Marion should feel indeed proud and hopeful of the future prosperity of the city, if the control of the city officials already in and those installed last Monday evening. All are business men of enterprise and energy, and it would not have been possible for the city to have selected a more representative board.

COUNCILMAN A. J. PERRY.

COUNCILMAN A. J. Perry, has retired from his position. He has not, as a rule, been in the forefront of the city’s affairs, but he has been a loyal and consistent supporter of the good work that is being done for the city. His service will be greatly missed by the council and the citizens of Marion.

COUNCILMAN GEORGE W. YATES.

COUNCILMAN George W. Yates, who was born in this county, has served on the council for many years. He is a true Democrat and has always stood for the interests of the community. His loss will be felt by many.

LODD'S BRAIN LEAKS.

This curious occurrence was brought to the attention of the department in the morning by a weeping and wailing woman who stated that her husband had a leak in the brain and was driving her crazy. She had brought him to the hospital and the doctors had said that there was nothing they could do about it.

The patient was seen by one of the doctors, who said: "It is not a leak in the brain, but a leak in the heart."

"You must have a heart leak," said the doctor. "It is affecting your judgment and making you act in an irrational manner."

The patient said: "I never had a heart leak before, doctor."

"No," said the doctor, "but you have had a leak in the brain."

"How do you know it's not the brain leak?" asked the patient.

"It's the brain leak," said the doctor. "I can tell by the way you talk."

The patient said: "Well, if it's the brain leak, why don't they cure it?"

"They can't cure it," said the doctor. "It's a permanent condition."

"But why can't they cure it?" asked the patient.

"Because the brain is too weak," said the doctor. "It can't stand the treatment."

"But why can't they make it stronger?" asked the patient.

"They can't make it stronger," said the doctor. "It's too weak already."

"But why can't they make it stronger?" asked the patient again.

"They can't make it stronger," said the doctor. "It's too weak already."

The patient said: "Well, if it's too weak, why don't they give me a stronger one?"

"They can't give you a stronger one," said the doctor. "It's too weak already."

You've hit the right tobacco

when you fire-up some Prince Albert in your old-fashioned pipe or in a maker's cigarette. And you know it! For it is right and proper to smoke something that is a symbol of the men who have struggled through years and years for the sake of the old-time tobacco. And you know it! It is the best, the fairest of the old-timers. It is blended from the finest tobaccos of the world, each of which is carefully selected for that particular blend. And it is the only one that has been made since 1882. And you know it! It is the only one that can be trusted.

Dr. William H. James

"Good tobacco is the very soul of good living."

Mrs. Charles Goode Found It, But That's That. She Kept Her Receipt.

Louisville, Ky., Jan. 3.—Mrs. Charles Goode, who is manager of Goode's tobacco store here, says she understands thoroughly how she found relief from that terrible dryness which has affected all the tobacco in this city, and is the wife of an employee of Great China pipe-craft manufacturer.

"I did not know what caused me to feel so much," Mrs. Goode said recently. "I was nervous and depressed. My doctor did not agree with me, and after hours I had eaten I could not taste it. I felt burned from the gas and the lamp oil. I felt discouraged and felt sick with no appetite."

"My husband begged me to try a tobacco leaf, and she finally agreed. It is a bottle of it, too. I had had no money, although the bank treasurer had been paid."

"When I tried and at once noticed a great change. A week later I was back on my feet, and I no longer felt nauseated. My nerves are good. I don't suffer from depression."

"Before I went into the store yesterday, Mrs. Goode gave me a good and great, and I will not let it be known that I have had that disease."

"The result is very remarkable, and I am now being treated in Marion by Dr. H. C. Brown, who has been in practice for 20 years."

You've hit the right tobacco

when you fire-up some Prince Albert in your old Jimmy pipe or a makin’s cigarette. And you know it! If you can’t get in wrong with P. A., you’re made right; made to spread-smoke tobacco somewhere. Tobacco is a thing that’s honest, and makin’s tobacco is honest. Prince Albert is put up with none of those stinking, scorching tongues and parceled thimbles. The patented process fixes them—and cuts our costs by half. And all the long summer now you glad you are you’re pisin’ with

PRINCE ALBERT
the national joy smoke

You take this testimony straight from the shoulder man. You can trample a barrel of P. A. without a kick. It binds itself to you like your own tongue and makes you feel as though it’s your own tongue at the same time—but that’s what coming you sure as you pin your faith to Prince Albert.

REVIEW OF THE GREAT WAR AND OTHER NOTABLE EVENTS OF THE YEAR 1915

The war has been an event of the first magnitude in the history of the world. It has been a war of unparalleled scope and brutality, a war that has forced people to reevaluate their values and their place in the world. It has been a war that has brought about a great deal of change and has had a profound impact on the course of history.

The war began in 1914 and has been fought on the front lines of Europe. It has been a war of attrition, fought with determination and sacrifice by both sides. The war has been marked by a great deal of violence and has been fought on a scale that has never been seen before.

The war has been fought by both sides, but the Allies have been the ones to emerge victorious. The war has been a war of unprecedented scale and has brought about a great deal of change. The world will never be the same again.
