On the afternoon of Feb. 11, 1935, the Marion City School held its first meeting of the year. The meeting was attended by a large number of parents and students, and was a great success. The school board has decided to hold monthly meetings from now on to keep the parents informed of the school's progress.

BOYS AND GIRLS CORK AND PIG CLUB

We have a new club formed by the boys and girls of the school. It is called the Cork and Pig Club, and its aim is to promote the sale of tickets for our annual cork and pig game. We have already sold over 100 tickets, and we hope to sell more in the coming weeks. The profits from the sale of tickets will go towards the purchase of new equipment for the school.

Everyone Encourage These Two Billboards on the Western New York State Fair Grounds:

As a token of appreciation for the hard work of the school board, the cork and pig game will be held on the school grounds on Friday, March 1. The tickets will be sold for 10 cents each, and the winner will receive a prize of $50. We hope to see everyone there to support the school.

TANLAC ROMANCE NOW FULLY TOLD

It's Launching And What Inspired It Is At Last Explained.

Few very few romance suggestions that are so suggestive of better conditions, whether we consider our education, our knowledge, our convenience, our opportunities, are as well-planned or as well-considered as the one described by T. C. Cooper recently.

It has been my pleasure to attend several important conventions and to be informed. "I presented Tanlac" in the most favorable manner, conveying the notion that it would prove satisfactory for both men and women.

Confident as I was of the reception, I had not entertained the slightest expectation of being disappointed. I was merely an attempt to show that the story of Tanlac is a romance of the business world just as true as the stories of the young people who are referred to in this matter.

Tanlac appears particularly to the best people everywhere who are able to judge, and we have every reason to consider it a true story of the industry, upon which so much depends for our country, as a whole.

Tanlac, which is the joint product of Henry Joseph Van Camp, a prominent man in the chemical and steel industry, is in every respect remarkable for its construction, for the use of utensils, for the accuracy with which it is made.

It is comprised of pipes, door, and other parts of which come from remote parts of the country, and it is free from defects, being made by the best known manufacturer in the country.

It has no doubt that Tanlac will be successful in its city, and will be one of the most important stories to be told.

It may be obtained in Marion at the J. R. A. Stephens store, where it is fully described and illustrated by A. B. Brown.

Henry Joseph Van Camp.

LOUTH'S BRAIN LEAKS.

The experience of Mr. Louth, a Chicagoan, is one of the most interesting ever recorded. Mr. Louth was the object of a successful operation by Dr. Brown, and the recovery was most gratifying.

Albert Elden says. Mr. Louth has not had enough opportunities to manage the business, but he says he will do his best to make things right.

Mr. Louth is said to have been acquainted with a woman until a week ago.

Albert Elden says. The trouble about Mr. Louth's brain is that he is suffering from a slight heart attack, and the treatment is not expected to improve.

It is expected that Mr. Louth will be placed in a sanatorium after the operation.

T. K. TAYLOR

"The greatest health benefit in the world is for those who are sick, but it is also for those who are well. It is not the cure of all our ills, but it is a good start for those who have been suffering in the past."

Mr. Taylor has been a leading advocate of this view of health and has made many speeches on the subject.

Mr. Taylor is the only man I know who has had a successful operation for rheumatism.
