THE RACE FOR THE $20.00 IN GOLD

Harrah girls. Just nine more days to work for the $30.00. It will be a good sport for us all, we don't let your friends forget to buy their tickets and you better get them here and go home. Each person present showed much interest in the contest. A large number of both girls and boys have signed up the Cash Club and almost all of the members of the club have signed up the tickets. It was a great event and we will appreciate it after the holiday is over.

In the absence of the number of tickets each girl had received up till the time of our meeting, December 4th.

**KNOW THY COUNTRY**

---

**I—Introduction**

"Know America is to know its history, its geography, and its institutions, not alone as were the students of the ancient Greece who knew the geography of the ancient world, but also as were the students of the ancient Rome who knew the geography of the ancient world, and of the ancient Persia who knew the geography of the ancient world, and of the ancient China who knew the geography of the ancient world, and of the ancient India who knew the geography of the ancient world."

**II—Railroads**

In measuring the commercial and industrial development of every country, the railroad shall now be the dominant factor. The railroad is the axis of the country, the measure of the country, the symbol of the country, the key to the country. The most rapidly developing countries are the railroads, and the most rapidly declining countries are the railroads. The railroad is the life of the country, and the life of the railroad is the life of the country. The railroad is the blood of the country, and the blood of the railroad is the blood of the country. The railroad is the heart of the country, and the heart of the railroad is the heart of the country. The railroad is the soul of the country, and the soul of the railroad is the soul of the country.

---

**III—Telegraph and Telephone**

Our transportation facilities have been revolutionized. The most perfect product of the industrial revolution has been the railroad, and the most perfect product of the telegraph and telephone has been the railroad. The railroad has been the most perfect product of the telegraph and telephone, and the telegraph and telephone have been the most perfect product of the railroad. The railroad has been the most perfect product of the telegraph and telephone, and the telegraph and telephone have been the most perfect product of the railroad.

Dear Friend:

I am so forgetful about my paper and never think of sending money for it until you notify me that the paper is due. LORD'S BRAIN LEAKS.

BY J. H. LANE.

Full Butler says he knows that he is giving away enough good ideas in his outdoor experiences each day to easily pay for his whole outfit of clothing and watermelon. It is not a question of knowing, but of knowing how to use what he knows.

Butler says he has been known to have a woman who has been known to have a baby when she is only a baby herself.

In this case it is a matter of knowing how to use what you know. Full says he is the only person in the world who can make an omelet and a pie. In this case it is a matter of knowing how to use what he knows.

Cochran says he has a woman who is always asking for a ride. Full says he is the only person in the world who can make a car and run it. In this case it is a matter of knowing how to use what he knows.

**BLACKFORD**

Hail the joyous event, the highest Christmas spirit, is a doleful occasion, and a grand occasion.

Farmers in this part of the world, are wont to sell their treasures to relative and friends, who are in the same pursuits. A good thing to do, for, for the most part, the general public has no idea of the value of their own produce. It is more practical to sell to the person who will be the best judge of the produce, and who is nearest to the market.

But I can tell you this: it will be something that will make you happy and make you feel like the best Christmas ever. So, get ready! Christmas is coming!”
