ARION GRADED AND HIGH SCHOOL

Interesting News Of Our School—
Basket Ball Season At
It's Height.

Get your blood to circulating more freely—come over to the school court and watch the boys play basket ball. Root a little, it will make you feel better and help the boys to play.

The girl's literary society, the Scimantian, gave a musical program at the Opera House Friday afternoon, Dec 10th. The Society extends thanks to Mrs. Frisbie for the use of the Opera House on that occasion.

Miss Lena Holtzclaw has been teaching the third grade since Miss Weeeler was called to the bedside of her father.

A number of visitors attended chapel exercises last Friday morning. They were entertained with special music by the Orchestra and readings by Miss Mildred Bourland of the eighth grade and Miss Wilma Wright, a freshman.

The Manthanepian Society will give a special program Friday afternoon.

Don't forget the Novelty Entertainment Friday night.

We have the best High School Orchestra in Western Kentucky. If you want to be convinced, come to chapel some morning.

Someone asked Miss Holtzclaw this question: "What are you going to do toward making the program Friday night a success?" "My very, very best," she quickly responded. Well, you know the rest. Come hear her. She promises of her new-est readings.

At last! a more beneficial sport has replaced "pressing brick," the time-tried exercise of Marion girls, who now spend their surplus energy playing basket ball.

If you are a grouch, if you are a pessimist, if you are a knocker, if you feel like giving the school a downward kick, come to see Col Zoo Zoo's Zo Bo Band Friday night. Come prepared to do your worst. Come and get in

Pig And Corn Club Meeting A Success.

There was a large crowd in attendance and very much interest was taken toward the betterment of Club work. Everyone present showed much interest in signing the membership cards of the two clubs. Up to date there has been 19 boys and girls who have signed the Pig Club cards and 9 boys who have signed the Corn Club cards, making a total of 28 in all. The debate was very good and some very interesting things were said on both sides, but the negative side won.

Everybody was much pleased and all agreed to meet again for 1916 on the second Monday night, Remember the date and come to Oak Hall on the above named date.

Writes Card of Appreciation to Her Friends.

Feeling that my time on earth is short, I desire to thank my many friends, both far and near, for the many beautiful flowers, fruit and delicacies of life they have brought and sent me during my affliction.

In my weakness I feel the only way I can help repay for so much kindness is my little weak prayers that God may bless you all with abundance in this life and a pass to meet in the Glory World.

With kindest thoughts and my sincere prayers for you all, I am,

Notice To Fun Makers.

Christmas holidays are almost here. Now we want every child and grown person to enjoy themselves, but we can not have anyone shooting fireworks on the streets. It is very dangerous to people on the streets and also to people coming in from the country with teams. The streets are for the people to travel without being disturbed. We want our neighbors and friends from the country to come to town and feel free. I don't believe anyone in Marion would intentionally scare a team, but perhaps would do so thoughtlessly. So please keep off of the streets with your fireworks. Go to your homes and have your fun. Any drunkenness or misbehavior is a violation of law and the law will be enforced. So with best wishes to everybody and a merry Christmas and happy New Year, I remain,
Geo. W. Stone, Mayor.

Senator James' Mother Returns Home Today.

Washington, Dec. 14.—After a week's stay in Washington, during which they visited practically all places of interest in and about the National Capital, Mrs. L. H. James and Miss Lizzie James, of Marion, mother and sister of Senator James, will return to Kentucky tomorrow. While here the visitors were presented to the President.

Beautiful Site in Illinois.

R. L. Yeakey went to Rosiclar a day or two ago to get lumber for an extensive addition to his home which occupies the most beautiful site in all Illinois. These grounds should be purchased by our government and converted into a national park instead of being used for private ends and purposes. It is the second most historic site in the State and should receive due recognition at the hands of Congressman Thos. Williams.—Rosiclar, Ill., Sentinel.

To Whom It May Concern.

I went to Dr. J. R. Gilchrist July 24th for a pair of glasses, and he proposed to relieve me of my granulated sore eyes for a specified sum of money, if I'd follow instructions and make a statement of the facts afterward. The facts are as follows: I suffered from granulated sore eyes for twenty eight years. I was nervous and in poor health. I had been to specialists in Louisville, Evansville, Henderson and other places with no relief. After following his treatment I am free from granulation; my nerves and general health are greatly improved and the eye the others told me I would never use again, is as good as any other one. I can heartily recommend his treatment to like sufferers and will never be able to express my appreciation for what he has done for me.

Representative Stone Seeks Speakership Of House.

Representative Edward D. Stone, of the good county of Crittenden, probably will be minority floor leader of next House. He says that the Speaker together with the minority floor leader, can render great service to the people by assigning the right man to the right Committee. Mr. Stone will rank as one of the leading members of the coming session. He is a full pledged temperance man, and certainly a busy official. We learn that he has prepared several bills already, which if enacted into laws will cause a saving to the people of Kentucky of several thousand dollars. He is at work on a TAX measure which he will present to tax experts and members of the legislature for consideration. We can rest assured that we have a live wire in the next session, from this district, one who will try to carry out every promise made.

The Cadiz Record Says, of the Flanary-Adams Wedding:

As was announced some time ago in The Record, Mr. Paul Adams, formerly of this county and son of Mr. D. W. Adams, and Miss Maude Flanary, of Marion, were united in marriage in that city last week. Mr. Adams is one of the most worthy and popular young men that has ever gone out from Trigg county, and for the past several years has held a very responsible position in one of the leading drug stores in Louisville. He has a host of friends in Cadiz and Trigg county who extend to him and his attractive bride heartiest congratulations.—Cadiz Record.

ENTERTAINMENT BY ORCHESTRA

"Col. Zoo Zoo" to be Performed at the School Auditorium Friday Evening

Much interest is being manifested in town over the new of entertainment which given at the School Auditorium tomorrow (Friday evening) beginning at 8 o'clock. Pondering just what it like, and we feel safe that it will be worth while. No structure and interesting, because Marion's young people never fail in what they undertake. The success of the affair would be assured if we only said that it was to be given under the direction of Miss Holtzclaw; the success would be assured if we only said that the Orchestra would be at its best on that occasion; if you had ever heard Col. Zoo Zoo and his Zo Bo Band we could say that success would be insured if they appeared during the performance—but why waste time and words to enumerate, when we can announce with an unlimited degree of pride and self-satisfaction (because we are going) that they will all be there—Miss Holtzclaw, Miss Pope, the Orchestra, Col. Zoo Zoo and his Zo Bo Band—and—YOU, because these talented young people will look for you, and you will be true-hearted and loyal enough to your school and to your boys and girls to go. Buy your ticket early, tell your friends you are going. Go early if you want to; go late if you want to; but by all means GO. If you have the blues, by all means, go, because five dollar bills are offered to those who do not laugh and you may be able to turn your ill temper into capital. If you want to begin the season's festivities in the best possible way, and at the same time show your loyalty to the best school in Western Kentucky and your appreciation of the truest and noblest young people in the land, get your ticket early, go early and "don't be stingy with your applause." Will Bust The World

To build ships, submarines, air craft and maintain large standing armies, spend millions of dollars for automobiles, gasoline and repairs, go in debt for every conceivable thing the mind may fancy, will eventually "bust" the world. The nation is in debt and will grow more so. Almost every state in the Union is heavily in debt and growing more so. Every municipality in the country is heavily in debt and growing more so. Every county, almost in the United States is more or less in debt and is constantly growing more so. Most of the great business concerns of the country are heavily bonded, and their debts are piling up constantly. Pride, extravagance, and interest are deluging the poor, poorer and a thousand and one things daily convince us that if these things go on for the next twenty-five years the country will be busted.

serum injected by Drs. Hayden and Phares at the Crescent sanitarium the little colored boy's mouth opened slightly yesterday. The tetanic spasms which previously had occurred at intervals of two minutes had ceased last night and the boy's condition showed a marked improvement. The physicians last night said that probably it would be necessary to inject 5000 more units of the serum today. The amount of anti-toxin used is considered excessive, especially for a small patient. — Evansville Courier.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

The Way They Do It At Mayfield

One thing is assured in the city of Mayfield, and that is that the pool rooms must go or pay a special tax to the city of \$500 each. An attempt was made the other night to repeal the ordinance requiring the payment of \$500, but

it failed and now it will be doubtful if the city license is ever less than \$500. The making of this high rate was not so much to get the revenue as it was to actually prohibit the pool rooms in the city. The people claim that there is no place for them here, and they look to the city council to protect the city from them, and in order to do this, they have placed the license up to \$500, which it is said will cut them all out. — Mayfield Messenger.

Children take BALLARD'S HORE HOUND SYRUP willingly because it tastes nice. There isn't a better remedy anywhere for children's coughs, hoarseness and bronchitis. It's a good medicine and easy to take. Price 25c, 50c and \$1.00 per bottle. Sold by J. H. Orme.

Germans Said To Have Big Project.

London, Dec. 14. — A dispatch to the daily Telegraph from Rome says: According to indirect news from Constantinople, Germany

has abandoned her idea of an expedition against Egypt in favor of a great Turco-German expedition against India. The German project is to organize 400,000 Turks with 100,000 Germans commanded by Field Marshal von Derflotz and an immense number of guns for the expedition in the spring which is to be preceded by the large Turkish advance guard which is already on the march to Bagdad. The Bulgarian army would undertake the care of the Balkan line of communications to insure supplies to the Germans in Asia.

How To Cure Colds
Avoid exposure and drafts. Eat right. Take Dr. King's New Discovery. It is prepared from Pine Tar, healing balsams and mild laxatives. ONE KING THAT'S DOOMED

OLD KING BARLEYCORN and all his minions appear to be ambling on rather wobbly legs, judging by the facts in his case. Here are a few of the significant ones: Absinthe has been prohibited in Belgium, Switzerland and France. King Haakon, of Norway, closed the breweries on the outbreak of war, Iceland has banished alcoholic beverages from the island. The Czar has lifted the curse of Russia by his prohibition ukase. Public men of Great Britain denounce liquor as the nation's greatest and most ancient foe. Eighteen States in this country have kicked out old "King Booze." A majority of the House of Representatives of the United States voted to submit a constitutional prohibition amendment. Five hundred and fifty daily papers of the United States, including two in Harrisburg, now refuse all liquor advertising. The druggists of the country may no longer sell whiskey or brandy. The use of alcohol as a medicine is Great industrial concerns, such as the Pennsylvania Railroad, now prohibit the use of alcoholics among their employes. Not only is the world awaking to the fact that liquor is not a necessity, but it is coming rapidly to a realization that it is the greatest degrading influence known to humanity. — Harrisburg Telegraph.

THE OPPORTUNITY AND THE MAN

The dying days of Governor McCreary's administration find the Grand Old Commonwealth facing conditions critical and menacing. Derelict pilots have guided the good ship of state into financial shoals. On the one side from the rocks of a faulty system of taxation; on the other is the incubus of pork barrel and pie hunting politics. Money has been appropriated out of the public treasury with as much reckless abandon as if every "dollar were a withered leaf and Kentucky the possessor of unbounded forests." The Commonwealth is without money and it is without credit. We have emptied the treasury and still issue, without shame, treasury warrants which the state cannot pay and which the banks cannot use tho they carry the stamp of the Commonwealth. "We cannot pay you what we owe, we don't know when we can pay," has been the best we could say to the people we justly owe. And we haven't the decency to blush. Nor to put a head in pork barrel politics. The treasury empty; the taxing system wrong capital leaving the state; the flower of Kentucky manhood seeking opportunity OUT of Kentucky; industry lagging, farmers in dire need, population halted and, with all and in spite of all, the payroll of the state encumbered with useless employes. This is the bequest of a dying administration. This is the heritage of the Henderson man whom fate has called to become Governor of Kentucky on Tuesday, December the seventh.

Is A. O. Stanley, of Henderson, the MAN OF THE HOUR, as well as the Man of Destiny? Nature has done her part with lavish hand in modeling the new governor. She has given him a body that can be driven without tire. She has given him a commanding presence as well as a matchless physique. She has given him the mind of a superman, searching, poised and retentive. Ambition has driven him, and body and mind have responded.

Successful as a politician, A. O. Stanley has had abundant training in congress for the job that he tackled Tuesday. It is a man's job - almost the labor of a Hercules, to check the backward course of the Commonwealth and restore the credit, the prosperity and the progress which rightfully belong to Kentucky.

Yes, it is a man's job, but why shouldn't A. O. Stanley make good? He has pledged the voters that there shall be no "Invisible government." He has said again and again that he wears the collar of no political boss; he has said that he has made neither alliances, pledges nor promises that will embarrass him. Then, seeing that he is blessed with mental capacity; fitted by strenuous training, and endued with physical strength and health and unfettered by entangling alliances, there seems no reason why A. O. Stanley should not make good as Governor of Kentucky.

Earnest effort and conspicuous success insure Stanley's political future. I Stanley means business he will be backed up and will get re-ults. He can "turn the rascals" out of the political soft snags; he can cut expenses and restore the credit of Kentucky. He can change the taxing system; he can seize the awakened spirit for good roads and gridiron the state with better highways; he can infuse common sense into the management of the public schools and send Kentucky toward the top of the educational column instead of toward the bottom; he can promote the movement for better farming and a higher rural life; he can bring money from its hiding and make capital seek investment in Kentucky rather than to have capital driven FROM Kentucky. It is OPPORTUNITY'S golden hour. And Stanley is THE MAN.

—Henderson Gleaner.

A Barbed Wire Cut, Collar or Saddle Gail not properly healed leaves a disfiguring scar.

Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00. James F. Ballard, Prop., St. Louis, Mo. Stephens Eye Salve is a healing ointment for Sore Eyes.

Want Federal Aid For System Of Good Roads
Chicago, Dec. 14.—Plans for federal aid for a system of good roads throughout the nation were discussed today at the convention of the American Association of Highway officials. A draft of a bill to be presented to congress was reviewed.

RHEUMATISM ARRESTED
Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength.

Here's What You Should Do to Escape Divorce.
Cleveland, O., Dec. 14.—"Far too many married persons are seeking the road to happiness through the divorce courts." Common Pleas Judge Charles J. Estes gave this opinion today when he found that since Sep. 1st, he has tried more than 425 divorce cases. Estes offered the following rules to help married persons to keep away from the courts:

1.—Husband, kiss your wife good by in the morning and say how do you do at night.
2.—Wife, don't interrupt your husband while he is reading the paper or enjoying some hobby.
3.—Husband and wife, teach your eyes to see fewer faults and more virtues.
4.—Husband, don't tell your wife you are going to lodge when you expect to play poker.
5.—Wife, don't "nag" your

cut off from navigation a good portion of each year and the whole thing would not cost Uncle Sam a sum exceeding two thousand dollars and be done with, while as it is the government spends this amount and more annually "fluking" the sand around on Kentucky bars only to wash right back again—it gives them a job the next year of course, but it's wholly injudicious and a wanton waste of government funds.—Rosiclaré Sentinel.

BLOCKADED
Every Household In Marlon Should Know How To Resist It.

If your back aches because the kidneys are blocked, You should help the kidneys with their work. Doan's Kidney Pills are especially for weak kidneys. Recommended by thousands—here's testimony from this vicinity. Luther Hays, Cobb, Ky., says: I became afflicted with kidney trouble, the first symptom being a tenderness through my sides and loins. A short time after I noticed acute pains in my back and through the muscles of my limbs. I attributed the trouble to a cold or strain, but as it did not wear off, I came to the conclusion that my kidneys were affected. A friend who had suffered in a similar way advised me to try Doan's Kidney pills and I did so. They relieved me promptly. Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hayes had. Foster-Milburn Co., Props., Buffalo, N. Y.

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS
Make the Best Remedy at Home—128 Teaspoonful for 50 cents.
If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectorant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?
In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonful, because 50c worth makes a whole pint (128 teaspoonful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. Guaranteed here by JAS. H. ORME Marion, Ky.

CANNOT EXPRESS TOO MUCH FAITH

That Is The Way Robert Mobley Reposes Confidence In Tanlac.

Louisville, Ky., Dec. 15.—Robert Mobley, who is probably the oldest restaurant proprietor in this city, made an interesting statement recently regarding the benefits he had obtained through the use of Tanlac. He said: "Any man or woman, who is now suffering as I was, is very foolish to go on suffering when Tanlac can be had. "For the past few years I have not enjoyed the very best of health. I was in a highly nervous run-down condition, and couldn't sleep well at nights. "I had that tired out feeling and was weary of everything most of the time. "My blood did not seem to circulate properly, and I felt chilly and all out of sorts, especially with a change of weather. "Some days ago I learned of this Tanlac, and the work the medicine is doing convinced me that I ought to give it a trial. I got a bottle of it. I took a dose of the medicine right away and another dose at night. That night I slept fine, and next morning I felt fine. "My nerves are now as steady as can be. I feel vigorous and am in good spirits. Tanlac is unlike anything I ever have used. I believe it will help anybody who will give it a fair trial like I did. I cannot express too much faith in such a medicine."

Tanlac, the premier preparation, is sold in Marion at J. H. Orme's drugstore and in Blackford at A. T. Brown's drugstore. Advertisement.

MONTENEGRO WILL FIGHT UNTIL DEATH
Declares King Nicholas In Proclamation.
Paris, Dec. 14.—The Montenegrin Consul General at Paris has received the following dispatch from Cetinje, under date of November 27. "King Nicholas has addressed an energetic proclamation to the people. He urges them to remain calm in the face of the danger which threatens Montenegro, and recalls the heroic defense of Serbia, now invaded. "The Serbian army has been obliged to retreat toward the mountains of Montenegro, where the forces of the two Serb kingdoms, united against common foes, will resist valiantly. Faithful to its traditions, Montenegro will carry on the struggle until death, which it would prefer to slavery. The Allies have undertaken to revictual the population

of Montenegro and the army; the latter will defend the plain soil of its native land without sparing blood. It will fight from

mountain to mountain King with ardor and valiance in a defense of Montenegro and its gives."

OUR PUBLIC FORUM

III—Julius Kruttschnitt On Financing Railroads

The farmers of this nation need to become better acquainted with the railroad men and their problems. It is only those who know that can give us information and the farmers of America should listen attentively to what the men who manage railroad property have to say. Mr. Kruttschnitt, executive head of the Southern Pacific, has written an article dealing with the financing of railroads. He said in part: "The financing of a railroad is a function which the people, through their servants, the Railroad Commissioners and the Legislators, have never attempted, but it is a most important problem, especially to sections of a State where new railroads are needed. The placing of securities has been left entirely with the promoter and owner of railroads. "The immediate determination of what earnings the railroad shall be permitted to receive and what burdens it shall have put on it is in the hands of other servants of the public—the Legislators and the Commissioners. "Managing a railroad is quite different from managing a government where the money is raised by taxation. When the expenditures, for good reasons or otherwise, increase, taxes can be equally increased. The railroads, while servants of the public, cannot raise money with such ease and facility. The railroads must keep their expenditures within their incomes because while they have some control over their expenditures they have almost no control over their incomes, their rates being fixed by public authorities. "There is not a railway manager in the country today who is not fearful that under the press of increasing demands the transportation systems of the country will, in a few years, break down, unless the railroads are allowed to earn larger funds wherewith to build it up. There are vast sections of the country, especially in the West, where more railroads are needed and they cannot be built unless the railroads raise new capital. "People invest money in order to make money, and they are skeptical as to whether they can make money by investing in concerns that are dealt with stringently and unfairly. Railroad securities must be made more attractive to invite investments, and in order that they may be made more attractive, the roads must be allowed earnings that will enable them to meet the increased capital charges."

Two Sisters Enter Convent.
Louisville, Ky., Dec. 14.—Misses Marie and Louise Walsh, of Kansas City, daughters of Frank P. Walsh, chairman of the federal committee on industrial relations, a non-governmental organization, took the white veil yesterday at the Loretto convent Loretto, Ky. The young women passed through Louisville with Mr. and Mrs. Walsh and two of their friends, Miss Marie Burnett and Miss Ella Collins, of Kansas City, Mo. They were postulants at Loretto convent, near Kansas City, and came to Loretto, the mother house, in this state, to take the veil with a large class of other girls.
Mr. Walsh for a number of years was considered one of the leading lawyers of the West. He gained national prominence through his connection with the industrial relations commission, and later with the new committee, of which he is now chairman. A few months ago he entered the journalistic field by purchasing the Kansas City Post, an afternoon publication, to which he is now devoting most of his time.

MICA TO BE MINED ON LARGE SCALE AT PYRITON, ALABAMA

Graphite Also Found and Gold Veins Will Be Developed Soon.

Birmingham men are interested in mica mining, and development is being started on a large scale in Clay county, at Pyriton, on the Atlanta, Birmingham and Atlantic railroad. Great sheets of the mineral are being brought to Birmingham.

Harry Watkins is President and Louis J. Fox Secretary and Treasurer of the Southern Mica Mining Company, organized in Birmingham, and considerable acreage in Clay county has been taken over. Investigations and developments already made show several miles of very rich mica vein on the famous M. and G. land. It has proved one of the best mica veins in America.

It is stated that the mica found on this property is the muscovite or Potash mica, sometimes white on the surface, but generally amber color at depth, and possessing good splitting qualities. Several test pits, the deepest of which is twenty-seven feet, have been made, and No. 1 mica found. Crystals weighing 30 pounds each, which would cut as high as 6 by 7, have been taken out already. The development will be to a greater depth to get

a cut of 10 by 12 and higher, No. 1 mica. Some of the large sheets of pure mica bring as high as \$34. per pound. Machinery is being installed looking to a big development of the mica.

In addition to the mica high grade graphite is also found in the vicinity, mills for the handling of the same already being in operation. Gold ore is also found in the vicinity, showing a valuation of \$227. per ton. This has not been worked, though, on account of the fineness of the gold. Improved machinery is proposed and gold will be sought.

Accompanied by T. Pool Maynard, consulting geologist of the Central of Georgia railroad, J. M. Mallory, the Land and Industrial agent of that railroad, visited the barytes bed, a short distance from Leeds, in the north-eastern part of Jefferson county Friday. J. B. Elliott who known as "Duke of Leeds," L. Luck, Superintendent and R. Kyes, Secretary of the Cahaba Minerals Company, escorted the visitors to the barytes beds, and samples of the mineral procured to be analyzed later.

The mineral is now being developed, the first car lot having been shipped this week to Chattanooga for commercial use. The beds are on 140 acres in Section 31, Township 17, Range 1 East, Jefferson county and the southwest quarter of Section 31 is being worked first. The visitors paid a high compliment to the immediate section where the barytes was found, and a report will be forthcoming shortly.—Birmingham News, December 11, 1915.

How would you like to travel 108 miles a day with a steady stride in a motor car?

That's what President Terry of the Hartford Fire Insurance Company did after the great New York fire of December 16, 1835, in order to make immediate payment of the Hartford losses.

In the same staunch spirit the Hartford promptly paid out \$1,900,000 after the Chicago fire, and \$10,000,000 after the San Francisco disaster.

Hartford protection costs you no more than other kinds—and you can depend upon prompt settlement in case of fire. May we tell you more about it?

WEEK TO CHRISTMAS

Last Minute Buying Is Poor Policy. Don't Wait Until Christmas Eve!

ARLINGTON MERCHANT FEELS BETTER

Friedrich Redeker, a business man of Arlington, Ill., was a victim of stomach and digestive troubles. He went to a hospital for an operation for another trouble. When he recovered from the operation he found his stomach trouble worse and his heart affected. He took Mayr's Wonderful Remedy. He got his appetite back and gained in strength right away. He wrote: "I owe you some words of congratulation for your stomach remedy. I could not eat anything but soft food and the bloating from gas got so bad that at one time I had a fainting spell for three hours. I went to one of your Chicago drug stores and got your remedy. I took the remedy and the next morning was relieved. I am getting stronger and can eat anything that comes along." Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfied factory money will be returned.

MORELAND

(delayed from last week.) We're glad to learn that Guy Belt—one of Moreland's brightest young men—has returned home after a few months' visit to parts of Missouri. Welcome home, old Guy.

Miss Myrtle Thomas was the guest of Miss Nannie Hughes Sunday.

Mrs. Guy Hodge, of near Forest Grove, visited her parents here one day this week.

F. M. Jacobs, wife and two children attended the burial of George Highfield Friday at the White graveyard near Irma.

WILD CAT KILLED IN CRITTENDEN COUNTY

Fierce Fight Takes Place as Unexpected Feature of Possum Hunt.

Stokes Corley, of Crittenden county, is the proud possessor of the skin of a wild cat which his dog killed a few nights ago while he was out possum hunting. For several weeks possum hunters in the neighborhood of Mr. Corley's home have been reporting that their dogs would tree something which would jump out with so much noise as to indicate that it was a large animal and most of the time the dogs would refuse absolutely to tackle it. When any dog did have the grit to take on a fight he would be bested and badly cut up every time.

Mr. Corley's dog in an enormous female bull dog. He took the dog out a few nights ago and hadn't been out long when the dog treed and a big animal jumped out. The bull dog didn't stand back at all but tied in with the animal and it was said there never was such a fight seen in that part of the country. The big cat cut the dog up fearfully but the dog only fought the harder as her wounds grew more numerous and finally killed the vicious wildcat.

The skin measured over three feet in width. It was badly damaged in the fight but Mr. Corley has preserved it and is showing it with much pride. The dog will recover.—Hopkinsville New Era.

CHAPEL HILL

(delayed from last week.) Claude Bigham, of Paducah, was the guest of relatives in Chapel Hill precinct last week. Mr. and Mrs. George Enoch have returned to their home in Amarillo, Tex. Wonder what has gone with the tobacco buyers. They must have gone into a hole and pulled the hole in after them. Marshall Nunn lost his house by fire Wednesday, Dec. 1st. He saved one bed and clothes. Readers of the Record-Press will know the house—it being the Jeff Yandell house in about two miles of Marion.

Miss Iva Bigham is on the sick list. She has the fever.

Hog-killing is the order of the day. Plenty of spareribs and backbones. Everybody is looking fine.

Letter From Jacksonville, Fla.

Jacksonville, Fla., Dec. 4, 1915.
Mr. S. M. Jenkins,
Marion, Ky.

Dear Sir:— I write you a few lines from the sunny south. My last letter was from Cairo, Ill. My friend, Arno, and I are enjoying this pleasant weather in Florida.

This letter is a few lines of what we have seen and learned.

Leaving Cairo, Nov. 26th, we came into Nashville, Tenn., over the I. C. railroad; there we see this great city with 114,899 inhabitants, churches, schools and union depot, which thousands of people pass in and out each day going to all parts of our great world. We also noticed a greater business than the majority of cities have, at present. From there to Chattanooga, Tenn., we made time. We noticed the smoke of prosperity hanging over this city. From there we moved a little nearer toward the sunny south. We have reached that Georgia rattle snake watermelon state; we viewed Atlanta, it being the Capital with 179,292 people—in a hurry to make here, a greater city. In Atlanta I saw some of my near relatives living at New Smyrna, Fla.

Passing through the heart of Georgia on a Georgia Central train, we soon sighted the beautiful city, Macon. Leaving this city in the rear with its 41,992 inhabitants. I and my friend Arno saw that which we never had seen before, that great pine forest of southern Georgia with her turpentine distilleries.

Passing over St. Mary river, the dividing line between Georgia and Florida, and this is some river. It is a stream that drains that great Okefenokee swamp. This swamp covers a great territory, being forty miles wide and eighty miles long.

Then we came into that great sunny south Florida, said to be the greatest winter quarters of all our great union. And today finds my friend Arno Passler and myself out for a stroll through that beautiful city Jacksonville. We haven't been able to find out but very little by observation, but will say this, we have found a real paradise for winter. Some houses have no places for stoves, others have no chimneys, and even sleep with windows up, and neither stove or chimney.

I have been able to learn that we can buy fish at 2 1/2 cents per pound. Oh my! I love fish. The St. John river is a most beautiful black water stream, is lined with pleasure boats, fishing, and trading boats. I was on the market yesterday and I found boat loaded with oranges fresh from the grove on the coast, fine fruit at one cent each. Fresh oysters 5 and 10 cents a dozen.

For fear this will fall by the wayside into a waste basket, I will close. But if this should escape the waste basket and appear in print, I will continue this letter.

BARTLEY JACOBS,
Jacksonville, Fla.

KNOW THY COUNTRY

I—Introductory

"Know America" is a slogan that should flag out from every school room, office, farm and shop in this nation. No man can aspire to a higher honor than to become a capable citizen, and no one can merit so distinguished a title until he is well informed of the resources, possibilities and achievements of our country.

This is a commercial age and civilization is bearing its most golden fruit in America. We are noted for our industrial achievements as Egypt was noted for her pyramids; Jerusalem for her religion; Greece for her art; Phoenicia for her fleets; Chaldea for her astronomy and Rome for her laws. Likewise we have men who will go down in the world's history as powerful products of their age. For standing at the source of every gigantic movement that sways civilization is a great man. The greatest minds travel in the greatest direction and the commercial geniuses of this age would have been the sculptors, poets, philosophers, architects, and artists of earlier civilizations.

As Michael Angelo took a rock and with a chisel hewed it into the image of an angel that ever beckons mankind upward and onward, Hill took the desert of the Northwest and with bands of steel made it blossom like a rose, dotted the valleys with happy homes and built cities in waste places.

As Gutenberg took blocks of wood and whittled them into an alphabet and made a printing press that flashed education across the continent like a ray of light upon a new born world, McCormick took

a bar of iron and bent it into a reaper and with one sweep of his magic mind broke the shackles that enslaved labor of generations yet unborn, and gave mankind freedom from drudgery, and lifted the human race into a higher zone of life.

As Nelson organized the English navy and made England mistress of the sea, enabling the British Isles to plant her flag upon every continent washed by the ocean's waves, and to make footstools of the Islands of every water, Morgan organized a banking system that has made America master of the world's finances, brought Kings to our cashier's windows, the nations of the earth to our discount desks and placed under the industries of this nation a financial system as solid as the Rock of Gibraltar.

There is no study quite so interesting as progress; no sound so magic as the roar of industry and no sight so inspiring as civilization in action. A full realization of America's part in the great events of the world past, present and future will thrill every human heart with pride, patriotism and faith in Republican institutions.

Through the courtesy of the Agricultural and Commercial Press Service, the readers of this paper will be permitted to study America; her agricultural, manufacturing and mineral development, mercantile, banking and transportation systems which are the wonder of the world. The first article of the series will deal with transportation and will appear at an early date.

KNOW THY COUNTRY

II—Railroads

In discussing the commercial achievements of this great age, we shall approach the subject as the historian chronicling events. This series will endeavor to record in writing the supremacy of American men and industries in the world's affairs and perpetuate an appreciation of our marvelous industrial achievements by presenting simple facts, figures and comparisons that are overpowering in their convictions.

America holds her proud place among the nations of the earth today on account of her supremacy in transportation facilities. The mighty minds of the age are engaged in the problems of transportation, and the greatest men in the history of the world's commerce are at the head of the transportation systems of the United States.

In the discussion of transportation, let us consider separately our Railways, Telegraph and Telephone, Express, Public Highways, Steamships, Street Railways, Interurban and other forms of transportation, and this article will deal with railroads.

The United States has the largest mileage, the best service, the cheapest rates, pays labor the highest wages, and we have the most efficiently managed of the railways of the world. They stand as a monument to the native genius of our marvelous builders, and most of the railroads in foreign countries have been built under American orders.

The railroads represent a larger investment of capital than any other branch of human activity. The mileage in the United States exceeds

the accepted distance from the earth to the moon. We had in 1911, the last year in which figures for all countries are available, on the earth's surface, 639,981 miles of railway divided as follows: United States 241,159, Europe 207,432 and other countries 191,350. The United States has 38 per cent of the world's mileage, seven per cent of the estimated population and about five per cent of the area. The total capital invested in the railroads of the world is \$50,000,000,000, divided as follows: United States \$12,000,000,000 Europe \$25,650,000,000 and other countries \$11,350,000,000. Reduced to a mileage basis the capitalization is as follows: The world \$78,000, United States \$54,000, Europe \$124,000, and other countries \$59,000.

A comparison of rates is equally as interesting and the United States takes the lead in economy and service. The average rate per ton per hundred mile haul is as follows: United States 76c, Great Britain \$2.53, France \$1.44, Germany \$1.44, Russia 92c, Austria-Hungary \$1.30, Italy \$2.30 and Switzerland \$2.82.

The average yearly pay of all railroad employes in the principal countries is as follows: United States \$757, Germany \$392, Italy \$345, Austria \$322, Great Britain \$279, France \$260 and Russia \$204.

About 30 per cent, or 188,000 miles, of the railways of the world are government owned. About half the railway mileage of Europe is government owned.

A comparison of the economy, in time and money and the convenience in travel, will be made in a later article.

III—Telegraph and Telephone

Our transportation facilities are the most perfect product of this great commercial age and the telegraph and telephone systems of this nation crown the industrial achievements of the whole world. These twin messengers of modern civilization, born in the skies, stand today the most faithful and efficient public servants that ever tolled for the human race.

They are of American nativity and while warm from the mind of the inventive genius have, under American supervision, spun a network of wires across the earth and under the seas. Telegraphy, in its early youth, mastered the known world and the telephone has already conquered the earth's surface, and now stands at the seashore ready to leap across the ocean.

No industry in the history of the world has ever made such rapid strides in development and usefulness, and none has ever exerted a more powerful influence upon the civilization of its day than the Telegraph and Telephone. Their achievement demonstrates the supremacy of two distinct types of American genius—invention and organization.

The industry was peculiarly fortunate in having powerful inventive intellect at its source and tremendous minds to direct its organization and growth. It is the most perfect fruit of the tree of American industry and when compared with its European contemporaries, it thrills every patriotic American with pride.

spring company than the fellowship of the giant intellects that constructed this marvelous industry and a journey along the pathway of its development, illuminated at every mile-post of its progress by the lightning-flashes of brilliant minds, will be taken at a very early date.

A brief statistical review of the industry brings out its growth and magnitude in a most convincing and unforgettable manner.

The telephone service of the United States is the most popular and efficient and its rates are the cheapest of the telephone systems of the world.

We are the greatest talkers on earth. We send 60 per cent of our communications over the telephone. The world has about 15,000,000 telephones and of this number the United States has approximately 9,540,000, Europe 4,020,000 and other countries 1,300,000. According to the latest world telephone census, the total telephone investment is \$1,906,000,000 and of this amount \$1,095,000,000 was credited to the United States, \$626,000,000 in Europe and \$175,000,000 in other countries. The annual telephone conversations total 24,600,000,000 divided as follows: United States 15,600,000,000; Europe 6,800,000,000, and other countries 2,200,000,000. The total world wire telephone mileage is 33,262,000 miles divided as follows: United States 20,248,000, Europe 10,335,000, and other countries 2,679,000. About six per cent of the world's population and sixty-one per cent of the telephone wire mileage is in the United States.

LOYD'S BRAIN LEAKS.

By F. S. LOYD:

Hub Butler says a man knows that he is picking out a good wife even by experience has shown that he has not got sense enough to pick out a good cantelope or watermelon.

Ed Baker says it often happens that a woman who has 12 buttons on her kid glove, has a husband who has to hold up his pants with a safety pin.

Dock Clement says a woman's idea of a calamity is to discover a bedbug when she is changing the pillow cases.

John Travis says before he gets her she is so different from other women that he can't live without her. After he gets her he is always telling her that she is just like the rest of the doggoned sex.

Daddy says after a man gets to be seventy years old he can remember a whole lot of things that never happened—Daddy knows.

Dr. Threlkeld says good habits are hard to form and easy to break, but it is different with the bad habits.

George Crider says every now and then nature slips a cog and turns out a male gossip.

Jim Hughes says never laugh when you hear the woman next door giving her husband hail columbia. You never can tell when your own Oatsy Woosy is going to start in on you.

Albert Elder says if the truth was only known, many a man's will power is at home washing the dishes and getting his supper ready for him.

Judge Asher said to prisoner: "And you still claim to be innocent at home, six witnesses say they saw you commit the crime."

"Your honor, I can produce 6,000 who didn't see me."

Andy Lamb said to Albert Elder: "Is Mrs. Dorroh a friend of yours?"

"No, she's a friend of my wife."

"Isn't that the same thing?"

"Not at all she feels very sorry for my wife."

Phil Deboe said to uncle Dock Green: "You know that story about Esau and his postage?"

"Yes, didn't he make a mess of it?"

At our school the other day, the teacher had a class on the floor and said: "The woman threw herself into the river. Her husband rushed to the bank." "Now tell me why her husband rushed to the bank?"

"To get the insurance money," yelled Maude Bugge.

David Woods said to Dr. Stone: "What did your wife say when you got home at 2 o'clock this morning?"

"Nothing. She sat down to the piano and played 'Tell Me The Old Old Story.'"

Electrically Heated

Clothes for Soldiers

Vienna, Dec. 13.—Austrian soldiers will not suffer from cold weather if the army adopts the new electrically-heated garments which have just been invented by the professor of electrology at Innsbruck university. The es-

sential feature of the professor's invention, according to the Austrian newspapers is a method of weaving electrical heating thread into soldiers pants and coats and then connecting the thread with a battery or supply wire at a distance of from 100 yards to a quarter of a mile. It is asserted that the current can be regulated so that any number of soldiers in the trenches can be kept warm simultaneously

CATARRH CAN NEVER WITHSTAND THIS TREATMENT.

Louisville, Ky.—"I was run down and weighed 87 pounds when I should have weighed 130. I was a nervous wreck. Had catarrh all through the system and was bloodless as far as color is concerned. I was down in bed and getting weaker. I hardly thought I would live. I began using Dr. Pierce's Golden Medical Discovery and after using it for about a week I got out of bed and began to gain. My breath became less offensive, my appetite came back and I gained in weight. The use of four bottles restored my health, gave me a weight of 135 pounds, and I have been well since. It is a wonderful remedy and I tell everyone so."—Mrs. J. M. BEAS, 2522 Bank St.

The prompt action of Dr. Pierce's Golden Medical Discovery in driving harmful germs and impurities from the blood, sets in motion the repair process which works actively on the diseased membrane where Catarrh flourishes unchecked.

Thus by building up a new and perfect covering and carrying out of the system the catarrh-infested matter by way of the blood, liver and kidneys, catarrh is overcome and permanently conquered. Don't be deceived in regard to catarrh; proper local applications help of course, but no catarrh sufferer can hope for permanent freedom from this stubborn disease until all impure matter in the blood is carried away.

All dealers in medicines can supply Dr. Pierce's Golden Medical Discovery, or send 50 cents in stamps to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for trial box of tablets also ask for free book on catarrh.

Dead Woman is Brought Back To Life by an Undertaker.

Terre Haute, Ind. Dec. 14.—Miss Ida Welch, 34 years old, was on the road to recovery today after having been apparently dead. Miss Welch underwent an operation yesterday and did not recover from the effects of the anesthetic administered. Breathing had completely stopped and the body had begun to change color, it was said, when a local undertaker called into play a lung motor. Breathing was resumed in ten minutes and at the end of three hours Miss Welch had so far regained her strength that it was said today she had a good chance to recover

Yellowstone National Park.

Nature seems to have shown her most fantastically beautiful handiwork in this region, so that in scenic beauty and grandeur, the Yellowstone may be said to far surpass the wonderful valley of the Yosemite. Within comparatively modern geological times, has been the scene of the most wonderful volcanic activity that has ever characterized the North American continent, the effects of which remain in the ranges of mountains that hem in the valleys on every side, rising to the height of from ten thousand to twelve thousand feet, and perpetually covered with snow. Besides these giants of volcanic origin, the entire surroundings are everywhere studded with geysers and mineral hot springs representing the vents—or escape-pipes, so to speak—of the remarkable manifestations of plutonic force that once convulsed the region around. All these springs are adorned with decorations more beautiful than human mind ever conceived, and which have required thousands of years for nature's hand to form. In the Southern section of the Park is Yellowstone Lake, covering an area of three hundred and thirty square miles, while further North the Yellowstone River passes through magnificent canons, after descending the Upper and Lower Falls—two notable cataracts. The climate of this region is one of the most healthful in the world, so that it is anticipated that the Yellowstone National Park will become not only an object of wonder and admiration for the tourist, the artist, and pleasure seeker, but also serve as a sanatorium for the public at large. The Yellowstone country was first surveyed by an exploring party dispatched by the government in September 1870, under the direction of Professor

Hayden, and the report officially made thereupon, had the result of Congress decreeing its conversion into a national domain, under the exclusive control of the Secretary of the Interior. Yellowstone Park lies at an elevation of six thousand feet above sea-level, and occupies an area measuring fifty-five by sixty-six miles, situated at the Southwest angle of Montana, and extending into the Northwestern part of Wyoming. Its limits commence at the junction of Gardiner's River with the Yellowstone on the North and terminate South at a line drawn East of De Lacy Lake along Snade River to a little beyond the Little Yellowstone. This part was dedicated in perpetuity for the use of the American nation.

GENUINE PRESCRIPTION FOR ALL RHEUMATISM

PAIN DISAPPEARS AND SWELLING VANISHES IN A FEW DAYS.

Rheuma—that is the name of the scientific prescription that is putting rheumatism out of business.

Rheuma cures by driving the uric acid from the blood. It also acts directly on the kidneys and is better for them than most so-called kidney cures. Says Samuel Powell, of Geneva, Ky., "For several years I was such a sufferer from rheumatism I could not straighten out my right arm or leg. After taking one bottle of Rheuma my limbs are supple and free from pain."

Gratifying relief comes in a day, because Rheuma acts at one time on the kidneys, stomach, liver and blood. 50 cents a bottle of James H. Orme and all druggists.

THE PEOPLE ARE NOT THROUGH

With Judge Clem Nunn, Former Appellate Judge.

On December first Judge Clem Nunn, of Marion, retired as a member of the Kentucky Court of Appeals after a service of a year and a half as the successor of his distinguished father Judge

Thomas J. Nunn, who resigned on account of ill health. No man ever sat on the bench of the highest court in the state who made a better reputation as a learned judge than young Judge Nunn. His opinions were models of English and as an interpreter of the laws of the state he soon established a reputation as the equal of the most learned. While he retires to private life to follow his chosen profession, he possesses in a superior way those traits and characteristics the state so much needs, and it may not be many years until he is again called upon to assume duties that may prove of increased value to the people. The state may some day do itself proud by again calling Judge Nunn to positions of honor and trust. --Cadiz Record.

SOCIETY IN DELAND, FLORIDA

Reception in Honor of Marion, Ky. Matrons.

Miss Irene Campbell was hostess Saturday evening, giving a bridge party in compliment to Mrs. Harold McDonald, of Chicago, and Mrs. Chastain Haynes, of Marion, Ky.

The Campbell home was very attractive for the occasion, a glowing fire in the big Dutch fireplace shedding flickering light over the potted flowers and ferns arranged gracefully throughout the rooms, in addition to the softly shaded lights. But the young ladies, in beautiful evening gowns, gave the dominant note of beauty. The young honorees were gowned most attractively. Mrs. Haynes wore white taffeta with net over-dress embroidered in pink roses, and slippers of pink. Mrs. McDonald wore peacock blue taffeta over flesh colored silk net embroidered in gold, gold lace hat and gold slippers.

Three tables were formed for the several rubbers of bridge. Mrs. Russell Nahm made the highest score, receiving a pretty flower basket. Mrs. Haynes and Mrs. McDonald were each presented with a pair of silver hat pins. A salad course, coffee and candies were served.

Guests enjoying the evening with Miss Campbell were Mrs. Russell Nahm, Mrs. E. S. Robinson, Mrs. Godfrey Dreka, Mrs. Charles Campbell, Jr., Mrs. Don Heebner, of Orange City, Mrs. E. A. Fowler, of Atlanta and Deland, Mrs. Robert Haynes, Mrs. Claire Baguley, Mrs. Charles Bi-lby, Mrs. Raymond Spaulding, Mrs. Duke Gordon and the honorees, Mrs. Haynes and Mrs. McDonald.

BLACKFORD

Blackford at present, it being Christmas time, is doing a considerable amount of business.

Farmers in this part of the world, are willing to sell their tobacco provided the price suits.

Capt. Wm. Perry is doing a flourishing business with his grist mill crushing machine.

Hog-killing is on docket but, from observation, we find that the demand far exceeds the supply.

A number from Blackford attended the W. O. W. services at Oak Grove cemetery, on the 5th inst, which were rendered in memory of Patrick Brantley, who was a member of that Order.

Colds and lagrippe are very common diseases among our people now. Typhoid fever having appeared in this locality, quite a number of people have submitted to anti-typhoid vaccination. Dr. J. L. Reynolds says he has already inoculated twenty-three patients and they are yet coming.

Robert Lee Hampton, an employe of the Illinois Central Railroad Co., serving as operator at Graham, Ky., who died of typhoid fever at the Illinois Central hospital at Paducah, Ky., on Dec. 1st, 1915, whose remains were brought to Blackford for burial, was a son-in-law of Harlan Crowell and not a son as was published in a recent issue of the Record-Press.

Judging from the signs of the times and the manner in which the guinea-fowls squawk, we presume that some preacher will tie a connubial knot here some time before many more moons.

The memorably year 1915 will soon be numbered with the past and doubtless this epistle may be the last communication from us during this year, therefore wishing the Record-Press and its many readers unbound success in all laudable undertakings during the

HARD--OWEN.

Miss Tennie Hard and Mr. Glenn Owen, were married in Marion Thursday evening, Dec. 9th. The bride is a daughter of Esq. Hard, of near Emmaus, and is a popular and beautiful young lady. The groom is a son of T. C. Owen, of this place, and is one of the county's most promising young men. His mother gave a nice dinner Friday, at which several of their relatives and friends were present. All who were present enjoyed the day, and left wishing them a long and happy life. They will reside with his mother, Mrs. T. C. Owen. We heartily welcome them into our midst.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known in the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address: F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

Cure Old Sores, Other Remedies Won't Cure. The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 50c, \$1.00
