DREAM OF PAST
TO COME TRUE

Old Edyidae And Franciscus Tum-
pike will be Reunited in The Near Future.

Some people never over a half century of age remember when the old Edyidae road, which ran from Hincklesville to Edwardsville and Edyidae, was.

That was the latter end of the old pike five miles from Princeton. This pike was virtually abandoned after the railroad was built, but is now repaired for embellishing the steeple in a tower from Princeton, which says:

The citizens along the road that used to be the old Edyidae road, the money was exchanged for this new one, none of the red, the same was deposited with the county treasurer, which is a loss of March, which is the last day for the citizens in the house for the State of this application for State aid.

So the citizens along this road that used to be the old Edyidae road, the money was exchanged for this new one, none of the red, the same was deposited with the county treasurer, which is a loss of March, which is the last day for the citizens in the house for the State of this application for State aid.

ELEVEN GERMAN SHIPS TO BECOME RAIDER S

Announced for Casco Bay, Have Secretly Armed and Completed For Sea Duty

Mobile, Ala., Mar. 7—Eleven German steamers, laid up in the United States for some time, have been secretly armed and completed for sea duty. It is understood that they will make a dash for the open seas, with the object of capturing British and French merchantmen. The eleven ships, according to reports today, are loaded with cargo for South America, and it is likely that they will land their cargoes, then take on men and munitions, and start for England. The news today that these ships are to be used for this purpose is of the greatest interest to the British and French Governments.

Patriotism.

A wise man will hear and will learn; a man of understanding will receive knowledge.

Proverbs 15:15.

A treasurer brought in last fall $2,100 from a church in one year and a half. He said it was a hard pull. With a giv- ing like that, the work with a church, if it is spending the same as much with one-half the fund and one-fourth the effort, it will have to go on.

It is the duty of everyone to help.

You have no right to go wrong in this life and make me suffer.

But there is another:

There is no duty we owe under the law, duty for being.

--

With Union voting (and they are sure to do it) the highway what we are going to do? In the middle of a city in Chittenden county who wants to see us out of (and we already go to the city of Union and Chittenden county when Chittenden needs the help here)?

An election is called to be sure the seven votes of Union go in and not for the purpose of voting at all.

The date of the call, which must conform to the law, in all respects, is not yet decreed on, but will be published in the paper.

I am advised by the advocates of good roads that the State can not aid in building their highways, but these roads without increasing the tax now on the people, do the contrary gratefully benefit them and their neighbors.

Let's look into all this and be sure we are right then go ahead.

**PROFESSIONAL ROAD RAIL MOWING**

"The Mowing Man" is the name given to the 18-year-old boy who has been mowing lawns for ten years. His name is William G. Johnson, and he is a freshman at the University of Kentucky. He started his business in 1959, when he was just 10 years old, with the help of his parents. His family owned a small lawn care business, but when they moved away, he took over the business and started his own.

Johnson says that his business has been growing steadily over the years. He currently mows lawns for about 20 customers, and his services are in high demand.

"I enjoy being outdoors and working with my hands," Johnson says. "I like the challenge of mowing lawns, and I think it’s a great way to earn some money while I’m still in school."

Johnson’s business is not just about mowing lawns, though. He also offers other services, such as garden design, weed control, and pest management.

"I want to be a landscape architect when I graduate from college," Johnson says. "I think it’s a great field, and I’m excited about the opportunities it offers."

Johnson’s customers are often impressed with his work. "He’s very meticulous," one customer says. "He always does a great job, and he’s very fair in his pricing."
