We must make good and over a million satisfied customers and we mean to do.

This opens the wonderful comfort and economy of electricity to the everyday.
