CRITTENDEN CO., BOY WILL ASSIST

Stanley Administration. Luther Farmer Appointed by Lewis to be Corporation Clerk.

It is pretty generally admitted that Crittenden county boys and girls usually make good and land in lucrative positions when given a chance in competition with those from anywhere else, and so it is that Luther Farmer, a Marion boy, landed in a fine position under the republican Secretary of State in Governor Stanley's cabinet. He was

LUTHER FARMER.

given a trial and no better man could have been found. He is a fine book-keeper and has had experience which particularly fits him for the duties of the office, to which he was appointed, that of Corporation clerk of the commonwealth of Kentucky.

He was born and reared in this county and his parents, Mr. and Mrs. Joel Farmer reside in Marion now. He was educated in the schools of this city and county, and took a business course at Lexington Business College in 1900.

He has been married several years, his wife having been Miss Mary-Smith, of Clinton, Ky., a daughter of Evangelist J. J. Smith. Mr. and Mrs. Farmer have one little girl Jane Catherine about five years of age.

He was deputy sheriff of Crittenden county under his uncle, John F. Franks, and later was chief deputy in 1901 at Owensboro under Internal Revenue Collector E. T. Franks also his uncle. Later he was employed in the tobacco business at Owensboro, and in coal mining at Drakesboro, Ky. where he and a party of capitalists have large interests. Mr. Farmer is interested also in Florida land and other enterprises which proves that he has not been letting the grass grow under his feet since he left old Crittenden, his native home. Everybody here is proud of Luther and glad to know of his success.

Jamie Kevil Honored.

At a meeting of Sikeston Lodge No. 310 A. F. & A. M., Thursday night, January 6th, 1916, the following officers were installed for 1916: James S. Kevil, W. M., T. W. Hoskins, S. W., J. W. Swain, J. W., Chris Francis, S. D., J. Z. Sutton, J. D., F. E. Mount secy., A. C. Sikes, treas., Clarence Barton, Chaplain, A. C. Johnson, tyler. "Standard," Sikeston, Mo.

M. E. MILLER MAIN- TAINS HIGH ESTEEM

Pastor of South Knoxville, Tenn., Church Given Surprise Party on His Birth Anniversary.

Rev. M. E. Miller, pastor of South Knoxville Baptist church was given a pleasant surprise Tuesday evening at his home at 300 Island Home pike, when a party composed of three hundred and ten members of his church went to his home to give a pound party.

A large number of packages, including cans of lard, boxes of candy, canned fruits and other substantial things were brought. Rev. Mr. Miller celebrated the thirty-seventh anniversary of his birth yesterday, and some of the members of the church learning that it was his birth anniversary, planned the surprise party. Arriving at the home of their pastor, the members observed an informal program. Several talks were made, and Mrs. I. C. King gave readings. The affair was hugely enjoyed. —Knoxville, Tenn., Sentinel.

RIHELDAFFER- SKIBINSKY CO.

Only Lyceum Attraction this Season. Last Year's Season Tickets Good.

Last season the Lyceum Bureau from which we secured our talent failed to send us one number of the course we contracted for. We tried until school was nearly out to get that Bureau to furnish an attraction in place of the one that failed to reach us. For some reason they were unable to do so. We are not willing that our Lyceum patrons fail to get the full number of attractions their season tickets call for, so we have secured the Riheldaffer-Skibinsky Co., to make out the full number of attractions.

This Company is represented to be one of the best musical attractions in the lyceum field. So hunt up your season ticket and come and enjoy a fine musical program. This will be the only lyceum attraction of this season so don't fail to take advantage of this opportunity. For those who do not have season tickets the general admission will be 50 cents—School 25 cents.

School Auditorium, 8 o'clock, Friday evening, Jan. 21st.

ROBERT LEAR AT WESSINGTON SPRINGS, S. D., IN BIG MEETING

Writes Entertainingly of His Trip, of the Weather, Knee Deep Snow, Fur Overcoats and Caps, the Meeting and Choir And the Hospitable People of the Far Northwest.

The revival meeting that has been in progress for the past ten days at the Methodist church, under the leadership of Dr. E. G. B. Mann, is proving to be a most helpful and joyful season of worship by the good people of Wessington Springs. We have great reason for returning our heartfelt thanks to Rev. Hargett for securing the services of such a saintly gentleman. He is a deep and solemn thinker and enters into the work from the bottom of his heart to the crown of his head, and any observer can see by his every day walk and pleasant manner of speaking, that his foot steps have been very carefully guarded in the many faithful years of his ministerial work.

The noble choir did themselves doubly proud in a musical way last Sunday evening and it seemed for a time as if the roof that sheltered them would certainly change its position and we must not forget the splendid singing of the large congregation. Mr. Lear lead the singing in his usual pleasing manner, and during the evening rendered a most beautiful and touching solo, entitled, "A Broken Heart," written by a young man in England, and one has to drift into the spirit of the occasion to understand the meaning, and it seemed if every one present was wafted away to a higher plane during the rendition of this beautiful solo, and the voices and expression that attended Mr. Lear all along the way, surely caused great rejoicing among the angels around the great white throne; and will ever ring for time, to come in the ears of every one in the hearing of his excellent voice. —Wessington Springs Democrat.

It is a pleasure for me to give to your worthy paper a report of my trip and experience since I left home on the morning of Dec. 31st, 1915. My first change was Evansville, Ind., leaving there at 12:10 p. m., over the C. & E. I

for Chicago where I arrived same day at 10:00 p. m., twenty minutes late. I rushed through the great metropolis for about a mile conveyed by the Parmelee Bus Line, reaching the Chicago, Milwaukee & St. Paul depot just in time to take a pullman for Manilla, Iowa, arriving there at 12:45 p. m., New Year's day. There I changed cars and went into the day coach over the same line, arriving in Sioux City at 4:45 in the afternoon. I spent two hours in that bustling city of 65,000. The people were on the streets in great numbers, realizing it was the beginning of a New Year, also a new experience to them, for the places that had been doing a nefarious business were all closed up hard and fast, and "Old John Barley Corn" had been given his passport from the state, to take effect immediately. 502 saloons went out of business in the state the last day of 1915.

From Sioux City I took the night train for Woonsocket, S. D., making a safe landing about 2:00 o'clock Sunday morning. My trip was an enjoyable one, had many pleasant conversations on the way and just about half an hour before I reached Woonsocket I got into an interesting conversation with the conductor, who was a gentleman in every sense of the word. I was so absorbed in that conversation that I left the train with just my traveling cap on, leaving my hat in the rack to continue its long journey. I was a little perplexed to think I was so far from home without a hat. Of course my cap was alright, but a little light weight for this climate. The railroad agent was also a clever man and wired for my hat to be sent back on the next train I received it just as I was ready to take a 16 mile auto drive to the beautiful and historic city of Wessington Springs. There is a railroad running in here from Woonsocket, but on Sunday there is "nothing doing" on that line. We had a cold and snowy winter

RECEIVER FOR CENTRAL LIFE OF LEXINGTON

Former Kentucky State Auditor, H. M. Bosworth, is President of The Company.

Frankfort, Ky., Jan. 15.—Master Commissioner Walter Jeffers in circuit court here today was appointed receiver for the Central Life Insurance company of Lexington, Ky.

State examiners recently reported its capital impaired. The report placed its assets at \$12,120.45 with liabilities of \$260,877.50. Former State Auditor H. M. Bosworth is president of the company. Its last annual statement on Jan. 1, 1915, showed over \$10,000,000 insurance had lapsed before the previous year.

Continued litigation with dissatisfied stockholders was assigned as the chief cause which led up to the company's present difficulties.

Weather Forecast For Last Half of January.

Sixteenth, cold wave. Seventeenth to eighteenth, moderating. On the nineteenth a storm will form over the Northern states. Twentieth and twenty-first, heavy rain in the Southern and snow in the Northern states. Twenty-second to Twenty-third, cold wave. Twenty-fourth to twenty-fifth, cold and clear. Twenty-sixth to twenty-seventh, moderating. Twenty-eighth to twenty-ninth, cloudy and squally. Thirtieth to thirty-first, the month will close with rain, over the eastern and snow over the western states.—Ex.

Tennessee Zinc Lands Are Sold For \$2,000,000.

Knoxville, Tenn., Jan. 15.—Samuel J. Wetherell, of Philadelphia, Pa., has purchased eleven thousand acres of zinc property in Hancock county, Tennessee, for approximately two million dollars. A railroad 26 miles long will be built from the Southern railway at Lone Mountain to Sneedville, and later extended to Speers Ferry, Va. A plant of ten thousand tons daily capacity and the building of a modern town by the Wetherell interests are contemplated at a total outlay of ten million dollars.

morning drive, but our machine pulled through as though it had been used to such experiences.

I arrived about eleven o'clock Sunday and went immediately to the church and to my great surprise I found Dr. Mann, whom I thought was one day late, in the pulpit in the middle of one of his powerful messages that had the audience tightly gripped. At the close of the service Bro. Hargett the pastor, called me forward and introduced me to the large audience of cultured, hospitable and appreciative people. I shall never forget the glad welcome tendered me as I have never been more cheerfully received. Bro. Hargett, who is a Kentucky boy, tho having been in the Northwest for 13 years, is a strong character, a man of faith and tremendous conviction, is now filling his sixth year as pastor of the great M. E. church here. His church is one of the best, a congregation of loyal religious people.

Wants New Naval Academy.

Washington, Jan. 11.—A naval and aviation academy, to cost \$10,000,000 at San Francisco, or on San Francisco bay is proposed in a bill introduced today by Senator Phelan of California.

"Annapolis has reached its limit of capacity," said Senator Phelan. "The secretary of the navy has approved the purpose of the bill and location of an academy on the Pacific coast."

WHAT MANY KENTUCKY FOLKS SAY.

Louisville, Ky.—"When I lived at Hardysville, Ky., I had rheumatism, constipation, took cold easily and blood was thin. I was 'down and out' so I could not do any work. I bought one bottle of 'Golden Medical Discovery' and was pleased that it overcame my rheumatism, gave me an appetite, acted as a laxative, and made me a new man. I give all the credit to Dr. Pierce's Golden Medical Discovery as I took no other medicine at the time."—MR. W. A. HATCHER, 2025 4th Ave.

A HUMAN MATCH FACTORY.

The body contains phosphorus sufficient to make 483,000 matches. Phosphorus is one of fourteen elements composing the body—divided among bones, flesh, nervous system and other organs. The perfect health of body requires a perfect balance of the elements. These elements come from the food we eat—the stomach extracts and distributes them. But if stomach is deranged—the balance of health is destroyed and the blood does not carry the proper elements to the different organs, and there is blood trouble—nervous trouble—rheumatism—gout—heart trouble. Pain is the hungry cry of starved organs. Put the liver, stomach and organs of digestion and nutrition into a condition of health. That is just what is done by Dr. Pierce's Golden Medical Discovery, which has been so favorably known for nearly 50 years. It is now put up in tablet form, as well as liquid, and can be obtained of medicine dealers everywhere or by mail by sending 50 cents in 16 stamps for trial box—address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up nearly 50 years ago. They regulate and invigorate stomach, liver and bowels. Much mistaken but never equalled. Sugar-coated and easy to take as candy.

Powder Plant Blows Up.

Philadelphia, Jan. 11.—A terrific explosion occurred late tonight at Carney's Point, where is located one of the big plants of the Dupont Powder company. Wire communication was interrupted by the explosion which was heard in this city 25 miles distant. Whether any lives were lost has not yet been learned.

GERMANY OFFERED TO MAKE PEACE WITH ITALY

Concessions Were Rejected and the London Pact Signed.

Paris, Jan. 11.—Germany, in the name of Austria offered to make peace with Italy at the time when the latter prepared to sign the London pact of the allied nations against separate action in making peace, says the Petit Journal.

Austria, declares the newspaper, proposed to cede to Italy the Italian Trentino and the region now occupied by the Italian forces the Isonzo and on the Carso plateau with Gorizia and Grado to the south. Albania was to continue autonomous, Italy retaining Avalona with the hinterland. In addition concessions are declared to have been promised in Asia Minor and the free and peaceable enjoyment by Italy of her African colonies, Tripoli, Massowah and Somaliland guaranteed.

These conditions, say the Petit Journal, were unhesitatingly rejected and the engagement against a separate peace was signed.

Italy To Requisition

All Grain In Country.

Rome, Jan. 10.—(8:45 p. m.)—A decree signed by the duke of Genoa as lieutenant general of King Victor Emmanuel, orders

that a census of all grain be taken not later than Jan. 25. It is provided that any person failing to announce the quantity of grain he possesses or making any false statement is punishable by a year's imprisonment and a \$1000 fine.

Another decree establishes rules for the requisitioning of grain by the military authorities. Resistance to requisition is punishable by a year's imprisonment and \$2,000 fine. In addition to the confiscation of the cereals.

The census and requisitioning measures are intended to prevent speculation in cereals, to insure a sufficient supply for the necessities of the army and to keep down prices.

The price of cereals requisitioned is to be established by committees appointed by army officials and is to be within limits fixed by the ministry of war.

CUMBERLAND RIVER

Steamer Sunk—Crew Escapes.

Ashland City, Tenn., Jan. 10.—The steamer, A. B. Vance, Paducah, Ky., owned by the Ohio Valley Tie Co., in charge of Capt Davis, sank in Cumberland river at Knight's Landing, four miles southeast of this place at 9 o'clock Tuesday night.

The cause of the sinking is unknown. From the time it was first discovered that the boat was sinking it was only five minutes in going down. All of the crew were asleep at the time save the watchman and fireman. Part of the crew escaped only in their night clothes, and nothing was saved from the boat by the crew.

The Vance had in tow five barges, and was laid up at the landing loading the barges with crossties for the Moss Tie Co.

The crew left at once for Paducah to get another boat. It is understood that the boat was covered by insurance, and was valued at something like \$15,000 or \$20,000. It is not known whether an attempt will be made to raise the boat or not.

UNITED STATES WILL KEEP OUT OF TROUBLE

No Chance of Judging as Between "Barbarous" Acts.

Washington, Jan. 11.—It was authoritatively stated tonight that the United States government would not agree to the suggestion by Sir Edward Grey to Germany that a tribunal of American naval officers investigate belligerent charges and counter-charges of inhumane conduct by naval officers. Ambassador Page at London, thru whom Sir Edward's communication was forwarded to Berlin, probably will await an expression from the German government concerning its attitude before he brings the subject to the attention of the state department here. Officials conversant with the situation, however, say informally that the United States undoubtedly will continue to adhere to its policy of non-intervention in controversies of this kind between belligerent nations.

Getting a Hubby is Not Easy in The Windy City.

Chicago, Jan. 18.—A cry of "stop thief" prevented the escape of a bashful bridegroom here a few days ago. After two years' courtship Stephen Mcbett and Mrs. Mary Alphonso went to the city hall to get a marriage license. Then Mcbett weakened. As he started toward the street at top speed Mrs. Alphonso screamed: "Stop thief! He has got my pocketbook."

Mcbett was captured by a patrolman taken to central station, where the woman broke down. "He's not a thief," she confessed. "But I knew if he got away now he'd never get this close again." Later the couple got the license and started for the church.

TRACED RIVER OF DOUBT

California Engineers Confirm Explorations of Roosevelt.

San Francisco, Jan. 18.—The tracing to the source of the Rio Dubina (River of Doubt), the existence of which was reported by Col. Theodore Roosevelt on his return from South America, was described today by George and Stephen Gester, of Berkeley, Cal., engineers, who returned today from an expedition in the Andes mountains.

The engineers said they reached the headwaters of the River of Doubt by crossing the Andes with pack mules from Lima, Peru. They said the river has its source among glaciers high up in the mountains. They described the river as running 900 miles from the boundary of Bolivia into Brazil, emptying into the Madeira river near latitude five.

The engineers said they penetrated the "fever country," where Col. Roosevelt was stricken. They were attacked by insects, they said, and encountered enormous serpents and other reptiles and strange animals in the dense forests through which they cut their way with hatchets.

Great Business Losses Due to
Neglect

W. WITHERS MILLER

President of the Polk-Miller Drug Company, Richmond, Va., is authority for the following extraordinary statement:

"I estimate that the business men of this country could increase their efficiency fully ten per cent by taking an occasional laxative and not neglecting the bowels as most of them do."

He also said that if the Department of Commerce in Washington would present each business man in the country with a box of Rexall Orderlies, it would be of great benefit to the national welfare. Rexall Orderlies are prompt in action, pleasant to take and never gripe, can be used by men, women or children, and are just the thing for toning up sluggish livers.

LOYD'S BRAIN LEAKS.

By F. S. LOYD.

Mrs. Joe Stewart said, "Dear me, you can never find a thing without asking me where it is. How did you get along before we were married?"

"Things stayed where they were put then," replied Joe.

A friend asked Willie Wyatt, "Can you run a typewriter?"

"I used to think I could, but I married one," said Willie.

Ambros Wheeler says the fellow who hasn't the price of a meal in his pocket never needs a tonic to give him an appetite when he goes to town.

Uncle Bill Loyd says when a bachelor marries, he needs, is the consent of the girl. But when a widower marries he has to have the consent of the entire neighborhood.

Albert Elder says it would be a grave thing for a man if he knew as much about himself as his wife thinks she knows about him.

Jim Ray says the reason why a man has to give in when his wife starts an argument is because she never gives out.

Ed Baker says maybe the reason why a woman's summer garb looks so cool is because you can see through it.

Charley Byrd says there are times a man starts things he can finish, but the time he starts to make a fool of himself isn't one of them.

Old Daddy Threlkeld says a man will get mad and tell you to go to the devil but a woman will smile at you and lead you there.

Uncle Dock Green says what has become of the old fashioned man who, when he sat down to the table, tucked his napkin in his collar as if he was preparing to shave?

Eme Watson says if you want to find the Easter oil bottle you will have to ask mother where she put it; but if you want to find the whiskey bottle you will have to ask father where he put it.

Carliss Oakley said, "Pa, what is an optimist?"

"An optimist is a bow-legged man who is happy because he isn't cross-eyed, my son," said his father.

George Crider says you never heard of a man working himself to death when he was working for another man.

Oscar Hibbs says tell a girl that she looks cute, and she will want to kiss you. Tell a man he looks cute and he will want to kill you.

Albert Elder says a single man has to have a conscience to tell him when he has done wrong. But a married

man doesn't need a conscience. He can rely on his wife telling him all about it.

John Travis says a man can be patient with any woman but the one he is married to.

Mrs. Emma Crowe says men imagine they know what suffering is, but they are mere pikers compared to a fat woman whose shoes are so tight that she can't stand up and whose corset is so tight she can't sit down.

Uncle Dock Green says if all the girls were wealthy and also deaf and dumb, there wouldn't be any bachelors in this country.

Hub Butler says a man with a three days' growth of black whiskers isn't beautiful, but he looks better than a woman who has about a quarter of an inch of white fuzz all over her face.

Etna Watson says when mother has company and is putting on dog, she has a napkin on each plate at the table and father will usually spoil everything by eating and forgetting to use his napkin or by saying "when did you get the napkins?"

Spurgeon Blackburn says when your name gets into the paper because you performed a brave deed, nobody in town sees the item. But when your name gets into the paper because you were arrested for being drunk, everybody in town sees the item the minute they pick up the paper.

KENTUCKY'S ROAD COMMISSIONER

Robert C. Terrell Has Successfully Put State Good Road Laws into Operation

HEAD OF STATE DEPARTMENT

Called From the Chair of Rural and Highway Engineering of State University by Governor McCreary—Great Work Accomplished During the Past Three Years in Blue Grass State.

Frankfort—Kentucky's Road Commissioner, Robert C. Terrell, who has successfully put into operation the good roads laws of Kentucky and for the past three years has been the head of the road department, was born near Bedford, Trimble county, Kentucky, in 1884. After finishing the common school of that county, he entered the State University of Kentucky and graduated from that institution in 1906, receiving the degree of bachelor of engineering, and was given the master's degree in civil engineering in 1908.

Immediately after receiving his degree in 1906, he took charge of the location of the Duck Fork extension of the Louisville & Atlanta railway, now a portion of the L. & N. system. In addition to locating the road, Mr. Terrell mapped and opened up a large coal field for the Kentucky River Coal & Coke Co., which was afterwards leased by the Big Hill Coal Co. of Pennsylvania. In June, 1907, after completing the work with the Kentucky River Coal & Coke Co., Mr. Terrell was employed by the Arkansas, Louisiana & Gulf Railway at Hamburg, Arkansas, as assistant engineer on twenty miles of construction, where he remained until its completion in the summer of 1908.

ROBERT C. TERRELL
Kentucky Road Commissioner.

Through Mr. Terrell's influence with the Board of Trustees of the State University of Kentucky, there was established the chair of rural and highway engineering in the Department of Civil Engineering of that institution. He was unanimously chosen professor of that chair. He immediately began the campaign to secure not only the undergraduate students in the course, but also arranged to have the practical road builders of the state to take short courses and attend lectures during the winter season. The course grew very popular, and many students were enrolled in both the two and four year courses for undergraduate students and large numbers of the county road men, as well as the county judges and magistrates matriculated for the lecture courses.

In 1912, when the Department of Public Roads was established by the General Assembly, Governor McCreary called Mr. Terrell from the chair of rural and highway engineering of State University of Kentucky and appointed him the first Commissioner of Public Roads of Kentucky. Mr. Terrell assumed his duties on July 1, 1912, and has untiringly given his time and attention to the upbuilding of the road system of the state. Through his efforts and the showing made by the department prior to the meeting of the General Assembly of 1914 was made possible the passage of the state aid road laws in Kentucky, which provide for intercounty seat system of highways and a five-cent tax, together with the license tax on automobiles to be spent for the construction of the state system of highways, the state paying one-half the cost and the county one-half the cost of such improvement.

Mr. Terrell, through his splendid corps of assistants and thorough organization, has had active supervision and charge of the preparation of the plans, specifications and estimates of cost and actual construction of more than one thousand miles of road, and has thoroughly demonstrated to the citizens of the Commonwealth of Kentucky the advantage of having roads constructed on scientific principles, and has made possible the new road laws and has been successful in securing the co-operation of the county officials throughout the state.

Mr. Terrell, when interviewed on the subject, stated he was well pleased with the success of the new road laws, and that a good showing had been made this year, and that fully fifty per cent more work would be accomplished during the year 1916, as the county officers of nearly every county in the state have already signified their intention of taking their pro rata part of the state aid fund for the coming year, and many more counties are preparing to vote bond issues. —American, Nashville, Tenn., November 14, 1915.

Good Deal For City.

The twenty thousand dollar Providence municipal light bonds were sold to Weir, Roth & Co., of Cincinnati, Ohio, who will pay the city a premium of \$1,120, which, with the cost of having the bonds lithographed, attor-

neys' fees, and so forth to be borne by the purchasers, will run the price paid for the bonds up to 106. This is regarded as a fine deal by the city officials. The bonds will draw 6 per cent interest for the period of twenty years —Enterprise.

DEATHS

Mandena Hill Adams, daughter of the late James L. Hill, was born Nov. 28th, 1838, died Sunday morning, Jan. 16th, 1916, aged 78 years, 1 month, 18 days. She had been in bad health for two years past. She was married April 25th, 1855 to Wm. A. Adams, who preceded her to the grave seven years ago. She is survived by 4 sons; J. Calvin, Frank, Wm. L. and Allie C., all of this county except W. L., who removed last March to Beulah, Washington. She is survived by three sisters; Mesdames J. S. McMurtry, of this county, Lavinia Cruce, widow of Frank Cruce, of Tipton, Ky., and Jimmie Rankin, of Gaylord, Mich. She had been a Christian for many years, having held her first membership at old Piney Fork, later moving it to the Cumberland Presbyterian church here and when the church united she and her husband moved their membership to the Presbyterian church U. S. A., at Crayne. The funeral and burial took place Monday at one o'clock at Chapel Hill, Rev. J. F. Price and A. J. Thompson officiating.

William H. Cardin died at his home near View, Saturday afternoon at 1:30 o'clock of heart failure. He had been in feeble health for some time but ate a hearty dinner Sunday and his sudden death was not expected. His wife—who is in very feeble health—survives him, also ten children, as follows:—James, the oldest, residing at Big Rock, Tenn.; Mary, wife of Wm. Riggin, of Madisonville; John, of Tyner's Chapel section; Margaret, wife of Watson W. Rice, of near Marion; Mrs. Ida Conyer, of this city; Azalea, wife of G. P. Watson, of Paducah; Willie, wife of Jesse Binkley, who lived with her parents; Rolly, of this city; Jesse, of Mt. Carmel, Ill.; and Clarence, who resides in Oklahoma. All of the children except the oldest, James, and youngest, Clarence, were here to attend the funeral and burial, but these two could not be reached with telegrams. Also two sisters survive: Mrs. C. C. Underwood, of Caruthersville, Mo., and Mrs. Pymie Burton, of Fort Worth, Texas; and two brothers, A. H. Cardin, of this county, and Robert Cardin, of Clark county, Ky.

The interment was in the New Marion cemetery Tuesday afternoon at two o'clock. Rev. J. B. Trotter officiating.

William Harrison Cardin was born in old Virginia, Nov. 14th, 1827, and removed to this section with his parents in 1835 and had resided in what is now Crittenden county, over 80 years.

He was married to Miss Sarah Tutt, of near Guthrie, Todd Co., Ky., in 1849, and they lived happily together for 66 years. When he first located in this section Crittenden county was not

formed, and Marion was not on the map. He had seen the birth and growth of Marion from a cross roads, to its present size and importance.

Mr. Cardin professed faith in Christ in 1883 when he was 56 years of age and united with the Christian church at Salem and retained his membership there until his death.

He was a companionable and lovable gentleman of the old southern type and never happier than when accommodating a friend. His life companion is lying at death's door and ere long will join him in a better world.

GLASS OF WATER
BEFORE BREAKFAST

And Every Two Hours During the
Day Wash That Poison From
Your System—Every Day.

One of the greatest specialists in the United States says: Rheumatism is easier to avoid than cure. Uric acid continuously accumulating in minute needle crystals absorbed by the blood, then settling in the joints and muscles. The kidneys very often inactive and weak are unable to throw the accumulation off—severe pains set in and this is rheumatism.

Drink a glass of water every two hours with two teaspoonfuls of Eswell in it. This will flush your kidneys and neutralize the uric acid. More relief has been given by this simple remedy to Rheumatic sufferers than you would ever dream of.

The very section in which you live is, or should be evidence enough for you. Mr. B. H. Moredock, a well-known traveling salesman, living in Marion, will tell you about it.

He was in a very serious condition—couldn't walk. He is now on the road selling his goods. He spent a great deal of money and lost time without results. Yet in one month he started on his trip after beginning a treatment of Eswell.

You can get it from J. H. Orme \$1.00 a bottle or six bottles \$5.00.

Judge Gordon Offers His
Fine Dairy Farm for Sale.

Judge Gordon offers his "Dell Meade Dairy farm" for sale, in this week's Madisonville Hustler which says:

"This farm is splendidly improved, and highly productive. This is the best equipped and best located stock, and dairy produce farm in this section of the state. Its location is a great advantage. It is in the city school district. Good roads all the year. Electric light and power from the city plant, at small cost. Any person desiring a good home and farm should inspect this one before purchasing elsewhere.

I will sell this farm at a very reasonable price, and upon easy terms, or will accept at fair

value other well located property, in part pay.

Come and inspect the place and see me for price and terms."

COURT EDICT AS
TO RHEUMATISM

Judge Barhorst Testifies Rheuma Has
Given Permanent Relief to Many.

No matter how many so-called remedies for rheumatism you have tried, do not be skeptical about the wonderful curative power of Rheuma.

There is no other preparation like Rheuma. It goes to work so quickly as to leave no doubt in your mind of the ultimate successful and permanent relief. One dose daily acts on the diseased kidneys, blood and joints more readily than any other known remedy. It cleans out the "human sewers" and thus purifies the entire system.

"I, John Barhorst, Justice of the Peace of McLean Township, Ft. Laramie, Ohio, do certify that I was cured of a very bad case of rheumatism by using two bottles of Rheuma. It is now two years since I used the remedy, and I am still as well as ever. Previous to using Rheuma I was a cripple, walking on crutches. I have advised Rheuma to at least a dozen persons and each one speaks as highly of it as I." You can secure a bottle of Rheuma for only 50 cents of James H. Orme or any druggist.

Private Acetylene Gas Plant

Wrecks Home And Kills Girl.

Paris, Ill., Jan. 15.—Florence Cole, 18 years old was instantly killed tonight when an explosion of acetylene gas wrecked the Cole home in the suburbs of this city. Her father, Warren D. Cole, is cashier of the Edgar county National bank.

The gas plant was located in

the yard some distance from the house but the force of the explosion wrecked all but one of ten rooms in the house and partially wrecked the barn and garage 200 feet away.

For Children's Cough

You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system. Dr. King's New Discovery is antiseptic—loosens the cough and soothes the irritation. Don't put off treatment. Coughs and Colds often lead to serious lung troubles. It is also good for adults and the aged. Get a bottle today. All Druggists. 3

Here we are with a few words and a glad welcome for the New Year, 1916.

The lagrippe is raging in this part of the community; sickness in nearly every home.

Born to the wife of Cecil Alexander, Jan. 15th, a boy.

Moving has been taking place in this community; Fred Crayne has moved to his farm he purchased of L. A. Guess. Burk Crider and wife have moved to the lease recently purchased of Chas. Hunt, by the Crider brothers.

Jim Gibson died a few days ago of lung trouble, and was buried at Piney Fork. James Alexander died Wednesday and was buried at Piney Fork Thursday. He suffered from lagrippe and pneumonia.

Raymond Crayne, of Piney Fork, has pneumonia, but is some better at this writing.

Mrs. Elmary Boucher has been quite sick with lagrippe.

We are having some of the coldest weather we've had in a coon's age.

JAMES PERRY PIERCE

Passes Away at His Palatial Home On North Main Street Tuesday Morning.

Judge J. P. Pierce, one of the city's and county's oldest and best known residents, died Tuesday morning at 5:30 o'clock of cirrhosis of the liver with which he had been afflicted for some time. He had been confined to his room and bed much of the time for several months gradually growing weaker until relieved by death.

He is survived by his second wife, who was Mrs. Ellie Cox Langley to whom he was married about nineteen years ago, and their one daughter, Miss Miriam, also five children by his first wife, who was Miss Emeline Ralston and to whom he was married in Nov. 1860, and who died July 21st, 1895. The surviving children of hers are Mrs. Florence Yandell, wife of W. B. Yandell, Cortez J., Ira C. Pierce, of this city; Norvel L. Pierce, of Woodville, Miss.; and G. Collin Pierce, of St. Louis, Mo.; two brothers, George, of Paducah; and John A., of Salem; and one sister, Mrs. Greenlea, of California, also survive.

Judge Pierce was a life long member of the Baptist church and professed faith in early manhood and united with the church at Caldwell Springs, where he then lived in the southern part of the county. He moved with his family to Marion about thirty-five years ago, and was a charter member of the First Baptist

church here in which he was also a deacon. He was honored with the office of superintendent of the Sunday school, which office he held for twenty-five years. Judge Pierce held many offices of trust from the people. He was Magistrate, Sheriff, and County Judge of this county, all of which offices he filled with credit and honor to himself and to the county.

He was always interested in school, church, municipal and state upbuilding and was a leader of more than ordinary ability. James Perry Pierce was born in Tennessee, Dec. 6th, 1841, moved to Crittenden county in childhood with his parents, and had resided in the county two-thirds of a century and in the city of Marion one-third of a century. Died Jan. 18th, 1916 at 5:30 o'clock, a. m. Age, 75 years 1 month and 12 days.

The funeral was held at the residence on north Main street at 2:00 o'clock Wednesday afternoon, Rev. J. B. Trotter officiating. The interment was in the Pierce lot in the new cemetery. There were many beautiful floral offerings.

General Victoriano Huerta

El Paso, Tex., January 14.—General Huerta died at his home here last night at 8:35 o'clock.

General Huerta who succeeded General Francisco I. Madero in executive power in Mexico City and later left Mexico, died of cirrhosis of the liver. He was surrounded by his family when the end came. His death was not unexpected.

Funeral arrangements are to be made later. It is believed an effort will be made to arrange for his burial in Mexico.

Huerta and Agents Indicted As Plotters.

San Antonio, Texas, January 13.—General Victoriano Huerta, his former purchasing agent, Jose B. Ratner, and ten others were indicted Wednesday by a federal grand jury for conspiracy to violate the neutrality laws. Huerta was arrested in New Mexico in company with General Pascual Orozco several months ago while enroute to El Paso to

take command, it was charged, of an entirely new revolution movement in Mexico which supposedly was promoted by the Cientifico element.

He was at liberty in El Paso on bond for a time, but after General Orozco jumped his bond and fled, Huerta was arrested as a military prisoner and detained in Fort Bliss. Orozco later was killed in a battle with deputies near Van Horn, Texas.

Frank Clark and wife, of Missouri, came in on a visit to his parents.

Ray Paris spent Saturday night with his brother, Kirby Paris, of Frances.

Cordie Sigler visited her cousin, Mrs. Shelly Matthews, of near Frances last week and reported a delightful time.

TANLAC SECURES HIGHEST RECORD

Quality Tells the Interesting Story of this Extraordinary Medicine.

No other medicine ever has approached the wonderful record of Tanlac. Its success is a romance of the staid business world—a success built on merit so unusual that in just nine months after Tanlac had been introduced, one million bottles had been sold to men and women who had learned its superior qualities for the relief of ailments of the stomach, liver and kidneys and catarrhal affections.

Tanlac appeals to the best people everywhere. These are the men and women who judge intelligently and impartially, and the result always is a Tanlac verdict. Upon the endorsement of many thousands of well-known people rests the great and secure popularity of Tanlac.

Those who take Tanlac always return for the second bottle because the first few doses establish its merits. Tanlac is so efficient and pure, it at once makes known its value in derangements of the stomach, indigestion, upset nerves and debility.

Tanlac, that has come to be generally known as the Master Medicine, may now be obtained in Marion, Ky., at the J. H. Orme Drug Co., where it is explained daily to many people, and may also be obtained at the A. T. Brown Drug Co in Blackford, Ky.

Keep Our Memory Green.

While we must all sooner or later know the sadness of earthly parting the doubt and gloom that once hung over the grave have been dispelled by a higher and holier understanding of God's laws. Every heart that throbs must know this momentous sorrow—death—some day. The innocent babe, the romping boy, the sweet maiden, the comely matron and the old man will all gather in the silent halls of death, some day.

As we stand within the sacred precincts of the tomb where the calm of Heaven's benediction rests we are consoled by that Divine promise of a life beyond, and the thought that our dear ones sleep in everlasting peace. Here may the heart find balm in undisturbed reverie—here may it unburden its care in sweet and holy communion. Here is where beauty and solace for the living and peace and rest for the departed is found.

The desire to remember and be remembered after death is innate with all mankind. Each century is studded with it's memorials.

No monument can be too noble; none too simple. The little head stone in the country churchyard speaks to the passerby as eloquently as the massive tomb of Cyrus. Each is the heaven born expression of love and reverence.

Every flower that blooms, every bird that sings, every heart that beats, echoes the prayer—"God Keep our Memory Green." Adv. Written by G. B. Johnson.

CO-OPERATION THE CHIEF SUBJECT OF

Big Farmers Meeting Held at Lexington, Kentucky Last Week.

LARGE CROWDS IN CITY

Purpose of Breeding Bureau Explained by Hooper in Absence of Camden.

(Continued from last week.)

"In combatting the disease, purgatives and a heart stimulant are valuable. But the best remedy is a change of feed. Of course this is often expensive, but I believe it is cheaper to effect an absolute change rather than wait to determine which constituent of the feed contains the poisonous substance."

A resolution commending the work of the Experiment Station in its efforts to help the horse, mule and jack breeders of Kentucky was offered by T. J. Biggerstaff, of Mt. Sterling, and

adopted by a unanimous vote. It follows:

"The Kentucky Horse, Jack and Mule Breeders' Association, at its meeting in Lexington on January 6th, desires to go on record as endorsing the work in horse husbandry that has been carried on by the Experiment Station during the past two years. We especially desire to commend such studies as the feeding of mules, the experimental study of the virility of stallions, tests for pregnancy in mares, the study of the inheritance of coat colors in horses, the breeding and raising of saddle horses, and the valuable work that has been done in the standardization of Kentucky jack stock. We also desire to commend the recent action of the Kentucky Racing Commission in placing a number of thoroughbred stallions for breeding purposes, under the control and supervision of the Department of Animal Husbandry of the State University, as a step in the right direction."

"Be it resolved, therefore, That we extend to the Kentucky Racing Commission, the director of the Experiment Station and to Professors Hooper and Anderson our heartiest appreciation of their efforts looking to the development of the horse, jack and mule interests of the State, and that a copy of these resolutions be spread upon our minutes and transmitted to the press and to the Governor of the Commonwealth, in order that the Governor of the State and the People at large may be advised somewhat as to what is now being done to promote the horse, jack and mule interests of Kentucky."

A round table discussion led by Newt Rankin, of Carlisle, and John Marr, of Millersburg, on "The Best Method of Breeding, Rearing and Selling Mules," aroused considerable enthusiasm among the breeders present, many of them rising to ask searching questions of Messrs. Rankin and Marr. Both men urged the Kentucky type of mule as the best for all around purposes. Mr. Rankin, who has had considerable experience in selling mules in other states said the fact that they came from Kentucky made most of his sales successful.

Mr. Marr discussed to some extent the principals by which owners should be governed in seeking a jack to which they would breed their mares to get the best mule colt.

Mat S. Cohen, Commissioner of Agriculture, delivered an able address on "The Outlook for the Horse Market." "We are now in the midst of the great horse famine in this country, that we have ever seen," said Mr. Cohen. "The oft repeated statement that there is no market is untrue. Several prominent horse dealers have told me that they conducted a forty-day campaign over Kentucky looking for good horses several of them having representatives out over the State, and they found a surprisingly small number."

"It is reported that in one small barn in Lexington there are more good harness horses than in all the rest of Kentucky combined. I attribute this situation to the fact that owners of good stallions have made service fees for their stallions, entirely unreasonable. A service fee of \$50 to \$75 is entirely too much."

"The horse famine can not be blamed on the buying up of animals for the European war, for those men want only an average horse. There is a real scarcity of good horses—and I mean by that a three or five-gaited horse."

"There is also in Kentucky too much of the middle man, the fellow with his ear continually turned toward the railroad station. This has driven more people home horseless, than any other factor. Some men take commissions 'right-handed and left-handed.' A number of big horse buyers from other states, have complained of being 'fleeced' when coming to Kentucky to get a pleasure horse."

"However, there is one desirable feature, which I want to mention about the horse. There has been been, nor will be, a trust controlling the market for the 'pleasure horse.'"

A nominating committee for officers of the association, composed of John J. Redmon, J. J. Hooper, Claude Williams, Ollie Troutman and Harry Bourgoyne, was appointed and reported shortly before the close of the session. Their report was accepted by a unanimous vote.

Mat S. Cohen was elected president; Jerry Tarlton, first vice president; Joe T. Collins, second vice president; W. S. Anderson was re-elected to be secretary-treasurer. The executive committee elected yesterday is composed of J. N. Camden, Shelby T. Harbison, Harry McAfee, Newt Rankin and J. J. Hooper.

The first step to real and effective

co-operation between the farmers in solving their marketing problems, was taken yesterday afternoon at the Marketing Conference, when the Kentucky Co-operative Marketing Association was formed, officers elected and a committee appointed to draft a constitution and by-laws.

Frank McKee was elected president; Dr. Fred Mutchler, secretary, and Dr. J. M. Maxon, chairman; Robert M. Allen, Frank McKee, E. M. Lafferty and C. D. Bohannon on the committee for drafting the constitution and by-laws.

Robert M. Allen delivered an able and instructive address on "The Principles of Co-operative Marketing." "Farming is a business," he said, "and like all trading it becomes profitable only when there is co-operation. By this means the farmers will be able to command a wider market. It must come through an assemblage of the products of live stock to be marketed through co-operative companies and societies."

Professor H. C. Taylor, head of the Department of Agricultural Economics at the University of Wisconsin, made a forceful talk on co-operation, telling how effective organization among the farmers of his state had "busted" the big trusts opposed to their interests.

C. C. Thomas, secretary of the Board of Commerce of Somerset, sounded also the vibrant note of "co-operation," pointing out the methods he has used in bringing together the farmer and business man, working toward a common end in Pulaski county. He said the possibilities of Kentucky to advance to the foremost position among states of the Union were wonderful, but that the keynote to this advancement lay in co-operation.

Professor C. D. Bohannon made a preliminary report on "The Present Market Conditions in Kentucky." He followed to a large extent after the example of other speakers urging a close and compact union of the farmers working with a common purpose. But in addition he pointed out examples where communities in Kentucky were benefitted by active co-operation.

Dr. James McKee talked also on reasons for an effective organization of the farmers to improve marketing conditions.

An address by W. H. McLaughlin, of Raphine, Va., will be a feature of the Sheep Breeders' Association meeting this morning at the Experiment Station. Mr. McLaughlin is an extensive breeder of pure bred sheep, hogs and cattle, making a specialty of lamb production. He is also a prominent writer and speaker on the subject.

Who-What-?

In every field of human endeavor the man or the product that excels must forever live in the white light of publicity where envy and emulation are constantly at work.

Whether in art, literature, music, science or industry, excellence brings the same rewards and punishment.

Widespread recognition is the reward, and the punishment fierce denial and detraction.

When a man's work becomes a standard for the whole world, it also becomes a target for envious competitors.

The leader is assailed because he is a leader, and the effort to equal him is the proof of his leadership.

Failing to equal him the follower seeks to depreciate and to destroy—but only confirms once more the superiority of that which he wishes to supplant.

There is nothing new in this. It is as old as the world, as old as human passions—envy, fear, greed, ambition and covetousness.

And it avails nothing. The man or the product that has in them the real qualities of leadership remains the leader.

That which is good or great makes itself known no matter how loud the clamor of denial. That which deserves to live—lives.

WONDERFUL RECORD OF KANSAS

When we think of Kansas we have visions of acre upon acre of tall yellow corn. We see a flat prairie which is a natural farm land for hundreds of miles. We see a hard working and prosperous people who are helping to feed the world. We see strong men and women who have worked together through the terrible heat of summer and made the most prolific farms in the world, but we may not realize the full significance of this splendid achievement of labor.

Here are a few statistics about this state whose prosperity at harvest time concerns us all so closely:

Kansas women have voted on all municipal affairs since 1887 and have had full suffrage since 1913; has but 2 percent of illiteracy; has a death rate of only ten to one thousand and has a prison population of only 740, of whom 40 percent were non-residents of the state.

Kansas's bank deposits have increased in the last ten years from 100 million dollars to 230 million dollars. Her state tax three years ago amounted to less than .036 an acre, on the average. The bond indebtedness of Kansas is less than ten cents each for every person in the state.

Twenty-eight counties did not have a jail prisoner during all of 1914. Forty-eight counties did not send a person to the penitentiary that year. Seventy-eight counties did not have an insane patient last year. Twelve counties have not called a jury to a trial of a criminal case in years. Twenty counties do not have a prisoner in the penitentiary. Eighteen counties have no poor-farms and had but fourteen children paupers cared for by the

state in 1914.

These are wonderful figures and should make us pause in our every-day rush to consider. In the first place it is the greatest plea for the "back to the soil" movement which could be imagined. Kansas is primarily an agricultural state and there is small danger of a people in that mass of growing grain, going hungry. Hunger is the parent of crime and disease. What man with an empty stomach can be expected to regard the niceties of our laws which distinguish so clearly between mine and thine?

Another thing, which was not mentioned before, is that Kansas is a prohibition state and all prison experts agree that about 70 percent of crime comes through drink. There is a direct relation between drink and hunger. Nine times out of ten the man without food to sustain him will pay his last dime for a drink and with some reason. It warms and strengthens him for a short time and gives him a false courage which he can easily mistake for the real thing. Poverty, drink and crime are so correlated that it is almost impossible to separate them.

There is a strong sentiment in the West for equal suffrage. Not much difficulty has been experienced in getting it beyond the Mississippi. We think the reason lies in the fact that the women of the West had the true pioneer spirit and stood shoulder to shoulder with the men while they cut and hewed and dug, showing their splendid courage and womanhood in helping to conquer the wilderness.

The men have not forgotten, and woman has taken a different stand than in the East, where the conventions and trappings of luxury and civilization have partly destroyed her. The woman of the '60s who thought it a charm to be delicate and fragile, to scream at a mouse and faint at the slightest cause, is no more, but our men folk are slow at adjusting themselves to the change. Instead of greeting it with delight, these same men seem to see something strange and dangerous lurking behind it. They are used to the old order and fear the new.

Let them study the Kansas record where women have taken part in the government for many years, and ponder. No homes have gone to smash; no children have been neglected, and the state, as a whole, has made such progress that it deserves a careful study that we may benefit by its example.—Exchange.

W. J. Hill Writes An Interesting Letter On "Ingratitude."

December 15th, 1915.

My subject today is "Ingratitude." My text is found in the 17th of Luke, 17th verse. "And Jesus answering said: 'Were there not ten cleansed, but where are the nine?'"

"Now this is one of the most wonderful things we read of in the Bible. Now at this time Jesus and the disciples were going to Jerusalem, it is not known who else were along, but they passed through Samaria and Galilee, going from the northern part of the country, and as he entered into a certain village there met him ten men that were lepers which stood afar off, and it is said they lifted up their voices and said, 'Jesus, Master, have mercy on us.' A short, but a wonderful prayer, because it meant so much to them, yet only four words. It is not recorded

as to whether anyone else heard this prayer or not, but Jesus heard it. And when he saw them, he said unto them, "Go show yourselves unto the Priests." Now here is a test of their faith. It was not lawful for one who had this disease to go among other people, because there was no cure for this disease. So this was a trying time for them. This disease represents sin. Let me stop here and say this—it is no little job for a sinner to come out and make his confession. Some men had rather die than to do this, and it is death or do this, and those ten men knew it was death anyway, so they started to show themselves unto the Priests, and it came to pass as they went, they were cleansed. Get a thought right here that will help you through life—obedience is better than sacrifice.

But the great wonder in the minds of the people is: Why didn't the nine go back and give praise or thanks for the cure? Now I think I can solve this problem for you. First, you must remember that human nature is just the same the world over, and nine of these men were Jews and they knew that their people did not accept Jesus as the coming Messiah, and to go back and give him the praise for their cleansing would let them down with their race of people.

You can see the same spirit or thing in people at this age of the world, so why need you wonder? It just takes a little thinking on your part.

Now the Samaritan was said to be a stranger in the eyes of a Jew. A heathen, you see. So you can see that he didn't have this selfishness in his heart, or pride, as some upper tens call it. But I want you to remember one thing, the nine were never heard of again, but the other fellow was and he was made whole. Glory to God. Jesus not only cleansed his disease, but gave him a clean heart.

Obedience was the cause of the cure on the outside, and his faith and manhood made him whole. Now Jesus said, arise, go thy way, not with the Jews. Will you catch the great thought? We who are Christians are not

to go with the world or their ways. Jesus said, come out from among them. Be ye separate saith the Lord, and touch not the unclean thing. This means to do right. Keep yourself unspotted from the world (James 1-27.) There has been many a man who has failed to give God the glory and praise that was due Him and went on to wreck and ruin, because of some creed or selfishness. So it was with these nine men. Men can be forgiven, sins pardoned, but it takes the baptism of the Holy Ghost and fire to change the nature and make it Godlike. So I would advise all men and women to go on unto perfection, not Adamic or angelic perfection, but Christian perfection and Christ like, you may find the rule in the thirteenth chapter of first Corinthians. I hope by the help of God that this will clear the mist away and let all who read this see the truth.

Your friend in Christ,
W. J. Hill.

ARLINGTON MERCHANT FEELS BETTER

Friedrich Redeker, a business man of Arlington, Ill., was a victim of stomach and digestive troubles. He went to a hospital for an operation for another trouble. When he recovered from the operation he found his stomach trouble worse and his heart affected.

He took Mayr's Wonderful Remedy. He got his appetite back and gained in strength right away. He wrote: "I owe you some words of congratulation for your stomach remedy. I could not eat anything but soft food and the bloating from gas got so bad that at one time I had a fainting spell for three hours. I went to one of your Chicago drug stores and got your remedy. I took the remedy and the next morning was relieved. I am getting stronger and can eat anything that comes along."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Death of Mrs. Dixie Brantley Little.

Mrs. Dixie Brantley Little, a beloved young woman and the wife of Mr. Bert Little, died at the home of her father, Mr. R. E. Brantley, of the Blackford country, Sunday night. Mrs. Little was a victim of tuberculosis and had been suffering from this dread malady for over a year. Every thing possible had been done to check the ravages of the disease without avail.

The deceased was married to Mr. Little about three years ago and was about twenty-two years old when she died. She leaves a host of relatives and friends to mourn her death.

Interment will be at Oak Grove today. The funeral will be preached at eleven o'clock this morning. — Providence Enterprise.

LAST WARNING.

In surrounding counties I see the sheriffs are levying by the hundreds for 1915 tax. I hate to do this. Will you force me to do so or will you come in and pay 1915 tax, also 1914 balances where unsettled. Please come in and save yourselves costs and me an unpleasant duty.

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonsful for 50 cents.

If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectorant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonsful, because 50c worth makes a whole pint (128 teaspoonsful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. PAINS IN SIDE AND BACK

How Mrs. Kelly Suffered and How She was Cured.

Burlington, Wis.—"I was very irregular, and had pains in my side and back, but after taking Lydia E. Pinkham's Vegetable Compound Tablets and using two bottles of the Sanative Wash I am fully convinced that I am entirely cured of these troubles, and feel better all over. I know your remedies have done me worlds of good and I hope every suffering woman will give them a trial."—Mrs. ANNA KELLY, 710 Chestnut Street, Burlington, Wis.

The many convincing testimonials constantly published in the newspapers ought to be proof enough to women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

This good old root and herb remedy has proved unequalled for these dreadful ills; it contains what is needed to restore woman's health and strength.

If there is any peculiarity in your case requiring special advice, write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for free advice.

Osborne-Patterson.

Mr. Edward Osborne of Bloomington, Indiana, and Miss Annie Patterson, of Fredonia, were united in marriage Tuesday at one o'clock in the afternoon at the home of the bride's parents, Mr. and Mrs. J. M. Patterson on Main street in old Fredonia. Rev. W. T. Oakley officiating. Miss Gretna Mae Holman, one of the beauties of north Crittenden, was the maid of honor. There were only a select few of the bride's most intimate friends present, among them being Mrs. Ina Holman, of Weston, a girlhood friend of the bride. The groom is Superintendent of the Crider Creamery, and has been a trusted employee of that company for about two years and is highly esteemed by them and all who know him. He came to Fredonia from Bloomington, Ind., where he stands well and is highly connected.

The brides is one of Fredonia's most beautiful girls and is a graduate of the high school, a fine pianist and has many accomplishments which will enable her to make her home a paradise for the man of her choice. The happy couple left on the afternoon train for a bridal tour which will embrace Evansville, where the bride has a brother, and other points in the North and East. The Crittenden Record-Press extends congratulations and best wishes.

ple that can hardly be excelled, with a missionary zeal that would be hard to duplicate even in our largest and best cities and they show their faith by their works in contributing most liberally to the cause of missions.

In closing will give a brief report of our meeting and say a word about the weather. Our meeting is going forward with increasing interest. Dr. Mann is doing great preaching that is bringing results. About fifty persons have been converted at the altar to date. Our choir is one of the best, accompanied with piano and orchestra of 12 pieces. My, how these people can sing. It seems they almost raise the roof sometimes. I am delighted to have the honor of directing the music in a church like this and in a blessed meeting like God is giving us.

The weather is a little out of the ordinary, 33 degrees below zero is the coldest yet, but the people say it has been some of the most disagreeable weather ever felt in the state. As a usual thing when the thermometer registers so low it is calm and clear, but it seemed that the wind was let loose and for forty-eight hours it blew a terrible gale, making it equal to about 40 or 50 degrees below zero. I must not forget to speak of the snow, for Tuesday evening when I went home from church I waded snow knee deep, but I am enjoying it.

If my friends at home were to see me on the streets with my western outfit, they would hardly know me with my big long fur overcoat that comes to the top of my head and almost down to my heels, and my big muskrat fur cap that covers my head and ears. Of course neither the cap nor coat are mine; friends here provide for me, Mr. Edmonds, a Kentucky boy, borrowed the coat for me, and Mr. Ausman loaned me his cap. So I am ready for the snow or the blizzard, or the 50 degrees below, which the people tell me is liable to come. I think it is great to be in the Northwest, especially when the good people are so kind and generous. Dr. Mann and I have been chosen to be the first to go to the Northwest, especially when the good people are so kind and generous. GET RID OF THE STUMP

SCHOOLS ARE THE KEYS.

Fine farms, good roads, comfortable homes, and blooded stock in a community are things to have, but they do not necessarily develop good schools for the children of all the people. That this is true can be seen by a day's drive through many of the richest and most prosperous counties in old Kentucky. But good schools, sending out into the community year after year a steady stream of educated citizens, means that they will produce good

roads, fine farms, blooded stock, real homes, and every good thing in life. Farm lands without trained brains lose their fertility. Good roads without a real citizenship go to pieces. Fine stock without technical skill loses its value. Real homes without the light of education grow dark and dismal. The school is the only safeguard in our state or in any neighborhood. Fine, strong rural schools and the children on Kentucky's many farms are the keys which alone can unlock the door to a glorious golden future for the dear old Commonwealth.

WHY CHANGE DOCTORS?

MUST HURRY TO CATCH UP.

Kentucky is making progress with her schools, but she is still far behind the states that have been making progress for years. The school machinery must be set down and time is lost.
